9.24.150. *Machine guns or parts contraband.* All machine guns or parts thereof, illegally held or possessed are hereby declared to be contraband.

King County

1. The following words and phrases used herein shall be construed as follows: (a) "Pistol" means any firearm or other weapon for the purpose of discharging a projectile by means of compressed air, chemical combustion or otherwise and having a barrel less than twelve inches in length, but shall not include antique pistols or revolvers manufactured prior to 1898 and held as collector's items.

(b) "Crime of violence" means any of the following crimes or an attempt to commit any of the same: Murder, manslaughter, rape, mayhem, first degree assault, robbery, burglary and kidnapping.

2. It is unlawful for any merchant or secondhand dealer, or any clerk, agent or employee of any merchant or secondhand dealer, to sell, give away or dispose of any pistol to any person at retail, unless such person is personally known to the seller or shall present clear evidence of his identity, nor without completing a true record in triplicate of every pistol sold or disposed of. • • • One copy shall within six hours be sent by registered mail to the Sheriff of King County who shall, within seventy-two hours, exclusive of Sundays and holidays, investigate the information contained in said record and report his findings to the merchant or secondhand dealer.

3. It is unlawful for any merchant or secondhand dealer or any clerk, agent or employee of any merchant or secondhand dealer to deliver any pistol to any purchaser until said merchant or secondhand dealer has received a report from the Sheriff that said purchaser is not a fugitive from justice and that said purchaser has never been convicted in this state or elsewhere of a crime of violence, or of drug addiction or of habitual drunkenness and has never been confined to a mental institution; provided, that if such merchant or secondhand dealer does not receive such report from the Sheriff within seventy-two hours, exclusive of Sundays and holidays, after he has mailed a copy of the record to the Sheriff as required by Section 2, then such merchant or secondhand dealer may deliver the pistol to the purchaser; provided further, that this section shall not apply to sales at wholesale, or to sales to persons exhibiting a valid license to carry a pistol concealed issued pursuant to RCW 9.41.070, or to sales to law enforcement officers.

4. It is unlawful for any person who is a fugitive from justice or who has been convicted in this state or elsewhere of a crime of violence, or of drug addiction or of habitual drunkenness or has been confined to a mental institution to purchase a pistol and it is further unlawful for any such person to fail to disclose such information when applying for the purchase of a pistol.

8.40.020. *Supplying firearms or ammunition to minor unlawful.* It is unlawful for any person in King County, state of Washington, outside the boundaries of incorporated cities and towns within King County, to sell, barter, hire, loan or give, or permit to be sold, bartered, hired, loaned or given to any minor under the age of twenty-one years, any revolver, pistol or similar firearm or any ammunition for the same.

Kirkland

11.28.030. *Delivery to minors and certain others forbidden.* No person shall deliver a pistol to any person under the age of twenty-one or to one whom he has reasonable cause to believe has been convicted of a crime of violence, or is a drug addict, an habitual drunkard, or of unsound mind.

11.28.120. *Pistol—delivery to purchaser.* In addition to the other requirements of Sections 11.28.110 through 11.28.180, no seller shall deliver a pistol to the purchaser thereof until seventy-two hours have elapsed from the time of the application for the purchase thereof as provided herein, and when delivered, the pistol shall be securely wrapped and shall be unloaded.

11.28.130. *Pistol—purchasing—information required—procedure.* At the time of applying for the purchase of a pistol, the purchaser shall sign in duplicate and deliver to the seller an application containing his full name, address, occupation, place of birth, and the date and hour of the application; and a description of the weapon including the make, model, caliber and manufacturer's number; and a statement that he has never been convicted in this state or elsewhere of a crime of violence, drug addiction or habitual drunkenness, or has never been legally judged to be of unsound mind. The seller shall, by the end of the business day, sign and attach his address and deliver the original of such application to the chief of police of the city. The seller shall deliver the pistol to the purchaser following seventy-two hours thereafter, unless the seller is notified in writing by the chief of police of the city of denial. The application shall not be denied unless the purchaser has been convicted in this state or elsewhere, of a crime of violence, drug addiction or habitual drunkenness, or is legally judged to be of unsound mind. The chief of police for the city shall maintain a file containing the original of the application to purchase a pistol.

11.28.150. *Pistol—dealer—license required.* No retail dealer shall sell or otherwise transfer, or expose for sale or transfer, or have in his possession with intent to sell, or otherwise transfer any pistol without being licensed as a dealer pursuant to RCW Chapter 9.41.

11.28.170. *Possession of firearms by prohibited persons unlawful.* It is unlawful for any person prohibited from possessing a firearm (as therein defined) under Title VII of the "Omnibus Crime Control and Safe Streets Act of 1968" as amended by Title III of the "Gun Control Act of 1968" (Sections 1201 through 1203 inclusive) to possess such a firearm within the corporate limits of the city.

11.28.180. *Noncitizens—license required.* It is unlawful for any person subject to the licensing requirements of RCW 9.41.170 relating to noncitizens of the United States to carry or possess any shotgun, rifle or other firearm without first obtaining such license.

Longview

15–8. *Sales by dealers.* Sales by dealers shall be regulated as hereinafter provided: (a) The City Clerk of said city shall grant licenses in forms prescribed by the Washington State Director of Licenses effective for not more than one year from the date of issue permitting the licensee to sell pistols within this state subject to the following conditions, for breach of any of which the license shall be forfeited and upon conviction of any such breach the licensee shall be deemed guilty of a misdemeanor and punished as provided in Sec. 1–8 of this Code of Ordinances. (1) The business shall be carried on only in the building designated in the license. (2) The license or copy thereof, certified by the issuing authority, shall be displayed on the premises where it can easily be read. (3) No pistol shall be sold (a) in violation of any provisions of this Chapter, nor, (b) shall a pistol be sold under any circumstances unless the purchaser is personally known to the seller or shall present clear evidence of his identity.

15–12. *Alteration of identifying marks.* No person shall change, alter, remove, or obliterate the name of the maker, model, manufacturer's number, or other mark of identification on any pistol. Possession of any pistol upon which any such mark shall have been changed, altered, removed, or obliterated, shall be prima facie evidence that the possessor has changed, altered, removed, or obliterated the same. This shall not apply to replacement barrels in old revolvers, which barrels are produced by current manufacturers and therefor do not have the markings on the barrels of the original manufacturers who are no longer in business.

15–13. *Antiques; excepted.* This Chapter shall not apply to antique pistols and revolvers manufactured prior to 1898 and held as collector's items.

Lynwood

10.04.360. *Crime of violence defined.* The term "crime of violence" as used in this chapter means any of the following crimes or an attempt to commit any of the same: murder, manslaughter, rape, mayhem, first degree assault, robbery, burglary and kidnapping.

10.04.370. *Firearm defined.* The word "firearm" shall include but is not limited to mean any weapon or device capable of propelling a missile through the force of combustion or explosion of gunpowder or similar substance.

10.04.400. *Persons convicted of crimes of violence not to possess arms.* No person who has been convicted in this state or elsewhere of a crime of violence, shall own a pistol or have one in his possession under his control.

10.04.450. *Delivery to minors and certain other persons.* No person shall deliver a pistol to any person under the age of twenty-one or to one whom he has reasonable cause to believe has been convicted of a crime of violence, or is a drug addict, an habitual drunkard or of unsound mind.

10.04.460. *Use of firearms by minor.* No minor under the age of sixteen years shall handle or have in his possession, or under his control, except while accompanied by or under the immediate charge of his parent or guardian, any firearm of any kind, for hunting or target practice, or for other purposes. Every person violating any of the foregoing provisions, or aiding or knowingly permitting any such party to violate the same, shall be guilty of a misdemeanor.

10.04.470. *Regulating sales—Purchaser's statement.* No seller shall deliver a pistol to the purchaser thereof until forty-eight hours shall have elapsed from the time of the application for the purchase thereof, and when delivered, said pistol shall be securely wrapped and shall be unloaded. At the time of applying for the purchase of a pistol, the purchaser shall sign in triplicate and deliver to the seller a statement containing his full name, address, occupation, color, birthplace, the date and hour of application, the calibre, make, model and manufacturer's number of the pistol to be purchased and statement that he has never been convicted in this state or elsewhere of a crime of violence. The seller within six hours after such application, shall sign and attach his address and forward by registered mail one copy of such statement to the chief of police; and the duplicate duly signed by the seller shall within seven days be sent by him with his address to the director of licenses; the triplicate he shall retain for six years. This section shall not apply to sales at wholesale.

10.04.480. *Dealers to be licensed.* No retail dealer shall sell or otherwise transfer, or expose for sale or transfer, or have in his possession with intent to sell, or otherwise transfer any pistol without being licensed as provided by law under the requirements of RCW 9.41.110.

10.04.490. *Certain transfers of weapons prohibited.* No person other than a duly licensed dealer shall make any loan secured by a mortgage, deposit or pledge for a loan. He shall keep such records and make such reports as are provided by law for pawnbrokers and secondhand dealers in cities of the first class. A duly licensed dealer may mortgage any pistol or stock of pistols but shall not deposit or pledge the same with any other person. No person shall lend or give a pistol to another or otherwise deliver a pistol contrary to the provisions of this chapter.

10.04.500. *Alteration of identifying marks prohibited.* No person shall change, alter, remove, or obliterate the name of the maker, model, manufacturer's number, or other mark of identification on any pistol. Possession of any pistol upon which any such mark shall have been changed, altered, removed, obliterated, shall be prima facie evidence that the possessor has changed, altered, removed or obliterated the same.

10.04.510. *Purchasing weapon by use of false information.* Any person who shall in purchasing or otherwise securing delivery of a pistol or in applying for a license to carry the same give false information or offer false evidence of his identity shall be guilty of a misdemeanor.

10.04.520. *Antique pistols excepted.* This chapter shall not apply to antique pistols unsuitable for use as firearms and possessed as curiosities or ornaments.

Marysville

6.64.010. *Definitions. Short firearm, pistol.* The term "short firearm" or "pistol" as used in this chapter means any firearm with a barrel less than twelve inches in length. *Crime of violence.* The term "crime of violence" as used in this chapter means any of the following crimes or an attempt to commit any of the same: murder, manslaughter, rape, mayhem, first degree assault, robbery, burglary and kidnaping.

6.64.040. *Convicted persons.* No person who has been convicted in this state or elsewhere of a crime of violence shall own a pistol or have one in his possession or under his control.

6.64.080. *Prohibited pistol delivery.* No person shall deliver a pistol to any person under the age of twenty-one or to one whom he has reasonable cause to believe has been convicted of a crime of violence, or is a drug addict, an habitual drunkard, or of unsound mind.

6.64.090. *Commercial sales of pistols—records.* The chief of police shall grant licenses in forms prescribed by the director of licenses effective for not more than one year from the date of issue, permitting the licensee to sell pistols within this city • • •.

6.64.100. *Pistol dealers—license required.* No retail dealer shall sell or otherwise transfer, or expose for sale or transfer, or have in his possession with intent to sell, or otherwise transfer any pistol without being licensed as provided by law under the requirements of RCW 9.41.110.

6.64.110. *Prohibited transfer of pistols.* No person other than a duly licensed dealer shall make any loan secured by a mortgage, deposit or pledge of a pistol. Any licensed dealer receiving a pistol as a deposit or pledge for a loan shall keep such records and make such reports as are provided by law for pawn-brokers and secondhand dealers in cities of the first class. A duly licensed dealer may mortgage any pistol or stock of pistols but shall not deposit or pledge the same with any other person. No person shall lend or give a pistol to another or otherwise deliver a pistol contrary to the provisions of this chapter.

V 37-80 APR 25 72 XUM

6.64.120. *Pistol identifying mark alteration.* No person shall change, alter, remove, or obliterate the name of the maker, model, manufacturer's number, or other mark of identification on any pistol. Possession of any pistol upon which any such mark shall have been changed, altered, removed or obliterated, shall be prima facie evidence that the possessor has changed, altered, removed or obliterated the same.

6.64.140. *Unusable pistols.* This chapter shall not apply to antique pistols unsuitable for use as firearms and possessed as curiosities or ornaments.

6.64.150. *Machine guns prohibited.* It shall be unlawful for any person to manufacture, own, buy, sell, loan, furnish, transport, or to have in possession, or under control, any machine gun, or any part thereof capable of use or assembling or repairing any machine gun; provided, however, that such limitation shall not apply to any police officer in the discharge of official duty, or to any officer or member of the armed forces of the United States or the state of Washington.

6.64.160. *Machine gun defined.* For the purpose of this chapter a "machine gun" is defined as any firearm or weapon known as a machine gun, mechanical rifle, submachine gun, and/or any other weapon, mechanism or instrument not requiring that the trigger be pressed for each shot and having a reservoir clip disc, drum, belt or other separate mechanical device for storing, carrying or supplying ammunition which can be loaded into such weapon, mechanism, or instrument and fired therefrom at a rate of five or more shots per second.

Mountlake Terrace

5.07.010. *Certain persons forbidden to possess arms.* No person who has been convicted in this state or elsewhere of a crime of violence, shall own a firearm or have one in his possession under his control.

5.07.014. *Delivery to minors and others forbidden.* No person shall deliver a pistol to any person under the age of 21 or to one whom he has reasonable cause to believe has been convicted of a crime of violence, or is a drug addict, an habitual drunkard, or of unsound mind.

5.07.015. *Sales regulated.* It is unlawful for any merchant or secondhand dealer, or any clerk, agent or employee of any merchant or secondhand dealer, to sell, give away or dispose of any pistol to any person at retail, unless such person is personally known to the seller or shall present clear evidence of his identity, nor without completing a true record in triplicate of every pistol sold or disposed of. * * * One copy shall within six hours be sent by registered mail to the chief of police of the City of Mountlake Terrace who shall, within seventy-two hours, exclusive of Sundays and holidays, investigate the information contained in said record and report his findings to the merchant or secondhand dealer.

5.07.0151. It is unlawful for any merchant or secondhand dealer or any clerk, agent or employee of any merchant or secondhand dealer to deliver any pistol to any purchaser until said merchant or secondhand dealer has received a report from the chief of police that said purchaser is not a fugitive from justice and that said purchaser has never been convicted in this state or elsewhere of a crime of violence, nor an offense involving narcotics nor of repeated drunkenness and has never been confined to a mental institution; provided, that if such merchant or secondhand dealer does not receive such report from the chief of police within seventy-two hours, exclusive of Sundays and holidays, after he has mailed a copy of the record to the chief of police as required by Section 2, then such merchant or secondhand dealer may deliver the pistol to the purchaser; provided further, that this section shall not apply to sales at wholesale, or to sales to persons exhibiting a valid license to carry a pistol concealed issued pursuant to RCW 9.41.070, or to sales to law enforcement officers.

5.07.0152. It is unlawful for any person who is a fugitive from justice or who has been convicted in this state or elsewhere of a crime of violence, or an offense involving narcotics or of repeated drunkenness or has been confined to a mental institution to purchase a pistol in this city, and it is further unlawful for any such person to fail to disclose such information when applying for the purchase of a pistol.

5.07.016. *Dealers to be licensed.* No retail dealer shall sell or otherwise transfer, or expose for sale or transfer, or have in his possession with intent to sell, or otherwise transfer any pistol without being licensed as provided by law under the requirements of Revised Code of Washington Section 9.41.110, as the same now is or hereafter may be amended.

5.07.017. *Certain transfers forbidden.* No person other than a duly licensed dealer shall make any loan secured by a mortgage, deposit, or pledge for a loan. * * * No person shall lend or give a firearm to another known, or with reasonable knowledge believed to have suicidal tendencies or otherwise deliver a pistol contrary to the provisions of this ordinance.

5.07.018. *Alteration of identifying marks prohibited.* No person shall change, alter, remove, or obliterate the name of the maker, model, manufacturer's number, or other mark of identification on any pistol. Possession of any pistol upon which any such mark shall have been changed, altered, removed, obliterated, shall be prima facie evidence that the possessor has changed, altered, removed or obliterated the same.

5.07.019. *False information forbidden.* No person shall in purchasing or otherwise securing delivery of a pistol or in applying for a license to carry the same give false information or offer false evidence of his identity.

5.07.020. *Exceptions.* This ordinance shall not apply to antique firearms unsuitable for use as firearms and possessed as curiosities or ornaments.

5.07.021. *Machine guns or parts contraband.* All machine guns, or parts thereof, illegally held or possessed are hereby declared to be contraband, and it shall be the duty of all police officers to seize said machine gun, or parts thereof, wherever and whenever found.

5.07.022. *Dangerous weapons—evidence.* Every person who shall manufacture, sell or dispose of or have in his possession any instrument or weapon of the kind usually known as sling shot, sand club, zipgun, or metal knuckles; shall furtively carry, or conceal any dagger, dirk, knife, or other dangerous weapon or firearm; or who shall use any contrivance or device for suppressing the noise of any firearm, shall be guilty of a misdemeanor.

5.07.023. *Definitions.* The word firearm shall include but be not limited to mean any weapon or device capable of propelling a missile through the force of combustion or explosion of gunpowder or similar substance.

Ocean Shores

7.28.080. *Delivery to minors and certain others forbidden.* No person shall deliver a pistol to any person under the age of twenty-one or to one whom he has reasonable cause to believe has been convicted of a crime of violence, or is a drug addict, an habitual drunkard, or of unsound mind.

7.28.090. *Pistol sales regulated.* No seller shall deliver a pistol to the purchaser thereof until forty-eight hours shall have elapsed from the time of the application for the purchase thereof, * * *.

7.28.100. *Pistol dealers to be licensed.* No retail dealer shall sell or otherwise transfer, or expose for sale or transfer, or have in his possession with intent to sell, or otherwise transfer any pistol without being licensed as provided by law under the requirements of RCW 9.41.110.

7.28.110. *Certain transfers of pistols forbidden.* No person other than a duly licensed dealer shall make any loan secured by a mortgage, deposit or pledge for a loan shall keep such records and make such reports as are provided by law for pawnbrokers and second-hand dealers in cities of the first class (RCW Chapter 19.60). A duly licensed dealer may mortgage any pistol or stock or pistols but shall not deposit or pledge the same with any other person. No person shall lend or give a pistol to another or otherwise deliver a pistol contrary to the provisions of this chapter.

7.28.120. *Alteration of identifying marks on pistol prohibited.* No person shall change, alter, remove, or obliterate the name of the maker, model, manufacturer's number, or other mark of identification on any pistol. Possession of any pistol upon which any such mark shall have been changed, altered, removed, or obliterated, shall be prima facie evidence that the possessor has changed, altered, removed or obliterated the same.

7.28.140. *Exceptions for unusable pistols.* This chapter shall not apply to antique pistols unsuitable for use as firearms and possessed as curiosities or ornaments.

7.28.150. *Machine guns prohibited.* It shall be unlawful for any person to manufacture, own, buy, sell loan, furnish, transport, or to have in possession, or under control, any machine gun, or any part thereof capable of use or assembling or repairing any machine gun; provided, however, that such limitation shall not apply to any police officer in the discharge of official duty, or to any officer or member of the armed forces of the United States or the state of Washington.

7.28.160. *Machine gun defined.* For the purpose of this chapter a machine gun is defined as any firearm or weapon known as a machine gun, mechanical rifle, submachine gun, and/or any other weapon, mechanism or instrument not requiring that the trigger be pressed for each shot and having a reservoir clip disc, drum, belt or other separable mechanical device for storing, carrying or supplying ammunition which can be loaded into such weapon, mechanism, or instrument and fired therefrom at a rate of five or more shots per second.

Olympia

9.41.040. *Certain persons forbidden to possess arms.* No person who has been convicted in this state or elsewhere of a crime of violence, shall own a pistol or have one in his possession or under his control. * * *.

9.41.080. *Delivery to minors and others forbidden.* No person shall deliver a pistol to any person under the age of twenty-one or to one who he has reasonable cause to believe has been convicted of a crime of violence, or is a drug addict, an habitual drunkard, or of unsound mind.

9.41.090. *Sales regulated—application to purchase—grounds for denial.* In addition to the other requirements of RCW sections 9.41.010 through 9.41.150 as now or hereinafter amended, no seller shall deliver a pistol to the purchaser thereof until seventy-two hours shall have elapsed from the time of the application for the purchase thereof * * *.

9.41.093. *Exemptions.* The following shall be exempt from the provisions of RCW 9.41.090 as now or hereinafter amended: sales by wholesalers to dealers; and the sale of antique pistols exempted by the provisions of RCW 9.41.150, as amended.

9.41.100. *Dealers to be licensed.* No retail dealer shall sell or otherwise transfer, or expose for sale or transfer, or have in his possession with intent to sell, or otherwise transfer, any pistol without being licensed as hereinafter provided.

9.41.120. *Certain transfers forbidden.* No person other than a duly licensed dealer shall make any loan secured by a mortgage, deposit or pledge of a pistol. Any licensed dealer receiving a pistol as a deposit or pledge for a loan shall keep such records and make such reports as are provided by law for pawnbrokers and second-hand dealers in cities of the first class. A duly licensed dealer may mortgage any pistol or stock of pistols but shall not deposit or pledge the same with any other person.

9.41.140. *Alteration of identifying marks—exceptions.* No person shall change, alter, remove, or obliterate the name of the maker, model, manufacturer's number, or other mark of identification on any pistol. Possession of any pistol upon which any such mark shall have been changed, altered, removed, or obliterated, shall be prima facie evidence that the possessor has changed, altered, removed, or obliterated the same. This shall not apply to replacement barrels in old revolvers, which barrels are produced by current manufacturers and therefor do not have the markings on the barrels of the original manufacturers who are no longer in business.

9.41.150. *Exemptions.* RCW 9.41.010 through 9.41.160 shall not apply to antique pistols and revolvers manufactured prior to 1898 and held as collector's items.

9.41.170. *Alien's license to carry firearms—exception.* It shall be unlawful for any person who is not a citizen of the United States, or who has not declared his intention to become a citizen of the United States, to carry or have in his possession at any time any shotgun, rifle, or other firearm, without first having obtained a license from the director of motor vehicles, and such license is not to be issued by the director of motor vehicles except upon the certificate of the consul domiciled in the state and representing the country of such alien, that he is a responsible person and upon the payment for the license of the sum of fifteen dollars: *Provided*, That this section shall not apply to Canadian citizens resident in a province which has an enactment or public policy providing substantially similar privilege to residents of the state of Washington and who are carrying or possessing weapons for the purpose of using them in the hunting of game while such persons are in the act of hunting, or while on a hunting trip, or while such persons are competing in a bona fide trap or skeet shoot or any other organized contest where rifles, pistols, or shotguns are used as to weapons used in such contest. * * *.

9.41.190. *Machine guns prohibited.* That it shall be unlawful for any person to manufacture, own, buy, sell, loan, furnish, transport, or have in possession, or under control, any machine gun, or any part thereof capable of use or assembling or repairing any machine gun: *Provided, however*, That such limitation shall not apply to any peace officer in the discharge of official duty, or to any officer or member of the armed forces of the United States or the state of Washington.

9.41.200 *Machine gun defined.* For the purpose of RCW 9.41.190 through 9.41.220 a machine gun is defined as any firearm or weapon known as a machine gun, mechanical rifle, submachine gun, and/or any other weapon, mechanism, or instrument not requiring that the trigger be pressed for each shot and having a reservoir clip, disc, drum, belt, or other separable mechanical device for storing, carrying, or supplying ammunition which can be loaded into such weapon, mechanism, or instrument, and fired therefrom at the rate of five or more shots per second.

Pasco

9.24.060. *Selling revolvers and pistols to minors.* It is unlawful for any person within the city to sell, give, or permit to be sold or given to any person under the age of eighteen years, any revolver or pistol.

Raymond

5.04.010. *Unlawful to sell firearms or air rifles to minors.* It shall be unlawful for any person, firm or corporation to sell any firearms or air rifles, or B. B. guns to minors.

Renton

5–15. *Machine guns—Prohibition.* That it shall be unlawful for any person to manufacture, own, buy, sell, loan, furnish, transport, or have in possession, or under control, any machine gun: Provided, however, that such limitation shall not apply to any police officer in the discharge of official duty, or to any officer or member of the armed forces of the United States or the state of Washington.

5–16. *Machine gun defined.* For the purpose of this Ordinance a machine gun is defined as any firearm or weapon known as a machine gun, mechanical rifle, submachine gun, and/or any other weapon, mechanism, or instrument not requiring that the trigger be pressed for each shot and having a reservoir clip, disc, drum, belt, or other separable mechanical device for storing, carrying, or supplying ammunition which can be loaded into such weapon, mechanism, or instrument, and fired therefrom at the rate of five or more shots per second.

5–17. *Machine guns or parts contraband.* All machine guns, or parts thereof, illegally held or possessed are hereby declared to be contraband, and it shall be the duty of all police officers to seize said machine gun, or parts thereof, wherever and whenever found.

2424–I: The following words and phrases used herein shall have the following meanings, to-wit: A. "Pistol" means any firearm or other weapon for the purpose of discharging a projectile by means of compressed air, chemical combustion or otherwise and having a barrel less than twelve inches in length, but shall not include antique pistols or revolvers manufactured prior to 1898 and so held as collector's items.

B. "Crime of violence" means any of the following crimes or an attempt to commit any of the same: Murder, manslaughter, rape, mayhem, first degree assault, robbery, burglary and kidnapping.

C. "Fugitive from justice" means a person who, having committed a crime, flees from the jurisdiction where it was committed to evade arrest.

D. "Law enforcement officer" means any person who by virtue of his office or public employment is vested by law with a duty to maintain public order or to make arrests for offenses.

2424–II: It is unlawful for any merchant, business, or second-hand dealer, or any clerk, agent, representative or employee of any such merchant, business, or second-hand dealer, to sell, give away, or dispose of any pistol to any person at retail, unless such person is personally known to the seller or shall present clear evidence of his identity, nor without completing a true record, in triplicate, of every pistol sold or disposed of. * * *. One copy of such record shall within six (6) hours after the signing thereof be sent by registered mail to the Chief of Police of the City of Renton, or in the alternative, may be personally delivered to the office of the Chief of Police within said period of time, and the Chief of Police shall, within seventy two (72) hours, exclusive of Sundays and Legal Holidays, investigate the information contained in said record, and report his findings to the merchant, business or second-hand dealer.

2424–III: It is unlawful for any merchant, business, or second-hand dealer, or any clerk, agent, representative or employee of any merchant, business or second-hand dealer, to deliver any pistol to any purchaser until said merchant, business, second-hand dealer has received a report from the Chief of Police that said purchaser is not a fugitive from justice and has never been convicted in this state or elsewhere of a crime of violence, or of drug addiction, or habitual drunkenness and has never been confined to a mental institution; provided that if such merchant, business or second-hand dealer does not receive such report from the Chief of Police within seventy-two (72) hours, exclusive of Sundays and Legal Holidays, after he has mailed or personally delivered a copy of the record to the Chief of Police as required by Section II, then such merchant, business or second-hand dealer may deliver the pistol to the purchaser; provided further that this Section shall not apply to sales at wholesale, or to sales to persons exhibiting a valid license to carry a pistol concealed issued pursuant to RCW 9.41.070, or to sales to law enforcement officers as specified in RCW 9.41.060.

2424–IV: It is unlawful for any person who is a fugitive from justice or who has been convicted in this state or elsewhere of a crime of violence, or of drug addiction or of habitual drunkenness or has been confined to a mental institution to purchase a pistol in the City of Renton, and it is further unlawful for any such person to fail to disclose such information when applying for the purchase of a pistol.

Richland

1.28. *Selling, etc., of revolvers and pistols to minors less than eighteen years of age.* It shall be unlawful for any person within the City to sell, give, or permit to be sold or given to any person under the age of eighteen years, any revolver or pistol.

Seattle

1. The following words and phrases used herein shall be construed as follows: (a) "Pistol" means any firearm or other weapon for the purpose of discharging a projectile by means of compressed air, chemical combustion or otherwise and having a barrel less than twelve inches in length, but shall not include antique pistols or revolvers manufactured prior to 1898 and held as collector's items.

(b) "Crime of violence" means any of the following crimes or an attempt to commit any of the same: Murder, manslaughter, rape, mayhem, first degree assault, robbery, burglary and kidnapping.

(c) "Fugitive from justice" means a person who, having committed a crime, flees from the jurisdiction where it was committed to evade arrest.

(d) "Law enforcement officer" means any person who by virtue of his office or public employment is vested by law with a duty to maintain public order or to make arrests for offenses.

2. It is unlawful for any merchant or secondhand dealer, or any clerk, agent or employee of any merchant or secondhand dealer, to sell, give away or dispose of any pistol to any person at retail, unless such person is personally known to the seller or shall present clear evidence of his identity, nor without completing a true record in triplicate of every pistol sold or disposed of. * * *. One copy shall within six hours be sent by registered mail to the chief of police of The City of Seattle who shall, within seventy-two hours, exclusive of Sundays and holidays, investigate the information contained in said

V 37-80 APR 25 72 XUM

record and report his findings to the merchant or secondhand dealer.

3. It is unlawful for any merchant or secondhand dealer or any clerk, agent or employee of any merchant or secondhand dealer to deliver any pistol to any purchaser until said merchant or secondhand dealer has received a report from the chief of police that said purchaser is not a fugitive from justice and that said purchaser has never been convicted in this state or elsewhere of a crime of violence, or of drug addiction or of habitual drunkenness and has never been confined to a mental institution; provided, that if such merchant or secondhand dealer does not receive such report from the chief of police within seventy-two hours, exclusive of Sundays and holidays, after he has mailed a copy of the record to the chief of police as required by Section 2, then such merchant or secondhand dealer may deliver the pistol to the purchaser; provided further, that this section shall not apply to sales at wholesale, or to sales to persons exhibiting a valid license to carry a pistol concealed issued pursuant to RCW 9.41.070, or to sales to law enforcement officers.

4. It is unlawful for any person who is a fugitive from justice or who has been convicted in this state or elsewhere of a crime of violence, or of drug addiction or of habitual drunkenness or has been confined to a mental institution to purchase a pistol in this city, and it is further unlawful for any such person to fail to disclose such information when applying for the purchase of a pistol.

5. Any person violating or failing to comply with any of the provisions of this ordinance shall upon conviction thereof be fined in a sum not to exceed five hundred dollars or imprisoned in the city jail for a term not exceeding one hundred eighty days, or both so fined and imprisoned.

Snohomish

9.04.360. *Selling, etc., of revolvers and pistols to minors.* It shall be unlawful for any person within the city to sell, give, or permit to be sold or given to any person under the age of twenty-one years, any revolver or pistol.

Spokane

20. *Certain persons forbidden to possess arms.* No person who has been convicted in this state or elsewhere of a crime of violence shall own a pistol or have one in his possession or under his control.

25. *Sales regulated.* No seller shall deliver a pistol to the purchaser thereof until seventy-two hours shall have elapsed from the time of the application for the purchase thereof, and, when delivered, said pistol shall be securely wrapped and shall be unloaded. • • •. This section shall not apply to sales at wholesale.

30. *False information forbidden.* No person shall, in purchasing or otherwise securing delivery of a pistol or in applying for a license to carry the same, give false information or offer false evidence of his identity.

35. *Alteration of identifying marks prohibited.* No person shall change, alter, remove, or obliterate the name of the maker, model, manufacturer's number, or other mark of identification on any pistol. Possession of any pistol upon which any such marks shall have been changed, altered, removed or obliterated, shall be prima facie evidence that the possessor has changed, altered, removed or obliterated the same; Provided, that this section shall not apply to antique pistols unsuitable for use as firearms and possessed as curiosities or ornaments

45. *Delivery to minors and others forbidden.* No person shall deliver a pistol to any person under the age of twenty-one or to one who he has reasonable cause to believe has been convicted of a crime of violence, or is a drug addict, an habitual drunkard or of unsound mind.

46. *Unlawful to manufacture, sell or possess certain weapons or to use silencer on firearms.* No person shall manufacture, sell, dispose of or have in his possession any instrument or weapon of any kind usually known as slung shot, sand club, metal knuckles, spring-blade knife or any knife the blade of which is automatically released by a spring mechanism or other mechanical device; or furtively carry or conceal any dagger, dirk, knife or other dangerous weapon; or use any contrivance or device for suppressing the noise of any firearm.

Tacoma

8.66.080. *Definitions.* The following words and phrases used in Sections 8.66.080 to 8.66.120, inclusive, shall be construed as follows:

1. "Pistol" means any firearm or other weapon for the purpose of discharging a projectile by means of compressed air, chemical combustion or otherwise and having a barrel less than twelve inches in length, but shall not include antique pistols or revolvers manufactured prior to 1898 and held as collector's items.

2. "Crime of violence" means any of the following crimes or an attempt to commit any of the same: Murder, manslaughter, rape, mayhem, first degree assault, robbery, burglary and kidnapping.

3. "Fugitive from justice" means a person who, having committed a crime, flees from the jurisdiction where it was committed to evade arrest.

4. "Law enforcement officer" means any person who by virtue of his office or public employment is vested by law with a duty to maintain public order or to make arrests for offenses.

8.66.090. *Records required before sale.* It is unlawful for any merchant or secondhand dealer, or any clerk, agent or employee of any merchant or secondhand dealer, to sell, give away or dispose of any pistol to any person at retail, unless such person is personally known to the seller or shall present clear evidence of his identity, nor without completing a true record in triplicate of every pistol sold or disposed of. • • •. One copy shall within six hours be sent by registered mail to the chief of police of the City of Tacoma who shall, within seventy-two hours, exclusive of Sundays and holidays, investigate the information contained in said record and report his findings to the merchant or secondhand dealer.

8.66.100. *Delivery prohibited prior to receipt of records.* It is unlawful for any merchant or secondhand dealer or any clerk, agent or employee of any merchant or secondhand dealer to deliver any pistol to any purchaser until said merchant or secondhand dealer has received a report from the chief of police that said purchaser is not a fugitive from justice and that said purchaser has never been convicted in this state or elsewhere of a crime of violence, or of drug addiction or of habitual drunkenness and has never been confined to a mental institution; provided, that if such merchant or secondhand dealer does not receive such report from the chief of police within seventy-two hours, exclusive of Sundays and holidays, after he has mailed a copy of the record to the chief of police as required by Section 8.66.090, then such merchant or secondhand dealer may deliver the pistol to the purchaser; provided further, that this section shall not apply to sales at wholesale, or to sales to persons exhibiting a valid license to carry a pistol concealed issued pursuant to RCW 9.41.070, or to sales to law enforcement officers.

8.66.110. *Sales prohibited to certain persons.* It is unlawful for any person who is a fugitive from justice or who has been convicted in this state or elsewhere of a crime of violence, or of drug addiction or of habitual drunkenness or has been confined to a mental institution to purchase a pistol in this city, and it is further unlawful for any such person to fail to disclose such information when applying for the purchase of a pistol.

WEST VIRGINIA

State Law

W. VA. CODE ANN.

61–6–1a. *Control of riots and unlawful assemblages.* Members of the department of public safety, sheriffs and mayors, and those acting under their order, may, when engaged in suppressing a riot, rout or unlawful assemblage, cordon off any area or areas threatened by such riot, rout or unlawful assemblage, and may take all actions which are necessary and reasonable under the emergency to restore law and order, and such actions may be, but are not limited to, the following:

(a) Prohibit the sale, offering for sale, dispensing, furnishing or transportation of firearms or other dangerous weapons, ammunition, dynamite or other dangerous explosives in, to or from such areas.

(b) Prohibit the sale, offering for sale, dispensing, furnishing or consumption of alcoholic beverages or nonintoxicating beer in a public place in such areas, and prohibit the transportation of alcoholic beverages or nonintoxicating beer in, to or from such areas.

(c) Impose curfews, as required, to control movement of persons in, to and from such areas.

(d) Enter a private dwelling or other building or other private place in such areas when in fresh pursuit of a rioter, when in search of a sniper who has fired upon a person from such a dwelling or other building or place or when in search of firearms, other dangerous weapons, ammunition, dynamite or other dangerous explosives when there is reason to believe that such items are stored in the said dwelling, building or place and that they will be removed therefrom before a search warrant could be obtained.

No person shall willfully fail to obey a lawful order of any mayor, sheriff, deputy sheriff, municipal police officer, member of the department of public safety, or other officer, given pursuant to this section.

Any person who violates an order given pursuant to the authority of this section shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined not more than five hundred dollars, or imprisoned in the county jail not more than six months, or both fined and imprisoned.

61–7–8. *Possession of machine guns, high-powered rifles, or ammunition therefor; permits; aliens may not possess firearms.* It shall be unlawful for any person to carry, transport, or have in his possession, any machine gun, sub-machine gun, or what is commonly known as a high-powered rifle, or any gun of similar kind or character, or any ammunition therefor, except on his own premises or premises leased to him for a fixed term, until such person shall have first obtained a permit from the superintendent of the department of public safety of this State, and approved by the governor, or until a license therefor shall have been obtained from the circuit court as in the case of pistols, and all such licenses, together with the numbers identifying such rifles, shall be certified to the superintendent of the department of public safety: Provided, that nothing herein contained shall prevent the use of rifles by bona fide rifle club members who are free-

holders or tenants for a fixed term in this State, at their usual or customary place of practice, or licensed hunters in the actual hunting of game animals. No such permit shall be granted by said superintendent except in cases of riot, public danger, and emergency, until such applicant shall have filed his written application with said superintendent, in accordance with the rules and regulations that may be from time to time prescribed by said department of public safety relative thereto, which application shall be accompanied by a fee of two dollars to be used in defraying the expense of issuing such permit, and such application shall contain the same provisions as are required to be shown under the provisions of section two [§ 61–7–2] of this article, by applicants for pistol license, and shall be duly verified by such applicant, and at least one other reputable citizen of this State. Any such permit as granted under the provisions of this section may be revoked by the governor at his pleasure, and upon the revocation of any such permit, the department of public safety shall immediately seize and take possession of any such machine gun, sub-machine gun, high-powered rifle, or gun of similar kind and character, held by reason of such permit, and any and all ammunition therefor; and the department of public safety shall also confiscate any such machine gun, sub-machine gun, and what is commonly known as a high-powered rifle, or any gun of similar kind and character, and any and all ammunition therefor, so owned, carried, transported or possessed contrary to the provisions of this section, and shall safely store and keep the same, subject to the order of the governor.

No alien shall own, keep or possess any firearm of any kind or character.

61–7–9. *Display of dangerous weapons for sale or hire; sale to unnaturalized person; penalties for violation of this section or 61–7–8.* It shall be unlawful for any person, firm or corporation to place or keep on public display to passersby on the streets, roads or alleys, for rent or sale, any revolver, pistol, dirk, bowie knife, slung shot, or other dangerous weapons of like kind or character or any machine gun, sub-machine gun or high-powered rifle, or any gun of similar kind or character, or any ammunition for the same. All dealers licensed to sell any of the foregoing arms or weapons shall take the name, address, age and general appearance of the purchaser, as well as the maker of the gun, manufacturer's serial number and the caliber, and report the same at once in writing to the superintendent of the department of public safety. It shall be unlawful for any person to sell, rent, give or lend any of the arms mentioned in this article to an unnaturalized person.

61–7–14. *Purchase of firearms in contiguous state.* Any resident of this State, including a corporation or other business entity maintaining a place of business in this State, who may lawfully purchase and receive delivery of a rifle, shotgun or any other legal firearm, or any part thereof, in this State, may purchase the same in a state contiguous to this State and transport or receive the same into this State provided the sale meets the lawful requirements of any federal statute, and is made by a licensed importer, licensed manufacturer, licensed dealer or private collector.

Beckley

5. *Sale or rental.* It shall be unlawful for any person to rent or sell any revolver, pistol, dirk, bowie knife or other dangerous weapon of like kind or character, or any machine gun, or high-powered rifle, or any gun of similar kind or character, or any ammunition for the same, to any person under the age of eighteen years, unless at the time of such rental or sale such minor shall be accompanied by his or her parents, or one of them, or by the minor's legal guardian.

Benwood

210.02. *Selling or giving to minors.* No person shall sell or give away to a person under twenty-one years of age, any revolver or other pistol, dirk, bowie knife, switch blade knife, slingshot, razor, billy, metallic or other false knuckles, or any other dangerous or deadly weapon of like kind or character.

210.07. *Purchase without permit.* No person shall purchase, receive or accept any pistol, revolver or other firearm of the kind described in Section 210.05 without first obtaining a written permit from the Chief of Police authorizing such person to purchase, receive or accept such pistol, revolver or other firearms.

210.13. *Exceptions.* Nothing contained in this article shall be deemed to apply to the sale, transfer, purchase or receipt of antique pistols or revolvers which are incapable of being used as firearms.

Bluefield

Weapons. The fee for every license to sell or expose for sale pistols, revolvers, dirks, sling shots, billies, bowie knives, false knuckles or weapons of any kind shall be $25.00 per year.

Charleston

7. *Sale of firearms, fireworks or explosives to children.* No person shall sell to any child under the age of sixteen years firearms, gunpowder, gun caps as defined under W. Va. Code, Ch. 29, Art. 3, Section 28, fireworks or other explosives, in any quantity.

Clarksburg

14–60. *Sale of weapons.* On every license to sell or offer for sale pistols, revolvers dirks, slung shots, billies, bowie knives, metallic or other false knuckles or other weapons of like kind, the annual license fee shall be one hundred dollars.

Martinsburg

35–5. *Display of dangerous weapons for sale or hire; sale to unnaturalized person.* • • •. It shall be unlawful for any person to sell, rent, give or lend any of the arms mentioned in article 7, chapter 61, Michie's West Virginia Code, 1961, to an unnaturalized person.

Morgantown

31–8. *License—Required.* No person shall sell, offer for sale, display, rent or exchange any dangerous or deadly weapon, including, but not by way of limitation, any revolver, pistol, dirk, Bowie knife, sling shot, billies, metallic or false knuckles or other weapons of like kind within the city without first obtaining a license to engage in any such business.

31–15. *Sale, etc., to intoxicated persons, minors under eighteen, etc.* It shall be unlawful for any person or dealer licensed under this article to sell, loan or furnish any of the dangerous or deadly weapons mentioned and described in this article to any person under the influence of alcohol, or any narcotic drug, stimulant or depressant, or to any person in a condition of agitation and excitability, or to a minor under the age of eighteen years, or to an unnaturalized person.

Moundsville

73. *Weapons.* The annual license fee to sell or offer for sale, pistols, revolvers, dirks, slung shots, billies, bowie knives, metallic or other false knuckles, or other weapons of like kind, shall be ten dollars. No license shall be issued without the prior certification of the chief of police of the city.

Weirton

553.06 *Sale of arms to unnaturalized person or minor.* No person shall sell, rent, give or lend any of the arms mentioned in this article to any unnaturalized person and no person shall sell any of the arms mentioned in this article to any minor under the age of sixteen years.

Wheeling

537.02 *Selling or giving to minors.* No person shall sell or give away to a person under twenty-one years of age, any revolver or other pistol, dirk, bowie knife, switch blade knife, slingshot, razor, billy, metallic or other false knuckles, or any other dangerous or deadly weapon of like kind or character.

537.05. *Sale, transfer of concealed weapons.* No person shall sell, lend, give away, exchange or transfer, or purchase, receive or accept any pistol, revolver or firearms of any kind whatsoever which is capable of being concealed on the person, except as authorized and provided by this article.

537.06. *Sale to person not holding permit.* No person shall sell, deliver, transfer or otherwise dispose of any pistol, revolver or other firearms of the kind described in Section 537.05, to any person who is not the holder of a written permit, bearing the signature of the Chief of Police, authorizing such person to purchase, receive or accept such pistol, revolver or other firearm.

537.07. *Purchase without permit.* No person shall purchase, receive or accept any pistol, revolver or other firearm of the kind described in Section 537.05 without first obtaining a written permit from the Chief of Police authorizing such person to purchase, receive or accept such pistol, revolver or other firearms.

537.10. *Vendor to demand permit from purchaser.* At the time of the sale or delivery of a pistol, revolver or other firearm of the kind described in Section 537.05, the vendor or transferor thereof shall demand of and receive from the purchaser or recipient of such pistol, revolver or other firearm, a permit, issued pursuant to the provisions of this article authorizing such purchaser or recipient to purchase or receive such pistol, revolver or other firearm.

537.13. *Exceptions.* Nothing contained in this article shall be deemed to apply to the sale, transfer, purchase or receipt of antique pistols or revolvers which are incapable of being used as firearms.

537.14. *False information.* No person shall give or issue any false information or data for the purpose of obtaining, or aiding and abetting another in obtaining, a pistol, revolver or other firearm of the kind described in Section 537.05 in violation of the terms and provisions of this article.

WISCONSIN

State Law

WISC. STATS. ANN.

164.01. *Definitions.* (1) "Machine gun" applies to and includes a weapon of any description by whatever name known from which more than two shots or bullets may be discharged by a single function of the firing device.

(2) "Crime of violence" applies to and includes any of the following crimes or an attempt to commit any of the same, namely, murder, manslaughter, kidnaping, rape, mayhem, assault to do great bodily harm, robbery, burglary, housebreaking, breaking and entering, and larceny.

(3) "Person" applies to and includes firm, partnership, association or corporation.

164.03. *Possession for aggressive purpose.* Possession or use of a machine gun for offensive or aggressive purpose is hereby

V 37-80 APR 25 72 XUM

declared to be a crime punishable by imprisonment in the state penitentiary for a term of not less than 10 years.

164.04. *Possession when presumed for aggressive purpose.* Possession or use of a machine gun shall be presumed to be for offensive or aggressive purpose:

(1) When the machine gun is on premises not owned or rented, for bona fide permanent residence or business occupancy, by the person in whose possession the machine gun may be found; or

(2) When in the possession of, or used by, an unnaturalized foreign-born person, or a person, who has been convicted of a crime of violence in any court of record, state or federal, of the United States of America, its territories or insular possessions; or

(3) When the machine gun is of the kind described in section 164.08 and has not been registered as in said section required; or

(4) When empty or loaded pistol shells of 30 (.30 in. or 7.63 mm.) or larger caliber which have been used or are susceptible of use in the machine gun are found in the immediate vicinity thereof.

164.06. *Exceptions.* Nothing contained in this chapter shall prohibit or interfere with the manufacture for, and sale of, machine guns to the military forces or the peace officers of the United States or of any political subdivision thereof, or the transportation required for that purpose; the possession of a machine gun for scientific purpose, or the possession of a machine gun not usable as a weapon and possessed as a curiosity, ornament, or keepsake; the possession of a machine gun other than one adapted to use pistol cartridges of 30 (.30 in. or 7.63 mm.) or larger caliber, for a purpose manifestly not aggressive or offensive.

164.08. *Owner to register machine gun.* Every machine gun now in this state adapted to use pistol cartridges of 30 (.30 in. or 7.63 mm.) or larger caliber shall be registered by the owner in the office of the secretary of state on May 15, 1933 and annually thereafter. If acquired hereafter it shall be registered within 24 hours after its acquisition. Blanks for registration shall be prepared by the secretary of state, and furnished upon application. To comply with this section the application as filed must show the model and serial number of the gun, the name, address and occupation of the person in possession, and from whom and the purpose for which, the gun was acquired. The registration data shall not be subject to inspection by the public. Any person failing to register any guns, as required by this section, shall be presumed to possess the same for offensive or aggressive purpose.

164.20. *Machine guns and other weapons; use in certain cases; penalty.* (1) No person shall sell, possess, use or transport any machine gun or other full automatic firearm, nor shall any person sell, possess, use or transport any bomb, hand grenade, projectile, shell or other container of any kind or character into which tear gas or any similar substance is used or placed for use to cause bodily discomfort, panic, or damage to property.

(2) Any person violating any of the provisions of this section shall be punished by imprisonment in the state prison for a term of not less than one year nor more than three years.

(3) The provisions of this section shall not apply to the sale, possession, use or transportation of any such weapons or containers to or by any national guardsman in line of duty, any civil enforcement officer of the state or of any city or county, or any person duly authorized by the chief of police of any city or the sheriff of any county to sell, possess, use or transport such weapons or containers; nor shall the restriction on transportation apply to common carriers.

175.30. *Purchase of firearms in contiguous states permitted.* It is lawful for a resident of this state or a corporation or other business entity maintaining a place of business in this state to purchase or otherwise obtain a rifle or shotgun in a state contiguous to this state if the transfer complies with federal law and the laws of both states.

939.22. *Words and phrases defined.* In the criminal code, the following words and phrases have the designated meanings unless the context of a specific section manifestly requires a different construction:

(10) "Dangerous weapon" means any firearm, whether loaded or unloaded, or any device designed as a weapon and capable of producing death or great bodily harm, or any other device or instrumentality which, in the manner it is used or intended to be used, is calculated or likely to produce death or great bodily harm.

941.22. *Possession of pistol by minor.* (1) Any minor who goes armed with a pistol or any person who intentionally sells, loans or gives a pistol to a minor may be fined not more than $500 or imprisoned not more than one year in county jail or both.

(4) In this section "pistol" means any firearm having a barrel less than 12 inches long.

943.06. *Molotov cocktails.* (1) As used in this section, "fire bomb" means a breakable container containing a flammable liquid with a flash point of 150 degrees Fahrenheit or less, having a wick or similar device capable of being ignited, but does not mean a device commercially manufactured primarily for the purpose of illumination.

(2) Whoever possesses, manufactures, sells, offers for sale, gives or transfers a fire bomb may be fined not more than $500 or imprisoned not more than 6 months or both.

(3) This section shall not prohibit the authorized use or possession of any such device by a member of the armed forces or by firemen or law enforcement officers.

Appleton

8.01. (4) *Sale of dangerous weapons to minors prohibited.* No person shall buy for, sell or give away to any minor any dangerous weapon except household purpose knives or knives having blades less than 3 inches long without first having obtained the written consent of the parent or guardian of such minor. The term "dangerous weapon" shall mean and include the following instruments: blackjack, billy, sandclub, pistol, revolver, any instrument which impels a missile by compressed air, spring, or other means, any weapon in which loaded or blank cartridges are used, crossknuckles of any metal, barbed or blade type bowie knife, dirk knife, dirk, dagger, switch blade knife, or any knife which has a blade that may be drawn without the necessity of contact with the blade itself but is instead automatically opened by a slight pressure on the handle or some other part of the knife and is commonly known as a switch blade knife, or straight-edge razor or any other knife having a blade 3 inches or longer.

Beloit

(3) No person shall sell any firearm, blackjack, billy, bludgeon, cross-knuckles, knuckles of any metal, bowie knife, dirk-knife, dirk dagger or switch blade knife, or loan such items to any minor within the City.

Cudahy

(2) *Sale and use of dangerous weapons and guns.* (b) It shall be unlawful for any person to purchase any blackjack, billy, bludgeon, metal knuckles, revolver or pistol upon which any loaded or blank cartridges are used. Every person who deals in dangerous weapons or guns shall make out and deliver to the Chief of Police of the City of Cudahy at the end of each month on forms provided by the Police Department, a legible and correct report of every sale or gift, which report shall contain the date of such sale or gift, the name of the purchaser or donor, his address, age, number and make of such weapon or gun. However, it shall not be necessary for any person engaged in the buying and selling of such weapons or guns in wholesale lots to make such report. No sale shall be made to persons having been convicted of a felony or to minors, unless written permission shall be presented at the time of sale by the parent or guardian, giving consent to such purchase.

15.07. *Use of fire bombs and other similar devices.* (1) No person shall make, carry possess, sell, give, or use any type of "Molotov Cocktail", which is defined to mean a flammable liquid filled bottle or container with a fuse, wick, or any other type of ignition or detonating device, flammable liquid fire bomb or any other device or missile which can be ignited and cause ignition of any premises or material or which can cause damage by explosion.

Glendale

24.20. *Making, possession, transfer or use of fire bombs and other similar devices.* (a) No person shall make, carry, possess, sell, give, transfer to another or use any type of fire or explosive creating device which is defined to mean a flammable-liquid filled bottle or container with a fuse, wick, or any other type of ignition or detonating device, flammable liquid fire bomb or any other device or missile which can be ignited and cause ignition of any premises or material or which can cause damage by explosion.

Hales Corners

14.01. (1) *Definitions: Dangerous weapon.* The term "dangerous weapon" shall include any instrument which by its capabilities of use is liable to produce death or great bodily harm. The following are dangerous per se: blackjack, billy, sandclub, sandbag, bludgeon, sling shot, slung shot, pistol, revolver, any instrument which impels a missile by compressed air, spring, or other means, any weapon upon which loaded or blank cartridges are used, cross-knuckles of any metal, barbed or blade type arrowhead, bowie knife, dirk knife, dirk, dagger, switch blade knife, or any knife which has a blade that may be drawn without the necessity of contact with the blade itself but is instead automatically opened by slight pressure on the handle or some other part of the knife and is commonly known as a switch blade knife, straight-edge razor or any other knife having a blade 3 inches or longer. Instruments not herein specifically enumerated are none the less dangerous weapons when they fall within the terms of the above definition.

(3) *License for sale of weapons.* (a) No person shall engage in the business of buying or selling, or shall sell or give away to any person, or buy or receive of any person, within the Village, any weapon listed or defined as dangerous, except rifles or shotguns used for hunting purposes, air rifles, weapons used solely for target practice purposes, straight-edge razors, household purpose knives, any knife having a blade less than 3 inches, or instruments necessary to certain trades, crafts, professions, or sports, without securing a license so to do so, and no person having such license shall sell or give away any such weapon to any person within the Village who has not secured a permit from the Chief of Police to purchase such weapon.

(4) *Selling weapons to minors prohibited.* No person shall engage in the business of buying or selling or shall sell or give away to any minor under the age of 21, any weapon listed or defined as dangerous, except household purpose knives or knives having blades less than 3 inches.

(6) *Permit required for purchase of dangerous weapons.* No person shall purchase or obtain by gift or otherwise without first securing from the Chief of Police a permit, any dangerous weapon, except a rifle, or shotgun used for hunting purposes, air rifle, weapon used solely for target practice purposes, sporting goods, as hereinbefore defined, straight-edge razors, household purpose knives, any knife having a blade less than 3 inches, or instruments necessary to certain trades, crafts, professions or sports. Before any such permit is granted, an application in writing shall be made therefor, setting forth in such application the name, address, age, height, weight, complexion, nationality and other elements of identification of any person desiring such permit.

Kenosha

11.02–R. *Possession or use of fire bombs and other similar devices.* (1) It shall be unlawful for any person to make, carry, possess, sell, give, or use any type of "Molotov Cocktail" which is defined to mean a flammable-liquid filled bottle or container with a fuse, wick, or any other type of ignition or detonating device.

(2) It shall be unlawful for any person to make, carry, possess, sell, give, or use any type of flammable-liquid fire bomb or any other device or missile which can be ignited and cause ignition of any premises or material or which can cause damage by explosion.

11.06. *Dangerous weapons.* B. "Sale Forbidden". No person shall sell, loan or give away any gun, pistol, revolver or other dangerous or deadly weapon to any minor or intoxicated person.

Madison

25.01. *Sale of firearms.* (1) Definition: For the purpose of this section: (a) "Firearm." The term "firearm" means a shotgun or a rifle or any weapon made from a rifle or shotgun (modification or otherwise) or any other weapon, including a pistol or revolver, from which a shot is discharged by an explosive or propellant, but not including a stud gun when used for its intended purpose. (b) "Rifle." The term "rifle" means a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of a propellant to fire only a single projectile through a rifle bore for each single pull of the trigger. (c) "Shotgun." The term "shotgun" means a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of a propellant to fire through a smooth bore either a number of ball shot or a single projectile for each single pull of the trigger.

(4) No person under twenty-one years of age shall go armed with a pistol or revolver and no person shall intentionally sell, loan or give a pistol or revolver to any person under twenty-one years of age. This subsection does not apply to a person under twenty-one years of age who is armed with a pistol or revolver when such pistol or revolver is used in target practice under supervision of an adult nor does it apply to an adult who transfers a pistol or revolver to a person under twenty-one years of age for use only in target practice under his direct supervision.

(5) No person under the age of eighteen shall go armed with a firearm of any type nor a pneumatic pellet gun and no person under the age of eighteen years shall have in his possession any ammunition for any firearm and no person shall intentionally sell, loan or give any firearm or pneumatic pellet gun or ammunition therefor to any person under the age of eighteen years. This subsection shall not apply to anyone under eighteen years of age who is armed with a firearm under the supervision of an adult when such firearm is being used in target practice or hunting, nor does it apply to an adult who transfers a firearm to a person under eighteen years of age for use only in target practice or any hunting under his direct supervision.

Middleton

16.01–(b) *Possession of Ammunition and sale to minors.* No minor person under the age of 18 years shall have in his possession any ammunition for any firearm, rifle, spring gun, air gun or pneumatic pellet gun. No person shall intentionally sell or give away any firearm, rifle, spring gun, air gun or pneumatic pellet gun, or ammunition therefor, to any person under the age of 18 years.

Milwaukee

105.34. *Definition.* The term "dangerous weapon" shall mean and include any instrument which by its capabilities of use is liable to produce death or great bodily harm. The following are dangerous per se: blackjack, billy, sandclub, sandbag, bludgeon, sling shot, slung shot, pistol, revolver, any instrument which impels a missile by compressed air, spring, or other means, any weapon upon which loaded or blank cartridges are used, cross-knuckles, knuckles of any metal, barbed or blade type, arrowhead, bowie knife, dirk knife, dirk dagger, switch blade knife, or any knife which has a blade that may be drawn without the necessity of contact with the blade itself but is instead automatically opened by slight pressure on the handle or some other part of the knife and is commonly known as a switch blade knife, straight-edge razor or any other knife having a blade three inches or longer. Instruments not herein specifically enumerated are none the less dangerous weapons when they fall within the terms of the above definition.

105–34.4. *Use of fire bombs prohibited.* (1) No person shall make, carry, possess, sell, give, or use any type of "Molotov Cocktail," which is defined to mean a flammable-liquid filled bottle or container with a fuse, wick, or any other type of ignition or detonating device, flammable liquid fire bomb, or any other device or missile which can be ignited and cause ignition of any premises or material or which can cause damage by explosion.

105.43. *License for sale of weapons.* It shall be unlawful for any person, firm or corporation to engage in the business of buying or selling, or to sell or give away to any person, or to buy or receive of any person, within the city, any weapon listed or defined as dangerous in Section 105–34, except rifles or shotguns used for hunting purposes, air rifles, weapons used solely for target practice purposes, straight-edge razors, household purpose knives, any knife having a blade less than three inches, or instruments necessary to certain trades, crafts, professions, or sports, without securing a license so to do as provided in Section 105–44, and no person, firm, or corporation having such license shall sell or give away any such weapon to any person within the city who has not secured a permit from the chief of police to purchase such weapon in the manner provided in Section 105–46. It is the intent of this section that no permit to purchase or no license to sell shall be required for the purchase or sale of sporting goods, which are defined as any of those items that further interest in the commonly accepted fields of sport.

105.43.5. *Unlawful to sell weapons to minors.* It shall be unlawful for any person, firm or corporation to engage in the business of buying or selling, or to sell or give away to any minor under the age of 18 any weapon listed or defined as dangerous in Section 105–34, except household purpose knives or knives having blades less than three inches.

105.46. *Permit required for purchase of dangerous weapon.* It shall be unlawful for any person to purchase or obtain by gift or any method, scheme or device by which possession is obtained without first securing from the chief of police a permit so to do, any weapons listed or defined as dangerous in Section 105–34, except rifles or shotguns used for hunting purposes, air rifles, weapons used solely for target practice purposes, sporting goods as defined in Section 105–43, straight-edge razors, household purpose knives, any knife having a blade less than three inches, or instruments necessary to certain trades, crafts, professions or sports. • • • No person shall mutilate a shotgun or rifle or destroy the identification marks of any firearm. No shotgun or rifle shall be shortened to barrell length of less than 18 inches nor shall anyone remove the serial number from any weapon.

New Berlin

(g) Under no circumstances shall any person sell, keep for sale, manufacture or bring into the city for use therein any fire balloon, mortars, except mortars used for special display purposes, or cannon, or any explosive cane, toy pistol, toy revolver or other contrivance using explosive caps or cartridges, any Chinese firecrackers more than two inches in length or more than three-eighths inch in diameter, outside measurements of container, or any article containing a compound of mercury or yellow phosphorous.

Oshkosh

18–24. *Furnishing firearms to minors prohibited.* No person shall sell, loan or furnish to any minor any gun, pistol, fowling piece or other firearm within the city.

Port Washington

9.11. *Sale of weapons.* (1) *License required.* No person shall engage in the business of selling, or shall sell or give away to any person, within the City, any blackjack, slingshot, billy, sandclub, sandbag, bludgeon, metal knuckles, revolver, pistol, air rifle or other instrument or weapon which uses loaded or blank cartridges, except rifles and shotguns used for hunting purposes, without securing a license so to do as herein provided, and no person having such license shall sell or give away any such weapon to any person within the City who has not secured a permit from the Chief of Police • • •.

(5). *Permit to purchase.* No person shall purchase or possess any of the weapons or articles enumerated in subsection (1) until he has obtained a permit for such purpose from the Chief of Police.

Racine

25.06. *Dangerous or concealed weapons.* (2) The term "dangerous weapon" means any instrument which by its capabilities of use is liable to produce death or great bodily harm. The following are dangerous per se: blackjack, billy, sandclub, sandbag, bludgeon, sling shot, slung shot, pistol, revolver, any instrument which impels a missile by compressed air, spring, or other means, any weapon upon which loaded or blank cartridges are used, cross knuckles, knuckles of

V 37-80 APR 25 72 XUM

any metal, barbed or blade type, arrowhead, bowie knife, dirk knife, dirk dagger, switch blade knife, or any knife which has a blade that may be drawn without the necessity of contact with the blade itself but is instead automatically opened by slight pressure on the handle or some other part of the knife and is commonly known as a switch blade knife, straightedge razor or any other knife having a blade three inches or longer. Instruments not herein specifically enumerated are nonetheless dangerous weapons when they fall within the terms of the above definition.

(5) No person shall engage in the business of buying or selling, or sell or give away to any minor under the age of 18, any dangerous weapon, except household purpose knives or knives having blades less than 3 inches.

25.41 *Possession or use of fire bombs and other similar devices.* (1) It shall be unlawful for any person to make, carry, possess, sell, give, or use any type of "Molotov Cocktail" which is defined to mean a flammable-liquid filled bottle or container with a fuse, wick, or any other type of ignition or detonating device.

(2) It shall be unlawful for any person to make, carry, possess, sell, give, or use any type of flammable-liquid fire bomb or any other device or missile which can be ignited and cause ignition of any premises or material or which can cause damage by explosion.

(3) The provisions of paragraphs 1 and 2 of this Section shall not apply to any device used in any training program authorized by the Chief of the Racine Fire Department or the Chief of the Racine Police Department, nor to any person engaged in such an authorized training program while so engaged.

Shorewood

13–601. *Definition.* The term "dangerous weapon" shall mean and include any instrument which by its capabilities of use is liable to produce death or great bodily harm. The following are dangerous per se: blackjack, billy, sandclub, sandbag, bludgeon, slingshot, slung shot, pistol, revolver, any instrument which impels a missile by compressed air, spring, or other means, any weapon upon which loaded or blank cartridges are used, cross-knuckles, knuckles of any metal, barbed or blade type arrowhead, bowie knife, dirk knife, dirk, dagger, switch blade knife, or any knife which has a blade that may be drawn without the necessity of contact with the blade itself but is instead automatically opened by slight pressure on the handle or some other part of the knife and is commonly known as a switch blade knife, straight edge razor or any other knife having a blade three (3) inches or longer. Instruments not herein specifically enumerated are nonetheless dangerous weapons when they fall within the terms of the above definition.

13–604. *Permit required for purchase of dangerous weapons.* (1) It shall be unlawful for any person to purchase or obtain by gift or any method, scheme or device by which possession is obtained, without first securing from the Chief of Police a permit so to do, any weapons listed or defined as dangerous in Section 13–601 except rifles or shotguns used for hunting purposes, air rifles, weapons used solely for target practice purposes, sporting goods, as defined in Section 13–605, straight edge razors, household purpose knives, any knife having a blade less than three inches, or instruments necessary to certain trades, crafts, professions or sports. • • •

(3) No person shall mutilate a shotgun or rifle or destroy the identification marks on any firearm. No shotgun or rifle shall be shortened to barrel length of less than 18 inches nor shall anyone remove the serial number from any weapon.

13–605. *License for sale of weapons.* It shall be unlawful for any person, firm or corporation to engage in the business of buying or selling, or to sell or give away to any person, or to buy or receive of any person, within the city, any weapon listed or defined as dangerous in Section 13–601, except rifles or shotguns used for hunting purposes, air rifles, weapons used solely for target practice purposes, straight edge razors, household purpose knives, any knife having a blade less than three inches, or instruments necessary to certain trades, professions, or sports, without securing a license so to do as provided in Section 13–607, and no person, firm or corporation having such license shall sell or give away any such weapon to any person within the Village who has not secured a permit from the Chief of Police to purchase such weapon in the manner provided in Section 13–604.

13–606. *Unlawful to sell to minors.* It shall be unlawful for any person, firm or corporation to engage in the business of buying or selling, or to sell or give away to any minor, any weapon listed or defined as dangerous in Section 13–601, except household purpose knives or knives having blades less than three inches.

13–610. *Possession of pistol by minor.* (a) It shall be unlawful for a minor to be armed with a pistol or for any person to intentionally sell, load or give a pistol to a minor.

(d) In this Section, "pistol" means any firearm having a barrel less than twelve (12) inches long.

Wauwatosa

6.06. *Sale and use of dangerous weapons and guns.* (1) Definitions. In this section, unless the context otherwise requires: "Dangerous Weapon," means any blackjack, slingshot, billy, sandclub, sandbag, bludgeon, metal knuckles, any knife having a blade of 3 inches or more, or other similar article.

"Dangerous gun" means any revolver, pistol, air rifle, including all types of BB guns, rifle, shotgun, or any instrument or weapon in which loaded or blank cartridges or shells are used.

"Person" means any person, firm, or corporation.

(2) No person shall engage in the business of selling or giving away any dangerous weapon or gun without obtaining a license as hereinafter provided, and no person having such license shall sell or give away any such dangerous weapon or gun who has not secured a permit from the Chief of Police to obtain such dangerous weapon or gun as hereinafter provided.

This provision does not apply to rifles or shot guns used for hunting purposes, target practice weapons, or any sporting goods item defined as any of those items that further interest in the commonly accepted fields of sport, straight edge razors, household purpose knives, any knife having a blade less than 3", or instruments necessary to certain trades, crafts, professions or sports.

(5) No person shall purchase any dangerous weapon or gun without securing a permit therefor from the Chief of Police. • • •.

This subsection shall not apply to rifles or shotguns used for hunting purposes, target practice weapons, or any sporting goods items defined in any of those items that further interest in the commonly accepted fields of sport, straight edged razors, household purpose knives, any knife having a blade less than 3", or instruments necessary to certain trades, crafts, professions, or sports, except as to persons convicted of crime or to minors.

(7) No person shall mutilate any revolver, pistol, shotgun, rifle, or any other firearm or destroy the identification marks thereon.

West Milwaukee

3.15. *Firearms.* (2) *Sale and display prohibited.* No person, firm or corporation shall engage in the business of selling, sell or give away any blackjacks, sling shots, billy, sand bag, sand club, bludgeon, metal knuckles, revolvers, pistols, shot gun, machine gun, grenade, bomb or any other weapon in which loaded or blank cartridges, shells, gas, explosives or other projectiles are intended to be used, or display or exhibit for sale any such weapon, cartridges, shells, gas, explosives or projectiles or any sign, poster, display card or other matter advertising or suggesting the sale of any such weapon, cartridge, shell, gas, explosive or projectile, except in accordance with a dealer's license issued pursuant to Subsection (3) and shall make such sale or gift only to a person holding a buyer's license issued and in effect pursuant to Subsection (4), and who is at least eighteen years of age.

(3) *Dealers' licenses.* Dealers' licenses shall be issued by the Chief of Police and shall expire automatically on May first following the date thereof, and shall be issued upon the filing of a written application in form approved by said chief of police and presentation of a receipt showing the payment of the annual fee of Five ($5.00) Dollars to the Village Treasurer. Every such licensee shall make out and deliver to the chief of police every day before the hour of twelve o'clock noon, a legible and correct report of any sale or gift made under authority of such license during the preceding twenty-four (24) hours, which report shall contain the date of such sale or gift, the name of the purchaser or donee, his or her address and age, the number, kind, description and price of such weapon, the number of the purchaser's license and the purpose for which said weapon was acquired.

(4) *Buyers' licenses.* Buyers' licenses shall be issued by the Chief of Police upon an application in writing, setting forth the name, address, age, height, weight, complexion, nationality and other means of identification of the applicant; also the purpose for which said weapon is to be used and full detail as to conviction of the applicant of any crime. Such application shall also contain a written recommendation of two (2) taxpayers residing in the Village that such license be granted, and each such license shall expire Thirty (30) days following the date of same. No license issued pursuant to subsections (3) or (4) shall be granted to any person who has been convicted of crime or to a minor. Each buyer's license shall be delivered to the seller or donor of such weapon who shall preserve the same and file it with the Chief of Police at the time of making the report provided for in Subsection (3).

(5) *Purchase of.* No person, firm or corporation shall purchase or receive any of the weapons mentioned in Subsection (2) without first securing a license so to do as provided in Subsection (4).

3.22. *Use of fire bombs and other similar devices.* (1) No person shall make, carry, possess, sell, give, or use any type of "Molotov Cocktail," which is defined to mean a flammable-liquid filled bottle or container with a fuse, wick, or any other type of ignition or detonating device, flammable liquid bomb or any other device or missile which can be ignited and cause ignition of any premises or material or which can cause damage by explosion.

White Fish Bay

15.12. *Weapon dealers.* (1) *Sale and display prohibited.* No person shall engage in the business of selling, sell or give away any blackjack, sling shot, billy, sand bag, sand club, bludgeon, metal knuckles, revolvers, pistols, shot guns, machine gun, grenade, bomb or any other weapon in which loaded or blank cartridges, shells, gas, explosives or other projectiles are intended to be used, or display or exhibit for sale any such weapon, cartridges, shells, gas, explosives or projectiles or any sign, poster, display card or other matter advertising or suggesting the sale of any such weapon, cartridge, shell, gas, explosive or projectile, except in accordance with a dealer's license issued pursuant to subsection (2) and shall make such sale or gift only to a person holding a buyer's license issued and in effect pursuant to subsection (3).

(2) *Dealers' licenses.* Dealers' licenses shall be issued by the Chief of Police and shall expire automatically on May 1 following the date thereof, and shall be issued upon the filing of a written application in form approved by said Chief of Police • • •.

(3) *Buyers' licenses.* Buyers' licenses shall be issued by the Chief of Police upon an application in writing, setting forth the name, address, age, height, weight, complexion, nationality and other means of identification of the applicant; also, the purpose for which said weapons is to be used and full detail as to conviction of the applicant of any crime. • • •.

(4) *Purchase of.* No person shall purchase or receive any of the weapons mentioned in subsection (1) without first securing a license so to do as provided in subsection (3).

(5) *Rifles and shot guns for hunting purposes excepted.* The provisions of subsections (1) to (4), both inclusive, shall not apply to rifles or shot guns under twenty (20) inches length of barrel and ammunition for same, commonly and lawfully used for hunting purposes in this state.

Wisconsin Dells

11. *No person shall sell* any firearm, blackjack, billy, bludgeon, crossknuckles, knuckles of any metal, bowie knife, dirk knife, dirk, dagger, switch blade knife or any other knife having a blade three inches or longer to any minor in the City of Wisconsin Dells • • •.

WYOMING

State Law

WYO. STATS. ANN. TITLE 6

6–240. *Furnishing deadly weapons to minor.* It shall be unlawful for any person to sell, barter or give to any other person under the age of twenty-one years any pistol, dirk or bowie-knife, slung-shot, knucks or other deadly weapon that can be worn or carried concealed upon or about the person, or to sell, barter or give to any person under the age of sixteen years any cartridges manufactured and designed for use in a pistol; and any person who shall violate any of the provisions of this section shall be fined in any sum not more than fifty dollars.

6–241. *Possession of weapons by aliens.* Every person, not being a citizen of the United States, who shall own, possess, wear or carry any dirk, pistol, shot gun, rifle, or other fire arm, bowie knife, dagger, or any other dangerous or deadly weapon, shall upon conviction thereof, be adjudged guilty of a misdemeanor, and shall be fined in any sum not less than twenty-five dollars ($25.00) nor more than one hundred dollars ($100.00) or imprisoned in the county jail not more than six months, or by both such fine and imprisonment.

6–243. *Dealer's and pawnbroker's firearms register—Required to be kept; information to be shown.* All wholesalers, retailers, dealers and pawn brokers are hereby required to keep a record of all firearms which may come into their possession, whether new or second hand, which record shall be known as the firearms register. Such register shall contain the following information, to-wit: The name of the manufacturer, person, persons, firm or corporation from whom the firearm was obtained, the date of its acquisition, its manufacturer's number, its color, its caliber, whether the same is new or second hand, whether it is an automatic, a revolver, a single shot pistol, a rifle, a shotgun or a machine gun, the name of the party to whom said firearm is sold in such purchaser's handwriting and the date of such sale.

6–244. *Same—To be signed by purchasers.* Every person who purchases any firearm from any retailer, pawn broker or dealer, shall sign his name or make his mark properly witnessed, if he cannot write, on said firearm register, at the time of the delivery to him of any firearm so purchased.

6–246.1. *Rifles and shotguns—Defined.* Rifle—a weapon designed or redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed metallic cartridge to fire only a single projectile through a rifled bore for each single pull of the trigger.

Shotgun—a weapon designed and redesigned, made or remade, and intended to be fired from the shoulder and designed or redesigned and made or remade to use the energy of the explosive in a fixed shotgun shell to fire through a smooth bore either a number of ball shot or a single projectile for each single pull of the trigger.

6–246.3. *Same—Resident may purchase or receive delivery; restrictions and requirements.* It is hereby declared by the State of Wyoming that it is lawful for a resident of the State of Wyoming, otherwise qualified, to purchase or receive delivery of a rifle or shotgun in a state contiguous to the State of Wyoming, subject to the following restrictions and requirements:

(a) The sale must fully comply with the legal conditions of sale in both such contiguous states.

(b) The purchaser and the licensee must have, prior to the sale or delivery for sale, of the rifle or shotgun, complied with all of the requirements of section 922(c) of the Federal Gun Control Act of 1968 [18 U.S.C. § 922(c)], applicable to interstate transactions other than at the licensee's business premises.

Cheyenne

46–1. *Definitions.* Dealer: Any person engaged in the business of selling firearms at wholesale or retail or of accepting pledges or pistols as security for loans. Firearm: Any weapon which is designed to expel a projectile by the action of expanding gases.

46–5. *Possession of firearms—Criminals, drug addicts, etc.* No person who has been convicted of a crime of violence in any court of the United States, the several states, territories, possessions or the District of Columbia or who is a fugitive from justice or is of unsound mind or is drug addict or a habitual drunkard or is a member of a subversive organization shall possess a firearm within the city.

46–6. *Same—Minors.* No person under the age of eighteen years shall possess a firearm. This section shall not apply to the issuance of pistols to members of the State Militia, R. O. T. C., or the armed forces of the United States for training or active duty or to temporary loans of pistols for instruction under the immediate supervision of a parent or guardian.

46–7. *Sale, possession, etc., of firearms without manufacturer's identification mark prohibited.* No person shall receive, possess, sell, lease or otherwise transfer any firearm from which the manufacturer's identification mark or serial number has been removed.

46–9. *Exceptions.* This chapter shall not apply to duly appointed officers of the city, county or state or of the United States in the lawful discharge of their duties as such officers, nor to transactions in which delivery is made of a pistol by mail or other common carrier to a destination not within the city.

46–14. *Pistols—Sale and delivery.* When any sale of a pistol, the overall length of which is less than six inches, is made under this article, forty-eight hours must elapse between the time of the sale and the time of delivery to the purchaser. All pistols shall be securely wrapped and unloaded when delivered to the purchaser.

46–16. *Sales, etc., to criminals, dope addicts, etc.* No person shall sell, lease, lend or otherwise transfer a firearm to any person whom he knows or has reasonable cause to believe has been convicted of a crime of violence or is a fugitive from justice or is of unsound mind or is intoxicated or is a drug addict or an habitual drunkard or is a member of a subversive organization.

46–17. *Sales, etc., to minors.* No dealer shall sell, lease, lend or otherwise transfer a firearm to any person under twenty-one years of age except as provided in section 46–6.

Cody

34–4. *Furnishing deadly weapons • • • to minors.* It shall be unlawful for any person to sell, barter, give away, or to dispose of in any other way, to any person under the age of twenty-one years, any pistol, dirk, knife, slingshot, knucks, or any other deadly weapon of any kind, which can be worn or concealed upon the person. It shall further be unlawful to sell, barter, give to or dispose of in any other way to any person under the age of sixteen years any cartridges manufactured and designed for use in a pistol.

Powell

8.24. *Disposing of weapons to minors.* It shall be unlawful for any person to sell, barter, give away, or to dispose of in any other way, to any person under the age of twenty-one years, any pistol, dirk, bowie knife, slingshot, knucks, or any other deadly weapon of any other kind whatsoever, which can be worn or concealed upon the person, and it shall further be unlawful to sell, barter, give to or dispose of in any other way to any person under the age of sixteen years any cartridges manufactured and designed for use in a pistol.

8.25. *Police excepted.* The provisions of this Article shall not apply to any duly appointed law enforcement officer in the lawful discharge of his duties as such officer.

Sheridan

19–44. *Weapons—Sale, etc., to minors.* It shall be unlawful for any person to sell, barter or give to any other person under the age of twenty-one years any pistol, dirk or Bowie knife, slingshot, knucks or other deadly weapon that can be worn, carried or concealed upon or about the person, or to sell, barter or give to any person under the age of sixteen years any cartridges manufactured and designated for use in a pistol.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4125

Adjustment of Duties on Certain Ceramic Tableware

By the President of the United States of America

A Proclamation

1. WHEREAS, pursuant to the authority vested in him by the Constitution and the statutes, including section 350 of the Tariff Act of 1930, as amended (19 U.S.C. 1351), and section 201 of the Trade Expansion Act of 1962 (19 U.S.C. 1821) (hereinafter referred to as "the TEA"), the President, by Proclamations No. 2761A of December 16, 1947 (61 Stat. (pt. 2) 1103); No. 2867 of December 22, 1949 (64 Stat. A380); No. 2888 of May 13, 1950 (64 Stat. A405); No. 2929 of June 2, 1951 (65 Stat. c12); No. 3105 of July 22, 1955 (69 Stat. c44); No. 3513 of December 28, 1962 (77 Stat. 970, 979); and No. 3822 of December 16, 1967 (82 Stat. 1455), proclaimed such modifications of existing duties as were found to be required or appropriate to carry out certain trade agreements into which he had entered;

2. WHEREAS among the proclaimed modifications were modifications in the rates of duty on certain kinds of ceramic tableware which are now included within items 533.28, 533.31, 533.33, 533.35, 533.36, 533.38, 533.71, 533.73, and 533.75 of the Tariff Schedules of the United States (hereinafter referred to as "ceramic tableware");

3. WHEREAS the United States Tariff Commission has submitted to the President a report of its Investigation No. TEA–I–22 under section 301 of the TEA (19 U.S.C. 1901), on the basis of which investigation and a hearing duly held in connection therewith the said Commission has determined that ceramic tableware is, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause serious injury to the domestic industry producing like or directly competitive products;

4. WHEREAS section 351(a)(1) of the TEA (19 U.S.C. 1981 (a)(1)) authorizes the President, upon receiving an affirmative finding of the Tariff Commission under section 301(b) of the TEA with respect to an industry, to proclaim such increase in, or imposition of, any duty or other import restriction on the articles causing or threatening to cause serious injury to such industry as he determines to be necessary to prevent or remedy serious injury to such industry;

5. WHEREAS section 302(a)(2) and section 302(a)(3), respectively, of the TEA (19 U.S.C. 1902(a)(2) and 19 U.S.C. 1902(a)(3))

V 37-81 APR 26 72 XUM

authorize the President, upon receiving an affirmative finding of the Tariff Commission under section 301(b) of the TEA with respect to an industry, to provide with respect to such industry that its firms may request the Secretary of Commerce for certifications of eligibility to apply for adjustment assistance under Chapter 2 of Title III of the TEA (19 U.S.C. Chapter VII, Subchapter III, Part II) and that its workers may request the Secretary of Labor for certifications of eligibility to apply for adjustment assistance under Chapter 3 of Title III of the TEA (19 U.S.C. Chapter VII, Subchapter III, Part III);

6. WHEREAS I have determined that the rates of duty hereinafter proclaimed are, when coupled with the adjustment assistance hereinafter provided, necessary to remedy serious injury to the industry producing earthen tableware;

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, acting under the authority vested in me by the Constitution and the statutes, including section 350(a)(1)(B) of the Tariff Act of 1930, as amended; and sections 201(a)(2), 302(a)(2) and (3), and 351(a) of the Trade Expansion Act of 1962; and in accordance with Article XIX of the General Agreement on Tariffs and Trade (61 Stat. (pt. 5) A58; 8 UST (pt. 2) 1786), do proclaim that—

1. The tariff concessions on ceramic tableware for items 533.28, 533.31, 533.33, 533.35, 533.36, 533.38, 533.71, 533.73 and 533.75 in Part I of Schedule XX to the Geneva (1967) Protocol to the General Agreement on Tariffs and Trade (19 UST (pt. 2) 1530 *et seq.*) are modified to conform with the provisions set forth in the annex to this proclamation for such time and to such extent as this proclamation remains in effect.

2. Subpart A of Part 2 of the Appendix to the Tariff Schedules of the United States is modified by the insertion, after item 922.50 and before item 923.31, of such new items as are set forth in the annex to this proclamation.

3. The modifications in rates of duty established by paragraphs 1 and 2 shall be effective as to articles entered, or withdrawn from warehouse, for consumption on and after May 1, 1972.

4. Provision is hereby made with respect to the industry producing earthen tableware that its firms may request the Secretary of Commerce for certifications of eligibility to apply for adjustment assistance under Chapter 2 of Title III of the Trade Expansion Act of 1962 and that its workers may request the Secretary of Labor for certifications of eligibility to apply for adjustment assistance under Chapter 3 of Title III of the Trade Expansion Act of 1962.

IN WITNESS WHEREOF, I have hereunto set my hand this twenty-second day of April, in the year of our Lord one thousand nine hundred and seventy-two and of the Independence of the United States of America the one hundred and ninety-sixth.

Richard Nixon

ANNEX

Item	Articles	Rates of duty 1	Rates of duty 2
	Articles chiefly used for preparing, serving, or storing food or beverages, or food or beverage ingredients:		
	Of fine-grained earthenware or of fine-grained stoneware:		
	Available in specified sets:		
923.01	In any pattern for which the aggregate value of the articles listed in headnote (2b) of subpart C, part 2 of schedule 5 is over $12 but not over $22 (provided for in item 533.28)	10¢ per doz. pcs. + 21% ad val.	No change
	Not available in specified sets:		
923.03	Steins and mugs, if valued not over $3.60 per dozen (provided for in item 533.31)	10¢ per doz. pcs. + 25% ad val.	No change
923.05	Cups valued not over $0.50 per dozen; saucers valued not over $0.30 per dozen; plates not over 9 inches in maximum diameter and valued not over $0.50 per dozen; plates over 9 but not over 11 inches in maximum diameter and valued not over $1 per dozen; and creamers, sugars, vegetable dishes or bowls, platters or chop dishes, butter dishes or trays, gravy boats or gravies and stands, any of the foregoing articles valued not over $1 per dozen (provided for in item 533.33)	5¢ per doz. pcs. + 14% ad val.	No change
923.07	Cups valued over $0.50 but not over $3.10 per dozen; saucers valued over $0.30 but not over $1.75 per dozen; plates not over 9 inches in maximum diameter and valued over $0.50 but not over $2.85 per dozen; plates over 9 but not over 11 inches in maximum diameter and valued over $1 but not over $4.85 per dozen; and creamers, sugars, vegetable dishes or bowls, platters or chop dishes, butter dishes or trays, gravy boats or gravies and stands, any of the foregoing articles valued over $1 but not over $6.20 per dozen (provided for in items 533.35, 533.36, and 533.38)	10¢ per doz. pcs. + 21% ad val.	No change
	Of nonbone chinaware or of subporcelain:		
	Household ware:		
923.11	Steins and mugs, if valued not over $3.60 per dozen (provided for in item 533.71)	45% ad val.	No change
923.13	Cups valued not over $1.35 per dozen; saucers valued not over $0.90 per dozen; plates not over 9 inches in maximum diameter and valued not over $1.30 per dozen; plates over 9 but not over 11 inches in maximum diameter and valued not over $2.70 per dozen; and creamers, sugars, vegetable dishes or bowls, platters or chop dishes, butter dishes or trays, gravy boats or gravies and stands, any of the foregoing articles valued not over $4.50 per dozen (provided for in item 533.73)	10¢ per doz. pcs. + 48% ad val.	No change
923.15	Cups valued over $1.35 but not over $4 per dozen; saucers valued over $0.90 but not over $1.40 per dozen; plates not over 9 inches in maximum diameter and valued over $1.30 but not over $3.40 per dozen; plates over 9 but not over 11 inches in maximum diameter and valued over $2.70 but not over $6 per dozen; creamers, sugars, vegetable dishes or bowls, platters or chop dishes, butter dishes or trays, gravy boats or gravies and stands, any of the foregoing articles valued over $4.50 but not over $11.50 per dozen (provided for in item 533.75)	10¢ per doz. pcs. + 55% ad val.	No change

V 37-81 APR 26 72 XUM

Rules and Regulations

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lime Reg. 32]

PART 911—LIMES GROWN IN FLORIDA

Quality and Size Regulation

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 36 F.R. 14125), regulating the handling of limes grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Florida Lime Administrative Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of limes, as hereinafter provided will tend to effectuate the declared policy of the act.

(2) The recommendations by the Florida Lime Administrative Committee reflect its appraisal of the Florida lime crop and the current and prospective market conditions. Limited shipments of limes are currently being made subject to grade and size restrictions which became effective November 15, 1971 (36 F.R. 22008). Shipments of limes, in volume, are expected to begin on or about May 1, 1972. The grade and size requirements specified herein are the same as those in effect during the period November 15, 1971, through April 30, 1972, and are necessary to prevent the handling, on and after May 1, 1972, of limes that are of a lower grade or smaller size so as to provide consumers with good quality fruit, consistent with the overall quality of the crop, while maximizing returns to the producers pursuant to the declared policy of the act.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of Florida limes are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order; the regulation herein specified for the period May 1 through May 31, 1972, is identical with that currently in effect; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after an open meeting of the Florida Lime Administrative Committee on April 12, 1972, such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; other necessary supplemental information was submitted to the Department on April 18, 1972; the provisions of this regulation, including the effective time hereof, are identical with the aforesaid recommendation of the committee, except for the effective period thereof, and information concerning such provisions and effective time has been disseminated among handlers of such limes; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of Florida limes, and compliance with this regulation, will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

§ 911.334 Lime Regulation 32.

(a) Order: During the period May 1, 1972, through May 31, 1972, no handler shall handle:

(1) Any limes of the group known as true limes (also known as Mexican, West Indian, and Key limes and by other synonyms), grown in the production area, which do not meet the requirements of at least U.S. No. 2 grade for Persian (Tahiti) limes, except as to color;

(2) Any limes of the group known as large-fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which do not grade at least U.S. Combination, Mixed Color, with not less than 75 percent, by count, of the limes in any container thereof grading at least U.S. No. 1, Mixed Color: *Provided*, That stem length shall not be considered a factor of grade, and tolerances for fruit affected by decay and for fruit failing to meet the requirements set forth in the U.S. Standards for Persian (Tahiti) Limes shall apply; or

(3) Any limes of the group known as large-fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which are of a size smaller than 1⅞ inches in diameter.

(b) Notwithstanding the provisions of paragraph (a)(3) of this section, not more than 10 percent, by count, of the limes in any lot of containers, other than master containers of individual bags, may fail to meet the applicable minimum size requirement: *Provided*, That no individual container of limes having a net weight of more than 4 pounds may have more than 15 percent, by count, of the limes which fail to meet such applicable size requirement.

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade and diameter, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Persian (Tahiti) Limes (§§ 51.1000–51.1016 of this title).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 21, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER C—FEDERAL SAVINGS AND LOAN SYSTEM

[No. 72-475]

PART 545—OPERATIONS

Change of Office Location by Federal Savings and Loan Associations

APRIL 19, 1972.

Resolved that, notice and public procedure having been afforded (37 F.R. 243) and all relevant material presented or available having been considered by it, the Federal Home Loan Bank Board, upon the basis of such consideration, determines to amend Part 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 545) relating to change of office locations by Federal savings and loan associations for the purpose of requiring publication of notice of such proposed changes and providing opportunity for the filing of protest to such changes of locations. Accordingly, the Federal Home Loan Bank Board hereby amends said Part 545 by revising § 545.16 to read as follows, effective May 26, 1972:

§ 545.16 Change of office location.

(a) *General provisions.* A Federal association may not change the location of

V 37-81 APR 26 72 XUM

its home office or any branch office without prior approval by the Board or its Supervisory Agent, as provided in this section. All requests by a Federal association for advice or instructions with respect to any matter arising under this section shall be addressed to the Board's Supervisory Agent. As used in this section, the term "Supervisory Agent" means the President of the Federal Home Loan Bank of the district in which the applicant association is located or any other officer or employee of such bank designated by the Board as agent as provided in § 501.10 or § 501.11 of this chapter. All recommendations by Supervisory Agents and by officers and employees of the Board in connection with applications for permission to change the location of any office shall be deemed to be privileged and confidential and subject to the provisions of § 505.6 of this chapter.

(b) *Application form; supporting information.* An application for permission to change the location of an office shall be in form prescribed by the Board and may be obtained from the Supervisory Agent. Information shall be furnished in support of the application designed to show the need for the change of location from the standpoint of the future operation of the association and to show that the operation of the office in its new location will not cause undue injury to properly conducted existing local thrift and home-financing institutions.

(c) *Supervisory objection.* No application for permission to change the location of an office shall be approved if, in the opinion of the Board, the policies, condition, or operation of the applicant association afford a basis for supervisory objection to the application.

(d) *Processing of application by Supervisory Agent; public notice; inspection.* (1) Upon determination by the Supervisory Agent that an application for permission to change the location of an office is complete, and if it has been preliminarily determined that there is no basis for supervisory objection to approval of the application, the Supervisory Agent shall advise the applicant, in writing, to publish within 15 days from the date of such advice, in a newspaper printed in the English language and having general circulation in the community to be served by the office at the new location, a notice of the filing of the application in the following form:

NOTICE OF FILING APPLICATION FOR CHANGE OF OFFICE LOCATION

Notice is hereby given that, pursuant to the provisions of § 545.16 of the rules and regulations for the Federal Savings and Loan System, the _____ Federal Savings and Loan Association, _____, _____, has filed
(City) (State)
an application for permission to change the location of its office which is now located at _____,
(Street Address)
_____, _____, to or in the immediate vicinity of _____,
(City) (State)
_____,
(Street Address)
_____, _____. The application has been delivered to the Office of the Supervisory Agent of the said Board, located at the Federal Home Loan Bank of _____, _____,
(City)
_____, _____. Any person may file communications, including briefs, in favor or in protest of said application at the aforesaid office of the Supervisory Agent within 10 days (or within 30 days if advice is filed within the first 10 days stating that more time is needed to furnish additional information) after the date of this publication. Four copies of any communications should be filed. The application and all communications in favor or in protest thereof are available for inspection by any person at the aforesaid Office of the Supervisory Agent.

_____ Federal Savings and Loan Association _____

(2) Promptly after publication of the notice, the applicant shall transmit two copies thereof to the Supervisory Agent accompanied by two copies of a publisher's affidavit of publication.

(3) Within 10 days (or within 30 days if advice is filed within the first 10 days stating that more time is needed to furnish additional information) after the date of publication of said notice, and person may file, at the office of the Supervisory Agent designated in the notice, communications, including briefs, in favor or in protest of the application. In the event any communication is filed in protest of the application, the applicant may file information relevant to such protest within 15 days after the last date for filing communications pursuant to the preceding sentence or may waive the right to file such information. Information may be submitted in connection with an application only as provided in this section, unless additional information is requested by the Supervisory Agent or otherwise by or on behalf of the Board. Four copies shall be furnished of any communication or information filed pursuant to this subparagraph.

(4) The application, together with all communications in favor or in protest thereof, shall be available at the office of the Supervisory Agent during regular working hours for inspection by any person after the issuance to the applicant of advice to publish a notice. Prior thereto, the application and the fact that it has been filed shall be held as confidential.

(5) The provisions of subparagraphs (1) to (4) of this paragraph shall not be applicable if the Supervisory Agent determines that there is no reasonable likelihood that a change of office location will cause undue injury to properly conducted local thrift and home-financing institutions.

(e) *Approval by Supervisory Agent.* If (1) no objection has been filed, pursuant to the public notice of the application, by any institution whose accounts are insured by the Federal Savings and Loan Insurance Corporation and which is located within the same savings service area as the new location, (2) it has been determined that there is no supervisory objection to approval of the application, and (3) the Supervisory Agent has determined that the new location of an office will serve substantially the same savings service area as the existing location, the Supervisory Agent is authorized in his discretion to approve the application. All other applications shall be forwarded by the Supervisory Agent to the Board with a recommendation as to approval or disapproval.

(f) *Oral argument*—(1) *General provisions.* Oral argument on the merits of any application filed pursuant to this section may be heard upon the written request of an applicant or of any person who has filed a communication in protest of an application within the time specified in subparagraph (3) of paragraph (d) of this section, if such request is received by the Supervisory Agent within 10 days after the expiration of the time specified in said subparagraph for filing communications in protest of an application. Such oral argument shall also be heard if the Supervisory Agent, after review of the application and all pertinent information, considers it desirable. When oral argument is to be held, the Supervisory Agent shall mail a notice, fixing the time and place thereof, to the applicant and to all persons who have filed a communication in favor or in protest of the application. Such oral argument shall be scheduled not less than 10 days after the mailing of the notice.

(2) *Procedure.* The Supervisory Agent, or any other person designated by the Board, shall have authority to hear oral argument and determine all matters relating to the conduct of such argument. The oral argument with respect to any such application may be made in person or by authorized representatives, but the oral argument should be based on written information which has been filed in connection with the application. A reasonable time shall be allowed for oral argument, but, unless waived, not less than 1 hour shall be allowed for all oral argument against an application and not less than 1 hour shall be allowed for all oral argument in favor of an application. A transcript shall be made of any oral argument and shall be included in the application file.

(g) *Temporary change of location.* The Supervisory Agent is authorized in his discretion to approve an application for permission to change temporarily the location of an office to a new location, not more than one-half mile distant, pending construction, alteration, repair, or improvement of premises at an existing office location. If the Supervisory Agent determines that such an application should not be approved, he shall forward it to the Board for decision, together with his recommendation as to disapproval. An application under this paragraph shall not be subject to the provisions of paragraphs (d), (e), and (f) of this section unless the Supervisory Agent is of the opinion that the construction, alteration, repair, or improvement of premises at an existing location will probably require more than 2 years.

(h) *Change of designation of home office and a branch office.* The requirements and procedure specified in this section shall not apply to the designation

of the location of an existing branch office as the new location of the home office of a Federal association and the designation of the former home office location as the new location of such existing branch office. However, a Federal association shall not make such changes in designation except upon application to and approval by the Board and upon appropriate amendment of its charter as to the location of its home office. The application shall show the desirability of the designation of the new home office location from the standpoint of the future operation of the association. The Supervisory Agent may approve any such application on behalf of the Board, but shall forward to the Board with his recommendation any such application which he deems should be acted on by the Board itself. In the case of a change of location of a home office to a location at which there is no existing branch office, with retention of the existing home office location as a branch office location, the association shall first make application under § 545.14 for permission to establish a branch office at the new location. The application under this paragraph for change of designation of the home office and the new branch office shall be made concurrently with such application for permission to establish the new branch office which, if approved, is to be redesignated as the home office. In such a case, the following language shall be published preceding the notice required to be published pursuant to § 545.14:

NOTICE

_____ Federal Savings and Loan Association, _____, _____, has filed
(City) (State)
an application with the Federal Home Loan Bank Board to redesignate its existing home office as a branch office and to redesignate a new office as its home office. In order to obtain such a new office, it has also filed with said Board an application for permission to establish a branch office which, if approved, will be redesignated as its home office. The following notice is therefore given pursuant to applicable regulations: (here insert notice required by § 545.14).

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
Assistant Secretary.

1002.6 Records of other departments and agencies.
1002.7 Fees.
1002.8 Exemptions.
1002.9 Denial of records; review.

AUTHORITY: The provisions of this Part 1002 issued under 5 U.S.C. 552, and 31 U.S.C. 483(a).

§ 1002.1 Introduction.

(a) It is the policy of the Inter-American Foundation that information about its operations, procedures, and records be freely available to the public in accordance with the provisions of the Freedom of Information Act.

(b) The Foundation will make the fullest possible disclosure of its information and identifiable records consistent with the provisions of this Act and the regulations in this part.

§ 1002.2 Definitions.

As used in this part, the following words have the meaning set forth below:

Act. "Act" means the Act of June 5, 1967, sometimes referred to as the "Freedom of Information Act" or the Public Information Section of the Administrative Procedure Act, as amended, Public Law 90–23, 81 Stat. 54, and codified at 5 U.S.C. 552.

Foundation. "Foundation" means the Inter-American Foundation.

President. "President" means the President of the Foundation.

Records. The word "records" includes all books, papers, or other documentary materials made or received by the Foundation in connection with the transaction of its business which have been preserved or are appropriate for preservation by the Foundation as evidence of the organization, functions, policies, decisions, procedures, operations, or other activities, or because of the informational value of data contained therein. Library or other material acquired and preserved solely for reference or exhibition purposes, and stocks of publications and processed documents are not included within the definition of the word "records."

§ 1002.3 Access to Foundation records.

Any person desiring to have access to Foundation records should call or apply in person between the hours of 10 a.m. and 4 p.m. on weekdays (holidays excluded) at the Foundation offices at 1515 Wilson Boulevard, Arlington, VA 22209. Requests for access should be made to the Director, Administration and Finance Division (A&F Director) at the Foundation offices. If request is made for copies of any record, the Office of A&F will assist the person making such request in seeing that such copies are provided according to the rules in this part.

§ 1002.4 Written requests.

In order to facilitate the processing of written requests, every petitioner should:

(a) Address his request to:

Director, Administration and Finance Division, Inter-American Foundation, Fifth Floor, 1515 Wilson Boulevard, Arlington, VA 22209.

(b) Identify the desired record by name or brief description, or number, and date, as applicable. The identification should be specific enough so that a record can be readily identified and found;

(c) Include a check or money order to the order of the "Inter-American Foundation" covering the appropriate search and copying fees, or request a determination of fee;

(d) Allow a reasonable amount of time for reply. Furnishing the requested information will involve search and retrieval of records, copying and mailing;

(e) Blanket requests or requests for "the entire file of" or "all matters relating to" a specified subject will not be accepted.

§ 1002.5 Records available at the Foundation.

The Administration and Finance Division will make available, to the extent not authorized to be withheld, the following works or classes of information:

(a) A copy of Agency regulations, including a copy of Title 22 of the Code of Federal Regulations, or of any other title of the Code in which Agency regulations may have been published;

(b) Final unclassified reports;

(c) Copies of grants, loans, or other agreements in force;

(d) Personnel information affecting the public;

(e) Procurement information affecting the public;

(f) Contracts;

(g) Reimbursable agreements with other agencies.

§ 1002.6 Records of other Departments and Agencies.

Requests for records that have been originated by or are primarily the concern of another U.S. Department or Agency will be forwarded to the particular Department or Agency involved, and the petitioner notified. In response to requests for records or publications published by the Government Printing Office or other Government printing activity, the Foundation will refer the petitioner to the appropriate sales office and refund any fee payments therefor which accompany the request.

§ 1002.7 Fees.

Except as otherwise specifically provided by the Foundation, a fee will be levied for all searches for, or copies of, records. These fees will be computed so as to recover the full cost of searching and copying.

(a) *Advance payment and deposits.* When the amount of a fee can be readily computed (as, for example, when a specified number of copy pages are requested) advance payment will be required. When the amount cannot be readily computed (as, for example, when an unknown amount of staff time must be used in complying with a request), the A&F Director may require payment of a reasonable deposit before undertaking to collect the requested records. At the earliest practicable time, the A&F Director will determine the full amount of the fee and, before complying fully

V 37-81
APR 26 72
XUM

with the request, will require payment of any balance due or refund any overpayment.

(b) *Schedule of fees.* The following fees apply for services rendered to the public:

(1) Searching for records and collateral assistance, per hour or fraction thereof	$5.00
(2) Making copies (Xerox or comparable) per page	.40

Should a situation arise which is not covered by the above schedule, the fee to be charged will include all direct and indirect costs of the service, including but not limited to materials, labor, and the like. The amount of the fee (including charges, if any, for records printed by contractors or grantees will be determined by the A&F Director.

(c) *Revision of schedule.* The fee schedule will be revised from time to time, without notice, to assure recovery of the cost of rendering information services to any person. The revised schedule will be available without charge.

§ 1002.8 Exemptions.

The Act authorizes exemption from disclosure of records and information concerning matters that are:

(a) Specifically required by Executive order to be exempt from disclosure in the interest of the national defense or foreign policy;

(b) Related solely to the internal personnel rules and practices by the Foundation;

(c) Specifically exempted from disclosure by statute;

(d) Trade secrets and commercial or financial information obtained from any person which is privileged or confidential;

(e) Interagency or intra-agency memoranda or letters which would not be available by law to a private party in litigation with the Foundation;

(f) Personnel and medical files and similar files the disclosure of which would constitute an unwarranted invasion of personal privacy;

(g) Investigatory files (including security investigation files and files concerning the conduct of employees) compiled for law enforcement purposes except to the extent available by law to a private party.

The Foundation will not honor requests for exempt records or information.

§ 1002.9 Denial of records; review.

If a request for records is denied, the person who made the request is entitled to have the denial reviewed by the Foundation President as promptly as circumstances permit. If the President determines that the withholding is improper, he will direct in writing that the requested records be made available in accordance with these regulations. If he determines that the withholding is proper, he will so notify such person in writing, and his determination will constitute the final Foundation decision.

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

SUBCHAPTER E—REGULATIONS UNDER THE NATURAL GAS ACT

[Docket No. R-406; Order 452]

PART 154—RATE SCHEDULES AND TARIFFS

Purchased Gas Cost Adjustment Provision in Natural Gas Pipeline Companies' FPC Gas Tariffs

APRIL 14, 1972.

On October 22, 1970, the Commission issued a notice of proposed rule making in this proceeding (35 F.R. 16743) wherein it proposed to amend § 154.38(d) of its regulations under the Natural Gas Act, Chapter 1, Title 18 of the Code of Federal Regulations, to permit the inclusion of a purchased gas cost adjustment provision (PGA clause) in natural gas pipeline companies' FPC Gas Tariffs. Interested persons were given until November 17, 1970, to submit data, views, comments, and suggestions in writing. This date was extended on request until January 12, 1971.

Forty-eight written comments were filed; 25 express support,[1] 11 express opposition,[2] and 12 indicate neither support for nor opposition to the proposed rule.[3] Upon request of the parties, a conference among interested parties and Commission Staff was held on February 24, 1971, to discuss the proposed amendment.

[1] Algonquin Customer Group; Mr. Alex H. Calvert; Cincinnati Gas and Electric Co.; Cities Service Gas Co.; Colorado Interstate Gas Co.; Columbia Gas System Service Corp.; Consolidated Gas Supply Corp.; El Paso Natural Gas Co.; Florida Gas Transmission Co.; General Services Administration; Great Lakes Gas Transmission Co.; Independent Natural Gas Association of America; Iowa-Illinois Gas and Electric Co.; Michigan-Wisconsin Pipe Line Co.; Natural Gas Pipeline Co. of America; New York Public Service Commission; Northern Illinois Gas Co.; Northern Natural Gas Co.; Panhandle Eastern Pipe Line Co., et al.; Phillips Petroleum Co.; Southwest Gas Corp.; Tennessee Gas Pipeline Co., et al.; Texas Gas Transmission Corp.; Transcontinental Gas Pipe Line Corp.; United Natural Gas Co.

[2] American Industrial Clay Co. of Sandersville, et al.; American Public Gas Association; Brooklyn Union Gas Co.; California Public Utilities Commission; City Council of International Falls, Minn.; Iowa Electric Light and Power Co., et al.; Memphis Light, Gas and Water Division; Minnesota Natural Gas Co.; Mr. Saul T. Penn; Philadelphia Gas Works Division of UGI Corp.; Tennessee Valley Municipal Gas Association.

[3] Algonquin Gas Transmission Co.; Laclede Gas Co.; Louisville Gas and Electric; North Central Public Service Co.; Metropolitan Utilities District of Omaha; U.G.I. Corp.; Washington Gas Light Corp.; Willmut Gas and Oil Co.; Wisconsin Public Service Commission; Iowa Electric Light and Power Co.; Illinois Power Co.; Chattanooga Gas Co.

For most natural gas pipeline companies the cost of purchased gas constitutes the largest single component of their cost of service. If their suppliers become obligated to make refunds, pipeline companies must flow through the jurisdictional portion of the refunds to their jurisdictional customers. Texas Eastern Transmission Corp., 39 FPC 630 (1968), aff'd, 414 F. 2d 344 (CA5, 1969), cert. denied, 398 U.S. 928 (1970). It is thus the responsibility of pipeline companies to protect themselves against supplier rate increases by filing rate increases of their own to cover such additional costs. Many pipeline companies, consequently, have been making "tracking" filings based on supplier rate increases. Tracking authority has generally been a product of settlement agreements between pipeline companies and their customers. Not all pipeline companies have obtained tracking authority through settlement procedures. When provided for, tracking authority has been limited to 1 or 2 years' duration.

In the absence of tracking authority it is likely that general rate increase applications by pipeline companies would have been more frequent. It is desirable to curb the frequency of general rate increase applications because of resulting administrative delays in the final determination of rates for all companies. The inclusion of a PGA clause in pipeline companies' tariffs would permit pipeline companies to protect themselves against supplier rate increases without frequent general rate increase applications, would make purchased gas adjustments available to all pipeline companies, and would make adjustments available for more than a temporary period of time. To the extent that the procedures adopted herein have a limiting effect on the number of rate increase applications to be filed in the future, charges collected from the pipeline companies' customers subject to refund should be greatly reduced with corresponding reductions in the refund obligations of the pipeline companies. As a result, therefore, the frequency of extensive shifts in charges to consumers of natural gas would be reduced. Also, our action herein should help prevent a backlog of "pancaked" rate filings which cause prolonged delays in the final determination of proper rate levels and frustrate the administrative process. The ratepayer is protected under our new rule since it requires companies to automatically reduce rates to reflect purchased gas cost decreases and provides for periodic review and investigation into the companies' total cost of service.

In opposition to the proposed amendment it is argued that PGA clauses are not permissible because they are prohibited by sections 4 and 5 of the Natural Gas Act. These sections deal with the Commission's authority to fix just and reasonable rates. The Commission, however, is "not bound by the use of any single formula or combination of formulae in determining rates," F.P.C. v. Hope Natural Gas Co., 320 U.S. 591, 602 (1944).

It is therefore within the scope of the Commission's authority to allow tariff provision which permit adjustments to a rate previously determined to be just and reasonable. This authority is being exercised herein with adequate safeguards for consumer interests by means of provisions for Commission surveillance and review of PGA clauses and PGA rate changes.

Subdivision (i) of § 154.38(d)(4) as proposed has been modified to require that the cost study accompanying the proposed PGA clause conform with the requirements of § 154.63 of the Commission's regulations under the Natural Gas Act. This type of cost study allows flexibility in the selection of filing dates, averts a crush of filings, and ensures that recent data are used. If a cost-of-service study having a base period ending less than 12 months before the proposed PGA clause is submitted is on file in another docket, that study may be utilized instead of a study based upon most recently available data. A comment filed herein suggested that permitting companies to use the former study (in which some items may be normalized for known changes in the 9 months following the base period as is done in sections 4 and 5 cases) discriminates against companies which must use the latter study (in which normalization for such changes is not permitted) where the other is not available. The purpose of a cost study here is to test the appropriateness of rates existing at the time the PGA clause is proposed and not to justify the existing rates on the basis of future changes. The company using the study with normalization is not favored because our review will focus on the costs as they exist at the time the PGA clause is proposed.

Subdivision (ii) of § 154.38(d)(4) permits new purchases to be annualized and other significant changes in purchase pattern to be reflected in determining changes in purchased gas cost. As adopted herein, this provision satisfies the comments of several persons. A suggestion was also made that small producer rates should not be included. The added provision for the cost of gas purchased from small producers to be shown separately facilitates review under the provisions of Order No. 428 (issued March 18, 1971). This review will provide adequate surveillance over small producer rates for PGA rate changes. It was suggested that the Commission prescribe in its regulations the manner in which PGA rate changes should be applied. This provision as adopted herein appears in subdivision (ii).

The 1 mill per Mcf triggering level for PGA rate changes has been retained in subdivision (iii) of § 154.38(d)(4). Suggestions were made that other triggering levels be used to avert losses. The 1-mill level has been used with favorable results in tracking authorizations. No loss will be incurred by pipeline companies with increased costs, or by customers due reductions, which are individually too small to trigger a PGA rate change, because of the method of deferred accounting being adopted for these items (see subdivision (d)(4)(iv) infra).

Subdivision (iv) of § 154.38(d)(4) provides for deferred accounting for certain supplier rate changes, including those of producers, and thus assures the recovery of all purchased gas costs. Suggestions were made that PGA rate changes be limited to infrequent intervals. Other suggestions were made that any lag in reflecting cost changes be eliminated. Pipeline supplier rate changes amounting to 1 mill are permitted to be flowed through immediately, rather than accumulated, because of their relatively larger impact as a cost item. The clearing-account concept utilized herein accomplishes a reduction in the frequency of PGA rate changes on account of producer rate changes.

Subdivision (v) of § 154.38(d)(4) has been modified to require 45 days' notice of any PGA rate changes. Some persons suggested that the notice period be longer, and some suggested that it be eliminated. A 45-day period has been adopted because it allows time for pipeline companies' customers to seek adjustment of their rates, for the Commission to verify the supplier rate changes, and for deficiencies to be cured without delay of the PGA rate changes.

Subdivision (vi) of § 154.38(d)(4) has been revised to provide for companies to file a cost study and tariff sheets(s) restating their Base Tariff Rate and the adjustment resulting from the operation of the PGA clause as a single rate. In case a reduction in jurisdictional rates below the new Base Tariff Rate is necessary as a result of review, the last previous effective rate establishes a floor, and the extent of liability for refunds will be known. Any rate reductions below the last previous effective rate will be prospective and not retroactive in ratemaking effect. Thus objections by several persons against retroactivity are satisfied. Suggestions were made that cost studies be required in less than 3-year intervals. Adequate surveillance and review have been provided so that more frequent cost studies are unnecessary.

Subdivision (vii) of § 154.38(d)(4) as adopted provides for the flow through of refunds with interest. This provision corresponds with filed comments. Other requirements for refunds are left to be decided by pipeline companies and interested persons or by the Commission.

Upon consideration of these matters and the comments from interested persons, it is concluded that the regulations under the Natural Gas Act should be amended to permit the inclusion of a PGA clause in natural gas pipeline companies' FPC Gas Tariffs. The amendment adopted herein embodies certain changes in the amendment proposed in the October 22, 1970, notice based on the comments submitted.

The Commission finds:

(1) Adoption of this amendment to the Commission's regulations under the Natural Gas Act is necessary and appropriate for the administration of the Natural Gas Act.

(2) The notice and opportunity to participate in this rule making proceeding with respect to the matter presently before this Commission through the submission of written comments and presentation of data, views, comments, and suggestions at a conference held on February 24, 1971, in the manner described above, are consistent and in accordance with the procedural requirements prescribed by 5 U.S.C. section 553.

(3) Since the revisions to the originally proposed regulations for Purchased Gas Cost Adjustment Provisions in Natural Gas Pipeline Companies' FPC Gas Tariffs result essentially from suggestions made by the respondents to the notice of proposed rule making herein and since these revisions do not impose a further burden on persons subject to these regulations and do not amount to a substantial departure from that originally proposed, no further notice and hearing prior to adoption is necessary.

(4) Good cause exists for the amendment herein adopted to become effective upon issuance of this order.

The Commission, acting pursuant to the provisions of the Natural Gas Act as amended, particularly sections 4, 10, and 16 (52 Stat. 822, 826, and 830; 76 Stat. 72; 15 U.S.C. secs. 717c, 717i, and 717o), orders:

(A) Subchapter E, regulations under the Natural Gas Act, Chapter 1, Title 18 of the Code of Federal Regulations, is amended by deleting the words "purchased gas cost adjustment clauses" in § 154.38(d)(3) and by adding a new paragraph (d)(4) immediately after paragraph (d)(3) as follows:

§ 154.38 Composition of rate schedule.

* * * * * * *

(d) * * *

(4) A natural gas pipeline company may submit a purchased gas cost adjustment provision (PGA clause) to flow through changes in its cost of purchased gas.[4] No PGA clause shall become effective until approved by the Commission. No request for approval of a PGA clause will be considered by the Commission unless the proposed PGA clause indicates the following terms and conditions:

(i) The proposed PGA clause shall be accompanied by a cost study in conformity with the requirements of § 154.63. This study must be based upon actual costs for the 12 months of most recently

[4] For the purposes of this subparagraph, purchased gas cost represents the cost of wellhead purchases, field line purchases, plant outlet purchases and transmission line purchases from existing suppliers at existing delivery points. Nonconcurrent exchange transactions may be reflected as a cost of purchased gas. If a company has underground storage, the cost of purchased gas included in Accounts 800, 801, 802, 803, and where applicable, Account 806, shall be debited or credited to reflect the net injections or withdrawals from underground storage. This adjustment shall be prorated between pipeline and producer supply. Liquefied natural gas, synthetic natural gas, and gas from coal gasification shall not be reflected in a PGA clause.

V 37 ■ 81
APR 26 72
XUM

available actual experience and may include annualization for changes which actually occurred in the 12 month period. If a cost-of-service study having a test period ending less than 12 months prior to the date of submission of the proposed PGA clause is on file in another docket, that cost study may be utilized in lieu of filing a cost study with the proposed PGA clause.

(ii) The method(s) of determining changes in cost of gas purchased from producer and pipeline suppliers shall be separately established. Increases in cost of gas purchased from small producers shall be shown separately, and the provisions of Order No. 428 shall apply to these increases. Producer rate changes shall be applied to the commodity component of the existing rates of a pipeline company's two-part rates and to the volumetric rates of a pipeline company's one-part rates. Pipeline supplier rate changes shall be applied "as billed" to a pipeline company's two-part rates and shall be applied to a pipeline company's volumetric rates in the manner which maintains the pipeline company's existing one-part rate design.

(iii) The purchased gas cost adjustment shall be reflected in the company's rates only when it represents a dollar amount equal to at least 1 mill ($0.001) per Mcf of annual jurisdictional sales. This limitation is not applicable to the unrecovered purchased gas costs for which provision is made in subdivision (iv) of this subparagraph.

(iv) Rate changes shall be computed and filed not more frequently than semi-annually to reflect the current cost of producer purchases. Rate changes shall be computed and filed to coincide with the effective date of pipeline supplier rate changes if the change represents a change of at least 1 mill ($0.001) per Mcf of annual jurisdictional sales.

(*a*) To assure the recovery of all purchased gas costs, the Commission Staff has been directed to propose an accounting change to the Uniform System of Accounts for natural gas companies. The new account will provide that the costs of purchased gas, which are includible in the utility rate schedules on file with the Commission and are not subject to immediate tracking provisions, may be deferred and recovered under future rate schedules. This account will also be used to accumulate purchased gas cost reductions that cannot be incorporated into the existing tariff.

(*b*) After the initial 6-month period following the effectiveness of the PGA clause and after the company has chosen to maintain an unrecovered purchase gas cost account, the company shall adjust its rate(s), either positively or negatively, to include a surcharge to recover or return the balance which has accumulated in the unrecovered purchase gas cost account in the preceding 6-month period. This procedure will be followed in each succeeding 6-month period.

(*c*) In the interim, pipeline companies may use Account 186, Miscellaneous Deferred Debits, under the following conditions:

(*1*) Account 186 shall only be used to include purchased gas costs related to Commission approved PGA clauses when such costs are not includible in the utility's rate schedules on file with the Commission. The account shall be debited or credited, as appropriate, each month for increases or decreases in purchased gas costs. After a change in a rate schedule recognizing the increases or decreases in purchased gas costs in this account is approved by the Commission, Account 186 shall be debited or credited, as appropriate, with contra entries to gas purchased accounts so that the balance accumulated in this account will be amortized over the succeeding 6-month period. Separate subaccounts shall be maintained for the amounts relating to the period in which the increase or decrease is accumulated and for the amortization of purchased gas increases or decreases, as applicable, so as to keep each period separate. The amounts in Account 186 provided for above will not be allowed in the rate base, nor will carrying charges be allowed on any balances pertaining to unrecovered purchased gas costs.

(v) The company shall file with the Commission and post pursuant to § 154.16 at least forty-five (45) days prior to the date on which any change(s) in its existing rates is to become effective, a single tariff sheet, entitled Original PGA–1, which contains the information in the margins as set out and required in § 154.33(d) and which shows the following:

NOTICE OF PURCHASED GAS COST ADJUSTMENT RATE CHANGE

Rate schedule	Base tariff rate [1]	Current adjustment	Cumulative adjustment	Rate after current adjustment

[1] The Base Tariff Rate is the jurisdictional rates which the Commission lists as the pipeline company's just and reasonable rates in its order approving the pipeline company's proposed PGA clause.

Simultaneously with the filing of the above described tariff sheet, the company shall furnish the Commission, jurisdictional customers, and interested state commissions a report containing detailed computations which clearly show the derivation of the Current Adjustment to be applied to its existing rates. Exhibit A [2] hereto details the information which is necessary for the Commission to verify the accuracy of the proposed adjustment. In the event the material submitted is deficient, the company will be notified of the deficiencies. If they are properly cured within 15 days from the date date of such notification, the requisite supplementary material will be deemed to have been filed as of the same date as the initial submittal of the proposed Current Adjustment; otherwise no filing date will be assigned until the deficiencies are eliminated.

(vi) Upon the passage of 36 months the company shall file a tariff sheet(s) restating its rates to establish a new Base Tariff Rate. The company shall state its agreement that this filing will automatically be subject to refund concurrently with the filing at the end of 36 months of the tariff sheet(s) establishing a new Base Tariff Rate until the reasonableness of any rate subsequent to the last effective rate is determined. If a section 4(e) or 5(a) case is adjudicated during the interim, the 36-month period shall start running and a new base rate shall be calculated at the effective date of the final Commission order in that case. With this tariff sheet(s), the company shall file a study in the form and with the content prescribed by § 154.63 to support the new Base Tariff Rate. This study shall be based upon actual costs for the 12 months of most recently available experience, and annualization for changes which actually occurred in the 12 months will be permitted. This study shall be served on the company's jurisdictional customers and interested State commissions no later than 90 days after the end of the 12-month period on which it is required to be based. If either as a result of conferences among the company, its jurisdictional customers, interested State commissions, and the Commission staff, or as a result of Commission determination after hearing, it is found, based on the aforementioned study, that the jurisdictional cost of service is lower than the jurisdictional revenues, collected for the same 12-month period, as adjusted, the company shall file with the Commission a revised tariff sheet(s) reflecting a reduction in its jurisdictional rates by an amount equal to the excess revenues agreed upon or determined, and shall refund to its jurisdictional customers any excess amounts collected from the date the rates were collected subject to refund to the date of billing under the revised tariff sheets, with interest to such date. Such refund obligation shall be limited to the amount collected in excess of the last effective rate, and rate reductions, if any, below the last effective rate shall be prospective from the date of the Commission's final order determining a new Base Tariff Rate.

(vii) The jurisdictional portion of all refunds received from suppliers applicable to purchases after initiation of the PGA clause shall be flowed through with interest to the company's jurisdictional customers. Refunds shall be made at 6-month intervals and shall be utilized, in conjunction with balances which have accumulated in the account provided for in subdivision (iv) of this subparagraph, to establish the surcharge for the subsequent 6-month period. Any requirement for the serving and the filing of reports, showing details of the computations of any such refunds, shall be either as agreed in settlement discussions held among the company, jurisdictional customers, interested State commissions, other interested parties, and the Commission staff, or as prescribed by Commission order.

(B) The amendment to the Commission's regulations under the Natural Gas Act contained in ordering paragraph (A) above is effective as of the date of issuance of this order.

(C) Pipeline companies with a PGA clause in effect are required to conform it with this order.

(D) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

Subpart C—Sponsors of Approved Applications

PART 135b—NEW ANIMAL DRUGS FOR IMPLANTATION OR INJECTION

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Aminopropazine Fumarate

The Commissioner of Food and Drugs has evaluated supplemental new animal drug applications for aminopropazine fumarate solution for injection (34–477V) and aminopropazine fumarate tablets (11–877V), filed by Jensen-Salsbery Laboratories, Division of Richardson-Merrell, Inc., Kansas City, Mo. 64141, proposing the safe and effective use of the products in dogs, cats, and horses. The supplemental applications are approved.

To facilitate referencing, Jensen-Salsbery Laboratories is being assigned a code number and placed in the list of firms in § 135.501 (21 CFR 135.501).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135, 135b, and 135c are amended as follows:

1. Section 135.501 is amended in paragraph (c) by adding a new code No. 062, as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

* * * * * * *

(c) * * *

Code No.	Firm name and address
* * *	* * *
062	Jensen-Salsbery Laboratories, Division of Richardson-Merrell, Inc., Kansas City, Mo. 64141.
* * *	* * *

2. Part 135b is amended by adding the following new section:

§ 135b.42 Aminopropazine fumarate sterile solution injection, veterinary.

(a) *Specifications.* Each milliliter of aminopropazine fumarate sterile aqueous solution, veterinary, contains aminopropazine fumarate equivalent to 25 milligrams of aminopropazine base.

(b) *Sponsor.* See code No. 062 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is used for reducing excessive smooth muscle contractions, such as occur in urethral spasms associated with urolithiasis in cats and dogs and in colic spasms in horses.

(2) It is administered intramuscularly or intravenously to dogs and cats at a level of 1 to 2 milligrams per pound of body weight. It is administered intramuscularly or intravenously to horses at a level of 0.25 milligrams per pound of body weight. Dosage can be repeated every 12 hours, as indicated.

(3) Not for use in animals intended for food purposes.

(4) For use only by or on the order of a licensed veterinarian.

3. Part 135c is amended by adding the following new section:

§ 135c.53 Aminopropazine fumarate tablets.

(a) *Specifications.* The drug is in tablet form. Each tablet contains aminopropazine fumarate equivalent to 25 milligrams of aminopropazine base.

(b) *Sponsor.* See code No. 062 in § 135.501(c) of this chapter.

(c) *Conditions of use.* (1) The drug is used in dogs and cats for reducing excessive smooth muscle contractions, such as occur in urethral spasms associated with urolithiasis.

(2) It is administered at a dosage level of 1 to 2 milligrams per pound of body weight. The dosage can be repeated every 12 hours, as indicated.

(3) Not for use in animals intended for food purposes.

(4) For use only by or on the order of a licensed veterinarian.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (4–26–72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: April 18, 1972.

C. D. VAN HOUWELING, *Director, Bureau of Veterinary Medicine.*

PART 1906—STANDARD REINSURANCE CONTRACT

Terms and Conditions of Reinsurance Contracts

The purposes of the following amendments to Part 1906 are (1) to update those provisions of the part which have applicability only to the Standard Reinsurance Contract for the 1971–72 contract year, and (2) to eliminate the necessity for annual revisions of this part by making the provisions of the part applicable to all Standard Reinsurance Contracts, commencing with the Standard Reinsurance Contract for the 1972–73 contract year.

Pursuant to § 1906.40, which became effective upon publication in the FEDERAL REGISTER at 37 F.R. 6185–86, on March 25, 1972, each reinsurance contract, commencing with the Standard Reinsurance Contract for the 1972–73 contract year, is to be offered by publication in the FEDERAL REGISTER of a notice of offer to provide reinsurance which shall include an offer, a statement of the method by which the offer may be accepted, and the terms and conditions of the Standard Reinsurance Contract being offered. The notice of offer of the Standard Reinsurance Contract (1972–73) was published on March 25, 1972, at 37 F.R. 6219–22. These amendments are consistent with and complement the offer of reinsurance made therein.

Since these amendments are for the purposes of clarification and the updating of those provisions of this part which become outdated as of the termination of coverage under the Standard Reinsurance Contract (1971–72), notice and public procedure on these amendments are unnecessary, and good cause exists for making these amendments effective on publication in the FEDERAL REGISTER.

Part 1906 of Subchapter A of Chapter X of Title 24 of the Code of Federal Regulations is amended as follows:

1. In § 1906.21, paragraphs (h) and (i) are amended, and paragraph (o) is revised, to read as follows:

§ 1906.21 Definitions.

* * * * * * *

(h) "Losses" means all claims proved, approved, and paid by the company under reinsured policies, resulting from riots or civil disorders occurring in a State during the period of the contract, after making proper deduction for salvage and for recoveries other than reinsurance together with an allowance for expense in connection therewith, hereby agreed to equal an amount per claim of eight per centum (8%) of the first $25,000 of any such claim, plus three per centum (3%) of the amount by which such claim exceeds $25,000 but is less than $100,000, plus one per centum (1%) of the amount by which the claim exceeds $100,000; it does not mean any claim excluded under the contract.

(i) "Net retention" means the amount of aggregate losses that the company must stand before the reinsurer's liability attaches under the contract and shall be one aggregate figure for each State which shall be the larger of either $1,000 or the amount determined by applying a factor of two and one-half per centum (2½%) to the specified percentage of the company's direct premiums earned in the State for the calendar year in which the annual contract period commences on those lines of insurance reinsured;

* * * * * * *

V 37 I 81 APR 26 72 XUM

(o) "State pool" means any State Fair Plan pool or other insurance placement facility which is intended to meet the requirements of Part A of the Urban Property Protection and Reinsurance Act of 1968 (82 Stat. 558, 84 Stat. 1791, 12 U.S.C. 1749bbb–3—1749bbb–6a);

2. Section 1906.22 is revised to read as follows:

§ 1906.22 Offer to provide reinsurance.

Pursuant to the provisions of the Urban Property Protection and Reinsurance Act of 1968, and subject to the terms and conditions set forth in this part and in the contracts offered pursuant to this part, the reinsurer shall offer annually to enter into a contract to pay, as reinsurance of any eligible company, the amount of the company's excess aggregate losses resulting from riots or civil disorders in such lines of mandatory and optional coverage as may be designated by the company separately for each State.

3. Section 1906.23 is revised to read as follows:

§ 1906.23 Effective date of offer.

The reinsurer's offer to provide reinsurance under the terms and conditions set forth in this part shall be effective upon publication in the FEDERAL REGISTER of the notice of offer to provide reinsurance required pursuant to § 1906.40.

4. Section 1906.24 is revised to read as follows:

§ 1906.24 Acceptance of offer.

Acceptance of the reinsurer's offer shall be in the manner specified in the notice of offer to provide reinsurance which is published in the FEDERAL REGISTER pursuant to § 1906.40.

5. The introduction in paragraph (a) of § 1906.25 is amended to read as follows:

§ 1906.25 Policies reinsured.

(a) Reinsurance, under a Standard Reinsurance Contract provided pursuant to this part, shall apply to:

• • • • •

6. Section 1906.26 is revised to read as follows:

§ 1906.26 Premiums.

(a) The aggregate basic premium due the reinsurer for the reinsurance coverage provided under the contract shall be computed by applying the percentage rate determined by the reinsurer in accordance with the requirements of the Act and specified in the contract to an aggregate premium base consisting of the sum of the products of a reinsured company's direct premiums earned in each State in each reinsured line for the calendar year in which the annual contract period commences, multiplied by the specified percentage of such earned premiums, as defined in § 1906.21 (f) and (m).

(b) The contract may also provide for an additional premium which shall be due the reinsurer in such amounts and under such conditions as are specified in the contract: *Provided*, That an additional premium payment or payments shall only be required if the total amount of all excess aggregate losses paid by the reinsurer under all contracts for the contract period exceeds the total amount of all aggregate basic premiums paid or payable to the reinsurer under all contracts for that period.

(c) An advance premium, which shall be an estimated premium only, shall be computed by each reinsured company on the basis of its direct premiums earned in the calendar year preceding the calendar year in which the annual contract period commences, in the manner required for the computation of the aggregate basic premium. If any line of insurance is added during the term of the contract for which a reinsured company had no premium writings in the calendar year preceding the calendar year in which the annual contract period commences, the premium base for the advance premium shall be estimated by State for the period from the date of attachment of coverage to the expiration date of the contract. In no event shall the advance premium be less than $25 for each State in which reinsurance is provided under the contract. The advance premium shall be paid to the reinsurer without demand within 30 days from the effective date of coverage. The actual amount of the aggregate basic premium shall subsequently be computed and adjusted in accordance with the provisions of this section and § 1906.31.

(d) If the contract requires payment of an additional premium, the reinsurer shall have the option of requiring payment of the additional premium as an additional advance premium on an estimated basis: *Provided*, That an estimated additional premium payment or payments may only be required if the total amount of all excess aggregate losses paid by the reinsurer under all contracts for the contract period exceeds the total amount of all advance premiums collected by the reinsurer under all contracts for that period. If payment of an additional premium on an estimated basis is required under the contract, the actual amount of the additional premium shall subsequently be computed and adjusted in accordance with the provisions of this section and § 1906.31.

(e) With the exception of the advance premium which is due without demand of the reinsurer within 30 days from the effective date of coverage, premium amounts shall be due 30 days after the demand of the reinsurer. Interest shall accrue at six per centum (6%) per annum on any portion of any premium amount which is not received on or before 30 days from its due date.

(f) The aggregate basic premium, together with any additional premium which may be due the reinsurer in accordance with the preceding paragraphs, shall constitute the minimum reinsurance premium payable for coverage under the contract; and such reinsurance premium shall be deemed fully earned on the date that such reinsurance coverage attaches, except as otherwise provided in § 1906.30.

7. The introductory paragraph of § 1906.27 is amended to read as follows:

§ 1906.27 Assessments.

If any company (or companies) reinsured by the reinsurer under a Standard Reinsurance Contract incurs aggregate losses in reinsured lines in any State during the period of the contract, which in total exceed its net retention for all such lines and as a result lodges claims against the reinsurer, then each reinsured company, on demand of the reinsurer, shall pay to the reinsurer an assessment sufficient to meet the company's equitable share of all such excess aggregate losses incurred in the State, but only to the extent that such losses exceed the unused net amount of all reinsurance premiums paid or payable by all reinsured companies into the National Insurance Development Fund for the period from August 1, 1968, through April 30 of the calendar year during which the annual contract period expires (including interest earned thereon), for reinsurance in such State. Such share shall be in the proportion that—

• • • • •

8. Paragraphs (a) and (d) of § 1906.28 are amended to read as follows:

§ 1906.28 Claims.

(a) Each reinsured company shall advise the reinsurer by letter (1) of all losses from a single occurrence which exceed $50,000, and (2) whenever it appears that aggregate losses have been incurred in an amount equal to ninety per centum (90%) of the company's net retention in any State, on the basis of its direct premiums earned and reported to the reinsurer for the calendar year preceding the calendar year in which the annual contract period commences.

• • • • •

(d) Claims paid pursuant to computations of net retentions based upon the direct premiums earned for the calendar year preceding the calendar year in which the annual contract period commences shall be recomputed and adjusted at the termination of the coverage provided by the contract on the basis of direct premiums earned in reinsured lines for the calendar year in which the annual contract period commences.

9. In § 1906.29, paragraph (a) is revised, and paragraph (b) is amended, to read as follows:

§ 1906.29 Inception and expiration dates.

(a) Provided a company has requested coverage by States and lines of coverage in the manner specified in the notice of offer published pursuant to § 1906.40, on or before April 30 of any year, the contract shall be in effect from 12:01 a.m., e.s.t., on May 1 of that year, and shall expire at 12 p.m. (midnight), e.s.t., on the following April 30, unless sooner terminated.

(b) If a company applies for coverage on or after May 1 of any year, the contract shall be effective from 12:01 a.m., e.s.t., on the day after such application is dispatched, as determined by the date of postmark or telegram, provided the company requests coverage by State and line and otherwise complies with the eligibility requirements of the contract.

• • • • • •

10. In § 1906.30, paragraphs (c) (2) and (d) are amended to read as follows:

§ 1906.30 Cancellations.

• • • • •

(c) • • •

(2) The total number of days of coverage provided under the contract from the inception of such coverage up to and including April 30 of the calendar year in which the annual contract period expires.

(d) In the event of any cancellation of reinsurance coverage under this § 1906.30, the net retention and assessment of such company shall be computed, without proration, on the basis of the direct premiums earned for the calendar year during which the annual contract period commenced. Refunds of premiums, if any, due a company upon cancellation may, at the discretion of the reinsurer, be deferred until after final adjustments have been made in accordance with the provisions of § 1906.31.

11. In § 1906.31, paragraphs (a) and (c) are amended to read as follows:

§ 1906.31 Adjustments.

(a) Each reinsured company shall report to the reinsurer within 60 days after request its direct premiums earned for the calendar year in which the annual contract period commenced in all reinsured lines in all States for which reinsurance was provided under the contract, for the purpose of computing and adjusting the reinsurance premium due to the reinsurer with respect to the coverage provided. The direct premiums earned to be reported for any line of insurance added during the contract term for any State in which a company had no premuim writings in such line in the calendar year in which the annual contract period commenced shall be the direct premiums earned for the first 4 months of the calendar year in which the annual contract period expires, as estimated by the company, subject to audit by the reinsurer.

• • • • • •

(c) On or before July 31 of the calendar year in which the annual contract period expires, or such later date as may be permitted at the option of the reinsurer, each reinsured company shall report to the reinsurer its aggregate losses.

• • • • • •

12. Paragraph (c) of § 1906.36 is amended to read as follows:

§ 1906.36 Limitations on reinsurance.

• • • • • •

(c) Notwithstanding the foregoing provisions, reinsurance may at the election of the company be continued, up to and including April 30 of the calendar year in which the contract term expires, for the term of such policies and contracts reinsured prior to the date of termination of reinsurance under this § 1906.36, provided the company pays the reinsurance premiums in such amounts as may be required. For the purposes of this § 1906.36, the renewal, extension, modification, or other change in a policy or contract for which any additional premium is charged, shall be deemed to be a policy or contract written on the date such change was made.

• • • • • •

(Sec. 7(d), 79 Stat. 670; 42 U.S.C. 3535(d); sec. 1103, 82 Stat. 566; 12 U.S.C. 1749bbb–17; and Secretary's delegation of authority published at 34 F.R. 2680, Feb. 27, 1969)

Effective date. These amendments shall be effective on publication in the FEDERAL REGISTER (4–26–72).

GEORGE K. BERNSTEIN,
Federal Insurance Administrator.

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 5A—Federal Supply Service, General Services Administration

PART 5A–72—REGULAR PURCHASE PROGRAMS OTHER THAN FEDERAL SUPPLY SCHEDULE

Subpart 5A–72.1—Procurement of Stores Stock Items

AMENDED MONTHLY SUPPLY POTENTIAL AND METHOD OF AWARD CLAUSES AND CORRESPONDING GUIDELINES

Section 5A–72.105–16 is amended as follows:

§ 5A–72.105–16 Monthly Supply Potential (MSP) and Method of Award clauses.

• • • • •

(c) • • •

(4) Normally, the estimated peak monthly requirement (EPMR), if it is stated in the solicitation, represents a quantity which is higher than the monthly average of the estimated quantity. This may be the result of (i) anticipated seasonal or other upward fluctuation in requirements or (ii) the Government's ordering pattern, primarily economic order quantity (EOQ) buying, whereby orders are placed during the life of a contract at irregular and usually greater than monthly intervals. As an extreme example of the latter situation, a single order could be placed during a 1-year life of a contract for approximately the total estimated quantity. As a rule, the larger the estimated total quantity, the greater will be the ordering frequency and the closer will be the EPMR in relation to the average monthly quantity. Conversely, if the total estimated quantity is small, it would be ordered less frequently than monthly. If the EPMR furnished by the Office of Supply Control on the basis of the EOQ is so high that the contractor's obligation appears unreasonable compared to the estimated quantity and the latter is small compared with the estimated quantity for similar items in the solicitation and contractors can be reasonably expected to be capable of furnishing the entire estimated quantity regardless of when ordered, omission of the EPMR for these items should be considered. When establishing the EPMR consideration shall be given to the estimated quantity provided by the Office of Supply Control. If the EPMR is to be omitted, its omission must be authorized by a branch chief in the Procurement Operations Division; the Director, Special Programs Division; the Director, ADP Procurement Division; or the chief of a regional Procurement Division, as applicable. Such authorization is also required when the EPMR to be included in solicitations exceeds 150 percent of the average monthly quantity.

(d) *The Monthly Supply Potential clause.*

MONTHLY SUPPLY POTENTIAL

This provision applies only to those items or groups of items for which estimated requirements for the period of this contract and estimated peak monthly requirements are set forth in the schedule of items. In order to preclude the placement of orders with any Contractor in excess of his production capacity, offerors are requested to indicate in the spaces provided the total quantity per month which they are willing to furnish of any item or group of items involving the use of the same production facilities. Since the number of items or groups of items on which any offeror may be eligible for award cannot be determined in advance of opening of offers, offerors are urged, in setting their monthly supply potentials, to group as many items or groups of items as possible. Such grouping will make it possible for the Government to make fullest use of the production facilities of each offeror. For example, if an offeror's production facilities can be used to produce any of the items or groups of items covered by the solicitation, the offeror may insert a single overall limitation on the quantity he can supply applicable to all items or groups of items. Bidders are cautioned that in order to qualify for an award, the offeror's monthly supply potential must cover the Government's estimated peak monthly requirement for each group or individual item to be awarded to the offeror. Groups or individual items will not be subdivided for award purposes.

Inasmuch as the spaces provided below are for offerors to indicate their monthly supply potential on items showing an estimated peak monthly requirement, offerors are requested to avoid any reference to items for which no estimated peak monthly requirement is shown. If an offeror includes a reference to items for which no estimated peak monthly requirements are specified, it will be disregarded.

OFFEROR'S MONTHLY SUPPLY POTENTIAL

Items or groups of items	*Offeror's monthly supply potential*

The Government is obligated to place pursuant to this contract all orders for the supplies covered herein except (1) orders for less than that which may be specified in a

V 37-81 APR 26 72 XUM

Minimum Order Limitation clause, (2) orders in excess of that which may be specified in a Maximum Order Limitation clause, and (3) in the case of exigencies as specified in the Scope of Contract clause.

The Government's estimated peak monthly and estimated requirements for the period of this contract are furnished for the information of offerors, but shall not be construed to represent any amount which the Government shall be obligated to purchase under the contract (except as may be provided in a Guaranteed Minimum Clause).

If an offeror *does not provide a monthly supply potential*, he will be deemed to offer to furnish one hundred and twenty-five percent (125%) of the Government's estimated peak monthly requirement for the item or group of items, which quantity shall then be considered as his stated monthly supply potential.

For each item or groups of items awarded him pursuant to this solicitation, the successful offeror (Contractor) shall be obligated to fill all orders received by him during any 1 month of the contract, calculated from the commencement of the contract, the total of which does not exceed either his stated monthly supply potential or one hundred and twenty-five percent (125%) of the estimated peak monthly requirement for the item or group of items, *whichever is less.*

The Contractor may, with respect to any item(s) or group of items, refuse to accept orders, or portions thereof, received during any 1 month which exceed *the monthly quantities he is required to accept; Provided,* That such refusal to accept is communicated in writing to the office issuing such order(s) within 5 days of receipt of the order by the Contractor. Further, the Contractor is requested to notify the Contracting Officer when he has reached the required monthly quantity and will not accept additional orders for that month. Failure to communicate the refusal to accept to the office issuing the order within the time required shall be deemed to be acceptance of the order by the Contractor. Delivery (or Shipment, as the case may be) of all orders, or portions thereof, in excess of the required monthly quantity which have been accepted, or deemed to have been accepted, by the Contractor shall be made within the same number of days as is required for those orders not in excess of the required monthly quantity. The Contractor shall not accept any of these orders against the required monthly quantity for the succeeding month. Orders, or portions thereof, which have been properly refused by the Contractor may be procured outside of this contract without prejudice to either party.

(e) * * *

METHOD OF AWARD

(a) (1) *Items or groups of items for which estimated peak monthly requirements are set forth in the schedule of items:*

Award will be made in accordance with (b), below, on the basis of the Government's estimated peak monthly requirements to the low responsive offeror(s) up to their stated monthly supply potentials. Within the limits prescribed by the offeror, the Government will apply offeror's monthly supply potential to any items or groups of items offered, as the Government's interests require. In order to qualify for an award, the offeror's monthly supply potential must cover the Government's estimated peak monthly requirement for each group or individual item to be awarded to the offeror. Groups or individual items will not be subdivided for award purposes.

2. *Items or groups of items for which no estimated peak monthly requirements are set forth in the schedule of items:*

Award will be made in accordance with (b), below, to the low responsive offeror(s). With respect to any quantities ordered, where no estimated peak monthly requirement is set forth in the solicitation, the Contractor's delivery obligation stated in the Scope of Contract clause applies.

(b) Award will be made as follows:

1. Groups----------: In the aggregate by group. The low aggregate offeror will be determined by multiplying the unit price submitted on each item by the estimated quantity specified and adding the resultant extensions. In order to qualify for an award on a group, prices must be submitted on each item within the group.

2. Items----------: Item-by-item.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c); 41 CFR 5-1.101(c))

Effective date. This regulation is effective 30 days after the date shown below but may be observed earlier.

Dated: April 14, 1972.

M. S. MEEKER,
Commissioner,
Federal Supply Service.

Title 43—PUBLIC LANDS: INTERIOR

Chapter II—Bureau of Land Management, Department of the Interior

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5206]

[Arizona 6598]

ARIZONA

Partial Revocation of Reclamation Withdrawal

By virtue of the authority contained in section 3 of the Act of June 17, 1902, 32 Stat. 388, as amended and supplemented, 43 U.S.C. section 416 (1970), it is ordered as follows:

1. The departmental order of October 16, 1931, and any other order or orders which withdrew lands for reclamation purposes, are hereby revoked so far as they affect the following described lands:

GILA AND SALT RIVER MERIDIAN

T. 21 N., R. 21 W.,
Sec. 30, E½NE¼, NE¼SE¼.

The area described aggregates 120 acres in Mohave County.

2. This revocation is in furtherance of a Federal program to acquire privately owned lands within the Lake Mead National Recreation Area by exchange under the provisions of the Act of October 8, 1964, 78 Stat. 1039, 16 U.S.C. section 460n–1 (1970). Accordingly, the lands described in this order have been classified as being suitable for such exchange. The lands, therefore, will not be subject to other use or disposition under the public land laws, including the mining and mineral leasing laws, in the absence of a modification or revocation of such classification (43 CFR 2440.4).

HARRISON LOESCH,
Assistant Secretary of the Interior.

APRIL 20, 1972.

[Public Land Order 5207]

[Idaho 3874]

IDAHO

Withdrawal for National Forest Recreation and Scenic Areas

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following described national forest lands are hereby withdrawn from appropriation under the mining laws (30 U.S.C., ch. 2), but not from leasing under the mineral leasing laws, in aid of the programs of the Department of Agriculture:

SAWTOOTH NATIONAL FOREST

BOISE MERIDIAN

Five Points Recreation Area

T. 2 N., R. 14 E.,
Sec. 5, lot 3.

Worswick Hot Springs Recreation Area

T. 3 N., R. 14 E.,
Sec. 28, S½SW¼NE¼, S½SE¼NW¼, NE¼SW¼, NW¼SE¼, N½SW¼SE¼.

BOISE AND CHALLIS NATIONAL FORESTS

BOISE MERIDIAN

Middle Fork Salmon Scenic River Area

T. 14 N., R. 9 E.,
Sec. 24.

T. 14 N., R. 10 E. (Unsurveyed),
Secs. 19, 29, and 30.

Beginning at the E. ¼ sec. cor., sec. 24, T. 14 N., R. 9 E. (an iron post/brass-capped monument of the U.S. Public Land Survey, in place), with coordinates X=160,973.52; Y=1,048,180.52, thence along the east-west centerline of sec. 24, E., to a point intersecting the westerly boundary of the Middle Fork Salmon Wild River Area, thence in a southeasterly direction along the Wild River area boundary to an intersecting point with Dagger Creek, thence on a course approximating the alignment of Dagger Creek to the Middle Fork Salmon River, thence on a direct line to point 120 on the easterly boundary of the Middle Fork Salmon Wild River Area, thence northwesterly along the Wild River Area boundary to a point intersecting the east-west centerline of unsurveyed sec. 19, T. 14 N., R. 10 E., thence along the east-west centerline to the point of beginning, and more particularly described as follows:

ANGLE POINTS

From—	To—	Bearing	Distance (feet)
E. ¼ sec. Cor. sec. 24, T. 14 N., R. 9 E.	A	N. 88°05' W.	1,094
A	99	S. 6°26' E.	3,541
99	C	S. 32°26' E.	4,238
C	99a	N. 64°59' E.	357
99a	99b	N. 26°15' E.	416
99b	99c	N. 37°17' E.	334
99c	99d	N. 62°22' E.	364
99d	99e	N. 80°37' E.	352
99e	120	N. 59°26' E.	1,922
120	121	N. 43°26' W.	3,117
121	B	N. 10°51' W.	875
B	East ¼ sec. Cor.	N. 89°05' W.	4,013

Said ¼ section corner (east), sec. 24, T. 14 N., 9 R. E. Boise meridian, being the point of beginning.

X=East.
Y=North.

The areas described aggregate 600.78 acres in Camas, Custer, and Valley Counties.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license, or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

HARRISON LOESCH,
Assistant Secretary of the Interior.

[Public Land Order 5208]

[Colorado 12469, 13142]

COLORADO

Partial Revocation of Reclamation Withdrawals

By virtue of the authority contained in section 3 of the Act of June 17, 1902, 32 Stat. 388, as amended and supplemented, 43 U.S.C. section 416 (1970), it is ordered as follows:

1. The departmental orders of September 4, 1936, and March 15, 1946, withdrawing lands for the Western Slopes Survey, and the Blue River-South Platte Project respectively, are hereby revoked so far as they affect the following described lands:

WESTERN SLOPES SURVEY

SIXTH PRINCIPAL MERIDIAN

T. 1 N., R. 86 W.,
Sec. 19, All; and
Sec. 20, N½, SW¼.
T. 1 N., R. 87 W.,
Sec. 25, W½NW¼, NW¼SW¼;
Sec. 26, S½NE¼, SE¼NW¼, and S½;
Sec. 27, S½SE¼;
Sec. 34, NE¼; and
Sec. 35, NW¼NE¼, N½NW¼.

BLUE RIVER-SOUTH PLATTE PROJECT

SIXTH PRINCIPAL MERIDIAN

T. 7 S., R. 80 W.,
Sec. 3, lots 10, 11, E½SW¼, and SE¼;
Sec. 4, lots 13, 14, 15, NW¼SE¼;
Sec. 9, lots 1 to 4, inclusive, and W½; and
Sec. 10, lots 1 to 5, inclusive, NE¼, E½NW¼, NE¼SW¼, N½SE¼, and SE¼SE¼.

The areas described aggregate 3,362.78 acres in Eagle and Garfield Counties.

2. The described lands are within and part of the White River and Routt National Forests. A portion of the lands described as lots 14 and 15, NW¼SE¼, sec. 4, and lots 1 and 2, sec. 10, T. 7 S., R. 80 W., are withdrawn from any form of disposition as may by law be made of national forest lands, including the U.S. mining laws, and from leasing under the mineral leasing laws, for Federal Power Project No. 2511, pursuant to the filing of an application for a preliminary permit on March 3, 1965. Portions of the lands described as sec. 19, All, N½NW¼ NE¼, N½NW¼, sec. 20, T. 1 N., R. 86 W., and the NW¼NW¼, sec. 25, N½S½NE¼, SW¼, SW¼NE¼, NW¼NW¼SE¼, S½SE¼NW¼, NE¼SE¼NW¼, N½SW¼, SW¼SW¼, N½SE¼SW¼, and SW¼SE¼SW¼, sec. 26, S½SE¼, sec. 27, N½N½NE¼, SW¼NW¼NE¼, sec. 34, and the N½NW¼NW¼, sec. 35, T. 1 N., R. 37 W., are withdrawn from all forms of location, entry, and purchase under the U.S. mining laws, but not from leasing under the mineral leasing laws, for national forest campgrounds and recreation areas, by Public Land Orders No. 1467 and No. 2589 of August 9, 1957, and January 15, 1962, respectively. All of these described lands will remain so withdrawn.

3. At 10 a.m., May 26, 1972, all of the lands except those described in paragraph 2 of this order, shall be open to such forms of disposition as may by law be made of national forest lands.

HARRISON LOESCH,
Assistant Secretary of the Interior.

APRIL 20, 1972.

[Public Land Order 5209]

[Arizona 5951]

ARIZONA

Withdrawal for National Forest Recreation Area

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Subject to valid existing rights, the following national forest lands are hereby withdrawn from appropriation under the mining laws (30 U.S.C., Ch. 2) but not from leasing under the mineral leasing laws, in aid of programs of the Department of Agriculture:

COCONINO NATIONAL FOREST

GILA AND SALT RIVER MERIDIAN

Pinegrove Campground

T. 19 N., R. 9 E.,
Sec. 16, Those parts of the SW¼NW¼, NW¼SW¼, and N½SW¼SW¼ not included in the area withdrawn by Public Land Order No. 3152 for Forest Highway No. 3 roadside;
Sec. 17, S½NE¼, SE¼NW¼, NE¼SW¼, N½SE¼, and N½S½SE¼.

The areas described aggregate 333.12 acres in Coconino County.

2. The withdrawal made by this order does not alter the applicability of those public land laws governing the use of the national forest lands under lease, license or permit, or governing the disposal of their mineral or vegetative resources other than under the mining laws.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Title 49—TRANSPORTATION

Chapter I—Hazardous Materials Regulations Board, Department of Transportation

[Docket No. HM-57; Amdts. 171-14, 172-14, 173-61, 174-14, 175-7, 177-21]

PART 171—GENERAL INFORMATION AND REGULATIONS

PART 172—COMMODITY LIST OF HAZARDOUS MATERIALS CONTAINING THE SHIPPING NAME OR DESCRIPTION OF ALL ARTICLES SUBJECT TO PARTS 170–189 OF THIS CHAPTER

PART 173—SHIPPERS

PART 174—CARRIERS BY RAIL FREIGHT

PART 175—CARRIERS BY RAIL EXPRESS

PART 177—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

Classification of Corrosive Hazards; Notice of Board Action To Authorize Immediate Compliance

On March 23, 1972, the Hazardous Materials Regulations Board published Docket No. HM-57; Amendments Nos. 171-14, 172-14, 173-61, 174-14, 175-7, 177-21 (37 F.R. 5946) prescribing new regulations for the classification, packaging, marking, labeling, and transportation of corrosive materials. It was stated that these amendments became effective December 31, 1972, however, compliance was authorized as of October 1, 1972.

The Board has been advised that the 3-month period authorized effectively limits the conversion period in a manner that precludes efficient changeover, particularly where leadtimes in packaging orders and disposal of existing stock are highly variable. It has been suggested that compliance be authorized immediately to permit the needed latitude. The Board Members for the Federal Aviation Administration, the Federal Highway Administration, and the Federal Railroad Administration have agreed to expand the implementation period and to advise the public by notice thereof in the FEDERAL REGISTER effective with the publication of this notice.

Accordingly, all amendments in Docket No. HM-57 continue to be effective December 31, 1972; however, compliance with the regulations as amended in this docket is authorized immediately.

Issued in Washington, D.C., on April 21, 1972.

ALAN I. ROBERTS,
Secretary.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Indian Affairs

[25 CFR Part 121]

ISSUANCE OF PATENTS IN FEE, CERTIFICATES OF COMPETENCY, REMOVAL OF RESTRICTIONS, AND SALE OF CERTAIN INDIAN LANDS

Notice of Proposed Rule Making

APRIL 18, 1972.

This notice is published in exercise of authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2 (32 F.R. 13938).

Notice is hereby given that it is proposed to revise Part 121, Subchapter K, Chapter I, Title 25 of the Code of Federal Regulations. This revision is proposed pursuant to the authority contained in section 161 of the Revised Statutes (5 U.S.C. 301).

In the main, this revision consists of the realignment of materials to present a more logical sequence; the deletion of material regarded as advisory rather than regulatory in nature; and the addition of certain material which more fully encompasses the authorities found in the statutes. In addition, certain additions, changes and deletions in these proposed regulations are designed to more fully explain and implement the policy of the Secretary of the Interior.

The major changes and revisions are as follows:

1. Section 121.1(e): A definition of competency is set out, whereas previously there was no such standard of general application in Part 121. This definition is the only precise standard for the determination of competency set out by the Congress, and, although it was prescribed in an act which applies only to the Five Civilized Tribes (Act of Aug. 11, 1955 (69 Stat. 666)), it seems reasonable that the standard be used generally.

2. Section 121.2: This provides for withholding action to be applied in order to facilitate consolidation of Indian lands where possible. The addition will make regulatory the principles of the December 4, 1961, memorandum of the Commissioner of Indian Affairs and provide, in addition, a right of appeal from withholding action.

3. Section 121.5(a): Under the present regulations if an applicant is competent, the issuance of a fee patent is mandatory. This revision would reflect the authority derived from the authorizing acts and allow the exercise of discretion in the issuance of fee patents as it may now be exercised in the issuance of orders removing restrictions and certificates of competency.

4. Section 121.5(d): This implements and explains the Act of June 30, 1954 (68 Stat. 358), which grants unrestricted rights in oil and gas to certain Indians of the Fort Peck Reservation and makes provision for the future issuance of fee patents covering oil and gas, as well as the issuance of fee patents covering the entire interest in certain land.

5. Section 121.12(b): This section has been changed to permit negotiated sales of lands belonging to certain members of the Five Civilized Tribes after the issuance of a conditional order removing restrictions. Under the present regulations (§ 121.37) the land included in a conditional order removing restrictions must be advertised.

6. Section 121.14: This section simplifies the procedure for an administrative appeal from a decision to issue an order removing restrictions to a member of the Five Civilized Tribes without application under the Act of August 11, 1955 (69 Stat. 666). It provides that to the extent possible, such appeals will be handled under the procedure prescribed in Part 2.

7. The heading for former §§ 121.9 through 121.22, Sales and Exchanges of Individually Owned Trust or Restricted Land, Exclusive of Five Civilized Tribes Land, is now applicable to §§ 121.17 through 121.32 and the heading has been changed to "Sales, Exchanges and Conveyances of Trust or Restricted Lands", to permit such sales by members of the Five Civilized Tribes if no statutory authority exists to prevent such transfers under these sections.

8. Section 121.32: This section has been changed pursuant to the Solicitor's Opinion M–36708 dated July 18, 1967, as to lands owned or acquired by an Indian in fee simple status.

9. Section 121.33: This section implements the Act of May 18, 1916 (39 Stat. 127; 25 U.S.C. 378), which authorizes the Secretary, in certain instances, to partition an inherited trust allotment without the consent of all heirs.

10. Section 121.35: This section has been changed to permit deferred payments sales under such terms as are acceptable to the Secretary and the Indian owners.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed revision to the Bureau of Indian Affairs, Washington, D.C. 20242, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

LOUIS R. BRUCE,
Commissioner.

PART 121—ISSUANCE OF PATENTS IN FEE, CERTIFICATES OF COMPETENCY, REMOVAL OF RESTRICTIONS, AND SALE OF CERTAIN INDIAN LANDS

Sec.
121.1 Definitions.
121.2 Withholding action on application.

AUTHORITY: The provisions of this Part 121 issued under R.S. 161; 5 U.S.C. 301. Interpret or apply sec. 7, 32 Stat. 275, 34 Stat. 1018, sec. 1, 35 Stat. 444, sec. 1 and 2, 36 Stat. 855, as amended, 856, as amended, sec. 17, 39 Stat. 127, 40 Stat. 579, 62 Stat. 236, sec. 2, 40 Stat. 606, 68 Stat. 358, 69 Stat. 666; 25 U.S.C. 378, 379, 405, 404, 372, 373, 483, 355, unless otherwise noted.

CROSS REFERENCES: For further regulations pertaining to the sale of irrigable lands, see Parts 129, 128 and § 211.4 of this chapter. For Indian money regulations, see Parts 104, 101, 107, 105, and 102 of this chapter. For regulations pertaining to the determination of heirs and approval of wills, see Part 15 and §§ 11.30–11.32C of this chapter.

§ 121.1 Definitions.

As used in this part:

(a) "Secretary" means the Secretary of the Interior or his authorized representative acting under delegated authority.

(b) "Agency" means an Indian agency or other field unit of the Bureau of Indian Affairs having trust or restricted Indian land under its immediate jurisdiction.

(c) "Restricted land" means land or any interest therein, the title to which is held by an individual Indian, subject to Federal restrictions against alienation or encumbrance.

(d) "Trust land" means land or any interest therein held in trust by the United States for an individual Indian.

(e) "Competent" means the possession of sufficient ability, knowledge, experience, and judgment to enable an individual to manage his business affairs, including the administration, use, investment, and disposition of any property turned over to him and the income or proceeds therefrom, with such reasonable degree of prudence and wisdom as will be apt to prevent him from losing such property or the benefits thereof. (Act of August 11, 1955 (69 Stat. 666).)

(f) "Tribe" means a tribe, band, nation, community, group, or Pueblo of Indians.

§ 121.2 Withholding action on application.

Action on any application, which if approved would remove Indian land from restricted or trust status, may be withheld, if the Secretary determines that such removal would adversely affect the best interest of other Indians, or the tribes, until the other Indians or the tribes so affected have had a reasonable opportunity to acquire the land from the applicant. If action on the application is to be withheld, the applicant shall be advised that he has the right to appeal the withholding action pursuant to the provisions of Part 2 of this chapter.

ISSUING PATENTS IN FEE, CERTIFICATES OF COMPETENCY OR ORDERS REMOVING RESTRICTIONS

§ 121.3 Information regarding status of applications for removal of Federal supervision over Indian lands.

The status of applications by Indians for patents in fee, certificates of competency, or orders removing restrictions shall be disclosed to employees of the Department of the Interior whose duties require that such information be disclosed to them; to the applicant or his attorney, upon request; and to Members of Congress who inquire on behalf of the applicant. Such information will be available to all other persons, upon request, 15 days after the fee patent has been issued by the Bureau of Land Management, or 15 days after issuance of certificate of competency or order removing restrictions, or after the application has been rejected and the applicant notified. Where the termination of the trust or restricted status of the land covered by the application would adversely affect the protection and use of Indian land remaining in trust or restricted status, the owners of the land that would be so affected may be informed that the application has been filed.

§ 121.4 Application for patent in fee.

Any Indian 21 years of age or over may apply for a patent in fee for his trust land. A written application shall be made in the form approved by the Secretary and shall be completed and filed with the agency having immediate jurisdiction over the land.

§ 121.5 Issuance of patent in fee.

(a) An application may be approved and fee patent issued if the Secretary, in his discretion, determines that the applicant is competent. When the patent in fee is delivered, an inventory of the estate covered thereby shall be given to the patentee. (Acts of Feb. 8, 1887 (24 Stat. 388), as amended (25 U.S.C. 349); June 25, 1910 (36 Stat. 855), as amended (25 U.S.C. 372); and May 14, 1948 (62 Stat. 236; 25 U.S.C. 483), and other authorizing acts.)

(b) If an application is denied, the applicant shall be notified in writing, given the reasons therefor and advised of his right to appeal pursuant to the provisions of Part 2 of this chapter.

(c) White Earth Reservation: The Secretary will, pursuant to the Act of March 1, 1907 (34 Stat. 1015), issue a patent in fee to any adult mixed-blood Indian owning land within the White Earth Reservation in the State of Minnesota upon application from such Indian, and without consideration as to whether the applicant is competent.

(d) Fort Peck Reservation: Pursuant to the Act of June 30, 1954 (68 Stat. 358), oil and gas underlying certain allotments in the Fort Peck Reservation were granted to certain Indians to be held in trust for such Indians and provisions was made for issuance of patents in fee for such oil and gas or patents in fee for land in certain circumstances.

(1) Where an Indian or Indians were the grantees of the entire interest in the oil and gas underlying a parcel of land, and such Indian or Indians had before June 30, 1954, been issued a patent or patents in fee for any land within the Fort Peck Reservation, the title to the oil and gas was conveyed by the act in in fee simple status.

(2) Where the entire interest in the oil and gas granted by the act is after June 30, 1954, held in trust for Indians to whom a fee patent has been issued at any time, for any land within the Fort Peck Reservation, or who have been or are determined by the Secretary to be competent, the Secretary will convey, by patent, without application, therefor, unrestricted fee simple title to the oil and gas.

(3) Where the Secretary determines that the entire interest in a tract of land on the Fort Peck Reservation is owned by Indians who were grantees of oil and gas under the act and he determines that such Indians are competent, he will issue fee patents to them covering all interests in the land without application.

§ 121.6 Issuance of patents in fee to non-Indians and Indians with whom a special relationship does not exist.

Whenever the Secretary determines that trust land, or any interest therein, has been acquired through inheritance or devise by a non-Indian, or by a person of Indian descent to whom the United States owes no trust responsibility, the Secretary may issue a patent in fee for the land or interest therein to such person without application.

§ 121.7 Application for certificate of competency.

Any Indian 21 years old or over, except certain adult members of the Osage Tribe as provided in § 121.9, who holds land or an interest therein under a restricted fee patent may apply for a certificate of competency. The written application shall be made in the form approved by the Secretary and filed with the agency having immediate jurisdiction over the land.

§ 121.8 Issuance of certificate of competency.

(a) An application may be approved and a certificate of competency issued if the Secretary, in his discretion, determines that the applicant is competent. The delivery of the certificate shall have the effect of removing the restrictions from the land described therein. (Act of June 25, 1910 (36 Stat. 855), as amended (25 U.S.C. 372).)

(b) If the application is denied, the applicant shall be notified in writing, given the reasons therefor and advised of his right to appeal pursuant to the provisions of Part 2 of this chapter.

§ 121.9 Certificates of competency to certain Osage adults.

Applications for certificates of competency by adult members of the Osage Tribe of one-half or more Indian blood shall be in the form approved by the Secretary. Upon the finding by the Secretary that an applicant is competent, a

V 37 81 APR 26 72 XUM

certificate of competency may be issued removing restrictions against alienation of all restricted property and terminating the trust on all restricted property, except Osage headright interests, of the applicant.

CROSS-REFERENCE: For regulations pertaining to the issuance of certificates of competency to adult Osage Indians of less than one-half Indian blood, see Part 123 of this chapter.

§ 121.10 Application for orders removing restrictions, except Five Civilized Tribes.

Any Indian not under legal disability under the laws of the State where he resides or where the land is located, or the court-appointed guardian or conservator of any Indian, may apply for an order removing restrictions from his restricted land or the restricted land of his ward. The application shall be in writing setting forth reasons for removal of restrictions and filed with the agency having immediate jurisdiction over the lands.

§ 121.11 Issuance of orders removing restrictions, except Five Civilized Tribes.

(a) An application for an order removing restrictions may be approved and such order issued by the Secretary, in his discretion, if he determines that the applicant is competent or that removal of restrictions is in the best interests of the Indian owner. The effect of the order will be to remove the restrictions from the land described therein.

(b) If the application is denied, the applicant will be notified in writing, given the reasons therefor and advised of his right to appeal pursuant to the provisions of Part 2 of this chapter.

§ 121.12 Removal of restrictions, Five Civilized Tribes, after application under authority other than section 2(a) of the Act of August 11, 1955.

When an Indian of the Five Civilized Tribes makes application for removal of restrictions from his restricted lands under authority other than section 2(a) of the Act of August 11, 1955 (69 Stat. 666), such application may be for either unconditional removal of restrictions or conditional removal of restrictions, but shall not include lands or interest in lands acquired by inheritance or devise.

(a) If the application is for unconditional removal of restrictions and the Secretary, in his discretion, determines the applicant should have the unrestricted control of the land described in his application, the Secretary may issue an order removing restrictions therefrom.

(b) When the Secretary, in his discretion, finds that in the best interest of the applicant all or part of the land described in the application should be sold with conditions concerning terms of sale and disposal of the proceeds, the Secretary may issue a conditional order removing restrictions which shall be effective only and simultaneously with the execution of a deed by said applicant upon completion of an advertised sale or negotiated sale acceptable to the Secretary.

§ 121.13 Removal of restrictions, Five Civilized Tribes, after application under section 2(a) of the Act of August 11, 1955.

When an Indian of the Five Civilized Tribes makes application for removal of restrictions under authority of section 2(a) of the Act of August 11, 1955 (69 Stat. 666), the Secretary will determine the competency of the applicant.

(a) If the Secretary determines the applicant to be competent, he shall issue an order removing restrictions having the effect stated in § 121.16.

(b) If the Secretary rejects the application, his action is not subject to administrative appeal, notwithstanding the provisions concerning appeals in Part 2 of this chapter.

(c) If the Secretary rejects the application, or neither rejects nor approves the application within 90 days of the application date, the applicant may apply to the State district court in the county in which he resides for an order removing restrictions. If that State district court issues such order, it will have the effect stated in § 121.16.

§ 121.14 Removal of restrictions, Five Civilized Tribes, without application.

Section 2(b) of the Act of August 11, 1955 (69 Stat. 666), authorizes the Secretary to issue an order removing restrictions to an Indian of the Five Civilized Tribes without application therefor. When the Secretary determines an Indian to be competent, he shall notify the Indian in writing of his intent to issue an order removing restrictions 30 days after the date of the notice. This decision may be appealed under the provisions of Part 2 of this chapter within such 30 days. All administrative appeals under that part will postpone the issuance of the order. When the decision is not appealed within 30 days after the date of notice, or when any dismissal of an appeal is not appealed within the prescribed time limit, or when the final appeal is dismissed, an order removing restrictions will be issued.

§ 121.15 Judicial review of removal of restrictions, Five Civilized Tribes, without application.

When an order removing restrictions is issued, pursuant to § 121.14, a copy of such order will be delivered to the Indian, to any person acting in his behalf, and to the Board of County Commissioners for the county in which the Indian resides. At the time the order is delivered written notice will be given the parties that under the terms of the Act of August 11, 1955 (69 Stat. 666), the Indian or the Board of County Commissioners has, within 6 months of the date of notification, the right to appeal to the State district court for the district in which the Indian resides for an order setting aside the order removing restrictions. The timely initiation of proceedings in the State district court will stay the effective date of the order removing restrictions until such proceedings are concluded. If the State district court dismisses the appeal, the order removing restrictions will become effective 6 months after notification to the parties of such dismissal. The effect of the issuance of such order will be as prescribed in § 121.16.

§ 121.16 Effect of order removing restrictions, Five Civilized Tribes.

An order removing restrictions issued pursuant to the Act of August 11, 1955 (69 Stat. 666), on its effective date shall serve to remove all jurisdiction and supervision of the Bureau of Indian Affairs over money and property held by the United States in trust for the individual Indian or held subject to restrictions against alienation imposed by the United States. The Secretary shall cause to be turned over to the Indian full ownership and control of such money and property and issue in the case of land such title document as may be appropriate; *Provided*, That the Secretary may make such provisions as he deems necessary to insure payment of money loaned to any such Indian by the Federal Government or by an Indian tribe; *And provided further*, That the interest of any lessee or permittee in any lease, contract, or permit that is outstanding when an order removing restrictions becomes effective shall be preserved as provided in section 2(d) of the Act of August 11, 1955 (69 Stat. 666).

SALES, EXCHANGES AND CONVEYANCES OF TRUST OR RESTRICTED LANDS

§ 121.17 Sales, exchanges and conveyances by, or with the consent of the individual Indian owner.

Pursuant to the Acts of May 27, 1902 (32 Stat. 275; 25 U.S.C. 379); May 17, 1906 (34 Stat. 197), as amended August 2, 1956 (70 Stat. 954; 48 U.S.C. 357); March 1, 1907 (34 Stat. 1018; 25 U.S.C. 405); May 29, 1908 (35 Stat. 444; 25 U.S.C. 404); June 25, 1910 (36 Stat. 855; 25 U.S.C. 372), as amended May 25, 1926 (44 Stat. 629; 48 U.S.C. 355a–355d); June 18, 1934 (48 Stat. 984; 25 U.S.C. 464); and May 14, 1948 (62 Stat. 236; 25 U.S.C. 483); and pursuant to other authorizing acts, trust or restricted lands acquired by allotment, devise, inheritance, purchase, exchange, or gift may be sold, exchanged, and conveyed by the Indian owner with the approval of the Secretary or by the Secretary with the consent of the Indian owner.

§ 121.18 Sale with the consent of natural guardian or person designated by Secretary.

Pursuant to the Act of May 29, 1908 (35 Stat. 444; 25 U.S.C. 404), the Secretary may, with the consent of the natural guardian of a minor, sell trust or restricted land belonging to such minor; and the Secretary may, with the consent of a person designated by him, sell trust or restricted land belonging to Indians who are minor orphans without a natural guardian, and Indians who are non compos mentis or otherwise under legal disability. The authority contained in this act is not applicable to lands in Oklahoma, Minnesota, and South Dakota, nor to lands authorized to be sold by the

Act of May 14, 1948 (62 Stat. 236; 25 U.S.C. 483).

§ 121.19 Sale by fiduciaries.

Guardians, conservators, or other fiduciaries appointed by State courts, or by tribal courts operating under approved constitutions or law and order codes, may, upon order of the court, convey with the approval of the Secretary or consent to the conveyance by the Secretary of trust or restricted land belonging to their Indian wards who are minors, non compos mentis or otherwise under legal disability.

§ 121.20 Sale by Secretary of certain land in multiple ownership.

Pursuant to the Act of June 25, 1910 (36 Stat. 855), as amended (25 U.S.C. 372), if the Secretary decides that one or more of the heirs who have inherited trust land are incapable of managing their own affairs, he may sell any or all interests in that land. This authority is not applicable to lands authorized to be sold by the Act of May 14, 1948 (62 Stat. 236; 25 U.S.C. 483).

§ 121.21 Sale or exchange of tribal land.

Certain tribal land may be sold or exchanged pursuant to the Acts of February 14, 1920 (41 Stat. 415; 25 U.S.C. 294); June 18, 1934 (48 Stat. 984; 25 U.S.C. 464); August 10, 1939 (53 Stat. 1351; 25 U.S.C. 463(e)); July 1, 1948 (62 Stat. 1214); June 4, 1953 (67 Stat. 41; 25 U.S.C. 293(a)); July 28, 1955 (69 Stat. 392), as amended August 31, 1964 (78 Stat. 747; 25 U.S.C. 608–608c); June 18, 1956 (70 Stat. 290; 25 U.S.C. 403a–2); July 24, 1956 (70 Stat. 626); May 19, 1958 (72 Stat. 121; 25 U.S.C. 463, Note); September 2, 1958 (72 Stat. 1762); April 4, 1960 (74 Stat. 13); April 29, 1960 (74 Stat. 85); December 11, 1963 (77 Stat. 349); August 11, 1964 (78 Stat. 389), and pursuant to other authorizing acts. Except as otherwise provided by law, and as far as practicable, the regulations in this Part 121 shall be applicable to sale or exchanges of such tribal land.

§ 121.22 Secretarial approval necessary to convey individual-owned trust or restricted lands or land owned by a tribe.

(a) *Individual lands.* Trust or restricted lands, or any interest therein, may not be conveyed without the approval of the Secretary. Moreover, inducing an Indian to execute an instrument purporting to convey any trust land or interest therein, or the offering of any such instrument for record, is prohibited and criminal penalties may be incurred. (See 25 U.S.C. 202 and 348.)

(b) *Tribal lands.* Lands held in trust by the United States for an Indian tribe, lands owned by a tribe with Federal restrictions against alienation and any other land owned by an Indian tribe may only be conveyed where specific statutory authority exists and then only with the approval of the Secretary unless the Act of Congress authorizing sale provides that approval is unnecessary. (See 25 U.S.C. 177.)

§ 121.23 Applications for sale, exchange or gift.

Applications for the sale, exchange or gift of trust or restricted land shall be filed in the form approved by the Secretary with the agency having immediate jurisdiction over the land. Applications may be approved if, after careful examination of the circumstances in each case, the transaction appears to be clearly justified in the light of the long-range best interest of the owner or owners or as under conditions set out in § 121.25(d).

§ 121.24 Appraisal.

Except as otherwise provided by the Secretary, an appraisal shall be made indicating the fair market value prior to making or approving a sale, exchange, or other transfer of title of trust or restricted land.

§ 121.25 Negotiated sales, gifts and exchanges of trust or restricted lands.

Those sales, exchanges, and gifts of trust or restricted lands specifically described in the following paragraphs (a), (b), (c), and (d) of this section may be negotiated; all other sales shall be by advertised sale, except as may be otherwise provided by the Secretary.

(a) *Consideration not less than the appraised fair market value.* Indian owners may, with the approval of the Secretary, negotiate a sale of and sell trust or restricted land for not less than the appraised fair market value: (1) When the sale is to the United States, States, or political subdivisions thereof, or such other sale as may be for a public purpose; (2) when the sale is to the tribe or a member of the tribe of the reservation where the land is located; or (3) when the Secretary determines it is impractical to advertise.

(b) *Exchange at appraised fair market value.* With the approval of the Secretary, Indian owners may exchange trust or restricted land, or a combination of such land and other things of value, for other lands or combinations of land and other things of value. The value of the consideration received by the Indian in the exchange must be at least substantially equal to the appraised fair market value of the consideration given by him.

(c) *Sale to coowners.* With the approval of the Secretary, Indian owners may negotiate a sale of and sell trust or restricted land to a coowner of that land. The consideration may be less than the appraised fair market value, if in the opinion of the Secretary there is a special relationship between the coowners or special circumstances exist.

(d) *Gifts and conveyances for less than the appraised fair market value.* With the approval of the Secretary, Indian owners may convey trust or restricted land, for less than the appraised fair market value or for no consideration when the prospective grantee is the owner's spouse, brother, sister, lineal ancestor of Indian blood or lineal descendant, or when some other special relationship exists between the grantor and grantee or special circumstances exist that in the opinion of the Secretary warrant the approval of the conveyance.

§ 121.26 Advertisement.

(a) Upon approval of an application for an advertised sale, notice of the sale will be published not less than 30 days prior to the date fixed for the sale unless a shorter period is authorized by the Secretary.

(b) The notice of sale will include (1) terms, conditions, place, date, hour, and methods of sale, including explanation of auction procedure as set out in § 121.27 (b)(2) if applicable; (2) where and how bids shall be submitted; (3) a statement warning all bidders against violation of 18 U.S.C. 1860 prohibiting unlawful combination or intimidation of bidders or potential bidders; and (4) description of tracts, all reservations to which title will be subject and any restrictions and encumberances of record with the Bureau of Indian Affairs and any other information that may improve sale prospects.

§ 121.27 Procedure of sale.

Advertised sales shall be by sealed bids except as otherwise provided herein.

(a) (1) Bids, conforming to the requirements set out in the advertisement of sale, along with a certified check, cashier's check, money order, or U.S. Treasury check, payable to the Bureau of Indian Affairs, for not less than 10 percent of the amount of the bid, must be enclosed in a sealed envelope marked as prescribed in the notice of sale. A cash deposit may be submitted in lieu of the above-specified negotiable instruments at the bidder's risk. Tribes submitting bids pursuant to this paragraph may guarantee the required 10 percent deposit by an appropriate resolution; (2) the sealed envelopes containing the bids will be publicly opened at the time fixed for sale. The bids will be announced and will be appropriately recorded.

(b) The policy of the Secretary recognizes that in many instances a tribe or a member thereof has a valid interest in acquiring trust or restricted lands offered for sale. (1) With the consent of the owner and when the notice of sale so states, the tribe or members of such tribe shall have the right to meet the high bid. (2) Provided the tribe is not the high bidder and when one or more acceptable sealed bids are received and when so stated in the notice of sale, an oral auction may be held following the bid opening. Bidding in the auction will be limited to the tribe, and to those who submitted sealed bids at 75 percent or more of the appraised value of the land being auctioned. At the conclusion of the auction the highest bidder must increase his deposit to not less than 10 percent of his auction bid.

§ 121.28 Action at close of bidding.

(a) The officer in charge of the sale shall publicly announce the apparent highest acceptable bid. The deposits submitted by the unsuccessful bidders shall be returned immediately. The deposit submitted by the apparent successful bidder shall be held in a special account.

V 37-81
APR 26 72
XUM

(b) If the highest bid received at an advertised sale is less than the appraised fair market value of the land, the Secretary with the consent of the owner may accept that bid if the amount bid approximates said appraised fair market value and in the Secretary's judgment is the highest price that may be realized in the circumstances.

(c) The Secretary shall award the bid and notify the apparent successful bidder that the remainder of the purchase price must be submitted within 30 days. (1) Upon a showing of cause the Secretary may, in his discretion, extend the time of payment of the balance due. (2) If the remainder of the purchase price is not paid within the time allowed, the bid will be rejected and the apparent successful bidder's 10 percent deposit will be forfeited to the landowner's use.

(d) The issuance of the patent or delivery of a deed to the purchaser will not be authorized until the balance of the purchase price has been paid, except that the fee patent may be ordered in cases where the purchaser is obtaining a loan from an agency of the Federal Government and such agency has given the Secretary a commitment that the balance of the purchase price will be paid when the fee patent is issued.

§ 121.29 Rejection of bids; disapproval of sale.

The Secretary reserves the right to reject any and all bids before the award, after the award, or at any time prior to the issuance of a patent or delivery of a deed, when he shall have determined such rejection to be in the best interests of the Indian owner.

§ 121.30 Bidding by employees.

Except as authorized by the provisions of Part 251 of this chapter, no person employed in Indian Affairs shall directly or indirectly bid, make, or prepare any bid, or assist any bidder in preparing his bid. Sales between Indians, either of whom is an employee of the U.S. Government, are governed by the provisions of Part 251 of this chapter (see 25 U.S.C. 68 and 441).

§ 121.31 Cost of conveyance; payment.

Pursuant to the Act of February 14, 1920 (41 Stat. 415), as amended by the Act of March 1, 1933 (47 Stat. 1417; 25 U.S.C. 413), the Secretary may in his discretion collect from a purchaser reasonable fees for work performed or expense incurred in the transaction. The amount so collected shall be deposited to the credit of the United States as general fund receipts, except as stated in paragraph (b) of this section.

(a) (1) The amount of the fee shall be $22.50 for each transaction.

(2) The fee may be reduced to a lesser amount or may be waived, if the Secretary determines circumstances justify such action.

(b) (1) If any or all of the costs of the work performed or expenses incurred are paid with tribal funds, an alternate schedule of fees may be established, subject to approval of the Secretary, and that part of such fees deemed appropriate may be credited to the tribe.

(2) When the purchaser is the tribe which bears all or any part of such costs, the collection of the proportionate share from the tribe may be waived.

§ 121.32 Irrigation fee; payment.

Collection of all construction costs against any Indian-owned lands within Indian irrigation projects is deferred as long as Indian title has not been extinguished. (Act of July 1, 1932 (47 Stat. 564; 25 U.S.C. 386a).) This statute is interpreted to apply only where such land is owned by Indians either in trust or restricted status.

(a) When any person whether Indian or non-Indian acquires Indian lands in a fee simple status that are part of an Indian irrigation project he must enter into an agreement, (1) to pay the pro rata share of the construction of the project chargeable to the land, (2) to pay all construction costs that accrue in the future, and (3) to pay all future charges assessable to the land which are based on the annual cost of operation and maintenance of the irrigation system.

(b) Any operation and maintenance charges that are delinquent when Indian land is sold will be deducted from the proceeds of sale unless other acceptable arrangements are made to provide for their payment prior to the approval of the sale.

(c) A lien clause covering all unpaid irrigation construction costs, past and future, will be inserted in the patent or other instrument of conveyance issued to all purchasers of restricted or trust lands that are under an Indian irrigation project.

CROSS-REFERENCE: See Part 128 and Part 129 and cross-references thereunder in this chapter for further regulations regarding sale of irrigable lands.

PARTITIONS OF INHERITED ALLOTMENTS

§ 121.33 Partition.

(a) *Partition without application.* If the Secretary of the Interior shall find that any inherited trust allotment or allotments (as distinguished from lands held in a restricted fee status or authorized to be sold under the Act of May 14, 1948 (62 Stat. 236; 25 U.S.C. 483)), are capable of partition to the advantage of the heirs, he may cause such lands to be partitioned among them, regardless of their competency, patents in fee to be issued to the competent heirs for their shares and trust patents to be issued to the incompetent heirs for the lands respectively or jointly set apart to them, the trust period to terminate in accordance with the terms of the original patent or order of extension of the trust period set out in said patent. (Act of May 18, 1916 (39 Stat. 127; 25 U.S.C. 378).) The authority contained in the Act of May 18, 1916, is not applicable to lands authorized to be sold by the Act of May 14, 1948, nor to land held in restricted fee status.

(b) *Application for partition.* Heirs of a deceased allottee may make written application, in the form approved by the Secretary, for partition of their trust or restricted land. If the Secretary finds the trust lands susceptible of partition, he may issue new patents or deeds to the heirs for the portions set aside to them. If the allotment is held under a restricted fee title (as distinguished from a trust title), partition may be accomplished by the heirs executing deeds approved by the Secretary, to the other heirs for their respective portions.

MORTGAGES AND DEEDS OF TRUST TO SECURE LOANS TO INDIANS

§ 121.34 Approval of mortgages and deeds of trust.

Any individual Indian owner of trust or restricted lands, may with the approval of the Secretary execute a mortgage or deed of trust to his land. Prior to approval of such mortgage or deed of trust, the Secretary shall secure appraisal information as he deems advisable. Such lands shall be subject to foreclosure or sale pursuant to the terms of the mortgage or deed of trust in accordance with the laws of the State in which the lands are located. For the purpose of foreclosure or sale proceedings under this section, the Indian owners shall be regarded as vested with unrestricted fee simple title to the lands (Act of March 29, 1956 (70 Stat. 62; 25 U.S.C. 483a)).

§ 121.35 Deferred payment sales.

When the Indian owner and purchaser desire, a sale may be made or approved on the deferred payment plan. The terms of the sale will be incorporated in a memorandum of sale which shall constitute a contract for delivery of title upon payment in full of the amount of the agreed consideration. The deed executed by the grantor or grantors will be held by the Superintendent and will be delivered only upon full compliance with the terms of sale. If conveyance of title is to be made by fee patent, request therefor will be made only upon full compliance with the terms of the sale. The terms of the sale shall require that the purchaser pay not less than 10 percent of the purchase price in advance as required by the Act of June 25, 1910 (36 Stat. 855), as amended (25 U.S.C. 372); terms for the payment of the remaining installments plus interest shall be those acceptable to the Secretary and the Indian owner. If the purchaser on any deferred payment plan makes default in the first or subsequent payments, all payments, including interest, previously made will be forfeited to the Indian owner.

INTERSTATE COMMERCE COMMISSION

[49 CFR Ch. X]

[Ex Parte 286]

DETERMINATION OF AVOIDABLE LOSSES

Order To Show Cause

APRIL 14, 1972.

It appearing, that by notice of proposed rulemaking and order (36 F.R. 8327) entered herein on March 23, 1971, the Commission instituted this proceeding and made the National Railroad Passenger Corporation (Amtrak) and all railroads providing intercity rail passenger service and operating in interstate commerce within the United States subject to the Interstate Commerce Act respondents;

It further appearing, that the notice of March 23, 1971: *Provided*, That initial statements should be filed on or before June 24, 1971 (a requirement with which several parties have complied) and that reply statements should be filed by July 14, 1971;

It further appearing, that Amtrak subsequently filed four requests for extensions of time to file initial statements, and that pursuant to its request filed February 10, 1972, the date for filing initial statements was fixed as April 3, 1972, and the date for filing replies as April 24, 1972;

It further appearing, that in its petition of February 10, 1972, Amtrak also requested an indefinite postponement of this proceeding, and that Southern Pacific Transportation Co., the trustees of the Penn Central Transportation Co., and the Pennsylvania Public Utilities Commission and city of Philadelphia jointly replied;

It further appearing, that by petition filed April 3, 1972, Amtrak seeks a further extension of the date for filing initial statements for an additional 30 days;

And it further appearing, that the continued failure of Amtrak, a necessary party to this proceeding, to file its initial statements has hampered the Commission in carrying out its statutory mandate to develop a formula for the determination of avoidable losses under the Rail Passenger Service Act of 1970, and good cause therefore having been shown:

It is ordered, That all respondents herein be, and they are hereby, required to show cause, within 30 days of publication of this order in the FEDERAL REGISTER, why the Commission should not proceed promptly to a final determination and conclusion of this proceeding on the basis of the record as heretofore made;

And it is further ordered, That notice of this order be given to the general public by mailing a copy of this order to the Governor of every State and to the Public Utilities Commissioners or Boards of each State having jurisdiction over transportation, by depositing a copy of this order in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection, and by delivering a copy thereof to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER as notice to all interested persons.

Dated at Washington, D.C., this 10th day of April 1972.

By the Commission, Chairman Stafford.

[SEAL] ROBERT L. OSWALD, *Secretary*.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

CANNED APRICOTS

Proposed Standards for Grades [1]

Notice is hereby given that the U.S. Department of Agriculture is considering a revision of the U.S. Standards for Grades of Canned Apricots (7 CFR 52.2641–52.2657). These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (sec. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624) which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use by producers, buyers, and consumers. Official grading services are also provided under this Act upon request of the applicant and upon payment of a fee to cover the cost of such services.

All persons who desire to submit written views, data, or arguments for consideration in connection with the proposed revision should file the same in duplicate, not later than October 1, 1972, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submissions made pursuant to this notice will be available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Statement of consideration leading to the proposed revision. Prior to the start of the canning season of 1971 the standards committee of the California Canners League requested the U.S. Department of Agriculture review the grade standards for canned apricots with specific reference to the "Solid-Pack" portion. The request indicated a need for reflecting a quality level higher than the current maximum level of "Grade C."

Canned apricots are covered by Federal Food and Drug standards of identity and quality. These standards do not, however, cover solid-pack canned apricots. For this reason, and in consideration of the request of the Canners League of California, the Department is concurrently proposing the issuance of separate grade standards for canned solid-pack apricots and a revision of the current grade standards to include only the regular packs, which are covered by the Food and Drug standards.

The proposed revision of the current standards include the following major changes:

(1) A standard sample unit size which will remove the bias caused by varying amounts of product in different container sizes;

(2) A new format of presentation of definitions in the various quality factors which will provide for more clarity;

(3) Presentation of allowances for the various quality factors in table form making the allowances more readily accessible;

(4) Inclusion of fill weight and drained weight values for three new container sizes not covered in the current standards; and

(5) Exclusion of "Solid Pack" canned apricots which will be covered by a separate standard.

(6) Exclusion of the "Grade D" classification since this no longer serves a useful purpose in marketing channels.

No changes in the allowances for the various quality factors or in the drained weight or fill weight requirements are intended at this time. Slight differences in allowances that may occur are due solely to rounding off fractional numbers to whole numbers in the transposition to the standard sample unit size.

The proposed revision is as follows:

PRODUCT DESCRIPTION, STYLES, AND GRADES

Sec.

AUTHORITY: The provisions of this subpart issued under secs. 205, 60 Stat. 1090, as amended; 7 U.S.C. 1624.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

V 37-81 APR 26 72 XUM

PRODUCT DESCRIPTION, STYLES, AND GRADES

§ 52.2641 Product description.

(a) Canned apricots: "Canned apricots" is the product represented as defined in the Standards of Identity for canned apricots (21 CFR 27.10) issued pursuant to the Federal Food, Drug, and Cosmetic Act, and prepared in one of the styles specified in § 52.2642; in one of the liquid media specified in § 52.2644; and is sealed in a container and so processed by heat as to prevent spoilage.

(b) The food may be seasoned with one or more of the optional ingredients permitted in the aforementioned standards of identity.

§ 52.2642 Styles.

(a) "Halves" are pitted apricots cut approximately in half along the suture from stem to apex.

(b) "Slices" are pitted apricots cut into thin sectors or strips.

(c) "Whole" is unpitted, apricots with stems removed.

(d) "Mixed pieces of irregular sizes and shapes" are cut apricot units that are predominantly irregular in size and shape which do not conform to a single style or which are a mixture of two or more of such styles.

(e) When the apricots are unpeeled the name of the style is preceded or followed by the word "unpeeled".

(f) When the apricots are peeled, the name of the style is preceded or followed by the word "peeled".

§ 52.2643 Grades.

(a) "U.S. Grade A" or "U.S. Fancy" is the quality of any style of canned apricots, except mixed pieces of irregular sizes and shapes that:

(1) Have similar varietal characteristics;

(2) Have normal flavor and odor;

(3) Have at least a reasonably good color that scores not less than 17 points;

(4) Are at least reasonably uniform in size and symmetry for the applicable styles except for limits of off-suture cuts in the style of halves;

(5) Are reasonably free from defects;

(6) Have a reasonably good character; and

(7) For those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 90 points.

(b) "U.S. Grade B" or "U.S. Choice" is the quality of canned apricots of any style that:

(1) Have similar varietal characteristics;

(2) Have a normal flavor and odor;

(3) Have a reasonably good color;

(4) Are at least fairly uniform in size and symmetry for the applicable styles except for the limits of off-suture cuts in the style of halves;

(5) Are reasonably free from defects;

(6) Have a reasonably good character; and

(7) For those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 70 points.

(c) "U.S. Grade C" or "U.S. Standard" is the quality of canned apricots of any style that:

(1) Have similar varietal characteristics;

(2) Have a normal flavor and odor;

(3) Have a good color;

(4) Are fairly uniform in size and symmetry;

(5) Are fairly free from defects;

(6) Have a fairly good character; and

(7) For those factors which are scored in accordance with the scoring system outlined in this subpart the total score is not less than 70 points.

(d) "Substandard" is the quality of canned apricots that fail to meet the requirements of U.S. Grade C.

(e) Grade restrictions: A sample unit of mixed pieces of irregular sizes and shapes may be assigned a score in the Grade A range for one or more applicable quality factors but may not be classified above U.S. Grade B (or U.S. Choice) regardless of the total score for the product.

LIQUID MEDIA, FILL OF CONTAINER, DRAINED WEIGHTS, AND FILL WEIGHTS

§ 52.2644 Liquid media and Brix measurements.

"Cut-out" requirements for liquid media in canned apricots are not incorporated in the grades of the finished product since sirup or any other liquid medium, as such, is not a factor of quality for the purposes of these grades. The designations of liquid packing media and the Brix measurements, where applicable, are as follows:

Designations	*Brix measurement*
"Extra heavy sirup" or "Extra heavy apricot juice sirup".	25° or more but not more than 40°.
"Heavy sirup" or "Heavy apricot juice sirup".	21° or more but less than 25°.
"Light sirup" or "Light apricot juice sirup".	16° or more but less than 21°.
"Slightly sweetened water" or "Slightly sweetened apricot juice".	Less than 16°.
"In water"	Not applicable.
"In apricot juice"	Do.
"Artificially sweetened"	Do.

§ 52.2645 Fill of container.

The standard of fill of container for canned apricots is the maximum quantity of the apricot units which can be sealed in the container and processed by heat to prevent spoilage, without crushing or breaking such ingredient. Canned apricots that do not meet this requirement are "Below Standard in Fill".

§ 52.2646 Recommended minimum drained weights.

(a) *General.* (1) The minimum drained weight recommendations for the various styles in Table II are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purposes of these grades.

(2) The recommended minimum drained weights are based on equalization of the product 30 days or more after the product has been canned.

(b) *Definitions of symbols.* (1) $\overline{X}_4$—The minimum average drained weight of all the sample units in the sample.

(2) LL—Lower limit for the drained weight of an individual sample unit.

(c) *Method for ascertaining drained weight.* The drained weight of canned apricots is determined by emptying the contents of the container, turning the pit cavities down in halves, upon a U.S. Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937-inch±3 percent, square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing to drain for two minutes. The drained weight is the weight of the sieve and apricots less the weight of the dry sieve. A sieve 8 inches in diameter is used for the equivalent of No. 3 size cans (404 x 414) and smaller, and a sieve 12 inches in diameter is used for containers larger than the equivalent of the No. 3 size can.

(d) *Compliance with recommended minimum drained weights.* A lot of canned apricots is considered as meeting the minimum drained weight recommendations if the following criteria are met:

(1) The average of the drained weights from all the sample units in the sample meets the recommended average drained weight (designated as $\overline{X}_4$ in Table II; and

(2) The number of sample units which fail to meet the recommended minimum drained weight for individuals (designated as LL) in Table II does not exceed the applicable acceptance number specified in Table I.

§ 52.2647 Recommended minimum fill weights.

(a) *General.* The minimum fill weight recommendations for the various styles in Table III are not incorporated in the grades of the finished product since fill weight, as such, is not a factor of quality for the purposes of these grades.

(b) *Method for ascertaining fill weight.* The fill weight of canned apricots is determined in accordance with the U.S. Department of Agriculture's "Variables Control Chart Plan" and adaptations thereto, as applicable to processed fruits and vegetables and related products.

(c) *Definitions of terms and symbols.* "Subgroup" means a group of sample units representing a portion of a sample.

$\overline{X}_{min}$ means the minimum lot average fill weight.

LWL$\overline{x}$ means the lower warning limit for subgroup averages.

LRL$\overline{x}$ means the lower reject limit for subgroup averages.

LWL means the lower warning limit for individual fill weight measurements.

LRL means the lower reject limit for individual fill weight measurements.

$\overline{R}'$ means a specified average range value.

R_{max} means a specified maximum range for a subgroup.

(d) *Subgroup size.* The subgroup size for the determination of fill weights shall be 5 sample units.

(e) *Sampling frequency.*—(1) *Small lots.* For lots consisting of 100 cases or less which require 4 hours or more to pack use the "optional fill weight procedure" contained in the Instructions for Adaptation of the Variables Control Chart Plan to Fill Weights.

(2) *Other than small lots.* Draw at least one subgroup per code approximately every 40 minutes.

(f) *Compliance with recommended fill weights.* Compliance with the recommended fill weights for canned apricots shall be in accordance with the acceptance criteria specified in the U.S. Department of Agriculture's "Variables Control Chart Plan" and adaptations thereto, as applicable to processed fruits and vegetables and related products.

SAMPLE UNIT SIZE

§ 52.2648 Sample unit size.

(b) *Whole, 25 whole apricots.* In the case of the factors of color and defects only with respect to minor defects a whole apricot shall be considered halved along the suture and each half therefrom is a unit and the sample unit size thereby becomes 50 halves.

§ 52.2648 Compliance with requirements for the various quality factors is based on the following sample unit sizes:

(a) *Halves.* 50 halves.

V 37 N 81
APR 26 72
XUM

(c) *Slices.* 50 slices.

(d) *Mixed pieces of irregular sizes and shapes.* 30 ounces drained fruit finished product, 33 ounces raw fruit for in-plant control.

FACTORS OF QUALITY

§ 52.2649 Ascertaining the grade.

(a) *General.* In addition to considering other requirements outlined in the standards the following quality factors are evaluated:

(1) *Factors not rated by score points.* (i) Varietal characteristics.

(ii) Flavor and odor.

(2) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

	Points
(i) Color	20
(ii) Uniformity of size and symmetry	20
(iii) Defects	30
(iv) Character	30
Total score	100

(b) *Definition of flavor and odor.* "Normal flavor and odor" means that the canned apricots are free from objectionable flavors and objectionable odors of any kind.

§ 52.2650 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which is scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "18 to 20 points" means 18, 19, or 20 points).

§ 52.2651 Color.

(a) *General.* (1) The color of canned apricots other than canned "spiced" apricots refers to the characteristic color of the outer, uncut surfaces of the units; and the varying degrees of pale yellow areas, light greenish-yellow areas, and light green areas.

(2) The factor of color for canned spiced apricots is not based on any detailed requirement and is not scored but the color shall be normal for canned spiced apricots; the other three factors (uniformity of size and symmetry, defects, and character) are scored and the total is multiplied by 100 and divided by 80, dropping any fractions to determine the total score.

(b) *Definitions*—(1) *Well colored.* Well colored means that the units have a typical color characteristic of well-matured apricots. The units may have pale yellow areas not exceeding one-fourth of the outer surface area and are free from brown color due to oxidation, improper processing, or other causes.

(2) *Reasonably well colored.* Reasonably well colored means that the units have a color typical of reasonably well matured apricots. The units may have pale yellow areas not exceeding one-half of the outer surface area or may have light greenish-yellow areas not exceeding one-fourth of the outer surface area and are free from brown color due to oxidation, improper processing, or other causes.

(3) *Fairly well colored.* Fairly well colored means that the units have a typical color characteristic of fairly well matured apricots. The units may have pale yellow areas, may have light greenish-yellow areas not exceeding one-half of the outer surface area, or have light green areas not exceeding one-fourth of the outer surface area. The units may have a slight brown color due to oxidation, improper processing, or other causes.

(4) *Poorly colored.* Poorly colored means that the units have light greenish-yellow areas exceeding one-half of the outer surface area, and/or may have more than a slight brown color due to oxidation, improper processing, or other causes.

(c) (*A*) *classification.* Canned apricots that possess a good color may be given a score of 18 to 20 points. "Good color" means that the apricots are well colored; the sample unit as a mass is practically uniform in color, and the number of units that may be reasonably well colored does not exceed the number specified for the style in § 52.2655.

(d) (*B*) *classification.* Canned apricots that possess a reasonably good color may be given a score of 16 to 17 points. Canned apricots that score 16 points shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably good color" means that the apricots are at least reasonably well colored; the sample unit as a mass is reasonably uniform in color; and the number of units that may be fairly well colored does not exceed the number specified for the style in § 52.2655.

(e) (*C*) *classification.* Canned apricots that possess a fairly good color may be given a score of 14 or 15 points. Canned apricots that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly good color" means that the apricots are fairly well colored; the sample unit as a mass is fairly uniform in color, and the number of poorly colored units does not exceed the number specified for the style in § 52.2655.

(f) (*SStd*) *classification.* Canned apricots that fail to meet the color requirements for Grade C may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2652 Uniformity of size and symmetry.

(a) *General.* The factor of uniformity of size and symmetry for the styles of slices and mixed pieces of irregular sizes and shapes is not based on any detailed requirement and is not scored; the other three factors (color, defects, and character as applicable) are scored and the total is multiplied by 100 and divided by 80, dropping any fractions to determine the total score. Uniformity of size and symmetry for the styles of halves and whole pertains to the percent by which the weight of the largest full-sized unit exceeds the weight of the smallest full-sized unit, and the number of off-suture cuts and detached or partially detached pieces in the style of halves. A unit that possesses an off-suture cut and is scoreable as such and in addition possesses a partially detached piece is scoreable either as an off-suture cut or a partially detached piece but not both.

(b) *Definitions*—(1) *Off-suture cut.* "Off-suture cut" in the style of halves means a halved unit which has been cut at a distance from the suture greater than one-fourth inch at the widest measurement from the suture.

(2) *Detached piece.* Detached piece is a piece in the style of halves which has the appearance of a slice resulting from an off-suture cut or improper cutting that is completely separated from the half from which cut.

(3) *Partially detached piece.* A partially detached piece in the style of halves, is a piece which has the appearance of a slice resulting from an off-suture cut or improper cutting and is detached more than one-third the length of the half along the suture or approximately parallel with the suture. A partially detached piece, together with the unit to which it is attached is considered as one unit.

(c) (*A*) *classification.* The styles of halves and whole canned apricots that are practically uniform in size and symmetry may be given a score of 18 to 20 points. "Practically uniform in size and symmetry" means that the units are very symmetrical; and that the number of units that exceed the maximum weight variation, the number of detached or partially detached pieces in the style of halves, and/or the number of units of halves that possess off-suture cuts do not exceed the applicable number specified in § 52.2655.

(d) (*B*) *classification.* The styles of halves and whole canned apricots that are reasonably uniform in size and symmetry may be given a score of 16 or 17 points. A sample unit of the style of halves that possess more than 5 units which have off-suture cuts shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably uniform in size and symmetry" means that the units are reasonably symmetrical; and that the number of units that exceed the maximum weight variation, the number of detached or partially detached pieces, and/or the number of units of halves that possess off-suture cuts do not exceed the applicable number specified in § 52.2655.

(e) (*C*) *classification.* The styles of halves and whole canned apricots that are fairly uniform in size and symmetry may be given a score of 14 or 15 points. Except for off-suture cuts in the style of halves, canned apricots that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product; a sample unit of halves style that possesses more

than 8 units that have off-suture cuts shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly uniform in size and symmetry" means that the units may vary in size, thickness, and symmetry; and that the number of units that exceed the maximum weight variation, the number of detached or partially detached pieces, and/or the number of units of halves style that possess off-suture cuts do not exceed the applicable number specified in § 52.2655.

(f) (*SStd*) *classification.* Canned apricots that fail to meet the uniformity of size and symmetry requirements for Grade C may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2654 Defects.

(a) *General.* (1) The factor of defects refers to the degree of freedom from pit material, loose pits, harmless extraneous material, short stems, peel, minor blemishes, major blemishes, and crushed or broken units.

(2) Canned whole apricots shall be considered as halved along the suture and each half therefrom considered a separate unit in evaluating the factor of defects with respect to minor blemishes only. Each whole apricot shall be considered as a separate unit in ascertaining compliance with allowances for major blemishes.

(b) *Definitions*—(1) *Harmless extraneous material.* "Harmless extraneous material" means any harmless vegetable substance (such as, but not limited to, a leaf or portion thereof or a large stem) that is harmless.

(2) *Short stem.* A "short stem" means the short, thick, woody, stem which attaches the apricot to the twig of the tree or other stem material of equivalent woodiness and shortness.

(3) *Pit material.* "Pit material" means any whole pit in all styles other than whole styles or any portion of an apricot pit, regardless of size, except when whole apricot pits or apricot kernels are permitted as seasoning ingredients in other than whole style.

(4) *Loose pit.* A "loose pit" means a whole, unbroken pit not adhering to the flesh of a unit in the styles of whole apricots.

(5) *Minor blemish.* "Minor blemish" in unpeeled styles includes "freckles" and also means:

(i) Light brown to brown surface areas which, singly or in combination on a unit, exceed in the aggregate the area of a circle one-eighth inch in diameter but do not exceed in the aggregate the area of a circle one-fourth inch in diameter; or

(ii) Single dark brown surface areas that do not exceed the area of a circle one-eighth inch in diameter but which, singly or in combination with other "minor blemishes" on a unit, affect materially but not seriously the appearance of the unit. Light brown to brown surface areas and "freckles" that are insignificant and less than the area of a circle one-eighth inch in diameter and which do not affect materially the appearance of the unit are not considered "defects".

(6) *Major blemish.* "Major blemish" in canned apricots includes units affected by scab, hail injury, discoloration, or other abnormalities in the following degree:

(i) Light brown to brown surface areas in unpeeled styles which, singly or in combination on a unit, exceed in the aggregate the area of a circle one-fourth inch in diameter;

(ii) Blemishes that extend into the fruit tissue regardless of area or depth;

(iii) Single dark brown surface areas in unpeeled styles that exceed the area of a circle one-eighth inch in diameter, whether or not the unit is affected by minor blemishes; or

(iv) Any blemish whether or not specifically defined or mentioned in this subparagraph which affects seriously the appearance of the unit but is not a filthy or decomposed substance.

(7) *Crushed or broken.* "Crushed or broken" means that:

(i) A unit in halves or whole style of canned apricots is "crushed" if the unit has definitely lost its normal shape and is crushed not due to ripeness; and

(ii) A unit in halves or whole style of canned apricots is "broken" if severed into definite parts; halves of canned apricots that are slightly or partially split or mashed from the edge to the pit cavity are not considered broken, or units in the style of peeled whole apricots that are mashed or very soft due to ripeness to the extent that the pit cavity is exposed or a seed missing therefrom is not crushed or broken. Portions equivalent to a full-size unit that has been broken are considered as one unit in determining compliance with the allowances for this defect.

(c) (*A*) *classification.* Canned apricots that are practically free from defects may be given a score of 27 to 30 points. "Practically free from defects" means that:

(1) The amount of peel that may be present in peeled styles does not exceed the amount specified in § 52.2655; and

(2) The number of other defects that may be present does not exceed the number specified for the applicable style in § 52.2655.

(d) (*B*) *classification.* Canned apricots that are reasonably free from defects may be given a score of 24 to 26 points. Canned apricots that fall into this classification shall not be graded above U.S. Grade B, regardless of the total score for the product (this is a limiting rule). "Reasonably free from defects" means that:

(1) The amount of peel that may be present in peeled styles does not exceed the amount specified in § 52.2655;

(2) With respect to all styles, the number of other defects that may be present does not exceed the number specified for the applicable style in § 52.2655.

(e) (*C*) *classification.* Canned apricots that are fairly free from defects may be given a score of 21 to 23 points. Canned apricots that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule). "Fairly free from defects" means that:

(1) The amount of peel that may be present in peeled styles does not exceed the amount specified in § 52.2655;

(2) With respect to all styles, the number of other defects that may be present does not exceed the number specified for the applicable style in § 52.2655.

(f) (*SStd*) *classification.* Canned apricots that fail to meet the defect requirements for Grade C may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.2654 Character.

(a) *General.* The factor of character refers to the degree of ripeness, the texture, and condition of the flesh, the firmness and tenderness of the canned apricots and their tendency to retain their apparent original conformation and size without disintegration.

(b) *Definitions*—(1) *Good character.* "Good character" means that the units have a practically uniform tender, fleshy texture, typical of well-ripened, properly prepared and properly processed canned apricots; the units may be soft but hold their original conformation and size without material disintegration.

(2) *Reasonably good character.* "Reasonably good character" means that the units have a reasonably uniform, reasonably tender texture typical of properly ripened canned apricots that are properly processed; the texture is reasonably fleshy, and the units are reasonably thick but the tenderness may be variable within the unit or among the units; the units may be soft to slightly firm or slightly ragged but are not mushy.

(3) *Fairly good character.* "Fairly good character" means that the units have a texture of properly processed apricots which may be variable in fleshiness but the texture is fairly fleshy; the units may be lacking uniformity of tenderness; the units may be very soft to moderately firm or markedly ragged with frayed edges.

(4) *Poor character.* "Poor character" means the units may be lacking in fleshiness; may be not tender or may be very firm or may be mushy.

(c) (*A*) *classification.* Canned apricots that have a good character may be given a score of 27 to 30 points. To score in this classification, the number of units that possess reasonably good character does not exceed the number specified for the style in § 52.2655.

(d) (*B*) *classification.* Canned apricots that possess a reasonably good character may be given a score of 24 to 26 points. To score in this classification, the number of units that possess fairly good character does not exceed the number specified for the style in § 52.2655.

(e) (*C*) *classification.* Canned apricots that possess a fairly good character may be given a score of 21 to 23 points. Canned apricots that fall into this classification shall not be graded above U.S.

Poor	0		0		3	

[1] Indv.—means individual sample unit.
[2] Avg.—means average of all the sample units in the sample.

LOT INSPECTION AND CERTIFICATION

§ 52.2656 Ascertaining the grade of a lot.

The grade of a lot of canned apricots covered by these standards is determined by the procedures set forth in the Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products (§§ 52.1 through 52.87).

SCORE SHEET

§ 52.2657 Score sheet for canned apricots.

Grade C, regardless of the total score for the product (this is a limiting rule). To score in this classification, the number of units that possess poor character does not exceed the number specified for the style in § 52.2655.

(f) *(SStd) classification.* Canned apricots that fail to meet the character requirements for Grade C may be given a score of 0 to 20 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

ALLOWANCES FOR QUALITY FACTORS

§ 52.2655 Allowances for quality factors.

[7 CFR Part 52]

CANNED SOLID-PACK APRICOTS

Proposed Standards for Grades [1]

Notice is hereby given that the U.S. Department of Agriculture is considering the issuance of U.S. Standards for Grades of Canned Solid-Pack Apricots. This new grade standard would be issued under authority of the Agricultural Marketing Act of 1946 (Sec. 205, 60 Stat. 1090, as amended, 7 U.S.C. 1624), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers, and consumers. Official grading services are also provided under this Act upon request and upon payment of a fee to cover the cost of such service.

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same in duplicate not later than October 1, 1972, with the Hearing Clerk, U.S. Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250. All written submittals made pursuant to this notice will be available for public review at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Statement of consideration leading to the proposed standard. Canned Solid-Pack apricots are at present included in the U.S. Standards for Grades of Canned Apricots.

The Canners League of California, representing a large number of the canners of the product, requested that the USDA amend the U.S. Standards for Grades of Canned Apricots to allow Canned Solid-Pack apricots to be assigned score points commensurate with the actual quality level, for color, defects, and character, while maintaining the present grade restriction.

Presently Canned Solid-Pack apricots are restricted to the Grade C score point range and a maximum grade of U.S. Grade C—Solid Pack.

A study of the problem provided the following facts:

(1) Canned apricots and Canned Solid-Pack apricots are actually two distinctive products differing in the number of applicable quality factors, product description, packing and processing methods. There is also little direct competition between the two products in the marketplace.

(2) Canned Solid-Pack apricots as they are presently packed vary enough to allow establishment of two meaningful quality levels.

(3) Because of the many styles and the multiple Food and Drug Standards of Identity requirements, the U.S. Standards for Grades of Canned Apricots, in effect now, is in need of simplification and revision.

(4) The Food and Drug Administration Standard of Identity covers Canned Apricots but not Canned Solid-Pack apricots.

The Department agrees that changes are required to make the U.S. Standards for Grades of Canned Apricots more effective and useful as a marketing tool. In regard to Canned Solid-Pack apricots, it is also apparent that an amendment to the present standard would not serve this purpose adequately.

Therefore, it is proposed to separate the product Canned Solid-Pack apricots from the present canned apricot standard and promulgate separate U.S. Standards for Grades of Canned Solid-Pack apricots.

The new standard, as here proposed, would cover two quality grades above substandard: U.S. Grade B (or U.S. Choice) and U.S. Grade C (U.S. Standard). The normal top quality classification of U.S. Grade A (or U.S. Fancy) has been omitted since the solid-pack product is not commensurate with this quality level.

The proposed standard is as follows:

PRODUCT DESCRIPTION AND GRADES

Sec.
52.6241 Product description.
52.6242 Grades of canned solid-pack apricots.

FILL OF CONTAINER, DRAINED WEIGHTS

52.6243 Recommended fill of container.
52.6244 Recommended drained weights.

SAMPLE UNIT SIZE

52.6245 Sample units size.

FACTORS OF QUALITY

52.6246 Ascertaining the grade of a sample unit.
52.6247 Ascertaining the rating for the factors which are scored.
52.6248 Color.
52.6249 Defects.
52.6250 Character.

LOT INSPECTION AND CERTIFICATION

52.6251 Ascertaining the grade of a lot.

SCORE SHEET

52.6252 Score sheet for canned solid-pack apricots.

AUTHORITY: The provisions of this subpart issued under sec. 205, 60 Stat. 1090, as amended, 7 U.S.C. 1624.

PRODUCT DESCRIPTION AND GRADES

§ 52.6241 Product description.

Canned solid-pack apricots are prepared from mature, sound apricots (prunus armeniaca), pitted and peeled or unpeeled or any combination of peeled and unpeeled. The product is packed with or without dry nutritive sweetening ingredients, and is sufficiently processed by heat in hermetically sealed containers to assure its preservation.

§ 52.6242 Grades of Canned Solid-Pack Apricots.

(a) "U.S. Grade B" or "U.S. Choice" is the quality of the product that:
(1) Has normal flavor and odor;
(2) Has at least a reasonably good color;
(3) Has at least a reasonably good character;
(4) Is reasonably free from defects; and
(5) Scores not less than 85 points when scored in accordance with the scoring system outlined in this subpart.

(b) "U.S. Grade C" or "U.S. Standard" is the quality of the product that:
(1) Has normal flavor and odor;
(2) Has at least a fairly good color;
(3) Has at least a fairly good character;
(4) Is fairly free from defects; and
(5) Scores not less than 70 points when scored in accordance with the scoring system outlined in this subpart.

(c) "Substandard" is the quality that fails to meet the requirements of "U.S. Grade C".

FILL OF CONTAINER, DRAINED WEIGHTS

§ 52.6243 Recommended fill of container.

The recommended fill of container for canned solid-pack apricots is not incorporated in the grades of the finished product since fill of container, as such, is not a factor of quality for the purposes of these grades. It is recommended that each container be as full of apricots as practicable without impairment of quality and that the product occupy not less than 90 percent of the volume of the container.

§ 52.6244 Recommended minimum drained weights.

(a) *General.* The minimum drained weight recommendations in Table I are not incorporated in the grades of the finished product since drained weight, as such, is not a factor of quality for the purpose of these grades.

(b) *Definitions of symbols.* (1) LL—Lower limit for individual drained weights.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or with applicable State laws and regulations.

V 37-81 APR 26 72 XUM

(2) $\overline{X}_d$—Minimum sample average drained weight value.

(c) *Method for ascertaining drained weight.* (1) The drained weight is determined by emptying the contents of the container upon a U.S. Standard No. 8 circular sieve of proper diameter containing 8 meshes to the inch (0.0937±3 percent, square openings) so as to distribute the product evenly, inclining the sieve slightly to facilitate drainage, and allowing the product to drain for 2 minutes.

(2) The drained weight is the weight of the sieve and apricots less the weight of the dry sieve. A sieve 12 inches in diameter is used.

(d) *Compliance with recommended minimum drained weights.* A lot of canned solid-pack apricots is considered as meeting the minimum drained weight recommendations if the following criteria are met:

(1) The average of the drained weights from all the sample units in the sample meets the recommended average drained weight (designated as $\overline{X}_d$) in Table I; and

(2) The number of sample units which fail to meet the recommended minimum drained weight for individuals (designated as LL) in Table I does not exceed the applicable acceptance number specified in Table II.

TABLE I—RECOMMENDED DRAINED WEIGHTS FOR CANNED SOLID-PACK APRICOTS

	LL	$\overline{X}_d$
	Ounces	*Ounces*
No. 10.	89.5	92.0

TABLE II—ACCEPTANCE NUMBERS FOR RECOMMENDED DRAINED WEIGHT

Sample size (number of sample units).	3	6	13	21	29	38	48	60	72
Acceptance No.	0	1	2	3	4	5	6	7	8

SAMPLE UNIT SIZE

§ 52.6245 Sample unit size.

For purposes of evaluating quality factors, the sample unit size shall be the entire contents of a No. 10 container or equivalent.

FACTORS OF QUALITY

§ 52.6246 Ascertaining the grade of a sample unit.

In addition to considering other requirements outlined in the standards, the following quality factors are evaluated:

(a) *Factors not rated by score points.* (1) Flavor and odor.

(b) *Factors rated by score points.* The relative importance of each factor which is scored is expressed numerically on the scale of 100. The maximum number of points that may be given such factors are:

	Points
Color	20
Defects	40
Character	40
Total score	100

(c) *Definition of flavor and odor.* "Normal flavor and odor" means that the product is free from objectionable flavors and objectionable odors of any kind.

§ 52.6247 Ascertaining the rating for the factors which are scored.

The essential variations within each factor which are scored are so described that the value may be ascertained for each factor and expressed numerically. The numerical range within each factor which is scored is inclusive (for example, "17 to 20 points" means 17, 18, 19, or 20 points).

§ 52.6248 Color.

(a) *General.* The color of canned solid-pack apricots refers to the characteristic color of the outer, uncut surfaces of the units, the varying degrees of "pale yellow areas", "light-greenish yellow areas", and "light green areas"; and the uniformity of the individual sample unit when viewed in mass.

(b) *Definitions*—(1) Reasonably well colored means that the units possess a color typical of reasonably well matured apricots. The units may possess pale yellow areas not exceeding one-half of the outer surface area, or may possess light greenish-yellow areas not exceeding one-fourth of the outer surface area. The units may possess a slight brown color due to oxidation, or other causes.

(2) Fairly well-colored means that the units may be pale yellow or may possess light greenish-yellow areas not exceeding one-half of the outer surface area, or greenish areas not exceeding one-fourth of the outer surface and/or may possess more than a slight brown color due to oxidation, or other causes, but not off-color.

(3) Poorly colored means that the units may possess light greenish-yellow areas exceeding one-half of the outer surface area, or green areas exceeding one-fourth of the outer surface area, or are off-color for any reason.

(c) *(B) classification.* Canned solid-pack apricots that possess a reasonably good color may be given a score of 17 to 20 points. "Reasonably good color" means that (1) the sample unit, in mass, is at least reasonably uniform in color; and (2) the apricots are at least reasonably well-colored, except that the weight of units that are fairly well-colored, and poorly colored does not exceed the weight specified in Table III.

(d) *(C) classification.* Canned solid-pack apricots that possess a fairly good color may be given a score of 14 to 16 points. "Fairly good color" means that (1) the sample unit, in mass, may be variable in color; and (2) the apricots are at least fairly well-colored, except that the weight of the units that are poorly colored does not exceed the weight specified in Table III. Canned solid-pack apricots that fall into this classification shall not be graded above U.S. Grade C, regardless of the total score for the product (this is a limiting rule).

(e) *(SStd) classification.* Canned solid-pack apricots that fail to meet the requirements of U.S. Grade C may be given a score of 0 to 13 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6249 Defects.

(a) *General.* The factor of defects refers to the degree of freedom from pit material, harmless extraneous material, short stems, minor blemishes and major blemishes, severe blemishes, and from any other defect not specifically mentioned.

(b) *Definitions and explanations of defects*—(1) *Harmless extraneous material.* Any vegetable substance (such as, but not limited to, a leaf or portion thereof or a large stem) that is harmless.

(2) *Short stem.* The short, thick, woody stem which attaches the apricot to the twig of the tree or other stem material of equivalent woodiness and shortness.

(3) *Pit material.* Any whole pit or any hard portion of an apricot pit, regardless of size.

(4) *Minor blemish.* (i) Light brown to brown surface areas, including "freckles" which singly or in combination on a unit, exceed in aggregate the area of a circle one-eighth inch in diameter but do not exceed in the aggregate the area of a circle one-fourth inch in diameter.

(ii) Any blemish or abnormality whether or not specifically defined which more than slightly but not materially affects the appearance or eating quality of the product.

(5) *Major blemish.* (i) Light brown to brown surface areas which, singly or in the aggregate on a unit, exceed the area of a circle one-fourth-inch diameter.

(ii) Dark brown surface areas which singly or in the aggregate on a unit, exceed the area of a circle one-eighth inch in diameter, but do not exceed the area of a circle three-eighth inch in diameter whether or not the unit is affected by minor blemishes.

(iii) Blemishes that extend into the fruit tissue regardless of area or depth.

(iv) Any blemish whether or not specifically defined which materially affects the appearance of the unit.

(6) *Severe blemish.* (i) Dark brown surface areas which singly or in the aggregate, exceed the area of a circle three-eighth inch in diameter.

(ii) Any blemish or abnormality whether or not specifically mentioned that seriously affects the appearance of the unit.

(c) *(B) classification.* Canned solid-pack apricots that are reasonably free from defects may be given a score of 34 to 40 points. "Reasonably free" from defects means that the defects present do not exceed the allowances specified in Table III.

(d) *(C) classification.* Canned solid-pack apricots that are fairly free from defects may be given a score of 28 to 33 points. "Fairly free" from defects means that the defects present do not exceed the allowances specified in Table III. Canned solid-pack apricots that fall into this classification shall not be graded above U.S. Grade C or U.S. Standard regardless of the total score for the product (this is a limiting rule).

(e) *(SStd) classification.* Canned solid-pack apricots that fail to meet the defect requirement of U.S. Grade C may be given a score of 0 to 27 points and shall not be graded above substandard, regardless of the total score for the product (this is a limiting rule).

§ 52.6250 Character.

(a) *General.* The factor of character refers to the degree of ripeness, the texture and condition of the flesh, the firmness, and tenderness of the canned solid-pack apricots.

(b) *Definitions*—(1) *Reasoanbly good character.* "Reasonably good character" means that the units possess at least a reasonably uniform, reasonably tender texture typical of properly ripened apricots that are properly processed; the texture is at least reasonably fleshy, and the units are at least reasonably thick but the tenderness may be variable within the unit or among the units; the units may be soft to slightly firm or ragged, but are not mushy.

(2) *Fairly good character.* "Fairly good character" means that the units possess a texture of properly processed apricots which may be variable in fleshiness but the texture is fairly fleshy and the units may be lacking uniformity of tenderness or may be markedly ragged with frayed edges or may be very soft or mushy, or may be moderately firm.

(3) *Poor character.* "Poor character" means that the units may be very mushy or may be very firm.

(c) *(B) classification.* Canned solid-pack apricots that possess a reasonably good character may be given a score of 34 to 40 points. To score in this classification, the weight of the units that possess fairly good character and poor character does not exceed the weight specified in Table III.

(d) *(C) classification.* Canned solid-pack apricots that possess a fairly good character may be given a score of 28 to 33 points. To score in this classification, the weight of units that possess poor character does not exceed the weight specified in Table III. Canned solid-pack apricots that fall into this classification shall not be graded above U.S. Grade C or U.S. Standard, regardless of the total score for the product (this is a limiting rule).

(e) *(SStd) classification.* Canned-solid pack apricots which fail to meet the requirements of U.S. Grade C may be given a score of 0 to 27 points and shall not be graded above Substandard, regardless of the total score for the product (this is a limiting rule).

TABLE III—ALLOWANCES FOR QUALITY FACTORS

Quality Factors	Grade B	Grade C
	(Ounces)	*(Ounces)*
Color:		
Fairly well-colored	9	
Poorly colored	Including 1	14
	(No. of defects)	*(No. of defects)*

Short stems	3	6
Pit material	3	6
Units affected by minor, major, and severe blemishes	18	36
Major blemishes	9	18
Severe blemishes	0	2
	(Ounces)	*(Ounces)*
Character:		
Fairly good character	9	
Poor character	2	15

LOT INSPECTION AND CERTIFICATION

§ 52.6251 Ascertaining the grade of a lot.

The grade of a lot of canned solid-pack apricots covered by these standards is determined by the procedures set forth in the "Regulations Governing Inspection and Certification of Processed Fruits and Vegetables, Processed Products Thereof, and Certain Other Processed Food Products". (§§ 52.1 through 52.87, 22 F.R. 3535)

LIMES GROWN IN FLORIDA

Limitation of Handling

Consideration is being given to the following proposal, as hereinafter set forth, which would limit the handling of limes grown in Florida by establishing grades and sizes, pursuant to § 911.52 *Issuance of regulations,* which was recommended by the Florida Lime Administrative Committee, established pursuant to the marketing agreement, as amended, and Order No. 911, as amended (7 CFR Part 911; 36 F.R. 14125), regulating the handling of limes grown in Florida. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the seventh day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

The recommendations by the Florida Lime Administrative Committee reflect its appraisal of the Florida lime crop and the current and prospective market conditions. While shipments of limes for the current season are currently underway a heavier volume of shipments is expected to begin on or about June 1, 1972. The size and grade requirements specified herein are designed to prevent the handling, on and after June 1, 1972, of limes that are of a lower grade or smaller size so as to provide consumers with good quality fruit, consistent with the overall quality of the crop, while maximizing returns to the producers pursuant to the declared policy of the act.

Such proposal reads as follows:

§ 911.335 Lime Regulation 33.

(a) Order: During the period June 1, 1972, through April 30, 1973, no handler shall handle:

(1) Any limes of the group known as true limes (also known as Mexican, West Indian, and Key limes and by other synonyms), grown in the production area, which do not meet the requirements of at least U.S. No. 2 grade for Persian (Tahiti) limes, except as to color;

(2) Any limes of the group known as large-fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which do not grade at least U.S. Combination, Mixed Color, with not less than 75 percent, by count, of the limes in any container thereof grading at least U.S. No. 1, Mixed Color: *Provided,* That stem length shall not be considered a factor of grade, and tolerances for fruit affected by decay and for fruit failing to meet the requirements set forth in the U.S. Standards for Persian (Tahiti) limes shall apply; or

(3) Any limes of the group known as large-fruited or Persian limes (including Tahiti, Bearss, and similar varieties) which are of a size smaller than 1⅞ inches in diameter.

(b) Notwithstanding the provisions of paragraph (a)(3) of this section, not more than 10 percent, by count, of the limes in any lot of containers, other than master containers of individual bags,

V 37-81 APR 26 72 XUM

may fail to meet the applicable minimum size requirement: *Provided*, That no individual container of limes having a net weight of more than 4 pounds may have more than 15 percent, by count, of the limes which fail to meet such applicable size requirements.

(c) Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order; and terms relating to grade and diameter, as used herein, shall have the same meaning as is given to the respective term in the United States Standards for Persian (Tahiti) Limes (§§ 51.1000–51.1016 of this title).

Dated: April 21, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[23 CFR Part 1]

[Docket No. 72-1]

CONSIDERATION OF ECONOMIC, SOCIAL, AND ENVIRONMENTAL EFFECTS

Proposed Guidelines and Instructional Memorandum

Notice is hereby given that the Federal Highway Administration is considering the adoption of guidelines and instructional memorandum set forth below pursuant to section 136(b) of the Federal-Aid Highway Act of 1970, 23 U.S.C. 109(h). The purpose of the memorandum and the guidelines is to assure that all possible adverse economic, social, and environmental effects relating to any proposed highway project on any Federal-aid system have been fully considered in developing such project, and that the final decisions on the project are made in the best overall public interest, taking into consideration the need for fast, safe, and efficient transportation, public services, and the costs of eliminating or minimizing such adverse effects, and the following:

(1) Air, noise, and water pollution;

(2) Destruction or disruption of manmade and natural resources, aesthetic values, community cohesion and the availability of public facilities and services;

(3) Adverse employment effects, and tax and property value losses;

(4) Injurious displacement of people, businesses and farms; and

(5) Disruption of desirable community and regional growth.

The purpose of these guidelines is to build into State highway procedures specific processes whereby social, economic, and environmental effects will be considered, and to require, as part of the requirements of obtaining either design or location approval from the Federal Highway Administration, that adverse effects have been recognized and considered in making the determination to go forward with the project.

The proposed instructional memorandum changes PPM 20–8 by grouping the 23 factors listed in paragraph 4(c) of that memorandum into six general headings which are also expanded to encompass the matters set forth in section 136(b) of the 1970 Federal-Aid Highway Act. This memorandum further requires States, as part of their submissions for location or design approval after the effective date of the memorandum, or if such approvals have been given, upon a request for approval of plans, specifications and estimates to prepare a discussion of adverse social, economic, environmental, and engineering effects. The discussions must include a recognition of such adverse effects, an analysis of reasonable and prudent measures to eliminate or minimize such effects and the estimated cost of alternate measures considered. As much of this material has formerly been submitted in response to highway requirements under PPM 20–8 and the National Environmental Policy Act, State highway departments may make reference to studies formerly conducted if they meet the requirements of the memorandum.

It is contemplated that in order to meet the requirements of section 136(b) this instructional memorandum would take effect no later than October 1, 1972.

The process guidelines require each State highway agency to develop an action plan for meeting the requirements of section 136(b) within the framework set forth in those guidelines by October 1, 1973. It was viewed as impossible to have the States meaningfully meet the requirements of these guidelines before that date. The action plan adopted by each State will require the early identification of economic, social and environmental effects to permit complete analysis and consideration while alternatives are being formulated and evaluated. The plan will also require the involvement of other governmental agencies and the public early enough to influence both technical studies and final decisions of the plan, and will require full consideration of reasonable alternatives.

Other governmental agencies and the public must be fully informed of highway planning and their views solicited and considered at all phases of the highway planning procedure. In keeping with the requirements of the National Environmental Policy Act of 1969, a systematic, interdisciplinary approach to assure the integrated uses of the natural and social sciences and the environmental design arts in planning and decisionmaking is also to be structured into the action plan to assure that these goals are reached. Decisionmaking is required to be responsive to the technical studies, consideration of alternates, involvement of the public and interdisciplinary approach specified by the action plan.

The action plan would be formulated by each State highway department to meet the particular social, economic, and environmental conditions in various areas of the State and will be sufficiently detailed to assign responsibilities for the conduct of technical studies and for decisionmaking. The technical studies will be prepared as early as possible and meshed with the planning for highway projects within the State. Alternates will be required to be considered throughout the highway planning process in order to minimize adverse social, economic and environmental effects. The alternative of no highway construction and of serving transportation needs by means other than construction of highways must be specifically evaluated.

The proposed process guidelines further provide that these studies, public involvement, etc., are to be considered not only during project planning but during system planning as well. Because various regions of the individual States may demand different procedures in order to maximize the consideration of social, economic and environmental effects, different procedures may be adopted for these various regions. Further, because the full implementation of an action plan will require partial restructuring of highway departments, and the employment and training of persons in skills, in part, foreign to State highway departments, the guidelines also propose that the action plan may be implemented in stages.

Informal drafts of these guidelines have already been discussed with some interested groups and distributed to State highway departments.

Interested persons are invited to participate in the adoption of the proposed memorandum and guidelines by submitting written data, views, and arguments. Six copies of comments should be submitted to the Office of Environmental Policy, Federal Highway Administration, 400 Seventh Street SW., Washington, DC 20590. All comments received by May 15, 1972, will be considered before action is taken on the proposed guidelines.

Issued: Washington on April 12, 1972.

F. C. TURNER,
Federal Highway Administrator.

PPM 90—PROCESS GUIDELINES FOR CONSIDERATION OF ENVIRONMENTAL EFFECTS

A partial response to section 136(b) of the Federal-Aid Highway Act of 1970.

1. *Purpose.* To provide to highway agencies and Federal Highway Administration field offices guidelines for the development of Action Plans to assure adequate consideration of possible social, economic, and environmental effects of proposed highway projects and that the decisions on such projects are made in the best overall public interest. These guidelines identify issues to be considered in reviewing the present organization and processes of a highway agency as they relate to social, economic, and environmental considerations, and in developing desirable improvements. The guidelines recognize the unique situation of each State and do not prescribe specific organizations or procedures.

2. *Authority.* a. Title 23 U.S.C., section 109 (h) as contained in section 136(b) of the Federal-Aid Highway Act of 1970, Public Law

91–605, directs the following: "(h) Not later than July 1, 1972, the Secretary, after consultation with appropriate Federal and State officials, shall submit to Congress, and not later than 90 days after such submission, promulgate guidelines designed to assure that possible adverse economic, social, and environmental effects relating to any proposed project on any Federal-aid system have been fully considered in developing such project, and that the final decisions on the project are made in the best overall public interest, taking into consideration the need for fast, safe and efficient transportation, public services, and the costs of eliminating or minimizing such adverse effects and the following:

"(1) Air, noise, and water pollution;

"(2) Destruction or disruption of manmade and natural resources, esthetic values, community cohesion and the availability of public facilities and services;

"(3) Adverse employment effects, and tax and property value losses;

"(4) Injurious displacement of people, businesses and farms; and

"(5) Disruption of desirable community and regional growth.

"Such guidelines shall apply to all proposed projects with respect to which plans, specifications and estimates are approved by the Secretary after the issuance of such guidelines."

3. *Definitions*—a. *Highway agency.* The State highway department or State Department of Transportation with the primary responsibility for initiating and carrying forward the planning, design, and construction of Federal-aid highway projects.

b. *Human environment.* The aggregate of all external conditions and influences (esthetic, ecological, biological, cultural, social, economic, historical, etc.) that affect the lives of humans.

c. *Environmental effects.* The totality of the effects of a highway project on the human and natural environment.

d. *A–95 Clearinghouse.* Those agencies and offices in State, metropolitan areas, and multi-State regions, which perform the coordination functions called for in the Office of Management and Budget Circular A–95.

e. The following definitions are provided solely to clarify the usage of the terms system planning, location, and design as they are used in these guidelines. A highway agency, however, may choose to use different definitions in responding to these guidelines. If not stated otherwise, the following definitions will be assumed to be applicable:

(1) *System planning.* Regional analysis of transportation needs and the identification of transportation corridors.

(2) *Location.* From the end of system planning through location approval.

(3) *Design.* From the completion of location approval through the approval of plans, specifications, and estimates.

4. *Policy.* It is the Federal Highway Administration's policy to assure that full consideration is given to economic, social, and environmental effects in the development of proposed Federal-aid projects, and that decisions are made in the best overall public interest, taking into consideration the need for fast, safe, and efficient transportation, public services, and the costs of eliminating or minimizing possible adverse economic, social, and environmental effects. To assure that project development procedures merit public confidence, it is the Federal Highway Administration's policy that:

a. Economic, social, and environmental effects are identified and studied early enough to permit analysis and consideration while alternatives are being formulated and evaluated;

b. Other agencies and the public are involved in project development early enough to influence technical studies and final decisions;

c. Appropriate consideration be given to reasonable alternatives, including the alternative of not building the project, and alternative modes.

5. *Application.* These guidelines apply to State highway agencies that propose projects for which plans, specifications, and estimates are approved by the Secretary. Other agencies forwarding projects for the approval of the Federal Highway Administration need not develop the "Action Plan" specified herein, but shall be guided by the principles herein in the development of such Federal-aid highway projects.

6. *Procedures.* a. To meet the requirements of these guidelines each highway agency shall develop an Action Plan which describes the organization and the processes to be followed in the development of Federal-aid highway projects from initial planning through design.

b. The Action Plan should be consistent with the requirements of PPM's 20–8, 90–1, and of other applicable directives.

c. Involvement of other State and local agencies, officials, and interested groups should be sought, including A–95 Clearinghouses, throughout the development stages of the Action Plan. Comments on the proposed Action Plan should be solicited from these agencies, groups, and individuals, and the plan forwarded to the Federal Highway Administration should include a summary of significant comments and views on the major features of the plan and the State's disposition of them. The Action Plan should also describe the steps taken to involve other agencies and the public during development of the plan.

d. The Action Plan shall be submitted to the Governor of the State for review and endorsement as a means of obtaining a high degree of interagency and intergovernmental coordination.

e. After approval by the Governor, the action plan shall be submitted to the Federal Highway Administration not later than April 1, 1973, for approval. The Federal Highway Administration will not give location approval on projects after October 1, 1973, unless the action plan has been approved.

7. *Implementation and revision.* a. The Federal Highway Administration may review the States' implementation of their action plans at appropriate intervals. The Federal Highway Administration may withhold approvals of requests for location approval if the plan is not followed.

b. If a Highway Agency prepares an Action Plan which requires major changes in organization and procedure which cannot be implemented by October 1, 1973, a program of staged implementation can be developed and described in the Plan. The Federal Highway Administration may withhold approval of requests for location approval if the schedule outlined by the State for staged implementation is not met.

c. The Action Plan may be revised by the Highway Agency. Major revisions will be reviewed and approved by the Federal Highway Administration by the same process as the initial Action Plan.

8. *Contents of the Action Plan.* a. The Action Plan shall indicate the procedures to be followed and the designation of positions, organizational units, or other agencies by the chief administrative officer within the Highway Agency to meet the requirements of these guidelines. Where participation of other agencies or consultants may be utilized, this should be so indicated.

b. The Action Plan shall detail the procedures to be followed and the assignment of responsibilities for the overall development of highway projects in accordance with these guidelines as elaborated in sections 9 through 15 of these guidelines.

c. The Highway Agency shall indicate the steps to be taken to implement the Plan, as elaborated in sections 16 through 18 of these guidelines.

CONDUCT OF STUDIES

9. *Identification of social, economic, and environmental effects.* a. Identification of potential social, economic, and environmental effects of alternative courses of action, both beneficial and adverse, should be made as early in the study process as feasible, in accordance with PPM 20–8 and IM.[1] Timely information on such effects should be produced so that the development and consideration of alternatives and studies can be influenced accordingly. Further, the costs, dollar and otherwise, of eliminating or minimizing possible adverse social, economic and environmental effects should be determined.

b. The Action Plan should identify:

(1) The assignment of responsibility for:

(a) Providing information on social, economic, and environmental effects in project studies (planning, location, and/or design stages);

(b) The control of technical quality of social, economic, and environmental studies;

(c) Monitoring current social, economic, and environmental research; monitoring environmental effects of completed projects, where appropriate; and for disseminating "state-of-the-art" information within the agency.

(2) Procedures to be followed to insure that timely information on social, economic, and environmental effects:

(a) Is developed in parallel with project alternatives and related engineering data, so that the development and selection of alternatives and other elements of technical studies can be influenced appropriately;

(b) Indicates the manner and extent to which specific groups and interests are beneficially and adversely affected by alternative proposed highway improvements;

(c) Is made available to other agencies and to the public early in project studies;

(d) Is developed with participation of staffs of local agencies and interested citizens;

(e) Is developed sufficiently to allow the estimates of costs of eliminating or minimizing the identified adverse effects.

10. *Consideration of alternative courses of action.* a. Alternatives considered should include, where appropriate, alternative types and scales of highway improvements and improvements to other transportation modes. The option of no highway improvement should be considered and used as a reference point for determining the beneficial and adverse effects of other alternatives. Appropriate alternatives which might minimize or avoid adverse social, economic, or environmental effects should be studied and described, particularly where there are unresolved conflicts concerning the use of available resources. The key trade-offs among the alternatives should be presented.

b. The Action Plan should identify the assignment of responsibility for and the procedures to be followed to insure that:

(1) The consequences of the no-highway-improvement option are set forth, with data of a level of completeness and of detail consistent with that developed for other alternatives;

(2) A range of alternatives is considered at each stage from system studies through final design;

(3) Nontransportation components of a comprehensive course of action, such as replacement housing programs, joint development and multiple use of rights-of-way, etc.,

[1] Proposed Instructional Memorandum, Exhibit C, Attached.

V 37 81 APR 26 72 XUM

are considered in effective coordination with transportation components.

(4) Suggestions from outside the agency are given careful consideration.

11. *Involvement by other agencies and the public.* a. The President has directed Federal agencies to "develop procedures to insure the fullest practicable provision of timely public information and understanding of Federal plans and programs with environmental impact in order to obtain the views of interested parties" (Executive Order 11514). Policy and Procedure Memorandum 20–8 contains similar provisions. Interested parties should have adequate opportunities to express their views early enough in the study process to influence the course of studies, as well as the actions taken. Information about the existence, status, and results of studies should be made available to the public throughout those studies. The required public hearings (PPM 20–8) should be only one component of the agency's program to obtain public involvement.

b. The Action Plan should identify the assignment of responsibility and procedures to be followed:

(1) To ensure, throughout the duration of project studies that information made available to other agencies and the public is as clear and comprehensible as practicable concerning:

(a) The alternatives being considered;

(b) The effects of alternatives, both beneficial and adverse, and the manner and extent to which specific groups are affected;

(c) Right-of-way and relocation assistance programs and relocation plans;

(d) The proposed time schedule of project development.

(2) To ensure that interested parties, including local governments and metropolitan, regional, State and Federal agencies, and the public have an opportunity to participate in an open exchange of views throughout the stages of project development.

(3) To select and coordinate procedures, in addition to formal public hearings, to be used to obtain public involvement.

(4) To utilize appropriate agencies with areawide responsibilities to assist in the coordination of viewpoints during project development.

(5) To involve appropriately the organization which is officially established in urbanized areas of over 50,000 population to conduct continuing, comprehensive, cooperative transportation planning (consistent with PPM 50–9 and IM 50–3–71).

12. *Systematic interdisciplinary approach.* a. The National Environmental Policy Act of 1969 requires that agencies use "a systematic interdisciplinary approach which will insure the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking which may have an impact on man's environment."

b. The Action Plan should indicate procedural arrangements or assignments of responsibilities which will be necessary to meet this requirement, including:

(1) The organization and staffing of interdisciplinary project teams, including the possible use of consultants and representatives of other State or local agencies.

(2) Recruitment and training of personnel with skills which are appropriate to add on a full-time basis, and the development of appropriate career patterns, including management opportunities;

(3) Additional training for present personnel to enhance their capabilities to operate as members of interdisciplinary teams.

PROCESS MANAGEMENT.

13. *Decisionmaking process.* a. The process of reaching various decisions on highway improvement projects should be reviewed to assure that it provides for the appropriate consideration of all economic, social, environmental, and transportation factors as required by these guidelines.

b. The Action Plan should identify:

(1) The processes through which other State and local agencies, Government officials, and/or private groups may contribute to reaching decisions, and the authority, if any, which other agencies or Government officials can exercise over decisions;

(2) Different decision processes, if any, for various categories of projects (e.g., interstate, primary, secondary, TOPICS) and for various geographic regions of the State (e.g., in various urban and rural regions) to reflect local differences in the nature of potential environmental effects or in the structure of local governments and institutions.

(3) The processes to be used to obtain participation in decisions by officials of appropriate agencies in other States for those situations in which the potential social, economic, and environmental effects are of interstate concern.

14. *Interrelation of system and project decisions.* a. Many significant economic, social, and environmental effects of a proposed project are difficult to anticipate at the system planning stage and become clear only during location or design studies. Conversely, many significant environmental effects of a proposed project are set at the system's planning stage. Decisions at the system and project stages shall be made with consideration of their social, economic, environmental, and transportation effects to the extent possible at each stage.

b. The Action Plan should identify:

(1) Procedures to be established to:

(a) Ensure that potential social, economic, and environmental effects are identified insofar as practicable in system planning studies as well as in later stages of project studies,

(b) Provide for reconsideration of earlier decisions which may be occasioned by further study, the availability of additional information, or the passage of time between decisions.

(2) Assignment of responsibility for ensuring that project studies are effectively coordinated with system planning on a continuing basis.

15. *Levels of action.* a. A highway agency may develop different procedures to be followed depending upon the economic, social, environmental, or transportation significance of the highway section to be developed. Different procedures may also be adopted for various categories of projects, such as TOPICS, new route location, or secondary roads; and for various regions of the State, such as urban areas or zones of particular environment significance.

b. The Action Plan should identify:

(1) The categories which the highway agency proposes to establish to distinguish the different degrees of effort which under normal circumstances will be devoted to various types of projects;

(2) Assignment of responsibility for determining, initially and in periodic reviews, the category of each ongoing highway project;

(3) Procedures to be followed for each category (including identification of impacts, public involvement, decision process, and other issues covered in these guidelines).

IMPLEMENTATION OF THE ACTION PLAN

16. *Responsibility for implementation.* Assignment of responsibility for implementation of the Action Plan should be identified.

17. *Fiscal and other resources.* a. An important component of the Action Plan is identification of resources of the highway agency and of other agencies required to perform the identified procedures and execute these responsibilities.

b. The Action Plan should identify:

(1) The resources of the highway agency (in terms of personnel and funding) that will be utilized in implementing and carrying out the plan.

(2) Resources that are available in other agencies to provide to the highway agency required information on social, economic, and environmental effects.

18. *Consistency with existing laws and directives.* The highway agency should identify and report, either in the Action Plan or otherwise, areas where existing Federal and State laws and administrative directives prevent or hamper full compliance with these guidelines, and should indicate planned or proposed actions to overcome such difficulties, including recommendations for new legislation, changes in administrative directives, and addition of trained personnel, fiscal, or other resources.

GUIDELINES FOR CONSIDERATION OF ECONOMIC, SOCIAL, AND ENVIRONMENTAL EFFECTS (PPM 20–8 AMENDMENT)

1. *Purpose.* a. This memorandum is issued to assure that:

(1) Possible adverse economic, social, and environmental effects relating to any proposed federally funded project on any Federal-aid highway system have been fully considered in developing such project.

(2) Final decisions on the project are made in the best overall public interest, taking into consideration the need for fast, safe, and efficient transportation, public services, and the costs of eliminating or minimizing adverse effects.

b. Policy and Procedure Memorandum 20–8, issued January 14, 1969, provided guidance for the consideration of social, economic, and environmental effects in the design and location of highways. This instructional memorandum consolidates the list of effects in paragraph 4.c. of PPM 20–8 and the effects listed in 23 U.S.C. 109(h), and sets forth reporting procedures to assure that the general types of consequences that may be expected from construction of the proposed highway improvement are being considered with respect to costs, gains and losses.

2. *Authority.* Sections 135(a), 135(b) and 136(b) of the Federal-Aid Highway Act of 1970; 23 U.S.C. 109(h), 128(a) and 128(b).

3. *Application.* This memorandum applies to proposed projects which have not received PS&E (plans, specifications, and estimates) approval as of the effective date of this memorandum. These guidelines do not apply to projects which are already in various stages of construction or are exempt under the emergency provisions of paragraph 3.c. of PPM 20–8.

4. *Procedures.* a. As of the effective date of this memorandum, projects which have received design approval (as defined in PPM 90–1), may receive PS&E approval if otherwise satisfactory, on the basis of past State Highway Department submissions which identify and document the economic, social and environmental effects previously considered with respect to these advanced projects, together with a supplemental report, if necessary, covering the consideration and disposition of the items not previously covered and now listed herein in paragraph 4.b. The supplemental report shall be prepared by the State and submitted to the division engineer not later than the time of submission of PS&E documents for the next Federal-aid improvement of the highway section. This supplemental documentation may take the form of statements in the program submission (PR–1 or PR–9 forms and attachments), relative to the overall proposal being advanced, unless the division engineer determines that a more detailed report is warranted.

b. After the effective date of this memorandum a State highway department request for location and design approval, as required under PPM 20–8, shall be accompanied by reports and other documents showing that the development of the project has taken into consideration the need for fast, safe, and efficient transportation toegther with highway costs, traffic benefits and public services including provisions of national defense; and which discuss the anticipated economic, social, and environmental effects of the proposal and alternatives under consideration, to the extent applicable, on the following:

(1) "Regional and Community Growth" including general plans and proposed land use, total transportation requirements, and status of the planning process.

(2) "Conservation and Preservation" including soil erosion, sedimentation, and general ecology of the area; as well as man-made and natural resources, such as: Park and recreational facilities, wildlife and waterfowl areas, historic and natural landmarks.

(3) "Public Facilities and Services" including religious, health and educational facilities, and the availability of public utilities, fire protection and other emergency services.

(4) "Community Cohesion" including residential and neighborhood character and stability, highway impacts on minority and other specific groups and interests, and effects on local tax base and property values.

(5) "Displacement of People, Business, and Farms" including relocation assistance, availability of adequate replacement housing, economic activity (employment gains and losses, etc.).

(6) "Air, Noise, and Water Pollution" including consistency with approved air quality implementation plans, FHWA noise level standards [if location approval was secured after July 1, 1972], and any relevant Federal or State water quality standards.

(7) "Aesthetic and Other Values" including visual quality, such as: "view of the road" and "view from the road", and the joint development and multiple use of space.

c. In addition to coverage of the significant differences and reasons supporting the alternative locations and designs, discussions of the above items and other economic, social, and environmental effects, which were raised during public hearings or which were otherwise considered, shall include: (1) Identification of the adverse effects, (2) appropriate measures to eliminate or minimize the adverse effects,

(3) The estimated costs (expressed in either monetary, numerical or qualitative terms) of the measures considered.

d. The degree of analysis of the items may vary, depending upon the scope and the nature of the project, the stage of project development, and the extent of the adverse effect.

e. Where material required by this memorandum has been previously submitted pursuant to other requirements, such as those in PPM's 20–8 or 90–1, the State highway department may either resubmit such material or make reference to it.

5. *Effective date.* The effective date of this memorandum is ----------[1].

[FR Doc.72–6357 Filed 4–25–72;8:49 am]

[1] At present, the effective date of this memorandum is not known. It will be within 90 days after the submission of the report to Congress, as required under section 136(b) of the Federal-Aid Highway Act of 1970, but not later than October 1, 1972.

V 37-81 APR 26 72 XUM

Notices

DEPARTMENT OF STATE

Agency for International Development

[Delegation of Authority No. 95]

ASSISTANT ADMINISTRATOR FOR POPULATION AND HUMANITARIAN ASSISTANCE

Delegation of Authority Regarding Functions and Authorities

Pursuant to the authority delegated to me by Delegation of Authority No. 104, as amended, dated November 3, 1961 (26 F.R. 10608), from the Secretary of State and in furtherance of my decision relating to the establishment of a Bureau for Population and Humanitarian Assistance in the Agency for International Development, as announced in A.I.D. General Notice of February 1, 1972, it is hereby ordered as follows:

SEC. 1. There is hereby delegated to the Assistant Administrator for Population and Humanitarian Assistance, all of the authorities and functions which are specified in any regulation (published or unpublished), manual order, policy directives or determinations, manual circular or circular airgram or instruction or communication of any nature, relating to:

a. The coordination of foreign disaster relief operations;

b. The furnishing of humanitarian assistance (excluding assistance under title II of Public Law 480); and

c. The development and implementation of interregional programs involving private nongovernmental entities excluding universities and labor unions.

SEC. 2. The authorities and functions enumerated above shall include the authority to sign or approve Project Implementation Orders—Technical Services (PIO/T) and grants relating to the above areas of responsibility.

SEC. 3. Each of the following delegations of authority is amended by inserting among the names of the Assistant Administrators in those delegations, the title of the following officer: "Assistant Administrator for Population and Humanitarian Assistance."

a. Delegation of Authority No. 19, dated October 3, 1962 (27 F.R. 10374), as amended, with respect to Participating Agency Service Agreements.

b. Delegation of Authority No. 40, dated April 17, 1964, (29 F.R. 5695), relating to Waivers of Procurement Source Requirements.

SEC. 4. Delegation of Authority No. 41, dated May 8, 1964 (29 F.R. 6892), relating to the Furnishing of Services and Commodities pursuant to section 607 of the Foreign Assitance Act of 1961, as amended, is amended by inserting the title "Assistant Administrator for Population and Humanitarian Assistance" after the title "Assistant Administrator for Administration" in paragraph 2.

SEC. 5. Delegation of Authority No. 76, as amended, is hereby revoked. The Assistant Administrator for Population and Humanitarian Assistance shall exercise the functions set forth in section 203 of Public Law 480 as amended, and in section 216 of the Foreign Assistance Act of 1961, as amended, of authorizing payment of transportation costs of shipments by voluntary agencies.

SEC. 6. The authorities made available hereunder may be exercised by an officer serving in an acting capacity and may be redelegated by the Assistant Administrator for Population and Humanitarian Assistance.

SEC. 7. Currently effective redelegations of authority issued by the Director, Office for Private Overseas Programs are hereby continued in effect according to their terms until modified or revoked by appropriate authority.

SEC. 8. This delegation of authority shall be effective immediately.

Dated April 18, 1972.

JOHN A. HANNAH,
Administrator.

DEPARTMENT OF THE TREASURY

Bureau of Customs

CAST IRON SOIL PIPE FITTINGS FROM POLAND

Withholding of Appraisement Notice

Information was received on January 14, 1971, that cast iron soil pipe fittings from Poland were being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of July 20, 1971, on page 13338. The "Antidumping Proceeding Notice" indicated that there was evidence on record concerning injury to or likelihood of injury to or prevention of establishment of an industry in the United States.

Pursuant to section 201(b) of the Act (19 U.S.C. 160(b)), notice is hereby given that there are reasonable grounds to believe or suspect that the purchase price (section 203 of the Act; 19 U.S.C. 162) of cast iron soil pipe fittings from Poland is less, or is likely to be less, than the constructed value (section 206 of the Act; 19 U.S.C. 165).

Statement of reasons. The information currently before the Bureau tends to indicate that the probable basis of comparison for fair value purposes will be between purchase price and constructed value.

Purchase price will probably be calculated by deducting ocean freight charges from the C & F east coast price.

Since the merchandise under consideration was produced in a controlled economy country, constructed value will probably be based on the home market prices at which such or similar merchandise is sold by a non-controlled economy country. The country chosen for this purpose will probably be West Germany.

The home market price in West Germany will probably be based on the ex-factory price in the West German market. A deduction will probably be made for a discount. Adjustments will probably be made for differences in the merchandise.

Customs officers are being directed to withhold appraisement of cast iron soil pipe fittings from Poland in accordance with § 153.48, Customs Regulations (19 CFR 153.48).

In accordance with §§ 153.32(b) and 153.37, Customs Regulations (19 CFR 153.32(b), (153.37), interested parties may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, DC 20226, in time to be received by his office not later than 10 calendar days from the date of publication of this notice in the FEDERAL REGISTER.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

This notice, which is published pursuant to § 153.34(b), Customs Regulations, shall become effective upon publication in the FEDERAL REGISTER (4-26-72). It shall cease to be effective at the expiration of 6 months from the date of this publication, unless previously revoked.

[SEAL] EDWIN F. RAINS,
Acting Commissioner of Customs.

Approved: April 24, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[Price Commission Ruling 1972-144]

CUMULATIVE PRICE INCREASES BY NONINSTITUTIONAL PROVIDERS

Price Commission Ruling

Facts. Dr. X, a noninstitutional provider of health services, last raised his fees on January 1, 1971. It had been his practice to review his prices every 2 years and update them depending on the general increase in the cost of living as it applied to his practice. It also was his practice not to make an adjustment in his fees if the adjustment would be less than 5 percent. Under Economic Stabilization Regulations, 6 CFR 300.19(c), 36 F.R. 25384 (December 30, 1971), he would be limited to a 2½-percent increase based on allowable costs. It is not his desire to increase his fees 2½ percent even though the allowable cost increases since his last fee increase would more than justify it. However, in accordance with his normal practice he would like to review his fees on January 1, 1973, and make an adjustment, if justified, for the period since his last increase. He intends, if cost justified, to add the 2½ percent that he could take January 1, 1972, to the 2½ percent that would be justified January 1, 1973 or, in other words, to increase his fees 5 percent on January 1, 1973.

Issue. May Doctor X carry over any unused portion of the 2½ percent allowed increase from 1 year to the next?

Ruling. Yes. If Doctor X does not raise his fees on an aggregate basis up to the limit of 2½ percent in 1972 based on allowable costs incurred since January 1, 1971, or his last price increase, he may adjust his fees January 1, 1973, up to 5 percent by adding the 2½ percent justified by allowable costs in 1973 and the portion of 1972 not previously taken.

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 20, 1972.

LEE H. HENKEL, JR.,
Acting Chief Counsel, Internal Revenue Service.

Approved: April 20, 1972.

SAMUEL R. PIERCE, JR.,
General Counsel, Department of the Treasury.

[FR Doc.72-6319 Filed 4-25-72;8:45 am]

[Price Commission Ruling 1972-145]

DEFINITION OF CONTROL

Price Commission Ruling

Facts. F, a large nonfood franchiser with gross sales of $500 million per year, leased to X the right to open up an outlet. X put up a limited amount of his own capital and received financing from F's credit subsidiary. F will then construct the outlet and X will manage the outlet. X must buy all his supplies from F. X has now opened the outlet and has annual revenues of $150,000.

Issue. Is X exempted from the posting requirements by Economic Stabilization Regulation, 6 CFR 300.13(e), 37 F.R. 1244 (January 27, 1972)?

Ruling. X is exempt from the posting requirements by § 300.13(e). Section 300.13(e) provides, "that paragraphs B and C don't apply to retailers with revenues of less than $200,000 annually * * *.". Economic Stabilization Regulation, 6 CFR 300.5, 37 F.R. 3913 (February 24, 1972) defines a retailer, "a person who carries on the trade or business of purchasing property and without substantially changing the form of the property, reselling it to ultimate consumers, and whenever the Price Commission considers it appropriate, includes any retailing subsidiary, division, affiliate or similar entity that is a part of, or is directly or indirectly controlled by, another person".

The franchiser's economic control over the franchisee does not bring the franchisee within the meaning of control in § 300.5. Since F has no interest in X other than selling products, X is deemed not to be controlled by F and does not have to post base prices, but is required to post signs announcing the availability of base price information.

This ruling has been approved by General Counsel of the Price Commission.

Dated: April 20, 1972.

LEE H. HENKEL, JR.,
Acting Chief Counsel, Internal Revenue Service.

Approved: April 20, 1972.

SAMUEL R. PIERCE, JR.,
General Counsel, Department of the Treasury.

[FR Doc.72-6320 Filed 4-25-72;8:45 am]

[Price Commission Ruling 1972-147]

LIQUOR AS A FOOD PRODUCT

Price Commission Ruling

Facts. Retailer is in the business of selling alcoholic beverages to be consumed off the premises. He owns stores in two States. In State A, retail prices are controlled by the State. There is no price regulation in State B.

Issue. What base prices must retailer post?

Ruling. Retailer must post base prices for all of his alcoholic beverages. Economic Stabilization Regulations 6 CFR 300.13(b)(1)(i), 37 F.R. 2843 (February 8, 1972) requires a retailer to post base prices for all of its food products. The term "food products" was intended by the Price Commission to be interpreted in its broadest sense, i.e., anything serving as material for consumption. The word "food" would have been used had the Price Commission intended to restrict base price posting to solid edibles. "Food products" was used to include beverages, food additives, preservatives, spices and any other consumable product not generally regarded as food. As a general guide, retailers should consult the Standard Industrial Classification Manual. Alcoholic beverages are included in Major Group 20, Food and Kindred Products.

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 20, 1972.

LEE H. HENKEL, JR.,
Acting Chief Counsel, Internal Revenue Service.

Approved: April 20, 1972.

SAMUEL R. PIERCE, JR.,
General Counsel, Department of the Treasury.

NOTICE OF GRANTING OF RELIEF

Notice is hereby given that pursuant to 18 U.S.C. 925(c) the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding 1 year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicant will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Bowman, Albert R., Gay Street, Salisbury, Pa., convicted on March 24, 1956, in the Court of Quarter Sessions of Somerset County, Pa.

Clemons, Daniel Clinton, 1405 Garden Avenue, Waterloo, IA, convicted on or about October 6, 1965, in the Delaware County District Court, State of Iowa; and on or about August 23, 1968, in the Black Hawk County District Court, State of Iowa.

Cogburn, Alvin Lee, 4511 Bryan Street, Apartment T, Dallas, TX, convicted on March 14, 1958, in the Superior Court for Los Angeles County, Calif.

Cote, Rene L., Saco Avenue, Old Orchard, Maine, convicted on June 1, 1967, in the York County Court, Maine.

Crum, Wayne Edward, Ferrum, Va., convicted on May 4, 1964, June 20, 1964, and on or about November 17, 1967, in the U.S. District Court for the Western District of Virginia, Roanoke Division.

Endsley, Leon Edwin, Route 1, Box 1355, Roseburg, OR, convicted on January 2, 1969, in the Superior Court of the State of California, in and for the County of Merced.

V 37-81 APR 26 72 XUM

Falconieri, Joseph Richard, Central Avenue, Peak's Island, Portland, Maine, convicted on July 11, 1960, in the Cumberland County Superior Court, Portland, Maine; and on March 4, 1961, in the Portland Municipal Court, Portland, Maine.

Fleischer, Eugene, Rural Route 3, McGregor, Minn., convicted on March 23, 1949, and on March 17, 1952, in the Ramsey County District Court, St. Paul, Minn.; and on April 29, 1955, in the Hennepin County District Court, Minneapolis, Minn.

Fowler, David Junius, Route 2, Box 97, Courtland, VA, convicted on June 30, 1958, and on December 8, 1959, in the Nansemond County Circuit Court, Va.

Huff, Tommy Lawrence, 1510 Bradner Place South, Seattle, WA, convicted on August 8, 1966, in the Superior Court of the State of Washington for King County.

Hurst, Oscar Barnes, Route 1, Hiwassee, Va., convicted on September 1, 1944, in the Pulaski County Circuit Court, State of Virginia.

Kirk, Edgar, Box 234, Jonesville, VA., convicted on September 13, 1968, in the U.S. District Court, Western District of Virginia, Abingdon Division.

McCurdy, Raymond L., Jr., Box 182, Homer City, PA., convicted on February 20, 1961, in the Quarter Sessions Court, Ind.

Maldonado, George, 2095 Grand Concourse, Bronx, NY, convicted on November 24, 1952, in the Bronx County Court, N.Y.

Morgan, Paul Emmanuel, 3004 Brightseat Road No. 202, Lanham, MD, convicted on November 17, 1960, in the U.S. District Court for the District of Columbia.

Muloch, Wesley Harold, 105 Lost Street, Bonanza, OR, convicted on October 30, 1931, in the Superior Court of California in and for the County of San Diego.

Novitch, Robert Melvin, Sr., 3521 28th Avenue West, Seattle, WA, convicted on or about April 19, 1957, on or about October 14, 1957, on October 26, 1964, and on June 16, 1966, in the Cuyahoga County Court of Common Pleas, Ohio.

Paluch, Daniel Joseph, 5934 Chene Street, Detroit, MI, convicted on August 21, 1953, in the Recorder's Court for the city of Detroit, Mich.; and on August 15, 1955, in the Presque Isle County Circuit Court, Michigan.

Paradise, Thomas Joseph, 151 Mystic Street, Arlington, MA, convicted on September 14, 1954, in the Superior Court of Norfolk County, Mass.

Pitcher, David LaMar, 334 North Main, Smithfield, UT, convicted on March 9, 1964, in the First District Court of Utah, Logan, Utah.

Potterf, Albert Raymond, 2525 Cleveland Avenue, Everett, WA, convicted on October 4, 1965, in the Superior Court of the State of Washington, in and for the County of Jefferson.

Sanslow, Harold E., 270 West Second South No. 37, Salt Lake City, UT, convicted on September 22, 1952, in the District Court in and for Carbon County, State of Utah.

Scott, Alfred W., 52 Kingsgate Drive, Columbia, SC, convicted on February 16, 1964, in the U.S. District Court in and for the Eastern District of South Carolina.

Spann, William Fred, 443 Harvey Street, Pontiac, MI, convicted on October 9, 1963, and on December 18, 1962, in the Oakland County Circuit Court, State of Michigan.

Steele, David L., Rocky Ford Route, Porcupine, S. Dak., convicted on October 18, 1966, in the U.S. District Court for the District of South Dakota, Western Division.

Suiter, Donald E., 644 St. Joe Street, Spearfish, SD, convicted on June 22, 1970, in the Circuit Court of the Eighth Judicial Circuit, Lawrence County, S. Dak.

Van Nest, Charles William, Post Office Box 493, Nogales, AZ, convicted on September 4, 1959, in the Superior Court of San Bernardino County, Calif.; and on October 5, 1959, in the Municipal Court of Riverside Judicial District, Riverside County, Calif.

Wilson, Gary A., 3124–60 Street, Kenosha, WI, convicted on December 9, 1968, and on December 5, 1969, in the Kenosha County Court, Branch III, Kenosha, Wis.

Wolfe, Linnie Vale, R.F.D. Box 60, Ferndale, CA, convicted on May 24, 1968, in the Superior Court of California, County of Humboldt, Eureka, Calif.

Signed at Washington, D.C., this 19th day of April 1972.

[SEAL] REX D. DAVIS,
Director, Alcohol, Tobacco and Firearms Division.

Office of the Secretary

[Treasury Dept. Order 82, Supp. 1]

OFFICE OF SECURITY

Transfer of Departmental Functions

By virtue of the authority granted to the Secretary by Reorganization Plan No. 26 of 1950, and delegated to me by Treasury Order No. 190 (Revision 7), the Office of Security is hereby abolished and its functions, with related staffing and records, transferred as follows:

To the Office of Personnel: Personnel security, pursuant to E.O. 10450, as amended.

To the Office of Administrative Programs: document security; communications security; buildings security; industrial security program, pursuant to E.O. 10865, as amended.

Program provisions of the following issuances remain in effect, modified only to the extent of the above transfer of functions:

1. Treasury Department Order No. 82, revised March 9, 1966.
2. TDO No. 160, revised July 16, 1968.
3. TDO No. 160–1.
4. TDO No. 160–3.
5. TDO No. 194, Rev. 2.
6. TDO No. 209, revised February 6, 1969.
7. Treasury Personnel Manual Chapter 736.
8. Administration Circular No. 208, April 5, 1971.
9. Administration Circular No. 191.
10. OAP Order No. 1.

Dated: April 20, 1972.

WARREN F. BRECHT,
Assistant Secretary for Administration.

CALIFORNIA

Opening of National Forest Lands

APRIL 17, 1972.

Pursuant to the vacating order of the Federal Power Commission issued January 6, 1972, and by virtue of the authority contained in Section 24 of the Act of June 10, 1920 (41 Stat. 1075; 16 U.S.C. 818), as amended, and in accordance with the authority redelegated to me by the State Director, California State Office, Bureau of Land Management, effective January 12, 1972 (37 F.R. 491), it is ordered as follows:

1. The Commission finds that the lands are no longer needed for power development and that the withdrawal for Project No. 237 should be vacated. The areas described below are hereby restored to disposition under applicable laws from the withdrawal for Federal Power Project No. 237, withdrawn on July 25, 1921, and April 6, 1922, subject to valid existing rights and the provisions of existing withdrawals.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[DESI 6550]

CERTAIN DRUGS CONTAINING METHOXYPHENAMINE HYDROCHLORIDE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

Orthoxine Hydrochloride Tablets and Syrup, containing methoxyphenamine hydrochloride; The Upjohn Co., 7171 Portage Road, Kalamazoo, Mich. 49002 (NDA 6–550).

These drugs are regarded as new drugs (21 U.S.C. 321(p)). The effectiveness classification and marketing status are described below.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that:

1. Methoxyphenamine hydrochloride in the recommended dose is possibly effective for use in bronchial asthma, allergic rhinitis, acute urticaria, gastrointestinal allergy, and allergic headache.

B. *Marketing status.* Marketing of such drug with labeling which recommends or suggests its use for indications for which it has been classified as possibly effective may be continued for 6 months as described in paragraphs (d), (e), and (f) of the notice "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273).

A copy of the Academy's report has been furnished to the firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 6550, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Maryland 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.

Original new-drug applications: Office of Scientific Evaluation (BD–100), Bureau of Drugs.

Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: April 11, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–6342 Filed 4–25–72;8:47 am]

[DESI 12056]

CERTAIN SULFONAMIDES IN COMBINATION WITH PHENAZOPYRIDINE HYDROCHLORIDE

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated reports received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on the following drugs:

1. Azo Gantanol Tablets containing sulfamethoxazole and phenazopyridine hydrochloride; Roche Laboratories, Division of Hoffmann-La Roche, Inc., 340 Kingsland Avenue, Nutley, N.J. 17110 (NDA 13–294).

2. Azo Kynex Tablets containing sulfamethoxypyridazine and phenazopyridine hydrochloride; Lederle Laboratories, Division of American Cyanamid Co., West Middletown Road, Pearl River, N.Y. 10965 (NDA 12–056).

The Food and Drug Administration has considered the Academy's reports, as well as other available evidence, and concludes that there is a lack of substantial evidence, within the meaning of the Federal Food, Drug, and Cosmetic Act, that these fixed combination drugs will have the effects that they purport or are represented to have under the conditions of use prescribed, recommended, or suggested in the labeling, including their recommended use in certain urinary tract infections associated with pain or discomfort, and that each component of the combination contributes to the total effects claimed for the drug.

Accordingly, the Commissioner of Food and Drugs intends to initiate proceedings to withdraw approval of the above-listed new-drug applications.

Prior to initiating such action, however, the Commissioner invites the holders of the new-drug applications for these drugs and any interested person who might be adversely affected by their removal from the market, to submit pertinent data bearing on the proposal within 30 days after publication hereof in the FEDERAL REGISTER.

To be acceptable for consideration in support of the effectiveness of a drug, any such data must be previously unsubmitted, well organized, and include data from adequate and well-controlled clinical investigations (identified for ready review) as described in § 130.12(a)(5) of the regulations published in the FEDERAL REGISTER of May 8, 1970 (35 F.R. 7250). Carefully conducted and documented clinical studies obtained under uncontrolled or partially controlled situations are not acceptable as a sole basis for the approval of claims of effectiveness, but such studies may be considered

V 37-81 APR 26 72 XUM

on their merits for corroborative support of efficacy and evidence of safety.

This announcement of the proposed action and implementation of the NAS–NRC reports for these drugs is made to give notice to persons who might be adversely affected by their withdrawal from the market. Any related drug for human use, not the subject of an approved new-drug application, may be affected by this action.

A copy of the Academy's report has been furnished to each firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 12056, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: April 11, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[Docket No. FDC–D–456]

DELTA LABORATORIES

Zinc Bacitracin-Neomycin Sulfate-Polymyxin Ointment; Notice of Withdrawal of Approval of New Animal Drug Application

In the FEDERAL REGISTER of August 5, 1970 (35 F.R. 12494, DESI 0053NV), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of the report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Triple Antibiotic Ointment, Towne (a product which contains zinc bacitracin, neomycin sulfate, and polymyxin B sulfate) manufactured by Delta Laboratories, Division of Anabolic, Inc., 1050 West Florence Avenue, Inglewood, Calif. 90302.

Delta Laboratories advised the Commissioner that they no longer manufacture drugs.

Based on the grounds set forth in said announcement and the firm's response, the Commissioner concludes that the antibiotic application for the above-named product should be withdrawn. Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343–51; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), approval of the antibiotic application for the above-named product is hereby withdrawn effective on the date of publication of this document.

Dated: April 17, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–6340 Filed 4–25–72;8:47 am]

[DESI 9410]

TALBUTAL TABLETS

Drugs for Human Use; Drug Efficacy Study Implementation

The Food and Drug Administration has evaluated a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Lotusate Tablets containing talbutal, marketed by Winthrop Laboratories Division of Sterling Drug, Inc., 90 Park Avenue, New York, N.Y. 10016 (NDA 9–410).

Such drugs are regarded as new drugs (21 U.S.C. 321(p)). The effectiveness classification and marketing status are described below.

A. *Effectiveness classification.* The Food and Drug Administration has considered the Academy's report, as well as other available evidence, and concludes that talbutal tablets are:

1. Probably effective for use as a sedative and hypnotic;

2. Lacking substantial evidence of effectiveness when labeled for use in alcoholism, delirium tremens, psychosis, hysteria, and cardiovascular failure; and

3. Possibly effective for their other labeled indications.

B. *Marketing status.* 1. Within 60 days of the date of publication of this announcement in the FEDERAL REGISTER, the holder of any previously approved new-drug application for a drug which is classified in paragraph A.2 above as lacking substantial evidence of effectiveness is requested to submit a supplement to his application, as needed, to provide for revised labeling which deletes those indications for which substantial evidence of effectiveness is lacking and which contains an indications section in accord with that described below. Such supplement should be submitted under the provisions of § 130.9 (d) and (e) of the new-drug regulations (21 CFR 130.9 (d) and (e)) which permit certain changes to be put into effect at the earliest possible time, and the revised labeling should be put into use within the 60-day period. Failure to delete such indications and to put the revised labeling into use within 60 days after the date of publication hereof in the FEDERAL REGISTER may result in a proposal to withdraw approval of the new-drug application.

2. If any such preparation is on the market without an approved new-drug application, its labeling should be revised to delete all claims for which substantial evidence of effectiveness is lacking as described in paragraph A.2 above and to be in accord with this notice. Failure to delete such indications and to put the revised labeling into use within 60 days after the date of publication hereof in the FEDERAL REGISTER may cause the drug to be subject to regulatory proceedings.

3. Labeling revised pursuant to this notice should take into account the comments of the Academy; furnish adequate information for safe and effective use of the drug; be in accord with the guidelines for uniform labeling published in the FEDERAL REGISTER of February 6, 1970 (21 CFR 3.74); and recommend use of the drug for the probably effective indication as follows: (The possibly effective indications may also be included for 6 months).

INDICATIONS

For use as a sedative and hypnotic.

4. The notice "Conditions for Marketing New Drugs Evaluated in Drug Efficacy Study," published in the FEDERAL REGISTER July 14, 1970 (35 F.R. 11273), describes in paragraphs (c), (d), (e), and (f) the marketing status of the drug labeled with those indications for which it is regarded as probably effective and possibly effective.

A copy of the Academy's report has been furnished to the firm referred to above. Communications forwarded in response to this announcement should be identified with the reference number DESI 9410, directed to the attention of the appropriate office listed below, and addressed to the Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852:

Supplements (identify with NDA number): Office of Scientific Evaluation (BD–100), Bureau of Drugs.

Original new-drug applications: Office of Scientific Evaluation (BD–100), Bureau of Drugs.

Requests for the Academy's report: Drug Efficacy Study Information Control (BD–67), Bureau of Drugs.

All other communications regarding this announcement: Drug Efficacy Study Implementation Project Office (BD–60), Bureau of Drugs.

This notice is issued pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 52 Stat. 1050–53, as amended; 21 U.S.C. 352, 355) and under the authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120).

Dated: April 7, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

DEPARTMENT OF TRANSPORTATION

Office of the Secretary

COMMANDANT OF THE COAST GUARD

Delegation of Authority

Pursuant to the authority of section 205 of the Federal Property and Administrative Services Act of 1949 (63 Stat. 377; 40 U.S.C. section 486), the Administrator for General Services has delegated authority to the Secretary of Transportation with respect to the leasing of certain property from the University of Connecticut (Federal Property Management Regulations, Temporary Regulation D–33, issued February 7, 1972).

The property is located at the University of Connecticut Extension Facility at Groton, Conn., and will be used by the Coast Guard as a research and development laboratory. The delegation to the Secretary permits redelegation of the authority within the Department of Transportation.

Therefore, the Commandant of the Coast Guard is delegated authority to perform all functions in connection with leasing approximately 50,000 square feet of space in Building 23 and several smaller facilities located on the University of Connecticut Extension Facility, Groton, Conn. This delegation of authority is subject to the limitations and conditions as set forth in Temporary Regulation D–33, Federal Property Management Regulations, and may be redelegated within the Department of Transportation.

This delegation is effective February 7, 1972.

Issued in Washington, D.C., on March 20, 1972.

JOHN A. VOLPE,
Secretary of Transportation.

ATOMIC ENERGY COMMISSION

[Docket No. 50–197]

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

Notice of Issuance of Facility License Amendment

The Atomic Energy Commission ("the Commission") has issued, effective as of the date of issuance, Amendment No. 3 to Facility License No. CX–21, as amended November 17, 1969. The license authorizes the National Aeronautics and Space Administration (NASA) to possess, use and operate a critical experiment facility (designated the Zero Power Reactor II) on NASA's Lewis Research Center site in Cleveland, Ohio, at steady state power levels up to 100 watts (thermal). The amendment increases (from 10,000 pounds to 15,000 pounds) the amount of depleted uranium that NASA is authorized to receive, possess and use in connection with operation of the subject facility and extends the expiration date of the license from April 12, 1972 to April 12, 1980, in accordance with NASA's application dated February 11, 1972. This increase in the quantity of source material does not alter presently approved operating plans nor the safety considerations associated with operation of the facility.

The Commission has found that the application for the license amendment dated February 11, 1972, complies with the requirements of the Atomic Energy Act of 1954, as amended ("the Act"), and the Commission's regulations published in 10 CFR Chapter I. The Commission has made the remainder of the findings required by the Act and the Commission's regulations, which are set forth in the amendment, and has concluded that the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public. The Commission also has found that prior public notice of proposed issuance of this amendment is not required since the amendment does not involve significant hazards considerations different from those previously evaluated.

Within 15 days from the date of publication of the notice in the FEDERAL REGISTER, the applicant may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the licensee's application for license amendment dated February 11, 1972, and (2) the amendment to the facility license, both of which are available for public inspetcion at the Commission's Public Document Room at 1717 H Street NW., Washington, DC. A copy of item (2) above may be obtained upon request sent to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 17th day of April 1972.

For the Atomic Energy Commission.

DUDLEY THOMPSON,
Acting Assistant Director for Reactor Operations, Division of Reactor Licensing.

[Docket No. 50–297]

NORTH CAROLINA STATE UNIVERSITY

Order Extending Construction Permit Completion Date

North Carolina State University having filed a request dated March 28, 1972, for an extension of the latest completion date specified in Construction Permit No. CPRR–106 which authorizes construction of the PULSTAR nuclear research reactor facility on the University's campus at Raleigh, N.C.; and

Good cause having been shown for this extension pursuant to section 185 of the Atomic Energy Act of 1954, as amended, and 10 CFR 50.55(b) of the Commission's regulations: *It is hereby ordered*, That the latest completion date of Construction Permit No. CPRR–106 is extended from May 1, 1972 to September 1, 1972.

This order is effective as of the date of issuance.

Date of Issuance: April 14, 1972.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

[Docket No. 50–367]

NORTHERN INDIANA PUBLIC SERVICE CO.

Order Scheduling Prehearing Conference

On December 29, 1971, the Atomic Energy Commission published in the FEDERAL REGISTER a notice of hearing to consider the application filed by the Northern Indiana Public Service Co. for a construction permit which would authorize the construction of a boiling water reactor, identified as Bailly Generating Station, Nuclear 1. Notice of the establishment of an Atomic Safety and Licensing Board and of its membership was issued by the Commission on January 12, 1972, authorizing the Board designated therein to set the date and place of the hearing and the date and place of a prehearing conference in advance of the hearing. Pursuant to such authorization, notice is hereby given that a prehearing conference in the captioned proceeding will be held on May 9, 1972, in Valparaiso, Ind.

All members of the public are entitled to attend this prehearing conference and any subsequent prehearing conferences as well as the full evidentiary sessions of

V 37-81
APR 26 72
XUM

the hearing in this proceeding. The prehearing conference on May 9, 1972, however, will be conducted in accordance with § 2.752 of 10 CFR Part 2 of the Commission's rules of practice which provides for the development of procedures for the evidentiary hearing which will be scheduled for a later time and public notice given. The procedures to be considered on May 9 will be related to identification of parties, simplification and clarification of issues, discussion of procedures to be followed at the hearing and other matters which will aid in the conduct and expeditious disposition of the case to be presented in a full public hearing at a later date.

The prehearing conference on May 9, 1972, will not receive any evidence, nor will there be an opportunity for presentation of statements from members of the public who desire to make limited appearances for that purpose. All statements that members of the public desire to make in this proceeding by way of limited appearance pursuant to § 2.715 of the rules of practice will be received on the initial day or days of the evidentiary hearing which will be scheduled at a later date, public notice of which will be given, both by publication and by notice sent by mail directly to all members of the public who have requested to be notified.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, that a prehearing conference in this proceeding shall convene at 10 a.m. on Tuesday, May 9, 1972, in the courtroom, Circuit and Superior Court, Courthouse, Lincolnway Street, Valparaiso, Ind. 46383.

Issued: April 20, 1972, Washington, D.C.

ATOMIC SAFETY AND LICENSING BOARD,
ROBERT M. LAZO,
Chairman.

[Docket No. 50-139]

UNIVERSITY OF WASHINGTON

Notice of Issuance of Facility License Amendment

The Atomic Energy Commission (the Commission) has issued, effective as of the date of issuance, Amendment No. 9 to Facility License No. R-73. The license presently authorizes the University of Washington to possess, use and operate the Argonaut-type nuclear reactor located on its campus in Seattle, Wash., at steady-state power levels up to 100 kilowatts (thermal). The amendment incorporates technical specifications in the license for operation of the reactor which include provisions for an increase (from 0.60 percent to 2.3 percent delta k/k) in the core excess reactivity in accordance with the University's request notarized March 22, 1972. In addition, the amendment restates the license in its entirety, in current license format, incorporating pertinent provisions of previously issued Amendments Nos. 1 through 8 thereto.

The Commission has found that the application for the amendment complies with the requirements of the Atomic Energy Act of 1954, as amended, and the Commission's regulations published in 10 CFR Chapter I, and has concluded that the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public. The Commission has also found that prior public notice of proposed issuance of this amended license is not required since the operation of the facility in accordance with the terms of the amended license does not involve significant hazards considerations different from those previously evaluated.

Within 15 days from the date of publication of this notice in the FEDERAL REGISTER, the applicant may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's "Rules of Practice" in 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the University of Washington's application for license amendment notarized March 22, 1972, and (2) Amendment No. 9 to Facility License No. R-73 (including the technical specifications), both of which are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, DC. A copy of item (2) may be obtained upon request sent to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 12th day of April 1972.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Reactor Operations, Division of Reactor Licensing.

[Docket No. 50-346]

TOLEDO EDISON CO. ET AL.

Notice and Order for Evidentiary Hearing

In the Matter of The Toledo Edison Co. et al., (Davis-Besse Nuclear Power Station Unit 1).

In accordance with the Atomic Energy Commission's Notice of Hearing on Suspension of Construction Activity, published in the FEDERAL REGISTER on April 18, 1972 (37 F.R. 7644), and with the Commission's rules of practice, the Atomic Safety and Licensing Board directs that the hearing for the taking of evidence in the above-captioned proceeding shall commence on May 2, 1972, at 10 a.m. local time, in the Grand Jury Room of the U.S. Courthouse, Toledo, Ohio 43624. Said hearing will run without a continuance through May 5, 1972, unless completed earlier.

Under the Commission's memorandum and order, dated April 12, 1972, this Board, impaneled to hear the instant matter de novo, will consider the question of whether the activities under the construction permit No. CPPR-80 for the Davis-Besse facility should be suspended pending completion of the final NEPA review.

More specifically, the matters to be considered in the hearing shall be the factors specified in 10 CFR Part 50, Appendix D, section E.2, together with the considerations specified in the remand order of the States Court of Appeals for the District of Columbia in Coalition for Safe Nuclear Power, et al. v. United States Atomic Energy Commission, No. 71-1396.

The parties to this proceeding shall be the licensees, the Regulatory Staff, and the Coalition for Safe Nuclear Power, and Living in a Finer Environment.

Issued: April 21, 1972, Washington, D.C.

By order of the Atomic Safety and Licensing Board.

JEROME GARFINKEL,
Chairman.

FEDERAL DEPOSIT INSURANCE CORPORATION

INSURED BANKS

Joint Call for Report of Condition

Pursuant to the provisions of section 7(a)(3) of the Federal Deposit Insurance Act, each insured bank is required to make a report of condition as of the close of business April 18, 1972, to the appropriate agency designated herein, within 10 days after notice that such report shall be made: *Provided,* That if such reporting date is a nonbusiness day for any bank, the preceding business day shall be its reporting date.

Each national bank and each bank in the District of Columbia shall make its original Report of Condition on Office of the Comptroller Form, Call No. 481,[1] and shall send the same to the Comptroller of the Currency and shall send a signed and attested copy thereof to the Federal Deposit Insurance Corporation. Each insured State bank which is a member of the Federal Reserve System, except a bank in the District of Columbia, shall make its original report of condition on Federal Reserve Form 105—Call 203[1] and shall send the same to the Federal Reserve Bank of the District wherein the bank is located and shall send a signed and attested copy thereof to the Federal Deposit Insurance Corporation. Each insured State bank not a member of the Federal Reserve System, except a bank in the District of Columbia and a mutual savings bank, shall make its original report of condition on FDIC Form 64—Call No. 99[1] and shall send the same to the Federal Deposit Insurance Corporation.

[1] Filed as part of original document.

The original report of condition required to be furnished hereunder to the Comptroller of the Currency and the copy thereof required to be furnished to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for Preparation of Consolidated Reports of Condition by National Banking Associations," dated November 1971.[1] The original report of condition required to be furnished hereunder to the Federal Reserve Bank of the district wherein the bank is located and the copy thereof required to be furnished to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for the Preparation of Reports of Condition by State Member Banks of the Federal Reserve System," dated December 1970, and any amendments thereto.[2] The original Report of Condition required to be furnished hereunder to the Federal Deposit Insurance Corporation shall be prepared in accordance with "Instructions for the Preparation of Report of Condition on Form 64 by Insured State Banks Not Members of the Federal Reserve System," dated December 1970, and any amendments thereto.[1]

Each insured mutual savings bank not a member of the Federal Reserve System shall make its original report of condition on FDIC Form 64 (Savings),[1] prepared in accordance with "Instructions for the Preparation of Report of Condition on Form 64 (Savings) and Report of Income on Form 73 (Savings) by Insured Mutual Savings Banks," dated December 1971,[1] and shall send the same to the Federal Deposit Insurance Corporation.

FRANK WILLE,
Chairman, Federal Deposit Insurance Corporation.

WILLIAM B. CAMP,
Comptroller of the Currency.

J. L. ROBERTSON,
Vice Chairman, Board of Governors of the Federal Reserve System.

FEDERAL POWER COMMISSION

[Docket No. CI72-662]

SUN OIL CO.

Notice of Application

APRIL 24, 1972.

Take notice that on April 14, 1972, Sun Oil Co. (applicant), Post Office Box 2880, Dallas, TX 75221, filed in Docket No. CI 72-662 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. (United) from the East Dykesville Field, Claiborne Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant commenced the sale of natural gas to United on March 15, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for 1 year from the end of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70) at the rate of 35 cents per Mcf at 15.025 p.s.i.a. Applicant proposes to deliver up to 3,000 Mcf of gas per day.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before May 4, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

INSURED BANKS

Joint Call for Report of Condition

CROSS REFERENCE: For a document relating to a joint call for report of economic condition of insured banks, issued jointly by the Comptroller of the Currency, the Federal Reserve System, and the Federal Deposit Insurance Corporation, see F.R. Doc. 72-6335, Federal Deposit Insurance Corporation, *supra.*

BEVERLY HILLS FIDELITY BANK

Order Approving Acquisition of Assets

Beverly Hills Fidelity Bank, Beverly Hills, Calif., a newly organized, member State bank of the Federal Reserve System, has applied, pursuant to the Bank Merger Act (12 U.S.C. 1828(c)), for the Board's prior approval to acquire assets and assume liabilities of Fidelity Bank, Beverly Hills, Calif. ($85 million in deposits), and as an incident thereto to operate its main office at the location of the present main office of Fidelity Bank in Beverly Hills and branch offices at the locations of two present branches of Fidelity Bank in Los Angeles and Manhattan Beach.

Published notice of the proposed acquisition of assets and assumption of liabilities and requests for reports on the competitive factors involved therein have been dispensed with as authorized by the Bank Merger Act.

The Board has considered all relevant material contained in the record in the light of the factors set forth in the Act, including the effect of the proposal on competition, the financial and managerial resources and prospects of the banks involved, and the convenience and needs of the communities to be served and finds that:

On the basis of the information before the Board, including communications from the State Banking Department of the State of California, the Board finds that an emergency situation exists so as to require that the Board act immediately pursuant to the provisions of the Bank Merger Act in order to safeguard depositors of Fidelity Bank.

Such anticompetitive effects as will be attributable to consummation of the transaction will be clearly outweighed in the public interest by considerations relating to and involved in the emergency situation found to exist. From the record in the case, it is the Board's judgment that any disposition of the application other than approval would be inconsistent with the best interests of the depositors of Fidelity Bank, and the Board concludes that the proposed transaction should be approved on a basis that would not delay consummation of the proposal.

It is hereby ordered, On the basis of the record, that the application be and hereby is approved and that the acquisition of assets and assumption of liabilities and the establishment of the branch offices may be consummated immediately but in no event later than 3 months after the date of this order unless such period is extended for good cause by the Board, or the Federal Reserve Bank of San Francisco pursuant to delegated authority.

[2] Filed as part of original document.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-6333 Filed 4-25-72;8:46 am]

CITIZENS CENTRAL BANK

Order Approving Application for Merger of Banks

The Citizens Central Bank, Arcade, N.Y. (Citizens Central), a member State bank of the Federal Reserve System, has applied for the Board's approval pursuant to the Bank Merger Act (12 U.S.C. 1828(c)) of the merger of that bank with Citizens State Bank, Lyndonville, N.Y. (State Bank), under the charter and title of Citizens Central. As an incident to the merger, the present office of State Bank would become a branch of the resulting bank.

As required by the Act, notice of the proposed merger, in form approved by the Board, has been published, and the Board has requested reports on competitive factors from the Attorney General, the Comptroller of the Currency, and the Federal Deposit Insurance Corporation.

The Board has considered the application and all comments and reports received in the light of the factors set forth in the Act, and finds that:

Citizens Central ($42 million deposits),[1] a subsidiary of Charter New York Corp., New York City, operates six offices in New York State's Ninth Banking District wherein it holds 1.2 percent of the district's commercial bank deposits as the 11th largest of the district's 31 banks. State Bank ($5 million deposits) operates its only office in Lyndonville and is the only bank headquartered in Orleans County, the relevant market, where it controls approximately 9 percent of commercial bank deposits. A large New York banking organization operates four banking offices in the market and controls the remaining 91 percent of market deposits. State Bank ranks as the 29th largest bank in the Ninth Banking District with 0.2 percent of the District's total commercial bank deposits.

The nearest offices of the merging banks are approximately 30 miles apart and their service areas do not overlap. Consummation of the proposal would not significantly increase the concentration of banking deposits in any relevant area. No meaningful existing competition would be eliminated by the proposal between the proposed merging banks nor between any of the banking offices of Charter New York Corp. and State Bank.

Citizens Central is prohibited from de novo branching into Lyndonville by home office protection afforded by New York State laws, and, absent this, the growth potentials of the Lyndonville area would limit somewhat de novo entry. State Bank, as a small unit bank, is not likely to expand into the area served by Citizens Bank by de novo branching. Consequently, it appears unlikely that consummation of the proposed merger would foreclose any significant amount of potential competition between Citizens Central, State Bank or between any of the banking offices of Charter New York Corp. Based on the foregoing, and the record before it, the Board concludes that consummation of the proposed acquisition would not have an adverse effect on competition in any relevant market; rather, the replacement of the small unit banking office by the subsidiary of a large statewide holding company would likely increase competition with the offices of the large New York State banking organization.

The financial and managerial resources of Citizens Central and State Bank are satisfactory and the prospects for the resulting bank would be favorable. Consequently, banking factors are consistent with approval of the application. Consummation of the proposed merger would improve the present banking services available to customers of State Bank by increased lending capabilities and improving the banking services to include the addition of credit card services, automatic saving plans, and personal and corporate trust services. Considerations relating to the convenience and needs of the communities to be served are consistent with approval of the application and lend some weight thereto. It is the Board's judgment that consummation of the proposal would be in the public interest, and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[2] April 19, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-6330 Filed 4-25-72;8:46 am]

FIRST NATIONAL CITY CORP.

Order Approving Acquisition of Bank

First National City Corp., New York, N.Y., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to State Bank of Honeoye Falls, Honeoye Falls, N.Y. (Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant, the second largest banking organization in New York, has three subsidiary banks that control deposits of $13.4 billion, representing 14.1 percent of the commercial bank deposits in the State. (Unless otherwise noted, banking data are as of June 30, 1971, adjusted to reflect holding company formations and acquisitions to date.) Consummation of the proposal would not change Applicant's present ranking nor significantly increase its share of State deposits.

Bank, with deposits of $7.4 million, operates its sole office in Honeoye Falls and is the 12th largest of 16 banks in the Rochester banking market, controlling 0.4 percent of deposits in that market.[1] Applicant's nearest existing subsidiary bank is 102 miles from Bank. No significant existing competition would be foreclosed by consummation of the proposal.

In addition, the Rochester banking market is highly concentrated (four of the 16 banks control over 90 percent of deposits) and applicant's acquisition of Bank will likely have a procompetitive effect since Bank, with applicant's support, should compete more aggressively with the larger organizations.

Considerations related to the financial and managerial resources and future prospects of applicant, its subsidiary banks and Bank are generally satisfactory and consistent with approval. Although the banking needs of the communities involved are already being adequately met, applicant proposes to provide, through Bank, a major alternative source of specialized banking services. Accordingly, considerations relating to convenience and needs lend weight toward approval. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order, or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of New York pursuant to delegated authority.

By order of the Board of Governors,[2] April 19, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

MARSHALL & ILSLEY CORP.

Order Approving Acquisition of Banks

Marshall & Ilsley Corp., Milwaukee, Wis., a bank holding company within the meaning of the Bank Holding Company Act, has filed separate applications for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 90 percent or more of the voting shares of the following banks in Wisconsin: Bank of Watertown, Watertown (Watertown Bank); and Citizens American Bank, Merrill (Merrill Bank).

Notice of receipt of the applications has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the applications and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant, the second largest bank holding company and banking organization in Wisconsin on the basis of commercial bank deposits, controls 13 banks with aggregate deposits of approximately $684 million, representing 6.8 percent of total deposits held by all banks in Wisconsin. (All banking data are as of June 30, 1971, and reflect holding company formations and acquisitions approved through March 31, 1972.) Upon acquisition of Watertown Bank ($15 million in deposits) and Merrill Bank ($16 million in deposits), applicant's share of State deposits would be increased by only 0.3 percentage points and its rank as the State's second largest banking organization would not change.

Watertown Bank operates its only office in the city of Watertown, approximately 46 miles west-northwest of Milwaukee. Although Watertown Bank is the largest of the three city banks and the 16 banks competing in the relevant market wherein it holds 14.8 percent of deposits; the second, third, and fourth largest banks in this market hold, respectively, 14.6, 13.9, and 10.8 percent of the total deposits. It thus appears that Watertown Bank does not dominate banking in the area and that consummation of the proposal would not adversely affect any of the area banks.

The sole office of Merrill Bank is located in the city of Merrill, approximately 210 miles northwest of Milwaukee. Merrill Bank is the smaller of the two banks in Merrill and the fifth largest of 13 banks competing in the relevant market wherein it holds 7.3 percent of deposits. The three largest banks hold 59 percent of market deposits. Consummation of the proposal would not adversely affect any area banks.

Applicant's nearest subsidiaries are 30 milest northeast of Watertown Bank and 75 miles southeast of Merrill Bank, respectively. There is no meaningful competition between any of applicant's subsidiaries and the proposed subsidiaries, nor between the Watertown and Merrill banks, and in view of the distances separating the banks, the numerous intervening banks, and State laws restricting branching, it appears unlikely that significant competition would develop in the future. Consummation of the proposal would have no adverse effects on existing or potential competition.

The financial condition and management of applicant and the proposed subsidiaries are generally satisfactory, and prospects for applicant appear favorable as do the prospects for the Merrill and Watertown banks under applicant's control. Banking factors are, therefore, consistent with approval of the applications.

Although the major banking needs of the areas involved appear to be satisfied by existing facilities, the control of the proposed subsidiaries by applicant would likely enhance their services to the public through larger loans made available by participations with applicant's subsidiaries and through the addition to both Merrill and Watertown banks of new services which will include leasing, trust, and computer services. Considerations relating to the convenience and needs of the communities to be served are consistent with approval of the application and lend some support thereto. It is the Board's judgment that consummation of the proposed acquisitions would be in the public interest, and that the applications should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transactions shall not be consummated (a) before the 30th calendar day following the date of this order, or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[1] April 19, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

[FR Doc.72-6332 Filed 4-25-72;8:46 am]

VALLEY OF VIRGINIA BANKSHARES, INC.

Order Approving Formation of Bank Holding Company

Valley of Virginia Bankshares, Inc., Harrisonburg, Va., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successors by merger to Rockingham National Bank, Harrisonburg, Va. (Rockingham Bank), and the Commercial and Savings Bank, Winchester, Va. (Commercial Bank). The banks into which Rockingham Bank and Commercial Bank are to be merged have no significance except as a means of acquiring all of the shares of Rockingham Bank and Commercial Bank. Accordingly, the proposed acquisitions of the shares of the successor organizations are treated herein as the proposed acquisitions of the shares of Rockingham Bank and Commercial Bank.

Notice of receipt of the application has been given in accordance with section (3)(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant is a newly organized corporation. Consummation of the proposal herein would result in applicant controlling approximately $79 million deposits, representing 0.9 percent of total commercial bank deposits in the State, and applicant would become the ninth largest bank holding company in Virginia.[1]

Rockingham Bank ($54.4 million in deposits), the proposed lead bank, is headquartered in Harrisonburg and has six offices and two branches serving the southern part of Rockingham County and the northeast quadrant of Augusta County. Rockingham Bank controls about 20 percent of commercial bank deposits and is the third largest bank, in that market.[2] It competes with 10 other banks, six of which are branches or affiliates of organizations which rank among the seven largest banking organizations in Virginia.

Commercial Bank ($24.4 million in deposits), centered in Winchester, has a main office and four branches, and operates in the Frederick County banking market where it is the third largest of four banks, controlling 21.5 percent of deposits.[2] The largest bank in that market is twice as large as Commercial Bank.

The record indicates that Rockingham Bank and Commercial Bank do not compete with each other, and the development of such competition in the future appears unlikely. The nearest offices of the two banks are 68 miles apart, and under Virginia's restrictive branching laws this separation cannot be materially reduced. It appears that the affiliation of the two banks in a holding company would not have any adverse effects on other banks in these markets. Affiliation may actually promote competition by creating a larger institution which can then operate in an environment in which large banking systems are very prominent. On the basis of the record before it, the Board concludes that consummation of the proposal would not have an adverse effect on competition in any relevant area.

The financial and managerial resources of each bank appear satisfactory. It appears that applicant would begin operations in satisfactory condition and

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Maisel, and Sheehan. Absent and not voting: Governor Brimmer.

[1] Unless otherwise noted, all banking data are as of June 30, 1971, adjusted to reflect holding company formations and acquisitions approved by the Board through Feb. 29, 1972.

[2] Banking data concerning market control are as of June 30, 1970.

V 37 81 APR 26 72 XUM

with competent management. In addition, the capital accounts of both banks will be increased by a combined $170,000 upon affiliation. Applicant's future prospects, which are largely dependent upon those of its two subsidiaries, also appear favorable. Although there is no evidence that the existing banking needs of the communities involved are not being met, affiliation of both banks with applicant would lead to the availability of larger lines of credit than either bank could offer and other services offered by each bank would be expanded. These considerations relative to the convenience and needs of the communities to be served lend some weight toward approval. It is the Board's judgment that the proposed transaction is in the public interest and should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order, or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Board of Governors,[1] April 19, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

FEDERAL TRADE COMMISSION

CIGARETTE TESTING RESULTS

Correction

In F.R. Doc. 72-5926 appearing at page 7834 of the issue for Thursday, April 20, 1972, the following changes should be made in the entries for "Chesterfield" and "Lucky Strike": (1) The entry under the heading "Nicotine" for Chesterfield "King Size, nonfilter", which now reads "28", should read "1.8"; (2) the entry under the heading "Nicotine" for Chesterfield "King size, filter", which now reads "11.", should read "1.3"; (3) the entry under the heading "TPM dry" for Chesterfield "King size, filter, menthol", which now reads "18", should read "1.2"; (4) the entry directly beneath "Lucky Strike", which now reads "Do", should read "Lucky Filters".

SELECTIVE SERVICE SYSTEM

CENTRAL AND FIELD ORGANIZATION

Pursuant to 5 U.S.C. 552 the following description of the central and field organization of the Selective Service System, the established places at which the public may obtain information, and the general course and methods by which its functions are channeled and determined is published for the guidance of the public.

Creation and authority. The Selective Service System was established by the Military Selective Service Act (62 Stat. 604 as amended; 50 U.S.C. App. 451-471).

The Military Selective Service Act requires the registration of male citizens of the United States and all other male persons except certain alien nonimmigrants and alien medical, dental, or allied specialists who are in the United States who are between the ages of 18 and 26 years. (Alien medical, dental, or allied specialists are liable to register until age 35 years.) The act imposes liability for training and service in the Armed Forces upon registrants who are between the ages of 18 years and 6 months and 26 years except that aliens are not liable for training and service until they have remained in the United States for more than 1 year. Some persons who have been deferred remain liable for training and service until age 35. Persons in a medical, dental, or allied specialist category who enter the United States after age 26 are liable for training and service until age 35. Conscientious objectors who are found to be opposed to any service in the Armed Forces are required to perform civilian work in lieu of induction into the Armed Forces.

The President is authorized prior to July 1, 1973, to select and induct into the Armed Forces not more than 140,000 persons as may be required to maintain the strengths of the forces in the fiscal year ending June 30, 1973, and also to provide for the selection and induction into the Armed Forces of persons qualified in needed medical, dental, or allied specialist categories pursuant to special requisitions submitted by the Secretary of Defense.

The act exempts members of the active Armed Forces and foreign diplomatic and consular personnel from registration and liability for training and service. Likewise exempted are categories of aliens, as specified by the President, who are not admitted to the United States for permanent residence. Other exemptions or deferments from training and service are provided by the act, and the President is authorized to provide, by rules and regulations, for deferments involving occupations, some kinds of study, dependency and fitness.

The President by Executive Order 11623 has delegated to the Director of Selective Service authority, subject to certain restrictions, to issue regulations to carry out the Military Selective Service Act.

Pursuant to the provisions of section 672(a) of title 10 of the United States Code (72 Stat. 1440), the Director of Selective Service determines the availability of members of the Standby Reserve of the Armed Forces for order to active duty in time of war or national emergency declared by Congress.

Purpose. The purpose of the Selective Service System is to supply the Armed Forces manpower adequate to insure the security of the United States, with concomitant regard for the maintenance of an effective national economy.

ORGANIZATION AND ACTIVITIES

Director of Selective Service. The Selective Service System is headed by the Director of Selective Service, who is appointed by the President with the consent of the Senate. The Director is responsible directly to the President for carrying out the functions of the System. The Director decides appeals from the determinations of appeal boards as to the availability of members of the Standby Reserve for order to active duty. The Deputy Director performs all the duties of the office of the Director in case of a vacancy in that office or in case of the absence or disability of the Director.

National Headquarters. The National Headquarters functions under the supervision of the Director and assists him. The operations of the Selective Service System are largely decentralized.

State Headquarters. Each State headquarters is headed by a State director of Selective Service, who is appointed by the Director in the name of the President upon recommendation of the Governor. The State director is responsible for carrying out the functions of the Selective Service System within his area of jurisdiction. He is responsible to the Director of Selective Service for the coordination and supervision of the activities of the local boards, appeal boards, and other selective service agencies under its jurisdiction.

Local Boards. At least one local board has been established in each county or political subdivision corresponding thereto except where, upon recommendation of the respective Governors, intercounty local boards have been established for areas not exceeding five counties. A local board consists of three or more civilian members, residents of a county in the local board area, who are appointed by the President upon recommendation of the Governor and serve without compensation. A special local board, with jurisdiction over all persons registered who do not have a place of residence within the United States has been established in the District of Columbia.

Each local board has the power to determine all questions or claims with respect to inclusion for, or exemption or deferment from, training and service of all men registered in, or subject to registration in, the local board area. The decisions of a local board are final, except where an appeal to an appeal board is authorized and is taken. Each local board is responsible for the registration, examination, classification, selection, delivery to the Armed Forces for induction, ordering to perform civilian work in lieu of induction, and maintenance of the records of men who are required to register and who are within its area of jurisdiction.

Appeal Boards. Appeal boards have been established for each Federal judicial district in each of the States and in Puerto Rico, the Virgin Islands, Guam, the Canal Zone, and the District of Columbia. Members of appeal boards are civilians resident in the appeal board area and are appointed by the President upon recommendation of the Governor and serve without compensation. The functions of an appeal board are to decide anew the cases of registrants and members of the Standby Reserve appealed to it.

National Advisory Committee on the Selection of Physicians, Dentists, and Allied Specialists. The National Advisory Committee on the Selection of Physicians, Dentists, and Allied Specialists is located at National Headquarters. The members of this committee are appointed by the President. The functions of the National Committee are to advise the Director of Selective Service and to coordinate the work of State and local volunteer advisory committees established to cooperate with the National Committee, with respect to the availability of needed medical, dental, and allied specialist categories of persons for service in the Armed Forces. The National Committee is independent of the Selective Service System.

SOURCES OF INFORMATION

Publications. The following are examples of Selective Service publications available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402: "Registrants Processing Manual, and Curriculum Guide to the Draft." Selective Service Regulations appear in Chapter XVI of Title 32, Code of Federal Regulations.

The following are available from the Public Information Office, Selective Service System: "Perspective on the Draft; Hardship Deferment"; "Conscientious Objector"; "It's Your Choice"; "Lottery and Class 1-H"; "The Draft: Past, Present and Future"; "Doctors Draft"; and "Aliens."

Employment. Inquiries and applications should be directed to the Director, Selective Service System, Attention: AP, 1724 F Street NW., Washington, DC 20435.

Procurement. Inquiries should be directed to Director, Selective Service System, Attention: AAPB, 1724 F Street NW., Washington, DC 20435.

For further information including names of State Directors and addresses of State Headquarters, contact the Office of Public Information, Selective Service System, 1724 F Street NW., Washington, DC 20435.

Approved: April 21, 1972.

CURTIS W. TARR,
Director of Selective Service.

DEPARTMENT OF LABOR

Office of the Secretary

DETERMINATION OF NATIONAL "OFF" INDICATOR

Federal-State Extended Unemployment Compensation; Announcement of Ending of Extended Benefit Period

The following notice of determination and announcement is made pursuant to the provisions of section 203(b)(2) of the Federal-State Extended Unemployment Compensation Act of 1970 (Public Law 91-373, Title II), hereinafter the Act, and 20 CFR 615.16(a):

1. I find that the rate of insured unemployment (seasonally adjusted) for all States was 4.30 per centum for the month of December 1971; 4.09 per centum for the month of January 1972 and 4.25 per centum for the month of February 1972.

2. Since with respect to each of the three most recent calendar months ending before the week of March 5-11, 1972 the rate of insured unemployment (seasonally adjusted) for all States was less than 4.5 per centum as specified in the Act, it is my determination that there is a national "off" indicator for the week of March 5-11, 1972, within the meaning of the Act.

3. In accordance with the provisions of section 203(a)(2) of the Act an extended benefit period in the case of any State shall end with the third week after a week for which there is both a national and a State "off" indicator.

4. Accordingly, I announce that the extended benefit period ended on April 1, 1972 (the last day of the third calendar week following the week of March 5-11, 1972) in all States except those named below with respect to which there has not been a State "off" indicator. The extended benefit period will continue in each of these States until the third week following a week for which there is State "off" indicator with respect to that State:

Alabama.	New Jersey.
Connecticut.	New York.
Hawaii.	Ohio.
Illinois.	Oklahoma.
Indiana	Pennsylvania.
Iowa.	Puerto Rico.
Maine.	Vermont.
Maryland.	West Virginia.
Massachusetts.	Nevada.
Minnesota.	

Signed at Washington, D.C., this 21st day of April 1972.

J. D. HODGSON,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[No. 35539]

ALABAMA GREAT SOUTHERN RAILROAD ET AL.

Louisiana Intrastate Freight Rates and Charges—1971

APRIL 17, 1972.

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 13th day of March 1972.

By petition filed December 27, 1971, as amended by petition filed February 28, 1972, Alabama Great Southern Railroad, Arkansas & Louisiana Missouri Railway Co., Chicago, Rock Island & Pacific Railroad Co., Atchison, Topeka and Santa Fe Railway Co., Gulf, Mobile and Ohio Railroad Co., Illinois Central Railroad, Kansas City Southern Railway Co., Louisiana & Arkansas Railway Co., Louisiana Southern Railway Co., Louisville and Nashville Railroad Co., Missouri Pacific Railroad Co., New Orleans & Lower Coast Railroad Co., New Orleans Terminal Co., St. Louis Southwestern Railway Co., Southern Pacific Transportation Co., The Texas & Pacific Railway Co., and Tremont & Gulf Railway Co., common carriers by railroad parties to rates and charges for the intrastate transportation of property between points in Louisiana, state that under the law of the State of Louisiana, common carriers by railroad may not increase their intrastate rates and charges except upon a hearing before the Louisiana Public Service Commission and a finding by that Commission that a proposed increase is justified; that the present intrastate rates and charges do not include general increases in the same amounts as has been authorized by this Commission for property moving in interstate or foreign commerce in Ex Parte Nos. 265 and 267, Increased Freight Rates, 1970 and 1971, 339 I.C.C. 125, Ex Parte Nos. 262, Increased Freight Rates, 1969, 337 I.C.C. 436, Ex Parte No. 259, Increased Freight Rates, 1968, 332 I.C.C. 590 and 332 I.C.C. 714, Ex Parte No. 256, Increased Freight Rates, 1967, 329 I.C.C. 854 and 332 I.C.C. 280, Ex Parte No. 223, Increased Freight Rates, 1960, 311 I.C.C. 373,[1] and Ex Parte No. 212, Increased Freight Rates, 1958, 302 I.C.C. 665 and 304 I.C.C. 289; and

It appearing, that the petitioners allege that to the extent the intrastate rates and charges do not include the general increases in the amounts authorized on interstate or foreign commerce, the intrastate rates and charges do not and will not contribute their fair share of the revenues required by the carriers to meet increased expenses and costs which have been incurred in handling all traffic; that the intrastate rates and charges cause unjust discrimination against, and undue burden on interstate commerce, which is forbidden and declared unlawful under section 13 of the Interstate Commerce Act; and that, therefore, the petitioners request that an investigation into the lawfulness of intrastate rates and charges be instituted by this Commission, the aforesaid common carriers by railroad be named as respondents; the State of Louisiana and

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, Daane, Maisel, and Sheehan. Absent and not voting: Governor Brimmer.

[1] Petitioners refer to Ex Parte 223 authority to increase switching and minimum less than carload charges, 1960, and Ex Parte X-223 Increased freight rates, 1958; by the general reference petitioners have included the various subnumbered proceedings, for instance, Ex Parte No. 223 (Sub-No. 1), Minimum Charges Per Car, 313 I.C.C. 563, Ex Parte No. 223 (Sub-No. 2), Increased Switching Charges, 315 I.C.C. 199, 318 I.C.C. 485, and 322 I.C.C. 560, Ex Parte No. 223 (Sub-No. 3), Increased Rates on Iron Ore, 313 I.C.C. 549, Ex Parte No. 223 (Sub-No. 5), Increased Rates on Coal and Petroleum Coke, 316 I.C.C. 159, Ex Parte No. 223 (Sub-No. 9), Increased Rates on Fresh Fruits and Vegetables, 318 I.C.C. 519, and Ex Parte No. 223 (Sub-No. 10), Increased Freight Rates, 1960 (Rule 7), 318 I.C.C. 471.

V 37-81 APR 26 72 XUM

the Louisiana Public Service Commission be notified of the proceeding; special expedition be given to the hearing and decision in said investigation; the Commission find that the rates and charges cause the unlawfulness complained of; and this Commission issue an order requiring the removal of the unlawfulness;

And it further appearing, that there have been brought in issue by the railroad petitioners matters sufficient to require an investigation into the lawfulness of intrastate rates and charges made or imposed by the State of Louisiana, therefore,

It is ordered, That the petition, as amended, be, and it is hereby granted.

It is further ordered, That an investigation be, and it is hereby, instituted under section 13 of the Interstate Commerce Act to determine whether the intrastate rates and charges of the petitioning carriers by railroads, or any of them, operating in the State of Louisiana, for the intrastate transportation of property, made or imposed by the State of Louisiana, as previously indicated, cause or will cause, by reason of the failure of such rates and charges to include increases corresponding to those authorized on interstate traffic by this Commission in Ex Parte Nos. 265 and 267, Increased Freight Rates, 1970 and 1971), supra, Ex Parte No. 262, Increased Freight Rates, 1969, supra, Ex Parte No. 259, Increased Freight Rates, 1968, supra, Ex Parte No. 256, Increased Freight Rates, 1967, supra, Ex Parte No. 223, Increased Freight Rates, 1960, supra, Ex Parte No. 223 (Sub-No. 1), Minimum Charges Per Car, supra, Ex Parte No. 223 (Sub-No. 2) Increased Switching Charges, supra, Ex Parte No. 223 (Sub-No. 3), Increased Rates on Iron Ore, supra, Ex Parte No. 223 (Sub-No. 5), Increased Rates on Coal and Petroleum Coke, supra, Ex Parte No. 223 (Sub-No. 9), Increased Rates on Fresh Fruits and Vegetables, supra, Ex Parte No. 223 (Sub-No. 10), Increased Freight Rates, 1960 (Rule 7), supra, and Ex Parte No. 212, Increased Freight Rates, 1958, supra, any undue or unreasonable advantage, preference, or prejudice, as between persons or localities in intrastate commerce on the one hand, and those in interstate or foreign commerce, on the other, or any undue, unreasonable, or unjust discrimination against, or undue burden on, interstate or foreign commerce, and to determine what rates and charges, if any, or what maximum, or minimum, or maximum and minimum, rates and charges should be prescribed to remove the unlawful advantage, preference, discrimination or undue burden, if any, that may be found to exist.

It is further ordered, That all carriers by railroad operating within the State of Louisiana, subject to the jurisdiction of this Commission, be, and they are hereby, made respondents to this proceeding.

It is further ordered, That any person intending to participate in this proceeding by submitting initial or reply statements, or otherwise, shall notify this Commission, by filing with the secretary, Interstate Commerce Commission, within 30 days of the service date of this order, the original and one copy of a statement of his intention to participate. Inasmuch as the Commission desires wherever possible (a) to conserve time, (b) to avoid unnecessary expense to the public, and (c) the service of pleadings by parties in proceedings of this type only upon those who intend to take an active part in the proceedings, the statement of intention to participate shall include a detailed specification of the extent of such person's interest, including (1) whether such interest extends merely to receiving Commission releases in this proceeding, (2) whether he genuinely wishes to participate by receiving of filing initial and/or reply statements, (3) if he so desires to participate as described in (2), whether he will consolidate or is capable of consolidating his interests with those of other interested parties by filing joint statements in order to limit the number of copies of pleadings that need be served, such consolidation of interests being strongly urged by the Commission, and (4) any other pertinent information which will aid in limiting the service list to be issued in this proceeding; that this Commission shall then prepare and make available to all such persons a list containing the names and addresses of all parties desiring to participate in this proceeding and upon whom copies of all statements must be filed; and that at the time of service of this service list the Commission will fix the time within which initial statements and replies must be filed.

It is further ordered, That a copy of this order be served upon each of the said petitioners, and that the State of Louisiana be notified by sending copies of this order and the said petition, as amended, by certified mail to the Governor of Louisiana, Baton Rouge, La., and to the Louisiana Public Service Commission, Baton Rouge, La.

And it is further ordered, That notice of this proceeding be given to the public by depositing a copy of this order in the office of the Secretary of the Commission at Washington, D.C., and by filing a copy with the Director, Office of the Federal Register, for publication therein. Interested persons shall be afforded the opportunity to inspect pleadings at the Office of the Secretary of the Commission in Washington, D.C.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD, *Secretary.*

ASSIGNMENT OF HEARINGS

APRIL 21, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

FD 26825, St. Louis-San Francisco Railway Co. abandonment between Winona and Chicopee, in Shannon and Carter Counties, Mo., now assigned May 15, 1972, at Van Buren, Mo., will be held in courtroom, County Courthouse, Main Street, Van Buren, Mo.

No. 35407, Increased rates and charges by Matson Navigation, No. 35407 Sub 1, increased rates and charges, Seatrain Lines, Calif., No. 35407 Sub 2, increased rates and charges, Matson Navigation Co., No. 35407 Sub 3, increased rates and charges, Matson Navigation Co., No. 35407 Sub 4, increased rates and charges, Seatrain Lines, California, No. 35407 Sub 5, lumber and related commodities, west coast to Hawaii, and No. 35407 Sub 6, various commodities, between California and Hawaii, now assigned July 10, 1972, at San Francisco, Calif., postponed to October 2, 1972, at San Francisco, Calif., in a hearing room to be later designated.

FD 26876, St. Louis Southwestern Railway Co. abandonment between Gideon and Deering Junction, in New Madrid and Pemiscot Counties, Mo., now assigned May 17, 1972, FD 26876 Sub 1, St. Louis Southwestern Railway Co. abandonment between Trumann, Ark., and Leachville Junction, Mo., in Poinsett, Craighead, and Mississippi Counties, now assigned May 17, 1972, FD 26879 Sub 1, St. Louis-San Francisco Railway Co. abandonment between Parma, New Madrid County, and Holcomb, Dunklin County, Mo., FD 26879, St. Louis-San Francisco Railway Co. abandonment between Senath, Mo., and Leachville, Ark.

FD 26879 Sub 2, St. Louis-San Francisco Railway Co. abandonment between Campbell and Gibson, Dunklin County, Mo., FD 26879 Sub 3, St. Louis-San Francisco Railway Co. abandonment between Malden and Clarkton, Dunklin County, Mo., FD 27045, St. Louis Southwestern Railway Co. and St. Louis-San Francisco Railway Co. to purchase properties of each carrier, FD 27060, St. Louis Southwestern Railway Co.—Construction—Gideon, New Madrid County, Mo., now assigned May 17, 1972, at Malden, Mo., will be held in the City Council Chambers, City Hall, Malden, Mo.

MC 128879 Subs 16 and 18, C-B Truck Lines, Inc., now being assigned continued hearing May 1, 1972, at the New Mexico Motor Carrier's Association, 1500 Hannett Avenue NE., Albuquerque, NM.

FD 26904, Seaboard Coast Line Railroad Co. abandonment between Garland and Hanover, in Sampson, Pender, and New Hanover, Counties, N.C., now assigned June 12, 1972, at Wilmington, N.C., canceled and transferred to modified procedure.

MC 75302 Sub 11, Doudell Trucking Co., now assigned July 17, 1972, at San Francisco, Calif., postponed to July 24, 1972, at San Francisco, Calif., in a hearing room to be later designated.

MC 61231 Sub-58, Ace Lines, Inc., now assigned May 23, 1972, at St. Louis, Mo., will be held in room 1711, 1520 Market Street, St. Louis, Mo.

MC 135649 Sub-1, Friederich Truck Service, Inc., now assigned May 22, 1972, MC 135944, Air Cargo Transporters, Inc., now assigned May 24, 1972, at St. Louis, Mo., the hearing will be held in Room 1612, 1520 Market Street, St. Louis, Mo.

MC 99902 Sub-4, Dave's Motor Transportation, Inc., now assigned May 31, 1972, at Boston, Mass., will be held in Room 2211B John Fitzgerald Kennedy Building, Government Center, Boston, Mass.

[No. MC-C-7750]

DRUG AND TOILET PREPARATION TRAFFIC CONFERENCE AND NATIONAL SMALL SHIPMENTS TRAFFIC CONFERENCE

Filing of Petition for Institution of Investigation; Minimum Weight Charges

APRIL 21, 1972.

Joint petitioners: Drug and Toilet Preparation Traffic Conference and the National Small Shipments Traffic Conference; petitioners' representative: Myron Smith, 685 Third Avenue, New York, NY 10017.

By joint petition filed March 29, 1972, petitioner seeks the institution of an investigation proceeding to explore the motor carrier practice of assessing minimum charges on shipments weighing less than a specified number of pounds. Petitioners contend that on shipments of less than a stated number of pounds (viz: 500, 5,000, or 10,000 pounds) certain motor carriers apply the charge for the stated number of pounds as a minimum charge. Petitioners state that any such tariff publication is a direct service limitation, and an embargo by tariff provision on shipments of less than the stated number of pounds specifically restricting services 'o less than the carrier's full certificated authority in violation of the following provisions of the Interstate Commerce Act: Sections 203 (a) (14)—holding out of services; 216 (b)—requirement to provide safe and adequate service; and 216(d)—unreasonable and discriminatory conduct. In addition, petitioners assert that the said tariff provisions, which have involved weight minimums other than those mentioned, are violative of this Commission's regulation 49 CFR 1307.27(k) which states (1) that tariffs must contain only rates, charges, and related provisions that cover services in strict conformity with each carrier's operating authority; (2) that no provision may be published in tariffs, supplements, or revised pages which results in restricting service to less than the carrier's full operating authority or which exceed such authority; and (3) that tariff publications containing such provisions are subject to rejection or suspension for investigation.

Petitioners ask that this Commission require motor carriers to explain their conduct in these situations in an investigation proceeding in the light of this Commission's decision in Restrictions on Service by Motor Common Carriers, 111 M.C.C. 151 (1970) and the requirements established pursuant thereto. Petitioners specifically direct this Commission's attention to recent publications proposing to "embargo" certain service that were filed by the Eastern Central Motor Carriers Association, Inc., Campbell "Sixty Six" Express, Inc., Eastern Freight Ways, Inc., Kent Freight Lines, Inc., Werner Continental, Inc., Wooleyhan Transport Company, and Cooper-Jarrett, Inc.

Any interested person desiring to participate in the matter may file an original and seven copies of his written representations, views, and arguments in support of, or against, the petition on or before June 15, 1972. A copy of such representations should be served upon petitioners' representative at the address indicated above.

Written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc. 72-6368 Filed 4-25-72;8:49 am]

[Section 5a; Application 87; Amdt. 5]

NATIONAL ASSOCIATION OF SPECIALIZED CARRIERS

Application for Approval of Amendment to Agreement

MARCH 16, 1972.

The Commission is in receipt of an application in the above-entitled proceeding for approval of amendments to the agreement therein approved.

Filed January 14, 1972, by: Mert Starnes, Robinson, Felts, Starnes & Nations, Post Office Box 2207, Austin, TX 78767.

The amendments involve: (1) Amend Article X to increase Board of Directors to 20 members in lieu of 10 members and provide for the election of 10 members each year for continuity, and increase to 11 members, in lieu of eight, the required quorum for board meetings and action on a mail vote, and (2) revise Article XII to increase the membership of the Standing Rate Committee to 15 members in lieu of 10 members, modify the election procedure, and increase the committee quorum requirements for the increased membership.

The complete amended application may be inspected at the Office of the Commission in Washington, D.C.

Any interested person desiring to protest and participate in this proceeding shall notify the Commission in writing within 20 days from the date of publication of this notice in the FEDERAL REGISTER. As provided by the general rules of practice of the Commission, persons other than applicants should fully disclose their interest, and the position they intend to take with respect to the application. Otherwise, the Commission, in its discretion, may proceed to investigate and determine the matters involved without public hearing.

By the Commission.

ROBERT L. OSWALD, *Secretary.*

[Ex Parte No. MC-19; Sub-No. 17]

PRACTICES OF MOTOR COMMON CARRIERS OF HOUSEHOLD GOODS

Filing of Petition Regarding Waiver of Order for Service

APRIL 21, 1972.

Petitioner: Household Goods Carriers' Bureau, 2425 Wilson Boulevard, Arlington, VA 22201. Petitioner's representatives: Francis L. Wyche and Dabney T. Waring, Jr. (same address as petitioner). By petition filed March 16, 1972, petitioner seeks the amendment of § 1056.9 of the Commission's general rules and regulations (49 CFR 1056.9) so as to permit waiver of the requirement for an order for service on shipments moving on a Government bill of lading and on shipments moving under the third proviso of the definition of household goods set forth in 49 CFR 1056.1(a)(3), when so requested in writing by the shipper. Petitioner contends that whatever value the order for service might have for an individual owner-shipper of personal effects, it constitutes an unnecessary paperwork burden and actually has a negative value with respect to certain types of large-establishment shippers. Petitioner asserts that for the past 1.5 years, orders for service have not been issued on shipments of the Department of Defense, the largest shipper of household goods in the country, because the Commission's staff had acquiesced to such a waiver. Neither the Commission, the Department, nor the carrier have, it is argued, any reason to regret that policy; and the terms of the regulation should be changed to reflect that policy. Neptune World Wide Moving, Inc., also has filed a statement supporting the relief sought.

Any interested person desiring to participate shall file an original and seven copies of his written representations, views, and arguments in support of, or against, the relief sought on or before June 16, 1972. A copy of such representations should be served upon petitioner at the address indicated above.

Written material or suggestions submitted will be available for public inspection at the offices of the Interstate Commerce Commission, 12th and Constitution, Washington, D.C., during regular business hours.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

APRIL 21, 1972.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969 (49 CFR 1042.4(d)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(d)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(d)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

Alaska Docket No. 72-93-MP/X, filed March 17, 1972. Applicant: WESTOURS MOTOR COACHES, INC., 900 IBM Building, Seattle, Wash. 98101. Applicant's representatives: A. T. Wendells, 3933 Seattle First National Bank Building, Seattle, Wash., and Shirle A. Debenham, 511 West Fourth Avenue, Anchorage, AK 99501. Certificate of public convenience and necessity sought to operate a sightseeing, tour, and charter common carrier service as follows: Transportation of *passengers*, by bus between Anchorage, Alaska, and Fairbanks, Alaska, via Alaska Highways No. 1 and 3, with service to, from, and at McKinley National Park and off-route service to and from Kantishna, and to and from points of tour and sightseeing interest within 50 miles on either side of said Highways 1 and 3. Both intrastate and interstate authority sought.

HEARING: Date, time, and place unknown. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Alaska Transportation Commission, 750 MacKay Building, 338 Denali Street, Anchorage, AK 99501, and should not be directed to the Interstate Commerce Commission.

Tennessee Docket No. MC 4776 (Sub-No. 1), filed April 7, 1972. Applicant: SHELBYVILLE EXPRESS, INC., Faydur Court, Nashville, Tenn. 37219. Applicant's representative: Walter Harwood, 1822 Parkway Towers, Nashville, Tenn. 37219. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except household goods, classes A and B explosives, commodities in bulk, and those requiring special equipment, between Shelbyville, Tenn., and Memphis, Tenn., over the following routes: (1) From Shelbyville via U.S. Highway 231 to Fayetteville, thence via U.S. Highway 64 to Memphis, and return over the same route, serving no intermediate points; and (2) from Shelbyville via U.S. Highway 231 to its junction with Interstate Highway 24, thence via Interstate Highway 40 to Memphis, and return over the same route, serving no intermediate points. Said authority to be used in conjunction with applicant's existing authority subject only to the following restriction: "Restricted against the handling of traffic which originates at, is destined to, or interchanged at Nashville, Tenn." Both intrastate and interstate authority sought.

HEARING: July 13, 1972, 9:30 a.m., at the Commission's courtroom, C1-110 Cordell Hull Building, Nashville, Tenn. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Tennessee Public Service Commission, Cordell Hull Building, Nashville, Tenn. 37219, and should not be directed to the Interstate Commerce Commission.

Tennessee Docket No. MC 4978 (Sub-No. 1), filed April 7, 1972. Applicant: S & W FREIGHT LINES, INC., 1136 Haley Road, Post Office Box 667, Murfeesboro, TN 37130. Applicant's representative: Walter Harwood, 1822 Parkway Towers, Nashville, Tenn. 37219. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *general commodities*, except household goods, classes A and B explosives, commodities in bulk, and those requiring special equipment, between Murfreesboro, Tenn., and Memphis, Tenn., as follows: (1) From Murfreesboro, Tenn., to Memphis, Tenn., via Interstate Highway 24 to its junction with Interstate Highway 40, thence via Interstate Highway 40 to Memphis, and return over the same route, serving no intermediate points; and (2) from Murfreesboro, Tenn., to Memphis, Tenn., via Tennessee Highway 96 to its junction with Tennessee Highway 100, thence via Tennessee Highway 100 to Memphis, and return over the same route, serving no intermediate points. Said authority to be used in conjunction with applicant's existing authority subject only to the following restrictions: "Restricted against the handling of traffic which originates at, is destined to, or interchanged at Nashville, Tenn." Both intrastate and interstate authority sought.

HEARING: June 1, 1972, 9:30 a.m., at the Commission's courtroom, C-1 Cordell Hull Building, Nashville, Tenn. Requests for procedural information including the time for filing protests concerning this application should be addressed to the Tennessee Public Service Commission, Cordell Hull Building, Nashville, Tenn. 37219, and should not be addressed to the Interstate Commerce Commission.

By the Commission.

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

APRIL 21, 1972.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC-1515 (Deviation No. 613) (Cancels Deviation No. 493), GREYHOUND LINES, INC. (Eastern Division), 1400 West Third Street, Cleveland, OH 44113, filed March 30, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express, and newspapers* in the same vehicle with passengers, over a deviation route as follows: From Fayetteville, N.C., over Interstate Highway 95 to junction U.S. Highway 301 south of Lumberton, N.C., thence over U.S. Highway 301 to junction Interstate Highway 95 at the North Carolina-South Carolina State line, thence over Interstate Highway 95 to junction access highway approximately 2 miles south of Santee, S.C., thence over access highway to junction U.S. Highway 15, with the following access routes: (1) From Florence, S.C., over U.S. Highway 52 to junction Interstate Highway 95, (2) from Florence, S.C., over U.S. Highway 76 to junction Interstate Highway 95, (3) from Manning, S.C., over U.S. Highway 521 to junction Interstate Highway 95, and (4) from Summerton, S.C., over access highway to junction Interstate Highway 95, and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From Charleston, S.C., over U.S. Highway 17 to Jacksonboro, S.C., thence over South Carolina Highway 64 to Walterboro, S.C., thence over Alternate U.S. Highway 17 to Pocotaligo, S.C., thence over U.S. Highway 17 to Brunswick, Ga., and return over the same route.

No. MC-1515 (Deviation No. 615), GREYHOUND LINES, INC. (Western Division), 371 Market Street, San Francisco, CA 94106, filed April 6, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over a deviation route as follows: From junction Interstate Highway 80 and California Highway 21 (Cordelia Junction), over California Highway 21 to junction Interstate Highway 680, thence over Interstate Highway 680 to junction California Highway 24 (North Walnut Creek Junction), and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over pertinent service routes as follows: (1) From Sacramento, Calif., over Interstate Highway 80 to junction unnumbered highway west of Sacramento (Broderick Junction), thence over unnumbered highway (West Capitol Avenue) to junction Interstate Highway 80 (Yolo Causeway), thence over Interstate Highway 80 to junction unnumbered highway north of Fairfield (North Fairfield Junction), thence over unnumbered highway via Fairfield to junction Interstate Highway 80 west of Fairfield (West Fairfield-Junction), thence over Interstate Highway 80 to junction unnumbered highway west of Crockett (Crockett Junction), thence over unnumbered highway via Rodeo, Pinole and Richmond to junction Carlson Boulevard and Interstate Highway 80 (West El Cerrito), thence over Interstate Highway 80 to East Bay Traffic Distribution Structure (Oakland);

(2) From Crockett Junction over Interstate Highway 80 to West El Cerrito; (3) from junction Interstate Highway 80 and California Highway 4 (Franklin Canyon Junction), over California Highway 4 to junction unnumbered highway (Barrydale Junction), thence over unnumbered highway to junction California Highway 4 (West Martinez Junction), thence over California Highway 4 to junction unnumbered highway south of Martinez (Martinez Junction), thence over unnumbered highway via Martinez, Port Chicago, Willow Pass Junction, and Pittsburg to junction California Highway 4 (Antioch), thence over California Highway 4 to Stockton; (4) from Oakland over unnumbered highway (Broadway) to junction California Highway 24 (Temescal Junction), thence over California Highway 24 to junction Interstate Highway 680 (Walnut Creek), thence over Interstate Highway 680 to junction California Highway 24 (Monument), thence over California Highway 24 to Concord, thence over unnumbered highway to junction California Highway 4 (Concord Junction), thence over California Highway 4 to junction unnumbered highway (Camp Stoneman Junction), thence over unnumbered highway to junction unnumbered highway west of Pittsburgh) (Willow Pass Junction); and (5) from junction California Highway 4 and unnumbered highway south of Martinez (Martinez Junction), over unnumbered highway via West Monument to junction California Highway 24 (Pleasant Hill Overpass), and return over the same route.

No. MC-3210 (Deviation No. 2), ST. LOUIS-CAPE BUS LINE, INC., 16 North Frederick Street, Cape Girardeau, MO 63701, filed November 26, 1971, amended April 12, 1972. Carrier's representative: James A. Cochrane, Jr., 325 Broadway, Cape Girardeau, MO 63701. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage, and express and newspapers* in the same vehicle with passengers, over a deviation route as follows: From junction Interstate Highway 55 and U.S. Highway 61, south of Festus and Crystal City, Mo., over Interstate Highway 55 to junction U.S. Highway 61, 1 mile south of Fruitland, Mo., with the following access routes: (1) From junction Interstate Highway 55 and Ste. Genevieve County Route E over Ste. Genevieve County Route E to junction U.S. Highway 61 at Bloomsdale, Mo.; (2) from junction Interstate Highway 55 and Ste. Genevieve County Route O over Ste. Genevieve County Route O to junction U.S. Highway 61 south of Bloomsdale, Mo.; (3) from junction Interstate Highway 55 and Missouri Highway 32, over Missouri Highway 32 to junction U.S. Highway 61 at Ste. Genevieve, Mo.; (4) from junction Interstate Highway 55 and Ste. Genevieve County Route J, over Ste. Genevieve County Route J to junction U.S. Highway 61 north of St. Marys, Mo.; (5) from junction Interstate Highway 55 and Ste. Genevieve County Route Z, over Ste. Genevieve County Route Z to junction U.S. Highway 61 south of St. Marys, Mo.; (6) from junction Interstate Highway 55 and unnumbered access road, over unnumbered access road to junction U.S. Highway 61 north of Brewer, Mo.; (7) from junction Interstate Highway 55 and Missouri Highway 51, over Missouri Highway 51 to junction U.S. Highway 61 at Perryville, Mo.; and (8) from junction Interstate Highway 55 and Cape Girardeau County Route KK, over Cape Girardeau County Route KK to junction U.S. Highway 61 south of Old Appleton, Mo., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property, over a pertinent service route as follows: From St. Louis, Mo., over U.S. Highway 67 to junction U.S. Highway 61, thence over U.S. Highway 61 via Jackson, Mo., to Cape Girardeau, Mo., and return over the same route.

By the Commission.

[Notice 31]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

APRIL 21, 1972.

The following publications[1] are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 37-81 APR 26 72 XUM

eliminate any restrictions which are not acceptable to the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 117395 (Sub-No. 21) (Republication), filed August 19, 1971, published in the FEDERAL REGISTER, issue of September 30, 1971, and republished this issue. Applicant: SOUTHERN CEMENT TRANSPORT, INC., Post Office Box 188, Okay, AR 71854. Applicant's representative: Louis Tarlowski, 914 Pyramid Life Building, Little Rock, Ark. 72201. An order of the Commission, Operating Rights Board, dated March 24, 1972, and served April 17, 1972, finds: That the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of dry fertilizer, in bulk, from points in Polaski County, Ark., to points in Bowie County, Tex.; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act, and the Commission's rules and regulations thereunder and an appropriate certificate, should be issued concurrently with or subsequent to the issuance to applicant of appropriate certificates and the cancellation of applicant's outstanding permits in No. MC-117395 and subnumbers thereunder; and, that should the conversion proceeding be disapproved by the Commission, the instant application will stand denied in its entirety. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 117574 (Sub-No. 200) (Republication) filed April 30, 1971, published in the FEDERAL REGISTER, issue of May 20, 1971, and republished this issue. Applicant: DAILY EXPRESS, INC., Post Office Box 39, Carlisle, PA 17013. Applicant's representatives: E. S. Moore (same address as applicant) and James W. Hagar, 100 Pine Street, Post Office Box 1166, Harrisburg, PA 17108. A report and recommended order of the hearing examiner was made effective March 10, 1972, and notice was served April 11, 1972. The said report and order finds: That the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of (1) tractors (except those with vehicle beds, bed frames, and fifth wheels), (2) equipment designed for use in conjunction with tractors, (3) agricultural, industrial, and construction machinery and equipment, (4) trailers designed for the transportation of the above-described commodities (except those trailers designed to be drawn by passenger automobiles), (5) attachments for the above-described commodities, (6) internal combustion engines, (7) parts of the above-described commodities when moving in mixed loads with such commodities, and (8) materials, equipment, and supplies (except commodities in bulk) used in the manufacture and distribution of the commodities described in (1) through (7) above. Between Grand Island, Nebr., on the one hand, and, on the other, points in Alabama, Connecticut, Delaware, Florida, Georgia, Kentucky, Maine, Maryland, Massachusetts, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and the District of Columbia. Restriction: The operations herein authorized are restricted to the transportation of traffic (a) originating at Grand Island and destined to points in the States named in each respective application, or (b) originating at points in the States named above in each respective application and destined to Grand Island, except that the restrictions in (a) and (b) shall not apply to traffic moving in foreign commerce. Because it is possible that other persons, who have relied upon the notice of the application as published may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings of this report, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition to reopen or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 121642 (Sub-No. 1) (Republication), filed September 24, 1971, published in the FEDERAL REGISTER, issue of October 29, 1971, and republished, this issue. Applicant: BEAMER BROTHERS TRUCKING COMPANY, 8188 Camargo Road, Cincinnati, OH. Applicant's representative: Jack B. Josselson, Atlas Bank Building, 524 Walnut Street, Cincinnati, OH 45202. An order of the Commission, Operating Rights Board, dated March 23, 1972, and served April 17, 1972, finds: That the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of brick and building materials, between points in Hamilton County, Ohio, on the one hand, and, on the other, points in Kentucky and Ohio, restricted against the transportation of traffic to or from Stanton, Ky., and to and from points in Monroe, Lawrence, and Morgan Counties, Ind. (except from the plantsite of General Shale Co. at Mooresville (Morgan County, Ind.); that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder and that an appropriate certificate should be issued subject (1) to the coincidental cancellation on applicant's written request of its Certificate of Registration No. MC 121642, and (2) because it is possible that other parties who have relied upon the notice in the FEDERAL REGISTER of the application as originally published may have an interest in and would be prejudiced by the lack or proper notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in the proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 135975 (Republication), filed August 18, 1971, published in the FEDERAL REGISTER, issue of September 30, 1971, and republished this issue. Applicant: IMEL TRUCKING CO., INC., Rural Route No. 3, Post Office Box 133, Decatur, IN. Applicant's representative: Walter R. Jones, Jr., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. An order of the Commission, Review Board No. 2, dated April 5, 1972, and served April 13, 1972, finds: That the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of compacted scrap motor vehicles between points in Indiana, Michigan, Illinois, and Ohio. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in the proceeding setting forth in detail the precise manner in which it has been so prejudiced.

MOTOR CARRIER OF PASSENGERS

No. MC 44770 (Sub-No. 14) (Republication), filed August 20, 1971, published in the FEDERAL REGISTER issue of October 15, 1971, and republished this issue. Applicant: ZEPHYR LINES, INCORPORATED, 1114 Currie Street, Minneapolis, MN. Applicant's representative: Joseph J. Dudley, W-1260 First National Bank Building, St. Paul, Minn. 55101. An order of the Commission, operating rights board, dated March 10, 1972, and served April 7, 1972, finds, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of passengers and their baggage, in the same vehicle with passengers, in round trip charter operations, beginning and ending at points in Chicago, Washington, Ramsey, Hennepin, Carver, McLeod, Sibley, Renville, Redwood, Lyon, Lincoln, Yellow Medicine, Chippewa, and Lac Qui Parle Counties, Minn., Codington and Deuel Counties, S. Dak., and St. Croix, Barron, Polk, and Burnett Counties, Wis., and extending to points in the United States (except Alaska and Hawaii); that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the FEDERAL REGISTER and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition seeking leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

NOTICE OF FILING OF PETITIONS

No. MC 117493 (Sub-No. 1) (Notice of Filing of Petition for Elimination of Certain Restrictions From Petitioner's Certificate) filed March 30, 1972. Petitioner: DIAL MOTOR LINES, INC., Cornwell Heights, Pa. Petitioner's representative Alexander Markowitz, 1180 Karin Street, Post Office Box 793, Vineland, NJ. Petitioner states it holds a certificate of Public Convenience and Necessity in No. MC 117493 (Sub-No. 1), issued August 17, 1970, authorizing operations as follows: "Regular route: *General commodities*, except those of unusual value, classes A and B explosives, automobiles, dairy products, livestock, fish, poultry, petroleum products, baggage, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, between Trenton, N.J., and Philadelphia, Pa., serving the intermediate point of Camden, N.J.: From Trenton over U.S. Highway 206 to junction U.S. Highway 130, thence over U.S. Highway 130 to Camden, N.J., thence across the Delaware River to Philadelphia, and return over the same route. The service authorized above is subject to the restriction that no traffic which originates at or is destined to Philadelphia, Pa., shall be transported to or from Trenton, N.J. Restriction: So long as the above-named carrier (Dial Motor Lines, Inc.), is under the control of Harvey, Weiner, the service authorized herein is subject to the following conditions: Carrier may not interchange or interline traffic with Reisch Trucking and Transportation Co., Inc. Carrier may not employ personnel of Reisch Trucking and Transportation Co., Inc., or any other respondents in the proceeding in MC-F 9603, or use employees in common with other respondents. Carrier may not use equipment owned, leased, controlled, or otherwise used in the operations of Reisch Trucking and Transportation Co., Inc., or other carrier respondents in the proceeding in MC-F 9603. Carrier may not use, jointly or in common, facilities such as terminals or call-stations with Reisch Trucking and Transportation Co., Inc., or other carrier respondents in the proceeding in MC-F 9603. Carrier may not participate, directly or indirectly, with Reisch Trucking and Transportation Co., Inc., or other respondents in the proceeding in MC-F 9603, in any activity which would be construed as evidencing affiliation or management in a common interest with Reisch Trucking and Transportation Co., Inc., or other carrier respondents in the aforementioned proceeding. Carrier may not accept, for its own benefit, financial assistance from Reisch Trucking and Transportation Co., Inc., or persons in control of Reisch Trucking and Transportation Co., Inc."

Petitioner further states it is herein seeking removal of certain restrictions presently set forth in its above-said Sub 1 certificate. Such restrictions presently shown and proposed to be removed are as follows: "Restriction: So long as the above-named carrier (Dial Motor Lines, Inc.) is under the control of Harvey Wiener, the service authorized herein is subject to the following conditions: Carrier may not interchange or interline traffic with Reisch Trucking and Transportation Co., Inc. Carrier may not use equipment owned, leased, controlled or otherwise used in the operations of Reisch Trucking and Transportation Co., Inc., or other carriers respondents in the proceeding in MC-F 9603. Carrier may not use (jointly) facilities such as terminals or call stations with Reisch Trucking and Transportation Co., Inc., or other carrier respondents in the proceeding in MC-F 9603". Petitioner further states that the purpose of seeking removal of the identified restrictions in its MC 117493 (Sub-No. 1), is that petitioner seeks to restore and maintain normal interchange of traffic between itself and Reisch Trucking and Transportation Co., Inc., one of the respondents in MC-F 9063, under proper operational application subject in all instances to the rules and regulations of the Commission governing such interchange between carriers, and privileges, responsibilities, and obligations upon the parties and in the same manner as is presently available to any motor common carrier, joining with one or more similar carriers in establishing joint through rates and services as permitted by Section 216 of the Interstate Commerce Act.

Such interchange may then be conducted in a practical manner, at such interchange points as are common to the authorities of Dial and Reisch at which proper facilities are available for that purpose, subject to divisions of revenue, trailer interchange arrangements available to the parties in full compliance with Ex Parte M.C. 43 leasing regulations, and all other arrangements which may properly be instituted between such parties and no more. The authorities of Dial and Reisch indicate frequent opportunities for interchange of traffic to or from points authorized for service to one or the other, via applicable gateways at which Dial or Reisch are presently authorized to operate, so as to obtain the maximum benefits for themselves and for the public, or the use of all of the authority of either carrier to facilitate through movement and joint rates, between points served by Dial on the one hand and by Reisch on the other. Any interested person desiring to participate may file an original and six copies of his written representations, views, or arguments, in support of, or against the petition within 30 days from the date of this publication in the FEDERAL REGISTER.

No. MC 127721 (Notice of Filing of Petition for Amendment of Permit), filed April 6, 1972. Petitioner: DEPENDABLE DELIVERY SERVICE, INC., Havertown, Pa. Petitioner's representative: Edwin L. Scherlis, 1209 Lewis Tower Building, Philadelphia, Pa. 19102. Petitioner states it holds authority in No. MC 127721 authorizing operations as a contract carrier by motor vehicle, as follows: "Such merchandise as is ordinarily dealt in by retail stores and mail-order houses, between Philadelphia and King of Prussia, Pa., and Audubon, N.J., on the one hand, and, on the other, points in New Castle County, Del., Atlantic, Burlington, Camden, Cape May, Cumberland, Gloucester, Mercer, Middlesex, Monmouth, Ocean, and Salem Counties, N.J., and Berks, Bucks, Chester, Delaware, Lehigh, Montgomery, and Philadelphia Counties, Pa. Restriction: The service authorized herein is subject to the following conditions: The authority granted herein is restricted against the transportation of any parcels, packages, or articles weighing in the aggregate more than 500 pounds from one consignor at any one location to one consignee at any one location on any one day. The operations authorzied herein are limited to a transportation service to be performed, under a continuing contract, or contract, with J. C. Penney Co., Inc., of New York, N.Y., and W. & J. Sloane, Inc., of New York, N.Y." By the instant petition, petitioner seeks to add the name of Bloomingdales, 60th Street and Lexington Avenue, New York, N.Y., as an additional supporting shipper, and to perform contract carrier service for said additional shipper in the same area it now served the other two above-said shippers. The petition is accompanied by a verified statement by the additional shipper in support of the petition. Any interested person desiring to participate may file an original and six copies of his written representations, views or argument in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 43038 (Sub-No. 450), filed March 22, 1972. Applicant: COMMERCIAL CARRIERS, INC., 10701 Middlebelt Road, Romulus, MI 48174. Applicant's representatives: Bertram S. Silver,

V 37-81 APR 26 72 XUM

140 Montgomery Street, San Francisco, CA 94104, and E. P. Malone, 3800 Frederica Street, Owensboro, KY 42301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vehicles, motor*, such as chassis, freight, including tractors (driving tractors for vehicles), and dump trucks; passenger, including ambulances, hearses, and buses; motorcycles and motorcycle sidecars; *vehicles, other than motor*, but for use with motor vehicles, such as, freight carts, trucks, trailers, or wagons; trailer cars, carts or coaches, passenger, house or sleeper; *cab or bodies* for vehicles above described, *mobile searchlights, mobile generators, parts, spare parts, or extra parts* of the above described vehicles when accompanying the shipment of the vehicle to which it belongs or for which it is intended; *auto show vehicle exhibits with exhibit equipment and accompanying advertising matter*, between points in California. NOTE: The instant application is a matter directly related to MC–F–11498 published in the FEDERAL REGISTER issue of April 5, 1972. Common control may be involved. Applicant states that the requested authority can be joined with its existing authority at common points in California, such as Los Angeles, San Francisco, Oakland, and others, but does not identify the points or territories which can be served through tacking. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

No. MC–F–11514. Authority sought for purchase by BRADLEY'S EXPRESS, INCORPORATED, 441 Ninth Avenue, New York, NY 10001, of the operating rights of CARGO DISTRIBUTION CORPORATION, 20 Enterprise Avenue, Secaucus, NJ 07094, and for acquisition by NELSON RESOURCE CORP., and in turn by WILLIAM A. NELSON, JR., both of 20 Enterprise Avenue, Secaucus, NJ 07094, of control of such rights through the purchase. Applicants' attorney: A. David Milliner, 744 Broad Street, Newark, NJ 07102. Operating rights sought to be transferred: *General commodities*, with exceptions, as a *common carrier* over irregular routes, between New York, N.Y., on the one hand, and, on the other, a defined area in New Jersey, New York, and Connecticut, between points in Hudson County, N.J., on the one hand, and, on the other, a defined area in New Jersey and New York, from points in Nassau County, N.Y., to points in Suffolk County, N.Y., with restriction. Vendee is authorized to operate as a *common carrier* in Connecticut, Massachusetts, New Jersey, New York, and Rhode Island. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11515. Authority sought to purchase by BOWMAN TRANSPORTATION, INC., Post Office Box 2188, Gadsden, AL 35903, of a portion of the operating rights of SUPERIOR MOTOR EXPRESS, INC., Post Office Box 98, Gold Hill, NC 28071, and for acquisition by RALPH M. BOWMAN, 2161 Moreland Avenue SE., Atlanta, GA 30316, of control of such rights through the purchase. Applicants' attorneys: Charles Ephraim, 1250 Connecticut Avenue NW., Washington, DC 20036, and Francis J. Ortman, 1100 17th Street NW., Washington, DC 20036. Operating rights sought to be transferred: *General commodities*, except those requiring special equipment, and those of unusual value, and cement, as a *common carrier* over irregular routes, between points in a defined area of North Carolina, with restriction. Vendee is authorized to operate as a *common carrier* in Georgia, South Carolina, North Carolina, Maryland, Alabama, Florida, Tennessee, Illinois, Indiana, Ohio, Mississippi, Arkansas, Kentucky, Louisiana, Virginia, West Virginia, Michigan, Missouri, Delaware, District of Columbia, New York, Connecticut, New Jersey, Iowa, Kansas, Maine, Massachusetts, Minnesota, Nebraska, New Hampshire, North Dakota, Pennsylvania, Rhode Island, South Dakota, Vermont, Wisconsin, and Oklahoma. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11516. Authority sought for control by JONES TRUCK LINES, INC., 610 East Emma Avenue, Springdale, AR 72764, of NEYLON FREIGHT LINES, INC., 541 South First Street, Lincoln, NE 68508, and for acquisition by HARVEY JONES, also of Springdale, Ark. 72764, of control of NEYLON FREIGHT LINES, INC., through the acquisition by JONES TRUCK LINES, INC. Applicants' attorneys: James B. Blair, 111 Holcomb Street, Springdale, Ark. 72764, and Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Operating rights sought to be controlled: *General commodities*, with exceptions, as a *common carrier*, over regular routes, between Omaha, and Liberty, Nebr., between Washington, Kans., and Kansas City, Mo. between Washington, Kans., and Omaha, Nebr., between Belleville, and Oberlin, Kans., between Republic, Kans., and Kansas City, Mo., from Kansas City, Mo., to Haddam, Kans., between Morrowville, Kans., and Kansas City, Mo., serving various intermediate and off-route points, the intermediate and off-route points restricted in some instances as to the commodities moving to and from such points; *livestock and eggs*, from Haddam, Kans., to Kansas City, Mo., serving intermediate and off-route points within 15 miles of Haddam, Kans., and the off-route point of Belleville, Kans., restricted to pickup only; the intermediate point of Kansas City, Kans., restricted to delivery of livestock only; and the off-route point of North Kansas City, Mo., without restriction; *household goods*, as defined by the Commission, from Kansas City, Mo., to Belleville, Kans., serving intermediate and off-route points within 15 miles of Belleville, restricted to delivery only;

Livestock, hardware, furniture, and iron and steel, between Morrowville, Kans., and Omaha, Nebr., serving the intermediate point of Lincoln, Nebr., and intermediate and off-route points in Kansas and Nebraska within 15 miles of Morrowville; *livestock*, between Morrowville, Kans., and Grand Island, Nebr., serving intermediate and off-route points in Kansas and Nebraska within 15 miles of Morrowville, between Republic, Kans., and Omaha, Nebr., serving intermediate and off-route points within 25 miles of Republic, from Superior, Nebr., to Wichita, Kans., serving the intermediate point of Chester, Nebr.; *oil and grease*, from Belleville, Kans., to Haldrege, Nebr.; serving the intermediate points of Clay Center and Hastings, Nebr., for delivery only; *general commodities*, excepting among others, household goods and commodities in bulk, over irregular routes, between all points in the State of Nebraska, with restriction. JONES TRUCK LINES, INC., is authorized to operate as a *common carrier* in Florida, Georgia, Massachusetts, New York, North Carolina, Pennsylvania, South Carolina, Virginia, West Virginia, Arizona, California, Idaho, Nevada, Oregon, Missouri, Arkansas, Oklahoma, Kansas, Tennessee, Texas, Mississippi, Illinois, Nebraska, Indiana, Iowa, Louisiana, Alabama, Ohio, Kentucky, Michigan, Wisconsin, Maryland, New Jersey, Colorado, Minnesota, North Dakota, South Dakota, New Mexico, Connecticut, Delaware, Utah, Washington, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11517. Authority sought for purchase by ALL-AMERICAN TRANSPORT, INC., 1500 Industrial Avenue, Sioux Falls, SD 57101, of a portion of the operating rights of CRAWFORD FREIGHT LINES, INC., Aberdeen, S. Dak. 57401, and for acquisition by BUFFALO EXPRESS, INC., and in turn by H. LAUREN LEWIS, both of Sioux Falls, S. Dak. 57101, of control of such rights through the purchase. Applicants' attorney and representative: Carl Steiner, 39 South La Salle Street, Chicago, IL 60603, and H. Lauren Lewis, Post Office Box 769, Sioux Falls, SD 57101. Operating rights sought to be transferred: *General commodities*, excepting those among others, classes A and B explosives, household goods and commodities in bulk, as a *common carrier* over regular routes, between Ellendale and Mandan, N. Dak., serving certain specified intermediate and off-route points in North Dakota, between Ellendale and La Moure, N. Dak., serving all intermediate points; and the off-route point of Edgeley, N. Dak., between the North Dakota-South Dakota State line approximately 6 miles south of Ashley, N. Dak., and the North Dakota-South Dakota State line approximately 5 miles southwest of Venturia, N. Dak., serving all intermediate points, between Aberdeen, S. Dak., and Ellendale, N. Dak., serving no intermediate points, with restriction. Vendee is authorized to operate as a *common carrier* in Minnesota, South Dakota, Iowa, Nebraska, Illinois, Indiana, North Dakota, Wisconsin, Kentucky, Michigan, Ohio, Kansas, and Missouri. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11518. Authority sought for purchase by LAWRENCE-MAYFLOWER MOVING & STORAGE CO., 20th and Jay Streets, Post Office Box 1194, Sacramento, CA 95806, of the operating rights of CAMELOT VAN & STORAGE CO. (EDWARD M. WALSH, Trustee in Bankruptcy), 126 Hyde Street, San Francisco, CA 94102, and for acquisition by DAVID MACAULAY, also of Sacramento, Calif. 95806, of control of such rights through the purchase. Applicants' attorney: W. S. Pilling, 100 Bush Street, San Francisco, CA 94104. Operating rights sought to be transferred: *Used household goods*, as a *common carrier*, over irregular routes, between points in a defined area of California, with restriction. Vendee is authorized to operate as a *common carrier* in California. Application has been filed for temporary authority under section 210a(b).

No. MC–F–11519. Authority sought for purchase by DEWEY FREIGHT SYSTEM, INC., 7722 West 94th Terrace, Overland Park, KS 66212, of a portion of the operating rights of APPLE LINES, INC., Post Office Box 507, Madison, SD 57042, and for acquisition by WILLIAM R. DEWEY, also of Overland Park, Kans. 66212, of control of such rights through the purchase. Applicants' attorney: Robert D. Gisvold, 1000 First National Bank Building, Minneapolis, Minn. 55402. Operating rights sought to be transferred: *Malt beverages*, as a *common carrier*, over irregular routes, from New Athens, Ill., and St. Louis, Mo., to Colby, Kans., and points in that part of Kansas east of U.S. Highway 83, not including points in Cherokee, Crawford, Labette, and Montgomery Counties, Kans. Vendee is authorized to operate as a *common carrier* in Illinois, Kansas, and Missouri. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11520. Authority sought for purchase by CARDINAL FREIGHTWAYS, 3308 Bandini Boulevard, Los Angeles, CA 90023, of the operating rights of CITY TRANSFER COMPANY, 3002 East Illini, Phoenix, AZ 85040, and for acquisition by AJO TRUCKING CORPORATION, 1825 South Black Canyon Highway, Phoenix, AZ 85009, and in turn by CHESTER W. L'ECLUSE, 3308 Bandini Boulevard, Los Angeles, CA 90023, ROBERT MILLER and ROSEMARY GOOD, both of 3030 East Vernon Avenue, Vernon, CA 90058, of control of such rights through the purchase. Applicants' attorney: Warren N. Grossman, 825 City National Bank Building, 606 South Olive Street, Los Angeles, CA 90014. Operating rights sought to be transferred: *General commodities*, excepting among others, classes A and B explosives, household goods, and commodities in bulk, as a *common carrier* over irregular routes, between points in Maricopa, Pinal, and Pima Counties, Ariz. (except Tucson, Ariz., and points in its commercial zone as defined by the Commission); *fertilizer and insecticides*, between points in Arizona; *fiberboard containers*, from Glendale, Ariz., to a defined area of California, Colorado, New Mexico, and Texas; fiberboard, from El Paso, Tex., to Glendale, Ariz.; *fire extinguishing compounds* in *bags*, from Phoenix, Ariz., to points in New Mexico. Vendee holds no authority from this Commission. However, it is affiliated with DUQAL, LTD., 3308 Bandini Boulevard, Los Angeles, CA 90023, which is authorized to operate as a *common carrier* in Arizona and California. Application has not been filed for temporary authority under section 210a(b).

No. MC–F–11521. Authority sought for control and merger by YELLOW FREIGHT SYSTEM, INC., 92d Street, at State Line Road, Kansas City, MO 64114, of the operating rights and property of CENTRAL MOTOR EXPRESS, INC., 2909 South Hickory Street, Chattanooga, TN 37407, and for acquisition by GEORGE E. POWELL, 801 West 64th Terrace, Kansas City, MO 64113, and GEORGE E. POWELL, JR., 1040 West 57th Street, Kansas City, MO 64113 of control of such rights and property through the transaction. Applicants' attorneys: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603, and Blaine Buchanan, 1024 James Building, Chattanooga, Tenn. 37402. Operating rights sought to be controlled and merged: *General commodities*, with certain specified exceptions, and numerous other specified commodities, as a *common carrier*, over regular and irregular routes, from, to, and between specified points in the States of Tennessee, Alabama, and Georgia, with certain restrictions, serving various intermediate and off-route points, over one alternate route for operating convenience only, as more specifically described in Docket No. MC–68078 and Subnumbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. YELLOW FREIGHT SYSTEM, INC., is authorized to operate as a *common carrier* in Illinois, Kansas, Oklahoma, Texas, Missouri, Indiana, Kentucky, Michigan, Ohio, Minnesota, Iowa, Nebraska, Colorado, Arizona, California, New Mexico, Georgia, Tennessee, South Carolina, Wyoming, South Dakota, Utah, Wisconsin, Pennsylvania, Maryland, Virginia, Alabama, New Jersey, Arkansas, Delaware, New York, Massachusetts, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

By the Commission.

NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

APRIL 21, 1972.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

No. MC–4941 (Sub-No. 4) (Deviation No. 3), QUINN FREIGHT LINES, INC., 1093 North Montello Street, Brockton, MA 02403, filed March 24, 1972, amended April 14, 1972. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follows: (1) From Brockton, Mass., over Massachusetts Highway 24 to junction Massachusetts Highway 128, thence over Massachusetts Highway 128 to junction Interstate Highway 95, thence over Interstate Highway 95 to New York, N.Y.; (2) from Perryopolis, Pa., over Pennsylvania Highway 51 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Interstate Highway 76 (Pennsylvania Turnpike), thence over Interstate Highway 76 to junction U.S. Highway 11, thence over U.S. Highway 11 to junction Interstate Highway 83, thence over Interstate Highway 83 to junction Interstate Highway 81, thence over Interstate Highway 81 to junction Interstate Highway 78, thence over Interstate Highway 78 to junction New Jersey Highway 57, thence over New Jersey Highway 57 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Interstate Highway 95, at New York, N.Y.; and (3) from Perryopolis, Pa., over Pennsylvania Highway 51 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Interstate Highway 76 (Pennsylvania Turnpike), thence over Interstate Highway 76 to junction Interstate Highway 276 (Pennsylvania Turnpike), thence over Interstate Highway 276 to junction New

V 37 81 APR 26 72 XUM

Jersey Turnpike, thence over the New Jersey Turnpike to New York, N.Y., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities, over pertinent service routes as follows: (1) From Boston, Mass., over Massachusetts Highway 9 to junction U.S. Highway 20, thence over U.S. Highway 20 to Springfield, Mass., thence over U.S. Highway 5 to junction Alternate U.S. Highway 5 at a point approximately 3 miles north of Meriden, Conn., thence over Alternate U.S. Highway 5 to junction U.S. Highway 5, thence over U.S. Highway 5 to North Haven, Conn., thence over Alternate U.S. Highway 5 to New Haven, Conn., thence over U.S. Highway 1 to New York, N.Y.; (2) from Boston, Mass., over U.S. Highway 1 to Providence, R.I., thence over Rhode Island Highway 3 to Westerly, R.I., thence over U.S. Highway 1 to New Haven, Conn., thence over the route specified in (1) above to New York, N.Y.; (3) from Brockton, Mass., over Massachusetts Highway 123 to junction U.S. Highway 1; and (4) from Pittsburgh, Pa., and points in Pennsylvania within 45 miles thereof, over U.S. Highway 22 to junction U.S. Highway 1, thence over U.S. Highway 1 to New York, N.Y., and return over the same routes.

By the Commission.

(Revised as of January 1, 1972)

Title 12—Banks and Banking (Parts 1–299)..... $3.00

Title 39—Postal Service..... 2.00

[A Cumulative checklist of CFR issuances for 1972 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 / Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER E—REGULATIONS UNDER SPECIFIC ACTS OF CONGRESS OTHER THAN THE FEDERAL FOOD, DRUG, AND COSMETIC ACT

PART 295—REGULATIONS UNDER THE POISON PREVENTION PACKAGING ACT OF 1970

Child Protection Packaging Standards for Preparations Subject to the Comprehensive Drug Abuse Prevention and Control Act of 1970

In the FEDERAL REGISTER of October 15, 1971 (36 F.R. 20046), the Commissioner of Food and Drugs proposed child protection packaging standards for substances subject to the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Public Law 91–513; 84 Stat. 1236 et seq.; 21 U.S.C. 801 et seq.). The 30-day period allowed for comments thereon was extended to January 19, 1972, by subsequent notices (36 F.R. 21832, 25235).

Thirteen comments were received in response. The principal points raised and the Commissioner's conclusions are as follows:

A. *Support with suggestions.* 1. A consumer interest group supports the proposal but recommends adoption of a broader regulation to require child protection packaging for all potentially toxic prescription and nonprescription drugs. Such an approach is presently being considered and will be the subject of future proposals.

2. The American Academy of Pediatrics supports the proposal but recommends that it include a statement of the intent of the Poison Prevention Packaging Act of 1970 regarding the noncomplying package exemption for prescribed drugs. The Commissioner concludes that this is unnecessary because section 4(b) of the act clearly indicates that prescribed drugs requiring special packaging can be dispensed in noncomplying packages only by order of a medical practitioner licensed to prescribe or upon request by the purchaser.

B. *Effectiveness specifications.* A packaging development firm suggests that child-resistant effectiveness greater than 85–90 percent and approaching 100 percent be required to prevent a child from obtaining a toxic or harmful amount of contents. The firm objects to packaging being called "special packaging" on the basis solely of closures which if opened by a child allow access to the entire contents of the package. The Commissioner concludes that to require 100 percent child resistance is prohibited by section 2(4) of the act. If experience with special packaging demonstrates a need for changing the effectiveness specifications, such changes may be made if the resulting special packaging is technically feasible, practicable, and appropriate. Although § 295.10 *Testing procedure for special packaging* (21 CFR 295.10; 36 F.R. 22151, 37 F.R. 741) provides for testing special packaging of unit package type, section 3(d) of the act expressly prohibits prescribing specific packaging designs in establishing special packaging standards.

C. *Noncomplying package.* A State pharmaceutical association objects to the requirement that a pharmacist must dispense prescribed drugs in special packaging unless otherwise directed by the prescribing licensed practitioner or upon request of the purchaser. The association suggests that a prescribed drug be dispensed in a noncomplying package at the discretion of the pharmacist as well as under the above two conditions (stated in section 4(b) of the act) because older citizens are unable to use the special packaging. The Commissioner concludes that section 4(b) of the act provides the only conditions by which prescribed drugs can be dispensed in noncomplying packages and that there is no statutory authority to permit a pharmacist to dispense prescribed drugs in noncomplying packages at his discretion.

D. *Applicability.* 1. A pharmaceutical trade association suggests that the standards should not apply to those drugs containing controlled substances in combination with noncontrolled substances which vitiate the potential for abuse and therefore are exempt from the Comprehensive Drug Abuse Prevention and Control Act of 1970. The Commissioner disagrees because a finding that a combination drug is exempt from that act due to vitiation of potential for abuse does not necessarily mean that the drug is not potentially injurious if accidentally ingested by children under 5 years of age. For example, a number of preparations exempt from control by regulations promulgated under that act contain aspirin, and the Commissioner has found that aspirin-containing preparations, a leading cause of fatalities and hospitalizations of children under 5 years of age, must be specially packaged (36 F.R. 17512). The Commissioner concludes that to protect children from serious personal injury or serious illness special packaging is required for any preparation consisting in whole or in part of any substance subject to control under the Comprehensive Drug Abuse Prevention and Control Act of 1970.

2. Three pharmaceutical manufacturers and a pharmaceutical trade association object to the statement in proposed § 295.2(a)(4) that controlled substances in dosage forms customarily consumed, used, or stored in or about the household shall be specially packaged. They contend that as written the statement could be considered to require that even bulk shipments be in special packaging if the preparations are in dosage form suitable for use in the household. In response to these comments the regulation has been changed for clarification. (See paragraph G below for further discussion of the subject of nonconsumer packages.)

3. Two pharmaceutical manufacturers recommend that the standards apply only to those controlled drugs which most readily lend themselves to child abuse or which have great inherent danger and the greatest frequency of use in and around the household where children are present. Since all drugs subject to control under the Comprehensive Drug

V 37-82 APR 27 72 XUM

Abuse Prevention and Control Act of 1970 are potentially injurious if accidentally ingested by children, the Commissioner concludes that special packaging is required for all such drugs to protect children from serious personal injury or serious illness.

E. *Technically feasible, practicable, and appropriate.* Three pharmaceutical manufacturers and one pharmaceutical trade association question the technical feasibility, practicability, and appropriateness of the proposed special packaging. Also, the trade association requests that the Commissioner publish the reasons for his finding in this matter as required by section 3(c) of the Poison Prevention Packaging Act of 1970. On the basis of reports and data from industry and other relevant information, the Commissioner finds that the special packaging required herein is:

1. Technically feasible because technology exists to produce special packaging conforming to these standards. At least 15 different special packages have been tested in accordance with § 295.10 that meet or exceed the child-resistant effectiveness and adult-use effectiveness specifications in § 295.3(b).

2. Practicable in that it is susceptible to modern mass production and assembly line techniques. Reported production data indicate a capability adequate to meet the needs of affected industries.

3. Appropriate since the special packaging is not detrimental to the integrity of the subject substances and will not interfere with their storage or use.

No comments were received concerning the finding made by the Commissioner pursuant to section 3(a)(1) of the act, and the finding is hereby confirmed.

F. *Sample packages.* A pharmaceutical manufacturer and a pharmaceutical trade association object to proposed § 295.2(b) which would require the submission of sample packages. The manufacturer objects that it will require an inordinate number of packages from any one manufacturer, and the association objects that the act does not specifically provide for submission of samples. The Commissioner concludes that this requirement is necessary to accomplish the purposes of the act and will assist in determining whether a substance offered by a manufacturer or packer in a noncomplying package is also being supplied by such manufacturer or packer in popular size packages complying with the standards. Section 295.2(b), which was promulgated in the final order for special packaging of aspirin preparations (Feb. 16, 1972; 37 F.R. 3427), was modified to reduce the number of packages that must be submitted by each manufacturer or packer.

G. *Nonconsumer packages.* Seven pharmaceutical manufacturers and a pharmaceutical trade association variously request that the standards not apply to bulk shipments of pharmaceuticals, to packages of prescription drugs larger than the normal prescription size, to unit packaged drugs for institutional use and those distributed as physicians samples, and to drugs being investigated in outpatient clinical trials, and that the standards establish pharmacists' responsibility for distributing prescription drugs in special packaging. The Commissioner concludes that the person who places a household substance subject to these standards into a container or package must determine if that container is in fact a package in which the substance may be delivered to the consumer for use or storage in the household. If it is not, these standards do not apply. The responsibility, however, for repackaging prescribed drugs in accordance with these standards rests with the individual dispensing such substances at the retail or user level.

H. *Supplemental new-drug applications.* Approved new-drug applications (NDA's) are in effect for some controlled drugs that are subject to the new-drug provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 355) and the regulations thereunder (21 CFR Part 130). A pharmaceutical manufacturer and a trade association request that provision be made for manufacturers or packers of these drugs to implement use of special packaging complying with the standards prior to receiving approval of supplemental new-drug applications submitted to provide for such packaging changes. Since packaging changes may be significant variations in the approved NDA, the Commissioner concludes that implementation of special packaging prior to approval of a supplemental NDA is not appropriate. However, the processing of such applications will be expedited by FDA to facilitate implementation of the child protection packaging standards.

I. *Conflicting requirements.* A pharmaceutical manufacturer comments that the proposed standards are incompatible with various sealing techniques employed to comply with the requirement of the Comprehensive Drug Abuse Prevention and Control Act of 1970 that containers of certain controlled substances be securely sealed (21 U.S.C. 825(d), 21 CFR 302.07). The manufacturer requests that a determination be made as to which requirement takes precedence at the pharmaceutical manufacturer's level. The Commissioner, after consultation with the Bureau of Narcotics and Dangerous Drugs, concludes that the above-named act does not preclude a pharmaceutical manufacturer from changing sealing techniques to be adaptable to special packaging which will be required by these standards and that compliance with both statutes is required.

J. *Effective date.* Three pharmaceutical manufacturers and one pharmaceutical trade association express concern over the effective date of the proposed standards in light of the length of time required to obtain suitable special packaging, to conduct stability and compatibility tests, and to modify production lines to utilize the special packaging. One manufacturer requests an effective date of at least 9 months after publication of this order in the FEDERAL REGISTER. Another manufacturer and the trade association request an effective date of 1 year after publication. The trade association also states that compliance with the proposed standards within 1 year will be impossible for some of the products involved and requests procedure for deferring application of the standards to such products. The Commissioner concludes that a period of 180 days is a necessary, reasonable, and sufficient time to allow affected persons to achieve full compliance with these standards. A sufficient amount of special packaging for controlled drugs is not presently available to permit an effective date of less than 180 days.

K. *Exemptions.* A pharmaceutical trade association and a pharmaceutical manufacturer recommend that dosage forms or packages that are not involved in child poisonings be exempted from these standards by a general regulation. Specifically, they name vials, disposable syringes, aerosols, ointments, ampoules, powders, and suppositories. The legislative history of the Poison Prevention Packaging Act of 1970 indicates that exemptions from special packaging standards may be granted, and the preamble to the document promulgating § 295.10 (published Nov. 20, 1971; 36 F.R. 22151) indicates that the Commissioner is prepared to grant individual exemptions. A request for exemption must be directed in writing to the Commissioner, Food and Drug Administration, 5600 Fishers Lane, Rockville, Md. 20852, and must furnish reasonable grounds therefor, including, but not limited to, available human experience data, relevant experimental data, toxicity information, product and packaging specifications, labeling, marketing history, and the justification for the exemption. If the request furnishes reasonable grounds therefor, the Commissioner will publish in the FEDERAL REGISTER a proposal to amend the standards. Following such publication the proceedings shall be the same as prescribed by section 5 of the act.

Therefore, having considered the comments received and other relevant material, the Commissioner concludes that the proposal, with changes, should be adopted as set forth below. Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–72; 15 U.S.C. 1471–74) and under authority delegated to the Commissioner (21 CFR 2.120), a new subparagraph (4) is added to § 295.2(a) as follows (§§ 295.2 and 295.3 were promulgated in the FEDERAL REGISTER of Feb. 16, 1972; 37 F.R. 3427):

§ 295.2 Substances requiring "special packaging."

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

• • • • •

(4) *Controlled drugs.* Any preparation consisting in whole or in part of any substance subject to control under the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 801 et. seq.) shall be packaged in accordance with the provisions of § 295.3 (a), (b), and (c).

• • • • •

Effective date. This order shall become effective 180 days after its date of publication in the FEDERAL REGISTER.

(Secs. 2(4), 3, 5, 84 Stat. 1670–72; 15 U.S.C. 1471–74)

Dated: April 21, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 81—INSPECTION OF POULTRY AND POULTRY PRODUCTS

Introduction of Oil and Water Base Solutions

On November 19, 1971, there was published in the FEDERAL REGISTER (36 F.R. 22053) an amendment to the regulations governing the inspection of poultry and poultry products (7 CFR Part 81) pertaining to the preparation and labeling of certain raw poultry products that are processed with solutions. The amendment was based on information and data submitted by interested persons in response to the notice of proposed rulemaking published in the FEDERAL REGISTER on October 8, 1970 (35 F.R. 15817), and other available information. The amendment provides for the introduction of 3 percent of a specified solution for basting or other product improvement purposes in the thick muscles (breast and legs) of ready-to-cook whole poultry carcasses, separate poultry parts therefrom and poultry roasts, including chunked and formed products.

On the basis of the comments, opinions and views submitted in response to the October 8, 1970, notice, it did not appear that further public rulemaking procedure on the amendment would make additional information available to the Department. Accordingly, it was determined that further proceedings were impracticable and unnecessary, and the amendment was made effective 90 days after publication in the November 19, 1971, FEDERAL REGISTER.

However, comments received by the Department since said amendment of the regulations was published indicate that further study should be directed to the circumstances associated with raw poultry roasts and especially to such items that are processed with solutions. It appears from the comments that some persons did not previously supply significant information and data that they have and which is related to the ready-to-cook poultry roasts made with and without solutions. Such comments indicate that the requirements with respect to poultry roasts could prevent the production of poultry roasts since the prescribed liquid addition rate may be inadequate for the satisfactory production of the roasts.

Under the circumstances, the Department considers it necessary that opportunities be provided for the submission and review of such pertinent information and that, in the interim, the regulations be amended to delete poultry roasts, including chunked and formed products, from the requirements of § 81.134(c)(7).

Therefore, § 81.134(c)(7)(i) is amended to read:

§ 81.134 Product specifications for labeling purposes.

• • • • •

(c) • • •

(7) Ready-to-cook poultry products to which solutions are added.

(i) Butter alone, or solutions of poultry broth, poultry stock, water, or edible fats, or mixtures thereof, in which are included functional substances such as spices, flavor enhancers, emulsifiers, phosphates, coloring materials, or other substances, approved by the Administrator in specific cases, may be introduced by injection into the thick muscles (breast and legs) of ready-to-cook poultry carcasses and may be introduced by injection or marinating into any separate bone-in part therefrom for the purpose of providing a basting medium or similar function. The ingredients of the added materials and the manner of addition to the products must be found acceptable by the Administrator in all cases. The introduction of the added materials shall increase the weight of the processed product by approximately 3 percent over the weight of the raw product after washing and chilling in compliance with § 81.50. The weight of the added materials introduced into the poultry products as provided in this subparagraph shall be included as part of the weight of the poultry for purposes of the net weight labeling provisions in § 81.130(a)(3).

• • • • •

(Sec. 8(b), 82 Stat. 799, 21 U.S.C. 457; sec. 14, 71 Stat. 447, as amended, 21 U.S.C. 463; 37 FR. 6327)

The comments received indicate sufficient reason why requirements with respect to introduction of solutions into ready-to-cook poultry roasts should be further reviewed to make certain they are properly prepared and labeled. To insure a minimum of processing disruptions during the period required for a thorough review and so poultry roast products with familiar characteristics are available to consumers, the amendment described above should be implemented at the earliest date. Therefore, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and public procedure on this amendment is impracticable and good cause is found for making the amendment effective less than 30 days after its publication in the FEDERAL REGISTER.

Effective date. The foregoing amendment shall become effective upon publication hereof in the FEDERAL REGISTER (4-27-72).

Done at Washington, D.C., on April 17, 1972.

RICHARD E. LYNG,
Assistant Secretary.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Navel Orange Reg. 266]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 907.566 Navel Orange Regulation 266.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period

V 37-82 APR 27 72 XUM

specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 25, 1972.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period April 28, 1972, through May 4, 1972, are hereby fixed as follows:

(i) District 1: 924,000 cartons.

(ii) District 2: 176,000 cartons.

(iii) District 3: Unlimited.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 26, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72–6558 Filed 4–26–72;11:20 am]

[Valencia Orange Reg. 389]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

§ 908.689 Valencia Orange Regulation 389.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 25, 1972.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period April 28, 1972, through May 4, 1972, are hereby fixed as follows:

(i) District 1: 22,451 cartons;

(ii) District 2: 77,578 cartons;

(iii) District 3: 200,000 cartons.

(2) As used in this section, "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 26, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 50—WILDLIFE AND FISHERIES

Chapter I—Bureau of Sport Fisheries and Wildlife, Fish and Wildlife Service, Department of the Interior

PART 28—PUBLIC ACCESS, USE, AND RECREATION

Montezuma National Wildlife Refuge, N.Y.

The following special regulation is issued and is effective on date of publication in the FEDERAL REGISTER (4–27–72).

§ 28.28 Special regulations, public access, use, and recreation, for individual wildlife refuge areas.

NEW YORK

MONTEZUMA NATIONAL WILDLIFE REFUGE

Travel by motor vehicle or on foot is permitted on designated travel routes for the purpose of nature study, photography, and sightseeing during daylight hours. Pets are allowed if on a leash not over 10 feet in length. Picnicking is permitted in designated areas where facilities are provided. Fishing and hunting under special regulations may be permitted on parts of the refuge.

The refuge area, comprising 6,344 acres, is delineated on maps available at refuge headquarters and from the Regional Director, Bureau of Sport Fisheries and Wildlife, Post Office and Courthouse, Boston, Mass. 02109.

The provisions of this special regulation supplement, the regulations which govern recreation on wildlife refuge areas generally, which are set forth in Title 50, Code of Federal Regulations, Part 28, and are effective through December 31, 1972.

RICHARD E. GRIFFITH,
Regional Director, Bureau of Sport Fisheries and Wildlife.

APRIL 20, 1972.

[FR Doc.72–6412 Filed 4–26–72;8:48 am]

Title 12—BANKS AND BANKING

Chapter V—Federal Home Loan Bank Board

SUBCHAPTER B—FEDERAL HOME LOAN BANK SYSTEM

[No. 72–476]

PART 528—NONDISCRIMINATION REQUIREMENTS

APRIL 21, 1972.

Resolved that, notice and public procedure having been afforded (37 F.R. 811) and all relevant material presented or available having been considered by it, the Federal Home Loan Bank Board, upon the basis of such consideration, determines to amend Subchapter B of Chapter V of Title 12, CFR, for the purpose of prohibiting discrimination by member institutions in their lending and employment practices and in their advertising and requiring that such institutions display an Equal Housing Lender Poster. Accordingly, the Federal Home Loan Bank Board hereby amends said Subchapter B by adding thereto a new Part 528 to read as follows, effective May 1, 1972:

Sec.

528.1 Definitions.
528.2 Nondiscrimination in lending and other services.
528.3 Nondiscrimination in applications.
528.4 Nondiscriminatory advertising.
528.5 Equal Housing Lender Poster.
528.6 [Reserved].
528.7 Nondiscrimination in employment.
528.8 Complaints.

AUTHORITY: The provisions of this Part 528 issued under title VIII, Public Law 90–284, 82 Stat. 81, 42 U.S.C. 3601–3619; 18 Stat. 144, 14 Stat. 27, 42 U.S.C. 1981, 1982; E.O. 11063, 27 F.R. 11527; title VII, Public Law 88–352, 78 Stat. 253, 42 U.S.C. 2000e—2000e–15; E.O. 11246, 30 F.R. 12319; sec. 17, 47 Stat. 736, as amended, 12 U.S.C. 1437; secs. 402, 403, 407, 48 Stat. 1256, 1257, 1260, as amended; 12 U.S.C. 1725, 1726, 1730; sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071.

§ 528.1 Definitions.

As used in this Part 528—

(a) *Member institution.* The term "member institution" means any institution which is a member of a Federal Home Loan Bank, other than:

(1) A savings bank whose deposits are insured by the Federal Deposit Insurance Corporation,

(2) An insurance company, or

(3) The Federal Home Loan Mortgage Corporation.

(b) *Dwelling.* The term "dwelling" means any building, structure, or portion thereof, including a mobile home, which is occupied as, or designed or intended for occupancy as a residence by one or more families, and any vacant land which is offered for sale or lease for the construction thereon of any such building, structure, or portion thereof.

§ 528.2 Nondiscrimination in lending and other services.

No member institution shall deny a loan or other service rendered by the member institution for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling, or discriminate in the fixing of the amount, interest rate, duration, application procedures, collection or enforcement procedures, or other terms or conditions of such loan or other service because of the race, color, religion, or national origin of

(a) An applicant for any such loan or any other service rendered by the member institution;

(b) Any person associated with such applicant in connection with such loan or other service or the purposes of such loan or other service;

(c) The present or prospective owners, lessees, tenants, or occupants of the dwelling or dwellings in relation to which such loan or other service is to be made or given; or

(d) The present or prospective owners, lessees, tenants, or occupants of other dwellings in the vicinity of the dwelling or dwellings in relation to which such loan or other service is to be made or given.

§ 528.3 Nondiscrimination in applications.

No member institution shall refuse or decline to allow, receive, or consider any application, request, or inquiry with respect to a loan or other service rendered by the member for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling, or discriminate in the imposition of conditions upon, or in the processing of, any such application, request, or inquiry, or make statements which discourage any such application, request, or inquiry because of the race, color, religion, or national origin of any prospective borrower or other person who

(a) Makes application for any such loan or other service;

(b) Requests forms or papers to be used to make application for any such loan or other service; or

(c) Inquires about the availability of such loan or other service.

§ 528.4 Nondiscriminatory advertising.

No member institution which directly or through third parties engages in any form of advertising shall use words, phrases, symbols, directions, forms, or models in such advertising which imply or suggest a policy of discrimination or exclusion in violation of the provisions of title VIII of the Civil Rights Act of 1968. To the extent feasible, as prescribed by the Board, advertisements other than for savings shall include a facsimile of the following logotype and legend:

EQUAL HOUSING LENDER

§ 528.5 Equal Housing Lender Poster.

(a) Each member institution shall post and maintain one or more Equal Housing Lender Posters, the text of which is prescribed in paragraph (b) of this section, in the lobby of each of its offices in a prominent place or places readily apparent to all persons seeking loans. The poster shall be at least 11 by 14 inches in size, and the text shall be easily legible. It is recommended that member institutions post a Spanish language version of the poster in offices serving areas with a substantial Spanish-speaking population.

(b) The text of the Equal Housing Lender Poster shall be as follows:

WE DO BUSINESS IN ACCORDANCE WITH THE FEDERAL "FAIR HOUSING LAW"

IT IS ILLEGAL, because of race, color, religion, or national origin, to:

Deny a loan for the purpose of purchasing, constructing, improving, repairing, or maintaining a dwelling

or

Discriminate in fixing of the amount, interest rate, duration, application procedures or other terms or conditions of such a loan.

If you believe you have been discriminated against, you may discuss the matter with the management of this institution or send a complaint to:

Assistant Secretary for Equal Opportunity, Department of Housing and Urban Development, Washington, D.C. 20410.

or call your local HUD or FHA office.

§ 528.6 [Reserved]

§ 528.7 Nondiscrimination in employment.

(a) No member institution shall, because of an individual's race, color, religion, sex, or national origin:

(1) Fail or refuse to hire such individual;

(2) Discharge such individual;

(3) Otherwise discriminate against such individual with respect to such individual's compensation, promotion, or the terms, conditions, or privileges of such individual's employment; or

(4) Discriminate in admission to, or employment in, any program of apprenticeship, training, or retraining, including on-the-job training.

(b) No member institution shall limit, segregate, or classify its employees in any way which would deprive or tend to deprive any individual of employment opportunities or otherwise adversely affect such individual's status as an employee because of such individual's race, color, religion, sex, or national origin.

(c) No member institution shall discriminate against any employee or applicant for employment because such employee or applicant has opposed any employment practice made unlawful by Federal, State, or local law or regulation or because he has in good faith made a charge of such practice or testified, assisted, or participated in any manner in an investigation, proceeding, or hearing of such practice by any lawfully constituted authority.

(d) No member institution shall print or publish or cause to be printed or published any notice or advertisement relating to employment by such member institution indicating any preference, limitation, specification, or discrimination based on race, color, religion, sex, or national origin.

(e) This regulation shall not apply in any case in which the Federal Equal Employment Opportunities law is made inapplicable by the provisions of section 2000e–1 or sections 2000e–2 (e) through (j) of title 42, United States Code.

(f) Any violation of the Department of the Treasury regulations, 41 CFR, Subpart 10–12.8—Equal Opportunity in Employment, as amended from time to time, by a member institution subject to such regulations shall be deemed to be a violation of this Part 528.

§ 528.8 Complaints.

Complaints regarding discrimination in lending by a member institution should be referred to the Assistant Secretary for Equal Opportunity, U.S. Department of Housing and Urban Development, Washington, D.C. 20410. Complaints regarding discrimination in employment by a member institution should be referred to the Equal Employment Opportunity Commission, Washington, D.C. 20506.

V 37-82 APR 27 72 XUM

Resolved further that, since the above amendment must be effective by May 1, 1972, in order to effectuate a waiver granted by the Assistant Secretary for Equal Opportunity of the Department of Housing and Urban Development under 24 CFR 110.25(b) (37 F.R. 3430), publication for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of the amendment is impracticable; and the Board hereby provides that the amendment shall become effective as hereinbefore set forth.

Resolved further that the Board, in adopting the above amendment, which is only a part of the published regulatory proposal (37 F.R. 811), determined to defer final consideration of § 528.6 of said published proposal pending further staff study of comments received and consultation with the other financial regulatory agencies.

By the Federal Home Loan Bank Board.

[SEAL] EUGENE M. HERRIN,
Assistant Secretary.

Title 13—BUSINESS CREDIT AND ASSISTANCE

Chapter I—Small Business Administration

[Rev. 11, Amdt. 4]

PART 121—SMALL BUSINESS SIZE STANDARDS

Definition of Small Business for Sales of Government Property

On February 25, 1972, there was published in the FEDERAL REGISTER (37 F.R. 3993) a notice that the Administrator of the Small Business Administration proposed to amend the definition of a small business for the purpose of sales to other than manufacturers and stockpile purchasers, of Government-owned personal property. More specifically it was proposed to lower the size standard in question from $5 million in average annual receipts to $1 million in average annual receipts.

Interested parties were given 30 days in which to submit written statements of facts, opinions, and arguments concerning the proposal.

On the basis of all the information available it has been determined to adopt the proposal. Accordingly, Part 121 of Chapter I of Title 13 of the Code of Federal Regulations is hereby amended by revising § 121.3-9(a)(2) to read as follows:

§ 121.3-9 Definition of small business for sales of Government property.

* * * * *

(a) * * *

(2) Other than manufacturers. Any concern which is primarily not a manufacturer (except as specified in subparagraph (3) of this paragraph) is small if its average annual receipts for its preceding three (3) fiscal years do not exceed $1 million.

* * * * *

Effective date: This amendment shall become effective thirty days after publication in the FEDERAL REGISTER.

Dated: April 20, 1972.

THOMAS S. KLEPPE,
Administrator.

[FR Doc.72-6388 Filed 4-26-72; 8:46 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airworthiness Docket No. 72-SW-10, Amdt. 39-1437]

PART 39—AIRWORTHINESS DIRECTIVES

Bell Models 206A and 206B Helicopters

A proposal was published in 32 F.R. 4721 to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring an inspection of the reinforcing straps, P/N 206-031-200-23 and 24 for proper fit and for cracks and loose rivets and requiring an inspection of the support fittings, P/N 206-031-202-1 and 3, for cracks and loose rivets. It was also proposed to require replacement of a cracked strap, loose rivets or a cracked support fitting, and to require a 50-hour repetitive inspection for poorly fitted straps on Bell Model 206A and 206B helicopters.

Interested persons have been afforded an opportunity to participate in the making of the amendment. No comments were received. The manufacturer recently revised Service Bulletin No. 206-20 to add item 8, a procedure for replacing a cracked support fitting. It was initially proposed to require the replacement of a cracked support; however, no specific procedure was provided. Item 8 of the revised service bulletin is considered a satisfactory procedure for such replacement and is recognized as an alternate means of compliance with the applicable paragraph of the A.D. Therefore, notice and public procedure hereon of this change is considered unnecessary, and the amendment may be made effective in 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 F.R. 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BELL. Applies to Bell Models 206A and 206B helicopters, serial numbers 204, 210, 218, 221, 226, 227, 231, 236, 237, 241, 243, 246, 248, 254, 256, 257, 260, 261, 262, 267, 268, 272, 275, 278, 279, 282, 283, 288, 296, 299, 303, 345, 350, 351, 352, 358 thru 362, 368, 382 thru 395, 397 thru 497, 499 thru 654, 656 thru 689, 693, 694, 697, 698, 701, 715 thru 725, 727, 728, 730, 733, 734, 735, 738, 742, and 744, certificated in all categories.

Compliance required within 25 hours' time in service after the effective date of this A.D., unless already accomplished within the last 25 hours, and thereafter at intervals not to exceed 50 hours' time in service from the last inspection.

To detect cracks in the straps, P/N 206-031-200-23 and 24, and mating support fitting, P/N 206-031-202-1 and 3 and to determine proper fit of these straps to the support fitting and to the upper cabin roof beam, accomplish the following:

(a) Remove the interior lining at the upper cabin roof beam from station 90 to station 115 and remove any residue sealant on the straps on both sides of the roof beam bottom surface.

(b) Inspect the 10 high shear rivets, P/N NAS 1054, in each strap for looseness and inspect the remaining rivets in the strap and support fitting for looseness. If five or more high-shear rivets are loose, replace the rivets prior to next flight. If one to four high-shear rivets or other rivets in the strap or support fitting are loose, the aircraft may be flown only to a repair base in accordance with FAR 21.197 where these rivets must be replaced prior to the next flight.

(c) Inspect straps, P/N 206-031-200-23 and 24 for deformation and lateral location in accordance with items 3 and 4 of Bell Helicopter Company Service Bulletin No. 206-20 dated December 10, 1971 (hereinafter referred to as SB 206-20) or later approved revision. If the strap is deformed or mislocated in excess of that specified in items 3 or 4 of SB 206-20, the strap must be additionally inspected for cracks as specified in item 5 of SB 206-20.

(1) If both fingers on either strap are cracked, replace the strap in accordance with item 7 of SB 206-20 or later approved revision, prior to next flight.

(2) If either strap has a detectable crack, replace the strap in accordance with item 7 of SB 206-20 or later approved revision. The aircraft may be flown only to a base in accordance with FAR 21.197 where the strap must be replaced prior to the next flight.

(d) If cracks are found in the straps, inspect the left and right support fittings, P/N 206-031-202-1 and 3 for cracks in the area around the six rivets which go into the box beam and inboard radii areas just forward and aft of these rivets, using a dye penetrant or equivalent inspection method. If cracks are found in support fitting, replace the fitting and the strap in accordance with items 7 and 8 of Service Bulletin No. 206-20, Revision A, dated February 21, 1972 or later approved revision, prior to next flight.

(e) The repetitive inspections specified in this A.D. will no longer be required,

(1) If the strap is not deformed or mislocated in excess of that specified in items 3 and 4 of SB 206-20 or later approved revision, or

(2) After the strap has been replaced in accordance with item 7 of SB 206-20 or later approved revision.

(f) Equivalent means of compliance with this A.D. may be approved by the Chief, Engineering and Manufacturing Branch, Southwest Region, FAA, Post Office Box 1689, Fort Worth, TX 76101.

This amendment becomes effective May 27, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on April 17, 1972.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.72-6405 Filed 4-26-72;8:47 am]

[Airspace Docket No. 72-AL-8]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Federal Airway Segment and Reporting Point

The purpose of these amendments to Part 71 of the Federal Aviation Regulations is to realign Red 39 Federal airway segment between McGrath, Alaska, and Nenana, Alaska; and alter the Minchumina, Alaska, reporting point from compulsory to on request.

The Minchumina radio range is scheduled to be converted to a radio beacon effective June 22, 1972. Associated with this facility conversion, action is taken herein to redescribe the segment of Red 39 airway which is presently described by use of the Minchumina facility. In addition, it has been determined that the Minchumina facility is no longer required as a compulsory reporting point, but should be retained as an on-request reporting point.

Since these amendments are minor in nature and no substantive change in the regulation is effected, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

1. In § 71.107 (37 F.R. 2008) In R-39 "Minchumina, Alaska, RR;" is deleted and "Minchumina, Alaska, RBN;" is substituted therefor.

2. In § 71.211 (37 F.R. 2323) "Minchumina, Alaska, RR" is deleted.

(Sec. 307(a), of Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), of Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 20, 1972.

ROBERT S. CARNAHAN,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72-6398 Filed 4-26-72;8:47 am]

[Airspace Docket No. 71-GL-35]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On page 1408 of the FEDERAL REGISTER dated January 28, 1972, the Federal Aviation Administration published a notice of proposed rule making which would amend §§ 71.171 and 71.181 of the Federal Aviation regulations so as to alter the control zone and transition area at Hibbing, Minn.

Interested persons were given 45 days to submit written comments, suggestions or objections regarding the proposed amendments.

No objections have been received and the amendments as so proposed are hereby adopted, subject to the following change:

Line 4 of the Hibbing, Minn., transition area description recited as "tude 47°23'18" N., longitude 92°50'19" W.);" is changed to read "tude 47°23'10" N., longitude 92°50'19" W.);".

This amendment shall be effective 0901 G.m.t., June 22, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on April 6, 1972.

HAROLD W. POGGEMEYER,
Acting Director, Great Lakes Region.

In § 71.171 (37 F.R. 2056), the following control zone is amended to read:

HIBBING, MINN.

That airspace within a 5-mile radius of Chisholm-Hibbing Airport (latitude 47°23'10" N., longitude 92°50'15" W.); within 2 miles each side of the Hibbing VORTAC 313° radial extending from the 5-mile radius zone to 15 miles northwest of the VORTAC; within 1½ miles each side of the Hibbing VORTAC 313° radial extending from the 5-mile radius zone to the VORTAC.

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

HIBBING, MINN.

That airspace extending upward from 700 feet above the surface within an 11½-mile radius of the Chisholm-Hibbing Airport (latitude 47°23'10" N., longitude 92°50'19" W.); within 3 miles each side of the Hibbing VORTAC 313° radial, extending from the 11½-mile radius area to 23 miles northwest of the VORTAC; within an 11-mile radius of Eveleth-Virginia Airport (latitude 47°25'-55" N., longitude 92°30'03" W.); and within 9½ miles north and 4½ miles south of the Eveleth VOR 092° radial, extending from the 11-mile radius area to 18½ miles east of the VOR; and that airspace extending upward from 1,200 feet above the surface within a 27-mile radius of the Hibbing VORTAC, extending from the Hibbing VORTAC 196° radial clockwise to the Hibbing VORTAC 340° radial; within a 13-mile radius of Hibbing VORTAC extending from the Hibbing VORTAC 095° radial clockwise to the Hibbing VORTAC 196° radial; within 4½ miles northeast and 9½ miles southwest of the Hibbing VORTAC 313° radial, extending from the 27-mile radius area to 33½ miles northwest of the VORTAC, excluding the portion which overlies the Duluth, Minn. transition area.

[FR Doc.72-6396 Filed 4-26-72;8:47 am]

[Airspace Docket No. 72-SW-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Laredo, Tex., control zone.

On February 29, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 4218) stating the Federal Aviation Administration proposed to alter the Laredo, Tex., control zone.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

In § 71.171 (37 F.R. 2056), the Laredo, Tex., control zone is amended by deleting "to 16 miles northwest of VORTAC, within 2 miles each side of the Laredo VORTAC 149°" and substituting therefor "to 16 miles northwest of the VORTAC; within 2 miles each side of the Laredo ILS localizer northwest course extending from the ILS localizer site (latitude 27°36'12.6" N., longitude 99°35'50.2" W.) to 7 miles northwest; within 2 miles each side of the VORTAC 149°."

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655 (c))

Issued in Fort Worth, Tex., on April 18, 1972.

R. V. REYNOLDS,
Acting Director, Southwest Region.

[FR Doc.72-6395 Filed 4-26-72;8:46 am]

[Airspace Docket No. 72-EA-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On page 5256 of the FEDERAL REGISTER for March 11, 1972, the Federal Aviation Administration published proposed regulations which would alter the Martinsburg, W. Va., control zone (37 F.R. 2104).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t. June 22, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), of Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on April 14, 1972.

LOUIS J. CARDINALI,
Acting Director, Eastern Region.

1. Amend § 71.171 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Martinsburg, W. Va., control zone and insert the following in lieu thereof:

Within a 5.5-mile radius of the center 39°24'03" N., 77°59'09" W. of Martinsburg Municipal Airport, Martinsburg, W. Va.; within a 9.5-mile radius of the center of the airport, extending clockwise from a 230° bearing from the airport to a 269° bearing from the airport; within an 8-mile radius of the center of the airport, extending clockwise from a 269° bearing to a 285° bearing from the airport; within a 7-mile radius of the center of the airport, extending clockwise from a 285° bearing to a 315° bearing

V 37-82 APR 27 72 XUM

from the airport; within an 8-mile radius of the center of the airport, extending clockwise from a 315° bearing to a 003° bearing from the airport.

[Airspace Docket No. 72-EA-19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 5257 of the FEDERAL REGISTER for March 11, 1972, the Federal Aviation Administration published proposed regulations which would alter the Endicott, N.Y., transition area (37 F.R. 2188).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t., June 22, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on April 14, 1972.

LOUIS J. CARDINALI,
Acting Director, Eastern Region.

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Endicott, N.Y., 700-foot floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 10-mile radius of the center 42°04'42" N., 76°05'49" W. of Tri-Cities Airport, Endicott, N.Y.; within a 10.5-mile radius of the center of the airport, extending clockwise from a 020° bearing to a 090° bearing from the airport; within a 12-mile radius of the center of the airport, extending clockwise from a 090° bearing to a 125° bearing from the airport; within a 13-mile radius of the center of the airport, extending clockwise from a 125° bearing to a 235° bearing from the airport; within a 10.5-mile radius of the center of the airport, extending clockwise from a 235° bearing to a 263° bearing from the airport and within 3.5 miles each side of the Binghamton, N.Y., VORTAC 340° radial, extending from the 10-mile radius area to 11.5 miles north of the VORTAC.

[FR Doc.72-6397 Filed 4-26-72;8:47 am]

[Airspace Docket No. 72-SO-19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Transition Area and Alteration of Transition Area

On March 10, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 5132), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would revoke the Bartow, Fla., transition area and alter the Lakeland, Fla., transition area.

Interested persons were afforded an opportunity to participate in the rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the Bartow, Fla., transition area is revoked.

In § 71.181 (37 F.R. 2143), the Lakeland, Fla., transition area is amended to read:

LAKELAND, FLA.

That airspace extending upward from 700 feet above the surface within an 8.5-mile radius of Lakeland Municipal Airport (lat. 27°59'15" N., long. 82°00'55" W.); within 5 miles each side of Lakeland VORTAC 235° radial, extending from the 8.5-mile-radius area to 8.5 miles southwest of the VORTAC; within a 7-mile radius of Bartow Municipal Airport (Lat. 27°57'00" N., long. 81°47'00" W.); within a 5-mile radius of Plant City Municipal Airport (lat. 28°00'00" N., long. 82°09'40" W.); within a 6.5-mile radius of Gilbert Field Municipal Airport, Winter Haven, Fla. (Lat. 28°03'40" N., Long. 81° 45'15" W.); within 2.5 miles each side of Lakeland VORTAC 074° radial, extending from the 6.5-mile-radius area to the Lakeland Municipal Airport 8.5-mile-radius area.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 18, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-6401 Filed 4-26-72;8:47 am]

[Airspace Docket No. 72-SO-37]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to revoke the Marathon, Fla., transition area.

The Marathon transition area is described in § 71.181 (37 F.R. 2143). The NDB RWY 7 Instrument Approach Procedure to Marathon Flight Strip, for which the controlled airspace was designated, was canceled effective March 31, 1972. It is necessary to revoke the Marathon transition area. Since this amendment lessens the burden on the public, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the Marathon, Fla., transition area is revoked.

(Sec. 307(a), of Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on April 18, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-6400 Filed 4-26-72;8:47 am]

[Airspace Docket No. 72-WA-23]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Terminal Control Area at New York, N.Y.

The purpose of these amendments to Part 71 of the Federal Aviation Regulations is to alter the New York, N.Y., terminal control area by raising the TCA floor from 1,500 feet MSL to 1,800 feet MSL in an area northeast of Teterboro Airport, extending the helicopter route up the East River to the north end of Welfare Island, and redesignating the floor of the "B" area south of JFK Airport as "above 500 feet MSL." These changes will provide additional airspace below the TCA floor. These changes have been discussed with and concurred in by the FAA-User New York TCA Working Group.

Since these amendments restore airspace to the public use and relieve a restriction, notice and public procedure thereon are unnecessary. However, these amendments will become effective more than 30 days after publication to provide sufficient time for revisions to aeronautical charts.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

Section 71.401 (37 F.R. 2327) the New York, N.Y., terminal control area is amended as follows:

1. *Area B.* Delete the phrase "• • • upward from 500 feet MSL • • •" and substitute "• • • upward from above 500 feet MSL • • •" therefor.

2. *Area D.* a. Delete the phrase "• • • the JFK VORTAC 314° radial; • • •" and substitute "• • • the north end of Welfare Island; • • •" therefor.

b. Change "LGA VORTAC" to read "LGA VOR."

3. *Area F.* Amend to read as follows:

That airspace extending upward from 1,800 feet MSL to and including 7,000 feet MSL within an area bounded by a line beginning at the intersection of the LGA VOR 337° radial and the Erie Lackawanna Railroad tracks, thence south along the railroad tracks to the east branch of the Hackensack River, thence south and west along the river to the LGA VOR 299° radial, thence direct to the intersection of the 6-mile radius circle of LGA VOR and the LGA VOR 264° radial, thence south along the west bank of the Hudson River to its intersection with, then counterclockwise along the 6.5-mile-radius circle centered at lat. 40°41'30" N., long. 74°10'00" W., to and southwest along New Jersey Highway Route No. 22 to and clockwise along a 10-mile radius circle centered at Lat. 40°41' 30" N., long. 74°10'00" W., to LGA VOR 283° radial, thence direct to the point of beginning.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 18, 1972.

ROBERT G. CARNAHAN,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72-6399 Filed 4-26-72;8:47 am]

[Airspace Docket No. 71-AL-12]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area; Correction

On February 26, 1972, F.R. Doc. 72-2848, published in the FEDERAL REGISTER (37 F.R. 4073) described the Big Delta, Alaska, 700-foot floor transition area as an amendment to the Big Delta transition area. The transition area is newly designated airspace and should have been identified accordingly.

Since this action effects no substantive change to the rule as initially adopted, the effective date of the final rule as published may be retained.

In consideration of the foregoing, F.R. Doc. 72-2848 is corrected as hereinafter set forth:

In the text describing the Big Delta, Alaska, transition area delete "amended" and substitute "designated" therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on April 21, 1972.

JACK G. WEBB,
Director, Alaskan Region.

[FR Doc.72-6496 Filed 4-26-72;8:52 am]

[Airspace Docket No. 71-AL-13]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area; Correction

On February 26, 1972, F.R. Doc. 72-2849, published in the FEDERAL REGISTER (37 F.R. 4074) described the Nenana, Alaska, 700-foot floor transition area as an amendment to the Nenana transition area. The transition area is newly designated airspace and should have been identified accordingly.

Since this action effects no substantive change to the rule as initially adopted, the effective date of the final rule as published may be retained.

In consideration of the foregoing F.R. Doc. 72-2849 is corrected as hereinafter set forth:

In the text describing the Nenana, Alaska, transition area delete "amended" and substitute "designated" therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Anchorage, Alaska, on April 21, 1972.

JACK G. WEBB,
Director, Alaskan Region.

[FR Doc.72-6497 Filed 4-26-72;8:52 am]

[Airspace Docket No. 71-WE-58]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Redesignation of Jet Route

On December 1, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 22848) stating that the Federal Aviation Administration was considering an amendment to Part 75 of the Federal Aviation Regulations that would designate a jet route from Phoenix, Ariz., to Abilene, Tex., via Truth or Consequences, N. Mex., and Roswell, N. Mex.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

It has been determined that the portion of this proposed route from Roswell, N. Mex., to Abilene, Tex., would not be used because of the terminal procedures at Greater Southwest, Tex., and is therefore not included in this amendment. Since this change is minor in nature, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

Section 75.100 (37 F.R. 2382) is amended as follows:

Jet Route No. 65 is amended to read:

Jet Route No. 65 (Roswell, N. Mex., to Red Bluff, Calif.)

From Roswell, N. Mex., via Truth or Consequences, N. Mex.; Phoenix, Ariz.; INT Phoenix 272° and Blythe, Calif. 096° radials; Blythe; Palmdale, Calif.; INT Palmdale 291° and Bakersfield, Calif. 149° radials; Bakersfield; Fresno, Calif.; Sacramento, Calif.; to Red Bluff, Calif.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 21, 1972.

H. B. HELSTROM,
Chief, Airspace and Air Traffic Rules Division.

[FR Doc. 72-6393 Filed 4-26-72;8:46 am]

[Airspace Docket No. 72-WA-25]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Change to Area High Route Waypoint

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to make a change of the name Henly, Tex., to Hye, Tex., in area high route J971R.

A policy to eliminate the duplication of names for air navigation aids has been adopted by the Federal Aviation Administration. Therefore, action is taken herein to make this change.

Since this amendment is minor in nature and no substantive change in the regulation is effected, notice and public procedure thereon are unnecessary. However, since it is necessary that sufficient time be allowed to permit appropriate changes to be made on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., May 25, 1972, as hereinafter set forth.

Section 75.400 (37 F.R. 2400 and 2767) is amended as follows:

In J971R "Henly, Tex., 30°14'02"/ 98°26'56" Austin, Tex." is deleted "Hye, Tex., 30°14'02"/98°26'56" Austin, Tex." is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 20, 1972.

ROBERT G. CARNAHAN,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72-6391 Filed 4-26-72;8:46 am]

[Airspace Docket No. 72-WA-26]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration to Area High Routes

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to change the reference facility for the "Rosewood, Ohio," waypoint in area high route J881R. This change of reference facilities is desirable to provide improved overall signal coverage for this route and for three more routes to be designated in the future proposing to use the "Rosewood" waypoint.

Since this amendment is minor in nature with no substantive change in the regulation, notice and public procedure thereon are unnecessary. However, since sufficient time must be allowed to make appropriate changes on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

Section 75.400 (37 F.R. 2400) is amended as follows:

In J881R delete second waypoint information "Rosewood, Ohio 40°17'16" N. 84°02'36" W. Fort Wayne Ind." and substitute "Rosewood, Ohio 40°17'16" N. 84°02'36" W. Rosewood, Ohio." therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

V 37-82 APR 27 72 XUM

Issued in Washington, D.C., on April 20, 1972.

ROBERT G. CARNAHAN,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.72-6392 Filed 4-26-72;8:46 am]

[Docket No. 11891, Amdt. 807]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAP's) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAP's for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260-3, 8260-4, or 8260-5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97-696 (35 F.R. 5609).

SIAP's are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, DC 20591. Copies of SIAP's adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAP's may be purchased from the FAA Public Document Inspection Facility, HQ-405, 800 Independence Avenue SW., Washington, DC 20591, or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft, or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $125 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

Section 97.15 is amended by establishing, revising, or canceling the following VOR/DME SIAP's, effective May 25, 1972.

Washington, D.C.—Washington National Airport; VOR/DME-1, Original; Canceled.
Washington, D.C.—Washington National Airport; VOR/DME Runway 15, Original; Canceled.

2. Section 97.21 is amended by establishing, revising, or canceling the following L/MF SIAP's, effective May 25, 1972.

Kodiak, Alaska—Kodiak Airport; LFR Runway 26, Amdt. 1; Revised.

3. Section 97.23 is amended by establishing, revising, or canceling the following VOR-VOR/DME SIAP's, effective May 25, 1972.

Bennington, Vt.—Bennington State Airport; VOR-A, Amdt. 3; Revised.
Benton Harbor, Mich.—Ross Field; VOR Runway 9, Amdt. 2; Revised.
Benton Harbor, Mich.—Ross Field; VOR Runway 27, Amdt. 10; Revised.

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.660]

PART 14—EMPLOYEE-MANAGEMENT RELATIONS

On March 15, 1972, there was published in the FEDERAL REGISTER (37 F.R. 5387), a notice of proposed rule making to issue regulations establishing procedures and defining rights necessary to implement Executive Order 11636, Employee-Management Relations in the Foreign Service of the United States (36 F.R. 24901). These regulations will be added to Title 22 of the Code of Federal Regulations as Part 14.

Interested persons were invited to submit written comments, suggestions, or objections regarding the proposed regulations not later than April 14, 1972. After consideration of all such revelant matter presented, the regulations for Part 14 are hereby adopted, subject to the following changes:

1. In § 14.2 the scope is amended to conform with E.O. 11636.

2. In paragraphs (b) through (k) of § 14.3 the definitions are amended to conform with E.O. 11636.

3. Section 14.5 is amended to authorize the Board of the Foreign Service to request and use the services and assistance of other agencies.

4. Paragraph (b) of § 14.7 is deleted, the remaining paragraphs are redesignated accordingly, and a new paragraph (e) is added to state that consultations shall be in accordance with the procedures, rulings and decisions of the Commission.

V 37-82 APR 27 72 XUM

5. Section 14.8(b) is amended to authorize a grievant to request the exclusion of the organization representative from part or all of a grievance proceeding to protect the grievant's right to privacy.

6. Section 14.12(d) is amended to specify that the Secretary of State will review all final reports and forward his recommendations to the President.

7. Section 14.13(c) is amended to clarify the authority of the heads of agencies to regulate the use of the agency's facilities.

8. In paragraph (d) of § 14.13 the time for consultation is increased from forty (40) to forty-eight (48) hours with a proviso that the time limit will not apply during the first three months following recognition of an exclusive representative, and that the head of each agency may extend the permissible time in the interest of reaching agreement.

Effective date. These regulations shall become effective April 20, 1972.

WILLIAM P. ROGERS,
Secretary of State.

APRIL 20, 1972.

AUTHORITY: The provisions of this Part 14 issued under secs. 4, 11, 14, and 16, E.O. 11636, 36 F.R. 24901, Dec. 24, 1971.

§ 14.1 Purpose.

The regulations in this part contain policies and procedures to implement the employee-management relations system for the Foreign Service of the United States. Their purpose is to promote effective, equitable, and uniform implementation of the policies, rights, and responsibilities prescribed by Executive Order 11636 for the Department of State, the U.S. Information Agency, and the Agency for International Development (or its successor agency or agencies).

§ 14.2 Scope.

These regulations and Executive Order 11636 are applicable to all members of the Foreign Service and to the foreign affairs agencies: *However*, The head of a foreign affairs agency may, in his sole judgment, suspend temporarily any provision of this order with respect to any post, bureau, office, or activity in the United States or abroad, when he determines in writing in emergency situations that this is necessary in the national interest.

§ 14.3 Definitions.

As used in this part, the following definitions shall apply:

(a) "Order" means Executive Order 11636, "Employee-Management Relations in the Foreign Service of the United States" (36 F.R. 24901, December 24, 1971).

(b) "Foreign affairs agency" or "agency," "employee," "management official," "confidential employee," "agency management," "organization," "commission," "Board," "Secretary," all have the meaning set forth in section 2 of the order.

(c) "Recognized organization" means an organization with the status of exclusive representative for the employees of an agency for purposes of the order.

(d) "Head of the agency" means: (1) for the Department of State, the Secretary; (2) for the U.S. Information Agency, the Director; and (3) for the Agency for International Development, the Administrator.

(e) "Executive Secretary" means the Executive Secretary of the Board.

(f) "Eligible employee" means any employee except a management official or confidential employee.

All other terms shall have the meanings prescribed in the order or the regulations by the Commission.

§ 14.4 General policy and responsibilities.

(a) The effective participation by the men and women of the Foreign Service in the formulation of personnel policies and procedures affecting the conditions of their employment is essential to the efficient administration of the Foreign Service and to the well-being of its members. All eligible employees of the foreign affairs agencies have the right to choose whether or not they wish to be represented by an organization for purposes of this participation and which, if any, organization they wish to represent them. It is the policy of the foreign affairs agencies that, if the employees of an agency choose to be represented by an organization, in accordance with procedures established under the order, consultation and conferral between the management of the agency and that organization are essential to the efficient administration of the Foreign Service and to the well-being of its members.

(b) To effectuate this policy, each employee of the Foreign Service has the right, subject to the limitations set forth below, freely and without fear of penalty or reprisal, to form, join, and assist any organization or to refrain from any such activity, and agency management shall not discriminate against employees in their exercise of these rights.

(c) Except as limited in paragraph (d) of this section, the right to assist an organization extends to participation in the management of an organization and acting for an organization in the capacity of an organizational representative, including presentation of an organization's views to agency management, officials of any part of the executive branch, the Congress, or other appropriate authority.

(d) Nothing in this section shall authorize participation in the management of an organization or acting as a representative of an organization by a management official or a confidential employee, or by an employee when the participation would result in a conflict, or apparent conflict, of interest or otherwise be incompatible with law or with the official duties of the employee. The head of each agency, or his designee, shall provide appropriate guidance for employees in order to avoid such potential conflicts.

(e) Recognition of an organization as the exclusive representative of the employees of an agency shall not preclude informal consultations or other dealings with lawful associations (not eligible for the status of organization) regarding topics of particular interest to those lawful associations as prescribed by section 7(e) (2) and (3) of the order.

(f) Recognition shall also not preclude an employee, or a group of employees, regardless of affiliation, from bringing matters of personal concern to the attention of appropriate officials of an agency under applicable laws, rules, regulations or established policies, or from choosing his or their own representative in a grievance or other administrative adjudication: *However*, This section does not permit an employee or group of employees to meet with agency management through an organization which is not recognized as the representative of the employees in that agency to discuss a matter which is a proper subject for consultation.

(g) When the head of an agency temporarily suspends any provision of the order or these regulations because of an emergency situation, both agency management and the organization recognized as the representative of the employees of that agency shall, to the extent practical, considering the requirements of the emergency situation, conduct themselves in accordance with the policies of the order. The head of the agency ordering such a suspension, or his designee, shall instruct the parties regarding the proper conduct during such emergencies, including, but not by way of limitation, by issuing directives as to which of these provisions is to apply during the suspension and by providing other appropriate guidance; such guidance shall, if practicable, be provided after conferral with the heads of the other agencies having employees at that post, and the recognized organizations (if any) for the affected agencies. No such suspension, however, shall operate to deny access by an employee or a group of employees to the grievance procedure established under section 10 of the order.

(h) All management officials and confidential employees shall, to the extent consistent with their right to join an organization, maintain strict neutrality in any public participation in the affairs of an organization with regard to matters covered by the order and shall avoid expressions of preference concerning representation by organizations in general or by any specific organization.

§ 14.5 Organs of administration.

(a) The Secretary shall exercise the following functions in the administration of the order:

(1) Prescribe regulations for the Board in the administration of its functions under the order;

(2) Establish procedures for recognized organizations to have access to agency management for the purposes of consultation and conferral;

(3) Prescribe regulations for the use of official time for consultation, conferral, and other representational activities by organizations and their agencies;

(4) Supervise the foreign affairs agencies in the implementation of the order; and

(5) Report to the President concerning the implementation of the order, after receiving the views of the Board, and make recommendations to the President regarding amendments to the order.

(b) The head of each respective foreign affairs agency, or his designee, shall exercise the following functions in the administration of the order:

(1) Prescribe regulations for the agency after consultation with the recognized organization if any, and, if none, with all participating organizations to implement the order and the regulations promulgated by the Secretary and the Commission. Such regulations shall include, but shall not be limited to: (i) A clear statement of the rights of the employees of the agency under the order; (ii) procedures with respect to consultation and conferral with recognized organization; (iii) policies with respect to the use of agency facilities by organizations; and (iv) policies and practices regarding consultation with other lawful associations, as appropriate;

(2) Suspend temporarily any or all of the provisions of the order or this part at any post, bureau, office, or activity, when he determines in writing that an emergency situation necessitates such suspension in the national interest, subject to the conditions he prescribes, and issue temporary regulations governing employee-management relations during such suspension; and

(3) Perform such other functions as the Secretary may, by regulation, or otherwise, prescribe.

The following offices shall be responsible for the administration of the employee-management relations system for each respective agency: (i) For the Department of State, the Special Assistant for Employee-Management Relations to the Director General of the Foreign Service; (ii) for the U.S. Information Agency, the Personnel Planning Staff; and (iii) for the Agency for International Development, the Welfare and Grievance Staff, Office of Personnel and Management. Matters relating to the administration of the order by an agency should be directed to those officials, and any notice, paper, request, or other material served upon them shall be considered as served upon the agency.

(c) The Board shall perform the following functions in the administration of the order:

(1) Consider and make recommendations to the Secretary concerning any subject of a substantive nature appropriate for the implementation of the order.

(2) Interpret this part and the order, except for those provisions reserved to the functions of the Commission;

(3) Perform such other functions as the Secretary may, by regulation or otherwise, prescribe;

(4) Perform such other functions as prescribed in section 4(a) of the order. All papers or materials to be submitted to the Board shall be directed to the Executive Secretary and shall be submitted in triplicate, at least ten (10) working days before the date of the meeting of the Board at which such papers or materials are to be considered. In performing the duties imposed on it by section 4(a) of the order, the Board may request and use the services and assistance of employees of other agencies in accordance with section 1 of the Act of March 4, 1915 (38 Stat. 1084, as amended; 31 U.S.C. 686).

§ 14.6 Recognition.

(a) Any organization seeking recognition under the order shall, in addition to meeting the requirements of the regulations established by the Commission, submit to the relevant agency a copy of the organization's constitution and bylaws, a statement of its objectives, and a roster of its officers.

(b) Recognition shall be accorded only following an election conducted by the head of that foreign affairs agency, under supervision of the Commission, among all the employees of the agency.

(c) Recognition of an organization certified by the Commission as the choice of the eligible employees of an agency shall be accorded by that agency following the receipt of a notification from the Commission informing the agency of the certification of the results of an election. Recognition shall be accorded by means of a letter from the head of the agency to the principal executive officer (or his designee) of the organization to be recognized.

(d) Recognition of an organization shall be withdrawn upon the presentation to the foreign affairs agency of a ruling by the Commission that the recognized organization has been found ineligible for recognition for any reason, or of a certification by the Commission of the results of an election in which the majority of the ballots cast indicate that the eligible employees of the agency have selected another organization as their exclusive representative, or that they do not wish to be represented by that organization.

(e) Whenever a foreign affairs agency receives information which creates a substantial question that an organization certified by the Commission as the winner of a representation election is ineligible for recognition because of noncompliance with Part 304 of this title or for any other reason acceptable to the Commission, the head of the agency or designee shall petition to the Commission in accordance with its regulations.

(f) Whenever the head of an agency receives information which creates a good faith doubt that the employees of an agency desire to have the recognized organization continue to represent them he shall, at the earliest time possible under the regulations of the Commission, petition to the Commission for the purpose of conducting an election pursuant to Part 302 of this title.

§ 14.7 Scope of consultation.

(a) Appropriate subjects for consultation between the recognized organization and the foreign affairs agency are those personnel policies and procedures, including grievance procedures, which affect working conditions of the employees which are within the authority of the foreign affairs agency.

(b) The obligation to consult does not include matters with respect to the mission of a foreign affairs agency; its budget; its organization; the number of employees; and the numbers, types, and grades of positions or employees assigned to an organizational unit, work project or tour of duty; the technology of performing its work; or its internal security practices. Consultations will not extend to foreign policy matters or other substantive responsibilities of the foreign affairs agencies. This paragraph shall not preclude consultation with respect to providing appropriate arrangements for employees adversely affected by the impact of realignment of work forces or technological change.

(c) If consultations are desired for personnel policies or procedures which directly affect more than one foreign affairs agency, such consultations shall be conducted jointly among the managements of all agencies involved and the organizations, if any, recognized by those agencies.

(d) The obligation to consult shall not deny the authority and obligation of the management of such foreign affairs agency to: (1) direct employees of the agencies; (2) hire, promote, transfer, assign, and retain employees in positions within the foreign affairs agencies, and suspend, demote, discharge or take other disciplinary action against employees; (3) relieve employees from duties because of the lack of work or for other legitimate reasons; (4) maintain the efficiency of the Government operations entrusted to them; (5) determine the methods, means, and personnel by which operations are to be conducted; and (6) take whatever actions may be necessary to carry out the missions of the agencies in situations of emergency. Such authority and obligation shall remain with the management of the agency in the administration of the policies and practices which result from the consultation process.

(e) Consultation shall be in accordance with the procedures, rulings, and decisions of the Commission.

V 37-82 APR 27 72 XUM

§ 14.8 Consultation procedures.

(a) Agency management and the recognized organization shall to the extent consistent with applicable law and regulations have the mutual obligation to consult regularly and prior to the adoption of proposed or revised personnel policies and procedures which affect working conditions of employees for the purpose of arriving at mutually acceptable policies, changes, or revisions. Such obligation does not, however, compel either party to agree to any specific proposal advanced by the other party during such consultations, nor does it require the making of a concession on any specific matter.

(b) After an organization is recognized, a procedure for the resolution of grievances shall be established by the agency after consultation with the recognized organization. The establishment of such a procedure shall not limit the right of the individual employee or group of employees to choose his or their representative. When a grievance is brought under that procedure by an employee or group of employees and the representative chosen by the grievant or grievants is other than the recognized organization, the recognized organization may be present at all sessions of the procedure at which the representative may be present, but the recognized organization may not intercede or present arguments of its own unless permission to do so has been granted by the Executive Secretary on the grounds that the resolution of the grievance would have an important effect upon consultation rights. In situations where the Executive Secretary has not specifically granted permission the grievant or grievants may ask the Executive Secretary that the representative of the organization be excluded from part or all of the proceedings in order to protect the privacy of the grievant or grievants.

(c) Consultations shall be conducted at reasonable times and places which are mutually agreeable to the agency management and the recognized organization. Agency management shall inform the recognized organization whenever a change or revision in any personal policy or practice affecting the agency's employees—other than foreign policy matters or other substantive responsibilities of the foreign affairs agencies—is contemplated. The organization may propose such changes or revisions on its own initiative. Agency management shall not institute such a change until the parties have had a reasonable opportunity to consult and reach agreement or, if the parties do not agree as to the obligation to consult, until the Commission resolves the issue of whether an obligation to consult exists. Such a revision or change may be instituted without the concurrence of the recognized organization if that organization does not request consultation within ten (10) days after its receipt of the notification that the agency intends such a change or revision.

(d) The head of each agency shall issue regulations setting forth the procedure for such consultations.

(e) The results of consultation shall not be effective until signed by the head of the agency or his designee.

(f) When consultation does not result in agreement on a substantive issue, the recognized organization may appeal the final or last position of the agency to the Board. During the pendency of such an appeal, the agency shall not institute any change or modification in the matter under consideration unless the head of the agency determines that immediate implementation is required by the national interest, in which case a statement of the reasons for such action shall be supplied to the recognized organization and to the Board.

§ 14.9 Appeals.

(a) When, after a reasonable period of consultation, no agreement is reached on a substantive issue the recognized organization may appeal the final or last position of the foreign affairs agency to the Board. Such an appeal shall be made only after agency management has informed the organization that its position is final or after the organization has informed management that it considers that management's position will not be substantially changed as a result of further consultations. Unless agency management agrees to reconsider its position within five (5) days after that time, an appeal must be filed with the Board within ten (10) days from the date the organization informs agency management that it considers an appeal to be timely or from the date the agency management informs the organization that its position is final. If no appeal is filed with the Board within ten (10) days, the final or last position of agency management may be implemented as though agreement had been reached on the matter.

(b) All appeals shall be made in writing to the Board, stating the last or final position of the agency, the position of the organization; the reasons for the organization's position, the prior positions of the parties during consultation, the reasons the organization believes a substantive question is involved, and any additional facts needed for the Board to consider the appeal. A copy of all material submitted to the Board shall be provided to the agency at the same time.

(c) Within ten (10) days from the date the organization submits its material to the Board and to the agency, the agency may submit a reply to any or all of the points raised by the appeal and supporting papers. A copy of any reply shall be provided to the organization at the same time. The agency may request certain matters be given priority attention if their immediate implementation is considered important.

(d) All papers and other material submitted to the Board shall be reviewed by the Executive Secretary for purposes of determining whether additional material is necessary, formulating a summary, and making a recommendation to the Board regarding the existence of a substantive question. If the Executive Secretary determines no additional material is required in order to resolve the issue of whether a substantive question has been raised, he shall submit a summary of the relevant facts and his recommendation to the Chairman of the Board within ten (10) days following the time specified for the receipt of the agency's reply materials, and shall provide a copy of such to the organization and the agency.

(e) The Executive Secretary may request oral or written statements from the parties in order to determine whether the appeal involves a substantive question if the material filed by the parties is insufficient.

(f) The Board shall initially determine whether a substantive question is raised by the appeal. For purposes of this section, a substantive question is raised when the subject under consideration creates, defines, or changes rights of the employees or organizations or the conditions relating to such rights.

(g) The Board shall issue its decision as to whether a substantive question is raised as expeditiously as possible following the receipt of the Executive Secretary's recommendation.

(h) If the Board finds that the appeal does not raise a substantive question, it shall dismiss the appeal, and the agency may implement its last or final position immediately.

(i) If the Board finds a substantive question has been raised, the appeal shall be referred to a disputes panel for a finding of fact and recommendation in accordance with § 14.10.

(j) After receiving the findings of fact and recommendations of the disputes panel, the Board may request or receive the views of or assistance from any party, person, organization, or agency. As expeditiously as possible after receipt of the panel's findings of fact and recommendations the Board shall issue its decisions, which will be binding on the parties, unless overruled by the head of the agency.

(k) When the head of the foreign affairs agency overrules the decision of the Board, he shall issue a statement explaining the reasons for which the Board's decision is unacceptable and the position he adopts is required. A copy of such statement shall be provided to the organization, the Board, and the Commission.

(l) The organization and agency management may, at any time, remove an appeal from consideration by the Board or disputes panel by mutual agreement.

§ 14.10 Disputes panel.

(a) A disputes panel to assist the Board in the consideration of appeals shall be appointed by the Chairman of the Board. The panel shall consist of two Foreign Service employees of any foreign affairs agency who are not part of agency management or organization officials, one representative of the Department of Labor, one member of the Federal Service Impasses Panel, and one public member.

(b) The disputes panel shall present findings of fact and recommendations to the Board for the disposition of the appeal of the dispute, and it may, in cases

it deems appropriate, mediate disputes or otherwise attempt to promote agreement between the parties. The panel may not impose binding arbitration, but it may take whatever steps in an advisory capacity it considers helpful in assisting the parties to reach agreement.

(c) The panel shall conduct its own investigation in its factfinding capacity. It may request written or oral statements or arguments from the parties and may request information, including documents or witnesses (or depositions, if more appropriate) from the parties or from any other source it considers appropriate.

(d) The presentation of the panel's findings of fact to the Board shall be limited to subjects which have been considered by the parties in the consultation process. Its recommenations to the Board shall be within the scope of the final or last positions taken by the parties.

(e) The disputes panel shall issue its findings of fact and recommendations to the Board within thirty (30) days after receiving the question, unless the appeal has been withdrawn earlier. The panel may request an extension of time from the Board if additional time is needed to permit the parties to reach agreement. All findings of fact and recommendations shall be provided to the recognized organization and the agency.

§ 14.11 Conferral.

(a) The head of each agency whose employees are represented by an organization shall appoint appropriate representatives of agency management to meet regularly with the organization for purposes of conferral and review in regard to matters affecting or affected by the employee-management relations system.

(b) Such meetings shall be held at times and locations agreed upon by the parties. These meetings may be scheduled as periodic meetings. Notwithstanding an agreement to hold such meetings periodically, the organization or the agency may request a meeting at any reasonable time; agency management or the organization shall grant such requests whenever practical.

(c) There shall be no limitation upon the topics which may be discussed during conferral and review meetings provided some relationship exists between the topic and employee-management relations: *However*, Matters specifically excluded from the obligation to consult by the terms of the order shall be proper topics for conferral only if the parties specifically agree.

(d) Agency management and the recognized organization may confer in order to establish a procedure for resolution of issues relating to working conditions of employees at any post which would not affect the foreign service generally. The results of such conferral, or the positions of the parties if agreement is not attained within a reasonable time, may be submitted to the Board in the form of a recommendation of a change in the implementation of the order.

(e) All recognized organizations and agencies shall meet annually to review the implementation and administration of the employee-management relations system established by the order. All recommendations or conclusions arrived at after such meetings shall be submitted to the Board for consideration.

(f) Meetings shall be held with the recognized employee organizations, if any, so that the Secretary and the Director may take into account the views of the organizations in designating their respective members on the Board of the Foreign Service.

§ 14.12 Changes and amendments.

(a) All recommendations by any person for amendments to the order or changes in its implementation shall be made directly to the Board: *However*, The agency or the recognized organization shall make such recommendations only following conferral upon them.

(b) Upon the receipt of a recommendation from any source, or upon its own initiative, the Board may review the implementation of the order, proposed amendments to the order or this part, or any topic related to the effectuation of the policies of the order. An announcement of such a review shall be provided to the foreign affairs agencies, all known interested organizations, all employees of the Foreign Service, and the public.

(c) Following such announcement the Board may request or otherwise receive the views of any interested party.

(d) Within a reasonable time after the issuance of the announcement, not to exceed ninety (90) days, the Board shall issue either a final or interim report to the Secretary, including, if appropriate, its recommendations for amendments to the order or this part. The Secretary shall review all final reports and forward his recommendations to the President.

§ 14.13 Organizational activities.

(a) All organizations shall be given reasonable opportunities to solicit membership and support for their organizational activities among the members of the Foreign Service. Subject to the limitation prescribed by the head of the agency, representatives of such organizations shall be permitted, upon request, to post notices or distribute literature or to hold organizational meetings at any post. Such permission shall not extend to meetings during official duty hours or to activities which disrupt or tend to disrupt the proper functioning of the post's activities.

(b) Official time may not be used by representatives of organizations for the purposes of soliciting memberships or support among the employees of the agency or for any purpose not relating directly to the representation of the employees to management (i.e., consultations, conferral, grievance representation , and hearings directed by the Commission or the Board).

(c) The use of agency facilities, including the interoffice or interdepartmental distribution system, will be governed by the regulations of the head of the agency. Use of mail facilities to or from posts normally used by the public shall be available to organizations on the same basis as to any member of the public. Telecommunication facilities may only be used following a request to, and written permission by, the Secretary or his designee.

(d) The amount of official time spent by representatives of a recognized organization for the consultation process shall be limited to that reasonably required to reach agreement but not to exceed four (4) hours each month or forty-eight (48) hours each fiscal year. Such time limits will not be applicable during the first 3 months following recognition of an exclusive representative of all the employees of an agency. The head of each agency may extend the permissible time in the interest of reaching agreement. The number of organization representatives who are employed by the foreign affairs agencies and who are on official time normally shall not exceed the number of agency representatives. If an appeal has been taken under § 14.9, the Board may request that the head of the agency permit a representative or representatives of the organization a reasonable amount of official time for purposes of appeals.

(e) The amount of official time spent by representatives of an organization for conferral and review shall be over and above the time used for consultation and shall be limited to that reasonably necessary. The number of organization participants at conferral shall normally not exceed the number of the agency participants.

(f) Neither overtime, compensatory time off, nor travel time will be available to organizational representatives because of time spent in the process of consultation or conferral.

§ 14.14 Miscellaneous.

(a) Nothing in this part, the results of consultations, or any agreement between the agency and an organization shall be construed to limit the authority of agency management to establish policies and practices directly affecting those employed by the agency other than eligible employees.

(b) Nothing in the order, this part, the result of any consultation, or any agreement shall in any way limit the authority and responsibility of the head of an agency to seek any and all appropriate judicial and/or administrative action to terminate or prohibit a strike, work stoppage, slowdown, or any other such concerted action which tends to affect detrimentally the operations of an agency.

(c) All employees of the Foreign Service and all persons employed by or assigned to a foreign affairs agency shall provide full cooperation to the Board, the Commission, and disputes panels, and provide those organs with any and all information or assistance requested by them.

V 37 • 82 APR 27 72 XUM

(d) Both agency management and all organizations shall be bound by the decisions of the Board (unless the head of the agency directs otherwise in a decision on an appeal under § 14.9) and the Commission.

(e) Nothing in the order, this part, the results of consultation, or any agreement shall prevent the head of an agency from excluding any person, party, documents, or information from any other party or proceeding if, in his sole discretion, he determines in writing that such exclusion is required to protect national interest. Such exclusion shall not be interpreted as an admission of any position.

(f) In computing any period of time prescribed by or allowed by this part, the day of the act, event, or default after which the designated period of time begins to run, shall not be included. The last day of the period so computed is to be included unless it is a Saturday, Sunday, official Federal holiday or local legal holiday (if the action directly involves a foreign post) in which event the period shall run until the end of the next day which is neither a Saturday, Sunday, official Federal holiday, or local legal holiday. When the period of time prescribed or allowed is less than seven (7) days, intermediate Saturdays, Sundays, official Federal holidays, and local legal holidays shall be excluded from the computations. When the regulations in this part require the filing of any paper, such document must be received by the designated recipient before the close of business of the last day of the time limit, if any, for such filing or extension of time that may have been granted. Whenever a party has the right or is required to do some act pursuant to the regulations in this part within a prescribed period after service of a notice or paper and the notice or paper is served on him by mail within the United States, three (3) days shall be added to the prescribed period or if outside the United States an appropriate amount of time: *Provided, however,* That such additional time may not be added if any extension of time may have been granted.

(g) When an act is required or allowed to be done at or within a specified time, the time period may be altered where it shall be manifest that strict adherence will work surprise or injustice or interfere with the proper effectuation of the order.

(h) The regulations in this part shall be construed liberally to effectuate the purposes and provisions of the order.

Title 40—PROTECTION OF ENVIRONMENT

Chapter I—Environmental Protection Agency

SUBCHAPTER E—PESTICIDES PROGRAMS

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Subpart D—Exemptions From Tolerances

N-(AMINOETHYL) ETHANOLAMINE SALT OF DODECYLBENZENE SULFONIC ACID

A petition (PP 1F1052) was filed by the Witco Chemical Corp., 400 North Michigan Avenue, Chicago, IL 60611, proposing establishment of an exemption from requirement of a tolerance for residues of the emulsifier *N*-(aminoethyl) ethanolamine salt of dodecylbenezene sulfonic acid when used as an inert ingredient in liquid emulsifiable herbicide concentrates.

Part 120, Chapter I, Title 21 was redesignated Part 420, Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given the data submitted in the petition and other relevant material, it is concluded that the emulsifier is useful in pesticide formulations as proposed and exemption from the requirement of a tolerance will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.1001 is amended by alphabetically inserting a new item in the table in paragraph (d), as follows:

§ 180.1001 Exemptions from the requirement of a tolerance.

• • • • • •

(d) • • •

Inert ingredients	Limits	Uses
• • •	• • •	• • •
N-(Aminoethyl) ethanolamine salt of dodecylbenzene sulfonic acid.	For use only in liquid emulsifiable herbicide concentrates.	Do.
• • •	• • •	• • •

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, within 30 days after publication hereof in the FEDERAL REGISTER, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Environmental Protection Agency, Room

V 37-82 APR 27 72 XUM

3125, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: April 21, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-6419 Filed 4-26-72;8:48 am]

PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Subpart D—Exemptions From Tolerances

PROPIONIC ACID

A petition (PP 2F1203) was filed by BP Chemical International Ltd., Devonshire House, Piccadilly, London, WIX 6AY, England, in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance for residues of the fungicide propionic acid in or on the raw agricultural commodities the grains of barley, corn, oats, sorghum, and wheat at 20,000 parts per million from postharvest application. Subsequently, it was concluded that an exemption from the requirement of a tolerance for residues of propionic acid would be appropriate based on the following facts:

1. Propionic acid is a natural component of rumen fluid ("Journal of Agricultural Food Chemistry," vol. 19, p. 1204 (1970)).

2. In nonruminates, propionic acid is one of the metabolic products of several of the amino acids normal to animals.

3. Propionic acid is present as a fermentation byproduct in alfalfa hay and is a normal constituent of other feeds and of the metabolic pools of mammals.

4. Propionic acid and/or its sodium salt are (is) generally regarded as safe or are (is) exempted from the requirement of a tolerance under §§ 180.2(a), 180.1001(c), 180.1015, 121.101(d) (Title 21), and 121.101(h) (Title 21).

Part 120, Chapter I, Title 21 was redesignated Part 420 and transferred to Chapter III (36 F.R. 424). Subsequently, Part 420, Chapter III, Title 21 was redesignated Part 180 and transferred to Subchapter E, Chapter I, Title 40 (36 F.R. 22369).

Based on consideration given data submitted in the petition and other relevant material, it is concluded that the fungicide is useful for the purpose for which an exemption is being established and the exemption established by this order will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(d)(2), 68 Stat. 512; 21 U.S.C. 346a(d)(2)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), § 180.304 is deleted from Subpart C and a new section is established in Subpart D to read as follows:

§ 180.1023 Propionic acid; exemption from the requirement of a tolerance.

Propionic acid is exempt from the requirement of a tolerance for residues when used as a fungicide in or on the grains of barley, corn, oats, sorghum, and wheat from postharvest application. These grains are for use only as animal feeds.

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, within 30 days after publication hereof in the FEDERAL REGISTER, that this proposal be referred to an advisory committee in accordance with section 409 (d) of the act.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Environmental Protection Agency, Room 3125, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: April 21, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-6418 Filed 4-26-72;8:48 am]

Title 41—PUBLIC CONTRACTS AND PROPERTY MANAGEMENT

Chapter 15—Environmental Protection Agency

PART 15-3—PROCUREMENT BY NEGOTIATION

Subpart 15-3.1—Use of Negotiation

DISSEMINATION OF PROCUREMENT INFORMATION

Section 15-3.103, dissemination of procurement information, is hereby added to Chapter 15, Title 41, of the Code of Federal Regulations. Interested parties and Government agencies are invited to submit written comments to the Director, Contracts Management Division, Environmental Protection Agency, Washington, D.C. 20460. Relevant comments will be considered and may be incorporated at a later date.

Effective date. This regulation will become effective on its date of publication in the FEDERAL REGISTER (4-27-72).

Dated: April 24, 1972.

WILLIAM D. RUCKELSHAUS,
Administrator.

§ 15-3.103 Dissemination of procurement information.

(a) Debriefing of unsuccessful offerors.

(1) *Purpose.* This section provides Environmental Protection Agency (EPA) policy and procedures for debriefing unsuccessful offerors in competitive negotiated procurements.

(2) *Policy.* (i) The policy of the EPA is to provide a debriefing, when requested in writing, to an offeror that has unsuccessfully competed for an EPA procurement. Exceptions to or deviations from debriefing policy and procedures will be approved by the Director, Contracts Management Division.

(ii) A debriefing is intended to:

(*a*) Tell an unsuccessful offeror which areas of his proposal were judged to be weak and deficient and whether the weaknesses or deficiencies were factors in his not having been selected;

(*b*) Identify the factors which were the basis for selection of the successful contractor. If the quality of his proposal to satisfy the mission requirement was the basis, the unsuccessful offeror should be so informed, and given a general comparison of significant areas but not a point-by-point comparison of all the elements considered in the evaluation criteria. If the successful offeror was selected on the basis of cost, the unsuccessful offeror should be told that such is the case. If selection was based on other factors, they should be specified.

(iii) If an unsuccessful offeror feels that his exclusion from the award was not justified, he will rely, at least in part, on the information given him in the debriefing to determine whether he should seek recourse against that exclusion. Accordingly, it is essential that a debriefing be conducted in a scrupulously fair, objective, and impartial manner, and that the information given the unsuccessful offeror be absolutely factual and consistent with the findings of the Contracting Officer and the basis on which he made his decision.

(iv) A debriefing should not reveal:

(*a*) Confidential business information, trade secrets, techniques, or processes of the other offerors; and

(*b*) The relative merits or technical standing of the unsuccessful offerors.

(3) *Procedures.* (i) Once a procurement action has been initiated, through the evaluation process, and even after the selection of a contractor, all contractor queries as to the relative merits of the submitted proposal shall be courteously but firmly directed to the appropriate procurement official. All other personnel will avoid exchange of comments with all offerors.

(ii) Promptly after making awards in any procurement in excess of $10,000, the Contracting Officer shall give written notice to the unsuccessful offerors that their proposals were not accepted. The notice should name the successful contractor and state the amount of the award. It is also permissible to give the number of proposals received, but not the prices quoted by other unsuccessful offerors. Upon request, unsuccessful offerors shall be furnished the reasons why their proposals were not accepted, in accordance with subparagraph (2) of this paragraph.

(iii) Any EPA employee who receives from an unsuccessful offeror a request, written or oral, for a debriefing shall immediately refer the request to the Director of the Contracting Operations. This official or his designee shall be present at all debriefings, and shall review written debriefings prior to release.

(iv) In come cases it may be necessary to arrange informal debriefings to contractor personnel by EPA evaluation participants. This determination will be made by, and meeting arrangements will be the responsibility of, the Director of the Contracting Operations.

(v) It is most important that all EPA personnel engaged in the evaluation and selection process be aware of the foregoing policies and procedures. Detailed and complete records will be maintained by key technical and business participants in a manner which will facilitate either a written or oral debriefing of any unsuccessful offeror's proposal.

(4) *Report.* When a debriefing is held, a brief report, summarizing the results of the debriefing, will be prepared and placed in the contract file.

(40 U.S.C. 486(c), sec. 205(c), 63 Stat. 377, as amended)

V 37-82 APR 27 72 XUM

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 25]

CUSTOMS BONDS

Notice of Proposed Rule Making

Notice is hereby given that under the authority of sections 623 and 624 of the Tariff Act of 1930, as amended (19 U.S.C. 1623, 1624), it is proposed to amend Part 25 of the Customs Regulations by adding a new § 25.2 relating to the filing of a Bond Transcript in connection with Customs bonds in certain cases, and by amending subparagraphs (16), (19), and (25) of § 25.4(a) relating to Customs bonds which are approved by district directors of customs.

The amendments set forth below in proposed form are designed to enable the Bureau of Customs to institute an Automated Bond Information System in order to facilitate the processing of term bonds, to relieve the principals on such bonds where two or more ports of entry are involved of the burden of furnishing copies of those bonds for all ports of entry covered thereby, and to provide Customs officers current information regarding bonds and the charges that have been placed against them.

It is proposed to initiate this system with the automation of the following bonds:

1. Customs Form 7553—Immediate Delivery and Consumption Entry Bond (Term).
2. Customs Form 7563–A—Bond for Temporary Importations (Term).
3. Customs Form 7569—Vessel, Vehicle, or Aircraft Bond (Term).
4. Customs Form 7595—General Term Bond for Entry of Merchandise.
5. Customs Form 7599—Bond for Use in Connection with Requests for Overtime Services Made by or on behalf of Parties in Interest (Term).

Under the present procedure the bond principal identifies on each of the abovementioned bonds the ports of entry (including Customs stations and places of Customs preclearance) at which the bond may be used. Under the proposed procedure, except for Customs Form 7553, which, as now, will cover entries only at a single port, the bond will be valid at all ports of entry (including Customs stations and places of Customs preclearance) at which transactions covered by the bond may be effected.

Present law (6 U.S.C. 7) requires that a surety company on a Federal bond appoint an agent for the service of process in each judicial district in which he does business. Many of the surety companies which hold certificates of authority as acceptable sureties on Federal bonds do not have agents for the service of process in each judicial district of the United States. In these circumstances, in order that no such surety company be prevented from writing the four types of Customs bonds which will be valid at all ports of entry, it is proposed to amend Customs Forms 7563–A, 7569, 7595, and 7599 when the automated system is instituted to include in each bond the condition that the surety agrees to accept service of process on the Clerk of the U.S. District Court in the judicial district where any entries thereunder are made in which it has failed to appoint an agent.

In order that bond data may be automated, a form of Bond transcript tentatively identified as Customs Form 53 will be required to be completed and filed with each of the above-mentioned bonds. The proposed form of Bond Transcript is as follows:

BOND TRANSCRIPT

Principal's name on bond:

---

1. Principal's importer No.: _____
2. Type of bond (Customs Form No.): _____
3. Bond amount: _____
4. Bond expiration date (MM/DD/YY): _____
5. Surety No.: _____
6. Surety's bond No.: _____
7. Power of attorney Soc. Sec. No.: _____
8. To terminate bond currently on file check here ☐. Complete all sections above only and submit with signed request from principal to terminate bond. Show requested date of termination: _____
9. District/port location and code where bond filed: _____
10. List below all additional names on the bond of principals, and those under which the principals do business as, including their importer number(s) and suffix:

Importer name	*Number*
_____	_____
_____	_____
_____	_____

Certification by Customs:

_____ _____
(Approved by) (District)

The Department of the Treasury.
Bureau of Customs.

To insure that the information with respect to each bond covered by this proposal can be sent to the Customs Data Center, Silver Spring, Md., and disseminated by computer printout to all ports of entry before the bond becomes effective, it is necessary to require that the bond and bond transcript be filed with a district director of customs at least 60 days prior to the date on which the bond is to become effective. This requirement for 60-day advance filing would also apply to requests for premature termination of bonds.

Under the present regulations the Temporary Importation Bond (Term) may be furnished in an amount as low as $1,000 if it is given to cover the entry of merchandise at only one port and in a minimum of $10,000 when the bond is to cover importations at more than one port. Since the Temporary Importation Bond when taken on a term basis under the automated procedure will be valid at all ports of entry, the minimum amount of the bond under the proposed amendment will be $10,000.

The terms of the proposed amendment are as follows:

Section 25.2 is added, reading:

§ 25.2 **Bond Transcript.**

(a) There shall be furnished to the district director of customs with each bond on Customs Forms 7553, 7563–A, 7569, 7595, and 7599 a completed Bond Transcript on Customs Form 53, in triplicate. The bond and bond transcript shall be furnished at least 60 days before the date on which the bond shows it is to become effective.

(b) Each request to terminate a bond of a type named in paragraph (a) of this section, before the expiration of the period covered by the bond shall be accompanied by a completed Customs Form 53, in triplicate, appropriately marked to show that it involves a request for bond termination. The termination shall take effect on the date requested if the request and bond transcript are filed at least 60 days in advance of the requested date. If they are not so filed, the termination shall take effect on the 60th day after receipt by the district director of customs of the request and bond transcript. A bond transcript shall also be required to terminate an existing bond when a superseding bond (also with appropriate bond transcript) is filed to take effect before completion of the period covered by the bond to be superseded.

§ 25.4 [Amended]

Section 25.4(a) is amended as follows:

1. Subparagraph (16) is amended to read:

(16) Term bond for temporary importations, Customs Form 7563–A, in the amount of $10,000 or such larger amount as may be fixed by the district director of customs at the port where the bond is filed.

2. Subparagraph (19) is amended by deleting the final sentence. As amended, subparagraph (19) reads as follows:

(19) Vessel, vehicle, or aircraft term bond, Customs Form 7569, in the amount of $10,000, or such larger amount as may be fixed by the district director of customs at the port where the bond is filed.

3. Subparagraph (25) is amended to read:

(25) General term bond for the entry of merchandise, Customs Form 7595, in the amount of $100,000, or such larger amount as may be fixed by the district director of customs at the port where the bond will be filed. A principal desiring to execute this form of bond shall file with the district director an application for permission to file the bond. The application shall show the general character of the merchandise to be entered and the total amount of ordinary Customs duties (including any taxes required by law to be treated as duties) accruing on all merchandise imported by the principal during the calendar year preceding the date of the application, plus the estimated amount of any other tax or taxes on the merchandise collectible by the district director of customs. Such total amount of duties and taxes shall be that which would have been required to be deposited had the merchandise been entered for consumption, even though some or all of the merchandise may have been entered under bond. If no imports were made during the calendar year prior to the application, a statement of the duties and taxes it is estimated will accrue on all importations during the current year shall be submitted.

(Secs. 623, 624, 46 Stat. 759, as amended; 19 U.S.C. 1623, 1624)

Prior to the issuance of the proposed amendment, consideration will be given to any relevant data, views, or arguments which are submitted in writing to the Commissioner of Customs, Bureau of Customs, Washington, D.C. 20226, and received not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs Regulations (19 CFR 103.3(b)) at the Bureau of Customs, Washington, D.C., during regular business hours.

[SEAL] LEONARD LEHMAN,
Acting Commissioner of Customs.

Approved: April 14, 1972.

EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

[FR Doc.72-6422 Filed 4-26-72;1:00 pm]

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Special Rules for Reduction of Creditable Foreign Taxes in the Case of Foreign Mineral Income

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 29, 1972. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 29, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their request for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) to section 901(e) of the Internal Revenue Code of 1954 (relating to taxes on foreign mineral income), as added by section 506(a) of the Tax Reform Act of 1969 (83 Stat. 634), and to section 904(b) of such Code (relating to election of overall limitation), as amended by section 506(b) of the Tax Reform Act of 1969 (83 Stat. 635), such regulations are amended as follows:

PARAGRAPH 1. Section 1.901 is amended to read as follows:

§ 1.901 **Statutory provisions; taxes of foreign countries and of possessions of the United States.**

SEC. 901. *Taxes of foreign countries and of possessions of the United States*—(a) *Allowance of credit.* If the taxpayer chooses to have the benefits of this subpart, the tax imposed by this chapter shall, subject to the applicable limitation of section 904, be credited with the amounts provided in the applicable paragraph of subsection (b) plus, in the case of a corporation, the taxes deemed to have been paid under sections 902 and 960. Such choice for any taxable year may be made or changed at any time before the expiration of the period prescribed for making a claim for credit or refund of the tax imposed by this chapter for such taxable year. The credit shall not be allowed against the tax imposed by section 56 (relating to minimum tax for tax preferences), against the tax imposed by section 531 (relating to the tax on accumulated earnings), against the additional tax imposed for the taxable year under section 1333 (relating to war loss recoveries) or under section 1351 (relating to recoveries of foreign expropriation losses), or against the personal holding company tax imposed by section 541.

(b) *Amount allowed.* Subject to the applicable limitation of section 904, the following amounts shall be allowed as the credit under subsection (a):

(1) *Citizens and domestic corporations.* In the case of a citizen of the United States and of a domestic corporation, the amount of any income, war profits, and excess profits taxes paid or accrued during the taxable year to any foreign country or to any possession of the United States; and

(2) *Resident of the United States or Puerto Rico.* In the case of a resident of the United States and in the case of an individual who is a bona fide resident of Puerto Rico during the entire taxable year, the amount of any such taxes paid or accrued during the taxable year to any possession of the United States; and

(3) *Alien resident of the United States or Puerto Rico.* In the case of an alien resident of the United States and in the case of an alien individual who is a bona fide resident of Puerto Rico during the entire taxable year, the amount of any such taxes paid or accrued during the taxable year to any foreign country; and

(4) *Nonresident alien individuals and foreign corporations.* In the case of any nonresident alien individual not described in section 876 and in the case of any foreign corporation, the amount determined pursuant to section 906; and

(5) *Partnerships and estates.* In the case of any individual described in paragraph (1), (2), (3), or (4), who is a member of a partnership or a beneficiary of an estate or trust, the amount of his proportionate share of the taxes (described in such paragraph) of the partnership or the estate or trust paid or accrued during the taxable year to a foreign country or to any possession of the United States, as the case may be.

(c) *Similar credit required for certain alien residents.* Whenever the President finds that—

(1) A foreign country, in imposing income, war profits, and excess profits taxes, does not allow to citizens of the United States residing in such foreign country a credit for any such taxes paid or accrued to the United States or any foreign country, as the case may be, similar to the credit allowed under subsection (b)(3),

(2) Such foreign country, when requested by the United States to do so, has not acted to provide such a similar credit to citizens of the United States residing in such foreign country, and

(3) It is in the public interest to allow the credit under subsection (b)(3) to citizens or subjects of such foreign country only if it allows such a similar credit to citizens of the United States residing in such foreign country, the President shall proclaim that, for taxable years beginning while the proclamation remains in effect, the credit under subsection (b)(3) shall be allowed to citizens or subjects of such foreign country only if such foreign country, in imposing income, war profits, and excess profits taxes, allows to citizens of the United States residing in such foreign country such a similar credit.

(d) *Corporations treated as foreign.* For purposes of this subpart, the following corporations shall be treated as foreign corporations:

(1) A corporation entitled to the benefits of section 931, by reason of receiving a large percentage of its gross income from sources within a possession of the United States; and

(2) A corporation organized under the China Trade Act, 1922 (15 U.S.C., chapter 4), and entitled to the deduction provided in section 941.

(e) *Foreign taxes on mineral income*—(1) *Reduction in amount allowed.* Notwithstanding subsection (b), the amount of any income, war profits, and excess profits taxes paid or accrued during the taxable year to any foreign country or possession of the United States with respect to foreign mineral income from sources within such country or possession which would (but for this paragraph) be allowed under such subsection shall be reduced by the amount (if any) by which—

(A) The amount of such taxes (or, if smaller, the amount of the tax which would be computed under this chapter with respect to such income determined without the deduction allowed under section 613), exceeds

V 37-82 APR 27 72 XUM

(B) The amount of the tax computed under this chapter with respect to such income.

(2) *Foreign mineral income defined.* For purposes of paragraph (1), the term "foreign mineral income" means income derived from the extraction of minerals from mines, wells, or other natural deposits, the processing of such minerals into their primary products, and the transportation, distribution, or sale of such minerals or primary products. Such term includes, but is not limited to—

(A) Dividends received from a foreign corporation in respect of which taxes are deemed paid by the taxpayer under section 902, to the extent such dividends are attributable to foreign mineral income, and

(B) That portion of the income of partnerships attributable to foreign mineral income.

(f) *Cross reference.* (1) For deductions of income, war profits, and excess profits taxes paid to a foreign country or a possession of the United States, see sections 164 and 275.

(2) For right of each partner to make election under this section, see section 703(b).

(3) For right of estate or trust to the credit for taxes imposed by foreign countries and possession of the United States under this section, see section 642(a)(2).

(4) For reduction of credit for failure of a U.S. person to furnish certain information with respect to a foreign corporation controlled by him, see section 6038.

[Sec. 901 as amended by sec. 3 (a) and (b), Act of Sept. 14, 1960 (Public Law 86-780, 74 Stat. 1013); secs. 9(d)(3) and 12(b)(1), Rev. Act 1962 (76 Stat. 1001, 1031); sec. 207(b)(7), Rev. Act 1964 (78 Stat. 42); sec. 1(c)(2), Act of April 8, 1966 (Public Law 89-384, 80 Stat. 102); sec. 106 (a) (4) and (5) and (b)(1) and (2), Foreign Investors Tax Act 1966 (80 Stat. 156Q); secs. 301(b)(9) and 506(a)(1) and (2), Tax Reform Act 1969 (83 Stat. 585, 634)]

PAR. 2. Section 1.901-2 is amended by revising paragraph (a) to read as follows:

§ 1.901-2 Definitions.

(a) The term "amount of any income, war profits, and excess profits taxes paid or accrued during the taxable year" means taxes proper, paid or accrued during the taxable year on behalf of the taxpayer claiming credit. No credit is given for amounts representing interest or penalties. For reduction in the amount of such taxes paid or accrued with respect to foreign mineral income, see section 901(e) and § 1.901-3.

* * * * *

PAR. 3. The following new section is added immediately after § 1.901-2:

§ 1.901-3 Reduction in amount of foreign taxes on foreign mineral income allowed as a credit.

(a) *Determination of amount of reduction.*—(1) *In general.* For purposes of determining the amount of taxes which are allowed as a credit under section 901(a) for taxable years beginning after December 31, 1969, the amount of any income, war profits, and excess profits taxes paid or accrued, or deemed to be paid under section 902, during the taxable year to any foreign country or possession of the United States with respect to foreign mineral income (as defined in paragraph (b) of this section) from sources within such country or possession shall be reduced by the amount, if any, by which—

(i) The smaller of—

(*a*) The amount of such foreign income, war profits, and excess profits taxes, or

(*b*) The amount of the tax which would be computed under chapter 1 of the Code for such year with respect to such foreign mineral income if the deduction for depletion were determined under section 611 without regard to the deduction for percentage depletion under section 613, exceeds

(ii) The amount of the tax computed under chapter 1 of the Code for such year with respect to such foreign mineral income.

The reduction required by this subparagraph must be made on a country-by-country basis whether the taxpayer uses for the taxable year the per-country limitation under section 904(a)(1), or the overall limitation under section 904(a)(2), on the amount of taxes allowed as credit under section 901(a).

(2) *Determination of amount of tax on foreign mineral income.*—(i) *Foreign tax.* For purposes of subparagraph (1)(i)(*a*) of this paragraph, the amount of the income, war profits, and excess profits taxes paid or accrued during the taxable year to a foreign country or possession of the United States with respect to foreign mineral income from sources within such country or possession is an amount which is the greater of—

(*a*) The amount by which the total amount of the income, war profits, and excess profits taxes paid or accrued during the taxable year to such country or possession exceeds the amount of such taxes that would be paid or accrued for such year to such country or possession without taking into account such foreign mineral income, or

(*b*) The amount of the income, war profits, and excess profits taxes that would be paid or accrued to such country or possession if such foreign mineral income were the taxpayer's only income for the taxable year,

except that in no case shall the amount so determined exceed the total of all income, war profits, and excess profits taxes paid or accrued during the taxable year to such country or possession. For such purposes taxes which are paid or accrued also include taxes which are deemed paid under section 902. In the case of a dividend described in paragraph (b)(2)(i)(*a*) of this section which is from sources within a foreign country or possession of the United States and is attributable in whole or in part to foreign mineral income, the amount of the income, war profits, and excess profits taxes deemed paid under section 902 during the taxable year to such country or possession with respect to foreign mineral income from sources within such country or possession is an amount which bears the same ratio to the amount of the income, war profits, and excess profits taxes deemed paid under section 902 during such year to such country or possession with respect to such dividend as the portion of the dividend which is attributable to foreign mineral income bears to the total dividend. For purposes of (*a*) and (*b*) of this subdivision, foreign mineral income is to be reduced by any credits, expenses, losses, and other deductions which are properly allocable to such income under the law of the foreign country or possession of the United States from which such income is derived.

(ii) *U.S. tax.* For purposes of subparagraph (1)(ii) of this paragraph, the amount of the tax computed under chapter 1 of the Code for the taxable year with respect to foreign mineral income from sources within a foreign country or possession of the United States is the greater of—

(*a*) The amount by which the tax under chapter 1 of the Code on the taxpayer's taxable income for the taxable year exceeds a tax determined under such chapter on the taxable income for such year determined without regard to such foreign mineral income, or

(*b*) The amount of tax that would be determined under chapter 1 of the Code if such foreign mineral income were the taxpayer's only income for the taxable year.

For purposes of this subdivision the tax is to be determined without regard to any credits against the tax and without taking into account any tax against which a credit is not allowed under section 901(a). Moreover, the foreign mineral income is to be reduced only by expenses, losses, and other deductions properly allocable under chapter 1 of the Code to such income. However, the foreign mineral income is to be computed without any deduction for personal exemptions under section 151 or 642(b).

(iii) *U.S. income tax computed without deduction allowed by section 613.* For purposes of subparagraph (1)(i)(*b*) of this paragraph, the amount of the tax which would be computed under chapter 1 of the Code (without regard to section 613) for the taxable year with respect to foreign mineral income from sources within a foreign country or possession of the United States is the amount of the tax on such income that would be computed under such chapter by using as the allowance for depletion cost depletion computed upon the adjusted depletion basis of the property. For purposes of this subdivision the tax is to be determined without regard to any credits against the tax and without taking into account any tax against which credit is not allowed under section 901(a). If the greater tax with respect to the foreign mineral income under subdivision (ii) of this subparagraph is the tax determined under (*a*) of such subdivision, the tax determined for purposes of subparagraph (1)(i)(*b*) of this paragraph is to be determined by applying the principles of (*a*) (rather than of (*b*)) of subdivision (ii) of this subparagraph. On the other hand, if the greater tax with respect to the foreign mineral income under subdivision (ii) of this subparagraph is the tax determined under (*b*) of such subdivision, the tax determined for purposes of subparagraph (1)(i)(*b*) of this paragraph is to be determined by applying the principles of (*b*) (rather than of (*a*)) of subdivision (ii) of this subparagraph.

(3) *Special rules.* (i) The reduction required by this paragraph in the amount of taxes paid, accrued, or deemed to be paid to a foreign country or possession of the United States applies only where the taxpayer is allowed a deduction for percentage depletion under section 613 with respect to any part of his foreign mineral income for the taxable year from sources within such country or possession, whether or not such deduction is allowed with respect to the entire foreign mineral income from sources within such country or possession for such year.

(ii) For purposes of this section, the term "foreign country" or "possession of the United States" includes the adjacent continental shelf areas to the extent, and in the manner, provided by section 638(2) and the regulations thereunder.

(iii) The provisions of this section are to be applied before making any reduction required by section 1503(b) in the amount of income, war profits, and excess profits taxes paid or accrued to foreign countries or possessions of the United States by a Western Hemisphere trade corporation.

(iv) In all cases in which a taxpayer has any foreign mineral income from sources within a foreign country or possession of the United States with respect to which the deduction under section 613 is allowed, he must attach to his return a schedule showing the computations required by subdivisions (i), (ii), and (iii) of subparagraph (2) of this paragraph.

(v) A taxpayer who has elected to use the overall limitation under section 904(a)(2) on the amount of the foreign tax credit for any taxable year beginning before January 1, 1970, may, for his first taxable year beginning after December 31, 1969, revoke his election without first securing the consent of the Commissioner. See paragraph (d) of § 1.904-1.

(b) *Foreign mineral income defined.*—(1) *In general.* The term "foreign mineral income" means income (determined under chapter 1 of the Code) from sources within a foreign country or possession of the United States derived from—

(i) The extraction of minerals from mines, wells, or other natural deposits,

(ii) The processing of minerals into their primary products, or

(iii) The transportation, distribution, or sale of minerals or of the primary products derived from minerals.

Any income of the taxpayer derived from an activity described in either subdivision (i), (ii), or (iii) of this subparagraph is foreign mineral income, since it is not necessary that the taxpayer extract, process, and transport, distribute, or sell minerals or their primary products for the income derived from any such activity to be foreign mineral income. Thus, for example, an integrated oil company must treat as foreign mineral income from sources within a foreign country or possession of the United States all income from such sources derived from the production of oil, the refining of crude oil into gasoline, the distribution of gasoline to marketing outlets, and the retail sale of gasoline. Similarly, income from such sources from the refining, distribution, or marketing of fuel oil by the taxpayer is foreign mineral income, whether or not the crude oil was extracted by the taxpayer. In further illustration, income from sources within a foreign country or possession of the United States derived from the processing of minerals into their primary products by the taxpayer is foreign mineral income, whether or not the minerals were extracted, or the primary products were sold, by the taxpayer. Section 901(e) and this section apply whether or not the extraction, processing, transportation, distribution, or selling of the minerals or primary products is done by the taxpayer. Thus, for example, an individual who derives royalty income from the extraction of oil from an oil well in a foreign country has foreign mineral income for purposes of this paragraph. Income from the manufacture, distribution, and marketing of petrochemicals is not foreign mineral income. Foreign mineral income is not limited to gross income from the property within the meaning of section 613(c) and § 1.613-3.

(2) *Income included in foreign mineral income.*—(i) *In general.* Foreign mineral income from sources within a foreign country or possession of the United States includes, but is not limited to—

(*a*) Dividends from such sources, as determined under paragraph (d)(1) of § 1.902-3, received from a foreign corporation in respect of which taxes are deemed paid by the taxpayer under section 902, to the extent such dividends are attributable to foreign mineral income described in subparagraph (1) of this paragraph. The portion of such a dividend which is attributable to such income is that amount which bears the same ratio to the total dividend received as the earnings and profits out of which such dividend is paid that are attributable to foreign mineral income bear to the total earnings and profits out of which such dividend is paid. For such purposes, the foreign mineral income of a foreign corporation is its foreign mineral income described in this paragraph (including any dividends described in this (*a*) which are received from another foreign corporation), whether or not such income is derived from sources within the foreign country or possession of the United States in which, or under the laws of which, the former corporation is created or organized. A foreign corporation is considered to have no foreign mineral income for any taxable year beginning before January 1, 1970.

(*b*) Any section 78 dividend to which a dividend described in (*a*) of this subdivision gives rise, but only to the extent such section 78 dividend is deemed paid under paragraph (*a*)(2)(i) of this section with respect to foreign mineral income from sources within such country or possession and to the extent it is treated under paragraph (d)(1) of § 1.902-3 as income from sources within such country or possession.

(*c*) Any amounts includible in income of the taxpayer under section 702(a) as his distributive share of the income of a partnership consisting of income described in subparagraph (1) of this paragraph.

(*d*) Any amounts includible in income of the taxpayer by virtue of section 652(a), 662(a), 671, 682(a), or 691(a), to the extent such amounts consist of income described in subparagraph (1) of this paragraph.

(ii) *Illustration.* The provisions of this subparagraph may be illustrated by the following example:

Example. (a) Throughout 1974, M, a domestic corporation, owns all the one class of stock of N, a foreign corporation which is not a less developed country corporation within the meaning of section 902(d). Both corporations use the calendar year as the taxable year. N is incorporated in foreign country Y. During 1974, N has income from sources within foreign country X, all of which is foreign mineral income. During 1974, N also has income from sources within country Y, none of which is foreign mineral income. N is taxed in each foreign country only on income derived from sources within that country. Neither country X nor country Y allows a credit against its tax for foreign income taxes. N pays a dividend of $40,000 to M for 1974. For purposes of section 902, the dividend is paid from earnings and profits for 1974.

(b) N's earnings and profits and taxes for 1974 are determined as follows:

Foreign mineral income from country X		$100,000
Less:		
Intangible drilling and development costs	$21,000	
Cost depletion	3,000	24,000
Taxable income from country X		76,000
Income tax rate of country X		×50%
Tax paid to country X		38,000
Income from country Y		100,000
Less deductions		25,000
Taxable income from country Y		75,000
Income tax rate of country Y		×60%
Tax paid to country Y		45,000
Total taxable income		151,000
Less total foreign income taxes		83,000
Total earnings and profits		68,000
Taxable income from foreign mineral income		76,000
Less: Tax paid on foreign mineral income		38,000
Earnings and profits from foreign mineral income		38,000

(c) For 1974, M has foreign mineral income from country Y of $49,636.68, determined in the following manner and by applying this section, § 1.78-1, and § 1.902-3(d)(1):

Portion of dividend from country Y attributable to foreign mineral income (subdivision (i)(*a*) of this subparagraph) ($40,000×$38,000/$68,000)	$22,352.94
Foreign income tax deemed paid by M to country Y under section 902(a)(1) ($83,000×$40,000/$68,000) (§ 1.902-3(a)(2))	48,823.53

V 37-82 APR 27 72 XUM

Foreign income tax deemed paid by M to country Y with respect to foreign mineral income from country Y (paragraph (a)(2)(i) of this section) ($48,823.53 × $22,352.94/$40,000)	$27,283.74
Foreign mineral income from country Y:	
Dividend attributable to foreign mineral income from country Y	22,352.94
Sec. 78 dividend deemed paid with respect to foreign mineral income (subdivision (i)(b) of this subparagraph	27,283.74
Total foreign mineral income	49,636.68

(c) *Limitations on foreign tax credit*—(1) *In general.* The reduction under section 901(e) and paragraph (a)(1) of this section in the amount of foreign taxes allowed as a credit under section 901(a) is to be made whether the per-country limitation under section 904(a)(1) or the overall limitations under section 904(a)(2) is used for the taxable year, but the reduction in the amount of foreign taxes allowed as a credit under section 901(a) must be made on a country-by-country basis before applying the limitation under section 904(a) to the reduced amount of taxes. If for the taxable year the separate limitation under section 904(f) applies to any foreign mineral income, that limitation must also be applied after making the reduction under section 901(e) and paragraph (a)(1) of this section.

(2) *Carrybacks and carryovers of excess tax paid*—(i) *In general.* Any amount by which (*a*) any income, war profits, and excess profits taxes paid or accrued, or deemed to be paid under section 902, during the taxable year to any foreign country or possession of the United States with respect to foreign mineral income from sources within such country or possession exceed (*b*) the reduced amount of such taxes as determined under paragraph (a)(1) of this section may not be deemed paid or accrued under section 904(d) in any other taxable year. See § 1.904–2(b)(2)(iii). However, to the extent such reduced amount of taxes exceeds the applicable limitation under section 904(a) for the taxable year it shall be deemed paid or accrued under section 904(d) in another taxable year as a carryback or carryover of an unused foreign tax. The amount so deemed paid or accrued in another taxable year is not, however, deemed paid or accrued with respect to foreign mineral income in such other taxable year. See § 1.904–2(c)(3).

(ii) *Carryovers to taxable years beginning after December 31, 1969.* Where, under the provisions of section 904(d), taxes paid or accrued, or deemed to be paid under section 902, to any foreign country or possession of the United States in any taxable year beginning before January 1, 1970, are deemed paid or accrued in one or more taxable years beginning after December 31, 1969, the amount of such taxes so deemed paid or accrued shall not be deemed paid or accrued with respect to foreign mineral income and shall not be reduced under section 901(e) and paragraph (a)(1) of this section.

(iii) *Carrybacks to taxable years beginning before January 1, 1970.* Where income, war profits, and excess profits taxes are paid or accrued, or deemed to be paid under section 902, to any foreign country or possession of the United States in any taxable year beginning after December 31, 1969, with respect to foreign mineral income from sources within such country or possession, they must first be reduced under section 901(e) and paragraph (a)(1) of this section before they may be deemed paid or accrued under section 904(d) in one or more taxable years beginning before January 1, 1970.

(d) *Illustrations.* The application of this section may be illustrated by the following examples, in which the surtax exemption provided by section 11(d) and the tax surcharge provided by section 51(a) are disregarded for purposes of simplification:

Example (1). (a) M, a domestic corporation using the calendar year as the taxable year, is an operator drilling for oil in foreign country W. For 1971, M's gross income under chapter 1 of the Code is $100,000, all of which is foreign mineral income from a property in country W and is subject to the allowance for depletion. During 1971, M incurs intangible drilling and development costs of $15,000, which are currently deductible for purposes of the tax of both countries. Cost depletion amounts to $2,000 for purposes of the tax of both countries, and only cost depletion is allowed as a deduction under the law of country W. It is assumed that no other deductions are allowable under the law of either country. Based upon the facts assumed, the income tax paid to country W on such foreign mineral income is $41,500, and the U.S. tax on such income before allowance of the foreign tax credit is $30,240, determined as follows:

	U.S. tax	*W tax*
Foreign mineral income	$100,000	$100,000
Less:		
Intangible drilling and development costs	15,000	15,000
Cost depletion	------	2,000
Percentage depletion (22% of $100,000, but not to exceed 50% of $85,000)	22,000	------
Taxable income	63,000	83,000
Income tax rate	48%	50%
Tax	30,240	41,500

(b) Without taking this section into account, M would be allowed a foreign tax credit for 1971 of $30,240 ($30,240×$63,000/$63,000), and foreign income tax in the amount of $11,260 ($41,500 less $30,240) would first be carried back to 1969 under section 904(d).

(c) Pursuant to paragraph (a)(1) of this section, however, the foreign income tax allowable as a credit against the U.S. tax is reduced to $31,900, determined as follows:

Foreign income tax paid on foreign mineral income		$41,500
Less reduction under sec. 901(e):		
Smaller of $41,500 (tax paid to country W on foreign mineral income) or $39,840 (U.S. tax on foreign mineral income of $83,000 ($83,000×48%), determined by by deducting cost depletion of $2,000 in lieu of percentage depletion of $22,000)	$39,840	
Less: U.S. tax on foreign mineral income (before credit)	$30,240	$9,600
Foreign income tax allowable as a credit		31,900

(d) After taking this section into account, M is allowed a foreign tax credit for 1971 of $30,240 ($30,240×$63,000/$63,000). The amount of foreign income tax which may be first carried back to 1969 under section 904(d) is reduced from $11,260 to $1,660 ($31,900 less $30,240).

Example (2). (a) M, a domestic corporation using the calendar year as the taxable year, is an operator drilling for oil in foreign country X. For 1972, M has gross income under chapter 1 of the Code of $100,000, all of which is foreign mineral income from a property in country X and is subject to the allowance depletion. During 1972, M incurs intangible drilling and development costs of $50,000 which are currently deductible for purposes of the U.S. tax but which must be amortized for purposes of the tax of country X. Percentage depletion of $22,000 is allowed as a deduction by both countries. For purposes of the U.S. tax, cost depletion for 1972 amounts to $15,000. It is assumed that no other deductions are allowable under the law of either country. Based upon these facts, the income tax paid to country X on such foreign mineral income is $27,200, and the U.S. tax on such income before allowance of the foreign tax credit is $13,440, determined as follows:

	U.S. tax	*X tax*
Foreign mineral income	$100,000	$100,000
Less:		
Intangible drilling & development costs	50,000	10,000
Percentage depletion	22,000	22,000
Taxable income	28,000	68,000
Income tax rate	48%	40%
Tax	13,440	27,200

(b) Without taking this section into account, M would be allowed a foreign tax credit for 1972 of $13,440 ($13,440×$28,000/$28,000), and foreign income tax in the amount of $13,760 ($27,200 less $13,440) would first be carried back to 1970 under section 904(d).

(c) Pursuant to paragraph (a)(1) of this section, however, the foreign income tax allowable as a credit against the U.S. tax is reduced to $23,840, determined as follows:

Foreign income tax paid on foreign mineral income		$27,200
Less reduction under sec. 901(e):		
Smaller of $27,200 (tax paid to country X on foreign mineral income) or $16,800 (U.S. tax on foreign mineral income of $35,000 ($35,000×48%), determined by deducting cost depletion of $15,000 in lieu of percentage depletion of $22,000)	$16,800	
Less: U.S. tax on foreign mineral income (before credit)	13,440	3,360
Foreign income tax allowable as a credit		23,840

(d) After taking this section into account, M is allowed a foreign tax credit of $13,440 ($13,440×$28,000/$28,000). The amount of foreign income tax which may be first carried back to 1970 under section 904(d) is reduced from $13,760 to $10,400 ($23,840 less $13,440).

Example (3). (a) N, a domestic corporation using the calendar year as the taxable year, is an operator drilling for oil in foreign country Y. For 1972, N's gross income under chapter 1 of the Code is $100,000, all of which is foreign mineral income from a property in country Y and is subject to the allowance for depletion. During 1972, N incurs intangible drilling and development costs of $15,000, which are currently deductible for purposes of the U.S. tax but are not deductible under the law of country Y. Depreciation of $40,000 is allowed as a deduction for purposes of the U.S. tax; and of $20,000 for purposes of the Y tax. Cost depletion amounts to $10,000 for purposes of the tax of both countries, and only cost depletion is allowed as a deduction under the law of country Y. It is assumed that no other deductions are allowable under the law of either country. Based upon the facts assumed, the income tax paid to country Y on such foreign mineral income is $14,000, and the U.S. tax on such income before allowance of the foreign tax credit is $11,040, determined as follows:

	U.S. tax	*Y tax*
Foreign mineral income	$100,000	$100,000
Less:		
Intangible drilling and development costs	15,000	------
Depreciation	40,000	20,000
Cost depletion	------	10,000
Percentage depletion (22% of $100,000, but not to exceed 50% of $45,000)	22,000	------
Taxable income	23,000	70,000
Income tax rate	48%	20%
Tax	11,040	14,000

(b) Without taking this section into account, N would be allowed a foreign tax credit for 1972 of $11,040 ($11,040×$23,000/$23,000), and foreign income tax in the amount of $2,960 ($14,000 less $11,040) would first be carried back to 1970 under section 904(d).

(c) Pursuant to paragraph (a)(1) of this section, however, the foreign income tax allowable as a credit against the U.S. tax is reduced to $11,040, determined as follows:

Foreign income tax paid on foreign mineral income		$14,000
Less reduction under sec. 901(e):		
Smaller of $14,000 (tax paid to country Y on foreign mineral income) or $16,800 (U.S. tax on foreign mineral income of $35,000 ($35,000×48%), determined by deducting cost depletion of $10,000 in lieu of percentage depletion of $22,000)	$14,000	
Less: U.S. tax on foreign mineral income (before credit)	11,040	2,960
Foreign income tax allowable as a credit		11,040

(d) After taking this section into account, N is allowed a foreign tax credit for 1972 of $11,040 ($11,040×$23,000/$23,000), but no foreign income tax is carried back to 1970 under section 904(d) since the allowable credit of $11,040 does not exceed the limitation of $11,040.

Example (4). (a) D, a domestic corporation using the calendar year as the taxable year, is an operator drilling for oil in foreign country Z. For 1971, D's gross income under chapter 1 of the Code is $100,000, all of which is foreign mineral income from a property in country Z and is subject to the allowance for depletion. During 1971, D incurs intangible drilling and development costs of $85,000, which are currently deductible for purposes of the U.S. tax but are not deductible under the law of country Z. Cost depletion in the amount of $10,000 is allowed as a deduction for purposes of both the U.S. tax and the tax of country Z. Percentage depletion is not allowed as a deduction under the law of country Z and is not taken as a deduction for purposes of the U.S. tax. It is assumed that no other deductions are allowable under the law of either country. Based upon the facts assumed, the income tax paid to country Z on such foreign mineral income is $27,000, and the U.S. tax on such income before allowance of the foreign tax credit is $2,400, determined as follows:

	U.S. tax	*Z tax*
Foreign mineral income	$100,000	$100,000
Less:		
Intangible drilling & development costs	85,000	------
Cost depletion	10,000	10,000
Taxable income	5,000	90,000
Income tax rate	48%	30%
Tax	2,400	27,000

(b) Section 901(e) and this section do not apply to reduce the amount of the foreign income tax paid to country Z with respect to the foreign mineral income since for 1971 D is not allowed the deduction for percentage depletion with respect to any foreign mineral income from sources within country Z. Accordingly, D is allowed a foreign tax credit of $2,400 ($2,400×$5,000/$5,000), and foreign income tax in the amount of $24,600 ($27,000 less $2,400) is first carried back to 1969 under section 904(d).

Example (5). (a) R, a domestic corporation using the calendar year as the taxable year, is an operator drilling for oil in the United States and in foreign country Z. For 1971, R's gross income under chapter 1 of the Code is $250,000, of which $100,000 is foreign mineral income from a property in foreign country Z and $150,000 is from a property in the United States, all being subject to the allowance for depletion. During 1971, R incurs intangible drilling and development costs of $125,000 in the United States and of $25,000 in country Z, all of which are currently deductible for purposes of the U.S. tax. Of these costs of $25,000 incurred in country Z, only $2,500 is currently deductible under the law of country Z. Cost depletion in the case of the U.S. property amounts to $60,000; and in the case of the property in country Z, to $5,000, which is allowed as a deduction under the laws of such country. Percentage depletion is not allowed as a deduction under the law of country Z. In computing the U.S. tax for 1971, R is required to use cost depletion with respect to the mineral income from the U.S. property and percentage depletion with respect to the foreign mineral income from the property in country Z. It is assumed that no other deductions are allowed under the law of either country. Based upon the facts assumed, the income tax paid to country Z on the foreign mineral income from sources therein is $37,000, and the U.S. tax on the entire mineral income before allowance of the foreign tax credit is $8,640, determined as follows:

	U.S. tax	*Z tax*
Gross income (including foreign mineral income)	$250,000	$100,000
Less:		
Intangible drilling and development costs	150,000	2,500
Cost depletion	60,000	5,000
Percentage depletion on foreign mineral income (22% of $100,000, but not to exceed 50% of [$100,000−$25,000])	22,000	------
Taxable income	18,000	$92,500
Income tax rate	48%	40%
Tax	8,640	37,000

(b) Without taking this section into account, R would be allowed a foreign tax credit for 1971 of $8,640 ($8,640×$18,000/$18,000), and foreign income tax in the amount of $28,360 ($37,000 less $8,640) would first be carried back to 1969 under section 904(d).

(c) Under paragraph (a)(2)(ii) of this section, the amount of the U.S. tax for 1971 with respect to foreign mineral income from country Z is $25,440, which is the greater of the amounts of tax determined under subparagraphs (1) and (2):

(1) U.S. tax on total taxable income in excess of U.S. tax on taxable income excluding foreign mineral income from country Z (determined under paragraph (a)(2)(ii)(a) of this section):

U.S. tax on total taxable income		$8,640
Less U.S. tax on taxable income other than foreign mineral income from country Z:		
Income from U.S. property	$150,000	
Intangible drilling and development costs	125,000	
Cost depletion	60,000	
Taxable income	0	
Income tax rate	48%	
U.S. tax	0	0
Excess tax		8,640

(2) U.S. tax on foreign mineral income from country Z (determined under paragraph (a)(2)(ii)(b) of this section):

Foreign mineral income		$100,000
Intangible drilling and development costs		25,000
Percentage depletion (22% of $100,000, but not to exceed 50% of $75,000)		22,000
Taxable income		53,000
Income tax rate		48%
U.S. tax		25,440

(d) Under paragraph (a)(2)(iii) of this section, the amount of the U.S. tax which would be computed for 1971 (without regard to section 613) with respect to foreign mineral income from sources within country Z is $33,600, computed by applying the principles of paragraph (a)(2)(ii)(*b*) of this section:

Foreign mineral income	$100,000
Intangible drilling and development costs	25,000
Cost depletion	5,000
Taxable income	70,000
Income tax rate	48%
U.S. tax	33,600

(e) Pursuant to paragraph (a)(1) of this section, the foreign income tax allowable as a credit against the U.S. tax for 1971 is reduced to $28,840, determined as follows:

Foreign income tax paid on foreign mineral income		$37,000
Less reduction under sec. 901(e):		
Smaller of $37,000 (tax paid to country Z on foreign mineral income) or $33,600 (U.S. tax on foreign mineral income of $70,000, as determined under paragraph (d) of this example	$33,600	
Less: U.S. tax on foreign mineral income of $53,000, as determined under paragraph (c) of this example	25,440	8,160

V 37-82 APR 27 72 XUM

Foreign income tax allowable as a credit	$28,840

(f) After taking this section into account, R is allowed a foreign tax credit for 1971 of $8,640 ($8,640×$18,000/$18,000). The amount of foreign income tax which may be first carried back to 1969 under section 904(d) is reduced from $28,360 to $20,200 ($28,840 less $8,640).

Example (5). (a) B, a single individual using the calendar year as the taxable year, is an operator drilling for oil in foreign countries X and Y. For 1972, B's gross income under chapter 1 of the Code is $250,000, of which $150,000 is foreign mineral income from a property in country X and $100,000 is foreign mineral income from a property in country Y, all being subject to the allowance for depletion. The asumption is made that B's earned taxable income for 1972 is insufficient to cause section 1348 to apply. During 1972, B incurs intangible drilling and development costs of $16,000 in country X and of $9,000 in country Y, which are currently deductible for purposes of both the U.S. tax and the tax of countries X and Y, respectively. Cost depletion in the case of the X property amounts to $8,000, and in the case of Y property, to $7,000; and such amounts are allowed as a deduction for purposes of both the U.S. tax and the tax of countries X and Y, respectively. For 1972, B uses the overall limitation under section 904(a)(2) on the foreign tax credit. Percentage depletion is not allowed as a deduction under the law of countries X and Y. It is assumed that the only other allowable deductions amount to $2,250. None of these deductions is attributable to the income from the properties in countries X and Y, and none is deductible under the laws of country X or country Y. Based upon the facts assumed, the income tax paid to countries X and Y on the foreign mineral income from each such country is $71,820 and $25,200, respectively, and the U.S. tax on B's total taxable income before allowance of the foreign tax credit is $99,990, determined as follows:

	U.S. tax	X tax	Y tax
Total income (including foreign mineral income from countries X and Y)	$250,000	$150,000	$100,000
Intangible drilling and development costs	25,000	16,000	9,000
Cost depletion	15,000	8,000	7,000
Percentage depletion (22% of $150,000, but not to exceed 50% of $134,000; plus 22% of $100,000, but not to exceed 50% of $91,000)	55,000		
Adjusted gross income	170,000		
Other deductions	2,250		
Personal exemption	750		
Taxable income	167,000	126,000	84,000
Income tax rate		57%	30%
Foreign tax		71,820	25,200
U.S. tax ($53,090 plus 70% of $67,000)	99,990		

(b) Without taking this section into account, B would be allowed a foreign tax credit for 1972 of $97,020 ($71,820+$25,200), but not to exceed the overall limitation under section 904(a)(2) of $99,990 ($99,990×$167,750/$167,750). There would be no foreign income tax carried back to 1970 under section 904(d) since the allowable credit of $97,020 does not exceed the limitation of $99,990.

(c) Under paragraph (a)(2)(ii) of this section, the amount of the U.S. tax for 1972 with respect to foreign mineral income from sources within country X is $69,760, which is the greater of the amounts of tax determined under subparagraphs (1) and (2):

(1) U.S. tax on total taxable income in excess of U.S. tax on taxable income excluding foreign mineral income from country X (determined under paragraph (a)(2)(ii)(a) of this section):

U.S. tax on total taxable income		$99,990
Less U.S. tax on taxable income other than foreign mineral income from country X:		
Foreign mineral income from country Y	$100,000	
Intangible drilling and development costs	9,000	
Percentage depletion (22% of $100,000, but not to exceed 50% of $91,000)	22,000	
Adjusted gross income	69,000	
Other deductions	2,250	
Personal exemption	750	
Taxable income	66,000	
U.S. tax ($26,390 plus 64% of $6,000)		30,230
Excess tax		69,760

(2) U.S. tax on foreign mineral income from country X (determined under paragraph (a)(2)(ii)(b) of this section):

Foreign mineral income from country X	$150,000.00
Intangible drilling and development costs	16,000.00
Percentage depletion (22% of $150,000, but not to exceed 50% of $134,000)	33,000.00
Adjusted gross income	101,000.00
Other deductions	2,250.00
Taxable income	98,750.00
U.S. tax ($46,190 plus 69% of $8,750)	52,227.50

(d) Under paragraph (a)(2)(iii) of this section, and by applying the principles of paragraph (a)(2)(ii)(a) of this section, the amount of the U.S. tax which would be computed for 1972 (without regard to section 613) with respect to foreign mineral income from sources within country X is $87,920, which is the excess of the U.S. tax ($127,990) determined under subparagraph (1) over the U.S. tax ($40,070) determined under subparagraph (2):

(1) U.S. tax on total taxable income determined without regard to section 613:

Total income	$250,000
Intangible drilling and development costs	25,000
Cost depletion	15,000
Adjusted gross income	210,000
Other deductions	2,250
Personal exemption	750
Taxable income	207,000
U.S. tax ($53,090 plus 70% of $107,000)	127,990

(2) U.S. tax on total taxable income other than foreign mineral income from country X, determined without regard to section 613:

Foreign mineral income from country Y	$100,000
Intangible drilling and development costs	9,000
Cost depletion	7,000
Adjusted gross income	84,000
Other deductions	2,250
Personal exemption	750
Taxable income	81,000
U.S. tax ($39,390 plus 68% of $1,000)	40,070

(e) Under paragraph (a)(2)(i) of this section, the amount of income tax paid to country X for 1972 with respect to foreign mineral income from sources within such country is $71,820. This is the amount determined under both (a) and (b) of paragraph (a)(2)(i) of this section, since, in this case, there is no income from sources within country X other than foreign mineral income, and there are no deductions allowed under the law of country X which are not allocable to such foreign mineral income.

(f) Pursuant to paragraph (a)(1) of this section, the foreign income tax with respect to foreign mineral income from sources within country X which is allowable as a credit against the U.S. tax for 1972 is reduced to $69,760, determined as follows:

Foreign income tax paid to country X on foreign mineral income		$71,820
Less reduction under sec. 901(e):		
Smaller of $71,820 (tax paid to country X on foreign mineral income) or $87,920 (U.S. tax on foreign mineral income from sources within country X, as determined under paragraph (d)) of this example	$71,820	
Less: U.S. tax on foreign mineral income from sources within country X, determined under paragraph (c) of this example	69,760	2,060
Foreign income tax of country X allowable as a credit		69,760

(g) Under paragraph (a)(2)(ii) of this section, the amount of the U.S. tax for 1972 with respect to foreign mineral income from sources within country Y is $48,280, which is the greater of the amounts of tax determined under subparagraphs (1) and (2):

(1) U.S. tax on total taxable income in excess of U.S. tax on taxable income excluding foreign mineral income from country Y (determined under paragraph (a)(2)(ii)(a) of this section):

U.S. tax on total taxable income		$99,990
Less U.S. tax on taxable income from country Y:		
Foreign mineral income from country X	$150,000	
Intangible drilling and development costs	16,000	
Percentage depletion (22% of $150,000, but not to exceed 50% of $134,000)	33,000	
Adjusted gross income	101,000	
Other deductions	2,250	
Personal exemption	750	
Taxable income	98,000	
U.S. tax ($46,190 plus 69% of $8,000)		51,710
Excess tax		48,280

(2) U.S. tax on foreign mineral income from country Y (determined under paragraph (a)(2)(ii)(b) of this section):

Foreign mineral income from country Y	$100,000
Intangible drilling and development costs	9,000
Percentage depletion (22% of $100,000, but not to exceed 50% of $91,000)	22,000
Adjusted gross income	69,000
Other deductions	2,250
Taxable income	66,750
U.S. tax ($26,390 plus 64% of $6,750)	30,710

(h) Under paragraph (a)(2)(iii) of this section, and by applying the principles of paragraph (a)(2)(ii)(a) of this section, the amount of the U.S. tax which would be computed for 1972 (without regard to section 613) with respect to foreign mineral income from sources within country Y is $58,800, which is the excess of the U.S. tax ($127,990) determined under paragraph (d)(1) of this example over the U.S. tax ($69,190) on total taxable income other than foreign mineral income from country Y, determined without regard to section 613, as follows:

Foreign mineral income from country X	$150,000
Intangible drilling and development costs	16,000
Cost depletion	8,000
Adjusted gross income	126,000
Other deductions	2,250
Personal exemption	750
Taxable income	123,000
U.S. tax ($53,090 plus 70% of $23,000)	69,190

(i) Under paragraph (a)(2)(i) of this section, the amount of income tax paid to country Y for 1972 with respect to foreign mineral income from sources within such country is $25,200. This is the amount determined under both (a) and (b) of paragraph (a)(2)(i) of this section, since, in this case, there is no income from sources within country Y other than foreign mineral income, and there are no deductions allowed under the law of country Y which are not allocable to such foreign mineral income.

(j) Pursuant to paragraph (a)(1) of this section, the foreign income tax with respect to foreign mineral income from sources within country Y which is allowable as a credit against the U.S. tax for 1972 is not reduced from $25,200, as follows:

Foreign income tax paid to country Y on foreign mineral income		$25,200
Less reduction under sec. 901(e):		
Smaller of $25,200 (tax paid to country Y on foreign mineral income) or $58,800 (U.S. tax on foreign mineral income from sources within country Y, as determined under paragraph (h) of this example)	$25,200	
Less: U.S. tax on foreign mineral income from sources within country Y, as determined under paragraph (g) of this example	46,280	
Foreign income tax of country Y allowable as a credit		25,200

(k) After taking this section into account, B is allowed a foreign tax credit for 1972 of $92,470 ($69,760+$25,200), but not to exceed the overall limitation under section 904(a)(2) of $99,990 ($99,990×$167,750/$167,750). There would be no foreign income tax carried back to 1970 under section 904(d) since the allowable credit of $92,470 does not exceed the limitation of $99,990.

Example (7). (a) P, a domestic corporation using the calendar year as the taxable year, is an operator mining for iron ore in foreign country X. For 1971, P's gross income under chapter 1 of the Code is $100,000, all of which is foreign mineral income from a property in country X and is subject to the allowance for depletion. For 1971, cost depletion amounts to $5,000 for purposes of the tax of both countries, and only cost depletion is allowed as a deduction under the law of country X. It is assumed that deductions (other than for depletion) attributable to the mineral property in country X amount to $8,000, and these deductions are allowable under the law of both countries. Based upon the facts assumed, the income tax paid to country X on such foreign mineral income is $39,150, and the U.S. tax on such income before allowance of the foreign tax credit is $37,440 determined as follows:

	X tax	U.S. tax
Foreign mineral income	$100,000	$100,000
Less:		
Percentage depletion (14% of $100,000, but not to exceed 50% of $92,000)	14,000	
Cost depletion		5,000
Other deductions	8,000	8,000
Taxable income	78,000	87,000
Income tax rate	48%	45%
Tax	37,440	39,150

(l) Without taking this section into account, P would be allowed a foreign tax credit for 1971 of $37,440 ($37,440×$78,000/$78,000), and foreign income tax in the amount of $1,710 ($39,150 less $37,440) would first be carried back to 1969 under section 904(d).

(c) Pursuant to paragraph (a)(1) of this section, however, the foreign income tax allowable as a credit against the U.S. tax is reduced to $37,440, determined as follows:

Foreign income tax paid on foreign mineral income		$39,150
Less reduction under sec. 901(e):		
Smaller of $39,150 (tax paid to country X on foreign mineral income) or $41,760 (U.S. tax on foreign mineral income of $87,000 ($87,000×48%), determined by deducting cost depletion of $5,000 in lieu of percentage depletion of $14,000)	$39,150	
Less: U.S. tax on foreign mineral income (before credit)	37,440	1,710
Foreign income tax allowable as a credit		37,440

(d) After taking this section into account, P is allowed a foreign tax credit for 1971 of $37,440 ($37,440×$78,000/$78,000), but no foreign income tax is carried back to 1969 under section 904(d) since the allowable credit of $37,440 does not exceed the limitation of $37,440.

Example (8). (a) The facts are the same as in example (7), except that P is assumed to have received dividends for 1971 of $25,000 from R, a foreign corporation incorporated in country X which is not a less developed country corporation within the meaning of section 902(d). Income tax of $2,500 ($25,000×10%) on such dividends is withheld at the source in country X. It is assumed that P is deemed under section 902(a)(1) and § 1.902-3(d) to have paid income tax of $22,500 to country X in respect of such dividends and that under paragraphs (a)(2)(i) and (b)(2)(i) of this section such dividends are deemed to be attributable to foreign mineral income from sources in country X and that such tax is deemed to be paid with respect to such foreign mineral income. Based upon the facts assumed, the U.S. tax on the foreign mineral income from sources in country X is $60,240 before allowance of the foreign tax credit, determined as follows:

Foreign mineral income from country X:		
Income from mining property	$100,000	
Dividends from R	25,000	
Sec. 78 dividend	22,500	$147,500
Less:		
Percentage depletion (14% of $100,000, but not to exceed 50% of $92,000)		$14,000
Other deductions		8,000
Taxable income		125,500
Income tax rate		48%
U.S. tax		60,240

(b) Without taking this section into account, P would be allowed a foreign tax credit for 1971 of $60,240 ($60,240×$125,500/$125,500), and foreign income tax in the amount of $3,910 ([$39,150+$22,500+$2,500] less $60,240) would first be carried back to 1969 under section 904(d).

(c) Pursuant to paragraph (a)(1) of this section, however, the foreign income tax allowable as a credit against the U.S. tax is reduced from $64,150 to $60,240, determined as follows:

Foreign income tax paid, and deemed to be paid, to country X on foreign mineral income ($39,150+$22,500+$2,500)		$64,150
Less reduction under sec. 901(e):		
Smaller of $64,150 (tax paid and deemed paid to country X on foreign mineral income) or $64,560 (U.S. tax on foreign mineral income of $134,500 ($134,500×48%), determined by deducting cost depletion of $5,000 in lieu of percentage depletion of $14,000)	$64,150	
Less: U.S. tax on foreign mineral income (before credit)	60,240	3,910
Foreign income tax allowable as a credit		60,240

(c) After taking this section into account, P is allowed a foreign tax credit for 1971 of $60,240 ($60,240×$125,500/$125,500), but no foreign income tax is carried back to 1969 under section 904(d) since the allowable credit of $60,240 does not exceed the limitation of $60,240.

PAR. 4. Section 1.902-3 is amended by revising paragraph (a)(1) to read as follows:

§ 1.902-3 **Credit for domestic corporate shareholder of a foreign corporation (after amendment by Revenue Act of 1962).**

(a) *Domestic shareholder owning stock in a first-tier corporation*—(1) *In general.* If a domestic shareholder (meaning for purposes of section 902 a domestic corporation owning at least 10 percent of the voting stock of a foreign corporation, such foreign corporation for purposes of section 902 being referred to as a first-tier corporation) receives dividends in any taxable year from its first-tier corporation, the credit for foreign income taxes allowed by section 901 includes, subject to the conditions and limitations prescribed in subparagraphs (4) through (8) of this paragraph, the foreign income taxes deemed, in accordance with subparagraphs (2) and (3) of this paragraph, to be paid by such domestic shareholder for such year. For purposes of this section, § 1.902-4, and § 1.902-5, the term "foreign income taxes" means income, war profits, and excess profits taxes, and taxes included in the term "income, war

V 37 ■ 82 APR 27 72 XUM

profits, and excess profits taxes" by reason of section 903, imposed by a foreign country or a possession of the United States. For rules relating to reduction of the amount of foreign income taxes deemed paid or accrued with respect to foreign mineral income, see section 901 (e) and § 1.901–3.

• • • • •

PAR. 5. Section 1.904 is amended by revising subsection (b) (1) and (2) of section 904 and the historical note to read as follows:

§ 1.904 Statutory provisions; limitation on credit.

SEC. 904. *Limitation on credit.* • • •

(b) *Election of overall limitation*—(1) *In general.* A taxpayer may elect the limitation provided by subsection (a)(2) for any taxable year beginning after December 31, 1960. An election under this paragraph for any taxable year shall remain in effect for all subsequent taxable years except that it may be revoked (A) with the consent of the Secretary or his delegate with respect to any taxable year or (B) for the taxpayer's first taxable year beginning after December 31, 1969.

(2) *Election after revocation.* Except in a case to which paragraph (1)(B) applies, if the taxpayer has made an election under paragraph (1) and such election has been revoked, such taxpayer shall not be eligible to make a new election under paragraph (1) for any taxable year, unless the Secretary or his delegate consents to such new election.

• • • • •

[Sec. 904 as amended by sec. 42(a), Technical Amendments Act 1958 (72 Stat. 1639); sec. 1, Act of Sept. 14, 1960 (Public Law 86–780, 74 Stat. 1010); secs. 10 and 12(b)(2), Rev. Act 1962 (76 Stat. 1002, 1031); sec. 234 (b)(6), Rev. Act 1964 (78 Stat. 116); sec. 106(c), Foreign Investors Tax Act 1966 (80 Stat. 1570); sec. 506(b), Tax Reform Act 1969 (83 Stat. 635)]

PAR. 6. Section 1.904–1 is amended by revising paragraph (d)(1) to read as follows:

§ 1.904–1 Limitation on credit for foreign taxes.

• • • • •

(d) *Election of overall limitation*—(1) *In general*—(i) *Manner of making election.* The initial election under section 904(b) of the overall limitation provided by section 904(a)(2) may be made by the taxpayer for any taxable year beginning after December 31, 1960, without securing the consent of the Commissioner. The taxpayer may, for the first taxable year for which the election is to be made, make such election at any time before the expiration of the period referred to in paragraph (d) of § 1.901–1 for choosing the benefits of section 901 for such taxable year. Having made the initial election, the taxpayer may, within the time prescribed for making such election for such taxable year, revoke such election without the consent of the Commissioner. If such revocation is timely and properly made, the taxpayer may make his initial election of the overall limitation for a later taxable year without the consent of the Commissioner. If, however, the taxpayer makes the initial election for a taxable year and the period prescribed for making such election for such taxable year expires, the taxpayer must continue the election of the overall limitation for all subsequent taxable years (whether or not foreign taxes were paid or accrued for any such year and notwithstanding that a deduction for foreign taxes under section 164 was claimed for any such year) until revoked with the consent of the Commissioner. See section 904(b)(1). If the election for any taxable year is revoked with the consent of the Commissioner, the taxpayer may not make a new election for such taxable year or for any subsequent taxable year without the consent of the Commissioner. If the election of the overall limitation is revoked for a taxable year, the per-country limitation shall apply to such taxable year and to all taxable years thereafter unless a new election of the overall limitation is made, either with or without the consent of the Commissioner in accordance with this section.

(ii) *Revocation for first taxable year beginning after December 31, 1969.* Notwithstanding subdivision (i) of this subparagraph, if the taxpayer has made an initial election under section 904(b) of the overall limitation for a taxable year beginning before January 1, 1970, and the period prescribed for making such election for such taxable year has expired, or if he has made a new election for such a taxable year with the consent of the Commissioner, he may revoke such election effective with respect to his first taxable year beginning after December 31, 1969, without the consent of the Commissioner. Such revocation may be made within the time prescribed for making an initial election for such first taxable year beginning after December 31, 1969. If such revocation is timely and properly made, the taxpayer may make a new election of the overall limitation for a later taxable year without the consent of the Commissioner. Such new election for a later taxable year may be made at any time before the expiration of the period referred to in paragraph (d) of § 1.901–1 for choosing the benefits of section 901 for such taxable year. The revocation of an election, or the making of a new election, pursuant to this subdivision shall be made in the same manner provided in subparagraph (2) of this paragraph for revoking or making an initial election. This subdivision applies even though the taxpayer is not required under section 901(e) and § 1.901–3 to reduce the amount of any foreign taxes paid, accrued, or deemed to be paid with respect to foreign mineral income for any taxable year beginning after December 31, 1969.

• • • • •

PAR. 7. Section 1.904–2 is amended by adding subdivision (iii) to paragraph (b)(2) and by adding subparagraph (3) to paragraph (c), as follows:

§ 1.904–2 Carryback and carryover of unused foreign tax.

• • • • •

(b) *Years to which carried.* • • •

(2) *Definitions.* • • •

(iii) The term "unused foreign tax" does not include any amount by which the income, war profits, and excess profits taxes paid or accrued, or deemed to be paid, to any foreign country or possession of the United States with respect to foreign mineral income are reduced under section 901(e)(1) and § 1.901–3(b)(1).

• • • • •

(c) *Tax deemed paid or accrued.* • • •

(3) *Unused foreign tax with respect to foreign mineral income.* If any portion of an unused foreign tax for any taxable year beginning after December 31, 1969, consists of tax paid or accured, or deemed to be paid, with respect to foreign mineral income, as defined in § 1.901–3(c), such portion shall not be deemed paid or accrued with respect to foreign mineral income in the taxable year to which it is carried under section 904(d).

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 121]

FOOD ADDITIVES

2,4–D; Proposed Tolerances

A pesticide petition (PP 1E1136) was submitted by the Bureau of Reclamation, U.S. Department of the Interior, to the Environmental Protection Agency in accordance with provisions of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a), proposing establishment of a tolerance (40 CFR Part 180) for negligible residues of the herbicide 2,4–4 (2,4-dichlorophenoxyacetic acid) from application of its dimethylamine salt to irrigation ditch banks at 0.1 part per million. (For a related document, see this issue of the FEDERAL REGISTER, page 8462.)

The Reorganization Plan No. 3 of 1970, published in the FEDERAL REGISTER of October 6, 1970 (35 F.R. 15623), transferred (effective Dec. 2, 1970) to the Administrator of the Environmental Protection Agency the functions vested in the Secretary of Health, Education, and Welfare for establishing tolerances for pesticide chemicals under sections 406, 408, and 409 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346, 346a, and 348).

Having evaluated the data in the petition and other relevant material, it is concluded that the proposed tolerance should be established for the residues which occur in potable water as a result of application of 2,4–D dimethylamine salt to irrigation ditch banks.

Therefore, pursuant to provisions of the act (sec. 409(d), 72 Stat. 1787; 21 U.S.C. 348(d)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038), it is proposed that § 121.1204 be revised to read as follows:

§ 121.1204 2,4–D.

Tolerances are established for residues of the herbicide 2,4–D (2,4-dichlorophenoxyacetic acid) as follows:

2 parts per million in the milled fractions (except flour) derived from barley, oats, rye, and wheat to be ingested as food or to be converted to food. Such residues may be present therein only as a result of application to the growing crop of the herbicides identified in Title 40, § 180.142.

0.1 part per million (negligible residues) in potable water. Such residues may be present therein only as a result of application of the dimethylamine salt of 2,4–D to irrigation ditch banks in the Western United States in programs of the Bureau of Reclamation; cooperating water user organizations; the Bureau of Sport Fisheries, U.S. Department of the Interior; Agricultural Research Service, U.S. Department of Agriculture and the Corps of Engineers, U.S. Department of Defense.

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, within 30 days after publication hereof in the FEDERAL REGISTER, that this proposal be referred to an advisory committee in accordance with section 409(d) of the act.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Environmental Protection Agency, Room 3125, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, D.C. 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: April 21, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72–6417 Filed 4–26–72;8:48 am]

[21 CFR Part 295]

HUMAN PRESCRIPTION DRUGS IN ORAL DOSAGE FORMS

Proposed Child Protection Packaging Standards

Through investigations by the Food and Drug Administration and from other available information, the Commissioner of Food and Drugs has determined that the accidental ingestion of orally administered prescription drugs for human use has been a significant cause of hospitalizations and fatalities of children under 5 years of age.

A prescription drug (that is, a drug which by Federal law may be dispensed only by prescription of a practitioner licensed by law to administer such drug) is often so categorized because of its toxicity or other potentiality for harmful effect.

In view of the large number of prescription drugs for oral administration dispensed annually, and the fact that the major burden of complying with child protection packaging standards for such substances under the Poison Prevention Packaging Act of 1970 will fall on retail pharmacists, the Commissioner has sought the most practical and efficient approach to rapid implementation of the act in this area. Two basic alternate approaches have been considered: (1) The preparation of a list of specific prescription drugs requiring such packaging and (2) a comprehensive across-the-board approach applicable to all prescription drugs for oral administration in humans.

The Food and Drug Administration has sought the views of five professional societies representing practicing pharmacists as to the more appropriate approach; namely, American Pharmaceutical Association, National Association of Chain Drug Stores, Inc., American Society of Hospital Pharmacists, National Pharmaceutical Association, and National Association of Retail Druggists. Three of the four responding strongly support the across-the-board approach as the most effective means to accomplish the purposes of the act. The fourth is concerned as to availability of the required containers and suggests that experience should be gained with a limited approach before the across-the-board requirement is adopted.

Upon consideration of these responses and in the interest of most efficiently accomplishing the objectives of the act, the Commissioner concludes that the comprehensive, across-the-board approach is the appropriate course of action.

After review of the above information and upon consultation, pursuant to section 3, with the Technical Advisory Committee convened in accordance with section 6 of the act, the Commissioner finds that the nature of the hazard to children posed by orally administered prescription drugs for humans, by reason of their availability and packaging, is such that special packaging is necessary to protect children from serious personal injury or serious illness resulting from handling, using, or ingesting such substances.

On the basis of reports and data from industry and other relevant information, and pursuant to section 3(a)(2) of the act, the Commissioner finds that the special packaging proposed herein is:

1. Technically feasible because technology exists to produce special packaging conforming to these standards. At least 15 different special packages have been tested in accordance with § 295.10 *Testing procedure for special packaging* (21 CFR 295.10; 36 F.R. 22151, 37 F.R. 741) that meet or exceed the effectiveness specifications of § 295.3(b).

2. Practicable in that it is susceptible to modern mass production and assembly line techniques. Reported production data indicate a capability adequate to meet the needs of affected industries.

3. Appropriate since such special packaging is not detrimental to the integrity of the substance and will not interfere with its storage or use.

The demands for special packaging are expected to be substantial and will increase rapidly as implementation of the act for drugs continues. Manufacturers and pharmacists are encouraged to stock adequate supplies of special packaging in order to meet the effective dates for special packaging requirements for drugs. The Food and Drug Administration encourages the pharmaceutical industry and pharmacists to cooperate and start the use of special packaging for all drug products where any potential for hazard to children exists. The objective of the act warrants initiatives toward special packaging that should not await the time-consuming procedures necessary to establish legally enforceable requirements.

Accordingly, pursuant to provisions of the Poison Prevention Packaging Act of 1970 (secs. 2(4), 3, 5, 84 Stat. 1670–72; 15 U.S.C. 1471(4), 1472, 1474) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes that a new subparagraph be added to § 295.2(a) as follows (§§ 295.2 and 295.3 were promulgated in the FEDERAL REGISTER of February 16, 1972; 37 F.R. 3427):

§ 295.2 Substances requiring "special packaging."

(a) *Substances.* The Commissioner of Food and Drugs has determined that the degree or nature of the hazard to children in the availability of the following substances, by reason of their packaging, is such that special packaging is required to protect children from serious personal injury or illness resulting from handling, using, or ingesting such substances, and that the special packaging herein required is technically feasible, practicable, and appropriate for these substances:

• • • • •

(10) *Prescription drugs.* Any drug for human use that is in a dosage form intended for oral administration and that is required by Federal law to be dispensed only by or upon an oral or written prescription of a practitioner licensed by law to administer such drug shall be packaged in accordance with the provisions of § 295.3 (a), (b), and (c).

• • • • •

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6–88, 5600 Fishers Lane, Rockville, Md. 20852, written comments (preferably in quintuplicate) regarding

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-SO-34]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Washington, Ga., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, Post Office Box 20636, Atlanta, GA 30320. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 724, 3400 Whipple Street, East Point, GA.

The Washington transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Washington-Wilkes County Airport (latitude 33°47'20" N., longitude 82°48'30" W.); within 2.5 miles each side of Athens VOR 112° radial, extending from the 6.5-mile radius area to 25 miles east of the VOR.

The proposed designation is required to provide controlled airspace protection for IFR operations at Washington-Wilkes County Airport. A prescribed instrument approach procedure to this airport, utilizing the Athens, Ga. VOR, is proposed in conjunction with the designation of this transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348 (a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on April 18, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-6402 Filed 4-26-72;8:47 am]

[14 CFR Part 71]

[Airspace Docket No. 72-EA-44]

CONTROL ZONE

Proposed Designation and Alteration

The Federal Aviation Administration is considering amending § 71.171 of Part 71 of the Federal Aviation Regulations so as to designate a Westhampton Beach, N.Y. control zone and alter the Calverton, N.Y. control zone (37 F.R. 2067).

The U.S. Air Force has submitted an airspace proposal to establish a part-time control zone at Suffolk County Airport, Westhampton Beach, N.Y. The airport meets the communications, weather observation and reporting requirements for control zone designation. The proposed control zone will overlap a small portion of the existing Calverton, N.Y. control zone. Therefore an editorial change is required in the Calverton control zone so as to exclude the airspace which is coincident with the proposed Westhampton Beach control zone.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Westhampton Beach, N.Y., proposes the airspace action hereinafter set forth:

1. Amend §71.171 of Part 71, Federal Aviation Regulations so as to add a Westhampton Beach, N.Y. control zone as follows:

WESTHAMPTON BEACH, N.Y.

Within a 5.5-mile radius of Suffolk County Airport (latitude 40°59'39" N., longitude 72°37'49" W.). This control zone shall be in effect from 0700 to 2300 hours, local time, daily.

2. Amend § 71.171 of Part 71, Federal Aviation Regulations so as to alter the Calverton, N.Y. control zone as follows:

In the text, delete "12.5 miles east of the VORTAC." and substitute, "12.5 miles east of the VORTAC excluding the portion within the Westhampton Beach, N.Y. control zone.".

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y. on April 7, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 180]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

2,4–D; Proposed Tolerance

The Bureau of Reclamation, U.S. Department of the Interior, submitted a pesticide petition (PP 1E1136) proposing establishment of tolerances for negligible residues of the herbicide 2,4–D (2,4-dichlorophenoxyacetic acid) in or on various raw agricultural commodities from application of its dimethylamine salt to irrigation ditch banks at 0.1 part per million. (For a related document, see this issue of the FEDERAL REGISTER, page 8460.)

Based on consideration given data submitted in the petition and other relevant material it is concluded that:

1. The pesticide is useful for the purpose for which the tolerances are proposed.

2. Livestock are to be excluded from treated ditch banks, and there is no reasonable expectancy of 2,4–D residues in meat or milk from this use.

3. The proposed tolerances will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and trator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9036), it is proposed that § 180.142 be amended by inserting new paragraph (c) after paragraph (b), as follows:

§ 180.142 2,4–D; tolerances for residues.

• • • • •

(c) Tolerances are established for negligible residues of 2,4–D (2,4-dichlorophenoxyacetic acid) from application of its dimethylamine salt to irrigation ditch banks in the Western United States in programs of the Bureau of Reclamation; cooperating water user organizations; the Bureau of Sport Fisheries, U.S. Department of the Interior; Agricultural Research Service, U.S. Department of Agriculture; and the Corps of Engineers, U.S. Department of Defense, at 0.1 part per million in or on the crop groupings: Citrus; cucurbits; forage grasses; forage legumes; fruiting vegetables; grain crops; leafy vegetables; nuts; pome fruits; root crop vegetables; seed and pod vegetables; small fruits, stone fruits; and the individual raw agricultural commodities avocados, cottonseed, hops, and strawberries.

Where tolerances are established at on the subject crops, the higher tolerance applies also to residues from the irrigation ditch bank use cited above.

Any person who has registered or submitted an application for the registration of an economic poison under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, within 30 days after publication hereof in the FEDERAL REGISTER, that this proposal be referred to an advisory committee in accordance with section 408(e) of the act.

Interested persons may, within 30 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Environmental Protection Agency, Room 3125, South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC 20460, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof.

Dated: April 21, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

PAY BOARD

[6 CFR Part 205]

PAY BOARD PROCEDURAL REGULATIONS

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Chairman of the Pay Board. Since rules set forth in Part 205 are essential to the expeditious implementation of the Economic Stabilization Act of 1970, as amended, the Board finds that the time for the submission of comments or suggestions by interested persons in accordance with usual rule making procedures is impracticable and that good cause exists for promulgating them in less than 30 days. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, preferably in quintuplicate, to the Chairman of the Pay Board, Attention: Office of General Counsel, 2000 M Street NW., Washington DC 20508, by May 8, 1972. Any written comments or suggestions not specifically designated as confidential may be inspected by any person upon written request.

The proposed revision of the rules as set forth below is issued pursuant to the authority vested in the Pay Board by the Economic Stabilization Act of 1970, as amended (Public Law 92–210, 85 Stat. 743), Executive Order No. 11640 (37 F.R. 1213, Jan. 27, 1972), as amended, and Cost of Living Council Orders No. 3 (36 F.R. 20202, Oct. 16, 1971) and No. 6 (37 F.R. 2727, Feb. 4, 1972).

205.81 Retroactive pay adjustment challenges; proceedings.
205.82 Board decisions.

AUTHORITY: The provisions of this Part 205 are issued under the Economic Stabilization Act of 1970, as amended, Public Law 91–379, 84 Stat. 799; Public Law 91–558, 84 Stat. 1468; Public Law 92–8, 85 Stat. 13; Public Law 92–15, 85 Stat. 38; Public Law 92–210, 85 Stat. 743; Executive Order No. 11640 (37 F.R. 1213, Jan. 27, 1972), as amended; Cost of Living Council Orders No. 3 (36 F.R. 20202, Oct. 16, 1971) and No. 6 (37 F.R. 2727, Feb. 4, 1972).

Subpart A—General

§ 205.1 Purpose and scope.

(a) This part establishes procedures for—

(1) Appeals from adverse actions by the Internal Revenue Service;

(2) Initial action on requests for exceptions or pay challenges and review of denials of such requests or challenges, in whole or in part;

(3) Petitions and comments on rule making;

(4) Formal hearings on certain wage and salary increases; and

(5) Initial action on retroactive pay adjustments and review of denials of such adjustments.

(b) Pursuant to section 214(b)(3) of the Economic Stabilization Act of 1970, as amended, if any small business enterprise files a request, challenge, application, or appeal under the provisions of this part, such request, challenge, application, or appeal will be accorded expeditious handling by affording it priority on the dockets maintained by the Board for the orderly conduct of its business.

§ 205.2 Definitions.

For purposes of this part—

"Act" means the Economic Stabilization Act of 1970, as amended.

"Adverse action" means an action by the Board or IRS denying the position, in whole or in part, of a party at interest (as defined by § 201.3 of this chapter) with respect to a pay adjustment, or an interpretation issued by IRS or ruling issued by the Office of the Chief Counsel for the Internal Revenue Service which is contrary to the position asserted by the person seeking the interpretation or ruling.

V 37-82 APR 27 72 XUM

"Board" means the Pay Board as established by Executive Order No. 11627, and as continued by Executive Order No. 11640 and 11660, or its delegate. The term delegate, as here used, does not encompass IRS or the Office of the Chief Counsel for the Internal Revenue Service.

"District Director" mean a district director of the IRS.

"Exception" means an order issued by the Board or its delegate to a person as defined by § 201.3 of this chapter waiving requirements of a specific rule, regulation, or order issued pursuant to the Act.

"Hearing Officer" means a person appointed by the Board for purposes of conducting a hearing in accordance with Subparts B, C, E, and F of this part.

"IRS" means the Internal Revenue Service.

"Pay adjustment" means a change in wages or salaries.

"Pay challenge" means an objection to an existing contract or pay practice previously set forth in accordance with § 201.14 of this chapter, filed by—

(a) A party at interest as defined in § 201.3 of this chapter; or

(b) Two or more members of the Board.

"Person aggrieved" means:

(a) In cases where the IRS or Board has denied the position, in whole or in part, of a party at interest (as defined by § 201.3 of this chapter) with respect to a pay adjustment, a person who is a party at interest; or

(b) In cases in which the IRS has issued an interpretation or the Office of the Chief Counsel for the Internal Revenue Service has issued a ruling, a person who requested such interpretation or ruling and asserts a position contrary thereto.

"Petition" means a written objection to or proposal for a published ruling or regulation promulgated by the Board.

"Regulation" means a regulation issued by the Board which appears in Chapter II of Title 6, Code of Federal Regulations.

§ 205.3 Representation.

Representation by counsel or other individuals under this part shall be in accordance with the rules governing authority to practice before IRS prescribed in § 401.702 of this title. The Board may permit any other individual to represent any person when circumstances indicate that such representation is justified.

§ 205.4 Filing of documents.

(a) A document required to be filed directly with the Board under this chapter is considered filed when it has been received at the Pay Board offices. Documents received after regular business hours are deemed filed on the next regular business day.

(b) A person filing—

(1) A request for an exception,

(2) A challenge,

(3) A prenotification or report of a pay adjustment,

(4) A retroactive pay adjustment,

(5) An appeal or request for review or reconsideration, or

(6) Briefs and other documents in support of his position,

must at the same time serve copies of each such document on all parties at interest and on any other parties to the proceedings. If, however, such parties at interest are unrepresented employees, they shall be notified by their employer of the nature of the proceeding before the Board and that they may inspect copies of the above described documents filed with the Board if they so request. Reasonable rules shall be established by the employer with respect to such inspections.

(c) A certificate of service or notification, as appropriate, shall accompany all such documents filed with the Board.

§ 205.5 Computation of time.

(a) In computing any period of time prescribed or allowed by this chapter for the performance of any act, the day of the act, event, or default or which the designated period of time begins to run will not be counted.

(b) If the last day of the period falls or a Saturday, Sunday, or a Federal legal holiday, the period will be extended to the next day which is not a Saturday, Sunday, or Federal legal holiday.

(c) If the period prescribed or allowed is 7 days or less, an intervening Saturday, Sunday, or Federal legal holiday will not be counted.

§ 205.6 Service.

(a) All documents required to be served under this part are to be served personally, by registered or certified mail, or, where circumstances render such service impracticable, service will be effected as provided for by § 205.6(e).

(b) If a person is represented by a duly authorized representative, service on the representative shall constitute service on the person.

(c) A certificate of service shall be filed with the Board for each document served.

(d) Service by registered or certified mail is complete upon mailing.

(e) Whenever the Board serves a determination, decision or order with respect to a pay adjustment upon a person, a copy of such determination, or decision and order will also be served on all parties at interest and other parties to the proceedings. If, however, such parties at interest are unrepresented employees, the Board will provide the employer of such employees with a copy of such determination, or decision and order. Such employer shall immediately advise the employees affected of the nature of the determination, or decision and order and make available to them upon request a copy of such determination, or decision and order.

§ 205.7 Extension of time.

If an action is required to be taken within a prescribed time under this chapter, an extension of time will be granted only upon a showing of good cause.

§ 205.8 Subpenas; witness fees.

(a) The Chairman of the Board or his duly authorized agent may sign and issue subpenas.

(b) A subpena may require the attendance of witnesses and the production of relevant papers, books, and documents in the possession or under the control of the person served.

(c) A subpena may be served by any person who is not a party and not less than 18 years of age.

(d) The original subpena bearing a certificate of service shall be filed with the issuing official.

(e) A witness subpenaed by any party shall be paid the same fees and mileage as are paid witnesses in District Courts of the United States.

§ 205.9 Consolidations.

Upon the initiative of the Board, the Chairman of the Board, a Hearing Officer, or in response to a party's motion, two or more appeals, requests for exception, pay challenges or other cases which involve substantially the same parties or issues which are closely related, may be consolidated if it is found that such consolidation will expedite the proceedings.

Subpart B—Appeals From Adverse Actions

§ 205.20 Purposes and scope.

(a) The purpose of this subpart is to establish the rules of practice of the Board which govern the conduct of its administrative review proceedings.

(b) The Board has jurisdiction to consider and decide appeals from adverse actions by IRS and the Office of the Chief Counsel for the Internal Revenue Service.

(c) The Board may review all relevant questions of law and fact.

(d) Review will be limited to the evidence in the record before IRS or the Office of the Chief Counsel for the Internal Revenue Service at the time the adverse action was taken except as otherwise directed by the Board.

(e) Determinations, decisions and other actions of the Board pursuant to §§ 205.25 through 205.28 will be rendered by the Chairman or his delegate unless the Pay Board or a panel of the Board directs otherwise.

§ 205.21 Who may appeal.

Any person aggrieved by an action of IRS or the Office of the Chief Counsel for the Internal Revenue Service taken or issued pursuant to Part 401 of this title, or in accordance with delegated authority, other than a person found by IRS to be in violation of the Act or Regulations, may file an appeal with the Board.

§ 205.22 Where to file appeal.

An appeal shall be filed with the Pay Board, 2000 M Street NW., Washington, DC 20508, and a copy of the appeal shall be sent to the official who issued the adverse action being appealed. At the same time, appellant shall serve copies of such appeal and supporting documents on the parties at interest (as defined by § 201.3 of this chapter). If, however, such parties at interest are unrepresented employees appellant shall notify them of such appeal in accordance with § 205.4 (b) and (c).

§ 205.23 When to file appeal.

Before filing an appeal with the Board, a recipient of an adverse action by a District Director must have exhausted his administrative remedies within IRS by filing a timely appeal within IRS as permitted by section 601 of Part 401. An appeal to the Board must be filed within 30 days of service by IRS of the adverse action upon which the appeal is based.

§ 205.24 Contents.

An appeal may be accompanied by a brief and must include the name and address of the appellant (and of other parties at interest if the appeal is with respect to a pay adjustment), a clear designation that the document is an appeal to the Board, a copy of the adverse action appealed from, a concise statement of the facts and contentions, grounds for appeal, and the relief requested, and a certification that he has complied with §§ 205.22 and 205.23.

§ 205.25 Screening of appeals.

(a) The Board will determine whether an appeal makes a prima facie showing that the adverse action—

(1) Was erroneous in fact or in law; or

(2) In the case of a decision denying—

(i) A Request for Exception, or

(ii) A retroactive pay adjustment,

was erroneous in fact or in law or appears to be otherwise inequitable.

(b) Where the Board determines that the appeal has failed to make a prima facie showing, the Board may summarily reject the appeal, serve a copy of its determination upon appellant, and advise him that he may request further review in accordance with § 205.29 if appropriate. If further review is not available under § 205.29, appellant will be advised that he may seek judicial review under the Act. If the determination is with respect to a pay adjustment, a copy of such determination will also be served on the other parties at interest in accordance with § 205.6(e).

(c) Where the Board determines that the appellant has made a prima facie showing, it will proceed in accordance with the provisions of §§ 205.26 through 205.28.

§ 205.26 Obtaining record.

(a) Upon receipt of a copy of an appeal, the office which took the adverse action on the subject of the appeal will forward to the Board its entire file on the matter.

(b) This file, together with the appeal and briefs, if any, and any statement submitted by IRS will constitute the record on appeal.

(c) The Board on its own motion may request any additional evidence it deems necessary.

§ 205.27 Informal hearings.

(a) If the Board in its discretion deems that a hearing is advisable, it may direct that an informal hearing be held before the Board, its delegate, or a Hearing Officer.

(b) The Board will notify the appellant and other parties, as appropriate, in writing, of the time and place of the hearing.

(c) The appellant and other parties, as appropriate, may present oral argument and submit such additional documentary evidence as the Hearing Officer or the Board deems necessary to fully disclose the position of the party or parties.

(d) If a Hearing Officer is used, he will conduct the hearing as expeditiously as possible in accordance with instructions received from the Board.

(e) Within 30 days after the close of the hearing, the Hearing Officer, if one is appointed, will submit a report to the Board and, if the Board so directs, a recommendation with respect to the appellant's request for relief.

§ 205.28 Decision by Board.

After receipt of an appeal and the IRS record (see § 205.26) or at the conclusion of a hearing, if a hearing has been provided for—

(a) The Board will issue a decision in writing directed to the appellant setting forth its decision, the basis therefor, and an appropriate order;

(b) A copy of the decision and order will be served upon the appropriate parties in accordance with § 205.6(e); and

(c) If the decision denies the relief requested, in whole or in part, any person aggrieved will be advised that he may request further review in accordance with § 205.29 if appropriate. If further review is not available under § 205.29 appellant will be advised that he may seek judicial review under the Act.

§ 205.29 Further review.

(a) Any person aggrieved by a determination under § 205.25(a)(2) of this subpart or by the Board's decision under § 205.28, with respect to a pay adjustment, may request further review within 14 days of service of such determination or decision. Further review will not, however, be granted unless three members of the full Board or a majority of a committee or panel of the Board certify that such a review is appropriate.

(b) If further review is denied, the Board will serve a copy of its determination upon appellant, advise him that he has exhausted his administrative remedies and that he may seek judicial review under the Act. A copy of such determination will also be served on the other parties, as appropriate, in accordance with § 205.6(e).

(c) If further review is granted, the Board will so notify the appellant and other parties at interest and proceed to render its decision on the record. Such record will consist of the request, any written submissions by the applicant and other parties at interest to IRS or the Office of Chief Counsel for the Internal Revenue Service prior to the IRS or Office of Chief Counsel decision, any information developed by IRS or the Office of Chief Counsel, and all previous decisions or determinations made by IRS or Office of Chief Counsel, and the Board. No additional information documents or other submission will be considered unless relevant as determined by the Board, or submitted in response to a specific request by the Board. Notwithstanding the foregoing, the Board, in its discretion, may allow oral presentations or provide for hearings.

(d) The Board will issue a decision in writing and direct it and an appropriate order to the parties at interest. If the decision allows or denies the relief requested, in whole or in part, an aggrieved party may seek judicial review under the Act.

Subpart C—Requests for Exceptions and Pay Challenges

§ 205.30 Purpose and scope.

(a) The purpose of this subpart is to establish procedures for initial action by the Board on requests for exceptions or pay challenges and for review or reconsideration, as appropriate, by the Board of denials of such requests or challenges.

(b) This subpart shall not apply to those requests for exceptions or retroactive pay adjustments in which initial action is taken by IRS pursuant to authority delegated by the Board. In those cases on which initial action is taken by IRS, appeals from adverse actions may be filed with the Board in accordance with the regulations under Subpart B of this part.

(c) In all cases under paragraph (a) or (b) of this section, filing and processing of—

(1) Requests for exceptions shall be filed in accordance with the regulations issued under Subpart D of Part 401 of this title unless the Board directs otherwise.

(2) Pay challenges to existing contracts and pay practices previously set forth by parties at interest shall be filed and processed in accordance with the regulations issued under Subpart E of Part 401 of this title unless the Board directs otherwise.

(d) Determinations, decisions, and other actions of the Board pursuant to §§ 205.31 through 205.33 will be rendered by the Chairman or his delegate pursuant to delegated authority or by the Pay Board or a panel of the Board.

(e) If the initial decision of the Board is rendered by—

(1) The Chairman or his delegate, requests for review will be considered by the Pay Board (or a panel of the Board) pursuant to §§ 205.34 through 205.40, and

(2) The Pay Board (or a panel of the Board), requests for reconsideration will be considered by the Pay Board (or a panel of the Board) pursuant to § 205.41.

V 37-82 APR 27 72 XUM

§ 205.31 Initial action on requests for exception.

(a) The Board in its discretion may invite the applicant, other parties at interest and other parties, if appropriate, to make an oral presentation, or provide for an informal hearing (pursuant to § 205.39), or a formal hearing (pursuant to Subpart E of this part).

(b) In general, the Board will render its decision on the record which will consist of the request, any written submissions by the applicant and other appropriate parties to the IRS or the Board, if appropriate, at the time of the request, and any information developed by the IRS. However, if a presentation or hearing is conducted in accordance with paragraph (a) of this section, the record will also contain an account of such presentation or hearing. The Board will determine whether such account will be in the form of a report, minutes, or transcript.

(c) After considering the record the Board will issue a decision in writing directed to the person filing the request for exception setting forth the facts, conclusions of law, its decision and the basis therefor, and an appropriate order.

(d) If the Board grants an exception, it will—

(1) Serve upon the applicant and other parties at interest a copy of its decision and order, and

(2) Advise any person aggrieved that he may request review of the Board's action pursuant to §§ 205.34 through 205.40 or reconsideration pursuant to § 205.41, as appropriate. Notwithstanding the foregoing, failure to request reconsideration pursuant to § 205.41 shall not constitute a failure to exhaust administrative remedies for purposes of judicial review.

(e) If the Board denied an exception, in whole or in part, it will—

(1) Serve upon the applicant and other parties at interest a copy of its decision and order, and

(2) Advise any person aggrieved that he may request review of the Board's action pursuant to §§ 205.34 through 205.40 or reconsideration pursuant to § 205.41, as appropriate. Notwithstanding the foregoing, failure to request reconsideration pursuant to § 205.41 shall not constitute a failure to exhaust administrative remedies for purposes of judicial review.

§ 205.32 Application for leave to participate in pay challenge proceedings.

(a) Upon receipt of a pay challenge, the Board will notify the parties at interest as defined in § 201.3 of this chapter that a pay challenge has been filed and that they may participate in the proceedings by submitting a brief or other documentary evidence, or otherwise in accordance with § 205.33.

(b) In addition, a person who is—

(1) An employer whose competitive position in a labor market would be adversely affected if the challenge were upheld, or

(2) An employee representative, or, in the absence of such representative, an employee whose bargaining position would be adversely affected if the challenge were upheld,

may make timely application to the Board for leave to participate in its proceedings, such person shall state his name and address, identify the docket number of the challenge, if known, state specifically the manner in which he is interested in the challenged adjustment, specify the relief sought, and sign the application for leave to participate.

(c) Upon receipt of an application filed in accordance with paragraph (b) of this section, the Board will determine whether the applicant's participation in the proceedings will contribute to the equitable disposition of the challenge.

(d) If the applicant meets the requirement of paragraph (c) of this section, he will be granted leave to participate. In such case, the Board will notify the applicant in writing and afford him a reasonable opportunity to submit documentary evidence or briefs in support of his position.

(e) If the Board denies leave to participate in the proceedings, it will so notify the applicant in writing.

§ 205.33 Initial action on pay challenges.

(a) The Board in its discretion may allow an oral presentation, or provide for an informal hearing (pursuant to § 205.39), or a formal hearing (pursuant to Subpart E of this part).

(b) In general, the Board will render its decision on the record which will consist of the challenge, any information developed by IRS and other written submissions by the parties at interest and other persons granted leave to participate under § 205.32(d). However, if a presentation or hearing is conducted in accordance with paragraph (a) of this section, the record will also contain an account of such presentation or hearing. The Board will determine whether such account will be in the form of a report, minutes, or transcript.

(c) After considering the record, the Board will issue a decision in writing directed to the person filing the pay challenge setting forth its decision and the basis therefor and an appropriate order.

(d) Where the Board allows the challenged pay adjustment to stand or overturns such pay adjustment, in whole or in part, it will serve upon each party at interest and other parties to the proceedings a copy of its decision and order.

(e) Any person aggrieved by a decision of the Board under paragraph (c) of this section may request reconsideration by the Board (or a panel of the Board) pursuant to § 205.41. Notwithstanding the foregoing, failure to request reconsideration pursuant to § 205.41 shall not constitute a failure to exhaust administrative remedies for purposes of judicial review.

§ 205.34 Scope of review.

(a) The Board will review the approval or the denial of an exception by the Chairman or his delegate if the request for review makes a prima facie showing that—

(1) The initial action was erroneous in fact or in law or

(2) It appears to be otherwise inequitable.

(b) If the Board determines that the request for review failed to make a prima facie showing, the Board may summarily reject the request for review, notify the applicant and other parties at interest of its action, and advise the applicant that he has exhausted his administrative remedies and that he may seek judicial review under the Act.

(c) If the Board determines that the request for review has made a prima facie showing, it will proceed in accordance with the provisions of §§ 205.39 and 205.40.

§ 205.35 Who may request review.

Any person aggrieved or other party to the initial proceedings conducted by the Chairman or his delegate may request review by the Board.

§ 205.36 Where to file.

A request for review shall be filed with the Pay Board, 2000 M Street NW., Washington, DC 20508.

§ 205.37 When to file.

A request for review must be filed within 14 days of service of the decision allowing or denying the relief requested.

§ 205.38 Contents.

A request for review shall—

(a) Be in writing and signed by the party requesting such review;

(b) Be designated clearly as a request for review;

(c) Include a copy of the adverse action from which review is requested;

(d) Contain a concise statement of the grounds for review and the requested relief;

and, such request may be accompanied by briefs.

§ 205.39 Informal hearings.

(a) If the Board in its discretion deems that a hearing is advisable, it may direct that an informal hearing be held before the Board, its delegate, or a Hearing Officer.

(b) The Board will notify the parties at interest and other parties, as appropriate, in writing, of the time and place of the hearing.

(c) The appellant and other parties, as appropriate, may present oral argument and submit such additional documentary evidence as the Hearing Officer or the Board deems necessary to fully disclose the position of the party or parties.

(d) If a Hearing Officer is used, he will conduct the hearing as expeditiously as possible in accordance with instructions received from the Board.

(e) Within 30 days after the close of the hearing, the Hearing Officer, if one is used, will submit a report to the Board, and, when the Board so directs, a recommendation with respect to the disposition of the case.

§ 205.40 Decision by Board on review.

The Board will—

(a) Issue a decision in writing directed to the appellant setting forth its decision, the basis therefor, and an appropriate order;

(b) Serve upon the parties at interest and other parties to the proceedings a copy of the decision and order; and

(c) Advise each aggrieved party that he may seek judicial review under the Act if the decision denies the relief requested. Such action by the Board will occur within 30 days of receipt of a request for review or within 10 days of a Hearing Officer's report if a Hearing Officer was used or within 20 days after a hearing before the Board is concluded, or as soon thereafter as administratively practicable.

§ 205.41 Request for reconsideration.

(a) Any person aggrieved or other party to the initial proceedings may request the Board (or a panel of the Board) to reconsider its initial decision. Such a request must be filed with the Board within 14 days of service of the decision allowing or denying the relief requested.

(b) A request for reconsideration shall be in writing, be signed by the party requesting such reconsideration, be designated clearly as a request for reconsideration, and contain a concise statement of the grounds for reconsideration including any errors of record.

(c) After considering the record, the Board will issue a decision in writing and serve it and an appropriate order on the parties, as appropriate, in accordance with § 205.6(e). An aggrieved party may seek judicial review under the Act.

Subpart D—Petition and Comment on Rule Making

§ 205.50 Scope.

The Board shall afford any interested person the right to petition or comment on the issuance, amendment, or repeal of any ruling or regulation promulgated by the Board.

§ 205.51 Where to file.

Petitions or comments shall be filed with the Pay Board, 2000 M Street NW., Washington, DC 20508.

§ 205.52 When to file.

A petition or comment may be filed at any time.

Subpart E—Formal Hearings

§ 205.60 Purpose and scope.

(a) To the maximum extent possible, the Board will conduct formal hearing for the purpose of hearing arguments or acquiring information bearing on a wage or salary increase or proposed wage or salary increase if such increase or proposed increase has or may have a significantly large impact upon the national economy.

(b) A formal hearing held pursuant to this subpart will be open to the public, but such hearings may be closed to the public for the purpose of receiving information considered to be confidential under section 205 of the Act.

§ 205.61 Appointment of Hearing Officer.

If a formal hearing is directed by the Board in accordance with § 205.60, a Hearing Officer may be appointed by the Board to preside over such hearing.

§ 205.62 Notice of hearing.

At the Board's discretion, notice will be published in the FEDERAL REGISTER of the nature, date, and time of the hearing and of the appointment of the Hearing Office if appropriate. Thereafter, all documents and other papers shall be filed with the Hearing Officer, or in the absence of the appointment of a Hearing Officer, with the Executive Secretariat of the Board.

§ 205.63 Powers and duties of the Hearing Officer.

(a) In addition to any other powers specified in this part, a Hearing Officer shall have the power:

(1) To administer oaths and affirmations;

(2) To examine or cross-examine witnesses;

(3) To issue subpenas authorized by the Act;

(4) To rule upon offers of proof and receive evidence;

(5) To regulate the course and conduct of the hearing, including—

(i) Continuing the hearing from day to day or adjourning it to a later date or different place by announcement thereof at the hearing or by other appropriate notice;

(ii) Taking official notice of any material fact not appearing in evidence in the record;

(iii) Excluding from the hearing persons who engage in misconduct; and

(iv) Striking all related testimony of a witness who refuses to answer questions ruled to be proper;

(6) To rule on motions and to dispose of procedural requests or similar matters; and

(7) To issue recommendations and prepare orders.

(b) The Hearing Officer will conduct the hearing as expeditiously as possible, in accordance with instructions received from the Board in each individual case. Within 30 days after the close of the hearing, he will transmit the record of the hearing together with his recommendations and proposed order, if any, to the Board. A copy of any such recommendation or proposed order will be served on the parties at interest and other parties to the proceedings.

(c) The Hearing Officer's authority in each case will terminate upon transmitting the record of the hearing and his recommendation and proposed order, if any, to the Board.

§ 205.64 Record.

(a) The record of a formal hearing will consist of an account of the proceedings of such hearing and all documents and exhibits submitted during the course of such hearing.

(b) The Board will determine whether the account of the hearing shall be in the form of a report, minutes or transcript. If the hearing is conducted by a Hearing Officer, such determinations will be part of the instructions given to such Officer pursuant to § 205.63(b).

(c) Copies of the account of the hearing may be obtained by any party upon payment of the fees fixed therefor, if any.

Subpart F—Retroactive Pay Adjustments

§ 205.80 Purpose and scope.

(a) The purpose of this subpart is to establish procedures for initial action by the Board on requests for retroactive pay adjustments and for review or reconsideration, as appropriate, by the Board (or a panel of the Board) of denials of such requests.

(b) This subpart shall not apply to those requests for retroactive pay adjustments in which initial action is taken by IRS pursuant to authority delegated by the Board. In those cases in which initial action is taken by IRS, appeals from adverse actions may be filed with the Board in accordance with the regulations under Subpart B of this part.

(c) In all cases under paragraphs (a) and (b) of this section, requests for retroactive pay adjustments shall be filed with the Board or IRS as expressly provided for by the substantive provision under which application is being made (see §§ 201.13 and 201.15 of this chapter).

§ 205.81 Retroactive pay adjustment challenges; proceedings.

(a) For purposes of this subpart, a challenge to a retroactive pay adjustment may be filed by a party at interest (as defined in § 201.3 of this chapter) or two or more members of the Board. Such challenge must be filed within 28 days of prenotification or within 28 days of providing any additional information requested by the Board.

(b) Upon receipt of such a challenge, the Board will notify the parties at interest that a challenge to a retroactive pay adjustment has been filed and that they may participate in the proceedings by submitting a brief or other documentary evidence, or otherwise if the Board so directs.

(c) In addition, a person who is—

(1) An employer whose competitive position in a labor market would be adversely affected if the challenge were upheld or

(2) An employer-representative, or, in the absence of such representative, an employee whose bargaining position would be adversely affected if the challenge were upheld,

may make timely application to the Board for leave to participate in its proceedings, such person shall state his name and address, identify the docket number of the challenge, if known, state specifically the manner in which he is interested in the challenged adjustment, specify the relief sought, and sign the application for leave to participate.

V 37 ■ 82 APR 27 72 XUM

(d) Upon receipt of an application filed in accordance with paragraph (c) of this section, the Board will determine whether the applicant's participation in the proceedings will contribute to the equitable disposition of the challenge.

(e) If the applicant meets the requirement of paragraph (d) of this section, he will be granted leave to participate. In such case, the Board will notify the applicant in writing and afford him a reasonable opportunity to submit documentary evidence or briefs in support of his position.

§ 205.82 Board decisions.

The procedural regulations contained in §§ 205.33 through 205.41 (relating to pay challenges) are generally adopted with respect to retroactive pay adjustments.

[32 CFR Part 1631]

ALLOCATION FOR INDUCTIONS

Action by Local Board

Pursuant to the Military Selective Service Act, as amended (50 United States Code App., sections 451 et seq.), and Executive Order No. 11623 dated October 12, 1971, the Director of Selective Service hereby gives public notice that consideration is being given to the following proposed amendments to the Selective Service Regulations constituting a portion of Chapter XVI of the Code of Federal Regulations. These regulations implement the Military Selective Service Act, as amended (50 United States Code App., sections 451 et seq.).

All persons who desire to submit views to the Director on the proposals should prepare them in writing and mail them to the General Counsel, National Headquarters, Selective Service System, 1724 F Street NW., Washington, DC 20435, within 30 days following the publication of this notice in the FEDERAL REGISTER.

The proposed amendments follow:

Paragraph (d)(5) of § 1631.6 is amended, and new paragraph (e) is added, to read as follows:

§ 1631.6 Action by local board upon receipt of allocation.

* * * * *

(d) * * *

(5) Any registrant who for 90 consecutive days remains a member of the Extended Priority Selection Group, fully available for induction or alternate service, and whose RSN is not reached in the Extended Priority Selection Group during those 90 days, shall be assigned to the Second Priority Selection Group.

* * * * *

(e) Notwithstanding the provisions of paragraph (b) of this section, the following sequence of actions shall be adhered to during the calendar year 1972:

(1) Nonvolunteers to whom orders to report for induction have been issued and as to whom the dates on which they were to report for induction have been postponed to a month in which there is an outstanding call will be forwarded for induction in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1 of this chapter.

(2) Volunteers who have not attained the age of 26 years shall be selected and ordered to report for induction in the sequence in which they have volunteered for induction.

(3) Nonvolunteers in the First Priority Selection Group shall be selected and ordered to report for induction in the order of their random sequence number established by random selection procedures prescribed in accordance with § 1631.1.

CURTIS W. TARR,
Director.

SMALL BUSINESS ADMINISTRATION

[13 CFR Part 107]

SMALL BUSINESS INVESTMENT COMPANIES

Postlicensing Issuance of Securities

Notice is hereby given that pursuant to authority contained in section 308 of the Small Business Investment Act of 1958, as amended (Act) 15 U.S.C. 661 et seq., it is proposed to amend, as set forth below, Part 107 of Subchapter B, Chapter I of Title 13 of the Code of Federal Regulations, revised as of January 1, 1971, by amending § 107.805. Prior to final adoption of such amendments, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing, in triplicate, to the Office of the Associate Administrator for Investment, Small Business Administration, Washington, D.C. 20416, within a period of thirty (30) days of the date of publication of this notice in the FEDERAL REGISTER.

Information. The proposed amendment to § 107.805 would permit licensed small business investment companies registered under the Investment Company Act of 1940, as amended, to issue "qualified" stock options as defined in section 422 of the Internal Revenue Code subject to the limitations set forth in the proposed amendment.

By order dated May 14, 1971, the Securities and Exchange Commission granted a conditional exemption pursuant to section 6(c) from sections 18, 19, and 23 of the Investment Company Act of 1940 to permit the issuance by registered Small Business Investment Companies of stock options. The exemption is limited to such options as qualify under section 422 of the Internal Revenue Code as amended, and is conditioned on the adoption by the Small Business Administration of regulations satisfactory to the Commission with respect to the issuance of qualified options by such companies. The proposed regulation complies with this limitation and with this condition. The limitation and the condition would not apply to Small Business Investment Companies which are not registered under the Investment Company Act of 1940, as amended.

It is proposed that Part 107 be amended by adding a new paragraph (b) to § 107.805, to read as follows:

§ 107.805 Postlicensing issuance of securities.

* * * * *

(b) A licensee which is registered as an investment company under the Investment Company Act of 1940 may issue stock options provided each such option is a "qualified stock option" as defined in section 422 of the Internal Revenue Code and is granted pursuant to a plan which provides that—

(1) The option by its terms shall provide that it is exercisable by the individual to whom it is granted only if at all times during the period beginning with the date of the granting of the option and ending 3 months before the date of such exercise, such individual was an employee or officer of either the licensee which granted such option or a wholly owned subsidiary thereof, or a successor licensee or a wholly owned subsidiary thereof;

(2) The aggregate number of shares of any class of stock which may be issued under options pursuant to the terms of the plan shall not exceed 7½ percent of the total number of outstanding shares of such class (less shares reacquired and held in the treasury) at the time the plan is adopted;

(3) The individuals who are officers or employees of the licensee or of a wholly owned subsidiary thereof at the time the plan is adopted may not receive options to acquire more than an aggregate of 66⅔ percent of the total number of shares of each class of stock which may be issued under options pursuant to the terms of the plan; and

(4) No individual may receive an option or options to purchase more than 35 percent of the aggregate number of shares of each class which may be issued under options pursuant to the terms of the plan.

Dated: April 19, 1972.

THOMAS S. KLEPPE,
Administrator.

DEPARTMENT OF STATE

Agency for International Development

HOUSING GUARANTY PROGRAM FOR IRAN

Information for Investors

The Agency for International Development (AID) has advised the Industrial Development and Renovation Organization (the "Borrower"), an instrumentality of the Imperial Government of Iran that, upon execution by an eligible U.S. investor acceptable to AID of an agreement to loan the Borrower an amount not to exceed $25 million, and subject to the satisfaction of certain further terms and conditions by the Borrower, AID will guarantee repayment to the investor of the principal and interest on such loan. The guarantee will be backed by the full faith and credit of the United States of America and will be issued pursuant to authority in section 221 of the Foreign Assistance Act of 1961, as amended (the "Act"). Proceeds of the loan will be used for workers housing projects in Iran.

Eligible investors interested in extending a guaranteed loan to the Borrower should communicate promptly with:

Iranian Economic Mission,
5530 Wisconsin Avenue,
Chevy Chase, MD 20015

Investors eligible to receive a guaranty are those specified in section 238(c) of the Act. They are: (1) U.S. citizens; (2) domestic corporations, partnerships, or associations substantially beneficially owned by U.S. citizens; (3) foreign corporations whose share capital is at least 95 percent owned by U.S. citizens; and (4) foreign partnerships or associations wholly owned by U.S. citizens.

To be eligible for a guaranty, the loan must be repayable in full no later than the 25th anniversary of the final disbursement of the principal amount thereof and the interest rate may be no higher than the maximum rate to be established by A.I.D. A.I.D. will charge a guaranty fee equal to one-half of 1 percent per annum on the outstanding guaranteed principal amount of the loan.

Information as to eligibility of investors and other aspects of the A.I.D. housing guaranty program can be obtained from:

Director or Deputy Director,
Office of Housing,
Agency for International Development,
Room 501, SA-16
Washington, D.C. 20523

This notice is not an offer by A.I.D. or by the Borrower. The Borrower and not A.I.D. will select a lender and negotiate the terms of the proposed loan.

STANLEY BARUCH,
Director, Office of Housing, Agency for International Development.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial No. A 6030]

ARIZONA

Notice of Proposed Classification of Public Lands for Transfer Out of Federal Ownership

1. Pursuant to the Taylor Grazing Act of June 28, 1934 (48 Stat. 1275, as amended, 43 U.S.C. 315), and the regulations in 43 CFR Part 2462, it is proposed to classify the public lands described below for transfer out of Federal ownership by exchange. The transfers would be accomplished under authority of section 8 of the Taylor Grazing Act.

2. Publication of this notice has the effect of segregating the described lands from all forms of appropriation under the public land laws, including the mining and mineral leasing laws, except that these lands will remain open to filing of State exchange applications. If and when these lands are classified for exchange, applications for private exchange may be filed in accordance with the regulations in 43 CFR Part 2202.

3. The public lands proposed for classification in this notice are located in the vicinity of the Planet Ranch on the Bill Williams River in Mohave and Yuma Counties. These public lands have potential for residential development in conjunction with planned developments on private lands at the Planet Ranch. The transfer of these public lands out of Federal ownership by exchange will enable the United States to acquire State and private lands elsewhere along the Bill Williams River Valley and in the surrounding desert mountains, to help block up and preserve Federal land management areas with significant wildlife, recreation, and primitive values.

4. The public lands proposed for classification in this notice are shown on maps on file and available for inspection in the Phoenix District Office, Bureau of Land Management, 2929 West Clarendon Avenue, Phoenix, AZ 85017; the Kingman Office, Kingman, Ariz. 86401; and the State Office, 3022 Federal Building, Phoenix, Ariz. 85025.

5. The lands involved are located in Mohave and Yuma Counties and are described as follows:

GILA AND SALT RIVER MERIDIAN

T. 11 N., R. 16 W.,
Sec. 1, lots 3 and 4, S½NW¼, and SW¼;
Sec. 2, SW¼;
Sec. 3, lots 1 to 4, inclusive, S½N½, and S½;
Sec. 5, lots 1 to 4, inclusive, S½N½, and S½;
Sec. 6, lots 1 to 7, inclusive, SE¼NW¼, S½NE¼, E½SW¼, and SE¼;
Sec. 7, lots 1 to 4, inclusive, E½W½, and E½;
Sec. 9;
Sec. 11;
Sec. 12, W½;
Sec. 13, W½;
Sec. 15;
Sec. 16, N½, N½SW¼, SW¼SW¼, and SE¼;
Sec. 17;
Sec. 19, lots 1 to 4, inclusive, E½W½, and E½;
Sec. 23;
Sec. 24, W½;
Sec. 25, NW¼, NW¼SW¼, and SW¼NE¼;
Sec. 27, N½N½; and
Sec. 29, NW¼ and W½NE¼.
T. 11 N., R. 17 W.,
Sec. 34, NE¼NE¼; and
Sec. 36, SE¼NE¼.
T. 10 N., R. 16 W.,
Sec. 3, N½N½;
Sec. 4, N½N½;
Sec. 5, lot 1, N½NE¼, and NE¼NW¼; and
Sec. 6, lot 1.

The lands described aggregate approximately 9,646.37 acres of public land.

6. For a period of 60 days from date of publication of this notice in the FEDERAL REGISTER, all persons who wish to submit comments, suggestions, or objections in connection with the proposed classification may present their views to the State Director, Bureau of Land Management, 3022 Federal Building, Phoenix, Ariz. 85025.

JOE T. FALLINI,
State Director.

WYOMING

Notice of Classification

APRIL 19, 1972.

Pursuant to 43 CFR 2462.1, the lands described below are hereby classified for disposal through exchange, under section 8 of the Taylor Grazing Act of June 28, 1934 (48 Stat. 1272) for lands within the Casper District.

The lands affected by this classification are described as follows:

SIXTH PRINCIPAL MERIDIAN, WYOMING

NATRONA COUNTY

T. 37 N., R. 79 W.,
Sec. 17, all;
Sec. 20, all.
T. 36 N., R. 80 W.,
Sec. 1, lots 1 to 4, inclusive, S½N½, and S½;
Sec. 4, S½;
Sec. 9, all;
Sec. 29, all.

V 37-82 APR 27 72 XUM

T. 37 N., R. 80 W.,
Sec. 13, SW¼SW¼.
T. 38 N., R. 80 W.,
Sec. 31, NW¼NE¼, and NE¼NW¼.
T. 38 N., R. 81 W.,
Sec. 23, SE¼NW¼;
Sec. 26, NW¼NW¼;
Sec. 34, NW¼NW¼, and NW¼SW¼.

The areas described aggregate 3,790.66 acres.

For a period of 30 days, interested parties may submit comments to the Secretary of the Interior, LLM, 320, Washington, D.C. 20240 (43 CFR 2462.3).

JESSE R. LOWE,
Acting State Director.

Correction

In F.R. Doc. 72-5597 appearing at page 7352 in the issue of Thursday, April 13, 1972, the fourth line of the land description, now reading "T. 20 N., R. 64 W.,", should read "T. 26 N., R. 64 W.,".

National Park Service

GLACIER NATIONAL PARK, MONT.

Notice of Public Hearing Regarding Wilderness Proposal

Notice is hereby given in accordance with the provisions of the Act of September 3, 1964 (78 Stat. 890, 892; 16 U.S.C. 1131, 1132), and in accordance with departmental procedures as identified in 43 CFR 19.5 that public hearings will be held beginning at 1:30 p.m. on June 27, 1972, in the Rainbow Room, Rainbow Hotel, 20 Third Avenue North, Great Falls, MT, and on June 29 at the Elks Club, Highway 93 South, Kalispell, Mont., for the purpose of receiving comments and suggestions as to the appropriateness of a proposal for the establishment of wilderness comprising about 907,400 acres within the Glacier National Park, Flathead and Glacier Counties, Mont.

A packet containing a draft master plan and preliminary wilderness study report, and providing additional information about the proposal may be obtained from the Superintendent, Glacier National Park, West Glacier, Mont. 59936, or from the Director, Midwest Region, National Park Service, 1709 Jackson Street, Omaha, NE 68102.

A description of the preliminary boundaries and a map of the areas proposed for establishment as wilderness are available for review in the above offices and in Room 1013 of the Department of the Interior Building at 18th and C Streets NW., Washington, DC.

Interested individuals, representatives of organizations and public officials are invited to express their views in person at the aforementioned public hearings, provided they notify the Hearing Officer, in care of the Superintendent, Glacier National Park, West Glacier, Mont. 59936, by June 23 of their desire to appear. Those not wishing to appear in person may submit written statements on the wilderness proposal to the Hearing Officer, at that address for inclusion in the official record, which will be held open for 30 days following conclusion of the hearing.

Time limitations may make it necessary to limit the length of oral presentations and to restrict to one person the presentation made in behalf of an organization. An oral statement may, however, be supplemented by a more complete written statement which may be submitted to the Hearing Officer at the time of presentation of the oral statement. Written statements presented in person at the hearing will be considered for inclusion in the transcribed hearing record. However, all materials so presented at the hearing shall be subject to determinations that they are appropriate for inclusion in the transcribed hearing record. To the extent that time is available after presentation of oral statements by those who have given the required advance notice, the Hearing Officer will give others present an opportunity to be heard.

After an explanation of the proposal by a representative of the National Park Service, the Hearing Officer, insofar as possible, will adhere to the following order in calling for the presentation of oral statements:

(1) Governor of the State or his representative.
(2) Members of Congress.
(3) Members of the State Legislature.
(4) Official representative of the counties in which the proposed wilderness is located.
(5) Officials of other Federal agencies or public bodies.
(6) Organizations in alphabetical order.
(7) Individuals in alphabetical order.
(8) Others not giving advance notice, to the extent there is remaining time.

Dated: April 10, 1972.

THOMAS FLYNN,
Deputy Director,
National Park Service.

DEMONSTRATION OF MISS SYSTEM FOR SPRUCE BUDWORM CONTROL, MONTANA

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for a proposed Demonstration of the Modular Internal Spray System for Spruce Budworm Control in Montana, USDA-FS-DES(Adm) 72-31.

The environmental statement concerns a proposal to conduct an aerial spray demonstration on approximately 3,000 acres of western spruce budworm infested timber on the Ninemile Ranger District of the Lolo National Forest in western Montana.

This draft environmental statement was filed with CEQ on April 14, 1972.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th Street and Independence Avenue SW., Washington, DC 20250.
USDA, Forest Service, Northern Region, Federal Building, Missoula, Mont. 59801.
Lolo National Forest, 2801 Russell, Missoula, MT 59801.

A limited number of single copies are available upon request to Mr. Steve Yurich, Regional Forester, U.S. Forest Service, Federal Building, Missoula, Mont. 59801.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151 for $3 each. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Mr. Steve Yurich, U.S. Forest Service, Federal Building, Missoula, Mont. 59801. Comments must be received within 30 days of the date of publication of this notice in order to be considered in the preparation of the final environmental statement.

Dated: April 24, 1972.

THOMAS C. NELSON,
Deputy Chief, Forest Service.

PUBLIC HEALTH SERVICE AND FOOD AND DRUG ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

Part 6, formerly part 10 (Food and Drug Administration) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health, Education, and Welfare (35 F.R. 3685-92, dated Feb. 25, 1970) is amended to reflect the redesignation of the Immediate Office of the Commissioner and the establishment of the Office of the Associate Commissioner for Medical Affairs.

Section 6B is amended as follows:

SECTION 6B *Organization.* • • •

• • • • •

(aa) *Immediate Office of the Commissioner.* The Commissioner and the Deputy Commissioner are responsible for the efficient and effective implementation of FDA's mission.

(a) *Office of the Associate Commissioner for Medical Affairs.* Functions as principal advisor to the Commissioner on medical matters which impact on policy and direction, and long-range program goals.

Provides leadership on medical matters and stimulates medical effort and achievement in the Agency.

Provides for the continuing appraisal of FDA medical research programs and projects.

Serves as a member or chairman of FDA's medical advisory and planning committees such as the FDA Drug Advisory Council.

Provides medical opinions on special and overall program problems which cross Bureau lines and also where medical aspects are controversial or critical.

Serves as an adviser on medical research contracts, medical committees, and special medical projects of agency-wide scope.

Evaluates medical research results originating from other Government agencies and private institutions for potential utilization in FDA.

Proposes, develops, and implements policies, regulations, standards, and field inspectional and laboratory programs relating to reducing injuries and eliminating hazards from unsafe or ineffective medical devices.

(a-1) *Office of Medical Devices.* Develops standards and scientific policy, and conducts research with respect to the efficacy, reliability, and safety of medical devices.

Operates a national medical device monitoring system.

Plans, coordinates, and evaluates the Agency's surveillance and compliance medical device programs; and initiates compliance actions on medical device matters as necessary.

Evaluates the safety and efficacy and labeling of medical devices.

Develops and coordinates the development of regulations, standards, and field inspectional and laboratory programs covering medical device industry practices and fosters the development of good manufacturing practices.

Provides assistance in the handling of legal actions on medical device matters.

Collects and evaluates data on significant hazards to the public health caused by the use of medical devices and proposes necessary laws and regulations to protect the public.

Provides the Commissioner with authoritative advice on significant existing and anticipated problems related to FDA responsibilities in the area of medical device safety.

Develops and disseminates information materials on medical device problems.

Collects and evaluates data for classification of all medical devices into regulatory categories.

ATOMIC ENERGY COMMISSION

[Docket No. 50-358]

CINCINNATI GAS AND ELECTRIC CO. ET AL.

Notice and Order for Prehearing Conference

In the matter of Cincinnati Gas & Electric Co., Columbus & Southern Ohio Electric Co., Dayton Power & Light Co. (Wm. H. Zimmer Nuclear Power Station), Docket No. 50-358.

The Atomic Energy Commission, by its Notice of Hearing for Application for Construction Permit, published in the FEDERAL REGISTER on March 7, 1972 (37 F.R. 4925), provided that the date and place of a prehearing conference and of the evidentiary hearing will be set by the Atomic Safety and Licensing Board in the matter of the application filed by the Cincinnati Gas & Electric Co., et al. to construct the William H. Zimmer Nuclear Power Station, Unit No. 1.

Accordingly, a prehearing conference has been scheduled for May 12, 1972, at the Clermont County Court House, Batavia, Ohio.

All members of the public are entitled to attend this prehearing conference, as well as the full evidentiary hearing in this proceeding. The evidentiary hearing will be scheduled at a later date and public notice thereof will be given. The prehearing conference will be conducted in accordance with § 2.752 of the Commission's rules of practice, 10 CFR 2.752, which provides for development of procedures for the evidentiary hearing.

The procedures to be considered at this prehearing conference will be related to simplification and clarification of issues, possibility of obtaining stipulations and admissions of fact in order to avoid duplication in presentation of evidence, and other matters which will aid in an orderly disposition of the case to be presented in a full public hearing.

The prehearing conference on May 12, 1972, will not receive any evidence, nor will there be opportunity for presentation of statements from members of the public who desire to make limited appearances for that purpose. All statements that members of the public desire to make in this proceeding by way of limited appearance pursuant to § 2.715 of the rules of practice will be received on the initial day of the evidentiary hearing.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, that the initial session of the prehearing conference in this proceeding shall convene at 9:30 a.m. local time, on Friday, May 12, 1972, at the Clermont County Court House, 270 Main Street, Batavia, OH.

Issued: April 21, 1972, Washington, D.C.

By order of the Atomic Safety and Licensing Board.

JOHN B. FARMAKIDES,
Chairman.

[FR Doc.72-6426 Filed 4-26-72;8:49 am]

[Docket No. 50-271]

VERMONT YANKEE NUCLEAR POWER CORP.

Notice of Issuance of Facility Operating License Amendment

The Atomic Energy Commission (the Commission) has issued, effective as of the date of issuance, Amendment No. 1 to Facility Operating License No. DPR-28, dated March 21, 1972. The license, as originally issued, authorized the Vermont Yankee Nuclear Power Corp. to load fuel and perform low-power testing, at power levels not to exceed 15.9 megawatts (thermal), of the Vermont Yankee Nuclear Power Station. Amendment No. 1 modifies the license to authorize the receipt, possession and use of (1) an additional gram of U-235 (previously authorized for storage under License No. SNM-1151) as fission detectors for use in the reactor instrumentation system, and (2) five additional curies of americium 241 as a sealed source and eight sources of 1,200 curies each of antimony 124 as sealed sources (all of which were previously authorized for storage under Byproduct Material License No. 44-13669-01).

The Commission has found that the amendment complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act) and of the rules and regulations of the Commission and that the public health, safety, and interest require that the amendment be made effective immediately.

Within twenty (20) days from the date of publication of the notice in the FEDERAL REGISTER, the applicant may file a request for a hearing and any person whose interest may be affected by the issuance may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's rules of practice in 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or appropriate order.

V 37-82
APR 27 72
XUM

Dated at Bethesda, Md., this 21st day of April 1972.

For the Atomic Energy Commission.

ROGER S. BOYD,
Assistant Director for Boiling Water Reactors, Division of Reactor Licensing.

DEPARTMENT OF COMMERCE

Office of Import Programs

COLD SPRING HARBOR LABORATORY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00117-99-43780. Applicant: Cold Spring Harbor Laboratory, Post Office Box 100, Cold Spring Harbor, NY 11724. Article: Floating current clamps. Manufacturer: University of Bristol, United Kingdom.

Intended use of article: The article will be used in teaching a course in practical neurobiology in which the article will pass a nano amp current between two intercellular microelectrodes without passing any current across the neuron membrane.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capability for passing nanoampere currents between two intercellular microelectrodes without passing any current across the neuron membrane. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated March 3, 1972, that the capability described above is pertinent to the purposes for which the article is intended to be used. HEW also advises it knows of no comparable domestic instrument which is scientifically equivalent to the foreign article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

[FR Doc.72-6445 Filed 4-26-72;8:50 am]

COLUMBIA UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00597-75-20700. Applicant: Columbia University, Nevius Laboratories, Post Office Box 137, 136 South Broadway, Irvington, NY 10533. Article: 50 pieces of polished lead glass. Manufacturer: Ohara Optical Glass Manufacturing Co., Ltd., Japan.

Intended use of article: The articles will be used with photomultiplier tubes and associated electronics to detect very high energy electrons and protons which deposit all their energy in the lead glass.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant requires glass suitable for the construction of a Cerenkov type radiation detector. We are advised by the National Bureau of Standards (NBS) in its memorandum dated March 8, 1972 that (1) the stated requirements for a high lead content and for optical clarity are pertinent to the applicant's intended use, (2) the specifications for the foreign article satisfies these pertinent characteristics, and (3) NBS knows of no domestic manufacturer of an item scientifically equivalent to the foreign article for the applicant's intended purposes.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

CORNELL UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00012-98-20700. Applicant: The Johns Hopkins University, Purchasing Department, Charles and 34th Streets, Baltimore, MD 21218. Article: Glass, 100 pieces Type PEHG4 (SF5) 673321. Manufacturer: Ohara Optical Glass Manufacturing, Ltd., Japan.

Intended use of article: The article will be used to construct a detector which will allow measurement of gamma energy by electromagnetic shower production and subsequent observation of that shower via emitted Cerenkov radiation. The gamma rays are manifestations of exotic phenomena such as magnetic monepole formation or parton annihilation.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant requires glass suitable for the construction of a Cerenkov type radiation detector. We are advised by the National Bureau of Standards (NBS) in its memorandum dated March 9, 1972, that (1) glass for use in Cerenkov type detectors must have a high lead content and must have high optical clarity, (2) the foreign article satisfies these pertinent requirements, and (3) NBS knows of no domestic manufacturer of an item scientifically equivalent to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

JOHNS HOPKINS UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00012-98-20700. Applicant: The Johns Hopkins University, Department of Pathology, 260 Crittenden Boulevard, Rochester, NY 14642. Article: Electron microscope, Model HS-8, and accessory. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article is intended to be used for educational purposes for introduction of electron microscopy as an elective for successive groups of 3-4 medical students, for graduate students and residents. Fundamentals of electron microscopy, with emphasis only on basic procedures in the operation of an electron microscope are covered. This introduction is also given as part of Course 593 *"Special Topics in Pathology"* to graduate students in each academic year. Application received by Commissioner of Customs: February 23, 1972.

Docket No. 72-00406-00-07500. Applicant: University of Chicago, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, IL 60439. Article: Closed bomb reaction calorimeter assembly. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is an accessory to a Reaction and Solution Calorimetric System being used in a program to determine the heats of formation of those compounds which are of interest in nuclear and high-temperature technology. Examples of such compounds are $NaVO_3$, Na_3VO_4, CS_2VO_4, CS_2O, TH^{+4} (aq), UL_3 and UL_4. Application received by Commissioner of Customs: February 23, 1972.

Docket No. 72-00407-00-46000. Applicant: Indiana University, Bloomington, Ind. 47401. Article: Counting chamber, Manufacturer: Hawksley & Sons, United Kingdom. Intended use of article: The article is an accessory to an electron microscopy intended to be used by faculty, graduate students and many classes in the microbiology department in examinations of bacterial suspensions. Application received by Commissioner of Customs: February 29, 1972.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant requires glass suitable for the construction of a Cerenkov type radiation detector. We are advised by the National Bureau of Standards (NBS) in its memorandum dated March 9, 1972, that (1) glass for use in Cerenkov type detectors must have a high lead content and must have high optical clarity, (2) the foreign article satisfies these pertinent requirements, and (3) NBS knows of no domestic manufacturer of an item scientifically equivalent to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

N.Y.S. INSTITUTE FOR RESEARCH IN MENTAL RETARDATION

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 72-00391-33-46040. Applicant: N.Y.S. Institute for Research in Mental Retardation, 1050 Forest Hill Road, Staten Island, NY 10314. Article: Electron microscope, Model HS-8-2, Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article is intended to be used for studies of viruses and virus infected cells and tissues. Determination of the purity, ultrastructure and particle/infectivity ratio of the viruses under study, will provide information as to the nature of the viral infection at the cellular and subcellular level. By studying cell cultures or tissues derived from patients or sick animals, important knowledge will be obtained as to the pathogenesis of the viral disease and the possible role of dual virus infection in some of the diseases. The article will also be used for training junior scientists and technicians in electron microscope techniques. Application received by Commissioner of Customs: February 17, 1972.

Docket No. 72-00384-33-90500. Applicant: Swedish Covenant Hospital, Department of Pathology, 5145 North California Avenue, Chicago, IL 60625. Article: Lanco assembly apparatus, Manufacturer: Langendorf Watch Co., Lanco-Economic, Switzerland. Intended use of article: The article is intended to be used in experimental medical laboratory testing which will include study of time and motion on laboratory tests in the hospital when regulated by the article. Application received by Commissioner of Customs: February 11, 1972.

Docket No. 72-00405-33-46040. Applicant: University of Rochester, School of Medicine, Department of Pathology, 260 Crittenden Boulevard, Rochester, NY 14642. Article: Electron microscope, Model HS-8, and accessory. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article is intended to be used for educational purposes for introduction of electron microscopy as an elective for successive groups of 3-4 medical students, for graduate students and residents. Fundamentals of electron microscopy, with emphasis only on basic procedures in the operation of an electron microscope are covered. This introduction is also given as part of Course 593 *"Special Topics in Pathology"* to graduate students in each academic year. Application received by Commissioner of Customs: February 23, 1972.

Docket No. 72-00406-00-07500. Applicant: University of Chicago, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, IL 60439. Article: Closed bomb reaction calorimeter assembly. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is an accessory to a Reaction and Solution Calorimetric System being used in a program to determine the heats of formation of those compounds which are of interest in nuclear and high-temperature technology. Examples of such compounds are $NaVO_3$, Na_3VO_4, CS_2VO_4, CS_2O, TH^{+4} (aq), UL_3 and UL_4. Application received by Commissioner of Customs: February 23, 1972.

Docket No. 72-00407-00-46000. Applicant: Indiana University, Bloomington, Ind. 47401. Article: Counting chamber, Manufacturer: Hawksley & Sons, United Kingdom. Intended use of article: The article is an accessory to an electron microscopy intended to be used by faculty, graduate students and many classes in the microbiology department in examinations of bacterial suspensions. Application received by Commissioner of Customs: February 29, 1972.

NATIONAL INSTITUTES OF HEALTH

Notice of Decision on Application For Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00335-00-46040. Applicant: National Institutes of Health, National Heart and Lung Institute, Building 10, Room 5N204, Bethesda, Md. 20014. Article: 70 mm. film camera for EM6B electron microscope. Manufacturer: AEI Scientific Apparatus, Ltd., United Kingdom.

Intended use of article: The article will be used with an existing electron microscope to record the transmission electron microscopic image of the entire

V 37-82 APR 27 72 XUM

Docket No. 72-00408-33-46500. Applicant: State University of New York, Upstate Medical Center, 766 Irving Avenue, Syracuse, NY 13210. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used in a research program concerned with lipid metabolism and the pathogenesis of lipid accumulation in mammalian cells, either maintained in the laboratory in continuous tissue culture or obtained from experimental animals and human patients. The article will be used to prepare ultrathin sections of plastic embedded mammalian cells for observation with the electron microscope in order to localize the original site of lipid droplet accumulation. Application received by Commissioner of Customs: February 29, 1972.

Docket No. 72-00409-01-77040. Applicant: University of California, Space Sciences Laboratory, Berkeley, Calif. 94720. Article: Mass spectrometer, Model MAT 311. Manufacturer: Varian MAT GmbH, West Germany. Intended use of article: The article is intended to be used in various studies including the study of lunar carbon chemistry and its relationships to that of light stable elements, volatile elements and rare gases and monitoring of ultra-organic clean and dry facility for study of special pristine returned lunar samples. Application received by Commissioner of Customs: February 29, 1972.

Docket No. 72-00410-90-59500. Applicant: University of Chicago, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, IL 60439. Article: High Intensity pulsed xenon arc lamps. Manufacturer: I. Weinberger, Switzerland. Intended use of article: The articles will be used to supply light for high speed photography of vapor explosions. The specific investigation will be of pre-explosion mixing in a molten NaCl-H_2O system to determine the effect of mixing on the explosion efficiency. Application received by Commissioner of Customs: February 29, 1972.

Docket No. 72-00411-33-46500. Applicant: New York City Health & Hospital Corp., 125 Worth Street, New York, NY 10013. Article: Ultramicrotome, Model OM U2. Manufacturer: C. Reichert Optische Werke AG, Austria. Intended use of article: The article is intended to be used in clinical applications in patient care to diagnose various kidney diseases and to investigate aspects of carcinogenesis. In addition the article will be used for the investigations of ferritin biosynthesis in mouse liver and in phycomyces blakesleeanus as well as the recently discovered embryonic antigen studies. The article will also be used in teaching the house staff, particularly the residents in pathology, to become acquainted with the electron microscopic studies. Application received by Commissioner of Customs: February 29, 1972.

Docket No. 72-00412-33-46040. Applicant: National Heart and Lung Institute, Laboratory of Biochemical Genetics, Building 10, Room 6D18, National Institutes of Health, Bethesda, Md. 20014. Article: Electron microscope, Model HU-12. Manufacturer: Hitachi, Ltd., Japan. Intended use of article: The article is intended to be used in studies on the neuronal properties of cultural neuroblastoma cell clones. This research will involve the following aspects:

(1) Comparing the ultrastructure of various clones and of somatic cell hybrids whose biochemical characteristics are being studied.

(2) Study of interactions between neuroblastoma cells and between such cells and muscle cells.

(3) Characterization of fibrous organelles and proteins isolated from the neuroblastoma cells, including comparison of these with brain cell counterparts.

Application received by Commissioner of Customs: February 29, 1972.

Docket No. 72-00413-01-77040. Applicant: The City College of the City University of New York, Department of Chemistry, 138th Street and Convent Avenue, New York, NY 10031. Article: Mass Spectrometer, Model MS 902S. Manufacturer: Associated Electrical Industries, Ltd., United Kingdom. Intended use of article: The article is intended to be used for research in the following areas:

A. Structural studies:
(1) Products and intermediates in chemical reactions.
(2) Products and intermediates in enzymic reactions.
(3) Natural products:
(a) Terpenes, sterols, alkaloids, and steroids.
(b) Hormones.
(c) Amino acids and polypeptides.
(d) Lipids of all classes.
B. Analysis:
(1) Study of biosynthetic pathways with stable isotopes.
(2) Study of organic chemical reactions with stable isotopes.
(3) Study of mass spectral fragmentation patterns with stable isotopes.
(4) Composition of membranes.
(5) Identification of drugs and drug metabolites.
C. Reaction mechanisms:
(a) Mass spectral reaction mechanisms and the exploration of the relationship between photochemical and electron-impact induced processes.
(b) Study of the mechanism of metastable ion formation and the use of metastable ions in structure elucidation.

Some selected examples of current research requiring high resolution mass spectrometry are (1) tautomerization and dimerization studies, (2) hidden exchange of formyl hydrogens in strong aqueous acid, and (3) polyhalosulfolipids and phytoflagellates. The article is also intended to be used for educational purposes in conjunction with a basic laboratory course in research techniques in organic chemistry which is required of all graduate students majoring in organic chemistry. This course covers the theory, practice and application of spectrometric methods to structure elucidation problems. Application received by Commissioner of Customs: February 29, 1972.

Docket No. 72-00414-33-46500. Applicant: Veterans Administration Hospital, Laboratory Service, 4801 Linwood Boulevard, Kansas City, MO 64128. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of a wide variety of pathologic human tissue for diagnostic interpretation with emphasis on hepatic, renal, hematologic and neoplastic pathology. Many of these objects of study will require differentiation and cellular interrelationships of fibrillar protein such as collagen, myosin, fibrin and amyloid. Cytological characterization of canine lymphoma and leukemia will be accomplished. The interaction of antigen and antibody involving cellular and subcellular location of antigen in synovial membrane and the fate of antigen will be investigated. Application received by Commissioner of Customs: March 1, 1972.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF CALIFORNIA

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00113-75-27000. Applicant: University of California, Lawrence Radiation Laboratory, East End of Hearst Avenue, Berkeley, Calif. 04720. Article: Electron tubes. Manufacturer: Compagnie Generale de Telegraphie Sans Fil France.

Intended use of article: The article will be used in a protondeuteron accelerator complex (the Bevatron) to furnish power at approximately 200 MHz for the second of three stages of acceleration, a 50 Mev. linear accelerator. The ultimate goal of the Bevatron is to provide protons or deuterons to high energy physics experiments involved in the exploration of nuclear structure of matter. Application received by Commissioner of Customs: August 27, 1971.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The application relates to components for an instrument that had been previously imported for the use of the applicant institution. The article is being furnished by the manufacturer which produced the instrument with which the article is intended to be used.

The Department of Commerce knows of no similar components being manufactured in the United States, which is interchangeable with or can be readily adapted to the instrument with which the foreign article is intended to be used.

SETH M. BODNER,
Director, Office of Import Programs.

UNIVERSITY OF CHICAGO

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00445-79-50600. Applicant: University of Chicago, Operator of Argonne National Laboratory, 9700 South Cass Avenue, Argonne, IL 60439. Article: Four fission chambers, neutron sensitive; overall diameter, 1.5 inches; overall diameter, 22 feet; neutron sensitivity, 0.1 counts per second of unit flux; plus associated signal cables that can operate reliably in the range of 800° F. to 1400° F. Manufacturer: Twentieth Century Electronics, Ltd., United Kingdom.

Intended use of article: The fission counters are being procured for evaluation for application to monitoring neutron flux in uncooled instrument thimbles of the Liquid Metal Fast Breeder Reactors (LMFBR).

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The applicant is evaluating fission chambers for use in neutron flux monitoring in a breeder reactor for reliability of operation to a maximum temperature between 800° F. and 1400° F. Comparable domestic instruments have been evaluated and found unsatisfactory. We are advised by the National Bureau of Standards (NBS) in its memorandum dated March 16, 1972, that the availability of the article for the evaluation described above is pertinent to the applicant's investigation. NBS further advises that it knows of no domestic manufacturer of an instrument scientifically equivalent to the foreign article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director, Office of Import Programs.

[FR Doc.72-6444 Filed 4-26-72;8:50 am]

UNIVERSITY OF KENTUCKY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00611-90-46070. Applicant: University of Kentucky, College of Agriculture, Lexington, Ky. 40506. Article: Scanning electron microscope, Model Mark IIA. Manufacturer: Cambridge Instruments, United Kingdom.

Intended use of article: The article will be used as a research tool in a variety of programs which involve bone and muscle structure, wearing potential of the alloy and tooth enamel; behavior of wood fiber after chemical treatment and relationships of fiber geometry to tensile rupture; morphological and structure/function studies of leafhoppers and acarina; cracks and fractions in ceramics, fracture behavior of titanium alloys, topography of radiation damages in silicon and precipitate effect on aluminum/copper alloys. The educational uses of the article will consist of demonstrations of a variety of phenomena in both Engineering and Biology in undergraduate and graduate courses.

Comments: No comments have been received with respect to this application. Letter dated March 16, 1972 from Advanced Metals Research Corp. (received after the expiration of the comment period) is being treated as additional information in accordance with section 701.10(a) of the regulations to the extent that it contains factual information.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (October 22, 1969).

Reasons: Captioned application is a resubmission of Docket No. 70-00369-65-46070 which was denied without prejudice to resubmission on October 23, 1970 due to informational deficiencies contained therein. The foreign article provides an 18° focused and 11° collimated 2 theta deflection of the beam which permits the production of meaningful pseudo Kikuchi patterns in the normal scanning mode of operation. The published specifications of available domestic scanning electron microscopes do not indicate a similar capability. We are advised by the National Bureau of Standards (NBS) in its memorandum dated March 16, 1972, that the foreign article's capability for "Kikuchi-like" reflection patterns in the normal scanning mode of operation permits investigation of strain distributions and is, therefore, pertinent to the applicant's intended use in microcrystallography analysis. NBS further advises that it knows of no domestically manufactured instrument which would provide a capability scientifically equivalent to the foreign article for this pertinent characteristic as of the purchase date of the article.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used which was being manufactured in the United States at the time the foreign article was ordered.

SETH M. BODNER,
Director,
Office of Import Programs.

UNIVERSITY OF ROCHESTER

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 71-00507-00-84300. Applicant: University of Rochester, River Station, Rochester, N.Y. 14627. Article: Wind tunnel balance, Model 528. Manufacturer: T.E.M. Instruments, United Kingdom.

Intended use of article: The article will be used with an existing MAS wind tunnel in order to investigate aerodynamic forces on aircraft in subsonic flight.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article intended to be used, is being manufactured in the United States.

Reasons: The foreign article is a sliding weight wind tunnel balance measuring lift, drag and pitching movement designed for use with the smaller type and size of wind tunnel normally used in Universities, Technical Colleges etc. Other available balances utilize strain

V 37-82 APR 27 72 XUM

gage electronics. We are advised by the National Bureau of Standards (NBS) in its memorandum dated February 25, 1972, that the simplicity and visability of the article are of pertinent advantage, when compared to the normal electronic balances in the applicant's intended use. NBS further advises that it knows of no comparable domestic instrument providing a capability equivalent to the article for the applicant's intended use.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

[FR Doc.72-6451 Filed 4-26-72;8:51 am]

VETERANS ADMINISTRATION HOSPITAL, KANSAS CITY, MO.

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00110-33-07500. Applicant: Veterans' Administration Hospital, 4801 Linwood Boulevard, Kansas City, MO 64128. Article: LKB Microcalorimeter. Manufacturer: LKB Produkter A.B., Sweden.

Intended use of article: The article will be used in research to measure the heats of various proteins reactions such as substrate binding, and the kinetic measurements of enzyme systems.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated March 17, 1972, that the applicant's use of the foreign article includes measurement of heats of reaction of enzyme systems which will require the best sensitivity available with the smallest size of sample. HEW further advises that comparable domestic instruments which match the foreign article's flow sensitivity (0.1 microcalories/second), particularly with small samples, is not available.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

SETH M. BODNER,
Director,
Office of Import Programs.

WISCONSIN STATE UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00108-99-54900. Applicant: Wisconsin State University, Grand Avenue, Superior, Wis. 54880. Article: Scanning stereoscope, ODSS III. Manufacturer: N.V. Optische Industrie "De Oude Delft," the Netherlands.

Intended use of article: The article is intended to be used for university level instruction in the following courses: (1) Airphoto Interpretation with special emphasis on the scientific analysis of environmental problems; (2) Environmental and Urban Planning—the effects of the urban development on the environment will also be studied; (3) Independent Study—scientific analysis of air photos.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated March 17, 1972, that the foreign article's capability for permitting the student and instructor to view the same photographs simultaneously is pertinent to teaching air photograph interpretation. HEW further advises that it knows of no comparable domestic instrument that provides the pertinent capability.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

CIVIL AERONAUTICS BOARD

[Docket No. 23287; Order 72-4-116]

AIR FREIGHT FORWARDERS

Order Instituting Charters Investigation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 24th day of April 1972.

In EDR-198,[1] the Board issued an advance notice of proposed rule making with respect to the possibility of, inter alia, limiting the regularity and frequency of charters by air freight forwarders. In the explanatory statement (p. 1) the Board noted that its present regulations [2] reflect a policy, evolved particularly between 1948 and 1959, permitting air freight forwarders (both domestic and international) [3] to charter aircraft from direct air carriers (both scheduled and supplemental) and also permitting air freight forwarders to joint load, including joint loading on charters. Yet, because the policy had evolved at a time when the practices in question were so infrequent as to render the matter rather academic, the Board further noted that comments filed in connection with the Airlift/Shulman/WTC arrangements (Docket 22057)[4] had prompted the Board to "reexamine the matter of chartering by air freight forwarders" (p. 2). These arrangements involved all the various aspects of the problem, since the agreement filed on March 27, 1970, by Airlift and Shulman (CAB 21699) provided for a long-term charter of an aircraft to an air freight forwarder, to be operated from New York to Los Angeles 5 days a week, and the cargo was to be that of Shulman or of WTC, another air freight forwarder, pursuant to a joint-loading agreement (CAB 21800).[5] Having noted that the Airlift/Shulman/WTC arrangements are "within the permissible scope of our present regulations" (ibid.), the Board proceeded to observe:

> However, conditions in the industry have changed since the present regulations were adopted and we believe that the question of whether air freight forwarders should be allowed to charter aircraft, particularly on a regular basis should be re-examined in light of present conditions.

Thirty-four comments on EDR-198 were filed with the Board.[6] The filed comments have not contributed significantly to our understanding of the problem nor been particularly helpful in furnishing empirical information which might suggest an appropriate resolution. However, we have been able to glean from these comments the principal arguments that can be made for and against the Board's continuing to permit freight forwarders to charter aircraft on a regular basis.

The arguments in favor of continuing the Board's present policy of permitting freight forwarders to charter aircraft on a regular basis are: (1) Lower rates, obtained by the chartering forwarders, could be passed on to the shipping public; (2) lower rates will benefit the entire industry by attracting new business; (3) restrictive rules at this time would be premature, since the practice poses no present threat to scheduled cargo carriers. Arguments against the Board's present policy are: (1) Charters by freight forwarders—especially on a regular basis—tend to operate in favor of the few large forwarders and to the detriment of most forwarders, who are too small to charter aircraft; (2) in light of the direct carriers' present overcapacity, a few dominant forwarders could (a) wield undue economic leverage in negotiating rates, and (b) unduly influence the type and quality of service to be provided; (3) development of scheduled air cargo service could be hindered by diversion of volume cargo; (4) charters of aircraft by forwarders from supplemental carriers on a regular basis would be inconsistent with the charter concept; (5) the practice is about to proliferate, so that restrictive regulations should be adopted at this time, before investments and arrangements are made on the basis of the existing permissive rules.

It has become increasingly clear in the progress of the instant proceedings that there is a dearth of hard facts available to help the Board decide which rules, if any, should be proposed. As indicated above, the comments thus far filed have not included the kind of data essential to determining the proper course of regulatory action. At the same time it has also become increasingly clear that the problem is very substantial, and that present industry conditions militate in favor of the Board's studying it with promptness and thoroughness.

We have therefore concluded that a formal evidentiary hearing is the most satisfactory means of resolving all of the issues raised in the rule making proceeding. Accordingly, we are herein instituting a general investigation to determine what the Board's policy should be with respect to the chartering of aircraft by domestic and international air freight forwarders; what amendments, if any, should be made in Part 296 (classification and exemption of indirect air carriers) and Part 297 (classification and exemption of international air freight forwarders) of the Board's Economic Regulations to implement the chosen policy; and whether we should continue to permit joint loading on charters on an unrestricted basis by domestic and international air freight forwarders. Although the subsidiary issues will be subject to precise delineation and refinement at the prehearing conference, we fully expect the record in this proceeding to be developed on such critical decisional factors as the effect that restricted or unrestricted chartering of aircraft and joint loading on charter flights by domestic and international air freight forwarders will have on cargo rate levels; the impact of such cargo rate levels on: Cargo load factors for both combination and all-cargo aircraft in scheduled service; the economics of cargo operations for scheduled air carriers and air freight forwarders; the quality of scheduled air cargo services; the generation of new air cargo traffic; air cargo growth rates; cargo diversion from scheduled air service and surface modes; and the further concentration of economic power in the air freight forwarder industry. We also expect the parties to develop the record on the effect of joint loading agreements on the volume of charter activity by air freight forwarders and the desirability of closed and open-ended joint loading agreements.[7] Finally, we expect an adequate record to be developed as to whether it is consistent with the statutory limitations on supplemental air carriers' operating authority for these carriers to perform charter flights for air freight forwarders.

There remains the question as to what administrative action, if any, the Board should take, pending the outcome of this proceeding with respect to agreements calling for scheduled charter services for forwarders. Although the Airlift/Shulman/WTC arrangement appears to involve the only such charter presently before the Board,[8] the filed comments in the rule making proceeding indicate that there is good reason to believe that the practice may soon spread.[9] The Board has determined, for the time being, to maintain the present legal status of such charters under our existing rules and policies. However, carriers and forwarders alike are on notice that these rules and policies may be changed as a result of the investigation herein instituted. Consequently, any investment and long-term arrangements made by forwarders and carriers on the basis of existing rules and policies during the pendency of this proceeding will be undertaken at the parties' own risk.

Accordingly, it is ordered, That:

1. Action on Agreements CAB 21699, 21699-A2, 22722,[10] and 22727 be and it hereby is deferred further;

2. Action in Docket 22057 is also deferred further; [11]

3. An investigation to be known as Air Freight Forwarders' Charters Investigation be initiated for the purpose of considering the issues discussed above and deciding, in light of the evidence, what further action should be taken with respect thereto, including the adoption of rules to amend all or any of the following: Parts 207, 208, 212, 214, 296, and 297 of the Board's Economic Regulations (14 CFR Parts 207, 208, 212, 214, 296, 297) and Part 399 of the Board's Policy Statements (14 CFR Part 399);

4. Said investigation be and it hereby is set for hearing before an examiner of the Board at a place and time to be hereafter designated; and

5. This order shall be served on WTC, Shulman, Airlift, Flying Tiger, and Airborne; the Air Freight Forwarders Association; the Departments of Justice and Transportation; all persons who filed comments in this rule making proceeding; and each one of the above is hereby made a party to this proceeding.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-6461 Filed 4-26-72;8:51 am]

---

[1] Dated Apr. 14, 1971, Docket 23287.

[2] 14 CFR Parts 296, 297.

[3] The charter authority of international air freight forwarders is presently subject to some restrictions. See § 297.23.

[4] On Mar. 27, 1970, Airlift International, Inc., an all-cargo carrier, and Shulman, Inc., an air freight forwarder, filed an agreement (CAB 21699) providing for the charter of a DC-8-63F aircraft from Airlift to Shulman to operate from New York to Los Angeles 5 days a week for a 1-year period beginning Apr. 1, 1970. On Mar. 31, 1971, the parties filed an agreement extending the arrangement for 1 year (CAB 21699-A-2). The basic agreement provides that the cargo shall be that of Shulman or another air freight forwarder, WTC Air Freight, Inc., pursuant to a joint-loading agreement (CAB 21800). The Flying Tiger Line Inc., another all-cargo carrier, filed a motion seeking an order to show cause why the charter agreement should not be disapproved (Docket 22057). In the advance notice of rule making, the Board stated that it was deferring action on the Airlift/Shulman/WTC agreements and Flying Tiger's motion for a show cause order pending the outcome of the rule making proceeding.

[5] CAB agreement 22727, filed by Shulman and WTC on Oct. 8, 1971, supersedes CAB 21800.

[6] Nine comments from scheduled combination route carriers, two from all-cargo carriers, 16 from air freight forwarders, one from NACA and six from various other trade associations. In addition, Emery Air Freight filed a petition requesting an evidentiary hearing and an answer thereto was filed by Delta.

[7] The precise issue of open-ended joint loading agreements in forwarders' charters is the subject of Board Order 71-10-38, Oct. 8, 1971. However, that issue might not be reached in view of the superseding agreement (CAB 22727) filed by the parties on Oct. 8, 1971.

[8] As indicated above, in Docket 22057 (Flying Tiger's motion seeking an order to show cause why the Shulman/WTC Air Freight joint-loading agreement should not be disapproved), the Board has only deferred approval of the agreement under section 412 and, in the absence of the Board's disapproval, the parties can continue operations under the agreement.

[9] For example, Flying Tiger alleged that it had recently received a number of requests from forwarders for quotations on daily charter service. NACA asserted that forwarder charters are emerging as a prime means of promoting new traffic; and, indeed, NACA emphasized that such charters constitute an important "potential market" on which the supplemental carriers "rely in their equipment purchases and long-term planning."

[10] Agreement CAB 22722 is between Airlift and WTC and is similar to CAB 21699 between Airlift and Shulman.

[11] Our action herein will not affect Order 71-10-88 which pertains to the question whether Airborne Freight Corporation, an air freight forwarder, should be entitled to become a party to the Shulman/WTC joint-load agreement.

V 37 • 82 APR 27 72 XUM

[Docket No. 24112]

BRANIFF AIRWAYS, INC.

Notice of Reassignment of Hearing Regarding U.S. Mainland-Hawaii First-Class Excursion Fares

Notice is hereby given pursuant to the Federal Aviation Act of 1958, as amended, that the hearing in the above-entitled proceeding heretofore assigned to be held on April 27, 1972 (37 F.R. 7537, April 12, 1972), is reassigned to be held on May 2, 1972, at 10:00 a.m., local time, in Room 911, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, before the undersigned.

Additionally, Bureau Counsel's due date for filing Direct Exhibits, Testimony, and Rebuttals is moved forward to April 28, 1972.

Dated at Washington, D.C., April 24, 1972.

[SEAL] RICHARD M. HARTSOCK,
Hearing Examiner.

[FR Doc.72-6460 Filed 4-26-72;8:51 am]

[Docket No. 24428; Order 72-4-112]

EASTERN AIR LINES, INC.

Order of Investigation and Suspension Regarding East-South-West Family Excursion Fares

By tariff [1] marked to become effective May 8, 1972, Eastern Air Lines, Inc. (Eastern) proposes to establish round-trip family excursion fares between points in the Northeast United States and the west coast via San Juan and/or various points in the State of Florida. The proposed fare level is the same as existing transcontinental family excursion fares, i.e., full fare for the head of household and $99 for the spouse and/or accompanying children 2 through 21 years of age. Free stopovers are permitted at intermediate points [2] named in the routing and the return limit is 30 days. The fares are to be applicable from May 8, 1972, through December 15, 1972, except for blackouts from June 30 through July 10 and August 31 through September 11, 1972.

Eastern alleges that the purpose of the filing is to generate long-haul family travel by providing the incentive of multiple destinations. The carrier states that it previously matched the existing transcontinental family excursion fares of other carriers but, due to its route structure, connecting service is required for travel between east coast points and Los Angeles, Portland, and Seattle, and that in order to offset the inconvenience of its connecting service it is necessary to provide an inducement to passengers to travel via Eastern. The option of free stopovers at intermediate points is expected to provide such an inducement.

American Airlines, Inc. (American), National Airlines, Inc. (National), Northwest Airlines, Inc. (Northwest), Pan American World Airways, Inc. (Pan American), Trans World Airlines, Inc. (Trans World), and United Air Lines, Inc. (United) have filed complaints against the proposal, requesting its suspension and investigation. The complainants allege, inter alia, that considering the mileage circuity involved, the fares produce extremely low yields which cannot be justified economically; that Eastern is a minimal participant at best in the transcontinental market and while "the risk of revenue dilution is nonexistent" for Eastern it most clearly would not be so for the direct transcontinental carriers; and that in permitting the existing transcontinental family excursion fares the Board relied heavily on the fact that the maximum stay limit was four days, whereas an earlier proposal 4 days whereas an earlier similar proposal which would have permitted stays up to 14 days was suspended.

Eastern answers that a family which has planned to visit the opposite coast will not normally travel via Florida or San Juan, but a family which has not contemplated air travel for its vacation might be encouraged to do so by the availability of multiple destinations. It further asserts that it expects to generate 250 passengers over the duration of the tariff and that the likelihood that these passengers would create any pressure on capacity or displace higher fare passengers is de minimis.

Upon consideration of the proposal, the complaints and answer thereto, and all other relevant matters, the Board finds that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

The special transcontinental family excursion fare which Eastern seeks to match is a very low fare presently effective only until May 31, 1972, and originally intended to attract family members of business travelers making trips of no more than 4 days' duration. On the other hand, the proposed fares are designed to attract vacation traffic and, the circuitous fares result in extremely low fares per mile—so low as to raise a substantial question whether the fares are reasonably related to the cost of providing the service. Moreover, the fares would be applicable during the summer when transcontinental traffic volume is high.

Eastern contends that the northeast-Florida/San Juan and Florida-west coast markets are markets in which it has a substantial participation, and that any diversion in these two principal markets would be at its own expense. However, the proposal does not apply to passengers originating at points on the east coast and traveling to Florida and return, or to traffic between Florida and the west coast. Rather, it involves passengers traveling from points in the Northeast United States, to west coast points or vice-versa, with a routing through Florida or San Juan. Since Eastern's participation in the transcontinental markets involved is very small, any diversion of traffic which may occur, and we believe it might be significant notwithstanding the circuitous routing involved, will be almost entirely at the expense of the carriers providing direct transcontinental service.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions of Eastern Air Lines, Inc.'s CAB No. 379, and rules, regulations, or practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, Eastern Air Lines, Inc.'s CAB No. 379 is suspended and its use deferred to and including August 5, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein, the complaints in Dockets 24375, 24378, 24383, 24379, 24380, and 24381 are hereby dismissed;

4. The proceeding ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated; and

5. Copies of this order be filed in the aforesaid tariff and be served upon American Airlines, Inc., Eastern Air Lines, Inc., National Airlines, Inc., Northwest Airlines, Inc., Pan American World Airways, Inc., Trans World Airlines, Inc., and United Air Lines, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,[3]
Secretary.

[FR Doc.72-6462 Filed 4-26-72;8:51 am]

[Docket No. 24430; Order 72-4-117]

EASTERN AIR LINES, INC.

Order of Investigation and Suspension Regarding Proportional Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of April 1972.

By tariff revisions [1] marked to become effective April 29, 1972, Eastern Air Lines, Inc. (Eastern), proposes to establish directional round-trip proportional excursion fares of $9.26 ($10 tax inclusive) from Boston to New York, and New York to Washington, to be used in conjunction with round-trip transportation from other points on its domestic system [2] to Boston or New York. The fares apply for travel only on Saturdays, with the return portion to be completed by midnight the same day. Purchase of the tickets must be made prior to leaving the point of origin and the trip must commence within 7 days of a passenger's arrival at Boston or New York. Children's fares are 50 percent of the proposed proportional fares, or $4.63. The fares are marked to expire with August 31, 1972.

In justification of its proposal, Eastern alleges that the primary objective of the fare is to provide additional traffic on an off-peak day in the Air Shuttle markets. Eastern alleges that in 1971 the Saturday load factor in Air Shuttle markets was only 47 percent, as compared with an average of 58.7 percent on all other days, and contends that Saturday has the lowest traffic level of any day.

In addition, Eastern alleges that, since the fare is not applicable to cities in close proximity to New York and Boston, the majority of the users will come from distant points, and that the trip is, in essence, a "1-day bonus feature" analogous to the sightseeing trips offered by various airlines. The carrier states that it has no data which would indicate the number of passengers who take a side trip to either Washington or New York; however, Eastern alleges that it can be assumed that the number is miniscule.

Northeast Airlines, Inc. (Northeast), and Northwest Airlines, Inc. (Northwest), have filed complaints requesting that the proposed fares be suspended and investigated.[3] The complainants allege that the proposed fares do not cover the cost of providing the service; that Eastern has not estimated how much new traffic the fares will generate; and that rather than generate new traffic the fares will simply result in diversion. For example, Northeast points out that a Miami-Boston passenger wishing to stop in New York would normally pay a regular fare of $184.26, or $142.59 for a weekend 7-21-day excursion. However, under Eastern's proposal, this same passenger would be encouraged to travel an extra 374 miles with a total fare of $179.64 or $129.63, respectively. Northwest also alleges that the fares apply in two of the most congested markets in the east and during the peak summer season; that Eastern itself was and remains a strong proponent of hub surcharges in contested markets; and that the fares, which reflect a discount of 79 percent and a yield of 2.3/2.4 cents per mile, are uneconomic.

Eastern has answered the complaints alleging that no one but a tourist would be likely to value highly a Saturday in New York or Washington; that full fare passengers would not be diverted since business travelers would find a Saturday visit to either point of little value; and that although summer may be a peak travel period in general, the Saturday shuttle markets have low-load factors year round. Eastern also alleges that the complainants' contentions with respect to costs fail to consider the nature of the shuttle operation; and that the only added costs are passenger liability expense and credit card discounts, totaling about 40 cents per passenger.

Upon consideration of the tariff proposal, the complaints and answers thereto, and all other relevant matters, the Board finds that the proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board further concludes that the proposal should be suspended pending investigation.

Due to the extremely low level of the fares, the question of generation versus diversion is particularly critical. There is very little margin for diversion, and in the New York-Washington market, for example, one diverted full fare passenger would offset the revenue generated by more than five proportional fare passengers without regard to the cost of carrying such passengers. In view of this, and since the carrier was unable to provide a basis for making a reasonable generation/diversion estimate, we find that a sufficient question of reasonableness is raised to warrant investigation of the proposal, and suspension pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

It is ordered, That:

1. An investigation be instituted to determine whether the fares and provisions described in Appendix A attached hereto,[4] and rules, regulations, and practices affecting such fares and provisions, are or will be unjust or unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix A hereto [4] are suspended and their use deferred to and including July 27, 1972, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein, the complaints in Dockets 24345 and 24346 are hereby dismissed;

4. The proceeding ordered herein be assigned for hearing before an Examiner of the Board at a time and place hereafter to be designated;

5. Copies of this order be filed in the aforesaid tariffs and be served upon Eastern Air Lines, Inc., Delta Air Lines, Inc., Northeast Airlines, Inc., and Northwest Airlines, Inc., which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

Secretary.

[FR Doc.72-6463 Filed 4-26-72;8:51 am]

[Dockets Nos. 21866-6A, 21866-9, Order 72-4-111]

FRONTIER AIRLINES, INC.

Order Dismissing Complaints Regarding Standard-Class Fares and Service

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 21st day of April 1972.

By tariff revisions [1] marked to become effective April 30, 1972, Frontier Airlines, Inc. (Frontier) proposes to implement a single class of service (standard class) throughout its system and to establish related standard fares in place of the four basic classes of service and fares it now provides—jet first class, propeller first class, jet deluxe coach, and jet coach. The proposal involves both aircraft configuration (jet aircraft only) and fare changes.

Frontier's proposal to implement single-class service generally entails seating configuration modification of its B-737 aircraft only, as its propeller aircraft (CV-580) are presently operated in a single-class configuration which will remain unchanged.[2] Currently, the carrier's B-737 aircraft provide accommodations for 24 passengers (five-abreast seating) at a 36-inch pitch in deluxe coach, and 73 passengers (six abreast) at a 34-inch pitch in coach. Under the proposal, Frontier plans to install "2 plus 2" or "twin seating" (six abreast with a fold-down center console) at a 38/39-inch minimum/maximum pitch, with the same total density as now exists—97 seats.

Most fares are not being changed, since a substantial majority of Frontier's markets are served exclusively by propeller equipment for which fares will not be changed, but merely redesignated.[3] The

[2] The proportional fares do not apply in conjunction with round-trip transportation to Boston or New York from Baltimore/Hartford/New Haven/New York/Philadelphia/Providence/Washington/Wilmington.

[3] Delta Air Lines, Inc. (Delta), has filed an answer in support of both complaints.

[4] Appendix A and dissenting statement of Minetti and Murphy, members, filed as part of the original documents.

[1] Revisions to Airline Tariff Publishers, Inc., Agent, Tariff CAB Nos. 65, 136, and 142.

[2] Fifty-passenger capacity, four-abreast seating, 36-inch minimum/maximum pitch.

[3] Frontier is also adding numerous military standby and reservation fares, and making adjustments to other discount fares in in-

V 37-82 APR 27 72 XUM

fare changes will occur generally in markets where Frontier operates both propeller and jet service, or jet service only. In these markets the various present fares compare to the trunkline jet coach formula fares as follows:
stances where a change results in the new standard fare.

	Percent
Jet first class	130
Propeller first class	120
Jet deluxe coach	115
Jet coach	100

Under the proposal the standard fares would be 118 percent of coach for both jet and propeller service, except in competitive markets where the present jet coach level generally would be maintained. The increases range from $0.92 to $16.67.

In justification of its proposal, Frontier alleges that its new "S" service is a distinctly new class of service materially superior to its existing service; and that in addition to the improved meal service and other amenities, the new standard-class configuration in jet equipment will be equal to or better than seating accommodations afforded passengers by other local service carriers (in that the new "2 plus 2" configuration provides an armside table when passenger loads permit, substantially improved elbow and hip room, and more liberal seat pitch).

The carrier contends that the seating configuration fully conforms to the standards tentatively prescribed by the Board in Phase 6A of the Domestic Passenger-Fare Investigation; that the service will be operated at a seating density which falls between first-class and coach service, as contemplated by the Board's decision, and will therefore warrant the "S" fare premium over coach fares; and that the Board has consistently allowed the local service carriers to implement standard-class service at fares exceeding coach-fare levels.

Frontier alleges that in a number of low-density markets where it alone provides jet service, the "S" fares will be established at levels up to 118 percent of the jet coach formula to reflect the higher quality of its new standard-class service; that in a majority of these markets, however, the "S" fare level will average only 110 percent of the existing coach-fare level; and that most of the local service carriers have inaugurated their new "S" fares with no change in the quality of existing service. In the great majority of its markets, Frontier alleges that its new "S" fares will be identical to the current coach or propeller fare, and that in competitive markets where it now offers both coach- and deluxe-coach-class service the "S" fares will be at the coach level, thus affording lower fares for passengers heretofore using deluxe-coach service.

Frontier estimates that it will cost $291,000 to install "2 plus 2" seating in all of its jet aircraft, and that the company expects to realize $831,000 in additional annual revenue in those markets where the "S" fare will be priced to reflect the new standard-class service, an amount constituting less than 1 percent of its total 1971 revenue. Moreover, Frontier anticipates that standard-class service and fares will result in increased efficiencies and economies; and that the new service will greatly simplify passenger understanding of the fare structure and will improve fare quotation efficiency from a reservations and ticketing standpoint.

Braniff Airways, Inc. (Braniff), the Bismarck and Minot Chambers of Commerce, the mayor of Bismarck, and the North Dakota State Aeronautics Commission have filed complaints against the proposal requesting that it be suspended and investigated.

Braniff's complaint is directed essentially at that facet of the proposal which would apply coach-fare levels to the newly configured B–737 aircraft. Braniff alleges that this is at odds with the Board's tentative determination in the Domestic Passenger-Fare Investigation; that the proposal would reduce the revenue potential of Frontier's aircraft; that Frontier's jet services with the expanded pitch are overwhelmingly in competitive markets and severely limited in noncompetitive markets; that the new service priced at the coach level would divert traffic from Braniff; and that the proposal would expand the seating war. The complainant asserts that Frontier could adopt a single-class configuration with the same desirable economies without introducing the pitch proposed.

Frontier has answered Braniff's complaint contending that its proposed pitch falls within seating parameters tentatively set by the Board. Frontier also alleges that more than half of the markets in which it provides jet service are noncompetitive, and that in nearly all of the competitive markets the trunkline is the dominant carrier; that Braniff has made no showing that the fares are unreasonable; and that the new service will enable it to remain an effective competitor in markets served in common with trunkline carriers.

The complaints by the various civic parties and the North Dakota State Aeronautics Commission are limited to unsupported requests for suspension and/or investigation except for a statement in the latter's complaint that the proposal constitutes 14.6-percent and 16.6-percent increases in the Bismarck-Denver and Minot-Denver markets, respectively. They indicate formal detailed complaints will follow, but only the Aeronautics Commission has so filed.

Frontier's proposal, both the fares and the B–737 seating configuration comes within the scope of the Domestic Passenger-Fare Investigation, Docket 21866, and its lawfulness will be determined in that proceeding. The question then is whether to permit the proposal to become effective, or to suspend it pending investigation. Upon consideration of all relevant matters, the Board finds that the complaints do not set forth sufficient facts to warrant suspension, and the requests therefor will be denied and the complaints dismissed.

The proposed standard service is a new class of service and the proposed fares are consistent, in terms of seating configuration, with fares for comparable service now provided by other local service carriers.[4] The 118-percent relationship to coach fares is likewise consistent with the prevailing level of fares for this class of service, as is the proposal to hold fares in competitive markets to the coach-fare level.[5] Finally, we are not persuaded that Braniff will be placed at an undue disadvantage in the limited number of markets in which the two carriers compete, particularly in view of the substantially greater number of jet frequencies which it offers.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

It is ordered, That:

1. The complaints of Braniff Airways, Inc., in Docket 24351, and the mayor, city of Bismarck, N. Dak., in Docket 24388 are dismissed; [6] and

2. A copy of this order be served upon Braniff Airways, Inc., Frontier Airlines, Inc., and the mayor, city of Bismarck, N. Dak.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[Docket No. 24180; Order 72–4–118]

HAWAIIAN AIRLINES, INC.

Order Setting Application for Hearing Regarding Authority To Temporarily Suspend Service at Hana, Maui, Hawaii

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of April 1972.

On January 26, 1972, Hawaiian Airlines, Inc. (Hawaiian), filed an application for authority to temporarily suspend service at Hana, Maui, Hawaii, on the carrier's route 33.

In support of its application, Hawaiian alleges that, inter alia since 1957 Hawaiian's enplanements at Hana have average 12.2 per day; for the year 1971, the carrier's losses were $88,000; Hawaiian's need to standardize its fleet with all-jet equipment would preclude Hana's service since that point cannot accommodate jet aircraft; Hana is adequately served by Royal Hawaiian Air Service, an air taxi operator; and acceptable ground air taxi operator; and acceptable ground transportation is available to an alternative source of certificated scheduled air service, Kahului, some 55 miles away.

An answer was filed by the Air Line Pilots Association, International (ALPA), opposing Hawaiian's application. ALPA argues that Hawaiian, if permitted to suspend service, would then retire its Convair equipment leaving it unable to reinstitute service. ALPA urges that at the very least, a hearing should be held to determine the service needs at Hana.

In a reply filed by Hawaiian, the carrier states that if traffic levels at Hana increase and if airport facilities can be improved to support jet aircraft, Hawaiian will reinstitute service.[1]

Upon consideration of the pleadings and all the relevant facts, we have decided to deny Hawaiian's request for temporary suspension of service and set for hearing the matter of Hana's future air service needs. We note that although the carrier has requested a temporary suspension of service, a serious question is presented as to whether, if the application were granted, the carrier would be in a position to reinstitute service at Hana. Moreover, if Hawaiian's application is granted Hana will be without federally certificated air service for the first time since 1950. We believe that under all the circumstances it is appropriate to consider, on an evidentiary record, the conflicting contentions of the parties.

The issues in such proceeding will include the question of whether Hawaiian should be permitted to suspend service at Hana for a fixed term [2] or whether the carrier's authority should be deleted. Although deletion has not been requested by the carrier, we wish to have a full-range of options available to us. It may be that a deletion would be preferable to an indefinite suspension from the standpoint of encouraging new certificated or noncertificated service at Hana.[3]

Accordingly, it is ordered, That:

1. The application of Hawaiian Airlines, Inc., be and it hereby is set for hearing, said hearing to determine whether the public convenience and necessity require that Hawaiian's authorization to serve Hana, Maui, Hawaii, on its route 33, be temporarily suspended or deleted; and

2. This order shall be served on Hawaiian Airlines, Inc.; Air Line Pilots Association, International; Mayor, Wailuku, Maui, Hawaii; Governor of Hawaii; the Postmaster General; and the Airport Manager, Hana, Maui, Hawaii.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72–6465 Filed 4–26–72;8:52 am]

[Docket No. 23333; Order 72–4–57]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Reduced Fares for Cargo Agents

Issued under delegated authority, April 13, 1972.

An agreement has been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement, which was adopted by mail vote, has been assigned the above-designated CAB agreement number.

The agreement relates to IATA requirements that cargo agencies applying for reduced-fare transportation must have been continuously approved without interruption for a period of 12 months prior to the date of application for travel, and is necessitated by delays in the processing of cargo agency approvals by the IATA Cargo Registration and Review Boards. The agreement provides that a cargo agency previously approved under former IATA agency registration provisions that expired on February 29, 1972 (Resolution 810b) shall not be deemed to have had a lapse in its continuity of IATA approval if an application pursuant to new agency registration provisions (Resolutions 811 and 811a) had been lodged with the Agency Administrator prior to January 1, 1972.

While we propose herein to approve the agreement, we note that reference is made only to reduced-fare travel under the provisions of new Resolution 203c, which purports to alter the basis upon which the number of reduced-fare tickets would be allocated to agencies and which has not been approved by the Board.[4] Accordingly, we propose to condition our contemplated approval so as to assure that the provisions of the instant agreement shall apply only with respect to Resolutions 203a and 203d, which were approved by Order 72–4–61 for an extended period of effectiveness through August 31, 1972.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found, on a tentative basis, that the following resolutions, which are incorporated in Agreement CAB 22986, are adverse to the public interest or in violation of the Act; provided that eventual approval is subject to the condition hereinafter ordered.

IATA Resolutions:
100 (Mail 893) 203g.
200 (Mail 129) 203g.
300 (Mail 372) 203g.
JT12 (Mail 784) 203g.
JT23 (Mail 294) 203g.
JT31 (Mail 211) 203g.
JT123 (Mail 683) 203g.

Accordingly, it is ordered, That:

Action on Agreement CAB 22986 be and hereby is deferred with a view toward eventual approval subject to the condition that the provisions of said agreement shall be applicable only to reduced fare transportation permitted pursuant to Resolutions 203a and 203d and shall not apply to travel governed by Resolution 203c.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may, within 10 days after the date of service of this order, file such petitions in support of or in opposition to our proposed action herein.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72–6466 Filed 4–26–72;8:52 am]

[Docket No. 21866–9; Order 72–4–121]

NATIONAL AIRLINES, INC.

Order Dismissing Complaint Regarding Reduced Florida Stopover Charges

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of April 1972.

By tariff revisions [1] marked to become effective May 5, 1972, National Airlines, Inc. (National) proposes to reduce to $0.93 the existing $10.19 charge for stopovers at Miami applicable in connection with transcontinental transportation in certain markets. Currently a $0.93 stopover charge applies at four other Florida cities, and National states that its purpose is to conform the charge at all points in the State. The tariff does not bear an expiration date.

Northeast Airlines, Inc. (Northeast) has complained against the proposed change requesting suspension and investigation. It alleges that the current stopover charge provides sufficient incentive to stimulate travel via Miami; that a $0.93 charge would not cover any of the cost involved; that National has failed to justify its proposal; and that extension of the charge to the additional market will result in unjustifiable revenue dilution.

---

[1] Letters from public officials, interested citizens, and business concerns in opposition to the application have been received.

[2] This issue will permit consideration of an unconditional suspension and a suspension contingent upon air taxi replacement service.

[3] Of course, at this time we are merely placing deletion in issue, and the above remarks are not intended to do more than raise a question which is to be resolved on the basis of an evidentiary record.

[4] See Orders 71–10–19 (dated Oct. 5, 1971) and 72–1–52 (dated Jan. 17, 1972) which deferred action on the new Resolution 203c provisions.

[1] Revisions to Airline Tariff Publishers, Inc., agent, Tariff CAB No. 136.

[4] The proposed fares are also consistent with the Price Commission Regulations regarding the pricing of new service.

[5] We recognize that the standard-class fares will be substantially higher than the coach fares in certain Bismarck markets. However, this stems from the fact that the coach fares in these markets have been relatively low. Since the fares resulting from Frontier's proposal will be in line with those applying throughout its system, suspension does not appear warranted on this ground.

[6] While the complaints from the various civil parties and the North Dakota State Aeronautics Commission were not timely filed we nevertheless have considered them in reaching our conclusions herein.

V 37 I 82 APR 27 72 XUM

In answer to the complaint, National contends that Northeast has not demonstrated that a 4.2-percent reduction in the normal coach fare (including stopover) will result in an unreasonably low fare, particularly in view of the narrow purpose of that fare; that the Miami-Los Angeles market is not large and the service requires all the supporting traffic that can be reasonably directed to or through it; that this lower charge is needed for consistency with other Florida points; and that there is no merit in Northeast's contention that the removal of all but a token stopover charge means that the cost of the stopover will not be met.

The question of the proper fare for trips involving stopovers is within the scope of the Domestic Passenger-Fare Investigation, Docket 21866-9. The question here then is whether to permit the proposal to become effective, or to suspend it pending investigation. Upon consideration of all relevant matters, the Board finds that the complaint does not set forth sufficient facts to warrant suspension, and the request therefor will be denied and the complaint dismissed.

National operates very little through-plane service between its northeast points and the west coast via Miami. Since a change of plane is therefore generally required, little additional cost will be incurred by permitting a stopover at Miami. A charge of $0.93 presently applies for stopovers in the Disney World area in connection with travel from numerous northeast/midwest points to Florida; and also for stopovers at Las Vegas on transcontinental trips. Stopovers at these points would generally involve some additional cost to the carrier since they involve interruption of what would otherwise be through travel on a through flight. In this light, there would seem no reason to require a higher charge at Miami where the transportation usually involves a change of plane in any event.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof:

It is ordered, That:

1. The complaint of Northeast Airlines, Inc., in Docket 24370 is hereby dismissed; and

2. A copy of this order be served upon National Airlines, Inc., and Northeast Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

STANDARD BROADCAST APPLICATION READY AND AVAILABLE FOR PROCESSING

The following application was tendered March 8, 1972, seeking the identical facilities of former station KVIN, Vinita, Okla. The application for renewal of the license of KVIN was denied June 16, 1971, Vinita Broadcasting Co., Inc., et al., 30 FCC 2d 458, 22 RR 2d 195; reconsideration denied, 32 FCC 2d 501, 23 RR 2d 262, an appeal from the Commission action has been dismissed, and that proceeding is now terminated. Accordingly, we have waived the provisions of note 2 to § 1.571 of the Commission's rules and have accepted this application for filing. Similarly, we will accept any other application for consolidation which proposes essentially the same facilities.

New, Vinita, Okla., Green Country Broadcasting Co., Inc., Req: 1470 kc, 500 w, Day.

Pursuant to the provisions of §§ 1.227 (b)(1), 1.591(b) and note 2 to § 1.571 of the Commission's rules, an application, in order to be considered with this application must be in direct conflict and tendered no later than May 30, 1972.

The attention of any party in interest desiring to file pleadings concerning this application, pursuant to section 309(d)(1) of the Communication Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for the provisions governing the time of filing and other requirements relating to such pleadings.

Adopted: April 20, 1972.

Released: April 20, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[Docket Nos. 18456, 18457; FCC 72R-115]

HARVIT BROADCASTING CORP. AND THREE STATES BROADCASTING CO., INC.

Memorandum Opinion and Order Modifying Issue

In regard applications of Harvit Broadcasting Corp., Williamson, W. Va., Docket No. 18456, File No. BPH-6075; Three States Broadcasting Co., Inc., Matewan, W. Va., Docket No. 18457, File No. BPH-6157, for construction permits.

1. This proceeding involves the mutually exclusive applications of Harvit Broadcasting Corp. (Harvit) and Three States Broadcasting Co., Inc. (Three States) for construction permits for new FM broadcast stations at Williamson and Matewan, W. Va., respectively. By Commission Order, FCC 69-180, 16 FCC 2d 806, released March 7, 1969, these applications were designated for consolidated hearing on a Surburban issue against Three States, and areas and populations, section 307(b), and contingent comparative issues. Subsequently, in response to a request by Harvit, the Review Board, by memorandum opinion and order, released September 29, 1971 (31 FCC 2d 876, 22 RR 2d 1062), added several issues against Three States relating to its operation of standard broadcast Station WHJC at Matewan. Among the issues specified was one inquiring into whether Three States had violated §§ 17.25, 17.47, 17.48, and/or 17.49 of the Commission's rules with respect to tower lighting and attendant requirements. Presently before the Board are: (1) A petition to enlarge inquiry and change issue, filed October 27, 1971, by Harvit, seeking the addition of a § 1.65 issue against Three States and a change of the tower lighting issue;[1] and (2) a petition to enlarge issues, filed December 2, 1971, seeking the addition of a § 1.615 issue against Three States.[2]

RULES 1.65 AND 1.615 ISSUES

2. Harvit's October petition requests a § 1.65 issue against Three States based on allegations that that applicant failed to notify the Commission of a change in its officers. Arising out of factual responses made in Three States' opposition to Harvit's petition, Harvit filed its December petition requesting a § 1.615 issue against Three States. Since both requests are predicated on the same factual allegations, they will be considered together. Harvit bases its request for a § 1.65[3] issue on a newspaper advertisement in the Williamson Daily News, dated September 23, 1971, which indicates that Clifton Branham is now president of Three States.[4] According to Harvit, Three States' application represents that Florence Morningstar is its president. Harvit states that within at least 30 days after the appearance of the newspaper advertisement, Three States had still failed to notify the Commission of this change in the presidency, or to amend its application, thereby violating § 1.65 of the Commission's rules. Additionally, Harvit, in its December petition, submits that Three States, in its opposition to Harvit's October petition (see paragraph 3, infra), indicated that it failed to file a revised ownership report until November 17, 1971, almost 4 months after the change in officers occurred, thereby violating § 1.615 of the Commission's rules.[5] The Broadcast Bureau supports the request for a § 1.65 issue unless a satisfactory explanation is given by Three States. The Bureau also believes that a comparative issue based on the § 1.615 violation is warranted.

* * * * *

3. In opposition, Three States concedes that Clifton Branham was, in fact, its president on September 23, 1971, when the newspaper advertisement appeared, and still is, and that Branham was elected to the presidency on July 22, 1971, replacing Florence Morningstar. Three States alleges, however, that Branham is neither a director nor a stockholder in Three States; that Florence Morningstar is still treasurer, a stockholder, and a director of the corporation; that, simultaneously with the filing of its opposition, Three States filed a petition for leave to amend reflecting the change in officers;[6] that such action was not previously taken by Three States because of a misunderstanding between Three States and its former communications counsel; that an Ownership Report was filed on November 17, 1971 (and that no benefits accrued to Three States by failing to file earlier); and that Three States seeks no comparative advantage by the inclusion of Branham in its board of officers. Thus, Three States argues that: it claims no comparative advantage; the delay in notifying the Commission was mere inadvertence; and Harvit is attempting to unduly delay and prolong this proceeding to the detriment of the public interest. Accordingly, Three States urges, further inquiry into Harvit's requests for §§ 1.65 and 1.615 issues against Three States is not warranted. In addition, Three States submits that Harvit's request for a § 1.615 issue is late filed because Harvit knew of the facts on October 27, 1971, when it filed its petition to enlarge inquiry and change issue and could have ascertained at that time that a possible § 1.615 violation had occurred.

4. In reply to the opposition to the § 1.65 issue, Harvit argues: that a misunderstanding does not relieve Three States of its obligation to update its application; that since George Warren (Executive Vice-President of Three States) directed the preparation of the original application and submitted six amendments thereto, he should have known it was his obligation to amend the application; and, finally, that Warren's explanation and reasons for the election are doubtful. Therefore, contends Harvit, the whole matter warrants an evidentiary inquiry. In its later reply, Harvit contends that had it been able to do so it would have filed for addition of both the §§ 1.65 and 1.615 issues at the same time but that its counsel had difficulty ascertaining between September 1971, and October 1971, whether Three States had ever filed the required ownership report, and it was not until Three States admitted such violation in its opposition, filed November 19, 1971, that Harvit had actual knowledge.[7]

5. The Board will not add § 1.65 or § 1.615 issues against Three States. It is well established that where there has been a substantial change in information furnished by an applicant, § 1.65 requires such applicant, as promptly as possible, but within 30 days, unless good cause is shown, to amend or request amendment of its application. The rule is intended to apply where a substantial change may be of significance to the Commission's determination of the public interest. Report and Order in Docket 14867, Reporting of Changed Circumstances, 29 FR 15516, 3 RR 2d 1622 (1964). See also Chapman Radio and Television Co., 25 FCC 2d 855, 20 RR 2d 411 (1970). Likewise, Rule 1.615 requires that a supplemental ownership report be filed by each licensee or permittee within 30 days after any change in officers has occurred. Since the change in Three States' presidency did not result in a change in ownership or in proposed owner-management integration, the information, while concededly late in coming to the Commission, is not of such decisional significance as to necessitate a § 1.65 evidentiary inquiry. See Warwick Broadcasting Corp., 16 FCC 2d 1030, 15 RR 2d 973 (1969); Chapman Radio and Television Co., supra. Compare Harrison Radio, Inc., 22 FCC 2d 283, 18 RR 889 (1970). There is no showing that Three States attempted to conceal facts from or mislead the Commission. Significantly, the change in officers has "no effect on the legal, financial or other qualifications of the applicant." Auburn Publishing Co., FCC 72R-82, ____ FCC 2d ____, released March 30, 1972. The change should have been reported to the Commission within 30 days of its occurrence, but the applicant's failure to do so does not automatically warrant an issue. Cf. Media, Inc., 22 FCC 2d 486, 18 RR 2d 970 (1970). As we stated in Auburn, "the Board has frequently refused to specify a § 1.65 issue where, as here, the violation was unintentional and there was no attempt to mislead or conceal, no pattern of violations has been shown, and the violation was of questionable significance." Auburn Publishing Co., supra. See also our prior memorandum opinion and order in this proceeding, 32 FCC 2d 656, 23 RR 2d 328, released December 6, 1971.

6. In reference to the requested §1.615 issue, we believe that, besides being without merit, Harvit's petition is untimely and should have been filed at the same time as its October petition. Additionally, Three States filed the required ownership report on November 17, 1971, which it alleges was as soon as it became aware of its oversight. This was prior to

[1] Also before the Review Board are the following related pleadings: (a) Reply (opposition), filed November 19, 1971, by Three States; (b) comments, filed November 8, 1971, by the Broadcast Bureau; and (c) reply, filed December 2, 1971, by Harvit.

[2] Also before the Review Board are the following related pleadings: (a) Opposition, filed December 7, 1971, by Three States; (b) comments, filed December 14, 1971, by the Broadcast Bureau; and (c) reply, filed December 17, 1971, by Harvit.

[3] Section 1.65 requires disclosure from an applicant when the information furnished in the application is no longer substantially accurate and complete in all significant respects or when changes which may be of decisional significance have occurred.

[4] A copy of the advertisement is attached to Harvit's October petition.

[5] Section 1.615, in pertinent part, provides: (c) A supplemental ownership report (FCC Form 323) shall be filed by each licensee or permittee within 30 days after any change occurs in the information required by the ownership report from that previously reported. Such report shall include without limitation:

[6] The petition was granted and the amendment tendered therewith accepted by the Hearing Examiner by Order, FCC 71M-1941, released December 20, 1971.

(2) Any change in officers and directors;

[7] Harvit alleges that its counsel tried and was unable to obtain WHJC's ownership file at the Commission before filing its Oct. 27, 1971, pleading.

V 37-82 APR 27 72 XUM

Harvit's late-filed December petition.[8] In view of all the foregoing circumstances, neither a § 1.65 nor a § 1.615 issue against Three States is warranted.

MODIFICATION OF TOWER LIGHTING ISSUE

7. Finally, Harvit requests that the tower lighting issue specified against Three States (see paragraph 1, supra) be changed to include §§ 17.21 and 17.56 of the Commission's rules, as well as the rules already mentioned in the issue. Harvit concedes that reference to these rules was omitted in its original petition to enlarge, but points out that each section was mentioned in Harvit's reply pleading. The Broadcast Bureau interposes no objection to the requested modification. Three States, in opposition, argues that Harvit's petition is not timely filed because more than 15 days have elapsed since the order was released; that Harvit has not explained this tardiness; and that Harvit states no reason to justify the inclusion of these two rules at this time. In reply, Harvit alleges that its request is timely because the change was requested within 30 days of the release of the Board's memorandum opinion and order. Harvit explains that the omission of the two rules in the original petition was due to the vast multiplicity of the rules involved.

8. The Review Board agrees with Harvit and the Broadcast Bureau that the tower lighting issue should be modified to encompass an inquiry into possible violation of §§ 17.21 and 17.56. Concededly, Harvit's request is untimely filed under § 1.229(b) of the Commission's rules. However, the hearing is still in progress and will not be unduly disrupted by the grant of the request, and §§ 17.21 and 17.56 are closely related to the other rules already in issue. Therefore, no prejudice would be caused to Three States by granting the requested modification. Under the circumstances, the Review Board will modify the tower lighting issue, as requested. Cf. Day-Nite Radio Message Service Corp., 23 FCC 2d 665 (1970).

9. *Accordingly, it is ordered,* That the petition to enlarge inquiry and change issue, filed October 27, 1971, by Harvit Broadcasting Corp., is granted to the extent indicated below and is denied in all other respects; that the petition to enlarge issues, filed December 2, 1971, by Harvit Broadcasting Corp. is denied; and

10. *It is further ordered,* That issue (c) added by Review Board Memorandum Opinion and Order (31 FCC 2d 876, 22 RR 2d 1062), released September 29, 1971, is modified to read as follows:

To determine whether Three States Broadcasting Co., Inc., has violated §§ 17.21, 17.25, 17.47, 17.48, 17.49, and/or 17.56 of the Commission's rules with respect to tower lighting and attendant requirements.

Adopted: April 19, 1972.

Released: April 21, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[9]

[SEAL] BEN F. WAPLE, *Secretary.*

[FR Doc.72-6429 Filed 4-26-72;8:49 am]

[8] The Board finds unpersuasive Harvit's argument concerning its attorney's alleged difficulty in obtaining WHJC's file between September 30th and October 27th. There is no showing that Harvit's counsel requested the Commission to locate or to be of assistance in procuring the ownership report. Counsel simply explains that the file was "temporarily misplaced." Thus, Harvit's December petition, filed some 2 months after acquiring knowledge of the change in officers, is untimely and good cause has not been shown for the late filing. For that reason alone, it could be denied. Cf. Phil D. Jackson, ——— FCC 2d ———, 23 RR 2d 1030 (1972).

[9] Board Member Berkemeyer absent.

FEDERAL POWER COMMISSION

[Docket No. CI72-661]

KERR-McGEE CORP.

Notice of Application

APRIL 24, 1972.

Take notice that on April 17, 1972, Kerr-McGee Corp. (applicant), Kerr-McGee Building, Oklahoma City, Okla. 73102, filed in Docket No. CI72-661 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. (United) from the Carthage (Hill S. W.) Field, Panola County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant commenced the sale of natural gas to United on March 27, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act. The contract for the subject sale provides for the rate of 24 cents per Mcf at 14.65 p.s.i.a. and is subject to 1.056 cents per Mcf upward B.t.u. adjustment. Applicant states that it is willing to accept a certificate conditioned to the initial rate of 23.5 cents per Mcf providing it is issued on or before the end of the 60-day emergency period.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before May 4, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 72-5]

SPACE SHUTTLE PROGRAM

Public Notice Regarding Availability of Draft Environmental Impact Statement

Notice is hereby given of the public availability of the draft Environmental Impact Statement for the Space Shuttle Program of the National Aeronautics and Space Administration.

The Space Shuttle will be a reusable space vehicle which will carry out various space missions in earth orbit. The objectives of the program are to reduce substantially the cost of space operations and to provide future capability designed to support a wide range of scientific, defense, and commercial uses of benefit to the Nation. Test flights are planned to begin in 1976, manned orbital test flights in 1978, and the complete space shuttle vehicle is to be operational before 1980. The initial launch and landing site will be at the Kennedy Space Center, Fla. Toward the end of the decade, it is planned that a second operational site will be phased in by the Department of Defense at Vandenberg Air Force Base, Calif.

Comments on the draft environmental statement and on matters set forth therein are solicited from and may be submitted by State and local agencies and members of the public. Such comments should be submitted to the Associate Administrator, National Aeronautics and Space Administration, Washington, D.C. 20546. All comments must be received within 60 calendar days of the publication of this notice in the FEDERAL REGISTER in order to be considered in the preparation of the final environmental statement.

Copies of the draft statement may be purchased (price $1 each) or examined at any of the following locations:

(a) National Aeronautics and Space Administration, Public Documents Room (Room 126), Independence Avenue S.W., Washington, D.C. 20546.

(b) Ames Research Center, NASA (Building 201, Room 17), Moffett Field, Calif. 94035.

(c) Flight Research Center, NASA (Building 4800, Room 1017), Post Office Box 273, Edwards, CA 93523.

(d) Goddard Space Flight Center, NASA (Building 8, Room 150), Greenbelt, Md. 20771.

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Proposed Issue and Sale of First Mortgage Bonds at Competitive Bidding

APRIL 21, 1972.

Notice is hereby given that Michigan Wisconsin Pipe Line Co., One Woodward Avenue, Detroit, MI 48226 (Michigan Wisconsin), a subsidiary company of American Natural Gas Co., a registered holding company, has filed an application with this Commission, pursuant to the Public Utility Holding Company Act of 1935 (Act), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transaction.

Michigan Wisconsin proposes to issue and sell, pursuant to the competitive bidding requirements of Rule 50 under the Act, $50 million principal amount of First Mortgage Pipe Line Bonds, —— percent Series due June 15, 1992. The interest rate of the bonds (which shall be a multiple of ⅛ of 1 percent) and the price, exclusive of accrued interest, to be received by Michigan Wisconsin (which shall be not less than 98½ nor more than 101½ percent of the principal amount thereof) are to be determined by the competitive bidding. The bonds are to be issued under Michigan Wisconsin's mortgage and deed of trust dated as of September 1, 1948, between Michigan Wisconsin and First National City Bank, trustee, as heretofore supplemented and as to be further supplemented by a 25th supplemental indenture to be dated as of June 1, 1972, and which includes a prohibition until June 15, 1977, against refunding the issue with or in anticipation of the proceeds from borrowings at a lower cost. The Series 1992 bonds will be subject to a sinking fund commencing June 15, 1977, designed to retire 100 percent of the aggregate principal amount thereof by maturity. The net proceeds from the sale of the bonds will be used to finance in part Michigan Wisconsin's 1972 construction program (estimated to be $140 million).

It is represented that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction. A statement as to the fees and expenses to be paid by Michigan Wisconsin in connection with the proposed issuance and sale of the bonds are to be supplied by amendment.

Notice is further given that any interested person may, not later than May 16, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[70-5159]

MIDDLE SOUTH UTILITIES, INC., AND ARKANSAS-MISSOURI POWER CO.

Notice of Filing of Application for Exception From Competitive Bidding

APRIL 21, 1972.

Notice is hereby given that Middle South Utilities, Inc., 280 Park Avenue, New York, NY 10017 (Middle South), a registered holding company, and its subsidiary holding company Arkansas-Missouri Power Co., 405 West Park Street, Blytheville, AR 72315 (Ark-Mo), have filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), for an exception from competitive bidding, designating Rule 50(a)(5) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

The Commission, by order dated May 5, 1971 (Holding Company Act Release No. 17116), authorized Middle South to acquire all the outstanding shares of preferred stock and common stock of Ark-Mo. This order was granted subject to certain conditions, including the condition that Ark-Mo dispose of its gas utility properties and its gas utility subsidiary company, Associated Natural Gas Co. (Associated).

Ark-Mo now proposes to commence the divestiture of these gas utility properties and requests exception from the competitive bidding provisions of Rule 50. Ark-Mo's gas properties in northeastern Arkansas and southeastern Missouri are adjacent and complementary to those of Associated and the principal gas supply for the Ark-Mo and Associated gas systems is obtained under a joint contract from Texas Eastern Transmission Corporation (Texas Eastern). Ark-Mo states that available gas supply is presently insufficient to meet anticipated peak demand and that to supplement its peak capacity Ark-Mo has commenced construction of a liquefied natural gas facility near Blytheville, Ark., at a cost of $4 million.

It is represented that due to the relationship of Ark-Mo's and Associated's gas operations, the combined sale of the two gas properties may be a practical necessity. It is further represented that the separate sale of those gas properties not dependent upon the operation of the system as a whole (approximately 25 percent of the Associated properties) may be required, and that exception from the competitive bidding procedures would also afford Ark-Mo the necessary flexibility to dispose of these properties on the best possible terms.

Ark-Mo states that upon receipt of the requested order granting the exception from the competitive bidding provisions of Rule 50, it will send a letter to each person, firm, municipality, or organization which has expressed an interest in acquiring the gas properties, as well as to any other parties who might be expected to have an interest. Each party will be notified that Ark-Mo is exploring the possibility of the sale of its gas properties and its holdings of the common stock of Associated. Ark-Mo states that a similar notice will be published after which it will request, under competitive conditions, definitive proposals from those who expressed serious interest in the properties. Prior to the time set for the submission of proposals, Ark-Mo states it will make the same information available to each of the interested parties. Ark-Mo further states that upon receipt of all proposals, it will evaluate each and may accept any one, reject all, or designate one or more as evidencing an adequate basis for further negotiations. In the event that Ark-Mo receives acceptable proposals, it will negotiate further with such party or parties as have submitted acceptable proposals and, if there is more than one such party, the negotiations will continue to be held under competitive conditions.

No sale of any of the gas utility company securities or properties will be consummated until a declaration has been filed with the Commission notifying it of the results of the negotiations, and a further order, pursuant to Rule 44 of the Act, has been entered by the Commission permitting the declaration to become effective.

It is stated that Ark-Mo does not expect to incur any fees, commissions, or expenses in connection with the instant application, except for legal fees and miscellaneous expenses, which are estimated not to exceed $3,000. It is further stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than May 16, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[70-4935]

QUINNEHTUK CO. AND NORTHEAST UTILITIES

Notice of Post-Effective Amendment Regarding Proposed Sale of Generating Station

APRIL 21, 1972.

Notice is hereby given that Northeast Utilities, Selden Street, Berlin, Conn. 06037 (Northeast), a registered holding company, and its subsidiary company, The Quinnehtuk Co. (Quinnehtuk), have filed with this Commission a post-effective amendment to the declaration in this proceeding pursuant to section 12(d) of the Public Utility Holding Company Act of 1935 (Act) and Rule 44 promulgated thereunder regarding the following proposed transaction. All interested persons are referred to the amended declaration, which is summarized below, for a complete statement of the proposed transaction.

By order dated December 1, 1970 (Holding Company Act Release No. 16918), the Commission authorized Northeast and Quinnehtuk to sell by public invitation for bids a hydroelectric generating plant (the Station) on the Chicopee River in the City of Chicopee, Mass., with a nameplate rating of 1,440 kilowatts. Presently, Quinnehtuk leases the Station to Western Massachusetts Electric Co. (WMECO), another electric utility subsidiary of Northeast, at an annual rental of $6,000. WMECO also pays all taxes, insurance, operating, maintenance, and repair costs for the Station. The current lease term expires on August 31, 1972; however, it is proposed that WMECO and Quinnehtuk mutually will terminate the lease upon the consummation of the proposed transaction. The depreciated book value of the Station as of June 30, 1970 was $160,116. The projected cost of continuing to operate the Station over the next 30 years is estimated to exceed by more than $260,000 the cost to purchase an equal amount of capacity and energy to that provided by the Station.

The post-effective amendment states that, after having received no bids to purchase the Station, Quinnehtuk initiated negotiations with a number of parties for the sale of the Station, including the city of Chicopee, adjacent landowners, and persons who had requested bidding papers but who had not submitted bids. None of these negotiations were successful. After extensive negotiations, Quinnehtuk has reached an agreement, subject to Commission approval, to sell the Station for $1 to Sanifill Corp., Inc., a Massachusetts corporation.

In support of its application, Quinnehtuk states that the Station cannot be run economically as a generating facility and that adapting the property for other uses would be costly. Among the factors which make sale of the Station difficult are that any deed to the Station would contain numerous restrictions and obligations including (a) the necessity, under certain circumstances, to convey a small

V 37-82 APR 27 72 XUM

portion of the Station property to Quinnehtuk's grantor, who has a right to draw a contracted amount of water, and (b) protection of a water pipe in the bed of the canal. Under the Massachusetts general laws, dam owners are required to keep dams under reasonable repair, and during the past several years, Quinnehtuk has experienced serious maintenance problems along the power canal. It is stated that by relinquishing the Station, Quinnehtuk will avoid maintenance costs within the next 2 years of between $66,500 and $77,500. The costs of demolishing the generating station and the dam are estimated at $441,000. Additional savings are achieved by avoiding payment of the annual property tax of $19,200 and reducing Federal income taxes by $63,000 as a result of the sale.

It is represented that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than May 15, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney by law, by certificate) should be filed with the request. At any time after said date, the declaration, as now amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[812-3161]

EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES AND SEPARATE ACCOUNT A OF THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES

Notice of Application for an Exemption

APRIL 20, 1972.

Notice is hereby given that the Equitable Life Assurance Society of the United States (Equitable), a mutual life insurance company organized under the laws of the State of New York, and Separate Account A of Equitable, 1285 Avenue of the Americas, New York, NY 10019, (Separate Account A) (herein collectively called "Applicants") have filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (Act) for an order of exemption, to the extent noted below, from the provisions of section 22(d) of the Act. Equitable established Separate Account A on August 1, 1968, pursuant to the provisions of section 227 of the New York Insurance Law to afford a medium for equity investments for variable annuity contracts issued by Equitable in connection with particular tax-deferred retirement programs. Separate Account A is an open-end, diversified investment company registered under the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Variable annuity contracts are currently being offered by Equitable under which purchase payments are made annually or more frequently until the annuitant's selected retirement date or his prior death. If payments are discontinued under one of these variable annuity contracts, the contract remains in effect as a paid-up deferred annuity and payments may be resumed at any time before the retirement date or before the contract is surrendered for redemption. In addition to these contracts, Equitable currently offers variable annuity contracts funded through Separate Account A which may be purchased by a single payment (single payment contracts). There are two general kinds of single payment variable annuity contracts: (i) Immediate annuity contracts under which annuity payments will normally begin 1 month after the contract is purchased; and (ii) deferred annuity contracts under which the net amount of the purchase payment will be allocated to either a fixed or variable accumulation or a combination, and the cash values of the accumulations may be applied at retirement to provide a fixed or variable annuity or a combination.

The single payment for either an immediate or deferred annuity contract is subject to deductions for sales expenses of 5.5 percent of the payment and for administrative expenses of 2 percent of the first $5,000 of the payment. When the contract is purchased with the proceeds of a life insurance policy or an annuity contract issued by Equitable, the current deduction is 2.665 percent of the payment for sales expense, and 2.06 percent of the first $5,000 of the payment for administrative expenses. No deductions for administrative expenses are made from the amount of payment in excess of $5,000.

On October 9, 1970, the Commission issued an order (Investment Company Act Release No. 6204) pursuant to section 6(c) granting an exemption from section 22(d) of the Act to permit a variation in the rate of deductions as between the single payment variable annuity contracts purchased with the proceeds of life insurance policies or annuity contracts issued by Equitable and the single payment variable contracts otherwise purchased. Based on Equitable's analysis and experience in regard to the issuance of single payment contracts since October 1970 (when the single payment contracts were first offered), Equitable proposes to revise its charges in connection with such contracts in order to increase the charge for administrative expenses to 2.5 percent of the first $7,500 of the payment, and, if the purchase is made with the proceeds of an Equitable life insurance policy or annuity contract, to eliminate the deduction for sales expense.

The application states that the variation in the rate of deduction does not arbitrarily or unfairly discriminate between different categories of investors. With respect to single payment variable annuity contracts purchased with the proceeds of a life insurance policy or an annuity contract issued by Equitable, Applicants state that the latter policies and contracts have previously been subjected to sales charges, and that no additional sales commissions are paid. As a result of the substantial savings which are realized on such purchases, Applicants consider the imposition of a sales load on such purchases of single payment variable annuity contracts to be unwarranted and not in the public interest or consistent with protection of investors.

Section 22(d) provides, in pertinent part, that no registered investment company or principal underwriter shall sell any redeemable security to the public except at a current offering price described in the prospectus. This section has been construed as prohibiting variations in the sales load except on a uniform basis.

Applicants request that an exemption from the provisions of section 22(d) be granted pursuant to section 6(c) of the Act to permit the variation in the rate of deductions as between the single payment variable annuity contracts purchased with the proceeds of life insurance policies or annuity contracts issued by the Equitable and the single payment variable annuity contracts otherwise purchased.

Section 6(c) authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than May 4, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service by affidavit (or, in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3094]

EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES AND SEPARATE ACCOUNT C OF THE EQUITABLE LIFE ASSURANCE SOCIETY OF THE UNITED STATES

Notice of Amended Application for Exemption

APRIL 20, 1972.

Notice is hereby given that the Equitable Life Assurance Society of the United States (Equitable), a mutual life insurance company organized under the laws of the State of New York, and Separate Account C of the Equitable Life Assurance Society of the United States, 1285 Avenue of the Americas, New York, NY 10019 (Separate Account C) (herein collectively called "Applicants") have filed an application pursuant to section 6(c) of the Investment Company Act of 1940 (the Act) for an order of exemption to the extent noted below from the provisions of sections 22(d) and 27(c)(2) of the Act. Applicants initially applied for an exemption from section 27(c)(2) of the Act. A notice of the Application was published on February 15, 1972 (Investment Company Act Release No. 7002). Subsequent to publication of the notice, Applicant amended its application in order to broaden the scope of the exemption which it was seeking. A notice of the amended application was published on March 8, 1972. On April 12, 1972, Applicant further amended its application to request an exemption to the extent noted below from section 22(d) of the Act. All interested persons are referred to the Application, as amended, on file with the Commission, for a statement of the representations contained therein, which are summarized below.

Equitable established Separate Account C on March 20, 1969, pursuant to the provisions of section 227 of the New York Insurance Law to afford a medium for equity investments for certain variable annuity contracts issued and administered by Equitable. Variable annuity contracts which are purchased by a single payment and provide monthly annuity payments commencing 1 month from the date of purchase (Immediate Contracts) are currently being offered by the Applicants. In addition to these contracts, the Applicants propose to offer deferred variable annuity contracts (Deferred Contracts) under which payments may be made to Equitable annually or more frequently until the Deferred Contract retirement date, the date the Contract is surrendered for its cash value, or the annuitant's death, whichever first occurs. (The Immediate Contracts and the Deferred Contracts are herein collectively referred to as the "Contracts".) The Deferred Contracts, and upon issuance of the Deferred Contracts, the Immediate Contracts, may be deemed to be "periodic payment plans," and payments thereunder (other than for any disability provision) are subject to deductions for sales and administrative expenses, a collection charge (in the case of Deferred Contracts) and any applicable state premium tax. After such deductions the net payment is invested in Separate Account C. At the Deferred Contract retirement date, if the annuitant is then living and another form of benefit has not been elected, the cash value of the Deferred Contract will be applied to provide a variable annuity funded through Separate Account C and payable monthly until the death of the annuitant or the end of 10 years, whichever is later. The assets of Separate Account C will, at most times, be invested primarily in common stocks. Interests in the Account are subject to the usual risks inherent in the ownership of a diversified portfolio of securities, the value of which varies up or down depending upon investment performance. Consequently, the cash value of the Deferred Contracts and the amount of any monthly variable annuity payments under the Contracts, will fluctuate in accordance with the investment performance of Separate Account C.

SECTION 22(d)

Section 22(d) provides, in pertinent part, that no registered investment company or principal underwriter shall sell any redeemable security to the public except at a current offering price described in the prospectus. This section has been construed as prohibiting variations in the sales load except on a uniform basis.

The single payment for an Immediate Contract is currently subject to a deduction of 5.5 percent of the payment for sales expenses, and 2 percent of the first $5,000 of the payment for administrative expenses. However, when an Immediate Contract is purchased with the proceeds of a life insurance policy or annuity contract issued by Equitable, the current deductions are 2.665 percent of the payment for sales expense and 2.06 percent of the first $5,000 of the payment for administrative expenses. No deductions for administrative expenses are made from the amount of payment in excess of $5,000.

On March 24, 1970, the Commission issued an order (Investment Company Act Release No. 6010) pursuant to section 6(c) granting certain exemptions from the Act, including an exemption from section 22(d) thereof in order to permit a reduced sales charge and variation in the deduction for administrative expenses when Immediate Contracts participating under Separate Account C are purchased with the proceeds of an insurance policy or annuity contract issued by Equitable. Based on Equitable's analysis and experience in regard to the issuance of Immediate Contracts since March 1970 (when the Immediate Contracts were first offered), Equitable proposes to revise its charges in connection with such contracts in order to increase the charge for administrative expenses to 2.5 percent of the first $7,500 of the payment, and, if the purchase is made with the proceeds of an Equitable life insurance policy or annuity contract, to eliminate the deduction for sales expense.

The amended application states that the variation in the rate of deduction does not arbitrarily or unfairly discriminate between different categories of investors. With respect to Immediate Contracts purchased with the proceeds of a life insurance policy or an annuity contract issued by Equitable, Applicants state that the latter policies and contracts have previously been subject to sales charges, and that no additional sales commissions are paid. On this basis, Applicants consider the imposition of a sales load on such purchases of Immediate Contracts to be unwarranted and not in the public interest or consistent with the protection of investors.

SECTION 27(c)(2)

Section 27(c)(2) prohibits a registered investment company or a depositor or underwriter for such company from selling periodic payment plan certificates unless the proceeds of all payments, other than the sales load, are deposited

V 37 - 82 APR 27 72 XUM

with a bank as trustee or custodian and held under an indenture or agreement containing, in substance, the provisions required by sections 26(a) (2) and (3) for trust indentures of a unit investment trust.

Applicants represent that the dangers against which sections 27(c)(2) and 26 (a) are directed are not present here in view of the manner in which the Contracts will be administered. In addition, Equitable is subject to extensive supervision and regulation of the New York Insurance Department, which conducts comprehensive periodic examinations of all aspects of Equitable's business, including the handling of policyholder's funds. Under the New York law, Equitable cannot abandon its obligations to contract owners or annuitants until they have been fully discharged. In this connection, although the terms of the Contracts will legally insulate the reserves and other contract liabilities with respect to Separate Account C from liabilities arising out of any other business Equitable may conduct, Equitable's considerable assets will be available to protect against any loss in the event of any misfeasance or mishandling of payments. Furthermore, Equitable maintains a general blanket bond of $1 million under which each of its officers, employees and commission agents is covered. The bond has a $50,000 deductible clause which in effect makes Equitable a self-insurer for the first $50,000 of any loss.

In the foregoing circumstances, it is submitted that compliance with the requirements of section 27(c)(2) is not necessary for the protection of investors and, therefore, the Applicants request that an exemption from section 27(c)(2) be granted.

Applicants have consented to the requested exemption being subject to the following conditions: (1) that the charges to variable annuity contract owners for administrative services shall not exceed such reasonable amounts as the Commission shall prescribe, jurisdiction being reserved for such purpose; and (2) that the payment of sums and charges out of the assets in Separate Account C shall not be deemed to be exempted from regulation by the Commission by reason of this order: *Provided*, That the Applicants' consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payment of sums and charges out of the assets in Separate Account C other than charges for administrative services, and Applicants reserve the right, in any proceeding before the Commission or in any suit or action in any court, to assert that the Commission has no authority to regulate the payment of such other sums and charges.

Section 6(c) authorizes the Commission to exempt any person, security or transaction, or any class or classes of persons, securities, or transactions, from the provisions of the Act and rules promulgated thereunder if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is hereby given that any interested person may, not later than May 4, 1972, at 5 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service by affidavit (or, in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[Notice 52]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206 (a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73447. By order of April 18, 1972, the Motor Carrier Board approved the transfer to Craig Movers, Inc., Oakton, Va., of the operating rights in Certificate No. MC-63919 issued July 20, 1956, to James Craig, Jr., Earl S. Craig, Frederick C. Craig, and Robert E. Craig, a partnership, doing business as J. H. Craig's Sons, Oakton, Va., authorizing the transportation of agricultural commodities, from Vienna, Va., and points in Virginia within 25 miles thereof, to Washington, D.C. and Baltimore, Md.; empty boxes and baskets for agricultural commodities, from Baltimore, Md., and Washington, D.C., and Baltimore, Md.; points within 25 miles thereof; fertilizer, from Baltimore, Md., to points in Fairfax County, Va.; household goods, between Vienna, Va., and points within 25 miles thereof, on the one hand, and, on the other, points in Maryland and the District of Columbia; and livestock, between points in Virginia and the District of Columbia, on the one hand, and, on the other, points in New York, New Jersey, Pennsylvania, Delaware, Maryland, West Virginia, North Carolina, and the District of Columbia. Frank D. Swart, Post Office Box 400, Fairfax, VA 22030, attorney for applicants.

No. MC-FC-73511. By order of April 21, 1972, the Motor Carrier Board approved the transfer to Central Ind-Ill Trucking Inc., Terre Haute, Ind., of the operating rights set forth in Certificate No. MC-78684, issued August 11, 1960, to Wallace Kosiba, Gary, Ind., authorizing the transportation of: Fertilizer, roofing, farm supplies and equipment, lumber, livestock, emigrant movables, feed, agricultural commodities, wood, limestone, gravel, coal, and farm machinery, from, to, or between specified points in Illinois, and Indiana. W. L. Jordan, 2609 Fenwood Avenue, Terre Haute, IN 47803, registered practitioner for applicants.

No. MC-FC-73531. By order of April 20, 1972, the Motor Carrier Board approved the transfer to Dennis L. Page, doing business as Page Transfer & Storage Co., Peterstown, W. Va., of the operating rights set forth in Certificate No. MC-33131, issued May 16, 1969, to Dennis L. Page and Thurmond E. Taylor, doing business as Page & Taylor Transfer & Storage Co., Peterstown, W. Va., authorizing the transportation of: Household goods, as defined by the Commission, between points in Monroe County, W. Va., and Wiles County, Va., on the one hand, and, on the other, points in Virginia and West Virginia. Dennis L. Page, Post Office Box 416, Peterstown, W. Va. 24963, representative for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 32]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

APRIL 21, 1972.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by § 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

No. MC 2202 (Sub-No. 405), filed March 27, 1972. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, Post Office Box 471, Akron, OH 44309. Applicant's representative: William O. Turney, 2001 Massachusetts Avenue NW., Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, from the plantsite of Friedman Industries, Inc., at or near Lone Star, Tex., to points in North Carolina and Wisconsin. NOTE: Applicant states that tacking is possible within the State of North Carolina, although tacking is not intended. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 2368 (Sub-No. 34), filed March 23, 1972. Applicant: BRALLEY-WILLETT TANK LINES, INC., 2212 Deepwater Terminal Road, Post Office Box 495, Richmond, VA 23204. Applicant's representative: Harry C. Ames, Jr., 666 Eleventh Street NW., Suite 705, Washington, DC 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuming nitric acid and nitric acid propellant*, in bulk, in tank vehicles, from Buffalo, N.Y., to Vandenberg Air Force Base, Calif., and Cape Kennedy, Fla. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 2900 (Sub-No. 224), filed March 30, 1972. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, FL 32203. Applicant's representative: Robert H. Cleveland, Post Office Box 2408, Jacksonville, FL 32203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite and warehouse facilities of the Olin Corp. at or near St. Marks, Fla., as an off-route point in connection with applicant's existing regular routes. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C., or Jacksonville, Fla.

No. MC 2900 (Sub-No. 225), filed March 30, 1972. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, FL 32203. Applicant's representative: Robert H. Cleveland, Post Office Box 2408, Jacksonville, FL 32203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, household goods as defined by the Commission, and those requiring special equipment), serving the plantsite and warehouse facilities of the General Tire and Rubber Co., at or near Mount Vernon, Ill., as an off-route point in connection with applicant's existing regular-route authority. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., Atlanta, Ga., or Jacksonville, Fla.

No. MC 2900 (Sub-No. 226), filed March 31, 1972. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Jacksonville, FL 32203. Applicant's representative: Robert H. Cleveland, Post Office Box 2408, Jacksonville, FL 32203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) serving the plantsite and warehouse facilities of Reynolds Metals Building Products Division located at or near Ashville, Ohio, as an off-route point in connection with carrier's existing regular routes; and (2) serving the plantsite and warehouse facilities of Freeman Shoe Co., a division of United States Shoe Corp., at or near Beloit, Wis., as an off-route point in connection with carrier's existing regular routes. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Atlanta, Ga.

No. MC 3977 (Sub-No. 3), filed February 9, 1972. Applicant: DEWEY LONG CARTAGE, INC., 1551 West 102d Street, Rear, Cleveland, OH 44102. Applicant's representative: Ambrose A. Such, 5275 Ridge Road, Cleveland, OH 44129. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paper products and materials, supplies, and machinery*, used in the production thereof, from Cleveland, Ohio, to Congo, W. Va., plantsite of Quaker State Oil, under contract with Westvaco Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio.

No. MC 25399 (Sub-No. 8), filed March 27, 1972. Applicant: A-P-A TRANSPORT CORP., 2100 88th Street, North Bergen, NJ 07047. Applicant's representative: Herbert Burstein, 30 Church Street, New York, NY 10007. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, and except dangerous explosives, household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, commodities in bulk, commodities requiring special equipment and those injurious of contaminating to other lading, between Scranton, Pa., on the one hand, and, on the other, New Windsor, N.Y. for operating convenience only. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unretricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 27578 (Sub-No. 5), filed March 22, 1972. Applicant: BALDWIN TRANSPORTATION CORPORATION, 554 West 38th Street, New York, NY 10018. Applicant's representative: Herbert Burstein, 30 Church Street, New York, NY. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, between points in that portion of the New York, N.Y., commercial zone as defined in the fifth supplemental report in Commercial Zones and Terminal Areas, 53 M.C.C. 451, within local operations may be conducted under the exemption provided by section 203(b)(8) of the Interstate Commerce Act (the exempt zone), on the one hand, and, on the other, points in Nassau, Suffolk, and Westchester Counties, N.Y. (exempt Great Neck Estates, Floral Park, and Valley Stream, in Nassau County, and Yonkers, Mount Vernon, Pelham, North Pelham, and Pelham Manor, in Westchester County). NOTE: Applicant states that the requested authority can be tacked at New York, N.Y., to serve points in Essex, Passaic, Middlesex, Union, Hudson, and Bergen Counties, N.J. Applicant further states that the purpose of the instant application is to remove the restriction contained in its present authority which limits the same to shipments having a prior movement by rail. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 29910 (Sub-No. 113), filed March 23, 1972. Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, AR 72901. Applicant's representative: Thomas Harper, Kelley Building, Post Office Box 43, Fort Smith, AR 72901. Authority Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Plastic pipe, tubing, conduit, valves, and fittings, compounds, joint sealer, bonding cement, primer coating, thinner, and hand tools*, used in the installation of such products (except commodities in bulk, in tank vehicles), from Slidell and New Orleans, La., to points in Nebraska, Kansas, Oklahoma, Texas, Iowa, Missouri, Arkansas, Illinois, Indiana, Kentucky, Tennessee, Mississippi, Alabama, Ohio, Michigan, North Carolina, South Carolina, and Georgia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant further states no duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Memphis, Tenn.

No. MC 30605 (Sub-No. 150), filed March 13, 1972. Applicant: THE SANTA FE TRAIL TRANSPORTATION COMPANY, a corporation, 433 East Waterman Street, Wichita, KS. 67202. Applicant's representative: F. J. Steinbrecher, 80 East Jackson Boulevard, Chicago, IL 60604. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Wichita, Kans., and Woodward, Okla.; from Wichita over Kansas Highway 2 to junction of U.S. Highway 281, thence over U.S. Highway 281 to its junction with Oklahoma Highway 15, thence over Oklahoma Highway 15 to Woodward, and return over the same routes, serving all intermediate points in Oklahoma. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Woodward, Okla., or Wichita, Kans.

No. MC 30844 (Sub-No. 399), filed March 27, 1972. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Waterloo, IA 50704. Applicant's representative: Truman A. Stockton, 1650 Grant Street Building, Denver, Colo. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Garden and lawn sprinklers, and garden and lawn implements*, from the plantsite and facilities of Melnor Industries at or near Moonachie, N.J., to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, restricted to shipments originating at the above-named origin when destined to the named States. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 35628 (Sub-No. 329), filed March 29, 1972. Applicant: INTERSTATE MOTOR FREIGHT SYSTEM, a corporation, 134 Grandville SW., Grand Rapids, MI 49502. Applicant's representative: Leonard D. Verdier, Jr., 900 Old Kent Building, Grand Rapids, Mich. 49502. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of Eaton Corp. at or near Glasgow, Ky., as an off-route point in connection with carrier's operations to and from Louisville, Ky., and Evansville, Ind., as authorized in MC 35628. NOTE: If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio, or Washington, D.C.

No. MC 41432 (Sub-No. 121), filed March 27, 1972. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, Post Office Box 10125, Dallas, TX 75207. Applicant's representative: W. P. Furrh (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Memphis and Millington, Tenn., from Memphis over U.S. Highway 51 to Millington, and return over the same route, serving the plantsite of Pulvair Corp., located in Shelby County, Tenn., as an off-route point in connection with applicant's regular-route authority to and from Memphis, Tenn. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or Dallas, Tex.

No. MC 51603 (Sub-No. 6), filed March 10, 1972. Applicant: REESE TRUCK LINE, INCORPORATED, Kerr Drive, 700 Petroleum Building, Jackson, Miss. 39204. Applicant's representative: John A. Crawford 700 Petroleum Building, Post Office Box 22567, Jackson, MS 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between

V 37-82 APR 27 72 XUM

New Orleans, La., and Osyka, Miss.: From New Orleans, La., over U.S. Highway 61 and/or Interstate Highway 10 to junction U.S. Highway 51 and/or Interstate Highway 55 at or near Laplace, La., thence over U.S. Highway 51 and/or Interstate Highway 55 to Osyka, Miss., and return over the same route, serving no intermediate points, as an alternate route for operating convenience only. NOTE: If a hearing is deemed necessary, applicant requests it be held at McComb, Miss., Jackson, Miss., or New Orleans, La.

No. MC 52110 (Sub-No. 125), filed March 13, 1972. Applicant: BRADY MOTORFRATE, INC., 2150 Grand Avenue, Des Moines, IA 50312. Applicant's representative: Homer E. Bradshaw, First Floor Des Moines Building, Des Moines, IA 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts* as described in sections A, B, and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsite and/or storage facilities utilized by Wilson Certified Foods, Inc., at Marshall, Mo., to points in Indiana, Maryland, Michigan, New Jersey, New York, Ohio, Pennsylvania, Louisville, and Covington, Ky., and the District of Columbia, restricted to traffic originating at Marshall, Mo., and destined to points in the named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., Des Moines, Iowa, or St. Louis, Mo.

No. MC 55889 (Sub-No. 40), filed March 31, 1972. Applicant: COOPER TRANSFER CO., INC., Post Office Box 2207, Dothan, AL 36301. Applicant's representative: A. Alvis Layne, 915 Pennsylvania Building, Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading, over regular routes: (1) Between New Orleans, La., and Jacksonville, Fla., from New Orleans over U.S. Highway 90 to Jacksonville (also over Interstate Highway 10), and return over the same route; (2) between Thomasville, Ga., and St. Petersburg, Fla., from Thomasville over U.S. Highway 19 to St. Petersburg, and return over the same route; (3) between Albany, Ga., and Miami, Fla., from Albany over U.S. Highway 82 to Tifton, Ga., thence over Interstate Highway 75 to Tampa, Fla., (also from Tifton over U.S. Highway 41 to Tampa), thence over U.S. Highway 41 to Miami, and return over the same routes; (4) between Bainbridge, Ga., and Miami, Fla., from Bainbridge over U.S. Highway 27, and return over the same route; (5) between junction of Interstate Highway 72 and Florida's Turnpike at or near Wildwood, Fla., and Miami, Fla., from junction Interstate Highway 75 and Florida's Turnpike over Florida's Turnpike to Miami, and return over the same route; (6) between Naples, Fla., and Fort Lauderdale, Fla., from Naples over Florida Highway 84 to Fort Lauderdale, and return over the same route; (7) between Jacksonville, Fla., and Miami, Fla., from Jacksonville over U.S. Highway 1 to Miami (also over Interstate Highway 95), and return over the same routes;

(8) Between Baldwin, Fla., and junction Florida's Turnpike, from Baldwin over U.S. Highway 301 to junction Florida's Turnpike at or near Wildwood, Fla., and return over the same route; (9) between Daytona Beach, Fla., and St. Petersburg, Fla., from Daytona Beach over U.S. Highway 92 to St. Petersburg, (also over Interstate Highway 4), and return over the same routes; (10) between Tampa, Fla., and junction Florida's Turnpike, from Tampa over Florida Highway 60 to junction Florida's Turnpike at or near Yeehaw Junction, Fla., and return over the same route, serving, in connection with Routes 1 through 10 above, (1) all intermediate points in Alabama, Georgia, and those in Florida on and west of Florida Highway 87 and on and east of the Apalachicola River; (2) all other points in Florida on and west of Florida Highway 87 and on and east of the Apalachicola River as off-route points; and (3) all intermediate points in Mississippi, with service at Mississippi points restricted to the transportation of shipments moving from or to points in Florida; (11) between Columbus, Ga., and Bainbridge, Ga., from Columbus over U.S. Highway 431 to Dothan, Ala., thence over U.S. Highway 84 to Bainbridge, and return over the same routes, serving Dothan and points between Dothan and Bainbridge as intermediate points and (12) between Geneva and Dothan, Ala., from Geneva over Alabama Highway 52 to Dothan, and return over the same route, serving all intermediate points, restricted to the transportation of shipments moving from or to points in Florida. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala., or Jacksonville, Fla.

No. MC 61592 (Sub-No. 216) (Amendment), filed May 21, 1971, published in the FEDERAL REGISTER issue of June 10, 1971, and republished as amended, this issue. Applicant: JENKINS TRUCK LINE, INC., 3708 Elm Street, Bettendorf, IA 52722. Applicant's representative: Donald W. Smith, 900 Circle Tower Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) Antipollution systems, equipment, and parts, liquid cooling and vapor condensing systems equipment and parts; environmental control and protective systems, equipment and parts; (B) equipment, materials, and supplies used in the construction or installation of antipollution and environmental control and protective systems, and liquid cooling and vapor condensing systems (except commodities in bulk), between points in the United States (except Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of this republication is to reflect a change in the commodity description. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 63417 (Sub-No. 41), filed March 15, 1972. Applicant: BLUE RIDGE TRANSFER COMPANY, INCORPORATED, 1814 Hollins Road NE., Post Office Box 2888, Roanoke, VA 24001. Applicant's representative: Nancy Pyeatt, 420 Executive Building, 1030 15th Street NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *new furniture*, from Macon, Ga., to points in Alabama, Arkansas, Florida, Louisiana, Mississippi, Oklahoma, South Carolina, and Texas, restricted against tacking with existing authority to perform northbound service from Macon, Ga., to points north of the northern boundary of South Carolina. NOTE: Applicant states that (1) This proposed authority could be combined with Sub 5 (new furniture from points in Alabama to Stanleytown, Va.) and Sub 6 (new furniture from Stanleytown, Va.) to provide through service from Macon, Ga., to points in Illinois, Indiana, Kentucky, Michigan, Tennessee, and Virginia; (2) This proposed authority could be combined with Sub 18 (new furniture from Sumter, S.C.) to provide through service from Macon, Ga., to points in West Virginia, Maryland, Pennsylvania, Ohio, New York, Delaware, New Jersey, Kentucky, Illinois, Indiana, Michigan, Virginia, and (via Sub 6, new furniture from Roanoke, Va.) North Carolina, Tennessee, and the District of Columbia. The operations outlined in (1) and (2) above would be prohibited by the restriction against tacking to perform through northbound service, as applied for here by Blue Ridge; (3) By combining Sub 5 general commodity authority to Rocky Mount, Va., with Sub 6 new furniture authority from Rocky Mount, Va., to points in Georgia, and with this proposed authority, Blue Ridge would be able to transport new furniture from points in Delaware, Maryland, New Jersey, New York, Pennsylvania, Virginia, and West Virginia, to points in Alabama, Arkansas, Florida, Louisiana, Mississippi, Oklahoma, South Carolina, and Texas. (This service is now authorized to points in Alabama, Florida, and South Carolina), and (4) by combining Sub 30 new furniture authority from Sumter, S.C., to points in Georgia with this proposed authority, Blue Ridge would be able to provide through service in the transportation of new furniture from Sumter, S.C., to points in Alabama, Arkansas, Florida, Louisiana, Mississippi, Oklahoma, and Texas. (This service is now authorized to points in Alabama and Florida.) If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Roanoke, Va.

No. MC 65580 (Sub-No. 18), filed March 27, 1972. Applicant: MUSHROOM TRANSPORTATION COMPANY, INC., 845 East Hunting Park Avenue, Philadelphia, PA 19124. Applicant's representative: Joseph A. Malloy, Jr., 1738 Philadelphia National Bank Building, Philadelphia, Pa. 19124. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between Phillipsburg, N.J., and Erie, Pa., from Phillipsburg, N.J., over Interstate Highway 78, thence over Interstate Highway 78 to junction Pennsylvania Highway 309, thence over Pennsylvania Highway 309 to junction Interstate Highway 81, thence over Interstate Highway 81 to junction Interstate Highway 80, thence over Interstate Highway 80 to Interstate Highway 79, thence over Interstate Highway 79 to Erie, and return over the same route, as an alternate route for opening convenience only, in connection with applicant's authorized regular route authority, serving no intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Philadelphia, or Erie, Pa., or Trenton, N.J.

No. 66686 (Sub-No. 30), filed March 24, 1972. Applicant: BELGER CARTAGE SERVICE, INC., 2100 Walnut Street, Kansas City, MO 64108. Applicant's representative: Ralph A. Wood (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Materials, supplies, and equipment* used or useful in the maintenance and operation of printing and publishing houses (restricted to the transportation of commodities which because of size or weight or other inherent nature require the use of special equipment for the transportation or handling thereof), between points in Missouri, Kansas, Illinois, Iowa, Nebraska, Colorado, Oklahoma, and Texas and (2) *parts, attachments, accessories, and components of commodities* named in (1) above, between points in the States named in (1) above, on the one hand, and, on the other, points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 69635 (Sub-No. 4), filed March 31, 1972. Applicant: THE FORTUNE CORPORATION, 91 South Connecticut Street, Seattle, WA 98134. Applicant's representative: Horace Raphael (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, between points in King, Pierce, and Snohomish Counties, Wash., restricted to traffic having a prior or subsequent movement by water, land, or air. NOTE: Applicant states that the requested authority can be tacked at Seattle, Wash., with its authority under MC 69635 Subs (1), (2), and (3). If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 76032 (Sub-No. 294), filed March 27, 1972. Applicant: NAVAJO FREIGHT LINES, INC., 1205 South Platte River Drive, Denver, CO 80223. Applicant's representative: Leonard R. Kofkin, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas, coconuts, and pineapples*, (a) from Kansas City, Kans., to points in Nebraska, Kansas, North Dakota, South Dakota, Minnesota, Iowa, Missouri, Wisconsin, Illinois, and Indiana; (b) from St. Louis, Mo., to points in Missouri, Illinois, and Iowa; (c) from Chicago, Ill., to points in Indiana, Wisconsin, Illinois, Iowa, Michigan, and Minnesota; (d) from Council Bluffs, Iowa, to points in Nebraska, North Dakota, South Dakota, Iowa, and Minnesota; (e) from Inver Grove, Minn., to points in South Dakota, North Dakota, Wisconsin, and Minnesota; (f) from Denver, Colo., to points in Colorado, Nebraska, South Dakota, and Wyoming, restricted to the transportation of traffic (a) moving in chassis mounted containers and (b) having a prior or subsequent movement by rail. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 76429 (Sub-No. 5) (Amendment), filed December 27, 1971, published in the FEDERAL REGISTER issue of January 27, 1972, and republished as amended, this issue. Applicant: WILLIAM A. STEWART, doing business as STEWART TRUCK LINE, Dry Ridge, Ky. 41035. Applicant's representative: Rudy Yessin, McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) Between Sherman, Ky., and Corinth, Ky., serving all intermediate points and points within five (5) miles thereof, over U.S. Highway 25; and (2) Between Dry Ridge, Ky., and Warsaw, Ky., serving all intermediate points and points with 5 miles of said route, except points in Indiana over the following route: Over Kentucky Highway 22 to Owenton to its junction with U.S. Highway 127, thence over U.S. Highway 127 to Owenton, thence over U.S. Highway 127 to its junction with Kentucky Highway 35, thence over Kentucky Highway 35 to its junction with Interstate Highway 71, thence over Interstate Highway 71 to its intersection with Kentucky Highway 455, thence over Kentucky Highway 455, to Warsaw, Ky., and/or over U.S. Highway 127 to its junction with U.S. Highway 42, thence over U.S. Highway 42 to Warsaw. NOTE: Applicant states it will tack at common points. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. The purpose of this republication is to redescribe the authority sought. If a hearing is deemed necessary, applicant requests it be held at Lexington, Ky.

No. MC 83539 (Sub-No. 335), filed March 30, 1972. Applicant: C & H TRANSPORTATION CO., INC., 1936–2010 West Commerce Street, Post Office Box 5976, Dallas, TX 75222. Applicant's representative: Thomas E. James (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, in cargo containers and cargo vans, between all points in the United States (including Alaska but excluding Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif., Houston, Tex., and Washington, D.C.

No. MC 84449 (Sub-No. 4), filed March 27, 1972. Applicant: CALVALCADE TRUCKING, INC., Old Tyburn Road, Fairless Hills, Pa. 19030. Applicant's representative: V. Baker Smith, 2107 The Fidelity Building, Philadelphia, Pa. 19109. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty containers*, other than empty cargo containers or empty glass containers, and *such other materials, supplies, parts, and equipment* used or useful in the manufacture, production, assembly, and distribution of containers (except commodities in bulk), between Philadelphia, Pa., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, New Jersey, New York, Virginia, and the District of Columbia. NOTE: Applicant now has authority to transport tinware, between Philadelphia, Pa., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, New Jersey, New York, Virginia, and the District of Columbia. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa.

No. MC 88161 (Sub-No. 86), filed March 24, 1972. Applicant: INLAND TRANSPORTATION CO., INC., 6737 Corson Avenue South, Seattle WA 98108. Applicant's representative: Richard J. Howard, White-Henry-Stuart Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, in bulk, in tank vehicles, from points in Whitman, Garfield, Columbia, and Asotin Counties, Wash., to points in Oregon, Idaho, and

V 37-82
APR 27 72
XUM

Montana. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant holds contract carrier authority under MC 128203 Sub-1, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg.

No. MC 90373 (Sub-No. 31), filed March 30, 1972. Applicant: C & R TRUCKING CO., a corporation, Inman Avenue, Avenel, N.J. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plastics articles*, between Washington, N.J., Macedon, N.Y., and Canandaigua, N.Y., on the one hand, and, on the other, points in New York, Pennsylvania, New Jersey, Delaware, Maryland, Connecticut, Massachusetts, and the District of Columbia, under a continuing contract, or contracts with Mobil Chemical Co., Plastics Division. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 94350 (Sub-No. 309), filed March 27, 1972. Applicant: TRANSIT HOMES, INC., Post Office Box 1628, Haywood Road, Greenville, SC 29602. Applicant's represenative: Mitchell King, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles in initial shipments, from points in Onslow County, N.C. (excluding Jacksonville) and from points in Chatham County, N.C., to points in the United States east of the Mississippi River, including Louisiana and Minnesota. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Charlotte, N.C.

No. MC 95540 (Sub-No. 841), filed March 27, 1972. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, FL 33801. Applicant's representative: Paul E. Weaver (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Frozen citrus products*, from points in Florida to points in Connecticut, Maine, Maryland, Massachusetts, Rhode Island, and Vermont; and (B) *citrus products*, not canned and not frozen, from points in Florida to points in Rhode Island. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 95540 (Sub-No. 842), filed March 27, 1972. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, FL 33801. Applicant's representative: Paul E. Weaver (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen bakery products*, from Burlington, Mass., to points in New York, Pennsylvania, New Jersey, Delaware, West Virginia, Maryland, Ohio, Indiana, Kentucky, Tennessee, Michigan, Wisconsin, Minnesota, Iowa, Missouri, Illinois, Kansas, and Nebraska. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 95540 (Sub-No. 843), filed March 27, 1972. Applicant: WATKINS MOTOR LINES, INC., 1120 West Griffin Road, Lakeland, FL 33801. Applicant's representative: Paul E. Weaver (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen bakery products*, from Burlington, Mass., to points in Maine, Vermont, New Hampshire, Rhode Island, Connecticut, Virginia, North Carolina, South Carolina, Georgia, Alabama, Mississippi, Louisiana, Florida, and the District of Columbia. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 102616 (Sub-No. 869), filed March 29, 1972. Applicant: COASTAL TANK LINES, INC., 215 East Waterloo Road, Akron, OH 44319. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid acids and liquid chemicals*, in bulk, from points in the United States (except Alaska and Hawaii), to Bay City and Midland, Mich., restricted to traffic destined to Bay City and Midland, Mich., and points in their respective commercial zone. NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 103498 (Sub-No. 24), filed March 16, 1972. Applicant: W. D. SMITH TRUCK LINE, INC., Post Office Box 68, De Queen, AR 71832. Applicant's representative: Louis Tarlowski, 914 Pyramid Life Building, Little Rock, Ark. 72201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and lumber products*, from points in Howard and Polk Counties, Ark., to points in Louisiana, Illinois, Indiana, Kentucky, Tennessee, Mississippi, Georgia, and those in Missouri on and north of U.S. Highway 36. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark.

No. MC 105566 (Sub-No. 68), filed March 28, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Waterloo, Iowa to points in Baxter, Clay, Craighead, Cross, Fulton, Greene, Independence, Izard, Jackson, Lawrence, Mississippi, Poinsett, Randolph, and Sharp Counties, Ark.; Alexander, Clay, Crawford, Edwards, Effingham, Fayette, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jasper, Jefferson, Johnson, Lawrence, Marion, Massac, Perry, Pope, Pulaski, Randolph, Richland, Saline, Union, Wabash, Wayne, White, and Williamson Counties, Ill.; Brown, Crawford, Daviess, Dubois, Gibson, Greene, Knox, Lawrence, Martin, Monroe, Orange, Perry, Pike, Posey, Spencer, Sullivan, Vanderburgh, and Warrick Counties, Ind.; Ballard, Caldwell, Calloway, Carlisle, Christian, Crittenden, Daviess, Fulton, Graves, Hancock, Henderson, Hickman, Hopkins, Livingston, McCracken, McLean, Marshall, Muhlenberg, Ohio, Todd, Trigg, Union, and Webster Counties, Ky.; Bollinger, Butler, Cape Girardeau, Carter, Crawford, Dent, Douglas, Dunklin, Howell, Iron, Madison, Mississippi, New Madrid, Oregon, Ozark, Pemiscot, Perry, Phelps, Pulaski, Reynolds, Ripley, Ste. Genevieve, St. Francois, Scott, Stoddard, Shannon, Texas, Washington, Wayne, and Wright Counties, Mo.; Lake and Obion Counties, Tenn. NOTE: Applicant states that applicant holds no authority to which the requested authority could be tacked or joined. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Washington, D.C.

No. MC 105566 (Sub-No. 69), filed March 28, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from the plantsite of the Kitchens of Sara Lee at or near New Hampton, Iowa, to points in New York, Pennsylvania, Virginia, West Virginia, New Jersey, Maryland, Delaware, Ohio, Tennessee, Kentucky, and the District of Columbia, restricted to traffic originating at said plantsite and destined to the above named States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 105566 (Sub-No. 70), filed March 28, 1972. Applicant: SAM TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over

irregular routes, transporting: (1) *Carnivorous food products*, in packages, from Columbus, Ohio, to all points in the United States on and east of U.S. Highway 85, and (2) *Materials and supplies* used in the manufacture, sale, and distribution of carnivorous food products (except in bulk), from points in the United States (except Alaska and Hawaii), to Columbus, Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington. D.C.

No. MC 105566 (Sub-No. 71), filed March 28, 1972. Applicant: SAN TANKSLEY TRUCKING, INC., Post Office Box 1119, Cape Girardeau, MO 63701. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs and animal feed* (except in bulk), in vehicles equipped with mechanical refrigeration from points in Alexander, Union, and Wilkes Counties, N.C., and Accomack and Hanover Counties, Va., to points in the United States west of the Mississippi River (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 106398 (Sub-No. 593), filed March 23, 1972. Applicant: NATIONAL TRAILER CONVOY, INC., 1925 National Plaza, Tulsa, Okla. 74151. Applicant's representative: Irvin Tull (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wallboard, fiberboard, pulpboard, adhesive cement, plastic and fiberglass plate and sheets, nails, wood mouldings, aluminum flashings, and eave filler strips*, from plantsite of Barclay Industries, Inc., in Lodi, N.J., to points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, South Carolina, South Dakota, Tennessee, Texas, Utah, Washington, Wisconsin, and Wyoming. NOTE: Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 106497 (Sub-No. 67), filed March 27, 1972. Applicant: PARKHILL TRUCK COMPANY, a corporation, Post Office Box 912, Business Route I–44 East, Joplin, MO 64801. Applicant's representative: A. N. Jacobs, Post Office Box 113, Joplin, MO 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural tractors and parts, implements, attachments, accessories, and supplies*, from New Orleans, La., to points in Alabama, Arkansas, Mississippi, Illinois, Louisiana, and Tennessee. NOTE: Applicant states that the requested authority can be tacked with its Sub No. 4 where "size or weight" commodities are involved, but tacking is not intended. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Dallas, Tex.

No. MC 106603 (Sub-No. 122), filed March 27, 1972. Applicant: DIRECT TRANSIT LINES, INC., 200 Colrain Street SW., Grand Rapids, MI 49508. Applicant's representative: Martin J. Leavitt, 1800 Buhl Building, Detroit, Mich. 48226. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Masonry building products, and materials, and supplies* used in the installation thereof (except commodities in bulk), from Ypsilanti, Mich., to points in Ohio, Indiana, Illinois, Pennsylvania, West Virginia, and Kentucky. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant holds contract carrier authority under MC 46240 and subs, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 107002 (Sub-No. 416), filed March 23, 1972. Applicant: MILLER TRANSPORTERS, INC., Post Office Box 1123, U.S. Highway 80 West, Jackson, MS 39205. Applicant's representative: H.D. Miller, Jr., Post Office Box 22567, Jackson, MS 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from points in Harrison and Jackson Counties, Miss., to points in Alabama, Arkansas, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, and West Virginia. NOTE: Applicant states that the requested authority can be tacked with its existing authority, but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant seeks no duplicating authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Memphis, Tenn.

No. MC 107107 (Sub-No. 420), filed March 24, 1972. Applicant: ALTERMAN TRANSPORT LINES, INC., 12805 Northwest 42d Avenue, Opa Locka, FL 33054. Applicant's representative: Ford W. Sewell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts and articles distributed by meat packinghouses*, as described in sections A and C, appendix I, to the report in 61 M.C.C. 209 and 766 (except commodities in bulk, and hides, skins, and pieces thereof), from the plantsite and storage facilities utilized by Swift & Co. at or near St. Charles, Ill., to points in Alabama, Florida, Georgia, North Carolina, and South Carolina (restricted to traffic originating at the plantsite and storage facilities of Swift & Co. at or near St. Charles, Ill.). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Miami, Fla., or Washington, D.C.

No. MC 107107 (Sub-No. 421), filed March 24, 1972. Applicant: ALTERMAN TRANSPORT LINES, INC., 12805 Northwest 42d Avenue, Opa Locka, FL 33054. Applicant's representative: Ford W. Sewell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foods and foodstuffs* in vehicles equipped with mechanical refrigeration, from New Orleans, La., to points in Alabama, Mississippi, Georgia, South Carolina, and Florida and the return of such products as may be required from these States to New Orleans, La. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 107515 (Sub-No. 797), filed March 29, 1972. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, GA 30050. Applicant's representative: Paul M. Daniell, Post Office Box 872, Atlanta, GA 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Appleton, Wis., to points in Kentucky, Alabama, Florida, Georgia, Tennessee, Arkansas, Oklahoma, Texas, Louisiana, Mississippi, North Carolina, South Carolina, West Virginia, and Virginia, restricted to traffic originating at and destined to the points named. NOTE: Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 108449 (Sub-No. 341); filed March 16, 1972. Applicant: INDIANHEAD TRUCK LINE, INC., 1947 West County Road C, St. Paul, MN 55113. Applicant's representative: Adolph J. Bieberstein, 121 West Doty Street, Madison, WI 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cement*, in bulk, from Winona, Minn., to points in Iowa, Minnesota, and Wisconsin; and (2) *fly ash*, from points in Marathon County, Wis., to points in Illinois, Iowa, Minnesota, Upper Peninsula of Michigan, and Wisconsin. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore

V 37-82 APR 27 72 XUM

does identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or St. Paul, Minn.

No. MC 108587 (Sub-No. 15), filed March 21, 1972. Applicant: SCHUSTER'S EXPRESS, INC., 48 Norwich Avenue, Colchester, CT 06415. Applicant's representative: S. Harrison Kahn, Suite 733 Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, those requiring special equipment, and those injurious or contaminating to other lading), between Boston, Mass., and Buffalo, N.Y., serving Springfield and Worcester, Mass., and all intermediate points in New York, and the off-route points in New York on and south of a line extending along the shoreline of Lake Ontario to Oswego, N.Y., thence along New York Highway 57 to Syracuse, N.Y., thence along New York Highway 5 through Utica, N.Y., to Schenectady, N.Y., thence along New York Highway 7 to Troy, N.Y., thence along New York Highway 66 to junction New York Highway 43, and thence along U.S. Highway 43 to the New York-Massachusetts State line; and off route points in Onondaga and Jefferson Counties, N.Y., From Boston, Mass., over Interstate Highway 90 to Buffalo, N.Y., and return over the same route. NOTE: If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.; or Hartford, Conn.

No. MC 108884 (Sub-No. 23), filed March 30, 1972. Applicant: ROGERS TRANSFER, INC., Route 46, Post Office Box 175, Great Meadows, NJ 07838. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat and meat products*, from New York, N.Y., Newark and Jersey City, N.J., Philadelphia, Pa., Wilmington, Del., and Norfolk, Va., to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, Pennsylvania, New Jersey, Maryland, Delaware, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Louisiana, Mississippi, Tennessee, Kentucky, Arkansas, Ohio, Indiana, Illinois, Michigan, Missouri, and Wisconsin. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. No duplicating authority sought. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 109397 (Sub-No. 269), filed March 19, 1972. Applicant: TRI-STATE MOTOR TRANSIT CO., a corporation, Post Office Box 113, Joplin, MO 64801. Applicant's representative: Max G. Morgan, 600 Leininger Building, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Source, special nuclear and byproduct materials, radioactive materials, related reactor equipment, component parts, and associated materials*, between the facilities of Jersey Nuclear, Inc., located at or near Richland, Wash., on the one hand, and, on the other, points in the United States (except Hawaii and Alaska). NOTE: Common control may be involved. Applicant states that the requested authority can be tacked with its Sub No. 150 between points in Washington, but indicates that it has no present intention to tack and, therefore, does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. Applicant further states no duplicating authority is sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Portland, Oreg.

No. MC 109397 (Sub-No. 270), filed March 22, 1972. Applicant: TRI-STATE MOTOR TRANSIT CO., a corporation, Post Office Box 113, Business Route I-44 East, Joplin, MO 64801. Applicant's representative: A. N. Jacobs, Post Office Box 113, Joplin, MO 64801. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel shop equipment, office equipment, pallet racks, storage and wardrobe lockers*, from Santa Ana, Calif., to points in the United States (except California and Hawaii). NOTE: Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, or San Francisco, Calif.

No. MC 109478 (Sub-No. 123), filed March 14, 1972. Applicant: WORSTER MOTOR LINES, INC., Gay Road, Rural Delivery No. 1, North East, PA 16428. Applicant's representative: Joseph F. Mackrell, 23 West 10th Street, Erie, PA 16501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Food, food preparations and foodstuffs*, in vehicles equipped to protect such products from heat or cold, except in bulk, in tank vehicles, from the plantsite and/or warehouse facilities of Kraftco Corp., at or near Fogelsville and Allentown, Pa., to points in New York, Ohio, and Pennsylvania, restricted to traffic originating at the named origins and destined to points in the named territory. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., Philadelphia, Pa., or New York, N.Y.

No. MC 111729 (Sub-No. 341), filed March 10, 1972. Applicant: AMERICAN COURIER CORPORATION, 2 Nevada Drive, Lake Success, NY 11040. Applicant's representative: Russell S. Bernhard, 1625 K Street NW., Washington, DC 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Business papers, records, audit and accounting media of all kinds*, (a) Between Oak Brook, Ill., and Madison, Wis.; (b) between Philadelphia, Pa., on the one hand, and, on the other, Hampton, Newport News, Norfolk, Portsmouth, and Richmond, Va.; (c) between Quantico, Va., on the one hand, and, on the other, Albany, Ga.; Beaufort, Parris Island, S.C.; Cherry Point, and Jacksonville, N.C.; and Philadelphia, Pa.; (d) between Bird International Airport, Richmond, Va., and Quantico, Va., having an immediately prior or subsequent movement by air; and (e) between Tiffin, Ohio, and Fort Wayne, Ind. NOTE: Applicant holds authority under MC 112750 and subs, therefore, common control and dual operations may be involved. It further states a portion of the requested authority could be tacked with certain existing authorities, however, applicant does not, at present, have any intentions to tack. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 113678 (Sub-No. 452), filed March 27, 1972. Applicant: CURTIS, INC., 4810 Pontiac Street, Post Office Box 16004, Stockyards Station, Denver, CO 80216. Applicant's representative: Duane W. Acklie, Post Office Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766, from Carroll, Iowa, to points in Arizona, California, Colorado, Connecticut, Delaware, Idaho, Illinois, Maine, Maryland, Massachusetts, Montana, New Hampshire, New York, Nevada, Ohio, Oregon, Pennsylvania, Rhode Island, Utah, Vermont, Virginia, Washington, West Virginia, Wyoming, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., Denver, Colo., or Washington, D.C.

No. MC 114239 (Sub-No. 30) (Amendment), filed January 3, 1972, published in the FEDERAL REGISTER issue of February 3, 1972, and republished as amended this issue. Applicant: FARRIS TRUCK LINE, a corporation, Faucett, Mo. Applicant's representative: Warren H. Sapp, 450 Professional Building, 1103 Grand Avenue, Kansas City, MO 64106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dry urea*, from the plantsite and warehouse facilities of Atlas Chemical Industries located at or near Atlas, Mo., to points in Arkansas, Colorado, Illinois, Iowa, Kansas, Nebraska, and Oklahoma under a continuing contract or contracts with W. R. Grace & Co. NOTE: The purpose of this republication is to remove the restriction "except in tank vehicles". If a hearing is deemed necessary, applicant requests it be held at Kansas City, St. Joseph, or Joplin, Mo.

No. MC 114312 (Sub-No. 24), filed March 23, 1972. Applicant: ABBOTT TRUCKING, INC., Route 3, Delta, Ohio 43515. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, OH. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fertilizer and fertilizer materials*, from Coldwater, Mich., to points in Indiana which are on north and east of a line beginning at the junction of U.S. Highway 40 and the Indiana-Ohio State line, thence west on U.S. Highway 40 to junction U.S. Highway 231, thence north on U.S. Highway 231 to junction Indiana Highway 43, thence via U.S. Highway 421 to Michigan City, Ind. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Chicago, Ill.

No. MC 114533 (Sub-No. 250), filed March 15, 1972. Applicant: BANKERS DISPATCH CORPORATION, 4970 South Archer Avenue, Chicago, IL 60632. Applicant's representative: Arnold Burke, Suite 1133, 127 North Dearborn, Chicago, IL 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Exposed and processed film and prints, complimentary replacement film and incidental dealer handling supplies* (except motion picture films and materials and supplies used in connection with commercial and television motion pictures), between St. Louis, Mo., on the one hand, and, on the other points in Riley, Leavenworth, and Wyandotte Counties, Kans.; and (2) *proofs, cuts, copy, and other graphic arts material*, between Hillsboro, Ill., on the one hand, and, on the other, Kansas City, Mo. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant holds contract carrier authority under MC 128616, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis or Kansas City, Mo.

No. MC 114632 (Sub-No. 50), filed March 16, 1972. Applicant: APPLE LINES, INC., Box 507, Madison, SD 57042. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except dairy products and commodities in bulk, in tank vehicles), (1) from the plantsites and storage facilities of Tony Downs Food Co. at St. James and Madelia, Minn., and Butterfield Foods, Inc., at Butterfield, Minn., to points in Illinois, Indiana, Iowa, Kansas, Missouri, Oklahoma, Nebraska, North Dakota, South Dakota, and Wisconsin; and (2) from the plantsite of Wadco, Inc., at Estherville, Iowa, to points in Illinois, Indiana, Kansas, Minnesota, Missouri, Nebraska, North Dakota, South Dakota, Oklahoma, and Wisconsin, restricted in (1) and (2) above to traffic originating at the named plantsites and storage facilities and destined to the named States. NOTE: Applicant holds contract carrier authority under MC 129706, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Omaha, Nebr.

No. MC 115826 (Sub-No. 234) (Amendment), filed December 27, 1971, published in the FEDERAL REGISTER issue of February 3, 1972, and republished as amended, this issue. Applicant: W. J. DIGBY, INC., 1960 31st Street, Denver, CO 80217. Applicant's representative: Ezekial Gomez (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cheese and cheese products, and advertising material and specialties, and related equipment and supplies*, when moving with cheese and cheese products, from Logan, Utah, to points in Arizona, California, Colorado, Idaho, New Mexico, Nevada, Montana, Oregon, Utah, Washington, Wisconsin, and Wyoming. NOTE: The purpose of this republication is to reflect the amended commodity description as shown above, and the addition as destination points, Utah and Wisconsin. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., or Salt Lake City, Utah.

No. MC 115826 (Sub-No. 242), filed March 13, 1972. Applicant: W. J. DIGBY, INC., 1960 31st Street, Denver, CO 80217. Applicant's representative: Robert R. Digby, 217 Luhrs Tower, Phoenix, Ariz. 85003. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods and potato products* not frozen, from points in Idaho, Oregon, and Washington, to points in Connecticut, Delaware, Maryland, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or Boise, Idaho.

No. MC 115840 (Sub-No. 76), filed March 13, 1972. Applicant: COLONIAL FAST FREIGHT LINES, INC., 1215 West Bankhead Highway, Post Office Box 10327, Birmingham, AL 35202. Applicant's representative: C. E. Wesley (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic pipe, plastic fittings, connections, valves, hydrants, extrusions, and gaskets*, (except commodities in bulk), from the plantsite of Precision Polymers of Arkansas, located at or near East Camden, Ark., and Precision Polymers, Inc., located at or near Rockaway, N.J., to points in the United States (except Alaska and Hawaii); and (2) *equipment, materials, and supplies* used in the manufacture of commodities in Part (1) (except commodities in bulk), from points in the United States (except Alaska and Hawaii), to the plantsites of Precision Polymers of Arkansas, located at or near East Camden, Ark., and Precision Polymers, Inc., located at or near Rockaway, N.J. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Little Rock, Ark., or Birmingham, Ala.

No. MC 119539 (Sub-No. 17), filed March 22, 1972. Applicant: BEVERAGE TRANSPORT, INC., Post Office Box 88, East Broomfield, NY 14443. Applicant's representative: Raymond A. Richards, 23 West Main Street, Webster, NY 14580. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from (1) Egypt, Rushville and Red Creek, N.Y., to points in Bergen, Essex, Hudson, Middlesex, Morris, Passaic, Somerset and Union Counties, N.J.; and (2) from Waterloo, N.Y., to points in Bergen, Essex, Hudson, Middlesex, Morris, Passaic, Somerset, Union, N.J.; and Westchester, Nassau, and Suffolk Counties, N.Y., and New York, N.Y. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Rochester, N.Y.

No. MC 119632 (Sub-No. 52), filed March 23, 1972. Applicant: REED LINES, INC., 634 Ralston Avenue, Defiance, OH 43512. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, OH 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between the plantside and warehouse facilities of the General Tire & Rubber Co. at or near Mount Vernon, Ill., on the one hand, and, on the other, points in Connecticut, Delaware, Maryland, Massachusetts, the Lower Peninsula of Michigan, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, and West Virginia. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 119741 (Sub-No. 43), filed March 23, 1972. Applicant: GREEN FIELD TRANSPORT COMPANY, INC., Post Office Box 1235, also R.F.D. 2, Port

VOL 37-82 APR 27 72 XUM

Dodge, IA 50501. Applicant's representative: Donald L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the plantsites and warehouse facilities of Needham Packing Co., Inc., located at Omaha, Nebr. and Sioux City, Iowa, to points in Indiana, Michigan, and Ohio, restricted to traffic originating at the named origins and destined to the named destination States. NOTE: If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 119789 (Sub-No. 115), filed March 27, 1972. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, Dallas, TX 75222. Applicant's representative: James K. Newbold (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cleaning, polishing, and waxing compounds;* (2) *starch;* (3) *air fresheners and disinfectants;* (4) *mops, dusters, waxers, brooms, and carpet sweepers;* (5) *plastic bags;* and (6) *diet and nutritional foods* (except frozen), from Urbana, Ohio, and Franklin, Ky., to Kansas City, Mo., and St. Louis, Mo. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Washington, D.C.

No. MC 119789 (Sub-No. 116), filed March 27, 1972. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, Dallas, TX 75222. Applicant's representative: James K. Newbold (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cleaning, polishing, and waxing compounds,* (2) *starch;* (3) *air fresheners and disinfectants;* (4) *mops, dusters, waxers, and broom, and carpet sweepers* (5) *plastic bags,* and (6) *diet and nutritional foods* (except frozen), from Urbana, Ohio, and Franklin, Ky., to Atlanta, Ga., and Jacksonville, Fla. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Dallas, Tex.

No. MC 121114 (Sub-No. 3), filed March 23, 1972. Applicant: OAKLAND VAN & STORAGE, INC., 867 Isabella Street, Oakland, CA 96407. Applicant's representative: W. S. Pilling, 100 Bush Street, 21st Floor Shell Building, San Francisco, CA 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization, or unpacking, uncrating, and decontainerization of such traffic, (1) between San Francisco and Oakland, Calif., on the one hand, and, on the other, points in California, (2) between points in Los Angeles County, Calif.; and (3) between points in San Diego County, Calif. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 123069 (Sub-No. 14), filed March 28, 1972. Applicant: ALLER & SHARP, INC., 817 West Fifth Avenue, Columbus, OH 43212. Applicant's representative: Thomas F. Kilroy, Post Office Box 624, Springfield, VA 22150. Authority sought to operate as a *common carrier* by motor vehicle, over irregular routes, transporting: (1) *Carnivorous food products*, in packages, from Columbus, Ohio, to points in Kentucky, West Virginia, Tennessee, Indiana, Illinois, the Lower Peninsula of Michigan, points in the St. Louis, Mo., commercial zone as defined by the Commission, and those points in New York, Maryland, Virginia, and Pennsylvania on and west of Interstate Highway 81, and (2) *materials and supplies* used in the manufacture, sale, and distribution of carnivorous food products (except in bulk), from points in Kentucky, West Virginia, Tennessee, Indiana, Illinois, the Lower Peninsula of Michigan, points in the St. Louis, Mo., commercial zone as defined by the Commission, and those points in New York, Maryland, Virginia, and Pennsylvania on and west of Interstate Highway 81, to Columbus, Ohio. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Columbus, Ohio.

No. MC 123389 (Sub-No. 14), filed March 27, 1972. Applicant: CROUSE CARTAGE COMPANY, a corporation, Carroll, Iowa 51401. Applicant's representative William S. Rosen, 630 Osborn Building, St. Paul, Minn. 55102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts* distributed by meat packinghouses as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from Carroll, Denison, and Iowa Falls, Iowa, to points in Illinois, Indiana, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and West Virginia. NOTE: Applicant states that the requested authority can be tacked with its existing authority but indicates that it has no present intention to tack and therefore does not identify the points or territories which can be served through tacking. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Washington, D.C.

No. MC 124211 (Sub-No. 200) (Amendment), filed August 9, 1971, published in the FEDERAL REGISTER issue of September 30, 1971, and republished as amended, this issue. Applicant: HILT TRUCK LINE, INC., Post Office Drawer 988 D.T.S., Omaha, NE 68101. Applicant's representative: Thomas L. Hilt (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paint, paint materials, and plumbing supplies*, except commodities in bulk, from Omaha, Nebr., to points in Connecticut, Florida, Georgia, Maryland, Massachusetts, Mississippi, New York, North Carolina, Pennsylvania, South Carolina, and New Jersey; (b) *Foods*, from points in Lancaster, Madison, Platte, and Saline Counties, Nebr., to points in Michigan, Minnesota, Wisconsin, and those in that part of New York and Pennsylvania on and west of U.S. Highway 15; (c) *animal foods*, except commodities in bulk, from points in Montgomery County, Iowa, to points in the United States (except Alaska and Hawaii); and (d) *junk and scrap, nonferrous metals, and waste materials*, except in bulk, between points in Lancaster, Nance, and Platte Counties, Nebr., on the one hand, and, on the other, points in Arizona, Arkansas, Louisiana, Mississippi, and Texas. Restriction: The authority sought herein to the extent it duplicates any authority presently held by carrier, shall not be construed as conferring more than one operating right, severable by sale or otherwise. NOTE: Applicant states it will tack with its existing authority at origins and destinations involved. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. No duplicate authority is sought. The purpose of this republication is to redescribe the authority sought. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 124606 (Sub-No. 2), filed March 23, 1972. Applicant: FORD TRUCK LINE, INC., 1389 South Third Street, Memphis, TN 38106. Applicant's representative: A. Doyle Cloud, Jr., 2008 Clark Tower, 5100 Poplar Avenue, Memphis, TN 38137. Authority sought to

operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), between Memphis, Tenn., and Clarksville, Tenn.; From Memphis over Interstate Highway 40 to its junction with U.S. Highway 70, northeast of Jackson, Tenn., thence over U.S. Highway 70 to Huntingdon, Tenn., thence over Tennessee Highway 22 to McKenzie, Tenn., thence over U.S. Highway 79 to Clarksville, Tenn., and return over the same route, serving no intermediate points. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn.

No. MC 124679 (Sub-No. 50), filed March 20, 1972. Applicant: C. R. ENGLAND & SONS, INC., 975 West 2100 South, Salt Lake City, UT 84119. Applicant's representative: Daniel B. Johnson, Perpetual Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes, transporting: *Aluminum sheets* with plastic impregnation, from Salt Lake City, Utah, to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Applicant now holds contract carrier authority under its No. MC 128813 and subs, therefore dual operations may be involved. No duplicating authority is sought. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Salt Lake City, Utah.

No. MC 124692 (Sub-No. 90), filed March 27, 1972. Applicant: SAMMONS TRUCKING, Post Office Box 1447, Missoula, MT 59801. Applicant's representative: Gene P. Johnson, 514 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood fiberboard*, faced or finished with decorative or protective material, and *accessories and supplies* used in the installation thereof, from Denver, Colo., to points in Nebraska, Kansas, Wyoming, Montana, Utah, Idaho, Washington, and Oregon. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill. or Denver, Colo.

No. MC 125522 (Sub-No. 2), filed March 6, 1972. Applicant: SUNBURY TRANSPORT, LIMITED, Hoyt, New Brunswick, Canada. Applicant's representative: Francis E. Barrett, Jr., 10 Industrial Park Road, Hingham, MA 02043. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber and hardwood flooring*, (1) from ports of entry on the international boundary line between the United States and Canada located at or near Houlton, Vanceboro, Calais, Madawaska, Fort Kent, and Jackman, Maine to points in Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Michigan, Indiana, Ohio, and the District of Columbia; and (2) from ports of entry on the international boundary line between the United States and Canada located at or near Beechers Falls, N.H.; Norton, Derby Line, Richford, and Swanton, Vt.; Rouses Point, Rooseveltown, Alexandria Bay, Niagara Falls, and Buffalo, N.Y., and Detroit, Mich., to points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Delaware, Maryland, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Michigan, Indiana, Ohio, and the District of Columbia, restricted to traffic originating at Estcourt (Temiscouata County), Quebec, Canada. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Maine, or Boston, Mass.

No. MC 125627 (Sub-No. 1), filed March 27, 1972. Applicant: I & L TRUCKING, INC., 69 William Street, Belleville, NJ. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Carpets, carpeting, linoleum, tiling, materials, equipment and supplies*, used or useful in the installation and sale of carpets, carpeting, linoleum, and tiling (except commodities in bulk), from the Sussman and Spiegel Distribution Center, at Linden, N.J., to New York, N.Y., points in Nassau, Suffolk, Westchester, Orange, Rockland Counties, N.Y., and Fairfield County, Conn. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 125627 (Sub-No. 2), filed March 27, 1972. Applicant: I & L TRUCKING, INC., 69 William Street, Belleville, NJ. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NY 07306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel*, from the piers in New York Harbor to the facilities of Sussman and and Spiegel, Distribution Center, Inc., Belleville, N.J. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Newark, N.J.

No. MC 125813 (Sub-No. 11), filed March 23, 1972. Applicant: CRESSLER TRUCKING, INC., 153 West Orange Street, Shippensburg, PA 17257. Applicant's representative: John M. Musselman, 400 North Third Street, Harrisburg, PA 17108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Valves, air separators, vacuum breakers, thermostatic traps, float traps, bucket traps, thermo-disc traps, temperature regulators, pressure regulators, water hammer arresters, expansion joints, elbows and their fittings and connectors, vent tees, and distribution flow tees*, (b) *components, accessories and parts of plumbing and drainage systems, and heating and air conditioning systems*, (c) *pumps and pump parts*, and (d) *installation manuals and advertising materials* for the commodities in parts (a), (b), and (c) above, between Shippensburg, Pa., on the one hand, and, on the other, points in Connecticut, Delaware, Indiana, Illinois, Kentucky, Maine, Maryland, Michigan, New Hampshire, Ohio, Pennsylvania (except Philadelphia), Rhode Island, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, and (2) *components, accessories and parts of heating and air conditioning systems*, between Shippensburg, Pa., on the one hand, and, on the other, points in California, Masschusetts, New Jersey, New York, Oregon, Texas, Washington, and Philadelphia, Pa. NOTE: Common control may be involved. Applicant states it would be able to tack at Shippensburg, Pa., or Peru or Indianapolis, Ind. Persons interested in the tacking possibilities are cautioned that failure to oppose the application may result in an unrestricted grant of authority. If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa., or Washington, D.C.

No. MC 126039 (Sub-No. 17), filed March 29, 1972. Applicant: MORGAN TRANSPORTATION SYSTEM, INC., INTL. U.S. 6 and 15, New Paris, Ind. 46553. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printed matter and materials, supplies, and equipment*, used or useful in the maintenance and operation of printing houses (except commodities in bulk, in tank vehicles), between Warsaw, Ind., on the one hand, and, on the other, points in Ohio and Kentucky, except Louisville. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 126276 (Sub-No. 64), filed March 27, 1972. Applicant: FAST MOTOR SERVICE, INC., 12855 Ponderosa Drive, Palos Heights, IL 60463. Applicant's representative: Albert A. Andrin, 29 South La Salle Street, Chicago, IL 60603. NOTE: If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 133977 (Sub-No. 10), filed March 27, 1972. Applicant: GENE'S INC., 302 Maple Lane, Arcanum, OH 45304. Applicant's representative: Paul F. Berry, 88 East Broad Street, Columbus, OH 43215. Authority sought to operate as a

common carrier, by motor vehicle, over irregular routes, transporting: (1) *Foodstuffs*, in vehicles equipped with mechanical refrigeration (except in bulk, in tank vehicles), from Washington Court House, Ohio, to points in Kansas, Oklahoma, Texas, Nebraska, Arkansas, Colorado, and Utah; and (2) *returned, rejected, and damaged shipments*, of the above-specified commodities, from the above-specified destination points to Washington Court House, Ohio. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 134449 (Sub-No. 4), filed March 20, 1972. Applicant: LESTER V. MOZNIK, 3753 Grandview Highway, Burnaby, BC, Canada. Applicant's representative: Joseph O. Earp, 411 Lyon Building, 607 Third Avenue, Seattle, WA 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Kitchen cabinets, counter tops, and parts thereof*, from ports of entry on the international boundary line between the United States and Canada at or near Blaine and Sumas, Wash., to points in California (except those in Alameda, San Francisco, Contra Costa, Marin, San Mateo, Santa Cruz, Santa Clara, Sonoma, and Solano Counties, Calif.), Las Vegas and Reno, Nev., and Phoenix, Ariz., under contract with Crestwood Kitchens, Ltd. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 134548 (Sub-No. 3), filed March 9, 1972. Applicant: ZENITH TRANSPORT LTD., 2040 Alpha Avenue, Burnaby 2, BC, Canada. Applicant's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper felt products* in rolls, from the port of entry on the international boundary line between the United States and Canada at or near Blaine, Wash., to the plantsite of Nicolet of California, Inc., Hollister, Calif. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 134645 (Sub-No. 3), filed March 27, 1972. Applicant: LIVESTOCK SERVICE, INC., 1413 Second Avenue South, Post Office Box 944, St. Cloud, MN 56301. Applicant's representative: Bruce E. Mitchell, Suite 1600, First Federal Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat byproducts, and of articles distributed by meat packinghouses* as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, from the plantsite and storage facilities of Robel Beef Packers, Inc., at St. Cloud, Minn., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Michigan, Maryland, Massachusetts, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Tennessee, Vermont, Wisconsin, and the District of Columbia, restricted (a) against the transportation of commodities in bulk, and hides, and (b) to the transportation of shipments originating at the above-named plantsite and storage facilities. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. The purpose of the instant application is to convert its existing contract authority issued in No. MC 124071 and No. MC 124071 (Sub-No. 4) to common carrier authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis or St. Paul, Minn.

No. MC 135095 (Sub-No. 2), filed March 16, 1972. Applicant: SUDDATH OF SAVANNAH, INC., 5003 Liberty Parkway, Savannah, GA 31402. Applicant's representative: Lee Roy Anderson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods, unaccompanied baggage, and personal effects*, between points in Bryan, Bullock, Candler, Chatham, Effingham, Evans, Liberty, Long, Tattnall, and Tombs Counties, Ga., and is restricted to the transportation of traffic having a prior or subsequent movement in containers beyond the points authorized, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic. NOTE: If a hearing is deemed necessary, applicant requests it be held at Jacksonville, Fla., or Atlanta, Ga.

No. MC 135152 (Sub-No. 6), filed March 24, 1972. Applicant: CASKET DISTRIBUTORS, INC., Rural Route No. 2, Harrison, Ohio 45030. Applicant's representative: Jack B. Josselson, 700 Atlas Bank Building, Cincinnati, Ohio 45202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Uncrated caskets, casket displays, funeral supplies, and crated caskets*, in mixed loads with uncrated caskets, from Brookville, Ind., and Knoxville, Tenn., to points in the United States (except Alaska and Hawaii). NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 135273 filed March 10, 1972. Applicant: HARRY B. DANIELS, doing business as DANIELS MOVING AND STORAGE COMPANY, 2325 North Sinton Road, Colorado Springs, CO 80907. Applicant's representative: Truman A. Stockton, Jr., The 1650 Grant Street Building, Denver, CO 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods* restricted to the transportation of traffic having a prior or subsequent movement in containers and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization or unpacking, uncrating, or decontainerization of such traffic, between points in El Paso, Pueblo, Teller, and Fremont Counties, Colo. NOTE: Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Concord, N.H.

No. MC 135513 (Sub-No. 6), filed March 19, 1972. Applicant: ECHO TRUCKING COMPANY, a corporation, Post Office Drawer AY, Benson, AZ 85602. Applicant's representative: Earl H. Carroll, 363 North First Avenue, Phoenix, AZ 85003. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies, and equipment* used or useful in mining, milling, and smelting operations, concentrates and copper cement, between points in Arizona and points in Grant and Hidalgo Counties, N. Mex., as a contract carrier for Phelps Dodge Corp. NOTE: Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Phoenix and Tucson, Ariz.; Silver City, N. Mex., or El Paso, Tex.

No. MC 135971 (Sub-No. 2), filed March 13, 1972. Applicant: LOGISTEC CORPORATION, 109 Dalhousie Street, Quebec City, PQ Canada. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement in bulk*, from ports of entry on the international boundary line between Canada and the United States located in Maine, to points in Maine. NOTE: If a hearing is deemed necessary, applicant requests it be held at Concord, N.H.

No. MC 136008 (Sub-No. 3), filed March 29, 1972. Applicant: JOE BROWN COMPANY, INC., 20 Third Street NE., Post Office Box 1669, Ardmore, OK 73401. Applicant's representative: Rufus H. Lawson, 106 Sixler Building, Post Office Box 75124, Oklahoma City, OK 73107. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed gypsum rock*, in bulk, from the plantsite of Harrison Gypsum Co., near Cement, in Caddo County, Okla., to Fort Worth and Dallas, Tex. NOTE: If a hearing is deemed necessary, applicant requests it be held at Oklahoma City, Okla., or Dallas, Tex.

No. MC 136013 (Sub-No. 1), filed March 27, 1972. Applicant: BAKERSFIELD EXPRESS, INC., 719 Union Street, Montebello, CA 90640. Applicant's representative: Ernest D. Salm, 3846 Evans Street, Los Angeles, CA 90027. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plastic articles*, from Olidale, Calif., to points in Arizona, Idaho, Nevada, and Utah, under contract with Mobile Chemical Co., Plastics Division. NOTE: Common control and dual

V 37-82 APR 27 72 XUM

operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

No. MC 136089 (Sub-No. 2), filed March 10, 1972. Applicant: WILLIAM W. WILLIAMS, 507 Cline Avenue, Port Orchard, WA 98366. Applicant's representative: George Kargianis, 2120 Pacific Building, Seattle, Wash. 98104. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cleaning and chemical compounds*, in containers, from Barberton, Ohio, to points in Washington and Oregon, under contract with Malco Products, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 136254 (Sub-No. 1), filed March 24, 1972. Applicant: HOWARD SMITH AND GENEVA SMITH, a partnership, doing business as ARIZONA MOBILE HOME MOVERS, 3140 North Oracle Road, Tucson, AZ 85705. Applicant's representative: Hugh M. Caldwell, Jr., Suite 801, 4400 East Broadway, Tucson, AZ 85711. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mobile homes*, from Hidalgo County, N. Mex., to points in Arizona. NOTE: If a hearing is deemed necessary, applicant requests it be held at Fort Worth, Dallas, or Lubbock, Tex., or Tucson, Ariz.

No. MC 136296 (Sub-No. 1), filed March 16, 1972. Applicant: ROBBINS TRANSPORT, INC., 105 College Street, Post Office Box 37, Auburn, KY 42206. Applicant's representative: John M. Nader, Post Office Box E, Bowling Green, KY 42101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Flour, corn meal, pet foods, animal feeds, canned meat, canned meat sauces, and unprocessed grain* (except in bulk, in tank or hopper type vehicles), from Auburn, Ky., to points in North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, and points in all States east thereof; (2) *pet foods, canned meat, and canned meat sauces*, from Springfield and Nashville, Tenn., and New Albany, Ind., to Auburn, Ky.; (3) *flour*, from Orlinda and Memphis, Tenn., to Auburn, Ky.; and (4) *materials and supplies* (except commodities in bulk), used in the manufacture, sale, and distribution of flour and corn meal, from points in New York, Ohio, Tennessee, Illinois, and Indiana, to Auburn, Ky., restricted to a transportation service to be performed under contract with Auburn Roller Mills, Auburn, Ky., and Buhler Mills, Inc., Memphis, Tenn. NOTE: If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn.

No. MC 136522 (Sub-No. 1), filed March 24, 1972. Applicant: SUPERMARKET WAREHOUSING COMPANY, a corporation, Post Office Box 44, New Brunswick, NJ 08903. Applicant's representative: Maxwell A. Howell, 1100 Investment Building, 1511 K Street NW., Washington, DC 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Molded pulp egg cartons, plates, dishes, and trays*, from the warehouse of Supermarket Warehousing Co. at or near New Brunswick, N.J., to points in the New York, N.Y., commercial zone and points in Nassau, Suffolk, and Westchester Counties, N.Y., and Philadelphia, Pa., under a continuing contract, or contracts with Diamond International Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 136529, filed March 15, 1972. Applicant: MISSOURI BEEF EXPRESS, INC., 630 Amarillo Building, Amarillo, Tex. 79101. Applicant's representative: Donal L. Stern, 530 Univac Building, Omaha, Nebr. 68106. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in sections A and C of appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, (a) from the plantsite and storage facilities of or used by Missouri Beef Packers, Inc., at or near Boise, Idaho, to points in the United States (except Alaska and Hawaii); (b) from points in Illinois, Wisconsin, Minnesota, Iowa, Nebraska, Missouri, Kansas, Texas, Colorado, North Dakota, South Dakota, Washington, Oregon, and California, to the plantsite and storage facilities of or used by Missouri Beef Packers, Inc., at or near Boise, Idaho; and (2) *such commodities as are used by meatpackers in the conduct of their business* when destined to and for use by meatpackers, including *machinery, equipment, and supplies*, from points in the United States (except Alaska and Hawaii), to the plantsite and storage facilities of or used by Missouri Beef Packers, Inc., at or near Boise, Idaho. All transportation service hereunder is to be performed under a continuing contract, or contracts, with Missouri Beef Packers, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 136530, filed March 16, 1972. Applicant: NORBET TRUCKING CORP., 100 Nassau Terminal Road, New Hyde Park, NY 11040. Applicant's representative: E. Stephen Heisley, 705 McLachlen Bank Building, 666 Eleventh Street NW., Washington, DC 20001. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, coated and uncoated, and *materials, equipment, and supplies* (except commodities in bulk) used in the manufacture, distribution, and production of iron and steel articles, between New Hyde Park, N.Y., on the one hand, and, on the other, points in Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, Ohio, New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, West Virginia, and the District of Columbia. Restrictions: (1) The above authority is restricted to traffic originating at or destined to the facilities of American Strip Steel, Inc., at New Hyde Park, N.Y., and (2) the above authority is restricted to the transportation of traffic moving under continuing contract or contracts with American Strip Steel, Inc., New Hyde Park, N.Y. NOTE: The applicant states that the applicant is commonly controlled with the shipper and the purpose of this application is to substitute the commonly controlled contract carrier for private carriage. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 136532, filed March 13, 1972. Applicant: LOYD SIMPSON, doing business as LOYD SIMPSON TRUCKING, 125 Houston Street, Durant, OK 74701. Applicant's representative: Jenese Simpson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Nursery pots and sleeves*, from Leominster, Mass.; Newark, N.J.; and Troup, Tex.; and points in Florida to San Francisco, Calif. NOTE: If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 136548 (Sub-No. 1), filed March 27, 1972. Applicant: G. M. S. TRUCKING CORPORATION, 246–17 57 Drive Douglaston, NY 11362. Applicant's representative: Norman J. Bergman, 11 West 42d Street, New York, NY 10036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Textiles and yarn*, between the New York, N.Y., commercial zone, Hicksville and Bay Shore, N.Y., on the one hand, and on the other, Linden, N.J., under contract with Widder Bros. NOTE: If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 136570, filed March 20, 1972. Applicant: BARNETT BROS., INC., Post Office Box 532, Henderson, KY 42420. Applicant's representative: George M. Catlett, 703–706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Precast and prestressed concrete products*, from the plantsite of Nelson Concrete Products, Inc., at or near Centralia, Ill., to points in Missouri, Indiana, Kentucky, Ohio, Tennessee, and Michigan. No. MC 136571, filed March 27, 1972. Applicant: HAROLD H. TRICE, 2700 Lyle, Waco, TX 76708. Applicant's representative: John E. McKelvey, 109 North Main Street, Electra, TX 76360. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passenger automobiles and pickups*, in secondary movement, from points in the continental United States (excluding Alaska and Hawaii) to Killeen, Bell County, Tex. NOTE: If a hearing is deemed necessary, applicant requests it be held at Fort Worth, Dallas, or Waco, Tex., or Oklahoma City, Okla.

No. MC 136574, filed March 31, 1972. Applicant: B & P REFRIGERATED LINES, INC., 301 East Greenwood, La Habra, CA 90631. Applicant's representative: Walter T. Evans, 615 Perpetual Building, 1111 E Street NW., Washington, DC 20004. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Food, food products, and food preparations* (except commodities in bulk, frozen foods, canned goods, meats, meat products, and meat byproducts) in hermetically sealed containers in vehicles equipped with mechanical refrigeration from the plantsites and warehouse facilities of Avoset Food Corp. at (1) Gustine, Calif., to points in Alabama, Arkansas, Arizona, Colorado, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New Mexico, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, and (2) Washington Court House, Ohio, to points in Alabama, Arkansas, Connecticut, Delaware, Florida, George, Illinois, Indiana, Iowa, Kentucky, Kansas, Maine, Maryland, Massachusetts, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, restricted to shipments originating at the plantsites and warehouse facilities of Avoset Food Corp. at Gustine, Calif., and Washington Court House, Ohio, and to a transportation service to be performed under a continuing contract or contracts with Avoset Food Corp. NOTE: If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

No. MC 136585, filed March 23, 1972. Applicant: BUD COFER, 4102 Creekside Avenue, Toledo, OH 43612. Applicant's representative: Earl N. Merwin, 85 East Gay Street, Columbus, OH 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Hides*, between points in Lucas County, Ohio, on the one hand, and, on the other, points in Connecticut, Georgia, Kentucky, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin, under contract with A. Mindel & Son, Inc. NOTE: If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 136597, filed March 27, 1972. Applicant: WEST KENTUCKY MOTOR EXPRESS, INC., 112 North Sequoia Drive, Springfield, TN 37172. Applicant's representative: Walter Harwood, 1822 Parkway Towers, Nashville, Tenn. 37219. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined by the Commission, classes A and B explosives, commodities in bulk, those of unusual value and those requiring special equipment), (1) between Nashville, Tenn., and Paducah, Ky., from Nashville, over U.S. Highway 41–A to Hopkinsville, Ky., thence over Kentucky Highway 91 to Princeton, Ky., thence over U.S. Highway 62 to Paducah, Ky., and return over the same route, serving all intermediate points in Kentucky west of the Tennessee River, but excluding service at any point in Indiana; (2) between Clarksville, Tenn., and Paducah, Ky., from Clarksville over U.S. Highway 79 to junction with Tennessee Highway 119, thence over Tennessee Highway 119 to the Tennessee-Kentucky State line, thence over Kentucky Highway 121 to Mayfield, Ky., thence over U.S. Highway 45 to Paducah, Ky., and return over the same route, serving all intermediate points in Kentucky, and serving Clarksville, Tenn., for joinder only, and excluding service at any point in Indiana; (3) between Murray, Ky., and Calvert City, Ky., from Murray over Kentucky Highway 641 to junction with U.S. Highway 68, thence over U.S. Highway 68 to junction with Kentucky Highway 95, thence over Kentucky Highway 95 to Calvert City, Ky., and return over same route, serving all intermediate points; (4) between Hopkinsville, Ky., and Hardin, Ky., from Hopkinsville over U.S. Highway 68 to junction with Kentucky Highway 80, thence over Kentucky Highway 80 to Hardin, Ky., and return over the same route, serving no intermediate points, and serving Hopkinsville for joinder only. NOTE: If a hearing is deemed necessary, applicant requests it be held at Paducah, Ky.

No. MC 136598, filed March 25, 1972. Applicant: TRANSPORT EDDY VEILLEUX LTEE., 760 Salaberry Street, Ville de Laval, PQ, Canada. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber products*, from the ports of entry on the international boundary between the United States and Canada located at or near Champlain, N.Y., Highgate Springs, and Derby Line, Vt., to points in New York, Vermont, Maine, New Hampshire, Massachusetts, Rhode Island, Connecticut, New Jersey, Pennsylvania, Ohio, and Michigan. NOTE: If a hearing is deemed necessary, applicant requests it be held at Montpelier, Vt., or Albany, N.Y.

MOTOR CARRIER OF PASSENGERS

No. MC 1515 (Sub-No. 176), filed March 23, 1972. Applicant: GREYHOUND LINES, INC., 1400 West Third Street, Cleveland, OH 44113. Applicant's representative: Barrett Elkins (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: (A) *Regular routes: Passengers and their baggage and express and newspapers* in the same vehicle with passengers, (1) between Cincinnati, Ohio, and Richmond, Ind., serving all intermediate points: From Cincinnati, Ohio, over U.S. Highway 127 to Hamilton, Ohio, thence over Ohio Highway 129 to its junction with U.S. Highway 27 at Millville, Ohio, thence over U.S. Highway 27 to Richmond, Ind., and return over the same route; (2) between specified points in Maine as alternate route for operating convenience only serving no intermediate points as follows: (a) From the junction of U.S. Highway 1 and Maine Highway 109 over Maine Highway 109 to the junction of Interstate Highway 95 (Maine Turnpike—Interchange No. 2) and return over the same route; (b) from the junction of U.S. Highway 1 and Maine Highway 35 over Maine Highway 35 to the junction of Interstate Highway 95 (Maine Turnpike—Interchange No. 3) and return over the same route; and (c) from the junction of U.S. Highway 1 and Maine Highway 111 over Maine Highway 111 to the junction of Interstate Highway 95 (Maine Turnpike—Interchange No. 4) and return over the same route; and (3) over Interstate Highway 270 (Columbus, Ohio, Circumferential Highway), in its entirety, encompassing Columbus, Ohio, constructed for bypass purposes, with the right of access and egress to and from all interchanges on Interstate Highway 270 to and from all authorized routes to and through Columbus, Ohio as an alternate route for operating convenience only, and (B) *irregular routes: Passengers and their baggage*, in one-way and round-trip charter operations, originating at points on Route 1 described in Item A above and extending to points in the United States, including Alaska, but excluding Hawaii. NOTE: If a hearing is deemed necessary, applicant requests it be held at Cincinnati, Ohio.

No. MC 111504 (Sub-No. 9), filed March 15, 1972. Applicant: STARR TRANSIT CO., INC., 2531 East State St. Extension, Trenton, NJ 08619. Applicant's representative: Charles J. Williams, 47 Lincoln Park, Newark, NJ 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special operations, in round-trip sightseeing and pleasure tours, (1) beginning and ending at points in Bucks County, Pa., on and east of Pennsylvania Highway 263 and on and south of U.S. Highway 202 (except Langhorne, Pa., and points within 3 miles of Philadelphia, Pa.) and extending to points in the United States (including Alaska but excluding points in Hawaii, Connecticut, Delaware, Florida, Louisiana, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, and the District of Columbia, and (2) beginning and ending at points in Mercer County, N.J., and extending to points in the United States (including Alaska

V 37-82 APR 27 72 XUM

but excluding points in Hawaii, New York, Delaware, Maryland, Virginia, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, Maine, Florida, and the District of Columbia. NOTE: Applicant states it seeks no duplicating authority and will accept a restriction to that effect. By the instant application, it merely seeks to enlarge the destination territory it now serves in special operations, in round-trip sightseeing and pleasure tours, from the same origin areas it is now authorized to serve. It is also an authorized contract carrier operating under MC 129525 and subs. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Trenton, N.J.

No. MC 115116 (Sub-No. 24), filed March 16, 1972. Applicant: SUBURBAN TRANSIT CORP., 750 Somerset Street, New Brunswick, NJ 08901. Applicant's representative: Michael J. Marzano, 17 Academy Street, Newark, NJ 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, and express and newspapers* in the same vehicle with passengers, between Trenton, N.J., and Hightstown, N.J.; from Trenton, N.J., over New Jersey Highway 33 to its junction with County Highway 526 in Washington Township, N.J., thence over County Highway 526 to its junction with County Highway 539 in Allentown, N.J., thence over County Highway 539 to Hightstown, N.J., and return over the same route, serving all intermediate points. NOTE: Applicant states it proposes to provide service to and from New York, N.Y., by joining the proposed route with its existing authorized routes. If a hearing is deemed necessary, applicant requests it be held at Newark, N.J.

No. MC 125021 (Sub-No. 2), filed February 28, 1972. Applicant: BOISE-WINNEMUCCA STATES, INC., 1105 La Pointe, Boise, ID 83705. Applicant's representative: Shirley Achabal (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers*, aliens, from Malheur, Baker County, Oreg., and points below the Salmon River to points in California under contract with U.S. Department of Immigration and Naturalization. NOTE: Applicant presently holds common carrier passenger operations under MC 52334. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho.

No. MC 129646 (Sub-No. 5), filed April 3, 1972. Applicant: SEAWAY COACH LINES, INC., 28 North Perry Square, Erie, PA 16501. Applicant's representative: S. Harrison Kahn, 733 Investment Building, Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in special operations, in round trip sightseeing and pleasure tours, beginning and ending at points in Erie County, Pa., and extending to points in the United States, including Alaska (but excluding Hawaii). NOTE: If a hearing is deemed necessary, applicant requests it be held at Erie, Pa.

No. MC 136424 (Sub-No. 1), filed February 23, 1972. Applicant: SIDNEY NICHOLAS AND EVELYN P. NICHOLAS a partnership, doing business as LANDTREK, 2557 Laurel Pass, Los Angeles, CA 90046. Applicant's representative: (John R. Simon), Cox, Castle, Nicholson, and Weekes, 1800 Century Park East, Suite 200, Los Angeles, CA 90067. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in special operations, beginning and ending in Los Angeles, Calif., and extending to points in the United States (including Alaska, but excluding Hawaii). NOTE: Applicant states the operation proposes low cost camping treks, with applicant supplying all necessary camping equipment. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, San Francisco, San Diego, or Sacramento, Calif.

APPLICATION FOR WATER CARRIER

No. W-630 (Sub-No. 38) (Correction), A. L. MECHLING BARGE LINES INC. Extension—COASTWISE, filed March 30, 1972, published in the FEDERAL REGISTER issue of April 21, 1972, and republished in part as corrected this issue. Applicant: A. L. MECHLING BARGE LINES, INC., 51 North Desplaines Street, Joliet, IL 60431. Applicant's representative: S. S. Eisen, 370 Lexington Avenue, New York, NY 10017. NOTE: The purpose of this partial republication is to show the correct origin as Atlantic Coast in lieu of "Atlanta Coast", which was erroneously published. The rest of the application remains as previously published.

APPLICATIONS IN WHICH HANDLING WITHOUT ORAL HEARING HAS BEEN REQUESTED

No. MC 107515 (Sub-No. 798), filed March 27, 1972. Applicant: REFRIGERATED TRANSPORT CO., INC., Post Office Box 308, Forest Park, GA 30050. Applicant's representative: Paul M. Daniell, Post Office Box 872, Atlanta, GA 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Articles distributed by meat packinghouses* as described in section C of appendix I to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766 when transported in the same vehicle and at the same time with meats, meat products, and meat byproducts (now authorized), from the plantsite of Oscar Mayer & Co. at Madison, Wis., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Tennessee, restricted to traffic originating at and destined to the points named. NOTE: Dual operations and common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority.

APPLICATION FOR A POSTAL CERTIFICATE

Interstate Commerce Commission, No. MC-137014 (Notice of Filing an Application for a Postal Certificate of Public Convenience and Necessity), filed January 18, 1972. Applicant: DEWITT TRANSFER AND STORAGE COMPANY, a California corporation, 6060 North Figueroa Street, Los Angeles, CA 90042. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, DC 20006. By application filed January 18, 1972, applicant seeks a Postal Certificate of Public Convenience and Necessity to transport *Mail* between the following points: (1) Los Angeles, Calif., Las Vegas, Nev., and Salt Lake City, Utah; (2) Phoenix, Ariz., Yuma, Ariz., and Indio, Calif., and Los Angeles, Calif.; (3) Los Angeles, Calif., and Pasadena, Calif.; (4) Los Angeles, Long Beach, Wilmington, San Pedro, Harbor City, Lakewood, Paramount, Bellflower, Lomita, and Artesia, Calif.; (5) Los Angeles, Calif., and San Bernardino, Calif.; (6) Oakland, San Jose, Salinas, San Luis Obispo, Santa Maria, Ventura, and Los Angeles, Calif.; (7) Paramount, Los Angeles, and Van Nuys, Calif. Appended to the application are copies of seven postal contracts held by applicant which are apparently in effect on July 1, 1971, the critical "grandfather" date: Route No. 90090 relating to service between Los Angeles (TA), Calif., to Salt Lake City (Annex), Utah; Route No. 85221 (formerly route No. 85241) relating to service between Phoenix and Los Angeles (Calif.), Cheli Term; Route No. 90027 relating to service between Los Angeles and Pasadena; Route No. 90710 relating to service between Los Angeles, Long Beach, Lomita, and Artesia; Route No. 90026 relating to service between Los Angeles and San Bernardino; Route No. 907RJ relating to service at Paramount, Calif.; Route No. 94522 relating to service between the Oakland Post Office and Los Angeles (Cheli), and Contract No. 1015 relating to temporary mail messenger service from Paramount, Calif., to Van Nuys, Cheli Term., and Los Angeles. Applicant holds motor carrier authority in No. MC-93734 and states that applicant's president is sole owner of Short's Van & Storage, No. MC-135593 TA.

Any interested person desiring to oppose the application may file with this Commission, an original and one copy of his written representations, views, or arguments in opposition to the application within 30 days from the date of this publication in the FEDERAL REGISTER. A copy of each such pleading should be served upon applicant's representative.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 19, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protest must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2153 (Sub-No. 44 TA), filed March 30, 1972. Applicant: MIDWEST MOTOR EXPRESS, INC., Box 1058, 1205 Front Avenue, Bismarck, ND 58501. Applicant's representative: F. J. Smith, Suite 221, MDU Office Building, Bismarck, N. Dak. 58501. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, and except dangerous explosives, household goods as defined in Practices of Motor Common Carriers of Household Goods, 17 M.C.C. 467, commodities in bulk and commodities requiring special equipment), from (1) Beach, N. Dak., to Glendive, Mont., serving the intermediate point of Wibaux, Mont., over U.S. Highway No. 10 and I-94; (2) Wilton, N. Dak., to Mercer, N. Dak., and North Dakota Highway No. 41; thence to Bowdon, N. Dak., over North Dakota Highway No. 7, serving the intermediate points of McClusky, Denhoff, Goodrich, Hurdsfield, and Chaseley, N. Dak.; (3) Hurdsfield, N. Dak., to Steele, N. Dak., over North Dakota Highways Nos. 7 and 3, serving the intermediate point of Tuttle, and return over the same routes, for 180 days. NOTE: Tacking said routes, and return routes to existing operating authorities under MC-2153 and subs. Supported by: There are approximately 118 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: J. H. Ambs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Post Office Box 2340, Fargo, N. Dak. 58102.

No. MC 19778 (Sub-No. 79 TA), filed March 31, 1972. Applicant: MILWAUKEE MOTOR TRANSPORTATION COMPANY, 516 West Jackson Boulevard, Room 508, Chicago IL 60606. Applicant's representative: R. H. Tietz (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except commodities unsafe for highway transportation), (1) between Harlowton, Bozeman, Miles City, and Three Forks, Mont., on the one hand, and, on the other, Billings, Mont.; (a) from Harlowton, Mont., over U.S. Highway 12 to junction of U.S. Highway 12 and Montana Highway 3, thence over Montana Highway 3 to Billings, Mont., and return over the same route; (b) from Three Forks, Mont., over Interstate Highway 90, and U.S. Highway 10 to Bozeman, Mont., thence over Interstate Highway 90 and U.S. Highway 10 to Billings, Mont., and return over the same route; and (c) from Miles City, Mont., over Interstate Highway 94 and U.S. Highway 10 to Billings, Mont., and return over the same route, for 120 days. Supporting shipper: G. H. Kronberg, Vice President, Traffic, Chicago, Milwaukee, St. Paul & Pacific Railroad Co., 516 West Jackson Boulevard, Chicago, IL 60606. Send protests to: District Supervisor Wm. J. Gray, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1086, Chicago, IL 60604.

No. MC 113908 (Sub-No. 224 TA), filed March 31, 1972. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, Box 31880, Springfield, MO 65804. Applicant's representative: LeRoy Smith (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Choline chloride*, in bulk, in tank vehicles, from Kansas City, Kans., to Soso, Miss., Gainesville, Ga., and Danville, Ark., for 180 days. Supporting shipper: Thompson-Hayward Chemical Co., 5200 Speaker Road, Kansas City, KS 66110. Send protests to: John V. Barry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1100 Federal Office Building, 911 Walnut Street, Kansas City, MO 64106.

No. MC 118142 (Sub-No. 46 TA), filed March 30, 1972. Applicant: M. BRUENGER & CO., INC., 6330 North Broadway, Wichita, KS 67219. Applicant's representative: Lester C. Arvin, 814 Century Plaza Building, Wichita, Kans. 67202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt with in wholesale, retail, and chain grocery and food business houses and in connection therewith, *equipment, materials, and supplies* used in the conduct of such business, between points within a 100-mile radius of Wichita, Kans., on the one hand, and on the other, Denver, Colo.; Chicago and Peoria, Ill.; Fort Wayne and Indianapolis, Ind.; Des Moines, Iowa; New Orleans, La.; Minneapolis, Minn.; Kansas City and St. Louis, Mo.; Omaha, Nebr.; Fargo, N. Dak.; Oklahoma City and Tulsa, Okla.; Memphis, Tenn.; Dallas, Fort Worth, and Houston, Tex.; and Milwaukee, Wis.; for 180 days. Supporting shipper: Consolidated American Industries, Inc., 622 East Third Street, Wichita, KS 67202. Send protests to: Interstate Commerce Commission, M. E. Taylor, District Supervisor, 501 Petroleum Building, Bureau of Operations, Wichita, Kans. 67202.

No. MC 119422 (Sub-No. 52 TA), filed April 3, 1972. Applicant: EE-JAY MOTOR TRANSPORT, 15th and Lincoln, East St. Louis, Ill. 62204. Applicant's representative: Ernest A. Brooks II, 1301-02 Ambassador Building, St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Polyethylene plastic granules*, in bulk, in tank vehicles, from East St. Louis, Ill., to points in Kansas, Iowa, Nebraska, Missouri, Indiana, Ohio, Tennessee, and Kentucky, restricted to shipments having a prior movement by rail, for 150 days. Supporting shipper: John J. Noone, Manager, Domestic Traffic, Celanese Corp., 245 Park Avenue, New York, NY 10017. Send protests to: Harold C. Jolliff, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 325 West Adams Street, Room 476, Springfield, IL 62704.

No. MC 119489 (Sub-No. 26 TA), filed March 31, 1972. Applicant: PAUL ABLER, doing business as CENTRAL TRANSPORT COMPANY, Post Office Box 249, Norfolk, NE 68701. Applicant's representative: L. Agnew Myers, Jr., 1122 Warner Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals and fertilizers*, from North Bend, Randolph, and Wakefield, Nebr., to points in Iowa, Kansas, Minnesota, Missouri, and South Dakota, for 150 days. Supporting shipper: Terra Chemicals International, Inc., Post Office Box 1828, Sioux City, IA 51101. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 711 Federal Office Building, Omaha, Nebr. 68102.

No. MC 119493 (Sub-No. 92 TA), filed March 31, 1972. Applicant: MONKEM COMPANY, INC., West 20th Street Road, Post Office Box 1196, Joplin, MO 64801. Applicant's representative: Ray F. Kempt (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Weed killing compounds* (herbicides) in containers, from Military, Kans., to points in North

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 37 I 82 APR 27 72 XUM

Dakota, for 180 days. Supporting shipper: Gulf Oil Co., U.S. Post Office Box 2100, Houston, TX 77001. Send protests to: John V. Barry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1100 Federal Office Building, 911 Walnut Street, Kansas City, MO 64106.

No. MC 124383 (Sub-No. 11 TA), filed April 4, 1972. Applicant: STAR LINE TRUCKING CORPORATION, 18460 West Lincoln Avenue, New Berlin, WI 53151. Applicant's representative: Frank M. Coyne, 1 West Main Street, Madison, WI 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed lime* in bulk, from Eden and Knowles, Wis., to Chicago, Ill., and Gary and Burns Harbor, Ind., for 180 days. MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 20, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 2900 (Sub-No. 223 TA), filed April 5, 1972. Applicant: RYDER TRUCK LINES, INC., 2050 Kings Road, Post Office Box 2408, Jacksonville, FL 32203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite of the United Gas Pipe Line Co., located near Erath, La., as an offroute point in connection with existing regular routes between Houston, Tex., and New Orleans, La., for 180 days. Supporting shipper: United Gas Pipe Line Co., Shreveport, La. Send protests to: District Supervisor G. H. Fauss, Jr., Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay Street, Jacksonville, FL 32202.

Jolliff, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 325 West Adams Street, Room 476, Springfield, IL 62704.

No. MC 108188 (Sub-No. 13 TA), filed April 3, 1972. Applicant: ROLLO TRUCKING CORPORATION, INC., 295 Broadway, Keyport, NJ 07735. Applicant's representative: Bert Collins, 140 Cedar Street, New York, NY 10006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mineral oil*, in tank vehicles, from Perth Amboy, N.J., to Jefferson City, Mo., and Worcester, Mass., for 180 days. Supporting shipper: Chesebrough-Pond's Inc., John Street, Clinton, Conn. 06413. Send protests to: Richard M. Regan, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 428 East State Street, Room 204, Trenton, NJ 08608.

No. MC 108207 (Sub-No. 343 TA), filed April 3, 1972. Applicant: FROZEN FOOD EXPRESS, 318 Cadiz Street, Post Office Box 5888, Dallas, TX 75222. Applicant's representative: J. B. Ham (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Ames, Iowa, to points in the Kansas City, Kans., and Kansas City, Mo., commercial zone; and St. Joseph and Springfield, Mo., for 180 days. NOTE: Carrier does not intend to tack authority. Supporting shippers: Pronto Food Kitchens, Inc., Post Office Box 723, Ames, IA 50010; Carriage House Meat & Provision Co., Inc., 1131 Dayton Road, Ames, IA 50010. Send protests to: District Supervisor E. K. Willis, Jr., Interstate Commerce Commission, Bureau of Operations, 1100 Commerce Street, Room 13C12, Dallas, TX 75202.

No. MC 108676 (Sub-No. 43 TA), filed March 30, 1972. Applicant: A. J. METLER HAULING & RIGGING, INC., 117 Chicamauga Avenue NE., Knoxville, TN 37917. Applicant's representative: A. A. Metler (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Flat glass*, from the plantsite of Ford Motor Co., Nashville Glass Plant, Nashville, Tenn., to points in Minnesota, Iowa, Missouri, Oklahoma, Texas, and all States east thereof, for 180 days. Supporting shippers: ASG Industries, Inc., Kingsport, Tenn.; Nashville Glass Plant, Ford Motor Co., Nashville, Tenn. Send protests to: Joe J. Tate, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 803–1808 West End Building, Nashville, Tenn. 37203.

No. MC 111302 (Sub-No. 68 TA), filed April 5, 1972. Applicant: HIGHWAY TRANSPORT, INC., Post Office Box 10470, 1500 Amherst Road 37921, Knoxville, TN 37919. Applicant's representative: George W. Clapp, Post Office Box 10188, Greenville, SC 29603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt cake* (crude sulphate of soda), in bulk, from Port Rayon, Tenn., to Westover, Ga., for 180 days. Supporting shipper: Beaunit Corp. 2020 Remount Road, Gastonia, NC 28052. Send protests to: Joe J. Tate, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 803–1808 West End Building, Nashville, Tenn. 37203.

No. MC 113362 (Sub-No. 234 TA), filed April 7, 1972. Applicant: ELLSWORTH FREIGHT LINES, INC., 310 East Broadway, Eagle Grove, IA 50533. Applicant's representative: Milton D. Adams, 1105½–8th Avenue NE., Austin, MN 55912. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs*, from New Hampton, Iowa, to points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia, for 180 days. Supporting shipper: Kitchens of Sara Lee, 500 Waukegan Road, Deerfield, IL 60015. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 677 Federal Building, Des Moines, Iowa 50309.

No. MC 114533 (Sub-No. 251 TA), filed April 6, 1972. Applicant: BANKERS DISPATCH CORPORATION, 4970 South Archer Avenue, Chicago, IL 60632. Applicant's representative: Stanley Komosa (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Automobile parts, accessories and supplies*, between St. Louis, Mo., on the one hand, and, on the other, points in Illinois lying in those counties on and south of the northern boundaries of Adams, Brown, Cass, Menard, Logan, De Witt, Piatt, Champaign, and Vermilion; and points in Indiana lying in those counties on and west of the eastern boundaries of the counties of Parke, Clay, Greene, Martin, Dubois, and Perry. Restricted to shipments weighing not more than 100 pounds, for 180 days. Supporting shipper: American Motors Sales Corp., 1101 Research Boulevard, St. Louis, MO 63132. Send protests to: District Supervisor Robert G. Anderson, Bureau of Operations, Interstate Commerce Commission, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1086, Chicago, IL 60604.

No. MC 115654 (Sub-No. 17 TA), filed April 5, 1972. Applicant: TENNESSEE CARTAGE CO., INC., Post Office Box 1193, 809 Ewing Avenue, Nashville, TN 37202. Applicant's representative: Steven George (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Confectionery, confectionery products, chocolates and related chocolate items, and advertising and promotional materials* moving in conjunction with said commodities from Cincinnati, Ohio to points in Bath, Bell, Boyle, Breathitt, Carter, Casey, Clark, Clay, Elliott, Estill, Floyd, Garrard, Harlan, Jackson, Jessamine, Johnson, Knott, Laurel, Lawrence, Leslie, Lee, Letcher, Lincoln, McCreary, Madison, Magoffin, Martin, Menifee, Mercer, Montgomery, Morgan, Owsley, Pike, Perry, Powell, Pulaski, Rockcastle, Rowan, Russell, Wayne, Whitley, Wolfe, and Woodford Counties, Ky., for 180 days. Supporting shippers: M&M Mars, Hackettstown, N.J.; Hollywood Brands, A Consolidated Foods Co., Centralia, Ill., Hershey Foods Corp., Hershey, Pa., and Peter Paul, Inc., Frankfort, Ind. Send protests to: Joe J. Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 803–1808 West End Building, Nashville, Tenn. 37203.

No. MC 133450 (Sub-No. 2 TA), filed March 30, 1972. Applicant: CLARK COUNTY WHOLESALE MERCANTILE COMPANY, 512 South Main Street, Las Vegas, NV 89101. Applicant's representative: Ernest D. Salm, 3846 Evans Street, Los Angeles, CA 90027. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime, limestone, gypsum plaster, gypsum lath, and gypsum wallboard*, in interstate or foreign commerce, from points in Clark County, Nev., to points in San Diego, San Luis Obispo, Santa Barbara, and Ventura Counties, Calif., for 180 days. Supporting shippers: Building Products Group, Gypsum Products Division, 1650 South Alameda Street, Los Angeles, CA 90054; The Flintkote Co., U.S. Lime Division, 2244 Beverly Boulevard, Los Angeles, CA 90057. Send protests to: District Supervisor Wm. E. Murphy, Bureau of Operations, Interstate Commerce Commission, 450 Golden Gate Avenue, Box 36004, San Francisco, CA 94102.

No. MC 133470 (Sub-No. 15 TA), filed April 6, 1972. Applicant: S. J. DURRANCE COMPANY, INC., Room 207, Administration Building, State Farmers Market, Forest Park, Ga. 30050. Applicant's representative: Guy H. Postell, Suite 713, 3384 Peachtree Road NE., Atlanta, GA 30326. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Pizzas* when moving in the same vehicle with frozen seafood, frozen hush puppies, frozen onion rings, and frozen seafood dinners, or either of such commodities, except commodities in bulk, between the plantsites and warehouse facilities of Sea Pak, Division of W. R. Grace and Co. in Glynn and Chatham Counties, Ga., and the facilities of the Georgia State Docks at Brunswick and Savannah, Ga., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted to the transportation of traffic originating at and destined to the plantsites and warehouse facilities of Sea Pak, Division of W. R. Grace and Co. and at the facilities of the Georgia State Docks at Brunswick and Savannah, Ga. Applicant presently holds authority under its Sub No. 1 grant to transport the above-described commodities throughout the territory described with the exception of pizzas and this application merely seeks to transport pizzas for the supporting shipper along with the other commodities which applicant is now authorized to transport for the same shipper. In addition, this application seeks a portion of the authority sought in applicant's Sub No. 4 application which is now unopposed and pending disposition by the Commission, for 180 days. Supporting shipper: Sea Pak, Division of W. R. Grace and Co., Glynn and Chatham Counties, Ga. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 309, 1252 West Peachtree Street NW., Atlanta, GA 30309.

No. MC 134387 (Sub-No. 12 TA), filed March 31, 1972. Applicant: BLACKBURN TRUCK LINES, INC., 4998 Branyon Avenue, South Gate, CA 90280. Applicant's representative: Warren N. Grossman, 825 City National Bank Building, 606 South Olive Street, Los Angeles, CA 90014. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty glass containers*, from points in Los Angeles and Alameda Counties, Calif., to points in Washoe County, Nev., for 180 days. Supporting shipper: Brockway Glass Co. Inc., 8717 G Street, Oakland, CA. Send protests to: Walter W. Strakosch, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 7708 Federal Building, 300 North Los Angeles Street, Los Angeles, CA 90012.

No. MC 135200 (Sub-No, 3 TA), filed April 6, 1972. Applicant: W. H. SAPP AND HILTON SAPP, doing business as, SAPP BROS. TRUCKING CO., Tifton Highway, R.F.D. 1, Box 135–A, Barney, GA 31625. Applicant's representative: Sol H. Proctor, 2501 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Citrus pulp and citrus pulp pellets*, in bulk, in other than tank vehicles, from points in Florida to points in Georgia, for 180 days. Supporting shipper: I. S. Joseph Co., Inc., Flour Exchange Building, Minneapolis, Minn. 55413. Send protests to: District Supervisor G. H. Fauss, Jr., Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay Street, Jacksonville, FL 32202.

No. MC 135218 (Sub-No. 1 TA), filed April 4, 1972. Applicant: MONTI MOVING & STORAGE, INC., 209 MacDougal Street, Brooklyn, NY 11233. Applicant's representative: Robert J. Gallagher, 1776 Broadway, New York, NY 10019. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in New Jersey and those points in New York which are south of Greene, Delaware, and Columbia, but not including those three counties, that is, the counties that are included are Sullivan, Ulster, Duchess, Putnam, Orange, Rockland, Westchester, New York County, Bronx, Kings, Queens, Nassau, Suffolk, and Richmond. Restriction: The service herein is restricted to the transportation of traffic and further restricted to the performance of the pickup and delivery services in connection with packing, crating, and containerization or unpacking, uncrating and decontainerization of such traffic, for 180 days. Supporting shipper: Cartwright Van Lines, Inc., 4411 East 119th Street, Grandview, MO 64030. Send protests to: Marvin Kampel, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, NY 10007.

No. MC 135845 (Sub-No. 2 TA), filed March 30, 1972. Applicant: CATER, INC., 920 Holiday Drive, Moorhead, MN 56560. Applicant's representative: Gene P. Johnson, 514 First National Bank Building, Fargo, N. Dak. 58102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Corn syrup solids and dextrose*, from Keokuk and Clinton, Iowa, to points in Washington, Oregon, Idaho, Montana, Wyoming, North Dakota, South Dakota, and Minnesota, for 180 days. Supporting shipper: Clark O. Orth Co., Box 129, Moorhead, MN 56560. Send protests to: J. H. Ambs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 2340, Fargo, N. Dak. 58102.

No. MC 136464 (Sub-No. 1 TA) (Correction), filed March 20, 1972, published in the FEDERAL REGISTER, issue of April 4, 1972, corrected and republished in part as corrected this issue. Applicant: CAROLINA WESTERN EXPRESS, INC., 650 Eastwood Drive, Gastonia, NC 28052. Applicant's representative: Philip R. Hedrick, Eighth Floor, City National Bank Building, Charlotte, NC 28202. NOTE: The purpose of this partial republication is to include the origin and the destination points, from Stanley, N.C., La Grange, Ga., and Morton, Miss., to points in California, which was inadvertently omitted in previous publication. The rest of the application remains the same.

No. MC 136534 TA, filed March 30, 1972. Applicant: RICHARD L. CLAPP, doing business as CMC FURNITURE TRANSPORT COMPANY, Post Office Box 10103, 611 Gaston Street, Raleigh, NC 27603. Applicant's representative: Richard L. Clapp (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from points in Catawba County, N.C., to all points in Eastern Tennessee, north, south, and east of Davidson County, including Davidson County, to points in California, Utah, New Mexico, Nevada, Texas, and Arizona, for 180 days. Supporting shippers: Gordon's Inc., Johnson City, Tenn.; Gaines Manufacturing Co., Inc., Dresden, Tenn.; Athens Table Co., Inc., Post Office Box 190, Athens, TN 37303; McEwen's, 17–21 West State Street, Redlands, CA 92373; Carolina Tables, Inc., Post Office Box 2448, Hickory, NC 28601. Send protests to: Archie W. Andrews, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 26896, Raleigh, NC 27611.

No. MC 136566 TA, filed March 30, 1972. Applicant: COMMERCIAL TRANSPORT & CONSTRUCTION INC., Route 2, Box 277A, Monroe, WA 98272. Applicant's representative: Ruth L. Frantz, Post Office Box 378, Monroe, WA. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Feed, fertilizer, and building materials*, from Monroe and Kenmore, Wash., to points in Washington, Oregon, California, Idaho, and Montana, for 180 days. Suporting shippers: Olympic Forest Products, Inc., Post Office Box 382, Kenmore, WA 98028; Wolfkill Feed and Fertilizer Corp., Post

V 37182 APR 27 72 XUM

Office Box 126, Monroe, WA 98272. Send protests to: E. J. Casey, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 6130 Arcade Building, Seattle, Wash. 98101.

No. MC 136569 TA, filed March 30, 1972. Applicant: H. CARROLL VAN HOVE, Buffalo Center, Iowa 50424. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Resin, gun roving, catalyst, and gelcote*, from Minneapolis, Minn., to Buffalo Center, Iowa for 180 days. Supporting shipper: Shafar Industries, Inc., Buffalo Center, Iowa 50424. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 677 Federal Building, Des Moines, Iowa 50309.

No. MC 136574 (Sub-No. 1 TA), filed April 7, 1972. Applicant: B & P REFRIGERATED LINES, INC., 301 East Greenwood, La Habra, CA 90631. Applicant's representative: Walter T. Evans, 615 Perpetual Building, Washington, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Food, food products, and food preparations* (except commodities in bulk, frozen foods, canned goods, meats, meat products, and meat byproducts) in hermetically sealed containers in vehicles equipped with mechanical refrigeration, from the plantsites and warehouse facilities of Avoset Food Corp. at (1) Gustine, Calif., to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin; and (2) Washington Court House, Ohio, to points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Kansas, Maine, Massachusetts, Louisiana, Michigan, Minnesota, Maryland, Mississippi, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Vermont, Virginia, West Virginia, and Wisconsin. Restriction: This application is restricted to shipments originating at the plantsites and warehouse facilities of Avoset Food Corp. at Gustine, Calif., and Washington Court House, Ohio, to a transportation service to be performed under a continuing contract or contracts with Avoset Food Corp., for 180 days. Supporting shipper: Avoset Food Corp., 80 Grand Avenue, Oakland, CA. Send protests to: Philip Yallowitz, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 7708, Federal Building, 300 North Los Angeles Street, Los Angeles, CA 90012.

No. MC 136590 TA, filed April 7, 1972. Applicant: MOUNTAINEER TRUCK LINE, INC., Post Office Box 727, Darien, GA 31305. Applicant's representative: Sol H. Proctor, 2501 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Materials and supplies* used in the manufacture of shoes, and component parts of shoes and boots, from points in the continental United States to Darien, Ga.; and (2) *shoes and boots*, from Darien, Ga., to points in the continental United States, for 180 days. Supporting shipper: Atlanta Delta Corp., Post Office Box 727, Darien, GA 31305. Send protests to: District Supervisor G. H. Fauss, Jr., Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay Street, Jacksonville, FL 32202.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

CODE OF FEDERAL REGULATIONS

(Revised as of January 1, 1972)

Title 32—National Defense (Parts 1400–1599) ---------- $1.50
Title 45—Public Welfare (Parts 1–199) ---------- 2.00

[A Cumulative checklist of CFR issuances for 1972 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Contents

Environmental impact program ---- 8591

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 7—AGRICULTURE

Chapter XI—Agricultural Marketing Service (Marketing Agreements and Orders; Miscellaneous Commodities), Department of Agriculture

PART 1201—TYPE 62 SHADE-GROWN CIGAR-LEAF TOBACCO GROWN IN DESIGNATED PRODUCTION AREA OF FLORIDA AND GEORGIA

Expenses and Rate of Assessment

Notice was published in the FEDERAL REGISTER on April 4, 1972 (37 F.R. 6745), that there were under consideration proposals regarding expenses of the Control Committee (established under the Amended Marketing Agreement and Amended Order No. 195 (7 CFR Part 1201)) regulating the handling of Type 62 shade-grown cigar-leaf tobacco grown in designated production area of Florida and Georgia and related rate of assessment for the fiscal period ending January 31, 1973. The amended marketing agreement and amended order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

After consideration of all relevant matters presented, including the aforesaid notice, it is hereby found as follows with respect to the expenses of the Control Committee for the fiscal period ending January 31, 1973, and the related assessment rate:

§ 1201.300 Expenses and rate of assessment for the fiscal period ending January 31, 1973.

(a) Expenses: Expenses in the amount of $7,200 are reasonable and likely to be incurred by the Control Committee for its maintenance and functioning during the fiscal period ending January 31, 1973.

(b) Rate of assessment: The rate of assessment which each handler shall pay, in accordance with the applicable provisions of said amended marketing agreement and amended order, as his pro rata share of the aforesaid expenses is hereby fixed at $1.60 per 1,000 pounds of tobacco handled by such handler as the first handler thereof during the fiscal period ending January 31, 1973.

(c) Terms used in this section shall have the same meaning as when used in said amended marketing agreement and amended order.

It is hereby further found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (a) the relevant provisions of said amended marketing agreement and amended order require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable tobacco handled during such fiscal period, and (b) the current fiscal period began February 1, 1972, and the rate of assessment herein fixed will automatically apply to all such assessable tobacco beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 25, 1972.

ALBERT DOUB, Jr.,
Acting Director, Tobacco Division, Agricultural Marketing Service.

Title 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service, Department of Justice

PART 103—POWERS AND DUTIES OF SERVICE OFFICERS; AVAILABILITY OF SERVICE RECORDS

PART 242—PROCEEDINGS TO DETERMINE DEPORTABILITY OF ALIENS IN THE UNITED STATES: APPREHENSION, CUSTODY, HEARING, AND APPEAL

Miscellaneous Amendments

Executive Order 11652, pertaining to classification and declassification of national security information and material, published in the FEDERAL REGISTER on March 10, 1972 (37 F.R. 5209), effective June 1, 1972, supersedes Executive Order No. 10501 of November 5, 1953, as amended. Accordingly, to conform thereto the references to Executive Order No. 10501 contained in Chapter I of Title 8 of the Code of Federal Regulations, the following amendments are hereby prescribed:

In § 103.2. the fifth sentence of paragraph (b)(2) is revised. As amended, § 103.2(b)(2) reads as follows:

§ 103.2 Applications, petitions, and other documents.

* * * * * * *

(b) *Evidence.* * * *

(2) *Inspection of evidence.* An applicant or petitioner shall be permitted to inspect the record of proceeding which constitutes the basis for the decision, except as hereinafter provided. If the decision will be adverse to the applicant or petitioner on the basis of derogatory evidence considered by the Service and of which the applicant or petitioner is unaware, he shall be advised thereof and offered an opportunity to rebut it and present evidence in his behalf before the decision is rendered, except that classified evidence shall not be made available to him. Any explanation, rebuttal, or evidence presented by or in behalf of the applicant or petitioner shall be included in the record of proceeding. A determination of statutory ineligibility shall not be valid unless based on evidence contained in the record of proceeding. In exercising discretionary power when considering an application or petition, the district director or the officer in charge, in any case in which he is authorized to make the decision, may consider and base his decision upon information not contained in the record and not made available for inspection by the applicant or petitioner, provided the regional commissioner has determined that such information is classified under Executive Order No. 11652 of March 8, 1972 (37 F.R. 5209, March 10, 1972; effective June 1, 1972), that it is relevant to the disposition of the case and, in his discretion, has concluded that its disclosure would be prejudicial to the national security and safety. If the decision of the district director or officer in charge is based in whole or in part upon information not contained in the record, the decision shall so state and cite the authority therefor.

In § 242.17, the third sentence of paragraph (a) is revised. As amended, § 242.17(a) reads as follows:

§ 242.17 Ancillary matters, applications.

(a) *Creation of the status of an alien lawfully admitted for permanent residence.* The respondent may apply to the special inquiry officer for suspension of deportation under section 244(a) of the Act, for adjustment of status under section 245 of the Act, or under section 1 of the Act of November 2, 1966, or for creation of a record of lawful admission for permanent residence under section 214 (d) or 249 of the Act; such applications shall be subject to the requirements contained in Parts 244, 245, and 249 of this chapter. The special inquiry officer shall inform the respondent of his apparent eligibility to apply for any of the benefits enumerated in this paragraph and shall afford him an opportunity to make application therefor during the hearing. In exercising discretionary power when considering an application under this paragraph, the special inquiry officer may consider and base his decision upon information not contained in the record and not made available for inspection by the respondent, provided the Commissioner has determined that such information is classified under Executive Order No. 11652 of March 8, 1972 (37 F.R. 5209, March 10, 1972; effective June 1, 1972), that it is relevant to the disposition of the case and, in his discretion, has concluded that its disclosure would be prejudicial to the national security and safety. If the decision of the special inquiry officer is based in whole or in part

V 37-83
APR 28 72
XUM

upon information not contained in the record, the decision shall so state and cite the authority therefor.

* * * * *

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

Compliance with the provisions of section 553 of Title 5 of the United States Code (80 Stat. 383), as to notice of proposed rule making is unnecessary in this instance and would serve no useful purpose because the amendments to §§ 103.2 (b)(2) and 242.17(a) are technical in nature.

Effective date. This order shall become effective on June 1, 1972.

Dated: April 25, 1972.

RAYMOND F. FARRELL,
Commissioner of Immigration and Naturalization.

[FR Doc.72-6516 Filed 4-27-72;8:48 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Docket No. 72-CE-12-AD, Amdt. 39-1440]

PART 39—AIRWORTHINESS DIRECTIVES

Beech Model 99 Series (Serial Numbers U-1 and Up) Airplanes

There have been reports of cracked or broken Beech P/N 50-524590-3 cast aluminum control wheel adapters installed on Beech Model 99 airplanes which can result in sudden and unexpected loss of aileron and elevator control. To correct this condition the manufacturer has issued Beechcraft Service Instruction 0380-155, Rev. 1, which recommends inspection of the adapters for cracks and provides a new improved replacement. Since the condition described herein may exist or develop in other airplanes of the same type design, an Airworthiness Directive is being issued requiring repetitive dye penetrant inspection of all control wheel adapters presently in service on Beech Model 99 Series airplanes per FAA Advisory Circular 43.13-1 until replaced by the new Beech P/N 99-524036-33 control wheel adapters.

Since a situation exists which requires expeditious adoption of the amendment, notice and public procedure hereon are impracticable and good cause exists for making the amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 CFR 11.89 (31 F.R. 13697), § 39.13 of the Federal Aviation Regulations is amended by adding the following new AD.

BEECH. Applies to Model 99 Series (Serial Nos. U-1 and up) Airplanes.

Compliance: Required as indicated, unless already accomplished.

To assure security of control wheel adapters, accomplish the following:

(A) Within 25 hours' time in service after the effective date of this AD, remove all paint from Beech P/N 52-524590-3 control wheel adapters and dye penetrant inspect said adapters in accordance with FAA Advisory Circular 43.13-1. Repeat the inspection at 100 hour intervals thereafter. If a crack is found during any of the inspections required by this AD, prior to further flight, replace with Beech P/N 99-524036-33 control wheel adapters, except that the aircraft may be flown in accordance with FAR 21.197 to a location where the replacement may be performed.

(B) When the old Beech P/N 50-524590-3 control wheel adapters are replaced by the new Beech P/N 99-524036-33 control wheel adapters the inspections called for herein are no longer required.

(C) Equivalent methods of compliance must be approved by the Chief, Engineering and Manufacturing Branch, FAA, Central Region.

Beechcraft Service Instruction No. 0380-155, Rev. 1, pertains to this subject.

This amendment becomes effective May 2, 1972.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958, 49 U.S.C. 1354(a), 1421, 1423; Sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Kansas City, Mo., on April 21, 1972.

JOHN M. CYROCKI,
Director, Central Region.

[Airspace Docket No. 72-WE-8]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area; Correction

On April 6, 1972 F.R. Doc. 72-5277 was published in the FEDERAL REGISTER (37 F.R. 6924). This document altered the descriptions of the Prescott, Ariz., control zone and transition area. A review of the document revealed that the longitude in the geographical coordinates of Prescott Municipal Airport was incorrect. Action is taken herein to affect this change.

Since this change is editorial in nature and imposes no additional burden on any person, notice and public procedure hereon is unnecessary.

In view of the foregoing, F.R. Doc. 72-5277 (37 F.R. 6924) is amended by deleting "* * * Longitude 122°25'15" W.); * * *" in the descriptions of the Prescott, Ariz., control zone and transition area and substituting "* * * Longitude 112°25'15" W.); * * *" therefor.

Effective date. The effective date of the original document (0901 G.m.t., May 25, 1972), may be retained.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on April 18, 1972.

ROBERT O. BLANCHARD,
Acting Director, Western Region.

[FR Doc.72-6490 Filed 4-27-72;8:46 am]

[Airspace Docket No. 72-WE-5]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area; Correction

On March 31, 1972, F.R. Doc. 72-4920 was published in the FEDERAL REGISTER (37 F.R. 6573). This document altered the description of the Ely, Nev., transition area. A review of the description of the transition area revealed that a cardinal point had been omitted from the text.

Since this change is editorial in nature and imposes no additional burden on any person, notice and public procedure hereon is unnecessary.

In view of the foregoing F.R. Doc. 72-4920 (37 F.R. 6573) is amended by inserting the word "south" after the word "miles" in the last line of the text.

Effective date. The effective date of the original document (0901 G.m.t., May 25, 1972) may be retained.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a), sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on April 18, 1972.

ROBERT O. BLANCHARD,
Acting Director, Western Region.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart F—Food Additives Resulting From Contact With Containers or Equipment and Food Additives Otherwise Affecting Food

COMPONENTS OF PAPER AND PAPERBOARD IN CONTACT WITH AQUEOUS AND FATTY FOODS

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 0B2568) filed by National Starch and Chemical Corp., 1700 West Front Street, Plainfield, N.J. 07063, and other relevant material, concludes that the food additive regulations should be amended as set forth below to provide for the safe use of a mixture of (2-alkenyl) succinic anhydrides, in which the alkenyl groups are derived from olefins which contain not less than 95 percent of C_{18}–C_{22} groups, as a sizing agent employed prior to the sheet-forming operation in the manufacture of paper and paperboard intended for use in contact with aqueous and fatty foods.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 is amended in § 121.2526(a)(5) by alphabetically inserting in the list of substances a new item, as follows:

§ 121.2526 Components of paper and paperboard in contact with aqueous and fatty foods.

* * * * *

(a) * * *

(5) * * *

List of substances	*Limitations*
* * *	* * *
(2-Alkenyl) succinic anhydrides mixture, in which the alkenyl groups are derived from olefins which contain not less than 95 percent of C_{18}–C_{22} groups.	For use only as a sizing agent employed prior to the sheet-forming operation in the manufacture of paper and paperboard and limited to use at a level not to exceed 1 percent by weight of the finished dry paper and paperboard fibers.
* * *	* * *

* * * * *

Any person who will be adversely affected by the foregoing order may at any time within 30 days after its date of publication in the FEDERAL REGISTER file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, written objections thereto in quintuplicate. Objections shall show wherein the person filing will be adversely affected by the order and specify with particularity the provisions of the order deemed objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought. Objections may be accompanied by a memorandum or brief in support thereof. Received objections may be seen in the above office during working hours, Monday through Friday.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (4-28-72).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: April 19, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Title 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 207—NAVIGATION REGULATIONS

Apra Inner Harbor, Island of Guam

Pursuant to the provisions of Section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U.S.C. 1), § 207.808 is hereby prescribed establishing and governing the use of a restricted area in Apra Inner Harbor, Island of Guam, effective 30 days after publication in the FEDERAL REGISTER, as follows:

§ 207.808 Apra Inner Harbor, Island of Guam, restricted area.

(a) *The restricted area.* The waters within Apra Inner Harbor and adjacent waters of Apra Outer Harbor inclosed by a line beginning at the northeast corner of a pier at latitude 13°26'32.1", longitude 144°39'02.8"; thence to the northern tip of a small island at latitude 13°26'40.2", longitude 144°39'28.1", and thence to the northwest corner of the point of land at latitude 13°26'28.1", longitude 144°39'52.5".

(b) *The regulations.* (1) All swimmers and all vessels and craft except public vessels of the United States are prohibited from entering this area without prior permission of the enforcing agency.

(2) The regulations in this section shall be enforced by Commander Naval Forces Marianas and such agencies as he may designate.

(3) The water areas of the outer boundaries of the restricted area will not be marked but signs will be posted at the designated boundary coordinates to warn against trespassing in the restricted area.

[Regs. April 13, 1972, 1522-01 (Estab. of Restricted Area for Apra Inner Hbr, Island of Guam) DAEN-CWO-N] (Sec. 7, 40 Stat. 266; 33 U.S.C. 1)

For the Adjutant General.

R. B. BELNAP,
Special Advisor to TAG.

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter II—Office of Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner (Federal Housing Administration), Department of Housing and Urban Development

[Docket No. R-72-160]

PART 275—LOW RENT PUBLIC HOUSING

Prototype Cost Limits for Public Housing; Appendix

In the FEDERAL REGISTER issue for Saturday, May 1, 1971 (36 F.R. 8213-8232) prototype per unit cost schedules were published pursuant to section 209 (a) of the Housing and Urban Development Act of 1970. While these schedules are currently being evaluated in light of public comments received pursuant to invitation in the issuing order, consideration of subsequent factual project cost data received from the Seattle, Wash. area office indicates that certain prototype per unit cost schedules should be

V 37-83 APR 28 72 XUM

added for remote Alaskan villages. Inasmuch as the new prototype cost schedules cannot be utilized until the costs themselves become effective by publication in the FEDERAL REGISTER, continuity of contract approvals requires the immediate publication of this material. Accordingly, it is impracticable to provide notice and public procedure with respect to these revised limits, and good cause exists for making them effective on the date of publication in the FEDERAL REGISTER.

For the foregoing reasons the following appendix to Part 275 is amended as follows with respect to the locations named:

Delete the Kenai, Alaska schedule under Region X and substitute in lieu thereof the revised prototype per unit cost schedule shown on the attached appendix entitled Prototype Per Unit Cost Schedule revised April 17, 1972.

(Sec. 7(d), Department of Housing and Urban Development Act, 42 U.S.C. 3535(d))

Effective date. This rule is effective upon publication in the FEDERAL REGISTER (4-28-72).

EUGENE A. GULLEDGE,
Assistant Secretary-Commissioner.

Correction

In F.R. Doc. 72-3947, appearing at page 5584 in the issue of Thursday, March 16, 1972, the date "March 29, 1972" following the signature should read "March 9, 1972."

Title 49—TRANSPORTATION

Chapter V—National Highway Traffic Safety Administration, Department of Transportation

PART 501—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation of Authority to Associate Administrator for Traffic Safety Programs

The purpose of this notice is to amend the reservation of the delegation by the National Highway Traffic Safety Administrator to the Associate Administrator for Traffic Safety Programs, with respect to NHTSA duties under the Clean Air Amendments of 1970.

Part 501 of Title 49 was amended by notice in the FEDERAL REGISTER on July 29, 1971 (36 F.R. 13994) to add a new subparagraph (3) to § 501.8(d). Under subparagraph (3) the Associate Administrator for Traffic Safety Programs must notify the Deputy NHTSA Administrator 10 days in advance of informing the Environmental Protection Administrator, pursuant to the Clean Air Amendments of 1970, if a determination has been made by NHTSA "that State agency grants (for a State vehicle emission system inspection and emission testing and control programs) are not consistent with any highway safety program developed pursuant to 23 U.S.C. 402."

The NHTSA is amending § 501.8(d) to substitute "State agency programs" for "State agency grants." This amendment will make the text conform more closely to the terms of the Clean Air Amendments, under which grants for vehicle emission programs cannot be made by EPA unless "such program is consistent with any highway safety program developed pursuant to section 402 of title 23 of the United States Code" (42 U.S.C. 1857f-6b(2)).

In consideration of the foregoing, § 501.8(d) of Title 49, Code of Federal Regulations, is revised to read:

§ 501.8 Delegations.

. . . . . .

(d) . . .

(3) Notify the Environmental Protection Administrator, pursuant to 42 U.S.C. 1857f-6b(2), that a State agency program is not consistent with the State highway safety program developed pursuant to 23 U.S.C. 402.

. . . . . .

Effective date: April 28, 1972. Since this amendment relates only to the internal management of the Administration, notice and public procedure therein are not required and the amendment may be made effective in less than 30 days.

This notice is issued under the authority of section 119 of the National Traffic and Motor Vehicle Safety Act of 1966 (15 U.S.C. 1407) and the delegation of authority at 49 CFR 1.51.

Issued on April 24, 1972.

DOUGLAS W. TOMS,
Administrator.

Title 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[FCC 72-342]

PART 1—PRACTICE AND PROCEDURE

Participation by Corporate Officers and Employees on Behalf of Corporation

Order. In the matter of amendment of § 1.21 participation by corporate officers and employees on behalf of the corporation, RM-1537.

1. The Commission has before it a petition for rule making (RM-1537) filed by The Telephone Co., Inc., asking that the Commission's rules be amended so as to clearly provide that a corporate officer who is not an attorney may represent the corporation in all matters before the Commission. An officer of the company had previously been authorized by the Review Board to represent the company in a Commission hearing proceeding. "Advanced Electronics, et al.," 21 FCC 2d 239 (1970). No statements supporting or opposing the petition were filed.

2. It is clear, we believe, that a duly authorized corporate officer or employee who is not an attorney should be permitted to represent the corporation in all matters which do not involve an evidentiary hearing. To make it clear that this is the case, we are amending § 1.21 of the rules and regulations by adding a statement to that effect. We draw no distinction between officers and employees.

3. The judgment as to whether a nonattorney corporate officer or employee should be permitted to represent the corporation in a hearing proceeding, on the other hand, turns on a number of factors (which vary appreciably from case to case) and is best left to the discretion of the presiding officer. Such factors include the complexity of the hearing, the qualifications of the corporate officer, the financial resources of the corporation, and the likelihood of delay or of burden on other parties if the request is granted. The presiding officer is in the best position to weigh these and other pertinent factors and, considering the interests of all parties, to make a decision which is just. Accordingly, we are amending § 1.21 to provide that the appearance of a corporate officer or employee in an evidentiary hearing on behalf of the corporation lies within the discretion of the presiding officer. The presiding officer's ruling will apply to the hearing and to all subsequent stages of the proceeding.

4. The amendment is set forth in the attached below. Authority for the amendment is contained in sections 4 (i) and (j) and 303(r) of the Communications Act of 1934, as amended, 47 U.S.C. 154 (i) and (j) and 303(r). Because the amendment concerns a matter of agency practice, the notice and effective date provisions of section 4 of the Administrative Procedure Act, 5 U.S.C. 553, are inapplicable.

5. *Accordingly, it is ordered,* That the petition for rule making filed by The Telephone Co., Inc. is granted to the extent reflected in this order and denied in all other respects; *And it is further ordered,* effective May 2, 1972, that § 1.21 of the rules and regulations is amended as set forth below.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303)

Adopted: April 19, 1972.

Released: April 25, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[1]
[SEAL] BEN F. WAPLE,
Secretary.

In Part 1 of Chapter I of Title 47 of the Code of Federal Regulations, § 1.21(d) is added to read as follows:

§ 1.21 Parties.

. . . . . .

(d) Except as otherwise expressly provided in this chapter, a duly authorized corporate officer or employee may act for the corporation in any matter which has not been designated for an evidentiary hearing and, in the discretion of the presiding officer, may appear and be heard on behalf of the corporation in an evidentiary hearing proceeding.

[FR Doc.72-6510 Filed 4-27-72;8:48 am]

[Docket No. 19264; FCC 72-354]

PART 73—RADIO BROADCAST SERVICES

FM Broadcast Stations in Certain Cities in Nevada, South Carolina, Indiana, and Nebraska

Report and order. In the matter of amendment of § 73.202(b), *Table of Assignments,* FM Broadcast Stations (Carson City, Nev.; Charleston, S.C.; Ft. Wayne and Auburn, Ind.; and Seward, Nebr.), Docket No. 19264, RM-1594, RM-1605, RM-1595, RM-1607.

1. The Commission here considers the notice of proposed rule making in this proceeding, adopted June 16, 1971 (36 F.R. 12041).

2. Family Stations, Inc., licensee of FM Station KEAR, San Francisco, Calif., by letter from its counsel, dated July 30, 1971, withdrew its proposal to change a channel assignment at Carson City, Nev. The other proposals in order of the rule making petitions are as follows:

City	Channel No.	
	Present	Proposed
Fort Wayne, Ind.	236, 247, 269A, 288A	236, 247, 269A, 280A, 288A
Seward, Nebr.		245
Charleston, S.C.	236, 245, 278	236, 245, 278, 300

Our notice noted the 1970 populations of the cities, their respective counties, and other data and information as concerns populations; these are repeated:

City	Population	County	Population
Fort Wayne, Ind.	177,671	Allen	280,455
Seward, Nebr.	5,294	Seward	14,460
Charleston, S.C.	66,945	Charleston	247,650

Note was made that Ft. Wayne and Charleston are Standard Metropolitan Statistical Areas (SMSA); the Ft. Wayne SMSA consists only of Allen County; and the Charleston SMSA consists of Charleston and Berkeley Counties, with a total population of 303,849. Only Ray G. Smith, the petitioner in RM-1607, and Shepard Broadcasting Corp. (Shepard Broadcasting), licensee of AM Station WLYV, Fort Wayne, Ind., supporting the petition in RM-1605, filed comments. Shepard Broadcasting's comments were late filed, but it requested and is granted leave for late filing.

3. Charleston, S.C. (RM-1595): As pointed out in the notice, John H. Pembroke petitioned for the assignment of a fourth FM channel to Charleston so that he might apply for it in order to program exclusively for Black interests at night. The only other aural facility providing such service is a daytime-only AM station (there are four other full-time AM stations). Our notice stated that substantiation was lacking as to the population and the number of blacks that would be served within the 1 mv/m contour.[2] A preclusion study indicated that the assignment of Channel 300 to Charleston would affect the use of Channels 297, 298, and 299 in limited areas all with relatively small populations and having FM channel(s) allocated to them.

4. No one filed supporting comments. In this respect, paragraph 16 of the notice (showings required.) stated that the Commission at least expects petitioner to resubmit the petition and express an intention to apply for the channel, if assigned, and, if authorized, to promptly build the station. We also said that:

Failure to make these showings may result in denial of the proposal.

5. While our notice stated that the public interest, convenience, and necessity would be served by putting out the proposal for rule making, in the absence of comments from the petitioner or someone else, there is no presumption that anyone is interested in going forward to implement the allocation, if

[1] Commissioners Johnson and H. Rex Lee absent.

[2] Petitioner's estimates were 168,000 and 61,500 respectively.

V 37-83 APR 28 72 XUM

made to Charleston at this time. In short, failure of anyone to support the proposal following the notice leaves us little alternative but to deny the proposal at this time.

6. Fort Wayne, Ind. (RM–1605): Our notice indicated that an adequate showing had been made that the public interest might be served by adding a fourth channel—280A—to Fort Wayne, on the basis of population, its being an SMSA, the number of broadcast services, and certain other economic data filed by the petitioner, Burnup & Sims, Inc. Petitioner filed no comments; however, as noted above, Shepard Broadcasting Corp., licensee of AM Station WLYV did so on March 16, 1972, with a petition for leave to file late comments.

7. Shepard Broadcasting filed data and information underscoring Fort Wayne's importance as a cultural, educational, and commercial center. For example, the existence of the Fort Wayne Fine Arts Foundation (with member groups) is a center of activities for northeastern Indiana and bordering Ohio counties; a downtown Fine Arts Foundation is being constructed. Shepard Broadcasting points out that three local corporations—Magnavox Corp., Central Soya Co., and Essex International—are included in the upper portion of the 1969 "Fortune" magazine list of 500 largest industrial companies in the United States and 16 other firms in the same ratings have local operations. This party also notes that Fort Wayne is the seat of eight institutions of higher learning including Indiana-Purdue Regional Campus (with a 1968–69 student body of 11,000); Saint Francis College (2,345); and Indiana Institute of Technology (960). Finally, Shepard Broadcasting expresses its intention to apply for the channel, if allocated to Fort Wayne.

8. On the basis of the showing made, and that Channel 288A, although allocated to Fort Wayne, actually is utilized as Station WIFF–AM at Auburn, Indiana,[3] about 20 miles north of Fort Wayne, it is felt that the public interest, convenience, and necessity would be served by the assignment of Channel 280A to Fort Wayne, Ind., and Channel 288A to Auburn (see paragraph 12 of the notice).

9. Seward, Nebr. (RM–1607): Our notice pointed out that petitioner Ray G. Smith, doing business as Central Communications sought allocation of Channel 245 as the first FM assignment to Seward, Nebr., population 5,294. We also noted that Seward is the seat of Seward County, population 14,460, and that the assignment would be made without affecting present assignments in other communities.

10. Our notice indicated that we had some doubts as to the propriety of allocating a Class C channel to a community of this size where normally a Class A is assigned. Petitioner, in this respect, had urged that a Class C assignment is needed to provide service to small towns and rural areas not adequately served by other aural stations; with "reasonable facilities", i.e., 100 kw. E.R.P. at 640 feet antenna height a.a.t., there would be service to an unserved area of 190 square miles with 6,878 persons and an underserved area of 1,070 square miles with a population of 23,506 persons. We also noted the minimal short-spacing on a reference point basis to Channel 245 at Grand Island, Nebr.; in other words, a satisfactory transmitter site at Grand Island would depend on the location at Seward.

11. Petitioner's comments affirmed its interest and that Smith intends to apply for a construction permit with 100 kw. E.R.P. and a 640 foot a.a.t. antenna which our notice indicated was the minimum facility we would allow for this assignment.

12. We find that the public interest, convenience, and necessity would be met by assigning channels to the named communities. Authority for the adoption of the amendments proposed herein is contained in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended.

13. In accordance with the foregoing: *It is ordered*, That effective June 2, 1972, the FM Table of Assignments (§ 73.202 (b) of the rules) is amended, with respect to the cities listed below, to read as follows:

City	*Channel No.*
Auburn, Ind..	288A
Fort Wayne, Ind	236, 247, 269A, 280A
Seward, Nebr..	[1] 245

[1] Any application for this channel must specify an effective radiated power of 100 kw and antenna height of 650 feet above average terrain or equivalent.

14. *It is further ordered*, That the petition of John H. Pembroke to assign Channel 300 to Charleston, S.C. (RM–1595), is denied.

15. *It is further ordered*, That the petition of Family Stations, Inc., in view of that party's request to withdraw, is dismissed.

16. *It is further ordered*, That Shepard Broadcasting Corp. is granted leave to file its comments late.

17. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

Adopted: April 19, 1972.

Released: April 25, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[2]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72–6514 Filed 4–27–72;8:48 am]

[3] Auburn has a population of 7,337; it is the seat of DeKalb County, population 30,837.

[2] Commissioners Johnson and H. Rex Lee absent; Commissioner Wiley concurring in the result.

[Docket No. 19404; FCC 72–356]

PART 73—RADIO BROADCAST SERVICES

Television Broadcast Stations in Fredericksburg, Va.

Report and order. In the matter of amendment of § 73.606, *Table of Assignments*, Television Broadcast Stations (Fredericksburg, Va.), Docket No. 19404, RM–1798.

1. This proceeding, begun by notice of proposed rule making issued January 21, 1972 (FCC 72–63), involves the assignment of a UHF television channel to Fredericksburg, Va. The original petition requested the assignment of Channel 66, but as discussed and proposed in the notice, comments were requested on the assignment of Channel 69 to Fredericksburg. The petitioners (Charles McDaniel and Jerry Leonard) filed comments in support of the assignment of Channel 69 as proposed and stated that they would promptly apply for a construction permit if Channel 69 is assigned to Fredericksburg, Va. No other comments, pro or con, were filed in the proceeding.

2. The assignment of Channel 69 to Fredericksburg will be its first commercial assignment and will involve no short spacings and it will conform to all the technical rules of the Commission. As set forth in the petition, which data is incorporated by reference, the city of Fredericksburg shows a population of 14,450 according to the Advance Reports of the U.S. Census for 1970. It is situated astride Stafford and Spotsylvania Counties and is not located in an urbanized area or a Standard Metropolitan Statistical Area (SMSA). Fredericksburg is located between Richmond, Va., and Washington, D.C. about 50 miles from each. It is claimed that the city together with the four surrounding counties has an area of 1,500 square miles and a population of about 100,000. The Advance Census indicates a population for those four counties of Stafford (24,587), Spotsylvania (16,424), Caroline (13,925), and King George (8,039) that total 62,975. The economic base of the area is mixed in that there is industry, agriculture, and tourism throughout the area. American Viscose has a plant in Fredericksburg that employs 1,600 persons and it is the largest plant in the world making cellophane. Other industries include clothing, electrical products, and various building materials.

3. Certain updated economic data has been submitted concerning the area. As of 1970 (as opposed to 1963), there are 966 retail firms (up from about 500) in the area that have gross sales of $98,627,605 (up from $51,489,000). In Fredericksburg, retail establishments have increased from 286 to 300 and wholesale outfits from 36 to 46. Selective service receipts have increased from $5.2 million to $6.1 million and the Fredericksburg banks and savings and loan associations now have total assets of $102 million. Three new shopping centers are projected and in 1971, Moore Business Forms and Westinghouse Electric opened new plants employing in excess of 1,000 persons. Virginia Electric and Power Co. (Vepco) is building a new nuclear generating facility in the county and adjacent counties at a cost of $1 billion with a $75 million annual operating cost. There is a recreational park in the Vepco facility, which will further increase the current annual tourism receipts of $24.5 million (up from $17.5 million in 1963). Also located within 25 miles of Fredericksburg are three military installations: Camp A. P. Hill, Dahlgren Naval Weapons Laboratory, and the Quantico Marine Corps complex.

4. As set forth in the petition and/or notice, there is a daily (except Sunday) newspaper (The Free Lance-Star) with a circulation of 16,490. Radio Stations WFLS(AM) (1350 kHz, 1 kw., Day, Class III); WFLS–FM (Class B); WFVA(AM) (1230 kHz, 250 w., 1 kw.–LS–U, Class IV) and WFVA–FM (Class B) are operating stations assigned to Fredericksburg. The city does not receive a Grade A commercial television signal, but is on the outer edges of the Grade B signals from Richmond and Harrisonburg, Va., and Washington, D.C. It does receive a Grade A educational signal from Channel *53 that is operating from Goldvein, Va., which is located approximately 14 miles northwest of Fredericksburg.

5. We have considered the notice proposal and find it to be in the public interest and it is hereby adopted. It will bring a first local service to Fredericksburg, Va., which is consistent with the priorities and policies of the Commission.

6. In view of the foregoing: *It is ordered*, That, effective June 2, 1972, pursuant to authority contained in sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, § 73.606(b) of the Commission's rules, the *Table of Television Assignments*, is amended to read as follows:

City	*Channel No.*
Fredericksburg, Va	*53, 69

7. *It is further ordered*, That this proceeding is terminated.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083; 47 U.S.C. 154, 303, 307)

FEDERAL COMMUNICATIONS COMMISSION,[1]

Title 30—MINERAL RESOURCES

Chapter I—Bureau of Mines, Department of the Interior

SUBCHAPTER O—COAL MINE HEALTH AND SAFETY

PART 75—MANDATORY SAFETY STANDARDS, UNDERGROUND COAL MINES

Fire Suppression Devices and Fire-Resistant Hydraulic Fluids on Underground Equipment; Extension of Effective Date

In accordance with the provisions of section 311(e) of the Federal Coal Mine Health and Safety Act of 1969 and pursuant to the authority vested in the Secretary of the Interior under section 301(d) of the Act, there was promulgated in the FEDERAL REGISTER on October 8, 1971 (36 F.R. 19583), §§ 75.1107–1 through 75.1107–15 of Part 75, Subchapter O, of Chapter I, Title 30, Code of Federal Regulations, which set forth specifications for fire suppression devices required to be installed on underground equipment and for fire-resistant hydraulic fluids to be used in the hydraulic systems of such equipment. The effective date of these standards was extended, due to a work stoppage which was in effect in numerous mines, from November 22, 1971 to December 31, 1971, by a notice published in the FEDERAL REGISTER December 9, 1971 (36 F.R. 23370). The effective date of the proposed standards was further extended to April 29, 1972, by a notice published in the FEDERAL REGISTER of January 4, 1972 (37 F.R. 17), to allow further and full investigation of fire protection devices, systems and methods and to develop improved standards to permit use of devices, systems, and methods of equivalent or superior protection which would have been precluded under those which had been promulgated.

On Thursday, March 21, 1972, there was published in the FEDERAL REGISTER (37 F.R. 5756), a notice of proposed rule making, setting forth proposed new improved mandatory standards. Pursuant to section 101 of the Act it was proposed to revoke §§ 75.1107–1 through 75.1107–15 as promulgated on October 8, 1971 and substitute in lieu thereof new §§ 75.1107–1 through 75.1107–16.

A period of 30 days following publication was fixed for interested persons to submit written data, comments, suggestions, and objections to the proposed new standards. The period of time expired on April 20, 1972.

In order to allow sufficient time to review and consider the written data, comments, suggestions, and objections received and to publish and promulgate the new mandatory standards, notice is hereby given that the effective date of April 29, 1972, of the standards promulgated on October 8, 1971, is suspended until July 28, 1972.

JOHN B. RIGG,
Assistant Secretary of the Interior.

APRIL 27, 1972.

Proposed Rule Making

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[43 CFR Part 1820]

LANDS AND MINERALS APPLICATIONS IN CALIFORNIA

Places for Execution and Filing of Forms; Correction

On page 7004 of the FEDERAL REGISTER of April 7, 1972, there was published a notice and text of a proposed amendment to Part 1820 of Title 43, Code of Federal Regulations. The purpose of the amendment is to improve the efficiency of administering the public land laws and improving service to the public in regard to filing and processing public lands and minerals applications and cases in California. The proposed amendment would also correct the address and titles of certain other offices.

A 30-day period was given for receiving public comments. The expiration date for receiving comments, however, was not clearly stated. The purpose of this notice is to clearly establish the expiration date for receiving public comments as May 8, 1972.

Written comments, suggestions, or objections with respect to the proposed rules should be submitted to the Director (210), Bureau of Land Management, Washington, D.C. 20240.

HARRISON LOESCH,
Assistant Secretary of the Interior.

Fish and Wildlife Service

[50 CFR Part 10]

MIGRATORY GAME BIRDS

Notice of Proposed Rule Making

Notice is hereby given that pursuant to the authority contained in the Migratory Bird Treaty Act of July 3, 1918, as amended (40 Stat. 755; 16 U.S.C. 703–711) it is proposed to amend Part 10, Title 50, Code of Federal Regulations.

Proposed amendments to the basics. The basic migratory game bird hunting regulations have been organized into subparts which present the regulations in a more logical arrangement and a more orderly sequence. Each State game department was provided a draft proposal and suggestions received from those responding to that initial draft have been taken into consideration in the preparation of the amendments now being proposed for adoption.

Proposed amendments to the schedule of hunting seasons, limits, and shooting hours. Based on the results of migratory game bird studies now in progress and having due consideration for any views or data submitted by interested parties, these amendments will specify open seasons, certain closed seasons, shooting hours, and bag and possession limits for the hunting of migratory game birds during the 1972–73 season.

Amendments specifying open seasons, bag and possession limits, and shooting hours for doves, pigeons, rails (except coots), gallinules, woodcock, Wilson's snipe, certain waterfowl; coots, cranes, and waterfowl in Alaska; and certain sea ducks in coastal waters of certain northeastern States will be proposed for final adoption not later than August 20, 1972, to become effective on or before September 1, 1972. Amendments specifying open seasons, bag and possession limits, and shooting hours for waterfowl, coots, cranes, and any other migratory game birds not previously adopted will be proposed for final adoption not later than September 20, 1972, to become effective on or before October 1, 1972.

Amendments specifying open seasons, bag and possession limits, and shooting hours for doves, pigeons, ducks, coots, gallinules, and Wilson's snipe in Puerto Rico and for doves in the Virgin Islands, will be proposed for final adoption no later than June 20, 1972, to become effective on or after July 1, 1972.

As amended and redesignated, the basic migratory game bird hunting regulations will read as follows:

PART 10—MIGRATORY BIRDS

Subpart A—Introduction

Sec.
10.1 Scope of regulations.
10.2 Relation to other provisions.

Subpart B—Definitions

10.11 Meaning of terms.

Subpart C—Taking

10.21 Hunting methods.
10.22 Closed seasons.
10.23 Shooting hours.
10.24 Daily limit.
10.25 Wanton waste of migratory game birds.

Subpart D—Possession

10.31 Prohibited if taken in violation of Subpart C.
10.32 During closed season.
10.33 Possession limit.
10.34 Opening day of a season.
10.35 Field possession limit.
10.36 Tagging requirement.
10.37 Custody of birds of another.
10.38 Possession of live birds.
10.39 Termination of possession.

Subpart E—Transportation and Shipment Within the United States

10.41 Prohibited if taken in violation of Subpart C.
10.42 Transportation of birds of another.
10.43 Species identification requirement.
10.44 Marking package or container.

Subpart F—Exportation

10.51 Prohibited if taken in violation of Subpart C of this part.
10.52 Species identification requirement.
10.53 Marking package or container.

Subpart G—Importation

10.61 Importation limits.
10.62 Species identification requirement.
10.63 Foreign export permits.
10.64 Processing requirement.
10.65 Marking package or container.

Subpart H—Federal, State, and Foreign Law

10.71 Violation of Federal law.
10.72 Violation of State law.
10.73 Violation of foreign law.

Subpart I—Commercial Preservation Facilities

10.81 Tagging requirement.
10.82 Records required.
10.83 Inspection of premises.

Subpart J—Feathers or Skins

10.91 Commercial use of feathers.
10.92 Personal use of feathers or skins.

Subpart K—Annual Season, Limit, and Shooting Hour Schedules

10.101–10.121 [Reserved]

Subpart L—Administrative and Miscellaneous Provisions

10.131 Extension of seasons.
10.132 Native use in Alaska.

Subpart M—Wildlife Development Areas

10.141 Approval of area development program.
10.142 Revocation of program approval.
10.143 Notice and hearing.

AUTHORITY: The provisions of this Part 10 issued under the Migratory Bird Treaty Act of July 3, 1918, as amended, 40 Stat. 755:16 U.S.C. 703–711.

Subpart A—Introduction

§ 10.1 Scope of regulations.

(a) *In general.* The regulations contained in this part relate to the hunting of migratory game birds.

(b) *Procedural and substantive requirements.* Migratory game birds may be taken, possessed, transported, shipped, exported, or imported only in accordance with the restrictions, conditions, and requirements contained in this part.

(c) *Authority.* These regulations are promulgated under authority of the Migratory Bird Treaty Act (40 Stat. 755, as amended; 16 U.S.C. 703–711).

§ 10.2 Relation to other provisions.

(a) *Migratory bird permits.* The provisions of this part shall not be construed to alter the terms of any permit or other authorization issued pursuant to Part 16 of this chapter.

(b) *Migratory bird hunting stamps.* The provisions of this part are in addition to the provisions of the Migratory Bird Hunting Stamp Act of 1934 (48 Stat. 451, as amended; 16 U.S.C. 718a),

(c) *National wildlife refuges.* The provisions of this part are in addition to, and are not in lieu of, any other provision of law respecting migratory game birds under the National Wildlife Refuge System Administration Act of 1966 (80 Stat. 927, as amended; 16 U.S.C. 668dd) or any regulation made pursuant thereto.

(d) *State laws for the protection of migratory birds.* Nothing in this part shall be construed to prevent the several States from making and enforcing laws or regulations not inconsistent with the conventions between the United States and any foreign country for the protection of migratory birds or with the Migratory Bird Treaty Act, or which shall give further protection to migratory game birds.

Subpart B—Definitions

§ 10.11 Meaning of terms.

For the purpose of this part, the following terms shall be construed, respectively, to mean and to include:

(a) *Secretary.* The Secretary of the Interior or his authorized representative.

(b) *Migratory game birds.* Those game birds included in the terms of conventions between the United States and any foreign country for the protection of migratory birds, for which open seasons are prescribed, are listed as follows:

(1) Anatidae (wild ducks, geese, brant, and swans);

(2) Columbidae (wild doves and pigeons);

(3) Gruidae (little brown cranes);

(4) Rallidae (rails, coots, and gallinules); and

(5) Scolopacidae (woodcock and snipe).

A complete list of migratory birds protected by the international conventions and the Migratory Bird Treaty Act appears in § 1.11 of this chapter.

(c) *Person.* Individual, club, association, partnership, or corporation, any one or all, as the context requires.

(d) *Take.* Pursue, hunt, shoot, capture, collect, kill or attempt to hunt, shoot, capture, collect, or kill.

(e) *Open season.* Calendar days on which migratory game birds may lawfully be taken. Each period prescribed as an open season shall be construed to include the first and last days thereof.

(f) *Closed season.* Calendar days on which migratory game birds shall not be taken.

(g) *Transport.* The act of transporting, carrying, or conveying, including delivering for transportation, receiving for transportation, or causing to be transported when performed by a person other than the postal service or a common carrier.

(h) *Ship.* The act of shipping, carrying, or conveying, including delivering for shipment or causing to be shipped, when performed by the postal service or a common carrier.

(i) *State.* Any State, the District of Columbia, the Commonwealth of Puerto Rico, and the territories and possessions of the United States.

(j) *Daily bag limit.* The maximum number permitted to be taken by one person in any one day during the open season in any one specified geographic area for which a daily bag limit is prescribed.

(k) *Aggregate daily bag limit.* The maximum number permitted to be taken by one person in any one day during the open season when such person hunts in more than one specified geographic area for which a daily bag limit is prescribed. The aggregate daily bag limit is equal to, but shall not exceed, the largest daily bag limit prescribed for any one of the specified geographic areas in which taking occurs.

(l) *Possession limit.* The maximum number permitted to be possessed by any one person when lawfully taken in the United States in any one specified geographic area for which a possession limit is prescribed.

(m) *Aggregate possession limit.* The maximum number, lawfully taken in the United States, permitted to be possessed by any one person when taking and possession occurs in more than one specified geographic area for which a possession limit is prescribed. The aggregate possession limit is equal to, but shall not exceed, the largest possession limit prescribed for any one of the specified geographic areas in which taking and possession occurs.

(n) *Personal abode.* One's principal or ordinary home or dwelling place, as distinguished from his temporary or transient place of abode or dwelling such as a hunting club, or any club house, cabin, tent, or trailer house used as a hunting club, or any hotel, motel, or rooming house used during a hunting, pleasure, or business trip.

(o) *Commercial preservation facility.* Any person, place, establishment, or cold-storage or locker plant that, for hire or other consideration, receives, possesses, or has in custody any migratory game birds belonging to another person for purposes of picking, cleaning, freezing, processing, storage, or shipment.

Subpart C—Taking

§ 10.21 Hunting methods.

Migratory birds on which open seasons are prescribed in this part may be taken by any method except those prohibited in this section. No person shall take migratory game birds:

(a) With a trap, snare, net, crossbow, rifle, pistol, swivel gun, shotgun larger than 10 gauge, punt gun, battery gun, machine gun, fish hook, poison, drug, explosive, or stupefying substance;

(b) With a shotgun of any description capable of holding more than three shells, unless it is plugged with a one-piece filler, incapable of removal without disassembling the gun, so its total capacity does not exceed three shells;

(c) From or by means, aid, or use of a sinkbox or any other type of low floating device, having a depression affording the hunter a means of concealment beneath the surface of the water;

(d) From or by means, aid, or use of any motor vehicle, motor-driven land conveyance, or aircraft of any kind;

(e) From or by means of any motorboat or other craft having a motor attached, or any sailboat, unless the motor has been completely shut off and/or the sails furled, and its progress therefrom has ceased: *Provided,* That a craft under power may be used to retrieve dead or crippled birds; however, crippled birds may not be shot from such craft under power except in the seaduck area as permitted in Subpart K.

(f) By the use or aid of livestock as a blind or means of concealment;

(g) By the use or aid of live birds as decoys; although not limited to; it shall be a violation of this paragraph for any person to take migratory waterfowl on an area where tame or captive live ducks or geese are present unless: (1) Such birds are and have been for a period of ten consecutive days prior to such taking, confined within an enclosure which substantially reduces the audibility of their calls and totally conceals such birds from the sight of wild migratory waterfowl, or (2) such birds are maintained at a distance of more than one-half mile from the place where waterfowl hunting occurs;

(h) By the use or aid of recorded or electrically amplified bird calls or sounds, or recorded or electrically amplified imitations of bird calls or sounds;

(i) By means or aid of any motor-driven land, water, or air conveyance or any sailboat used for the purpose of or resulting in the concentrating, driving, rallying, or stirring up of any migratory bird; or

(j) By the aid of baiting or on or over any baited area. As used in this paragraph, "baiting" shall mean the placing, exposing, depositing, distributing, or scattering of shelled, shucked, or unshucked corn, wheat or other grain, salt, or other feed so as to constitute for such birds a lure, attraction or enticement to, on or over any areas where hunters are attempting to take them; and "baited area" means any area where shelled, shucked, or unshucked corn, wheat or other grain, salt, or other feed whatsoever capable of luring, attracting, or enticing such birds is directly or indirectly placed, exposed, deposited, distributed, or scattered; and such area shall remain a baited area for 10 days following complete removal of all such corn, wheat or other grain, salt, or other feed. However, nothing in this paragraph shall prohibit:

(1) The taking of all migratory game birds, including waterfowl, on or over standing crops, flooded standing crops (including aquatics), flooded harvested crop lands, grain crops properly shocked on the field where grown, or grains found scattered solely as the result of normal agricultural planting or harvesting; and

(2) The taking of all migratory game birds, except waterfowl, on or over any lands where shelled, shucked, or unshucked corn, wheat or other grain, salt or other feed has been distributed or scattered solely as the result of valid agricultural operations or procedures.

V 37-83 APR 28 72 XUM

§ 10.22 Closed seasons.

No person shall take migratory game birds during the closed seasons.

§ 10.23 Shooting hours.

No person shall take migratory game birds except during the hours open to shooting as prescribed in Subpart K.

§ 10.24 Daily limit.

No person shall take in any one day, more than the daily bag limit or aggregate daily bag limit, whichever applies.

§ 10.25 Wanton waste of migratory game birds.

No person shall kill or cripple any migratory game bird pursuant to this part without making a reasonable effort to retrieve the bird and include it in his daily bag limit.

Subpart D—Possession

§ 10.31 Prohibited if taken in violation of Subpart C.

No person shall at any time, by any means, or in any manner, possess or have in custody any migratory game bird or part thereof, taken in violation of any provision of Subpart C of this part.

§ 10.32 During closed season.

No person shall possess any freshly killed migratory game birds during the closed season.

§ 10.33 Possession limit.

No person shall possess more migratory game birds taken in the United States than the possession limit or the aggregate possession limit, whichever applies.

§ 10.34 Opening day of a season.

No person on the opening day of the season shall possess any freshly killed migratory game birds in excess of the daily bag limit, or aggregate daily bag limit, whichever applies.

§ 10.35 Field possession limit.

(a) No person shall possess, have in custody, or transport more than the daily bag limit or aggregate daily bag limit, whichever applies, of migratory game birds, tagged or not tagged, at or between the place where taken and either (1) his automobile or principal means of land transportation; or (2) his personal abode or temporary or transient place of lodging; or (3) a commercial preservation facility; or (4) a post office; or (5) a common carrier facility.

§ 10.36 Tagging requirement.

No person shall put or leave any migratory game birds at any place (other than at his personal abode), or in the custody of another person for picking, cleaning, processing, shipping, transportation, or storage (including temporary storage), or for the purpose of having taxidermy services performed, unless such birds have a tag attached, signed by the hunter, stating his address, the total number and species of birds, and the date such birds were killed.

§ 10.37 Custody of birds of another.

No person shall receive or have in custody any migratory game birds belonging to another person unless such birds are tagged as required by § 10.36.

§ 10.38 Possession of live birds.

Every migratory game bird wounded by hunting and reduced to possession by the hunter shall be immediately killed and become a part of the daily bag limit. No person shall at any time, or by any means, possess or transport live migratory game birds taken under authority of this part.

§ 10.39 Termination of possession.

Subject to all other requirements of this part, the possession of birds taken by any hunter shall be deemed to have ceased when such birds have been delivered by him to another person as a gift; or have been delivered by him to a post office, a common carrier, or a commercial preservation facility and consigned for shipment by the Postal Service or a common carrier to some person other than the hunter.

Subpart E—Transportation and Shipment Within the United States

§ 10.41 Prohibited if taken in violation of Subpart C.

No person shall at any time, by any means, or in any manner, transport or ship any migratory game bird or part thereof, taken in violation of any provision of Subpart C of this part.

§ 10.42 Transportation of birds of another.

No person shall transport migratory game birds belonging to another person unless such birds are tagged as required by § 10.36.

§ 10.43 Species identification requirement.

No person shall transport or ship within the United States any migratory game birds, except doves, unless the head or one fully feathered wing remains attached to each such bird at all times while being transported or shipped from the place where taken until they have arrived at the personal abode of the possessor or a commercial preservation facility.

§ 10.44 Marking package or container.

No person shall ship migratory game birds unless the package or container in which such birds are shipped has the name and address of the shipper and the consignee and an accurate statement of the numbers of each species of birds therein contained clearly and conspicuously marked on the outside thereof.

Subpart F—Exportation

§ 10.51 Prohibited if taken in violation of Subpart C of this part.

No person shall at any time, by any means, or in any manner, export or cause to be exported any migratory game bird or part thereof, taken in violation of any provision of Subpart C of this part.

§ 10.52 Species identification requirement.

No person shall export migratory game birds unless one fully feathered wing remains attached to each such bird while being transported or shipped from the United Sates and/or any of its possessions to any foreign country.

§ 10.53 Marking package or container.

No person shall export migratory game birds via the postal service or a common carrier unless the package or container in which such birds are shipped has the name and address of the shipper and the consignee and an accurate statement of the numbers of each species of birds therein contained clearly and conspicuously marked on the outside thereof.

Subpart G—Importations

§ 10.61 Importation limits.

No person shall import during any one-calendar work beginning on Sunday migratory game birds in excess of the following importation limits:

(a) *Doves and pigeons.* Not to exceed 25 doves, singly or in the aggregate of all species, and 10 pigeons, singly or in the aggregate of all species from any foreign country.

(b) *Waterfowl.* Not to exceed 10 ducks, singly or in the aggregate of all species, and five geese including brant, singly or in the aggregate of all species from any foreign country except Canada.

§ 10.62 Species identification requirement.

No person shall import migratory game birds unless each such bird has one fully feathered wing attached, and such wing must remain attached while being transported or shipped between the port of entry and the personal abode of the possessor or between the port of entry and a commercial preservation facility.

§ 10.63 Foreign export permits.

No person shall import, possess, transport, or ship any migratory game birds killed in a foreign country unless such birds are accompanied by export permits, tags, or other documentation required by applicable foreign laws or regulations.

§ 10.64 Processing requirement.

No person shall import migratory game birds killed in any foreign country, except Canada, unless such birds are dressed (except as required in § 10.62), drawn, and the head and feet are removed: *Provided*, That this shall not prohibit the importation of legally taken, fully feathered migratory game birds consigned for mounting purposes to a taxidermist who holds a current taxidermist permit issued to him pursuant to § 16.12 of this chapter and who is also licensed by the U.S. Department of Agriculture to decontaminate such birds.

§ 10.65 Marking of package or container.

No person shall import migratory game birds via the postal service or a common carrier unless the package or container in which such birds are shipped has the name and address of the shipper and the consignee and an accurate statement of the numbers of each species of birds therein contained clearly and conspicuously marked on the outside thereof.

Subpart H—Federal, State, and Foreign Law

§ 10.71 Violation of Federal law.

No person shall at any time, by any means or in any manner, take, possess, transport, ship, or export any migratory bird, or any part, nest, or egg of any such bird, in violation of any Act of Congress or any regulation issued pursuant thereto.

§ 10.72 Violation of State law.

No person shall at any time, by any means or in any manner, take, possess, transport, ship, or export any migratory bird, or any part, nest, or egg of any such bird, in violation of any applicable law or regulation of any State.

§ 10.73 Violation of foreign law.

No person shall at any time, by any means, or in any manner, import, possess, transport, or ship any migratory bird, or any part, nest, or egg of any such bird taken, bought, sold, transported, shipped, possessed, or exported contrary to any applicable law or regulation of any foreign country, or State or province thereof.

Subpart I—Commercial Preservation Facilities

§ 10.81 Tagging requirement.

No commercial preservation facility shall receive or have in custody any migratory game birds unless such birds are tagged as required by § 10.36.

§ 10.82 Records required.

No commercial preservation facility shall:

(a) Receive or have in custody any migratory game birds unless accurate records are maintained showing (1) the number of each species; (2) the date such birds were received; (3) the name and address of the person from whom such birds were received; (4) the date such birds were disposed of; and (5) the name and address of the person to whom such birds were delivered or

(b) Destroy any records required to be maintained under this section for a period of 1 year following the last entry on the record.

§ 10.83 Inspection of premises.

No commercial preservation facility shall prevent any person authorized to enforce this part from entering such facilities at all reasonable hours and inspecting the records and the premises where such operations are being carried on.

Subpart J—Feathers or Skins

§ 10.91 Commercial use of feathers.

Any person may possess, purchase, sell, barter, or transport for the making of fishing flies, bed pillows ,and mattresses, and for similar commercial uses the feathers of migratory waterfowl (wild ducks, geese, brant, and swans) killed by hunting pursuant to this part, or seized and condemned by Federal or State game authorities, except that:

(a) No person shall purchase, sell, barter, or offer to purchase, sell, or barter for millinery or ornamental use the feathers of migratory game birds taken under authority of this part; and

(b) No person shall purchase, sell, barter, or offer to purchase, sell, or barter mounted specimens of migratory game birds taken under authority of this part.

§ 10.92 Personal use of feathers or skins.

Any person for his own use may possess, transport, ship, import, and export without a permit the feathers and skins of lawfully taken migratory game birds.

Subpart K—Annual Season, Limit, and Shooting Hour Schedules

§§ 10.101–10.121 [Reserved]

Subpart L—Administrative and Miscellaneous Provisions

§§ 10.131 and 10.132 [Redesignated]

Present §§ 10.4(h) and 10.5 are redesignated as §§ 10.131 and 10.132 under this subpart.

Subpart M—Wildlife Development Areas

§§ 10.141, 10.142 and 10.143 [Redesignated]

Present §§ 10.71, 10.72, and 10.73 are redesignated as §§ 10.141, 10.142, and 10.143 under this subpart.

It is the policy of the Department of the Interior, whenever practicable, to afford the public an opportunity to participate in the rule making process. Accordingly, interested persons may submit written comments, suggestions, or objections with respect to the proposed amendments to the Director, Bureau of Sport Fisheries and Wildlife, Washington, D.C. 20240, within 30 days of the date of publication of this notice in the FEDERAL REGISTER.

F. V. SCHMIDT,
Acting Director, Bureau of Sport Fisheries and Wildlife.

FLUE-CURED TOBACCO, TYPES 11–14

Notice of Advance Schedule and Grade Rates for Price Support on 1972 Crop

Correction

In F.R. Doc. 72-6097 appearing at page 7902 in the issue for Friday, April 21, 1972, the following changes should be made in the table in § 1464.16:

1. The entry between Grades H3F and H5F should read "H4F------84.25."

2. The entry between Grades X1L and X3L should read "X2L------86.25."

3. A new entry should be inserted between Grades X3F and X5F, reading "X4F------81.25."

Rural Electrification Administration

[7 CFR Part 1701]

CONSTRUCTION OF REA-FINANCED TRANSMISSION LINES

Transmission Line Manual

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to issue a revision of REA Bulletin 62–1, Transmission Line Manual (Mechanical Design) to be used as a guide in developing design criteria for wood pole-type transmission lines.

Persons interested in data and information in this bulletin may submit written data, views, or comments to the Director, Power Supply, Management and Engineering Standards Division, Room 3313, South Building, U.S. Department of Agriculture, Washington, D.C. 20250, not later than 30 days from the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Power Supply, Management and Engineering Standards Division during regular business hours.

A copy of the proposed revision of the Transmission Line Manual may be secured in person or by written request from the Director, Power Supply, Management, and Engineering Standards Division.

The major changes included in the proposed revisions of this bulletin are as follows:

REVISION OF REA BULLETIN 62–1

TRANSMISSION LINE DESIGN MANUAL

The primary purpose of this Transmission Line Manual is to furnish engineering information as a basic guide for use in designing wood pole-type transmission lines and developing data for REA approval.

The previous Transmission Line Manual was dated May 1961. The proposed revision is a general updating of the manual to incorporate major changes in technology and technical data that have been developed since the 1961 publication. One of the more significant changes is the increased usage of higher voltage electric lines to transmit large blocks of power. Some of the REA systems have already constructed these higher voltage lines and additional mileages are proposed. In the general updating of the manual the most significant changes are as follows:

1. Design data on 230 and 345 kV wood pole transmission lines are included. Although the existing data calculations related to strength of structures are applicable for any voltage, data on clearance and other technical information were added for 230 and 345 kV lines.

V 37-83
APR 28 72
XUM

2. Environmental considerations in design, routing, construction, operation and maintenance of transmission facilities have been added. Although REA systems have always been concerned with the protection of the environment, the present emphasis on environmental protection and aesthetics makes protection of the environment a factor that must be thoroughly considered in the construction of transmission facilities.

3. Several other changes and additions proposed in the general updating and design considerations are: Revision of tabulations of pole strengths by sizes and species to conform to the latest ANSI wood pole standards; the latest available Isotach and Isokeraunic Charts are included, providing data on wind and lightning conditions in the United States; the general updating of technical terminology, etc.

Dated: April 25, 1972.

JAMES N. MYERS,
Assistant Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 191]

HAZARDOUS SUBSTANCES

Test for Eye Irritants

The Commissioner of Food and Drugs believes the present method for testing hazardous substances for eye irritation perscribed in § 191.12 (21 CFR 191.12) can be improved by the revision proposed below.

The Commissioner is concerned that the eye irritation test presently prescribed by § 191.12 does not realistically reflect the eye contact that could reasonably be expected from exposure to household substances. The revision of the eye irritation test method proposed below provides for the use of two groups of animals. In one group the test eyes are washed after a 5-minute exposure. The eyes of the second group are exposed to the test substance for 24 hours and then examined before washing. An early observation at 1 hour is provided for both groups, and the minimum period for holding and observing test animals is extended to 7 days. Animals exhibiting the most severe reactions at 7 days are to be retained an additional 7 or 14 days. New provisions are also proposed to define substances that are corrosive to the eye and to describe positive and negative test results for such substances.

The Commissioner expects that the revised method proposed below will be of greater assistance in resolving situations where borderline eye irritation and possibility of permanent eye injury are issues. The proposed new protocol would require that a minimum of eight animals be used rather than the six called for by the presently prescribed method. The proposed use of the 5-minute and 24-hour exposure groups will permit an evaluation of the benefit to be anticipated from prompt first aid treatment.

The "Illustrated Guide for Grading Eye Irritation by Hazardous Substances" referenced in the present § 191.12(c) and proposed § 191.12(i) is currently out of stock and is being revised. It is anticipated that the revised guide will be available soon and notice of the date that the revised guide will be available will be published in the FEDERAL REGISTER.

Therefore, pursuant to provisions of the Federal Hazardous Substances Act (sec. 10(a), 74 Stat. 378; 15 U.S.C. 1269) and under authority delegated to him (21 CFR 2.120), the Commissioner of Food and Drugs proposes that § 191.1(g)(3) and (h) and § 191.12 be revised as follows:

§ 191.1 Definitions.

* * * * * * *

(g) * * *

(3) *Eye irritants.* A substance is an irritant to the eye if the available data on human experience indicate that it is an irritant to the eye, or if a positive test result as to irritancy is obtained when the substance is tested by the method described in § 191.12.

(h) *Corrosive.* A "corrosive substance" is one that causes visible destruction or irreversible alterations in the tissue at the site of contact. A test for a corrosive substance is whether, by human experience, such tissue destruction occurs at the site of application. A substance would be considered corrosive to the skin, if when tested on the intact skin of the albino rabbit by the technique described in § 191.11 the structure of the tissue at the site of contact is destroyed or changed irreversibly in 24 hours or less. A substance would be considered corrosive to the eye if a positive test result as to corrosiveness is obtained when the substance is tested by the method described in § 191.12. Other appropriate tests should be applied when contact of the substance with other than skin or eye tissue is being considered."

§ 191.12 Test for eye irritants.

(a) *Maintenance, selection, and dosing of animals.* Eight albino rabbits are used for each test substance. Animal facilities for such procedures shall be so designed and maintained as to exclude sawdust, wood chips, or other extraneous materials that might produce eye irritation. Both eyes of each animal in the test group shall be examined (with the aid of a binocular loupe, hand slit-lamp, or other suitable means that permit thorough examination) before testing, and only those animals without eye defects or irritation shall be used. The animal is held firmly but gently until quiet. The test material is placed in one eye of each animal by gently pulling the lower lid away from the eyeball to form a cup into which the test substance is instilled. The lids are then gently held together for one second and the animal is released. The other eye, remaining untreated, serves as a control.

(b) *Protocol.* Details of test procedures are as outlined in the following table with footnotes:

	Group I (five animals)	Group II (three animals)
Test substance:		
Liquids	0.1 milliliter by volume.	0.1 milliliter by volume.
Pastes, foams [1], Solids [2]	50 milligrams by weight.	50 milligrams by weight.
	...do	Do.
Powders, granules, flakes [3]	0.1 milliliter by volume.	0.1 milliliter by volume.
Aerosols, pressurized containers. [4]	...do	1-second spray at 4 inches.
Exposure [5]	5 minutes	24 hours.
Treatment [6]	Wash for 2 minutes with 300 milliliters of water immediately following the 5-minute exposure period.	Wash for 2 minutes with 300 milliliters of water immediately following the first 24-hour examination.
Examination schedule.	1 hour after wash. [7]	1 hour after instillation.
	24 hours [7]	24 hours. [6, 7]
	48 hours	48 hours.
	72 hours [7]	72 hours. [7]
	7 days [7]	7 days. [7]
	14 days [7]	14 days. [6]
	21 days [6]	21 days. [6]

[1] For pastes and foams, a 50-milligram aliquot of the test material is weighed on glassine paper and applied to the inside surface of the lower eyelid of each test eye.

[2] Solids which because of their physical dimensions cannot be placed in the eye should be so comminuted that a 50-milligram aliquot can be instilled into each test eye.

[3] For substances that have a variable bulk density, such as powders, granules, flakes, or other particulate form, the weighed amount equivalent to a volume of 0.1 milliliter is tested. The substance is gently compacted without altering the individual particles, into a 5-milliliter, conical bottom, centrifuge tube which is graduated from the tip to 1 milliliter in 0.1-milliliter subdivisions. In such a case the weight of each 0.1-milliliter test dose is recorded, averaged, and reported for each test group.

[4] For aerosols and contents in pressurized containers, the effluent is collected in a chilled (ice bath) 50-milliliter Erlenmeyer flask, and 0.1 milliliter is instilled into each test eye of group I (five animals). Group II (three animals) is subjected to a 1-second spray at a distance of 4 inches. The animal's eyelids are held apart manually during the spray period.

[5] Group I (five animals) is exposed to the test substance for 5 minutes and then washed. Group II (three animals) is exposed to the test substance for 24 hours and then examined before washing. The reason for the two different exposure periods is to identify severe eye irritants. After the first 24-hour reading, the 24-hour exposure group is also washed for 2 minutes with 300 milliliters of water.

[6] Eyes should be washed with a gentle, continuous stream of water so regulated as to deliver a volume of 300 milliliters in 2 minutes.

[7] At the above-indicated times, after grading eye reaction, one drop of fluorescein sodium ophthalmic solution U.S.P. or equivalent is instilled directly onto the cornea of the group I and group II eyes. After a few seconds the excess stain is flushed out with 20 milliliters of sodium chloride solution U.S.P. or water and the eyes reexamined.

[8] The 14-day reading is required when ulceration or opacity is present at 7 days, and the 21-day reading is required when ulceration or opacity is present at 14 days.

(c) *Grading ocular reactions.* The eyes are examined at the times indicated in the table in paragraph (b) of this section. Reading of reactions is facilitated by use of binocular loupe hand slit-lamp, or other expert means. At certain times indicated in said table by use of the superscript numeral "7," fluorescein staining is used after grading ocular reactions. Injured tissues are stained yellow and are best visualized in a darkened room under ultraviolet illumination. Flourescein staining is useful primarily for accurately delineating areas of involvement and in determining when full recovery has occurred. Grades are assigned for presence and/or degree of ulceration or opacity of the cornea and iris and for redness, chemosis, and ulceration or necrosis of the conjunctival mucosa, as outlined in the following table:

GRADES FOR OCULAR REACTIONS

	Grade
CORNEA	
No ulceration or opacity	0
Scattered or diffuse areas of opacity, details of iris clearly visible	[1] 1
Easily discernible translucent areas of opacity, details of iris slightly obscured	[1] [2] 2
Nacreous areas of opacity, no details of iris visible, size of pupil barely discernible	[1] [2] 3
Complete corneal opacity, iris not discernible	[1] [2] 4
Ulceration, absence of a gross patch of corneal epithelium	[2] 4
IRIS	
Normal	0
Markedly deepened folds, congestion, swelling, moderate circumcorneal injection (any of these or combination of any thereof), iris still reacting to light (sluggish reaction is positive)	[1] 1
No reaction to light, hemorrhage, gross destruction (any or all of these)	[1] 2
CONJUNCTIVAE	
Redness (refers to palpebral and bulbar conjunctivae excluding cornea and iris):	
Vessels normal	0
Some vessels definitely injected	1
Diffuse, crimson red, individual vessels not easily discernible	[1] 2
Diffuse beefy red	[1] 3
Chemosis:	
No swelling	0
Any swelling above normal (includes nictitating membrane)	1
Obvious swelling with partial eversion of lids	[1] 2
Swelling with lids about half closed	[1] 3
Swelling with lids more than half closed	[1] 4
Ulceration or necrosis of palpebral and bulbar conjunctivae or nictitating membrane	[2] 4

[1] Grades considered positive for irritation.

[2] Grades considered positive for corrosiveness. In addition, grade 1 opacity evident for any 6 or more days will also be considered as corrosive.

(d) *Description of positive reactions as to irritancy.* An animal shall be considered as exhibiting a positive irritant reaction if the test substance produces at any of the required readings (other than the 1-hour reading) ulceration of the cornea (other than a fine stippling), or opacity of the cornea (other than a slight dulling of the normal luster), or inflammation of the iris (other than a slight deepening of the folds (or rugae) or a slight circumcorneal injection of the blood vessels), or if such substance produces in the conjunctivae (excluding the cornea and iris) an obvious swelling with partial eversion of the lids or a diffuse crimson redness with individual vessels not easily discernible.

(e) *Determination of positive and negative test results as to irritancy.* For the purposes of this test, grading ocular reactions at 1 hour postinstillation or postwash is intended only to establish the immediate effects of the test material and provide a reference point for evaluating the effects of treatment (washing) or lack thereof on the test eye. The following outlines the method for determining whether the overall test is negative or positive for irritancy:

GROUP I (5-MINUTE EXPOSURE)

FIRST TEST

Positive irritant reaction exhibited in 0/5 or 1/5 animals=negative test, irritancy.
Positive irritant reaction exhibited in 3/5 or more animals=positive test, irritancy.
Positive irritant reaction exhibited in 2/5 animals=positive test, irritancy, unless repeated (optional) in a second group of 5 animals not previously used for such tests.

SECOND TEST (IF PERFORMED)

Positive irritant reaction exhibited in 0/5 animals=negative test, irritancy.
Positive irritant reaction exhibited in 2/5 or more animals=positive test, irritancy.
Positive irritant reaction exhibited in 1/5 animals=positive test, irritancy, unless repeated (optional) in a third group of 5 animals not previously used for such tests.

THIRD TEST (IF PERFORMED)

Positive irritant reaction exhibited in 0/5 animals=negative test, irritancy.
Positive irritant reaction exhibited in 1/5 or more animals=positive test, irritancy.

GROUP II (24-HOUR EXPOSURE)

FIRST TEST

Positive irritant reaction exhibited in 0/3 animals=negative test, irritancy.
Positive irritant reaction exhibited in 2/3 or all 3 animals=positive test, irritancy.
Positive irritant reaction exhibited in 1/3 animals=positive test, irritancy, unless repeated (optional) in a second group of 3 animals not previously used for such tests.

SECOND TEST (IF PERFORMED)

Positive irritant reaction in 0/3 animals=negative test, irritancy.
Positive irritant reaction in 1/3 or more animals=positive test, irritancy.

(f) *Description of positive reactions as to corrosiveness.* An animal shall be considered as exhibiting a positive corrosive reaction if the test substance produces at any of the required readings (other than the 1-hour reading) ulceration of the cornea (other than a fine stippling), or opacity grade 1 from the 24-hour through the 7-day reading, opacity grade 2 or higher, or if there is obvious ulceration or necrosis of the conjunctivae.

(g) *Definition of positive and negative test results as to corrosiveness.* The sequential procedure is identical to that in paragraph (e) of this section, substituting the word "corrosive" for the word "irritant," and the word "corrosiveness" for the word "irritancy," wherever it is appropriate.

(h) *Categorization of results.* The following tabulation is presented to aid in evaluating the overall test as to potential for eye injury:

Category	Ocular reaction	Group I (5-minute exposure) [1]	Group II (24-hour exposure) [1]
1. Negative	No opacity, iritis, or conjunctivitis.	Negative at 1-7 days	Negative at 1-7 days.
2. Marginal	Generally redness or chemosis, grade 1 on group I eyes. [2]	...do	Positive at 24 hours; eyes returned to normal at 48 hours.
3. Irritant	Primarily conjunctivitis—redness and chemosis, scores of grade 2 and above.	Positive at 24 hours; eyes returned to normal at 72 hours.	Positive at 24 hours; eyes returned to normal at 72 hours.
4. Strongly irritant.	Iritis and conjunctivitis.	Positive at 24 hours; all eyes are below a positive score or returned to normal at 72 hours.	Positive at 24 hours; eyes returned to normal at 7th day.
5. Extremely irritant and/or corrosive.	...do	Positive at 24 hours; one or more eyes still positive at 72 hours.	Positive at 24 hours; one or more eyes still positive at 7th day.
	Opacity [3] and/or ulceration. [3]	Positive	Positive.

[1] The terms "positive" and "negative" as used in this table refer to positive or negative test results determined as described in paragraph (e) or (g) of this section.

[2] The score should not exceed grade 1 on more than one of the group I eyes.

[3] Corrosiveness, as defined in paragraph (f) of this section.

(i) *Illustrated grading guide.* To assist testing laboratories and other interested persons in interpreting the results obtained when a substance is tested in accordance with the method described in this section, an "Illustrated Guide for Grading Eye Irritation by Hazardous Substances" is sold by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The guide includes color plates depicting responses of varying intensity to specific test solutions. (The grade of response and the substance used to produce the response are indicated.)

Interested persons may, within 60 days after publication hereof in the FEDERAL REGISTER, file with the Hearing Clerk, Department of Health, Education, and Welfare, Room 6-88, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: April 20, 1972.

CHARLES C. EDWARDS,
Commissioner of Food and Drugs.

[FR Doc.72-6339 Filed 4-27-72;8:45 am]

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 110]

[CGD 72-78 PH]

SAN FRANCISCO BAY, SAN PABLO BAY, CARQUINEZ STRAIT, SUISUN BAY, SAN JOAQUIN RIVER, AND CONNECTING WATERS, CALIF.

Anchorage Grounds

The Coast Guard is considering amending the anchorage regulations of

V 37-83 APR 28 72 XUM

San Francisco Bay and connecting waters presently described in 33 CFR 110.224.

The volume and nature of maritime traffic utilizing these waters has undergone substantial changes over the past century, and most significantly in the past 20 years. One of the most notable changes has been in the ratio of vessels at anchor to vessels underway at any given moment. Commercial vessels no longer lay at anchor for days or weeks at a time. The economics of the modern merchant marine dictate that in-port time be kept to an absolute minimum. At the same time, the number and size of vessels calling at the port has increased. It appears that the existing anchorage grounds occupy a disproportionate share of the available deep water.

The proposed amendments to the anchorage regulations were developed with the advice of the San Francisco Bay Vessel System Committee, a maritime oriented group representing all facets of commercial and recreational marine interests and various Federal agencies. The proposed anchorage grounds are consistent with and a necessary prerequisite to a voluntary system of vessel traffic routing which will be implemented in the near future to evaluate its potential in increasing maritime safety. The proposed anchorage grounds and traffic route will be marked with buoys at appropriate boundaries.

The establishment of a Voluntary Traffic Separation System in San Francisco Bay and San Pablo Bay is not a subject of this notice of proposed rule making. However, that plan bears an important relationship to the proposed changes to the anchorage regulations contained in this proposal.

In order to acquaint all concerned regarding the future plans for a Voluntary Traffic Separation System the following information is provided:

(1) The variety of types, purposes and destinations of maritime traffic in this area has resulted in a proliferation of routes through the bay, each is responsive to the requirements of a particular user or interest, but is often incompatible with other routes. As a result, meeting and crossing situations, the most frequently encountered element in marine collisions and near misses, occur frequently in all parts of the bay. Reducing the frequency of meetings and crossings, or even increasing their predictability restricting them to specific geographic areas, should effect a corresponding reduction of accidents or near accidents.

(2) In buoyed channels or narrow rivers, the application of the "Keep to Starboard" provisions of the Rules of the Road serves to separate traffic proceeding in opposite directions effectively, and there is little or no cross traffic to be concerned with. In open areas such as San Francisco Bay, there is no natural separation so a traffic separation system consisting of lanes designated on charts and by buoys and traffic directions designated on charts is proposed.

(3) Although the principal benefits will accrue to larger vessels, the system and its benefits will be applicable in varying degrees to all users of the bay. Vessels 300 tons and over would operate within the prescribed lanes and in accordance with the prescribed traffic flow. Vessels less than 300 tons would follow the prescribed traffic flow when within the prescribed lanes, but could operate outside the prescribed lanes. Special procedures for those vessels that cannot comply with the prescribed traffic flow would be part of the Voluntary Traffic Separation System. Small, noncommercial vessels might find it impractical to comply with either the prescribed traffic flow or special procedures at all times, but would benefit by the knowledge of the established flow and therefore be able more readily to determine the intentions of vessels using the system.

(4) No vessel using the system would be relieved from complying with the rules of the road. Participation in the planned traffic separation system would be voluntary.

Additional details on the implementation and operation of the Voluntary Traffic Separation System can be obtained from the Commander, Twelfth Coast Guard District (Vessel Traffic Systems), 630 Sansome Street, San Francisco, Calif. 94126.

In order to accomplish the above, it is proposed to make the following changes:

1. Delete portions of § 110.224(a)(2) *Anchorage 4 (general)*, (a)(5) *Anchorage 7 (temporary)*, and (b)(2) *Anchorage 19 (general)*.

2. Delete entire § 110.224(a)(6) *Anchorage 8 (general)* and (a)(9) *Anchorage 12 (naval)*.

3. Relocate (a)(3) *Anchorage 5 (general)*.

4. Redefine boundaries of (a)(5) *Anchorage 7 (temporary)* and (a)(6) *Anchorage 8 (temporary)*.

5. Redefine boundaries of (a)(7) *Anchorage 9 (general)*.

6. Redefine boundaries of (a)(9) *Anchorage 12 (naval)*.

7. Establish a new (a)(9) *Anchorage 12 (explosives anchorage)*.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander, Twelfth Coast Guard District, 630 Sansome Street, San Francisco, CA 94126. Each person submitting comments should include his name and address, identify this notice (CGD 72–78 PH), and give reasons for any recommended change in the proposal. Copies of all written comments received will be available for examination by interested persons at the office of the Commander, Twelfth Coast Guard District.

The Commander, Twelfth Coast Guard District will hold a Public Hearing on this proposal at 10 a.m., P.d.s.t., Wednesday, May 24, 1972, at the Presidio Theater, Moraga Avenue, The Presidio of San Francisco, CA, to consider amendments to the Anchorage Regulations. All interested persons are invited to be present or to be represented at this Public Hearing, especially officials of any county, town, city, or local association whose interests may be affected by the proposed regulations. All persons will be given opportunity to express their views as to the suitability of the proposed regulations and to suggest any changes that may be considered desirable. Oral statements will be heard, but for completeness and accuracy of the record, all facts and arguments should be presented in writing at the hearing.

The Commander, Twelfth Coast Guard District will forward any comments received before May 27, 1972, and his recommendations to the Commandant (CMC), U.S. Coast Guard, who will evaluate all comments and communications received and take final action on the proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that § 110.224 be revised to read as follows:

§ 110.224 San Francisco Bay, San Pablo Bay, Carquinez Straits, Suisun Bay, San Joaquin River, and connecting waters, Calif.

(a) *San Francisco Bay Anchorage Grounds*—(1) *Anchorage No. 3, general anchorage.* That portion of Belvedere Cove bounded by the shore and a line beginning at latitude 37°52'20", longitude 122°27'02"; thence southwest to latitude 37°51'43" and longitude 122°27'25".

(2) *Anchorage No. 4, General Anchorage.* (i) Bounded by the westerly shore of San Francisco Bay and the following lines: Beginning on the shore south of Point San Quentin at latitude 37°56'15", longitude 122°29'14"; thence east to latitude 37°56'19", longitude 122°28'00"; thence southeast to latitude 37°54'58", longitude 122°27'08"; thence southwest to latitude 37°54'13", longitude 122°27'24"; thence southeast to the shore of Tiburon Peninsula at Point Chauncey at latitude 37°53'40.5", longitude 122°26'55", excluding Explosives Anchorage 13 and the forbidden anchorage surrounding it.

(ii) Special regulation: No vessel anchored in this anchorage may project into the San Francisco Bay North Channel.

(3) *Anchorage No. 5, General Anchorage.* (i) In San Francisco Bay beginning on the northwest shore of Red Rock at latitude 37°55'48", longitude 122°25'52"; thence west to San Francisco Bay North Channel Lighted Buoy 10 at latitude 37°55'43", longitude 122°26'33"; thence south to San Francisco Bay North Channel Lighted Buoy 8 at latitude 37°54'49", longitude 122°26'39"; thence southeast to latitude 37°53'23", longitude 122°25'09"; thence north to Southampton Shoal Channel Lighted Buoy 5SS at latitude 37°55'19", longitude 122°25'29.5"; thence to the southeast shore of Red Rock at latitude 37°55'42", longitude 122°25'45".

(ii) Special regulation: No vessel anchored in this anchorage may project into the San Francisco Bay North Channel or the Southampton Shoal Channel.

(4) *Anchorage No. 6, General Anchorage.* Bounded by the easterly shore of San Francisco Bay and the following lines beginning at the shore of the southernmost extremity of Point Isabel at latitude 37°53'46", longitude 122°19'19"; thence westerly along the northerly shore of Brooks Island to the jetty extending westerly therefrom; thence westerly along the jetty to its bayward end at latitude 37°54'13", longitude 122°23'27"; thence south-southeast to latitude 37°49'53", longitude 122°21'39"; thence southeast to latitude 37°49'32.5", longitude 122°21'20.5"; thence east to latitude 37°49'34", longitude 122°20'13"; thence east-southeast to latitude 37°49'30", longitude 122°19'45.5"; thence east-northeast to the shore at Emeryville at latitude 37°50'04", longitude 122°17'41"; excluding from this area, however, the Channel to Berkeley Marina delineated by lines joining the following points:

Latitude	*Longitude*
37°52'08"	122°19'07"
37°52'03"	122°19'17.5"
37°52'00"	122°19'15.5"
37°51'01"	122°22'07"
37°50'43"	122°22'00"
37°50'53"	122°21'32"
37°51'47"	122°18'59"

(5) *Anchorage No. 7, Temporary Anchorage.* (i) In San Francisco Bay bounded by the westerly shore of Treasure Island and the following lines: Beginning at the most westerly shore of Treasure Island at latitude 37°49'36", longitude 122°22'40"; thence to latitude 37°50'00", longitude 122°23'26"; thence south to San Francisco Bay South Channel Lighted Buoy 1 at latitude 37°49'-23.5", longitude 122°23'25"; thence southeast to latitude 37°48'42", longitude 122°22'34"; thence to the shore of Treasure Island at latitude 37°48'52", longitude 122°22'14".

(ii) Special regulation: (*a*) No vessel anchored in this anchorage may project into the San Francisco Bay South Channel.

(*b*) This anchorage is primarily for the use of vessels undergoing examination by quarantine, customs, immigration, Coast Guard, and other governmental authorities. Upon completion of these examinations, vessels shall move promptly to a regular anchorage. This anchorage may also be utilized by vessels requiring a temporary anchorage waiting to proceed to pier facilities.

(*c*) Vessels utilizing this anchorage shall not remain for more than 12 hours without a written permit from the Captain of the Port. Should traffic volume warrant, the Captain of the Port may assign specific berths within this anchorage. These berths are circular areas having a radius of 300 yards, the centers of which are located at:

Berth	Latitude	Longitude
7A	37°49'43"	122°23'14"
7B	37°49'25.5"	122°23'12.5"
7C	37°49'12.5"	122°22'55.5"
7D	37°49'00"	122°22'41"

(*d*) The master of every vessel using this anchorage shall maintain his vessel in such condition that the vessel can move promptly upon notification by the Captain of the Port.

(6) *Anchorage No. 8, Temporary Anchorage.* (i) In San Francisco Bay bounded by the westerly shore of the Naval Air Station, Alameda and the following lines: Beginning at Oakland Inner Harbor Light 2 at latitude 37°47'52", longitude 122°19'54"; thence west northwest to latitude 37°48'03", longitude 122°20'57.5"; thence south southwest to latitude 37°47'56", longitude 122°21'-22.5"; thence southwest to latitude 37°-47'26", longitude 122°21'41"; thence south southeast to San Francisco Bay South Channel Lighted Buoy 3 at latitude 37°47'00", longitude 122°21'30"; thence southeast to the Alameda Naval Air Station Channel Entrance Lighted Bell Buoy 1 at latitude 37°46'38", longitude 122°20'24"; thence northeast to the most westerly shore of Alameda Naval Air Station at latitude 37°46'57", longitude 122°19'53".

(ii) Special regulation: This anchorage is primarily for use as a temporary holding ground for vessels waiting to proceed to pier facilities in the Oakland Harbors. No vessel shall remain in this anchorage for more than 6 hours without written permission from the Captain of the Port. No vessel anchored in this anchorage may project into the San Francisco Bay South Channel.

(7) *Anchorage No. 9, general anchorage.* (i) In San Francisco Bay bounded on the north by the shore, the breakwater and turning basin at the Alameda Naval Air Station and a line beginning at the Alameda Naval Air Station Channel Lighted Buoy 6 at latitude 37°46'23", longitude 122°19'02"; thence west to the Alameda Naval Air Station Channel Entrance Lighted Buoy 2 at latitude 37°46'27", longitude 122°20'24.5"; thence west southwest to San Francisco Bay South Channel Lighted Buoy 5 at latitude 37°46'17.5", longitude 122°21'-48"; thence south southeast to San Bruno Shoal Channel Light 1 at latitude 37°41'44", longitude 122°20'17.5"; thence south southeast to San Bruno Shoal Channel Light 5 at latitude 37°-38'37", longitude 122°18'43"; thence southeast to latitude 37°36'05", longitude 122°14'13.5"; thence east northeast to the shore at latitude 37°37'38.5", longitude 122°09'02"; and bounded on the east by the shore; including all of San Leandro Bay excluding the pipeline areas therein. When Explosives Anchorage 12 is activated by the Captain of the Port, this anchorage and the forbidden anchorage zone surrounding it are excluded from Anchorage No. 9, general anchorage.

(ii) Special regulation: No vessel anchored in this anchorage may project into San Francisco Bay South Channel on into San Bruno Shoal Channel.

(8) *Anchorage No. 10, naval anchorage.* (i) In San Francisco Bay bounded by the easterly shore of Sausalito and the following lines: Beginning on the shore of Sausalito at latitude 37°51'20", longitude 122°28'38"; thence southeast to latitude 37°50'52.5", longitude 122°-27'57"; thence southwest to the shore of Sausalito at latitude 37°50'36", longitude 122°28'34".

(ii) Special regulation: This anchorage is for the use of public vessels of the United States, but may be used by yachts when not required for use by public vessels. All yachts making use of this anchorage shall be prepared to move immediately upon notice should the anchorage be required for public vessels. With the permission of the Captain of the Port, permanent yacht moorings may be placed within this anchorage, not more than 300 yards from the shore.

(9) *Anchorage No. 12, explosives anchorage.* (i) In San Francisco Bay east of the city of San Francisco a circular area having a radius of 500 yards centered at latitude 37°44'32.5", longitude 122°20'27.5".

(ii) Special regulation. (*a*) No vessel may use this anchorage except the vessel that is loaded with, loading or unloading explosives and lighters and barges lying alongside that vessel for transfer of cargo.

(*b*) This anchorage and the surrounding forbidden anchorage zone are temporarily activated as needed, by the Captain of the Port. When this anchorage is not activated it is a part of Anchorage No. 9, general anchorage. Notification of activation and deactivation will be disseminated by the U.S. Coast Guard in "Local Notice to Mariners", and by direct notice to the various pilot and shipping organizations.

(*c*) The maximum total quantity of explosives that may be on board a vessel moored in this anchorage shall be limited to 3,000 tons.

(*d*) The 667-yard-wide area surrounding this anchorage is a forbidden anchorage zone. No vessel may anchor in this forbidden zone while this anchorage is activated.

(10) *Anchorage No. 13, explosives anchorage.* (i) In San Francisco Bay east of the Tiburon Peninsula a circular area having a radius of 333 yards centered at the Explosives Anchorage 13 Buoy EX at latitude 37°55'26", longitude 122°27'-27".

(ii) Special regulation: (*a*) No vessel may use this anchorage except the vessel that is loaded with, loading, or unloading explosives and lighters and barges lying alongside that vessel for transfer of cargo.

(*b*) The maximum total quantity of explosives that may be on board a vessel moored in this anchorage shall be limited to 50 tons; except that, with the permission of the Captain of the Port, vessels in transit, loaded with explosives in excess of this limitation, may anchor temporarily in this anchorage provided the hatches to the holds containing explosives are not opened.

(*c*) The 667-yard-wide zone partially surrounding this anchorage is a forbidden anchorage zone. No vessel may anchor in this forbidden zone while this anchorage is activated.

(11) *Anchorage No. 14, explosives anchorage.* (i) In San Francisco Bay east of Hunters Point an area 1,000 yards wide and 2,760 yards long, the end boundaries of which are semicircles with radii of 500 yards and center, respectively

V 37-183 APR 28 72 XUM

at latitude 37°42'52", longitude 122°19'32.5", and latitude 37°42'14", longitude 122°18'47"; and the side boundaries of which are parallel tangents joining said semicircles. This anchorage is marked at each extremity, respectively, by Explosives Anchorage 14 Lighted Buoy EX–A and Explosives Anchorage 14 Buoy EX–B.

(ii) *Special regulation.* (*a*) No vessel may use this anchorage except vessels loaded with, loading, or unloading explosives and lighters and barges lying alongside vessels for transfer of cargo.

(*b*) The maximum total quantity of explosives that may be on board a vessel moored in this anchorage shall be limited to 3,000 tons. Vessels will be assigned berths in this anchorage by the Captain of the Port on the basis of the maximum quantity of explosives that will be on board the vessel.

(*c*) The 667-yard-wide area surrounding this anchorage is a forbidden anchorage zone. No vessel may anchor in this forbidden zone while this anchorage is activated.

(*d*) This anchorage and the surrounding forbidden anchorage zone may be temporarily discontinued by the Captain of the Port when the area is required for general anchorage purposes.

(b) *San Pablo Bay Anchorage Grounds*—(1) *Anchorage No. 18, general anchorage.* In San Pablo Bay bounded by the westerly shore of San Pablo Bay and the following lines: Beginning at the shore at Point San Pedro at latitude 37°59'16", longitude 122°26'47"; thence east to latitude 37°59'16", longitude 122°26'26"; thence northerly to latitude 38°03'46", longitude 122°25'52.5"; thence northwesterly to the shore south of the entrance to Novato Creek at latitude 38°05'13.5", longitude 122°29'04"; excluding from this area, however, the channel to Hamilton Field and the extension of this channel easterly to the boundary of the anchorage, and the pipeline area therein.

(2) *Anchorage No. 19, general anchorage.* In San Pablo Bay bounded by the northeasterly shore of San Pablo Bay and the following lines: Beginning at the shore of Tubbs Island at latitude 38°07'39", longitude 122°25'18"; thence southerly to latitude 38°00'36", longitude 122°25'20"; thence northeasterly to latitude 38°03'13", longitude 122°19'46"; thence east-northeasterly to latitude 38°03'37", longiture 122°17'13"; thence northerly to the long dike extending southwesterly from Mare Island at latitude 38°03'52.5", longitude 122°17'10"; thence along the long dike to the shore at Mare Island. Vessels anchored in this anchorage shall insure that they do not project into the Pinole Shoal Channel.

NOTE: See § 204.215 of this title establishing a target area in San Pablo Bay adjacent to the westerly shore of Mare Island for use of the Mare Island Navy Yard.

(3) *Anchorage No. 20, general anchorage.* In San Pablo Bay bounded by the southeasterly shore of San Pablo Bay and the following lines: Beginning at the northeast corner of Parr Terminal No. 4 at Point San Pablo at latitude 37°57'59", longitude 122°25'35"; thence northeast to latitude 38°01'27.5", longitude 122°21'33"; thence east-northeast to the Union Oil Co. Pier at Oleum at latitude 38°03'18", longitude 122°15'37"; and thence along this pier to the shore.

(4) *Anchorage No. 21, naval anchorage.* In San Pablo Bay south of Mare Island a rectangular area beginning at latitude 38°03'53", longitude 122°15'36"; thence easterly to latitude 38°03'58", longitude 122°15'00"; thence southerly to latitude 38°03'44", longitude 122°14'56"; thence westerly to latitude 38°03'39", longitude 122°15'32.5"; thence northerly to the point of beginning.

(c) *Carquinez Strait Anchorage Grounds*—(1) *Anchorage No. 24, general anchorage.* (i) Bounded by the northerly shore of Carquinez Strait and the following lines: Beginning on the shore at Dillon Point at latitude 38°03'44", longitude 122°11'29"; thence southeast to latitude 38°03'34", longitude 122°11'10"; thence south-southeast to latitude 38°03'17", longitude 122°11'04"; thence southeast to the shore of Benicia at latitude 38°02'37.5" longitude 122°09'55".

(ii) Special regulation: Each vessel anchoring in this anchorage shall promptly notify the Captain of the Port, upon anchoring and upon departure.

(2) *Anchorage No. 25, general anchorage.* (i) Bounded by the south shore of Carquinez Strait and the following lines: Beginning on the shore at Point Carquinez at latitude 38°02'09", longitude 122°10'22"; thence east southeast to latitude 38°01'47", longitude 122°08'57"; thence southeast to the shore of Martinez at latitude 38°01'20", longitude 122°08'42".

(ii) Special regulation: Each vessel anchoring in this anchorage shall promptly notify the Captain of the Port, upon anchoring and upon departure.

(d) *Suisun Bay Anchorage Grounds*—(1) *Anchorage No. 26, general anchorage.* On the west side of Suisun Bay, adjacent to and northeast of the City of Benicia within the following boundaries: Beginning on the shore northeast of Army Point at latitude 38°02'54", longitude 122°07'37"; thence south-southeast along the Southern Pacific Bridge to latitude 38°02'38", longitude 122°07'24"; thence east to latitude 38°02'42", longitude 122°07'07.5"; thence northeast to Suisun Bay Anchorage 26 Lighted Buoy B at latitude 38°05'42", longitude 122°04'06"; thence northwest to the shore at latitude 38°05'58", longitude 122°04'28"; thence along the shore to the point of beginning.

NOTE: A portion of Anchorage 26 is occupied by the Suisun Bay Reserve Fleet of the Maritime Administration and § 207.900 of this title establishes a restricted area in the vicinity of the Reserve Fleet.

(2) *Anchorage No. 27, general anchorage.* In the northeast portion of Suisun Bay bounded by the northern shore and the following lines: Beginning on the shore of Crizzly Island at latitude 38°08'13", longitude 122°02'42.5"; thence south to tripod at Preston Point on Roe Island at latitude 38°04'16", longitude 122°02'42"; thence along the south shore of Roe Island to latitude 38°04'05", longitude 122°01'35"; thence east-southeast to latitude 38°03'42.5", longitude 121°58'54"; thence east to the shore of Chipps Island at latitude 38°03'42.5", longitude 121°55'05".

(e) *San Joaquin River Anchorage Grounds*—(1) *Anchorage No. 28, general anchorage.* The area bounded on the east by the shore of Lower Sherman Island and the following lines: Beginning at Point Sacramento on Lower Sherman Island at latitude 38°03'45", longitude 121°50'17.5"; thence southwest to latitude 38°03'37.5", longitude 121°50'31"; thence south southeast to latitude 38°02'11", longitude 121°49'58"; thence to the shore of Lower Sherman Island at latitude 38°02'23", longitude 121°49'49".

(2) *Anchorage No. 30, explosives anchorage.* (i) The portion of the Old San Joaquin River Channel bounded on the west by the shore of Mandeville Point and the following lines: Beginning on the shore of Mandeville Point at latitude 38°04'01", longitude 121°32'05"; thence northeast to latitude 38°04'07.5", longitude 121°31'58"; thence southeast to latitude 38°04'02.5", longitude 121°31'42.5"; thence west to the shore of Mandeville Point at latitude 38°03'47.5", longitude 121°31'56".

(ii) Special regulation: (*a*) This anchorage is for the use of vessels, lighters, and barges loaded with, loading, or unloading explosives or explosives materials.

(*b*) No other vessel may enter or remain in this anchorage when the anchorage is occupied by vessels loaded with explosives. At all other times the anchorage is open to navigation.

(c) Notice of loading and unloading operations will be given by notice published by the United States Coast Guard in "Local Notice to Mariners", and by notice given by the Port of Stockton to local radio stations and newspapers, and by telephonic means to any organization that may request that such advice be given. In all cases the notice will state how long the operation will be in progress and on what days.

(f) *Sacramento River, Decker Island Restricted Anchorage Grounds for Vessels of the U.S. Government*—(1) *The anchorage ground.* An elongated area in the Sacramento River bounded on the west by the shore of Decker Island and the following lines: Beginning on the shore at Decker Island North End Light at latitude 38°06'16", longitude 121°42'32.5"; thence east to latitude 38°06'15", longitude 121°42'27"; thence south to latitude 38°05'22", longitude 121°42'30"; thence southwest to latitude 38°05'08", longitude 121°42'40"; thence west southwest to latitude 38°05'02", longitude 121°42'50"; thence northwest to the shore of Decker Island at latitude 38°05'04", longitude 121°42'52.5".

(2) *Special regulation.* No vessel or other craft except those owned by or operating under contract with the United States may navigate or anchor within 50 feet of any moored Government vessel in the area. Commercial and pleasure craft shall not moor to buoys or chains of Government vessels, nor may they, while moored or underway, unreasonably obstruct the passage of Government or other vessels through the area.

(g) *General regulations.* The following regulations apply to each anchorage described in this section:

(1) No vessel may anchor in the navigable waters of San Francisco Bay, San Pablo Bay, Carquinez Strait, Suisun Bay, New York Slough, San Joaquin River Deep Water Channel, and the Stockton Turning Basin, Calif., outside of the anchorage areas established in this section except when unforseen circumstances create conditions of imminent peril or with the written permission of the Captain of the Port. Each vessel anchoring in imminent peril or heavy fog shall immediately inform the Captain of the Port of her position and reason for anchoring.

(2) No vessel may anchor within a tunnel, cable, or pipeline area shown on a Government chart.

(3) No vessel may moor, anchor, or tieup to any pier, wharf, or other vessel in such a manner as to extend into a channel.

(4) No vessel in such a condition that it is likely to sink or otherwise become a menace or obstruction to navigation or anchorage of other vessels may occupy an anchorage, except when unforeseen circumstances create conditions of imminent peril to personnel and then only for such period as may be authorized by the Captain of the Port.

(5) The Captain of the Port may require any vessel in a designated anchorage area to moor with two or more anchors.

(6) Each vessel that will not have sufficient personnel on board to weigh anchor at any time shall anchor with two anchors with mooring swivel, unless otherwise authorized by the Captain of the Port.

(7) Light-draft barges shall anchor away from the deeper portions of the anchorage, so as not to interfere with the anchoring of deep draft vessels.

(8) Barges towed in tandem to any anchorage area shall nest together when anchoring.

(9) Each vessel that is notified by the Captain of the Port or his authorized representative to shift her position shall promptly shift her position.

(10) No person may use these anchorages for any purpose other than the purposes stated in the special anchorage regulations.

(11) Nothing in this section may be construed as relieving any vessel or the owner or person in charge of any vessel from the penalties of law for obstructing navigation or for obstructing or interfering with range lights or for not complying with the laws relating to lights, day signals, and fog signals, and other navigation laws and regulations.

(12) Explosive anchorages:

(i) Unless otherwise authorized by the Captain of the Port, no vessel other than a vessel carrying explosives may anchor in an explosives anchorage.

(ii) Each vessel carrying explosives shall be entirely within one of these areas when anchored, except as provided by subdivision (X) of this subparagraph.

(iii) No vessel may transport explosives to be loaded on, or that have been unloaded from, another vessel in an explosives anchorage area unless she carries written permission from the Captain of the Port.

(iv) No vessel carrying explosives or on which explosives are to be loaded may proceed to an explosives anchorage or occupy a berth in an explosives anchorage without written permission from the Captain of the Port, which may be revoked at any time.

(v) The Captain of the Port may issue permission to vessels carrying flammable liquids, flammable solids, oxidizing materials, corrosive liquids, compressed gases, and poisonous substances to occupy a berth in an explosives anchorage. Such a permit must be obtained before entering the anchorage and may be revoked at any time.

(vi) The Captain of the Port may require any person having business on board a vessel which is laden or being on-loaded or off-loaded with explosives to have a document that is acceptable to the Coast Guard for identification purposes and to show that document to the Captain of the Port.

(vii) The Captain of the Port may require a nonself-propelled vessel, or a self-propelled vessel that is unable to maneuver under its own power, that occupies an explosives anchorage to be attended by a tug.

(viii) Each vessel loading, unloading, or laden with explosives, while within an explosives anchorage, shall display at her masthead, or at least 10 feet above the upper deck if the vessel has no masthead, a red flag 16 square feet or more.

(ix) When a vessel is conducting loading operations from barges at any explosives anchorage and is displaying a red flag by day, passing vessels shall reduce speed so as to insure that their wake does not interfere with cargo transfer operations.

(x) The District Engineer, Corps of Engineers, may issue written permission for anchoring a single barge carrying explosives in quantities considered by him as safe and necessary in the vicinity of work being done directly under his supervision or under a Department of the Army permit. When the District Engineer issues such permission, he shall prescribe the conditions under which the explosive must be stored and handled and shall furnish a copy of the permit and a copy of the rules and regulations for storing and handling to the Captain of the Port.

(13) No vessel other than a vessel under Federal supervision may go alongside or in any manner moor to any Government-owned vessel, mooring buoy, or pontoon, boom, their anchor cables, or any of their appendages. No vessel other than a vessel under Federal supervision may obstruct or interfere in any manner with the mooring, unmooring, or servicing of vessels owned by the United States.

(14) Each vessel anchoring in the San Joaquin River Deep Water Channel or the Stockton Turning Basin because of imminent peril or heavy fog shall be positioned as near the edge of the channel or turning basin as possible so as not to interfere with navigation, or obstruct the approach to any pier, wharf, slip, or boat harbor and shall move as soon as the imminent peril or heavy fog ceases or when notified to move by the Captain of the Port.

(15) No vessel may permanently moor in areas adjacent to the San Joaquin River Deep Water Channel except with the written permission of the Captain of the Port.

These proposals are made under the authority of section 7, 38 Stat. 1053, as amended (33 U.S.C. 471), section 6(g)(1)(A), 80 Stat. 937 (49 U.S.C. 1655(g)(1)(A)); 49 CFR 1.46 (c)(1), 33 CFR 1.05–1(c)(2) 136 F.R. 19160.

Dated: April 25, 1972.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-WE-18]

CONTROL ZONE

Proposed Establishment

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would establish a temporary control zone at San Luis Obispo, Calif.

Interested persons may participate in the proposed rule making by submittng such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, CA 90045.

The 162d Mobile Communications Group, California Air National Guard

V 37-83 APR 28 72 XUM

will hold a summer encampment at San Luis Obispo County Airport beginning August 20 through September 1, 1972. During this period a temporary air traffic control tower will be manned by FAA certificated Air National Guard personnel. In order to enhance safety and provide for the performance of air traffic control services it is proposed to establish a temporary control zone that will be effective during the hours that the control tower will be in operation.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.171 (37 F.R. 2056) the following control zone is added:

SAN LUIS OBISPO, CALIF.

Within a 3-mile radius of San Luis Obispo County Airport (latitude 35°14'16" N., longitude 120°38'20" W.). This control zone is effective from 0800 to 2000 local time daily August 20 through September 1, 1972.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on April 18, 1972.

ROBERT O. BLANCHARD,
Acting Director, Western Region.

ENVIRONMENTAL PROTECTION AGENCY

[41 CFR Part 15-16]

PROCUREMENT FORMS

Illustration of Forms

Notice is hereby given that the Environmental Protection Agency proposes a new amendment to 41 CFR Ch. 15, by adding new § 15-16.901-2-A, *General provisions*, under Subpart 15-16.9, Illustration of Forms, Part 15-16, Procurement Forms, to read as set forth below.

Interested parties may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Environmental Protection Agency, Contracts Management Division, Washington, D.C. 20460. All communications received within thirty (30) days from the date of piblication of this notice in the FEDERAL REGISTER will be considered prior to adoption of the final regulation. A copy of each communication will be placed on file for public inspection in the Contracts Management Division, Room 3220C, Waterside Mall, Washington, D.C. 20460.

Dated: April 24, 1972.

WILLIAM D. RUCKELSHAUS,
Administrator.

Subpart 15-16.9—Illustration of Forms

§ 15-16.901-2A General provisions.

GENERAL PROVISIONS

FOR USE IN COST-REIMBURSEMENT CONTRACTS WITH PROFIT-MAKING ORGANIZATIONS

1. *Definitions.* As used throughout this contract, the following terms shall have the meanings set forth below:

(a) The term "Contracting Officer" means the person executing this contract on behalf of the Government, and any other officer or civilian employee who is a properly designated Contracting Officer; and the term includes, except as otherwise provided in this contract, the authorized representative of a Contracting Officer acting within the limits of his authority.

(b) Except as otherwise provided in this contract, the term "Subcontracts" includes purchase orders under this contract.

(c) The term "EPA" means the Environmental Protection Agency.

2. *Disputes.* (a) Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish to the Contractor a written copy of his decision. Such decision shall be final and conclusive unless within 30 days from the date of receipt of such copy, the Contractor appeals therefrom by mailing or otherwise furnishing to the Contracting Officer a written appeal addressed to the Administrator, Environmental Protection Agency. The decision of the Administrator or his duly authorized representative upon such appeal shall be final and conclusive unless the decision is determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or is not supported by substantial evidence. In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

(b) This "Disputes" clause does not preclude consideration of law questions in connection with decisions provided for in paragraph (a) above: *Provided*, That nothing in this contract shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

3. *Changes.* The Contracting Officer may at any time, by a written order, and without notice to the sureties, if any, make changes, within the general scope of this contract, in any one or more of the following: (i) Drawings, designs, specifications, or services, (ii) method of shipment or packing, (iii) place of inspection, delivery, or acceptance, and (iv) the amount of Government-furnished property. If any such change causes an increase or decrease in the cost of, or the time required for performance of this contract or otherwise affects any other provisions of this contract, whether changed or not changed by any such order, an equitable adjustment shall be made (1) in the contract price or time of performance, or both, and (ii) in such other provisions of the contract as may be so affected, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within thirty (30) days from the date of receipt by the Contractor of the notification of change; provided, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed;

4. *Termination for default or for convenience of the government.* (a) The performance of work under the contract may be terminated by the Government in accordance with this clause in whole, or from time to time in part;

(1) Whenever the Contractor shall default in performance of this contract in accordance with its terms (including in the term "default" any such failure by the Contractor to make progress in the prosecution of the work hereunder as endangers such performance), and shall fail to cure such default within a period of 10 days (or such longer period as the Contracting Officer may allow) after receipt from the Contracting Officer of a notice specifying the default; or

(2) Whenever for any reason the Contracting Officer shall determine that such termination is in the best interest of the Government.

Any such termination shall be effected by delivery to the Contractor of a notice of termination specifying whether termination is for the default of the Contractor or for the convenience of the Government, the extent to which performance of work under the contract is terminated, and the date upon which such termination becomes effective. If, after notice of termination of this contract for default under (1) above, it is determined for any reason that the Contractor was not in default pursuant to (1), or that the Contractor's failure to perform or to make progress in performance is due to causes beyond the control and without the fault or negligence of the Contractor pursuant to the provisions of the clause of this contract relating to excusable delays, the notice of termination shall be deemed to have been issued under (2) above, and the rights and obligations of the parties hereto shall in such event be governed accordingly.

(b) After receipt of a notice of termination and except as otherwise directed by the Contracting Officer, the Contractor shall:

(1) Stop work under the contract on the date and to the extent specified in the notice of termination;

(2) Place no further orders or subcontracts for materials, services, or facilities, except as may be necessary for completion of such portion of the work under the contract as is not terminated;

(3) Terminate all orders and subcontracts to the extent that they relate to the performance of work terminated by the notice of termination;

(4) Assign to the Government, in the manner and to the extent directed by the Contracting Officer, all of the right, title, and interest of the Contractor under the orders or subcontracts so terminated, in which case the Government shall have the right, in its discretion, to settle or pay any or all claims arising out of the termination of such orders and subcontracts;

(5) With the approval or ratification of the Contracting Officer, to the extent he may require, which approval or ratification shall be final and conclusive for all purposes of this clause, settle all outstanding liabilities and all claims arising out of such termination of orders and subcontracts, the cost of which would be reimbursable in whole or in part, in accordance with the provisions of this contract;

(6) Transfer title to the Government (to the extent that title has not already been transferred) and deliver in the manner, at the times, and to the extent directed by the Contracting Officer, (i) the fabricated or unfabricated parts, work in process, completed work, supplies, and other material produced as a part of, or acquired in respect of the performance of, the work terminated by the Notice of Termination; (ii) the completed or partially completed plans, drawings, information, and other property which, if the contract had been completed, would be required to be furnished to the Government; and (iii) the jigs, dies, and fixtures, and other special tools and tooling acquired or manufactured for the performance of this contract for the cost of which the Contractor has been or will be reimbursed under this contract;

(7) Use his best efforts to sell, in the manner, at the times, to the extent, and at the price or prices directed or authorized by the Contracting Officer, any property of the types referred to in (6) above: *Provided, however*, That the Contractor (i) shall not be required to extend credit to any purchaser, and (ii) may acquire any such property under the conditions prescribed by and at a price or prices approved by the Contracting Officer: *And provided further*, That the proceeds of any such transfer or disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract or shall otherwise be credited to the price or cost of the work covered by this contract or paid in such other manner as the Contracting Officer may direct;

(8) Complete performance of such part of the work as shall not have been terminated by the notice of termination; and

(9) Take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation of the property related to this contract which is in the possession of the Contractor and in which the Government has or may acquire an interest.

The Contractor shall proceed immediately with the performance of the above obligations notwithstanding any delay in determining or adjusting the amount of the fee, or any item of reimbursable cost, under this clause. At any time after expiration of the plant clearance period, as defined in Subpart 1-8.1 of the Federal Procurement Regulations (41 CFR 1-8.1), as the definition may be amended from time to time, the Contractor may submit to the Contracting Officer a list certified as to quantity and quality of any or all items of termination inventory not previously disposed of, exclusive of items the disposition of which has been directed or authorized by the Contracting Officer, and may request the Government to remove such items or enter into a storage agreement covering them. Not later than fifteen (15) days thereafter, the Government will accept such items and remove them or enter into a storage agreement covering the same: *Provided*, That the list submitted shall be subject to verification by the Contracting Officer upon removal of the items or, if the items are stored, within forty-five (45) days from the date of submission of the list, and any necessary adjustment to correct the list as submitted shall be made prior to final settlement.

(c) After receipt of a Notice of Termination the Contractor shall submit to the Contracting Officer his termination claim in the form and with the certification prescribed by the Contracting Officer. Such claim shall be submitted promptly but in no event later than 1 year from the effective date of termination, unless one or more extensions in writing are granted by the Contracting Officer upon request of the Contractor made in writing within such 1-year period or authorized extension thereof. However, if the Contracting Officer determines that the facts justify such action, he may receive and act upon any such termination claim at any time after such 1-year period or any extension thereof. Upon failure of the Contractor to submit his termination claim within the time allowed, the Contracting Officer may, subject to any review required by the contracting agency's procedures in effect as of the date of execution of this contract determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall thereupon pay to the Contractor the amount so determined.

(d) Subject to the provisions of paragraph (e), and subject to any review required by the contracting agency's procedures in effect as of the date of execution of this contract, the Contractor and the Contracting Officer may agree upon the whole or any part of the amount of amounts to be paid (including an allowance for the fee) to the Contractor by reason of the total or partial termination or work pursuant to this clause. The contract shall be amended accordingly, and the Contractor shall be paid the agreed amount.

(e) In the event of the failure of the Contractor and the Contracting Officer to agree in whole or in part, as provided in paragraph (d), as to the amounts with respect to costs and fee, or as to the amount of the fee, to be paid to the Contractor in connection with the termination of work pursuant to this clause, the Contracting Officer shall, subject to any review required by the contracting agency's procedures in effect as of the date of execution of this contract, determine, on the basis of information available to him, the amount, if any, due to the Contractor by reason of the termination and shall pay to the Contractor the amount determined as follows:

(1) If the settlement includes cost and fee—

(i) There shall be included therein all costs and expenses reimbursable in accordance with this contract, not previously paid to the Contractor for the performance of this contract prior to the effective date of the notice of termination, and such of these costs as may continue for a reasonable time thereafter with the approval of or as directed by the Contracting Officer: *Provided, however*, That the Contractor shall proceed as rapidly as practicable to discontinue such costs;

(ii) There shall be included therein so far as not included under (i) above, the cost of settling and paying claims arising out of the termination of work under subcontracts or orders, as provided in paragraph (b)(5) above, which are properly chargeable to the terminated portion of the contract;

(iii) There shall be included therein the reasonable costs of settlement, including accounting, legal, clerical, and other expenses reasonably necessary for the preparation of settlement claims and supporting data with respect to the terminated portion of the contract and for the termination and settlement of subcontracts thereunder, together with reasonable storage, transportation, and other costs incurred in connection with the protection or disposition of termination inventory: *Provided, however*, That if the termination is for default of the Contractor there shall not be included any amounts for the preparation of the Contractor's settlement proposal; and

(iv) There shall be included therein a portion of the fee payable under the contract determined as follows—

(A) In the event of the termination of this contract for the convenience of the Government and not for the default of the Contractor, there shall be paid a percentage of the fee equivalent to the percentage of the completion of work contemplated by the contract, less fee payments previously made hereunder; or

(B) In the event of the termination of this contract for the default of the Contractor, the total fee payable shall be such proportionate part of the fee (or, if this contract calls for articles of different types, of such part of the fee as is reasonably allocable to the type of article under consideration) as the total number of articles delivered to and accepted by the Government bears to the total number of articles of a like kind called for by this contract.

If the amount determined under this subparagraph (1) is less than the total payment theretofore made to the Contractor, the Contractor shall repay to the Government the excess amount.

(2) If the settlement includes only the fee, the amount thereof will be determined in accordance with subparagraph (1)(iv) above.

(f) The Contractor shall have the right of appeal, under the clause of this contract entitled "Disputes," from any determination made by the Contracting Officer under paragraph (c) or (e) above, except that, if the Contractor has failed to submit his claim within the time provided in paragraph (c) above and has failed to request extension of such time, he shall have no such right of appeal. In any case where the Contracting Officer has made a determination of the amount due under paragraph (c) or (e) above, the Government shall pay to the Contractor the following: (1) If there is no right of appeal hereunder or if no timely appeal has been taken, the amount so determined by the Contracting Officer, or (2) if an appeal has been taken, the amount finally determined on such appeal.

(g) In arriving at the amount due the Contractor under this clause there shall be deducted (1) all unliquidated advance or other payments theretofore made to the Contractor, applicable to the terminated portion of this contract, (2) any claim which the Government may have against the Contractor in connection with this contract, and (3) the agreed price for, or the proceeds of sale of, any materials, supplies, or other things acquired by the Contractor or sold pursuant to the provisions of this clause and not otherwise recovered by or credited to the Government.

(h) In the event of a partial termination, the portion of the fee which is payable with respect to the work under the continued portion of the contract shall be equitably adjusted by agreement between the Contractor and the Contracting Officer, and such adjustment shall be evidenced by an amendment to this contract.

(i) The Government may from time to time, under such terms and conditions as it may prescribe, make partial payments and payments on account against costs incurred by the Contractor in connection with the terminated portion of the contract whenever in the opinion of the Contracting Officer the aggregate of such payments shall be within the amount to which the Contractor will be entitled hereunder. If the total of such payments is in excess of the amount finally determined to be due under this clause, such excess shall be payable by the Contractor to the Government upon demand, together with interest computed at the rate of 6 percent per annum, for the period from the date such excess payment is received by the Contractor to the date on which such excess is repaid to the Government: *Provided, however*, That no interest shall be charged with respect to any such excess payment attributable to a reduction in the Contractor's claim by reason of retention or other disposition of termination inventory until 10 days after the date of such retention or

V 37-83 APR 28 72 XUM

disposition, or such later date as determined by the Contracting Officer by reason of the circumstances.

(j) The provisions of this clause relating to the fee shall be inapplicable if this contract does not provide for payment of a fee.

5. *Printing.* Unless otherwise specified in this contract, the Contractor shall not engage in, nor subcontract for, any printing (as that term is defined in Title I of the Government Printing and Binding Regulations in effect on the effective date of this contract) in connection with the performance of work under this contract: *Provided, however,* That performance of a requirement under this contract involving the duplication of less than 5,000 units of only one page, or less than 25,000 units in the aggregate of multiple pages, such pages not exceeding a maximum image size of 10¾ by 14¼ inches, will not be deemed to be printing.

6. *Stop Work Order.* (a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of ninety (90) days after the order is delivered to the Contractor, and for any further period to which the parties may agree. Any such order shall be specifically identified as a Stop Work Order issued pursuant to this clause. Upon receipt of such an order, the Contractor shall forthwith comply with its terms and take all reasonable steps to minimize the incurrence of cost allocable to the work covered by the order during the period of work stoppage. Within a period of ninety (90) days after a Stop Work Order is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either:

(i) Cancel the Stop Work Order, or

(ii) Terminate the work covered by such order as provided in the clause of this contract, entitled "Termination for Default or for Convenience of the Government."

(b) If a Stop Work Order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. An equitable adjustment shall be made in the delivery schedule, the estimated cost, the fee, or a combination thereof, and in any other provisions of the contract that may be affected, and the contract shall be modified in writing accordingly, if

(i) The Stop Work Order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract, and

(ii) The Contractor asserts a claim for such adjustment within thirty (30) days after the end of the period of work stoppage: *Provided,* That, if the Contracting Officer decides the facts justify such action, he may receive and act upon any such claim asserted at any time prior to final payment under this contract.

Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

(c) If a Stop Work Order is not canceled and the work covered by such order is terminated for the convenience of the Government, the reasonable costs resulting from the Stop Work Order shall be allowed in arriving at the termination settlement.

7. *Inspection.* The Government, through any authorized representatives, has the right, at all reasonable times, to inspect, or otherwise evaluate the work performed or being performed hereunder and the premises in which it is being performed. If any inspection or evaluation is made by the Government on the premises of the Contractor or a subcontractor, the Contractor shall provide and shall require subcontractors to provide all reasonable facilities and assistance for the safety and convenience of the Government representatives in the performance of their duties. All inspections and evaluations shall be performed in such a manner as will not unduly delay the work.

8. *Excusable delays.* Except with respect to defaults of subcontractors, the Contractor shall not be in default by reason of any failure in performance of this contract in accordance with its terms (including any failure by the Contractor to make progress in the prosecution of the work hereunder which endangers such performance) if such failure arises out of causes beyond the control and without the fault or negligence of the Contractor. Such causes may include, but are not restricted to, acts of God or of the public enemy, acts of the Government in either its sovereign or contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather, but in every case the failure to perform must be beyond the control and without the fault or negligence of the Contractor. If the failure to perform is caused by the failure of a subcontractor to perform or make progress, and if such failure arises out of causes beyond the control of both the Contractor and subcontractor, and without the fault or negligence of either of them, the Contractor shall not be deemed to be in default, unless (a) the supplies or services to be furnished by the subcontractor were obtainable from other sources, (b) the Contracting Officer shall have ordered the Contractor in writing to procure such supplies or services from such other sources, and (c) the Contractor shall have failed to comply reasonably with such order. Upon request of the Contractor, the Contracting Officer shall ascertain the facts and extent of such failure and, if he shall determine that any failure to perform was occasioned by any one or more of the said causes, the delivery schedule shall be revised accordingly, subject to the rights of the Government under the clause hereof entitled "Termination for Default or for Convenience of the Government." (As used in this clause, the terms "subcontractor" and "subcontractors" mean subcontractor(s) at any tier. The Contractor shall notify the Government immediately if it is determined that a subcontractor is failing to perform or make reasonable progress under the terms and conditions of the subcontract.)

9. *Subcontracts.* (a) Except as may be otherwise stated in the schedule of this contract, the Contractor shall give a minimum of ten (10) days advance notification to the Contracting Officer of any proposed subcontract hereunder which (1) is a construction contract, (2) is a cost-reimbursement, time and materials or a labor-hour contract, or (3) is a fixed-price contract and exceeds the dollar amount of $25,000 or five percent (5%) of the total estimated cost of this contract, (4) has experimental, developmental, or research work as one of its purposes. This information shall include but not be limited to the following:

(i) A description of the supplies or services to be called for by the contract, including a copy of the draft document;

(ii) Identification of the proposed subcontractor and an explanation of why and how the proposed subcontractor was selected, including the degree of competition obtained;

(iii) The proposed subcontract price, together with the Contractor's cost or price analysis thereof;

(iv) The subcontractor's current, complete, and accurate cost or pricing data and Certificate of Current Cost or Pricing Data when such data and certificate are required by other provisions of this contract, to be obtained from the subcontractor; and

(v) Identification of the type of contract to be used.

(b) The Contractor shall obtain the written consent of the Contracting Officer prior to placing any subcontract for which advance notification is required under (a) above, and prior to placing any subcontract which provides for the fabrication, purchase, rental, installation, or other acquisition, of any facilities, equipment, or special tooling having a dollar value in excess of $1,000. The Contracting Officer may, in his discretion, ratify in writing any such subcontract; such action shall constitute the consent of the Contracting Officer as required by this paragraph (b).

(c) The Contractor agrees that no subcontract placed under this contract shall provide for payment on a cost-plus-a-percentage-of-cost basis.

(d) The Contracting Officer may, in his discretion, specifically approve in writing any of the provisions of a subcontract. However, such approval or the consent of the Contracting Officer obtained as required by this clause shall not be construed to constitute a determination of the allowability of any cost under this contract, unless such approval specifically provides that it constitutes a determination of the allowability of such cost.

(e) The Contractor shall, in accordance with the clause entitled "Litigation and Claims," give the Contracting Officer immediate notice in writing of any action or suit filed, and prompt notice of any claim made against the Contractor by any subcontractor or vendor which, in the opinion of the Contractor, may result in litigation related in any way to this contract with respect to which the Contractor may be entitled to reimbursement from the Government.

(f) Except as otherwise stated in the schedule of this contract and notwithstanding (b) above, the Contractor may enter into subcontracts within (2) and (3) of (a) above, or, if the subcontract is for facilities, equipment, or for special tooling, without the prior written consent of the Contracting Officer if the Contracting Officer has in writing approved the Contractor's purchasing system and the subcontract is within the limitations of such approval.

10. *Competition in subcontracting.* (The following clause is applicable if the amount of this contract exceeds $2,500.)

The Contractor shall select subcontractors (including suppliers) on a competitive basis to the maximum practical extent consistent with the objectives and requirements of the contract.

11. *Government Property.* (a) *Government-Furnished Property.* The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property described as Government-furnished property in the schedule or specifications, together with such related data and information as the Contractor may request and as may reasonably be required for the intended use of such property (hereinafter referred to as "Government-furnished property"). The delivery or performance dates for the supplies or services to be furnished by the Contractor under this contract are based upon the expectation that Government-furnished property suitable for use will be delivered to the Contractor at the times stated in the schedule or, if not so stated, in sufficient time to enable the Contractor to meet such delivery or performance dates. In the event that Government-furnished property is not delivered to the Contractor by such time or times, the Contracting Officer shall, upon timely written request made by the Contracting Officer, make a determination of the delay, if any, occasioned the Contractor and shall equitably adjust the estimated cost, fixed fee, or delivery or performance dates, or all of them, and any other contractual provisions affected by any

such delay, in accordance with the procedures provided for in the clause of this contract entitled "Changes." In the event that Government-furnished property is received by the Contractor in a condition not suitable for the intended use, the Contractor shall, upon receipt thereof notify the Contracting Officer of such fact and, as directed by the Contracting Officer, either (i) return such property at the Government's expense or otherwise dispose of the property or (ii) effect repairs or modifications. Upon completion of (i) or (ii) above, the Contracting Officer upon written request of the Contractor shall equitably adjust the estimated cost, fixed fee, or delivery or performance dates, or all of them, and any other contractual provision effected by the return or disposition, or the repair or modification in accordance with the procedures provided for in the clause of this contract entitled "Changes." The foregoing provisions for adjustment are exclusive and the Government shall not be liable to suit for breach of contract by reason of any delay in delivery of Government-furnished property or delivery of such property in a condition not suitable for its intended use.

(b) *Changes in Government-Furnished Property.* (1) By notice in writing, the Contracting Officer may (i) decrease the property furnished or to be furnished by the Government under this contract, and/or (ii) substitute other Government-owned property for property to be furnished by the Government, or to be acquired by the Contractor for the Government, under this contract. The Contractor shall promptly take such action as the Contracting Officer may direct with respect to the removal and shipping of property covered by such notice.

(2) In the event of any decrease in or substitution of property pursuant to paragraph (1) above, or any withdrawal of authority to use property provided under any other contract or lease, which property the Government had agreed in the schedule to make available for the performance of this contract, the Contracting Officer, upon the written request of the Contractor (or, if the substitution of property causes a decrease in the cost of performance, on his own initiative,) shall equitably adjust such contractual provisions as may be affected by the decrease, substitution or withdrawal, in accordance with the procedures provided for in the "Changes" clause of this contract.

(c) *Title.* Title to all property furnished by the Government shall remain in the Government. Title to all property purchased by the Contractor, for the cost of which the Contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass to and vest in the Government upon delivery of such property by the vendor. Title to other property, the cost of which is reimbursable to the Contractor under the contract, shall pass to and vest in the Government upon (i) issuance for use of such property in the performance on this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government in whole or in part, whichever first occurs. All Government-furnished property, together with all property acquired by the Contractor title to which vests in the Government under this paragraph, is subject to the provisions of this clause and is hereinafter collectively referred to as "Government property." Title to the Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

(d) *Property Administration.* The Contractor agrees to maintain and administer a property control system in accordance with EPA publication "Guide for Control of Government Property by Contractors" supplied by the Government. While the Contractor is responsible for the Government property (Government furnished and Contractor acquired), the Government will maintain the official accountability records.

(e) *Use of Government Property.* The Government property shall, unless otherwise provided herein or approved by the Contracting Officer, be used only for the performance of this contract.

(f) *Maintenance of Government Property.* The Contractor shall maintain and administer, in accordance with sound business practice, a program for the maintenance, repair, protection, and preservation of Government property so as to assure its full availability and usefulness for the performance of this contract. The Contractor shall take all reasonable steps to comply with all appropriate directions or instructions which the Contracting Officer may prescribe as reasonably necessary for the protection and disposition of Government property.

(g) *Risk of loss.* (1) The Contractor shall not be liable for any loss of or damage to the Government property, or for expenses incidental to such loss or damage, except that the Contractor shall be responsible for any such loss or damage (including expenses incidental thereto):

(i) Which results from willful misconduct or lack of good faith on the part of any one of the Contractor's directors or officers, or on the part of any of his managers, superintendents, or other equivalent representatives, who has supervision or direction of—

(A) All or substantially all of the Contractor's business; or

(B) All or substantially all of the Contractor's operations at any one plant or separate location, in which this contract is being performed; or

(C) A separate and complete major industrial operation in connection with the performance of this contract;

(ii) Which results from a failure on the part of the Contractor, due to the willful misconduct or lack of good faith on the part of any of his directors, officers, or other representatives mentioned in subparagraph (i) above—

(A) To maintain and administer, in accordance with sound industrial practice, the program for utilization, maintenance, repair, protection, and preservation of Government property as required by paragraph (f) hereof, or to take all reasonable steps to comply with any appropriate written direction of the Contracting Officer under paragraph (f) hereof; or

(B) To establish, maintain, and administer, in accordance with (d) above, a system for control of Government property;

(iii) For which the Contractor is otherwise responsible under the express terms of the clause or clauses designated in the schedule;

(iv) Which results from a risk expressly required to be insured under this contract, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or

(v) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement.

(2) If more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception. The Contractor shall obtain the approval of the Contracting Officer prior to transferring any Government property to a subcontractor. If the Contractor transfers Government property to the possession and control of a subcontractor, the transfer shall not affect the liability of the Contractor for loss or destruction of or damage to the property as set forth above. However, the Contractor shall require the subcontractor to assume the risk of, and be responsible for, any loss or destruction of or damage to the property while in the latter's possession or control, except to the extent that the subcontract, with the prior approval of the Contracting Officer, provides for the relief of the subcontractor from such liability. In the absence of such approval, the subcontract shall contain appropriate provisions requiring the return of all Government property in as good condition as when received, except for reasonable wear and tear or for the utilization of the property in accordance with the provisions of the prime contract.

(3) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provision for a reserve, covering the risk of loss of or damage to the Government property, except to the extent that the Government may have required the Contractor to carry such insurance under any other provisions of this contract.

(4) Upon the happening of loss or destruction of or damage to the Government property, the Contractor shall notify the Contracting Officer thereof, take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order and furnish to the Contracting Officer a statement of—

(i) The lost, destroyed, and damaged Government property;

(ii) The time and origin of the loss, destruction or damage;

(iii) All known interests in commingled property of which the Government property is a part; and

(iv) The insurance, if any, covering any part of or interest in such commingled property.

The Contractor shall make repairs and renovations of the damaged Government property or take such other action, as the Contracting Officer directs.

(5) In the event the Contractor is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the Government property, he shall use the proceeds to repair, renovate or replace the Government property involved, or shall credit such proceeds against the cost of the work covered by the contract, or shall otherwise reimburse the Government, as directed by the Contracting Officer. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any such loss, destruction, or damage and, upon the request of the Contracting Officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery. In addition, where the subcontractor has not been relieved from liability for any loss or destruction of or damage to Government property, the Contractor shall enforce the liability of the subcontractor for such loss or destruction of or damage to the Government property for the benefit of the Government.

(h) *Access.* The Contractor agrees to make available to the Contracting Officer, at all reasonable times, at the office of the Contractor, all its property records under this contract, and the Government shall at all reasonable times have access to the premises where any of the Government property is located.

V 37-83 APR 28 72 XUM

(i) *Final Accounting and Disposition of Government Property.* Upon the completion of this contract, or at such earlier dates as may be fixed by the Contracting Officer, the Contractor shall submit to the Contracting Officer in a form acceptable to him, inventory schedules covering all items of the Government property not consumed in the performance of this contract, or not theretofore delivered to the Government, and shall deliver or make such other disposal of such Government property as may be directed or authorized by the Contracting Officer. The net proceeds of any such disposal shall be credited to the cost of the work covered by the contract or shall be paid in such manner as the Contracting Officer may direct. The foregoing provisions shall apply to scrap from Government property; provided, however, that the Contracting Officer may authorize or direct the Contractor to omit from such inventory schedules any scrap consisting of faulty castings or forgings, or cutting and processing waste, such as chips, cuttings, borings, turnings, short ends, circles, trimmings, clippings, and remnants, and to dispose of such scrap in accordance with the Contractor's normal practice and account therefor as a part of General overhead or other reimbursable cost in accordance with the Contractor's established accounting procedures.

(j) *Restoration of Contractor's Premises and Abandonment.* Unless otherwise provided herein, the Government:

(i) May abandon any Government property in place, and thereupon all obligations of the Government regarding such abandoned property shall cease; and

(ii) Has no obligation to the Contractor with regard to restoration or rehabilitation of the Contractor's premises, neither in case of abandonment (paragraph (j)(i) above), disposition on completion of need or of the contract (paragraph (i) above), nor otherwise, except for restoration or rehabilitation costs caused by removal of Government property pursuant to paragraph (b) above.

(k) *Communications.* All communications issued pursuant to this clause shall be in writing.

12. *Key Personnel.* The personnel specified in the schedule of this contract are considered to be essential to the work being performed hereunder. If these individuals are unavailable for assignment for work under the contract, the Contractor shall immediately notify the Contracting Officer and shall submit justifications (including proposed substitutions) in sufficient detail to permit evaluation of the impact on the program. Prior to substitution of key personnel, the Contractor shall obtain the written consent of the Contracting Officer as to the acceptability of the succeeding personnel; provided that the Contracting Officer may ratify in writing such substitution and such ratification shall constitute the consent of the Contracting Officer required by this clause.

13. *Overtime.* (a) Allowable cost shall not include any amount on account of overtime premiums except when (i) specified in (c) below or (ii) paid for work—

(A) Necessary to cope with emergencies such as those resulting from accidents, natural disasters, breakdowns of production equipment, or occasional production bottlenecks of a sporadic nature;

(B) By indirect labor employees such as those performing duties in connection with administration, protection, transportation, maintenance, standby plant protection, operation of utilities, or accounting;

(C) In the performance of tests, industrial processes, laboratory procedures, loading or unloading of transportation media, and operations in flight or afloat, which are continuous in nature and cannot reasonably be interrupted or otherwise completed; or

(D) Which will result in lower overall cost to the Government.

(b) The cost of overtime premiums otherwise allowable under (a) above shall be allowed only to the extent the amount thereof is reasonable and properly allocable to the work under this contract.

(c) The Contractor is authorized to perform overtime, in addition to that performed under (a)(ii), to the extent that the overtime does not exceed the amount set forth in the schedule.

(d) Any request for overtime, in addition to any amount specified in (c) above, which can be estimated with reasonable certainty to be required for the remainder of the contract shall contain the following:

(i) Identification of the work unit, such as the department or section in which the requested overtime will be used, together with present workload, manning and other data of the affected unit, sufficient to permit an evaluation by the Contracting Officer of the necessity for the overtime;

(ii) The effect that denial of the request will have on the delivery or performance schedule of the contract;

(iii) Reasons why the required work cannot be performed on the basis of utilizing multishift operations or by the employment of additional personnel; and

(iv) The extent to which approval of overtime would affect the performance of payments in connection with any other Government contracts, together with any identification of such affected contracts.

14. *Foreign travel.* Unless otherwise provided in this contract, foreign travel shall not be performed without the prior written approval of the Contracting Officer. As used in this clause, "foreign travel" means travel outside the United States, its territories and possessions, and Canada.

15. *Services of consultants.* Except as otherwise expressly provided elsewhere in this contract, and notwithstanding the provisions of the clause of this contract entitled "Subcontracting," the prior written approval of the Contracting Officer shall be required:

(a) Whenever any employee of the Contractor is to be reimbursed as a "consultant" under this contract; and

(b) For the utilization of the services of any consultant under this contract.

Whenever Contracting Officer approval is required, the Contractor will obtain and furnish to the Contracting Officer information concerning the need for such consultant services and the reasonableness of the fees to be paid, including, but not limited to, whether fees to be paid to any consultant exceed the lowest fee charged by such consultant to others for performing consultant services of a similar nature.

16. *Insurance.* (a) The Contractor shall procure and maintain such insurance as is required by law or regulation, including that required by Subpart 1–10.5 of the Federal Procurement Regulation as of the date of execution of this contract, and such insurance as the Contracting Officer prescribes by written direction.

(b) At a minimum, the Contractor shall procure and maintain the following types and amounts of insurance:

(1) Workmen's compensation and occupational disease insurance in amounts sufficient to satisfy State law.

(2) Employer's liability insurance, where available.

(3) Public liability insurance, on the comprehensive form of policy, in the amount of $200,000 per claimant and $500,000 per incident.

(c) With respect to any insurance policy all or part of the premiums of which the Contractor proposes to treat as a direct cost under this contract, and with respect to any proposed qualified program of self-insurance, the written approval of the Contracting Officer shall be obtained prior to any claim for payment therefor.

(d) The terms of any other insurance policy held by Contractor shall be submitted to the Contracting Officer for review and/or approval upon request of the Contracting Officer.

17. *Litigation and claims.* The Contractor shall give the Contracting Officer immediate notice in writing of (a) any action, including any proceeding before an administrative agency, filed against the Contractor arising out of the performance of this contract, including, but not limited to, the performance of any subcontract hereunder; and (b) any claim against the Contractor the cost and expense of which may be allowable under the clause entitled, "Allowable Cost, Fixed Fee and Payment." Except as otherwise directed by the Contracting Officer, the Contractor shall furnish immediately to the Contracting Officer copies of all pertinent papers received by the Contractor with respect to such action or claim. To the extent not in conflict with any applicable policy or insurance, the Contractor may, with the Contracting Officer's approval, settle any such action or claim. If required by the Contracting Officer, the Contractor shall (a) effect an assignment and subrogation in favor of the Government of all the Contractor's rights and claims (except those against the Government) arising out of any such action or claim against the Contractor; and (b) authorize representatives of the Government to settle or defend any such action or claim and to represent the Contractor in, or to take charge of, any action. If the settlement or defense of an action or claim is undertaken by the Government, the Contractor shall furnish all reasonable assistance in effecting a settlement or asserting a defense. Where an action against the Contractor is not covered by a policy of insurance, the Contractor shall, with the approval of the Contracting Officer, proceed with the defense of the action in good faith. The Government shall not be liable for the expense of defending any action to the extent that the Contractor would have been compensated by insurance which was required by law, regulation, by this contract, or by written direction of the Contracting Officer, but which the Contractor failed to secure through its own fault or negligence.

18. *Notice to the Government of delays.* (a) Whenever the Contractor has knowledge that any actual or potential situation or labor dispute is delaying or threatens to delay the timely performance of this contract, the Contractor shall immediately give notice thereof, including all relevant information with respect thereto, to the Contracting Officer.

(b) The Contractor agrees to insert the substance of this clause, including this paragraph (b), in any subcontract hereunder as to which a situation or labor dispute may delay the timely performance of this contract; except that each such subcontract shall provide that in the event its timely performance is delayed or threatened by delay by any actual or potential situation or labor dispute, the subcontractor shall immediately notify its next higher tier subcontractor, or the prime contractor, as the case may be, of all relevant information with respect to such dispute.

19. *Allowable cost, fixed fee, and payment.* (a) For the performance of this contract, the Government shall pay to the Contractor—

(i) The cost thereof (hereinafter referred to as "allowable cost") determined by the Contracting Officer to be allowable in accordance with—

(A) Subpart 1–15.2 of the Federal Procurement Regulations as in effect on the date of this contract, and

(B) The terms of this contract; and

(ii) Such fixed fee, if any, as may be provided for in the schedule.

(b) Payments, as approved by the Contracting Officer, will be made to the Contractor monthly, subject to the conditions in subparagraph (d) below, upon (1) submission to an authorized representative of the Contracting Officer of an invoice or voucher, supported by an itemized statement of costs claimed to have been incurred by the Contractor in the performance of the contract during the period covered by the invoice or voucher and (2) receipt and approval by the Contracting Officer of a progress report covering work performed during the period, or certification by the Contracting Officer that the amount for which payment is approved does not exceed the value of the written and graphic technological data and materials generated in the performance of the contract during the period covered by the invoice or voucher, and that title thereto has passed to and vested in the Government under the terms hereof.

(c) Promptly after receipt of each invoice or voucher and statement of cost, the Government shall, except as otherwise provided in this contract, subject to the provisions of (d) below, make payment thereon as approved by the Contracting Officer. Payment of the fixed fee, if any, shall be made to the Contractor as specified in the schedule: *Provided, however,* That after payment of eighty-five percent (85%) of the fixed fee set forth in the schedule, further payment on account of the fixed fee shall be withheld until a reserve of either fifteen percent (15%) of the total fixed fee, or fifteen thousand dollars ($15,000), whichever is less, shall have been set aside.

(d) At any time or times prior to final payment under this contract, the Contracting Officer may have the invoices or vouchers and statements of cost audited. Each payment theretofore made shall be subject to reduction for amounts included in the related invoice or voucher which are found by the Contracting Officer, on the basis of such audit, not to constitute allowable cost. Any payment may be reduced for overpayments, or increased for underpayments, on preceding invoices or vouchers.

(e) A "completion invoice" or "completion voucher" shall be submitted

(i) Upon the physical completion of all performance provisions and

(ii) When all costs applicable to the contract have been incurred.

The completion invoice or voucher shall be submitted by the Contractor promptly following completion of the work under this contract but in no event later than one (1) year (or such longer period as the Contracting Officer may in his discretion approve in writing) form the date of such completion. Upon the completion of the final audit and the receipt of a "final invoice" or "final voucher," the Government shall promptly pay to the Contractor any balance of allowable costs, and any part of the fixed fee, which has been withheld pursuant to (c) above or otherwise not paid to the Contractor.

(f) The Contractor agrees that any refunds, rebates, credits, or other amounts (including any interest thereon) accruing to or received by the Contractor or any assignee under this contract shall be paid by the Contractor to the Government, to the extent that they are properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract. Reasonable expenses incurred by the Contractor for the purpose of securing such refunds, rebates, credits, or other amounts shall be allowable costs hereunder when approved by the Contracting Officer. Prior to final payment under this contract, the Contractor and each assignee under this contract whose assignment is in effect at the time of final payment under this contract shall execute and deliver—

(i) An assignment to the Government, in form and substance satisfactory to the Contracting Officer, of refunds, rebates, credits, or other amounts (including any interest thereon) properly allocable to costs for which the Contractor has been reimbursed by the Government under this contract; and

(ii) A release discharging the Government, its officers, agents, and employees from all liabilities, obligations, and claims arising out of or under this contract subject only to the following exceptions—

(A) Specified claims in stated amounts, or in estimated amounts where the amounts are not susceptible of exact statement by the Contractor;

(B) Claims, together with reasonable expenses incidental thereto, based upon liabilities of the Contractor to third parties arising out of the performance of this contract, provided, that such claims are not known to the Contractor on the date of execution of the release: *And provided further,* That the Contractor gives notice of such claims in writing to the Contracting Officer not more than six (6) years after the date of the release or the date of any notice to the Contractor that the Government is prepared to make final payment whichever is earlier; and

(C) Claims for reimbursement of costs (other than expenses of the Contractor by reason of his indemnification of the Government against patent liability), including reasonable expenses incidental thereto, incurred by the Contractor under the provisions of this contract relating to patents.

(g) Any cost incurred by the Contractor under the terms of this contract which would constitute allowable costs under the provisions of this clause shall be included in determining the amount payable under this contract, notwithstanding any provisions contained in the specifications or other documents incorporated in this contract by reference, designating services to be performed or materials to be furnished by the Contractor at his expense or without cost to the Government.

20. *Limitation of cost.* (a) It is estimated that the total cost to the Government for the performance of this contract, exclusive of any fee, will not exceed the estimated cost set forth in the schedule, and the Contractor agrees to use his best efforts to perform the work specified in the schedule and all obligations under this contract within such estimated cost. If, at any time, the Contractor has reason to believe that the cost which he expects to incur in the performance of this contract in the next succeeding sixty (60) days, when added to all costs previously incurred, will exceed seventy-five percent (75%) of the estimated cost set forth in the schedule, or if, at any time, the Contractor has reason to believe that the total cost to the Government for the performance of his contract, exclusive of any fee, will be greater or substantially less than the then estimated cost, hereof, the Contractor shall notify the Contracting Officer in writing to that effect, giving the revised estimate of such total cost for the performance of this contract.

(b) Except as required by other provisions of this contract specifically citing and stated to be an exception of this clause, the Government shall not be obligated to reimburse the Contractor for costs incurred in excess of the estimated cost set forth in the schedule, and the Contractor shall not be obligated to continue performance under the contract (including actions under the termination clause) or otherwise to incur costs in excess of the estimated cost set forth in the schedule, unless and until the Contracting Officer shall have notified the Contractor in writing that such estimated cost has been increased and shall have specified in such notice a revised estimated cost which shall thereupon constitute the estimated cost of performance of this contract. No notice, communication or representation in any other form or from any person other than the Contracting Officer shall affect the estimated cost of this contract. In the absence of the specified notice, the Government shall not be obligated to reimburse the Contractor for any costs in excess of the estimated cost set forth in the schedule, whether those excess costs were incurred during the course of the contract or as a result of termination. When and to the extent that the estimated cost set forth in the schedule has been increased, any costs incurred by the Contractor in excess of the estimated cost prior to such increase shall be allowable to the same extent as if such costs had been incurred after the increase; unless the Contracting Officer issues a termination or other notice and directs that the increase is solely for the purpose of covering termination or other specified expenses.

(c) If (1) the Contractor stops performance before completion of all work hereunder because it has incurred costs in the amount of or in excess of the estimated cost set forth in the contract, and (2) the Contracting Officer elects not to increase such estimated costs, the Contractor's fixed-fee will be equitably reduced to reflect the actual amount of work performed as compared with the full amount of the work required in the contract. In the event of failure to agree as to the amount of such reduction, the Contracting Officer shall determine the amount, subject to the right of the Contractor to appeal therefrom pursuant to the clause in the contract entitled "Disputes." This paragraph shall not, in any way, limit the rights of the Government under the clause in the contract entitled "Termination for Default or for the Convenience of the Government."

(d) Change orders issued pursuant to the Changes clause of this contract shall not be considered an authorization to the Contractor to exceed the estimated cost set forth in the schedule in the absence of a statement in the change order, or other contract modification, increasing the estimated cost.

21. *Limitation on withholding of payments.* If more than one clause or schedule provision of this contract authorized the temporary withholding of amounts otherwise payable to the Contractor for work performed under this contract, the total of the amounts so withheld at any one time shall not exceed the greatest amount which may be withheld under any one such clause or schedule provision at that time: *Provided,* That this limitation shall not apply to:

(a) Withholdings pursuant to any clause relating to wages or hours of employees;

(b) Withholdings not specifically provided for by this contract; and

(c) The recovery of overpayments.

22. *Interest.* Notwithstanding any other provision of this contract, unless paid within 30 days all amounts that become payable by the Contractor to the Government under this contract (net of any applicable tax credit under the Internal Revenue Code) shall bear interest at the rate of 6 percent per annum from the date due until paid. Amounts shall be due upon the earliest one of (i) the date fixed pursuant to this contract; (ii) the date of the first written demand for payment, consistent with this contract, including demand consequent upon default termination; (iii) the date of transmittal by the Government to the Contractor

V37-83 APR 28 72 XUM

of a proposed supplemental agreement to confirm completed negotiations fixing the amount; or (iv) if this contract provides for revision of prices, the date of written notice to the Contractor stating the amount of refund payable in connection with a pricing proposal or in connection with a negotiated pricing agreement not confirmed by contract supplement.

23. *Audit and records.* (The provisions of this clause shall be applicable only if the amount of this contract exceeds $100,000.)

(a) The Contractor shall maintain books, records, documents, and other evidence and accounting procedures and practices, sufficient to reflect properly all direct and indirect costs of whatever nature claimed to have been incurred and anticipated to be incurred for the performance of this contract. The foregoing constitute "records" for the purposes of this clause.

(b) The Contractor's plants, or such part thereof as may be engaged in the performance of this contract, and his records shall be subject at all reasonable times to inspection and audit by the Contracting Officer or his authorized representatives. In addition, for purposes of verifying the cost or pricing data submitted, in conjunction with the negotiation of this contract or any contract change or other modification involving an amount in excess of $100,000, was accurate, complete, and current, the Contracting Officer or his authorized representatives, shall, until the expiration of 3 years from the date of final payment under this contract, or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have the right to examine those books, records, documents, papers, and other supporting data which involve transactions related to this contract or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(c) The Contractor shall preserve and make available his records (1) until the expiration of 3 years from the date of final payment under this contract, or of the time periods for the particular records specified in 41 CFR Part 1–20, whichever expires earlier, and (2) for such longer period, if any, as is required by applicable statute, or by other clauses of this contract, or by (i) or (ii) below.

(i) If this contract is completely or partially terminated the records relating to the work terminated shall be preserved and made available for a period of 3 years from the date of any resulting final settlement.

(ii) Records which relate to (A) appeals under the "Disputes" clause of this contract, (B) litigation or the settlement of claims arising out of the performance of this contract or (C) costs and expenses of this contract as to which exception has been taken by the Contracting Officer or any of his duly authorized representatives, shall be retained until such appeals, litigation, claims, or exceptions have been disposed of.

(d) (1) The Contractor shall insert the substance of this clause, including the whole of this paragraph (d), in each subcontract hereunder that is not firm fixed-price or fixed-price with escalation. When so inserted, changes shall be made to designate the higher-tier subcontractor at the level involved in place of the Contractor; to add "of the Government prime contract" after "Contracting Officer"; and to substitute "the Government prime contract" in place of "this contract" in (B) of paragraph (c) above.

(2) The Contractor shall insert the substance of the following clause in each firm fixed-price or fixed-price with escalation subcontract hereunder which when entered into exceeds $100,000, except those subcontracts covered by subparagraph (3) below:

AUDIT

(a) For purposes of verifying the certified cost or pricing data submitted in conjunction with the negotiation of this contract or any contract change or other modification involving an amount in excess of $100,000, was accurate, complete, and current, the Contracting Officer of the Government prime contract, or his authorized representatives, shall, until the expiration of 3 years from the date of final payment under this contract, or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have the right to examine those books, records, documents, papers, and other supporting data which involve transactions related to this contract or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(b) The subcontractor agrees to insert this clause including this paragraph (b), in all subcontracts hereunder which when entered into exceed $100,000, unless the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(3) The Contractor shall insert the following clause in each firm fixed-price or fixed-price with escalation subcontract hereunder which when entered into exceeds $100,000 where the price is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

AUDIT—PRICE ADJUSTMENTS

(a) This clause shall become operative only with respect to any change or other modification of this contract, which involves a price adjustment in excess of $100,000, unless the price adjustment is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation: *Provided*, That such change or other modification to this contract must result from a change or other modification (1) to the Government prime contract, or (2) authorized under the provisions of the Government prime contract.

(b) For purposes of verifying that any certified cost or pricing data submitted in conjunction with a contract change or other modification were accurate, complete, and current, the Contracting Officer of the Government prime contract, or his authorized representative, shall, until the expiration of 3 years from the date of final payment under this contract, or of the time periods for the particular records specified in Part 1–20 of the Federal Procurement Regulations (41 CFR Part 1–20), whichever expires earlier, have the right to examine those books, records, documents, papers, and other supporting data which involve transactions related to this contract or which will permit adequate evaluation of the cost or pricing data submitted, along with the computations and projections used therein.

(c) The subcontractor agrees to insert the substance of this clause including this paragraph (c) in all subcontracts hereunder which when entered into exceed $100,000.

24. *Examination of records by Comptroller General.* (a) This clause is applicable if the amount of this contract exceeds $2,500 and was entered into by means of negotiation, including small business restricted advertising, but is not applicable if this contract was entered into by means of formal advertising.

(b) The Contractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of 3 years after final payment under this contract or such lesser time specified in either Appendix M of the Armed Services Procurement Regulation or the Federal Procurement Regulations Part 1–20, as appropriate, have access to and the right to examine any directly pertinent books, documents, papers, and records of the Contractor involving transactions related to this contract.

(c) The Contractor further agrees to include in all his subcontracts hereunder a provision to the effect that the subcontractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of 3 years after final payment under the subcontract or such lesser time specified in either Appendix M of the Armed Services Procurement Regulation or the Federal Procurement Regulations Part 1–20, as appropriate, have access to and the right to examine any directly pertinent books, documents, papers, and records of such subcontractor, involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (1) purchase orders not exceeding $2,500, and (2) subcontracts or purchase orders for public utility services at rates established for uniform applicability to the general public.

(d) The periods of access and examination described in (b) and (c) above, for records which relate to (1) appeals under the "Disputes" clause of this contract, (2) litigation or the settlement of claims arising but of the performance of this contract, or (3) costs and expenses of this contract as to which exception has been taken by the Comptroller General or any of his duly authorized representatives, shall continue until such appeals, litigation, claims, or exceptions have been disposed of.

25. *Price reduction for defective cost or pricing data.* (The provisions of this clause shall be applicable only if the amount of this contract exceeds $100,000.)

(a) If the Contracting Officer determines that any price, including profit or fee, negotiated in connection with this contract or any cost reimbursable under this contract was increased by any significant sums because the Contractor, or any subcontractor pursuant to the clause of this contract entitled "Subcontractor Cost or Pricing Data" or "Subcontractor Cost or Pricing Data—Price Adjustments," or any subcontract clause therein required, furnished incomplete or inaccurate cost or pricing data or data not current as certified in his Contractor's Certificate of Current Cost or Pricing Data, then such price or cost shall be reduced accordingly and the contract shall be modified in writing to reflect such reduction.

(b) Failure to agree on a reduction shall be a dispute concerning a question of fact within the meaning of the "Disputes" clause of this contract.

NOTE—Since the contract is subject to reduction under this clause by reason of defective cost or pricing data submitted in connection with certain subcontracts, it is expected that the Contractor may wish to include a clause in each such subcontract requiring the subcontractor to appropriately indemnify the contractor. It is also expected that any subcontractor subject to such indemnification will generally require substantially similar indemnification for defective cost or pricing data required to be submitted by his lower tier subcontractors.

26. *Subcontractor cost and pricing data.* (The provisions of this clause shall be applicable only if the amount of this contract exceeds $100,000.)

(a) The Contractor shall require subcontractors hereunder to submit in writing cost or pricing data under the following circumstances:

(1) Prior to award of any cost-reimbursement type, time and material, labor-hour, incentive, or price redeterminable subcontract, change or other modification, the price of which is expected to exceed $100,000; and

(2) Prior to the award of any other subcontract, the price of which is expected to exceed $100,000 or to the pricing of any subcontract change or other modification for which the price adjustment is expected to exceed $100,000, where the price or price adjustment is not based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(b) The Contractor shall require subcontractors to certify, in substantially the same form as that used in the certificate by the Prime Contractor in the Government, that, to the best of their knowledge and belief, the cost and pricing data submitted under (a) above are accurate, complete, and current as of the date of the execution, which date shall be as close as possible to the date of agreement on the negotiated price of the subcontract or subcontract change or modification.

(c) The Contractor shall insert the substance of this clause including this paragraph (c) in each of his cost-reimbursement type, time and material, labor-hour, price redeterminable, or incentive subcontracts hereunder, and in any other subcontract hereunder which exceeds $100,000 unless the price thereof is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation. In each such excepted subcontract hereunder which exceeds $100,000, the Contractor shall insert the substance of the following clause:

SUBCONTRACTOR COST AND PRICING DATA-PRICE ADJUSTMENTS

(a) Paragraphs (b) and (c) of this clause shall become operative only with respect to any change or other modification made pursuant to one or more provisions of this contract which involves a price adjustment in excess of $100,000. The requirements of this clause shall be limited to such price adjustments.

(b) The Contractor shall require subcontractors hereunder to submit cost or pricing data under the following circumstances:

(1) Prior to award of any cost-reimbursement type, time and material, labor-hour, incentive, or price redeterminable subcontract, the price of which is expected to exceed $100,000; and

(2) Prior to award of any other subcontract, the price of which is expected to exceed $100,000, or to the pricing of any subcontract change or other modification for which the price adjustment is expected to exceed $100,000, where the price or price adjustment is not based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law or regulation.

(c) The Contractor shall require subcontractors to certify, in substantially the same form as that used in the certificate by the Prime Contractor to the Government, that, to the best of their knowledge and belief, the cost and pricing data submitted under (b) above are accurate, complete, and current as of the date of the execution, which date shall be as close as possible to the date of agreement on the negotiated price of the contract modification.

(d) The Contractor shall insert the substance of this clause including this paragraph (d) in each subcontract hereunder which exceeds $100,000.

27. *Pricing of adjustments.* When costs are a factor in any determination of a contract price adjustment pursuant to the "Changes" clause or any other provision of this contract, such costs shall be in accordance with Part 1–15 of the Federal Procurement Regulations as in effect as of the date of this contract.

28. *Negotiated overhead rates.* (a) Notwithstanding the provisions of the clause of this contract entitled "Allowable Cost, Fixed Fee, and Payment" the allowable indirect costs under this contract shall be obtained by applying negotiated overhead rates to bases agreed upon by the parties, as specified below.

(b) The Contractor, as soon as possible but not later than 90 days after the expiration of his fiscal year, or such other period as may be specified in the contract, shall submit to the Contracting Officer, with a copy to the cognizant audit activity, a proposed final overhead rate or rates for that period based on the Contractor's actual cost experience during that period, together with supporting cost data. Negotiation of overhead rates by the Contractor and the Contracting Officer shall be undertaken as promptly as practicable after receipt of the Contractor's proposal. In the event the Contractor has more than one contract with EPA, only one submittal shall be required with respect to each applicable rate.

(c) Allowability of costs and acceptability of cost allocation methods shall be determined in accordance with paragraph (b) of the clause of this contract entitled "Allowable Cost and Fixed Fee and Payment."

(d) The results of each negotiation shall be set forth in a modification to this contract, which shall specify (1) the agreed final rates, (2) the bases to which the rates apply, and (3) the periods for which the rates apply.

(e) Pending establishment of final overhead rates for any period, the Contractor shall be reimbursed either at negotiated provisional rates as provided in the contract, or at billing rates acceptable to the Contracting Officer, subject to appropriate adjustment when the final rates for that period are established. To prevent substantial over or under payment, and to apply either retroactively or prospectively, (1) provisional rates may, at the request of either party, be revised by mutual agreement, and (2) billing rates may be adjusted at any time by the Contracting Officer. Any such revision or negotiated provisional rates provided in the contract shall be set forth in a modification to this contract.

(f) Any failure by the parties to agree on any final rates under this clause shall be considered a dispute concerning a question of fact for decision by the Contracting Officer within the meaning of the "Disputes" clause of this contract.

(g) Nothing in this clause shall preclude the Contracting Officer from negotiating final overhead rates applicable to this contract, for any period, for the purpose of contract closeout, provided that (1) the negotiated amount of overhead costs applicable hereto does not exceed $200,000 for any 1 fiscal year; (ii) there is agreement between the Government and the Contractor that there will be no adjustment against other Government contracts for over or under recovery under this contract disclosed through a subsequent, regular final overhead rate negotiation or determination; and (iii) this contract is appropriately modified to reflect the finality of this negotiation and the fact that other contracts shall not be affected by any over or under recovery resulting therefrom.

29. *Assignment of claims.*—(a) Pursuant to the provisions of the Assignment of Claims Act of 1940, as amended (31 U.S.C. 203, 41 U.S.C. 15), if this contract provides for payments aggregating $1,000 or more, claims for moneys due or to become due the Contractor from the Government under this contract may be assigned to a bank, trust company, or other financing institution, including any Federal lending agency, and may thereafter be further assigned and reassigned to any such institution. Any such assignment or reassignment shall cover all amounts payable under this contract and not already paid, and shall not be made to more than one party, except that any such assignment or reassignment may be made to one party as agent or trustee for two or more parties participating in such financing.

(b) In no event shall copies of this contract or of any plans, specifications, or other similar documents relating to work under this contract, if marked "Top Secret," "Secret," or "Confidential," be furnished to any assignee of any claim arising under this contract or any other person not entitled to receive the same. However, a copy of any part or all of this contract so marked may be furnished, or any information contained therein may be disclosed, to such assignee upon the prior written authorization of the Contracting Officer.

30. *Utilization of small business concerns.* (The following clause is applicable if this contract exceeds $5,000.)

(a) It is the policy of the Government as declared by the Congress that a fair proportion of the purchases and contracts for the supplies and services for the Government be placed with small business concerns.

(b) The Contractor agrees to accomplish the maximum amount of subcontracting to small business concerns that the Contractor finds to be consistent with the efficient performance of this contract.

31. *Utilization of labor surplus area concerns.* (The following clause is applicable if this contract exceeds $5,000.)

(a) It is the policy of the Government to award contracts to labor surplus area concerns that (1) have been certified by the Secretary of Labor (hereafter referred to as certified-eligible concerns with first or second preferences) regarding the employment of a proportionate number of disadvantaged individuals and have agreed to perform substantially (i) in or near sections of concentrated unemployment or underemployment or in persistent or substantial labor surplus areas or (ii) in other areas of the United States, respectively, or (2) are non-certified concerns which have agreed to perform substantially in persistent or substantial labor surplus areas, where this can be done consistent with the efficient performance of the contract at prices no higher than are obtainable elsewhere. The Contractor agrees to use his best efforts to place his subcontracts in accordance with this policy.

(b) In complying with paragraph (a) of this clause and with paragraph (b) of the clause of this contract entitled "Utilization of Small Business Concerns," the Contractor in placing his subcontracts shall observe the following order of preference: (1) Certified-eligible concerns with a first preference which are also small business concerns; (2) other certified-eligible concerns with a first preference; (3) certified-eligible concerns with a second preference which are also small business concerns; (4) other certified-eligible concerns with a second preference; (5) persistent or substantial labor surplus area concerns which are also small business concerns; (6) other persistent or substantial labor surplus area concerns; and (7) small business concerns which are not labor surplus area concerns.

32. *Utilization of minority business enterprises.* (The following clause is applicable if the amount of this contract is $5,000 or over.)

V 37-83 APR 28 72 XUM

(a) It is the policy of the Government that minority business enterprises shall have the maximum practicable opportunity to participate in the performance of Government contracts.

(b) The Contractor agrees to use his best efforts to carry out this policy in the award of his subcontracts to the fullest extent consistent with the efficient performance of this contract. As used in this contract, the term "minority business enterprise" means a business, at least 50 percent of which is owned by minority group members or, in case of publicly owned businesses, at least 51 percent of the stock of which is owned by minority group members. For the purposes of this definition, minority group members are Negroes, Spanish-speaking American persons, American-Orientals, American-Indians, American-Eskimos, and American Aleuts. Contractors may rely on written representations by subcontractors regarding their status as minority business enterprises in lieu of an independent investigation.

33. *Equal opportunity.* (The following clause is applicable unless this contract is exempt under the rules, regulations, and relevant orders of the Secretary of Labor (41 CFR Ch. 60).)

During the performance of this contract, the Contractor agrees as follows:

(a) The Contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The Contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion, or transfer, recruitment, or recruitment advertising; layoff or termination, rates of pay or other forms of compensation; and selection of training, including apprenticeship. The Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the Contracting Officer setting forth the provisions of this Equal Opportunity clause.

(b) The Contractor will, in all solicitations or advertisements for employees placed by or on behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

(c) The Contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice, to be provided by the agency Contracting Officer, advising the labor union or workers' representative of the Contractor's commitments under this Equal Opportunity clause, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(d) The Contractor will comply with all provisions of Executive Order No. 11246 of September 24, 1965, Executive Order No. 11375 of October 13, 1967, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(e) The Contractor will furnish all information and reports required by Executive Order No. 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(f) In the event of the Contractor's noncompliance with the Equal Opportunity clause of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended, in whole or in part, and the Contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order No. 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order No. 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(g) The Contractor will include the provisions of paragraph (a) through (g) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order No. 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or Vendor. The Contractor will take such action with respect to any subcontract or purchase order as the contracting agency may direct as a means of enforcing such provisions, including sanctions for noncompliance; provided, however, that in the event the Contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the contracting agency, the Contractor may request the United States to enter such litigation to protect the interests of the United States.

34. *Contractor and subcontractor listing requirement.* (The following clause is applicable if the amount of this contract is $10,000 or over or where 400 man-days of effort will be involved.)

(a) As provided by 41 CFR Part 50–250, the Contractor agrees that all employment openings of the Contractor which exist at the time of the execution of this contract and those which occur during the performance of this contract, including those not generated by the contract, and including those occurring at an establishment of the Contractor other than the one wherein the contract is being performed but excluding those of independently operated corporated affiliates, shall, to the maximum extent feasible, be offered for a listing at an appropriate local office of the State employment service system wherein the opening occurs and to provide such periodic reports to such local office regarding employment opening and hires as may be required: *Provided*, That this provision shall not apply to openings which the Contractor fills from within the Contractor's organization and that the listing of employment openings shall involve only the normal obligations which attach to the placing of job orders.

(b) The Contractor agrees further to place the above provision in any subcontract directly under this contract.

35. *Walsh-Healey Public Contracts Act.* If this contract is for the manufacture or furnishing of materials, supplies, articles, or equipment in an amount which exceeds or may exceed $10,000 and is otherwise subject to the Walsh-Healey Public Contracts Act, as amended (41 U.S.C. 35–45), there are hereby incorporated by reference all representations and stipulations required by said Act and regulations issued thereunder by the Secretary of Labor, such representations and stipulations being subject to all applicable rulings and interpretations of the Secretary of Labor which are now or may hereafter be in effect.

36. *Contract Work Hours and Safety Standards Act—overtime compensation (40 U.S.C. 327–333).* This contract is subject to the Contract Work Hours and Safety Standards Act and to the applicable rules, regulations, and interpretations of the Secretary of Labor.

(a) *Overtime requirements.* No Contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any laborer or mechanic in any workweek in which he is employed on such work to work in excess of eight hours in any calendar day or in excess of 40 hours in such workweek on work subject to the provisions of the Contract Work Hours Standards Act unless such laborer or mechanic receives compensation at a rate not less than one and one-half times his basic rate of pay for all such hours worked in excess of 8 hours in any calendar day or in excess of 40 hours in such workweek, whichever is the greater number of overtime hours.

(b) *Violation; liability for unpaid wages; liquidated damages.* In the event of any violation of the provisions of paragraph (a), the Contractor and any subcontractor responsible therefor shall be liable to any affected employee for his unpaid wages. In addition, such Contractor and subcontractor shall be liable to the United States for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic employed in violation of the provisions of paragraph (a) in the sum of $10 for each calendar day on which such employee was required or permitted to be employed on such work in excess of 8 hours or in excess of the standard workweek of 40 hours without payment of the overtime wages required by paragraph (a).

(c) *Withholding for unpaid wages and liquidated damages.* The Contracting Officer may withhold from the Government Prime Contractor, from any moneys payable on account of work performed by the Contractor or subcontractor, such sums as may administratively be determined to be necessary to satisfy any liabilities of such Contractor or subcontractor for unpaid wages and liquidated damages as provided in the provisions of paragraph (b).

(d) *Subcontracts.* The Contractor shall insert paragraphs (a) through (d) of this clause in all subcontracts, and shall require their inclusion in all subcontracts of any tier.

(e) *Records.* The Contractor shall maintain payroll records containing the information specified in 29 CFR 516.2(a). Such records shall be preserved for 3 years from the completion of the contract.

37. *Convict labor.* In connection with the performance of work under this contract, the Contractor agrees not to employ any person undergoing sentence of imprisonment at hard labor.

38. *Buy American Act.* (a) In acquiring end products, the Buy American Act (41 U.S.C. 10a–d) provides that the Government give preference to domestic source end products. For the purpose of this clause:

(1) "Components" mean those articles, materials, and supplies which are directly incorporated in the end products;

(2) "End products" mean those articles, materials, and supplies which are to be acquired under this contract for public use; and

(3) A "domestic source end product" means (A) an unmanufactured end product which has been mined or produced in the United States and (B) an end product manufactured in the United States if the cost of the components thereof which are mined, produced, or manufactured in the United States exceeds 50 percent of the cost of all its components. For the purposes of this (a)(3)(B), components of foreign origin of the same type or kind as the products referred to in (b)(2) or (3) of this clause shall be treated as components mined, produced, or manufactured in the United States.

(b) The Contractor agrees that there will be delivered under this contract only domestic source end products, except end products:

(1) Which are for use outside the United States;

(2) Which the Government determines are not mined, produced, or manufactured in the United States in sufficient and reasonably available commercial quantities and of a satisfactory quality;

(3) As to which the Administrator determines the domestic preference to be inconsistent with the public interest; or

(4) As to which the Administrator determines the cost to the Government to be unreasonable.

(The foregoing requirements are administered in accordance with Executive Order No. 10582, dated December 17, 1954.)

39. *Officials not to benefit.* No member of or delegate to Congress, or resident commissioner, shall be admitted to any share or part of this contract, or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

40. *Covenant against contingent fees.* The Contractor warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Contractor for the purpose of securing business. For breach or violation of this warranty, the Government shall have the right to annul this contract without liability or in its discretion to deduct from the contract price or consideration the full amount of such commission, percentage, brokerage, or contingent fee.

41. *Gratuities.* (a) The Government may, by written notice to the Contractor, terminate the right of the Contractor to proceed under this contract if it is found, after notice and hearing, by the Administrator or his duly authorized representative, that gratuities (in the form of entertainment, gifts, or otherwise) were offered or given by the Contractor, or any agent or representative of the Contractor, (to any officer or employee of the Government with a view toward securing a contract or securing favorable treatment with respect to the awarding or amending, or the making of any determinations with respect to the performing of such contract: *Provided*, That the existence of the facts upon which the Administrator or his duly authorized representative makes such findings shall be in issue and may be reviewed in any competent court.

(b) In the event this contract is terminated as provided in paragraph (a) hereof, the Government shall be entitled (i) to pursue the same remedies against the Contractor as it could pursue in the event of a breach of the contract by the Contractor, and (ii) as a penalty in addition to any other damages to which it may be entitled by law, to exemplary damages in an amount (as determined by the Administrator or his duly authorized representative) which shall be not less than three nor more than 10 times the costs incurred by the Contractor in providing any such gratuities to any such officer or employee.

(c) The rights and remedies of the Government provided in this clause shall not be exclusive and are in addition to any other rights and remedies provided by law or under this contract.

42. *Patents and inventions.* The clause published in the FEDERAL REGISTER dated February 19, 1972, with corrections published in the FEDERAL REGISTER dated February 26, 1972, and possible further additions or changes, will be included.

43. *Authorization and consent.* The Government hereby gives its authorization and consent for all use and manufacture of any invention described in and covered by a patent of the United States in the performance of this contract or any part hereof or any amendment hereto or any subcontract hereunder (including any lower-tier subcontract).

44. *Rights in data.* (a) Definitions:

(1) The term "technical data" as used herein includes writings, sound recordings, magnetic recordings, pictorial reproductions, drawings, or other graphical representations, data processing or computer programs, and works of any similar nature, whether or not copyrighted, which are specified to be delivered under this contract. The term does not include financial reports, cost analyses, and other information incidental to contract administration.

(2) "Limited rights" means rights to use, duplicate, or disclose technical data, in whole or in part, by or for the Government, with the express limitation that such technical data shall not, without the written permission of the party furnishing such technical data, be (a) released or disclosed in whole or in part outside the Government, (b) used in whole or in part by the Government for manufacture, or (c) used by a party other than the Government, except for:

(i) Emergency repair or overhaul work only, by or for the Government, where the item or process concerned is not otherwise reasonably available to enable timely performance of the work, provided that the release or disclosure thereof outside the Government shall be made subject to a prohibition against further use, release or disclosure; or

(ii) Release to a foreign government, as the interest of the United States may require, only for information or evaluation within such government or for emergency repair or overhaul work by or for such government under the conditions of (i) above.

(3) "Unlimited rights" means rights to use, duplicate or disclose technical data, in whole or in part, in any manner and for any purpose whatsoever, and to have or permit others to do so.

(b) Government rights:

(1) The Government shall have unlimited rights in:

(i) Technical data resulting directly from performance of experimental, developmental or research work which was specified as an element of performance in this or any other Government contract or subcontract;

(ii) Technical data necessary to enable manufacture of end-items, components and modifications, or to enable the performance of processes, when the end-items, components, modifications, or processes have been, or are being, developed under this or any other Government contract or subcontract in which experimental, developmental or research work is, or was specified as an element of contract performance, except technical data pertaining to items, components or processes developed at private expense.

(iii) Technical data constituting corrections or changes to Government-furnished data;

(iv) Technical data pertaining to end-items, components, or processes which was prepared for the purpose of identifying sources, size, configuration, mating and attachment characteristics, functional characteristics and performance requirements ("form, fit, and function" data, e.g., specification control drawings, catalog sheets, envelope drawings, etc.);

(v) Manuals or instructional materials prepared for installation, operation, maintenance, or training purposes;

(vi) Other technical data which has been, or is normally furnished without restriction by the Contractor or subcontractor; and

(vii) Technical data listed or described in an agreement incorporated into the schedule of this contract, which the parties have predetermined, on the basis of subparagraphs (i) thru (vi) above, and agreed will be furnished with unlimited rights.

(2) The Government shall have limited rights in technical data, listed or described in an agreement incorporated into the schedule of this contract, which the parties have agreed will be furnished with limited rights provided that each piece of data to which limited rights are to be asserted is marked with the following legend in which is inserted the number of the prime contract under which the technical data is to be delivered and the name of the Contractor or subcontractor by whom the technical data was generated:

This technical data, furnished under United States Government Contract No. ----------, shall not, without the written permission of ----------, be either (a) used, released or disclosed in whole or in part outside the Government, (b) used in whole or in part by the Government for manufacture or (c) used by a party other than the Government, except for: (i) emergency repair or overhaul work only, by or for the Government, where the item or process concerned is not otherwise reasonably available to enable timely performance of the work provided that the release or disclosure hereof outside the Government shall be made subject to a prohibition against further use, release, or disclosure; or (ii) release to a foreign government, as the interest of the United States may require, only for information or evaluation within such government or for emergency repair or overhaul work by or for such government under the conditions of (i) above. This legend shall be marked on any reproduction hereof in whole or in part.

No legend shall be marked on, nor shall any limitation on rights of use be asserted as to, any data which the Contractor has previously delivered to the Government without restriction. The limited rights provided for by this paragraph (b)(2) shall not impair the right of the Government to use similar or identical data if such data is or becomes a part of the public domain or public knowledge by publication or otherwise, or is acquired by the Government from other sources. In preparation of the final report (if required under the contract), any and all technical data in which the Government has limited rights as set forth in (b)(2) above, shall be submitted under separate cover with the final report and marked with the legend set forth above. However, the final report shall include a complete disclosure of all materials, processes, and equipment employed in such full, clear, concise, and exact detail, including data such as mathematical, graphic, and written descriptive materials and other means of disclosure appropriate in the circumstances to enable any person skilled in the art to comprehend the results of the work performed under the contract.

(c) Material covered by copyright:

(1) Notwithstanding the provisions of (b) above, the Contractor agrees to and does hereby grant to the Government, and to its officers, agents; and employees acting within the scope of their official duties, a royalty-free, nonexclusive and irrevocable license throughout the world to publish, translate, reproduce, deliver, perform, dispose of, and to authorize others so to do, all technical data now or hereafter covered by copyright.

(2) No copyrighted matter shall be included in technical data furnished hereunder without the written approval of the Contracting Officer unless there has been obtained the written permission of the copyright owner for the Government to use such copyrighted matter in the manner described in paragraph (c)(1) above.

(3) The Contractor shall report to the Government (or higher-tier Contractor)

V37-83 APR 28 72 XUM

promptly and in reasonable written detail each notice or claim of copyright infringement received by the Contractor with respect to any technical data delivered hereunder.

(d) Except for those items set forth in (b)(2) above, the Contractor shall not affix any restrictive markings upon any technical data, and if such markings are affixed, the Government shall have the right at any time to modify, remove, obliterate or ignore any such markings.

(e) Relation to Patents: Nothing contained in this clause shall imply a license to the Government under any patent or be construed as affecting the scope of any license or other right otherwise granted to the Government under any patent.

(f) Right to Publish: The Contractor agrees that he will not publish, have published, or otherwise disseminate any information of whatever nature resulting from the work being performed under this contract except as may be approved by the Project Officer.

(g) Acquisition of Data from Subcontractors:

(1) Whenever any technical data is to be obtained from a subcontractor under this contract, the Contractor shall use this same clause in the subcontract, without alteration, and no other clause shall be used to enlarge or diminish the Government's or the Contractor's rights in that subcontractor data which is required for the Government.

(2) Technical data required to be delivered by a subcontractor shall normally be delivered to the next higher-tier Contractor. However, when there is a requirement in the prime contract, or in any deferred order, for data which may be supplied with limited rights pursuant to (b)(2) above, a subcontractor may fulfill such requirement by submitting such data directly to the Government rather than through the prime Contractor.

(3) The Contractor and higher-tier subcontractors will not use their power to award subcontracts as economic leverage to acquire rights in data from their subcontractors for themselves.

45. *Data requirements.* (a) To the extent that the following data is not elsewhere required to be furnished to the Government under this contract, and is of the type customarily retained in the normal course of business, the Contractor, upon written request of the Contracting Officer at any time during contract performance or within 1 year after final payment, shall furnish the following:

(1) A set of engineering drawings which will be sufficient to enable the manufacture of items or equipment furnished under this contract (other than components or items of standard commercial design, or items fabricated heretofore) by a firm skilled in the art of manufacturing items or equipment of the general type and character of the items or equipment furnished under this contract or a set of flowsheets and engineering drawings which will be sufficient to enable performance of any process developed with this contract by a firm skilled in the art of practicing processes of the general type and character of such process. Such set or sets of drawings and flowsheets shall be reproducible copies incorporating all changes made in the equipment or process in the form in which it was delivered to the Government.

(2) Any of the following data which is necessary to explain or help Government technical personnel understand any equipment, items, or process developed under the contract and furnished to the Government:

(i) A copy (which shall be a reproducible master if one is so requested) of drawings and other technical data used in or prepared in connection with the development, practice, and testing of any process or processes required under the contract, or with the development, fabrication, and testing of prototype models of equipment or items (other than items of standard commercial design or items fabricated heretofore), if required under the contract.

(ii) A report of all studies made in planning the work and in developing background research for the work, including citation references to all such background research, and a copy of all compilations, digests, or analyses of such background research compiled in connection with the performance of this contract.

(iii) A copy (which shall be a reproducible master if one is so requested) of design studies, research notes, parameter and tolerance studies, drawings, including Contractor's identification of symbols and markings, specifications, test results, and any other technical information used in any research, development, design, engineering, and testing required in the performance of this contract, including test equipment and related items, together with any information as to safety precautions which may be necessary in connection with the manufacture, storage, or use of the equipment, material, or process, if any, in the event that an equipment, material, or process is the subject of research under this contract.

The Contractor shall not be required to furnish any background data which may be described in (ii) and (iii) above unless such data is essential and closely related to the contract work.

(b) All reports, data, and recorded information which are required to be furnished by the Contractor under this provision, as well as all other reports of a technical nature required to be furnished under this contract, are "Technical Data" within the meaning of the clause of the General Provisions of this contract entitled "Rights in Data."

(c) Nothing contained in this "Data Requirements" clause shall require the Contractor to deliver data previously developed by parties other than the Contractor, independently of this contract and acquired by the Contractor prior to this contract under conditions restricting the Contractor's right to disclose the name. If any of the data requested is in the public domain or copyrighted, it will be sufficient for the Contractor to identify the data and furnish a citation as to where it may be found.

(d) Any reproducible copies requested under this "Data Requirements" clause shall be of a type and prepared in accordance with good commercial practice.

(e) In the event the Contracting Officer requests the delivery of data by the Contractor, as contemplated by (a) above, prior to final payment, such request shall be treated as a change under the clause of this contract entitled "Changes" and an equitable adjustment in the price, if this is a fixed-price contract, or estimated cost and any fixed fee, if this is a cost-type contract, shall be made to cover the cost of preparing drawings called for in (a)(1) above, and of collecting, preparing, editing, duplicating, assembling, and shipping the data requested under (a) above, but only to the extent that the Contractor warrants that such costs were not included in the price (or estimated cost and fixed fee) of the contract. The Contractor shall comply with requests of the Contracting Officer made under (a) above, within 1 year following final payment: *Provided*, That suitable provision is made for reimbursement of the additional costs of complying with such request, together with a reasonable fee or profit thereon, such additional costs being limited to the costs set forth above, and warranted to have been excluded from the price (or estimated cost and fixed fee) of the contract. Any adjustment or payment under this paragraph (e) shall not include any amount for the value of the data, as distinguished from the costs set forth above.

46. *Notice and assistance regarding patent and copyright infringement.* (The provisions of this clause shall be applicable only if the amount of this contract exceeds $10,000.)

(a) The Contractor shall report to the Contracting Officer, promptly and in reasonable written detail, each notice or claim of patent or copyright infringement based on the performance of this contract of which the Contractor has knowledge.

(b) In the event of any claim or suit against the Government, on account of any alleged patent or copyright infringement arising out of the performance of this contract or out of the use of any supplies furnished or work or services performed hereunder, the Contractor shall furnish to the Government, when requested by the Contracting Officer, all evidence and information in possession of the Contractor pertaining to such suit or claim. Such evidence and information shall be furnished at the expense of the Government except where the Contractor has agreed to indemnify the Government.

47. *Economic stabilization.* (a) By the execution of this contract, the Contractor certifies that he is in complete compliance and will continue to comply with the requirements of Executive Order 11615, August 15, 1971, as superseded by Executive Order 11627, October 15, 1971.

(b) Prior to the payment of invoices under this contract, the Contractor shall place on, or attach to, each invoice submitted the following certification:

"I hereby certify that amounts involved herein do not exceed the maximum levels established in accordance with Executive Order 11615, August 15, 1971, as superseded by Executive Order 11627, October 15, 1971."

(c) The Contractor agrees to insert the substance of this clause, including this paragraph (c), in all subcontracts for supplies or services issued under this contract.

(40 U.S.C. 486(c), sec. 205(c), 63 Stat. 377, as amended)

[FR Doc.72-6455 Filed 4-27-72;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 1, 2, 21, 43]

[Docket No. 19493; FCC 72-360]

COMMON CARRIER RADIO STATIONS IN MULTIPOINT DISTRIBUTION SERVICE

Proposed Licensing and Regulation

In the matter of amendment of Parts 1, 2, 21, and 43 of the Commission's rules and regulations to provide for licensing and regulation of common carrier radio stations in the Multipoint Distribution Service.

1. The Commission's rules make provision for common carrier use of the band 2150–2160 MHz to provide a nonbroadcast omnidirectional service. Little use has been made of the band for a number of years, but within the last year, subsequent to our action which removed a 3.5 MHz bandwidth limitation formerly imposed by the rules,[1] there have been a number of applications filed proposing such service. These applications, in essence, propose to provide a relay service for closed circuit television from a central location to a multiplicity of points as desired by the customer. The applicants in general see a need for such service to provide for relay of instructional and training television to schools, industry, municipal government, and for other miscellaneous uses such as the coverage of business, industry, or medical conventions.

2. The common carrier rules pertaining to such service are now contained only in the frequency allocation and bandwidth limitation provisions of Part 21, Subpart I, the Point-to-Point Microwave Radio Service. Clearly, the requirements of an omnidirectional service differ substantially from those of a fixed point-to-point service. Accordingly, it is proposed herein to establish new rules for this service, to be called the Multipoint Distribution Service, as set forth in the Appendix hereto. The Commission believes that the rules proposed are largely self-explanatory and need no detailed remarks. However, the following comment is provided on several aspects.

3. The most important matter concerns potential congestion. Despite the history of virtual nonuse of the band, we are now faced with a demand for frequencies far in excess of the supply. As of March 31, 1972, 148 common carrier applications have been filed, with multiple filings in 93 cities. Moreover, the band is shared with private users, and in another proceeding the Commission has proposed to permit shared use with Aural Broadcast STL operations.[2] When such potential use is considered in context with the current bandwidth requirement of 6 MHz for the transmission of a television signal, it is rather clear that there is a problem. Even in those cities where existing applicants and STL needs can be satisfied, there is no potential for future growth. If this common carrier service proves successful and meets a real public need, the demand in many of the larger cities is likely to outstrip the capacity of a one-channel system.

4. Therefore, provision is being made for a second television channel to accommodate the existing or potential demand by permitting sideband overlap into the next higher band between 2160 and 2162 MHz. Such frequencies are part of the 2 GHz point to point microwave allocations (2110–2130 and 2160–2180 MHz) which are limited to narrow band common carrier communications. These bands, thus far, have received light use in larger cities since they have been used primarily for low capacity telephone routes in essentially rural areas. In conjunction with the joint proceeding in Docket Nos. 19130 and 19494, issued simultaneously herewith, it is also proposed to allocate the use of frequencies 2110–2113 MHz, which frequencies are generally paired by carriers with 2160–2163 MHz for duplex public message communications, for STL use. Under this proposal applicants in this service and for Aural Broadcast STL facilities would be permitted to utilize frequencies 2160–2162 MHz[3] and 2110–2113 MHz, respectively, in the specified metropolitan areas.[4] New assignments of these frequencies in the same metropolitan areas for common carrier point-to-point use would be limited to those carriers that could show no reasonable alternatives. For details of the 2110–2113 MHz proposal, see the notice in Docket Nos. 19130 and 19494, and § 21.501(e) below. See footnote 2 to §§ 21.701(a) and 21.901 below for the 2160–2162 MHz details.

5. Notwithstanding efforts to provide for potential growth, omnidirectional assignments must be made with exceptional care if maximum utilization is to be obtained. Consideration has been given to requiring the submission of calculated service area contours, but that approach has been rejected as too involved and time consuming for both the applicant and the Commission. Basically, it is tentatively decided to control potential interference problems by limiting the transmitting power (in terms of effective radiated power) and requiring the submission of an engineering showing of possible electrical impact on any other existing or proposed station within 50 miles that operates or proposes operation on the same frequency. Furthermore, in order to protect the use of these frequencies in areas of likely future development, applicants would be required to make the same showing of possible impact to be made if the proposed transmitter would be located within 50 miles of one of the top 50 metropolitan areas.

6. In the context of potential congestion in this band, it is noted that many common carrier applicants have proposed to use two channels (one 6 MHz and one 3.5 MHz wide) which would occupy virtually the entire band. In view of the shared use of the band, the possibility of adding a second television channel and the untested requirements for this type of service, it does not appear that one applicant should be authorized 10 MHz at this time. Therefore, as a matter of policy the Commission does not propose to initially authorize any one user more than one 6 MHz channel in a given area. Once a carrier has operational experience in this service and can show a definite need for additional facilities, an application for a second channel will be considered where no service conflict exists, consistent, of course, with any subsequent decision we may reach with regard to shared use of the band with other services.

7. Most proposals now before the Commission propose that the transmitter be located at a permanent location. However, at least two applicants propose a temporary fixed operation. This does offer one obvious advantage for the carrier: It eliminates the problem of getting the program material to the carrier's transmitting location, as the carrier can relocate the station to the site most convenient to the subscriber.[5] Of course, there is a major disadvantage in using temporary fixed facilities in this service: The potential and varying impact on other facilities. If an omnidirectional transmitter can be located at any number of sites in a given city, it may be difficult or impossible to intelligently plan co-channel use in another city unless it is a substantial distance away.

8. Accordingly, the Commission does not, as a regular practice, propose to authorize temporary fixed facilities in this service. However, there may be circumstances or areas where such facilities would not be likely to impede co-channel usage in adjacent communities. Therefore, it is proposed that applications for temporary fixed authorization would be considered where it can be shown that substantial public benefit (as compared to a station at a permanent location) is offered and that there are no cities of 100,000 or more population within 50 miles. Where such facilities are authorized it is anticipated that the operational area of the station would be restricted to the smallest area practicable for providing reasonable service to the community. Temporary fixed stations must, of course, operate to avoid interference to other

[1] See Memorandum Opinion and Order regarding § 21.703(g), released July 31, 1970 (FCC 70-819).

[2] See notice of proposed rule making in Docket No. 19130, released January 25, 1971, FCC 71-56, 36 FR 1425.

[3] This contemplates television channel assignments at 2150–2156 and 2156–2162 MHz, which of course provides for no guard band. If comments to this proposed rule making supply engineering data which show that a modest guard band (not exceeding 1 MHz) would be of substantial benefit, the restriction could possibly be extended to 2163 MHz. Also, the possibility of modified technical standards may be commented upon where such modifications could eliminate or alleviate possible adjacent or co-channel interference. In this regard consideration should be given to the possible establishment of receiver technical specifications, e.g. minimum selectivity requirements.

[4] The applicable metropolitan areas are identified in item 7(c) of the Appendix. Comments with respect to the proposed limitations in the 2110–2113 MHz band should be submitted in connection with Docket No. 19494. Also, it is noted that the use of frequencies 2110–2113 MHz would continue to be subject to coordination with satellite earth stations transmitting in the 2110–2120 MHz band. Such stations operate only at Goldstone, Calif., Kauai, Hawaii, and Guam, and they are not expected to cause problems to the use of the frequencies in major metropolitan areas. See §§ 2.106 (US90) and 21.706 (c) and (d).

[5] In the case of a station at a permanent location provision must be made to get the subscriber's programing to the carrier's transmitter. This could be done with a local link provided by the telephone company or possibly a CATV system, or through temporary fixed or mobile microwave facilities. If the program material is on tape, there would apparently be little interconnection problem since the tape could be run at the transmitting site. Another possibility would involve the subscriber's use of a studio provided by the carrier. However, in such circumstances a carrier must be careful not to become involved in any substantial way in the production of the programing or else his eligibility as a common carrier will be jeopardized.

V 37-83 APR 28 72 XUM

authorized stations at permanent locations; however, the Commission does not propose to authorize in this service any two stations, whether permanent or temporary fixed, to operate in the same area on the same channel.[6]

9. One other matter deserving comment concerns the receiving facilities. A number of the pending applications make no mention of the operation of receiving equipment. Common carriers utilizing microwave radio have traditionally controlled their receiving as well as transmitting facilities. Two reasons for this, which would appear to be equally applicable to this service, are to insure an adequate quality of service on an end-to-end basis and to help preserve the privacy of the transmitted intelligence. From a practical standpoint the carrier should be in a better position than the customer to install and maintain the proper receiving equipment[7] necessary to good reception without harmful interference. Where the carrier anticipates that the service to be rendered to a given customer does not warrant installation of a permanent receiving facility, he may be allowed to utilize a number of portable receiving units which may be relocated once service is completed. Accordingly, it is tentatively concluded that the operation of the receiving facilities in this service should be limited to the carrier.

10. The future development of this service is not entirely clear at this time. The various uses as projected by the applicants appear to be limited to instructional and business closed circuit television. While we do not anticipate that these facilities would be used to reach a mass market for closed circuit entertainment programing, a substantial entertainment market would appear to be possible. For example, an entreprenuer could arrange through the carrier to have programing (e.g., sports or movies)[8] distributed for several hours a day or week to a number of hotels in a city, or in several cities if inter-city connections were provided. While such arrangements would not be likely to reach the mass audiences anticipated in connection with subscription television or cablecasting, the audience could be substantial nonetheless. Therefore, we raise the question whether some antisiphoning rules similar to those adopted in our "Report and Order" in Docket No. 18893, released March 29, 1972 (FCC 72-263), would be appropriate. We solicit comments on this question, including whether and to what degree this service is likely to develop into a device for serving substantial entertainment audiences. It is appropriate to note that other types of common carrier facilities, e.g., point-to-point microwave and cable, are also used for closed circuit television distribution. Therefore, it is possible that the Commission may want to consider the matter in a broader context than this proceeding.

11. Pending the final decision in this proceeding the Commission will process applications on file in normal order. Those that are consistent with the rules proposed herein will be acted upon. Action on applications which are mutually exclusive or inconsistent with the proposed rules will not be taken prior to finalization of this proceeding.[9]

12. Authority for this proposed rule making is contained in sections 4(i), 303, and 403 of the Communications Act of 1934, as amended. All interested persons are invited to file written comments on these proposed rules on or before July 5, 1972, and reply comments on or before August 7, 1972. In reaching its decision in this matter the Commission may take into account any other relevant information before it in addition to the comments invited by this notice.

13. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all comments, replies, pleadings, briefs or other documents shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

Adopted: April 19, 1972.

Released: April 26, 1972.

FEDERAL COMMUNICATIONS COMMISSION[*]

[SEAL] BEN F. WAPLE,
Secretary.

It is proposed to amend Parts 1, 2, 21, and 43 of Chapter I of Title 47 of the Code of Federal Regulations as follows:

1. In § 1.1113 of the following fee schedule is added to follow the schedule for the Local Television Transmission Service:

§ 1.1113 Schedule of fees for Common Carrier Services.

* * * * *

	Filing fee	Grant fee
Multipoint distribution service:		
Application for initial construction permit or for modification involving relocation of station or addition or change of frequencies	$100	$150
Application for other modification of construction permit or license	25	25
Application for renewal of license	25	100

* * * * *

§ 2.106 [Amended]

2. In § 2.106 add new footnote NG, and reference it to the band 2160–2180 MHz in the table (FCC column). The text of footnote NG is to read as follows:

NG Frequencies in the band 2160–2162 MHz are shared between directional and omnidirectional stations as provided for in § 21.901 of this chapter.

3. In § 21.1 the following definition is added in appropriate alphabetical order:

§ 21.1 Definitions.

* * * * *

Television transmitter peak power. The power over a radio frequency cycle corresponding in amplitude to synchronizing peaks when transmitting a specified television signal. The aural power as specified is not included.

* * * * *

4. In § 21.35 amend paragraph (a) to read as follows:

§ 21.35 License period.

(a) Licenses for stations in the Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, Local Television Transmission and Multipoint Distribution Services will be issued for a period not to exceed 5 years; in the case of common carrier Television STL and Television Pickup stations to which are assigned frequencies allocated to the broadcast services, the authorization to use such frequencies shall, in any event, terminate simultaneously with the expiration of the authorization for the broadcast station to which such service is rendered except that licenses for developmental stations will be issued for a period not to exceed 1 year. Unless otherwise specified by the Commission, the expiration of regular licenses shall be on the following dates in the year of expiration:

Domestic Public Land Mobile Radio Service (miscellaneous carriers), April 1;
Domestic Public Land Mobile Radio Service (telephone carriers), July 1;
Domestic Public Land Mobile Radio Service (all authorizations pursuant to § 21.521), September 1;
Rural Radio Service, November 1;
Point to Point Microwave Radio Service, February 1;
Local Television Transmission Service, February 1;
Multipoint Distribution Service, May 1.

The expiration date of developmental licenses shall be 1 year from the date of grant thereof. When a license is granted subsequent to the last renewal date of

[6] Where an application for a temporary fixed station has been filed prior to the release date of this document and where the applicant cannot qualify for temporary fixed authorization under these newly proposed restrictions, he may amend his application to propose a regular fixed station without losing any mutually exclusive rights he may have already acquired if such amendment does not create new conflicts.

[7] The receiving equipment, at minimum, includes a directional antenna (which must be accurately located and oriented) and a receiver which converts the microwave frequency received to a lower frequency that is compatible with ordinary television receivers.

[8] If the rules are amended to provide for a second television channel as proposed, it is anticipated that mutually exclusive situations involving only two applicants can be resolved by the later filing applicant amending his proposal to specify the second channel. No applications proposing use of the second television channel will be accepted for filing pending finalization of the rules.

[9] Commissioner Bartley dissenting and issuing a statement which is filed as part of the original document; Commissioners Johnson and H. Rex Lee absent; Commissioner Wiley concurring in the result.

the class of license involved, the license shall be issued only for the unexpired period of the current license term of such class.

* * * * *

§ 21.107 [Amended]

5. In § 21.107(b) add the following to footnote 2:

Also, see Subpart K for exception in the band 2,150–2,162 MHz.

6. In § 21.501 amend paragraph (e) to read as follows:

§ 21.501 Frequencies.

* * * * *

(e) On a shared basis with fixed stations in the Point-to-Point Microwave Radio Service, frequencies in the bands 2110–2130 MHz and 2160–2180 MHz may be authorized for use by control and repeater stations functioning in conjunction with the Domestic Public Land Mobile Radio Service on the condition that the emission bandwidth is limited to the minimum necessary to serve the purpose required: *Provided, however,* no new assignments will be made in the band 2160–2162 MHz for stations located within 50 miles of the coordinates of the principal city (as set forth in the U.S. Department of Commerce publication "Air Line Distances Between Cities in the United States"), of one of the top 50 standard metropolitan statistical areas, as ranked by the U.S. Census Bureau, except upon a showing that no alternative frequencies are available. Similarly, no new assignments in the band 2110–2113 MHz will be made within 50 miles of the coordinates of: Albany, N.Y.; Chicago, Ill.; Dallas, Tex.; Denver, Colo.; Houston, Tex.; Los Angeles, Calif.; New York, N.Y.; Salt Lake City, Utah; San Francisco, Calif.; or San Juan, P.R., except upon a showing that no alternative frequencies are available; provided, however, all common carrier assignments in said areas are subject to the condition that no interference be caused to Aural Broadcast STL Stations. Channel bandwidths in excess of 800 kHz will not be authorized. In each of these bands, the highest frequency which will not cause harmful interference to any other station shall be assigned.

* * * * *

§ 21.701 [Amended]

7. § 21.701(a) is revised as follows:

a. 2,150–2,160 MHz is deleted from table.

b. Footnote 1 is revised to read:

Frequencies in the band are shared with control and repeater stations in the Domestic Public Land Mobile Radio Service and with Stations in the International Fixed Public Radio Communication Services in part of Florida and in U.S. possessions in the Caribbean area. Additionally, 2,110–2,113 MHz and 2,160–2,162 MHz are shared with Aural Broadcast STL stations and stations in the Multipoint Distribution Service, respectively.

c. Footnote 2 is revised to read:

No new assignments will be made in the band 2160–2162 MHz for stations located within 50 miles of the coordinates of the principal city (as set forth in the U.S. Department of Commerce publication "Air Line Distances Between Cities in the United States") of one of the top 50 standard metropolitan statistical areas, as ranked by the U.S. Census Bureau, except upon a showing that no alternative frequencies are available. Similarly, no new assignments in the band 2110–2113 MHz will be made within 50 miles of the coordinates of: Albany, N.Y.; Chicago, Ill.; Dallas, Tex.; Denver, Colo.; Houston, Tex.; Los Angeles, Calif.; New York, N.Y.; Salt Lake City, Utah; San Francisco, Calif.; or San Juan, P.R., except upon a showing that no alternative frequencies are available; *Provided, however,* All common carrier assignments in said areas are subject to the condition that no interference be caused to Aural Broadcast STL Stations.

d. Footnote 2 is referenced to the frequency bands 2110–2130 MHz and 2160–2180 MHz in the table.

§ 21.703 [Amended]

8. § 21.703(g) is revised to delete reference to the frequency band 2150–2160 MHz.

9. The following new Subpart K is added to Part 21.

Subpart K—Multipoint Distribution Service

§ 21.900 Eligibility.

Authorizations for stations in this service will be granted to existing and proposed communications common carriers. Applications will be granted only in cases where it can be shown that: (a) The applicant is legally, financially, technically, and otherwise qualified to render the proposed service, (b) there are frequencies available to enable the applicant to render a satisfactory service, and (c) the public interest, convenience, and necessity would be served by a grant thereof. The applicant (including any affiliated company) shall not, to any substantial degree, be involved in the organization or production of any program material which would be transmitted over the proposed facilities. In addition, the applicant shall submit a statement indicating whether there is any affiliation or relationship to any intended or likely subscriber or program originator. an applicant will not be eligible for authorization in this service unless it can be shown with reasonable certainty that at least 50 percent of the service rendered will be to subscribers who are not affiliated or related to the applicant.

§ 21.901 Frequencies.

Frequencies in the band 2150–2160 MHz are available for assignment to fixed stations in the Multipoint Distribution Service. Frequencies in this band may be shared with nonbroadcast omnidirectional radio systems which are licensed under other part of the Commission's rules. The primary channel for television transmission shall be 2150–2156 MHz. Applications for assignments of 4 MHz bandwidth or less shall be made between 2156–2160 MHz. A secondary television channel may be authorized at 2156–2162 MHz within one of the top 50 standard metropolitan statistical areas as ranked by the U.S. Census Bureau when the primary channel at 2150–2156 MHz is unavailable, upon a showing that said operation is not likely to interfere with the operation of the primary channel and any existing licensees in the band 2160–2162 MHz.

§ 21.902 Interference.

(a) Since the band authorized for this service is limited and is shared with other services, exceptional efforts must be made to avoid possible harmful interference to other users and to avoid blocking potential use of the band in other cities. In areas where major cities are in close proximity, careful consideration should be given to minimum power requirements and to the location and height of the antenna and its radiation patterns.

(b) Where a transmitting antenna is proposed to be located within 50 miles of the transmitting antenna of an authorized station or another proposed station in a prior filed application which station(s) utilize or would utilize the same frequency or an adjacent potentially interfering frequency, a showing shall be included with the application analyzing the potential for harmful electrical interference with said station(s). Also, if a transmitting antenna is proposed to be located within 50 miles of the coordinates of the principal city (as set forth in the U.S. Department of Commerce publication "Air Line Distances Between Cities in the United States") of one of the top 50 standard metropolitan statistical areas, as ranked by the U.S. Census Bureau, a showing shall be submitted with the application analyzing possible frequency impact on the future development of a similar station in that city on the same, or a potentially interfering, frequency. For purposes of analysis, it may be assumed that a transmitting antenna would be located at the principal city coordinates. If the proposed transmitting antenna is not within 50 miles of an authorized cochannel station, an earlier proposed cochannel station, or a top 50 metropolitan area, a statement to that effect should be included in the application.

(c) Existing licensees and prospective applicants are expected to cooperate fully in attempting to resolve problems of potential electrical interference before bringing the matter to the attention of the Commission.

§ 21.903 Purpose and permissible service.

(a) Multipoint distribution stations are intended to provide, by means of omnidirectional transmission, communications from a single fixed location to a multiplicity of fixed points. Stations in this service may render any kind of service, consistent with the purpose and requirements of the rules, provided for in the legally applicable tariff of the carrier, unless otherwise directed or conditioned in the applicable instrument of authorization.

(b) The service offered shall include the transmission of the signal provided by the subscriber to multiple receiving

V37-83 APR 28 72 XUM

facilities located at points designated by the subscriber. The carrier shall control and operate all receiving facilities, including equipment necessary to convert the signal to a standard television channel.

§ 21.904 Transmitter power.

(a) The transmitter power of the station shall be limited to that necessary to adequately serve the area of intended operation.

(b) For television transmission, the peak effective radiated power of the visual signal shall not exceed 100 watts and the peak effective radiated power of the accompanying aural signal shall not be more than 20 percent nor less than 10 percent of the peak effective radiated power of the visual signal, except as permitted pursuant to § 21.907(b).

(c) The effective radiated power of any other signals authorized in this service shall not exceed 100 watts.

(d) Operating power shall not exceed the authorized power by more than 10 percent at any time.

§ 21.905 Emissions and bandwidth.

(a) A station in this service transmitting a television signal will normally employ vestigial sideband, amplitude modulation (A5C) for the visual signal and frequency modulation (F3) for the accompanying aural signal.

(b) The maximum bandwith authorized in this service for television transmission (visual signal plus accompanying aural signal) shall be 6 MHz.

(c) For purposes other than television transmission, types of emission other than those specified in paragraph (a) of this section may be authorized upon an adequate showing of need therefor. An applicant requesting such authorization shall fully describe the modulation, emission, and bandwidth desired and shall specify the bandwidth to be occupied. The bandwidth shall be no wider than that needed to provide the intended service.

§ 21.906 Antennas.

(a) Transmitting antennas shall be omnidirectional except that a directive antenna with a main beam sufficiently broad to provide adequate community service may be used to avoid possible interference to other users in this frequency band. Directive receiving antennas shall be used at all points.

(b) The transmitting antenna should be elevated no higher than necessary to provide reasonable service to the community. The use of elevated receiving antennas is preferable to the use of elevated transmitting antennas or greater power to provide the desired service.

(c) Where receiving antennas are to be proposed to be placed at a number of temporary fixed locations, the number of such locations shall be specified in the application and a sketch provided showing details of a typical installation. (See § 21.114 for restrictions on the location of temporary fixed antennas.)

(d) The use of horizontal or vertical plane wave polarization or right hand or left hand rotating (circular) polarization may be used to minimize the hazard of harmful interference between systems.

§ 21.907 Television transmission standards.

(a) VHF transmission standards set forth in § 73.682(a) of this chapter shall apply to stations in this service transmitting television signals except that the requirement of § 21.906(d) shall replace that of § 73.682(a)(14) of this chapter.

(b) As an exception to paragraph (a) of this section for authorizations in which the authorized bandwidth does not exceed 4.0 MHz for the visual and accompanying aural signal, the requirements of § 73.682(a) (1), (2), (3), (4), (5), (9), (19), and (20) of this chapter shall not apply. Additionally, the effective radiated power of the aural signal may be less than 10 percent of the effective radiated power of the visual signal.

(c) As a further exception to the requirements of paragraphs (a) and (b) of this section, the transmission standards may vary from those specified therein to the extent that such variations result from reversal of the positions of the visual and aural carriers and all transmitted components of the signals in the authorized radio frequency channel, i.e., from positioning the visual carrier 1.25 MHz below the upper boundary of the channel and the aural center frequency 4.5 MHz below the visual carrier frequency, and transmitting an attenuated upper, rather than lower, sideband of the visual signal.

§ 21.908 Television transmitting equipment.

(a) Except as otherwise provided in this section, the requirements of paragraphs (a), (b), (c), (d), (e), and (i) of § 73.687 of this chapter shall apply to stations in this service transmitting television signals.

(b) The provisions of § 21.101 shall apply with respect to the frequency tolerance for the visual carrier in lieu of § 73.687(c)(1) of this chapter except for the frequency of the aural carrier which shall be maintained in accordance with § 73.687(c)(1) of this chapter.

(c) The requirements of § 73.687(c)(2) of this chapter will be considered to be satisfied insofar as measurements of operating power are concerned if the transmitter is equipped with instruments for determining the combined visual and aural operating power. However, licensees are expected to maintain the operating powers within the limits specified in § 21.904. Measurements of the separate visual and aural operating powers should be made at sufficiently frequent intervals to insure compliance with the rules and in no event less than once a month.

(d) Transmitting equipment designed for stations whose authorized bandwidth is 4.0 MHz or less for the visual and accompanying aural signal is subject to the provisions of § 21.101 with respect to the frequency tolerance of the visual and aural carriers in lieu of paragraph (b) of this section. Such equipment also is subject to paragraphs (a) and (c), of this section, except that the provisions of § 73.687 (a), (b), and (c)(1) of this chapter shall not apply.

(e) As a further exception to the other requirements specified in this section, transmitting equipment characteristics may vary from these requirements to the extent that such variations result from reversal of the positions of the visual and aural carriers and all transmitted components of the signals in the authorized radio frequency channel, i.e., from positioning the visual carrier 1.25 MHz below the upper boundary of the channel and the aural center frequency 4.5 MHz below the visual carrier frequency, and transmitting an attenuated upper, rather than lower, sideband of the visual signal.

§ 21.909 Stations at temporary fixed locations.

(a) An application for a temporary fixed station shall clearly and precisely define the intended area of transmitter operation, which should be as small as possible, consonant with the requirements of the community to be served. Stations in this service will not be authorized to operate at temporary fixed locations unless it is shown that:

(1) Substantially more public benefit can be attained by the use of a temporary-fixed station as compared to a fixed station;

(2) The placement of the transmitting facilities anywhere in the specified area of operation will not adversely affect the operation of any other authorized station; and

(3) The operation will not inhibit the operation of a fixed station on another channel in the same city, or any station in any other city having a metropolitan population of 100,000 or more whose coordinates (as defined in § 21.902(b)) are within 50 miles of the intended area of transmitted operation.

(b) Where the Commission finds that the operation of a station in this service at temporary fixed locations would be in the public interest, the authorization will be subject to the following conditions:

(1) When a fixed station is to remain at a single location for less than 6 months, the location is considered to be temporary. Services which are initially known to be of longer than 6 months' duration shall not be provided under a temporary fixed authorization but rendered pursuant to a regular license.

(2) When a fixed station authorized to operate at temporary locations is installed and it subsequently becomes necessary for the station to operate from such location for more than 6 months, applications (FCC Forms 401 and 403) for a station authorization to specify the permanent location shall be filed at least 60 days prior to the expiration of the 6 month period.

(3) The antenna structure height employed at any location shall not exceed the criteria set forth in § 17.7 of this chapter unless, in each instance, authorization for use of a specific maximum antenna structure height for each location has been obtained from the Commission prior to erection of the antenna. See § 21.114.

(c) Applications for authorizations to operate stations at temporary locations under the provisions of this section shall be made upon FCC Form 401 and may be accompanied by completed FCC Form 403 for simultaneous consideration provided the equipment to be used is of "packaged" design.

§ 21.910 Notification of station operation at temporary locations.

(a) The licensee of stations which are authorized pursuant to the provisions of § 21.909 shall notify the Commission, and its Engineer-in-Charge of the radio district wherein operation is to be conducted, of each period of operation at least 5 days prior to installation of the facilities. This notification shall include:

(1) The call sign, output power and specific location of the transmitter.

(2) The maintenance location for the transmitter.

(3) If more than a single frequency has been authorized the exact frequency to be used.

(4) The public interest, convenience and necessity to be served by operation of the proposed installation.

(5) The commencement and anticipated termination dates of operation from each location. In the event the actual termination date differs from the previous notification, written notice thereof promptly shall be given to the Commission and its Engineer in Charge.

(6) Where the notification contemplates initially a service which is to be rendered for a period longer than 90 days, the notification shall contain a showing as to why application should not be made for regular authorization.

(b) A copy of the foregoing notification shall be posted with the station license (see § 21.214).

10. The following new section is added to Part 43.

§ 43.72 Reports of operators in the Multipoint Distribution Service.

(a) Each common carrier in the Multipoint Distribution Service shall file with the Commission, not later than March 1 of each year for the preceding calendar year, two copies of a report, certified as to accuracy by a corporate officer (or entrepreneur if not a corporation), which shall include the following:

(1) Name and address of respondent;

(2) Condensed balance sheet as of the end of the calendar year including as separate items thereon the investment in and book depreciation reserve related to the Multipoint Distribution Service plant and equipment;

(3) Condensed income statement for the calendar year showing as separate items revenues and expenses related to Multipoint Distribution Service; and

(4) In addition, each report shall include the following statistical information (preferably in tabular form) for each station or channel the respondent operates in the Multipoint Distribution Service:

(i) The identity of each subscriber served;

(ii) The number of separate occasions on which each named subscriber was served;

(iii) The total hours of service provided to each named subscriber;

(iv) The number of receiving locations to which each named subscriber was provided service (if the number varies, provide an average); and

(v) Whether each named subscriber is affiliated or related to the carrier in any way.

(b) A copy of each year's report shall be retained in the principal office of the carrier and shall be filed in such manner as to be readily available for reference and inspection.

[FR Doc.72-6508 Filed 4-27-72;8:51 am]

[47 CFR Parts 2, 74]

[Dockets Nos. 19130, 19494; FCC 72-361]

AURAL BROADCAST STL OPERATIONS, INTERCITY RELAY STATIONS, AND CERTAIN LOW POWER BROADCAST AUXILIARY STATIONS

Further Notice of Proposed Rule Making

In the matters of amendment of Parts 2 and 74 of the Commission's rules to permit Aural Broadcast STL operations in the band 2150–2160 MHz and to accommodate STL, Intercity Relay Stations and certain low power broadcast auxiliary stations within the frequency band 947–952 MHz, Docket No. 19130; and amendment of Parts 2 and 74 of the Commission's rules to permit Aural Broadcast STL operations in the band 2110–2113 MHz, Docket No. 19494.

1. On January 20, 1971, the Commission adopted a notice of proposed rule making and Notice of Inquiry in Docket No. 19130 which was published in the FEDERAL REGISTER on January 29, 1971 (FCC 71-56; 36 F.R. 1425). Comments and reply comments were due initially on or before March 2, 1971, and March 12, 1971, respectively. In response to a petition filed by the National Association of FM Broadcasters, the comments and reply comment dates were extended to April 19 and April 29, 1971, respectively. At the request of the consulting firm of A. Earl Cullum, Jr. and Associates, the date for filing reply comments was further extended to May 13, 1971. No further requests for extension of filing time have been received.

2. The purpose of the notice of proposed rule making and Notice of Inquiry in Docket No. 19130 was, in summary, to deal with the frequency needs of Aural Broadcast STL stations in view of the Commission's decision in Docket No. 18262 which reallocated the lower half of the 942–952 MHz band to the land mobile service. Basically the notice proposed making available to Aural Broadcast STL Stations, access to the 2150–2160 MHz band on a shared basis with the common carrier services and Operational Fixed Stations to which the band is presently allocated for omnidirectional use; suggested certain conditions of accessibility to the 2150–2160 MHz band for Aural Broadcast STL stations, if so allocated; requested comments concerning the feasibility and practicability of reducing the width of channels for Aural Broadcast STL Stations using the 947–952 MHz band and changing other technical standards now applicable to such stations and proposed a disposition of those auxiliary broadcasting stations now "out of band" as a result of the reallocation of the band 942–947 MHz in Docket No. 18262.

3. Comments were filed by:

Browne-Renaud Associates, Inc. (Browne Renaud) [1]
Carter Publications, Inc. (Carter)
(With engineering statement on Carter's behalf filed by Jules Cohen)
Chicago Communication Service, Inc. (Chicago)
Columbia Broadcasting System, Inc. (CBS)
Midwest Radio Television, Inc. (Midwest)
Marti Electronics, Inc. (Marti)
Moseley Associates (Moseley)
National Association of Broadcasters (NAB)
National Association of FM Broadcasters (NAFMB)
National Broadcasting Company, Inc. (NBC)
Taft Broadcasting Company (Taft)
(With engineering statement on Taft's behalf filed by Bernard R. Segal)
Utilities Telecommunications Council (UTC)
World Ventures, Inc. (World)
Varian Associates, Solid State Division (Varian)

Reply comments were filed by the NAB, National Association of Educational Broadcasters (NAEB), NBC, Varian and World. In addition, an engineering statement was submitted by Thomas A. Wright on behalf of the firm of A. Earl Cullum, Jr., and Associates (Cullum). All of these comments, engineering statements and reply comments have been considered by the Commission.

4. Summaries of the comments filed in Docket No. 19130 are as follows. With reference to the proposed shared use of the band 2150–2160 MHz by Aural Broadcast STL stations, a basic issue in the Commission's proposal, supporting comments were received from Moseley, Midwest, Carter, NAFMB, and NBC. Opposing comments regarding this issue were filed by Chicago, Varian, Taft, Marti, Browne Renaud and World. Most opposing comments were based on the belief that Aural Broadcast STL occupation of the band would hamper its use by services to which the band is currently available, and made reference to the increasing interest in the use of the band for omnidirectional video service on the part of common carriers. (Further treatment of this aspect will be dealt with after the summaries of comments filed.) Varian's

[1] These comments were designated for Docket No. 18262, but their contents were applicable to Docket No. 19130.

V 37-83 APR 28 72 XUM

comments expressed the belief that the mixing of omnidirectional and point-to-point operations in the same band would greatly increase the possibility of mutual interference because the omnidirectional TV service would employ multiple receiving locations anywhere within a 360-degree pattern with directional antennas which may be oriented toward STL transmitters capable of causing harmful interference. Comments were also received regarding other possible uses of the band 2150–2160 MHz, for other than Aural Broadcast STL purposes. For example, the comments of NAB urged that provision should also be made in that band for aural intercity relay, as well as STL operations, on the basis that both are essential to providing broadcast stations with program material of high technical quality. This was based on the belief that the high loading in the band 947–952 MHz by STL stations would require intercity relay operations to go to other bands. Further, the NAB comments also urged that Low Power Auxiliary Broadcasting Stations be excluded from the band 2150–2160 MHz because of the unpredictable interference they might cause to others in the band. The comments of Browne Renaud recommend that because of the light loading of TV auxiliary channels in the Band A (1900–2110 MHz and 2450–2500 MHz), one of these channels could be reserved for Aural Broadcast STL use in lieu of the band 2150–2160 MHz.

5. The Commission's proposal invited comments regarding whether applicants for Aural Broadcast STL Stations in the band 2150–2160 MHz should be required to demonstrate, by a special showing, that operation in the band 947–952 MHz would result in harmful interference to or from existing users before access to the band 2150–2160 MHz would be permitted. Further, with reference to the possible Aural Broadcast STL use of the 2150–2160 MHz band, our notice indicated that the STL stations would be assigned frequencies as close as possible to the upper or lower edges of the band to preclude fragmentation of the band to the detriment of those with a wide-band requirement. A number of comments referred to these points. UTC and Varian supported the requirement for a special showing. On the other hand, Moseley, NAB and NAEB believed that the choice of bands should be left to the discretion of the applicant. In part, this was based upon the belief that this choice would encourage the development and availability of STL equipment for the band 2150–2160 MHz. The comments of Chicago urged that, in the event Aural Broadcast STL assignments were permitted in the 2150–2160 MHz band, they should be limited to a total of 2 MHz at most, and Taft suggested that such assignments be limited to 2 MHz at the upper or lower ends of the band.

6. Regarding the examination of the channeling and technical standards now required for Aural Broadcast STL stations in the band 947–952 MHz band, as proposed in our notice, a number of very helpful comments were filed. A change from 500 kHz channels to 250 kHz channels was widely advocated. Moseley, NBC, Varian, Taft, Marti, NAB, and NAEB filed comments recommending this change. Several, including Moseley, stated that one 250 kHz channel would be adequate for monaural FM STL use and two 250 kHz channels would be adequate for stereo FM use. There was general agreement that such bandwidths would provide high quality program channels and, in addition would leave space for the multiplexing of SCA (subsidiary communications) and transmitter control circuits. A reduction to 250 kHz was opposed by Midwest, based on its opinion that a 500 kHz channel was necessary to provide space for two STL stereo transmitting channels for left and right channels, and Carter's comments indicated that channels less than 250 kHz wide would preclude the "piggybacking" of control circuits and subsidiary communications (SCA). Carter and NAB also advocated the use of 250 kHz channels in the band 2150–2160 MHz for Aural Broadcast STL assignments made in that band. Both Moseley and Segal recommended that, based upon 250 kHz channeling for Aural Broadcast STL stations in the 947–952 MHz band, the first assignable frequency should be 947.125 MHz.

7. Regarding the question of possible adoption of channels less than 250 kHz wide for Aural Broadcast STL stations serving AM Broadcast stations, as raised in the Commission's proposal. Cohen's engineering statement advocated the use of the same bandwidth to permit the same basic equipment to be used by both, although he acknowledged that the requirements for a standard broadcast aural STL may not be as rigorous as those serving an FM Broadcast Station. Moseley's comments express a strong belief that a channeling assignment plan based on the narrowest known requirement, viz., 30 kHz for standard broadcast stations, would lead to interference among users and would be extremely difficult to administer.

8. Moseley and Marti recommend reductions in the frequency tolerance for Aural Broadcast STL stations. Moseley recommended that § 74.561 be amended to change the frequency tolerance of the operating frequency of STL stations to within .001 percent of the assigned frequency. Marti recommends that transmitter and receiver tolerance be restricted to .0005 percent, or better. (Section 74.561, which has been in effect for a number of years, requires a frequency tolerance of 0.005 percent for Aural Broadcast STL and Intercity Relay Stations.) Marti also recommends the use of cross-polarization of antennas on adjacent channels.

9. The Commission's proposed disposition of "out-of-band" operations in the band 942–947 MHz was supported by NAB and NAEB. Both recommended that all present broadcast use of the band be permitted to continue on a secondary basis to the land mobile service to which the band was reallocated in Docket 18262.

10. Midwest and NAB comments supported the Commission's proposal to preclude use of the band 947–952 MHz by TV Broadcast STL Stations relaying the aural portion of TV program material, as now provided under § 74.603(b), and to reserve the band for use by Aural Broadcast STL Stations serving AM and FM stations, only. In general, those comments expressed the belief that it was now normal practice to carry the aural portion of TV program material by means of a subcarrier, along with the video program material, in higher frequency bands already available for television STL stations. The NBC comments express the view that better program continuity can be maintained by the use of separate STL stations for relaying aural and video program material to TV stations and that in smaller markets there would be sufficient Aural Broadcast STL channels to permit their shared use by AM, FM and TV stations. Moseley stated that the number of Aural Broadcast STL channels in the band 947–952 MHz and the additional channels in the band 2150–2160 MHz would make it unnecessary to preclude such shared use by TV stations.

11. A number of comments urged that current provisions in the rules be continued to permit the operation of Low Power Broadcast Auxiliary Stations in the 900 MHz region. The NBC comments stated that restricting the operation of such stations to the band 947–952 MHz would severely impair their usefulness at political conventions and other events of wide interest to the public and that experience at the 1968 Democratic and Republican National Conventions demonstrated that all of the 10 MHz of spectrum space was required for satisfactory operation of the numerous units used simultaneously by the three national networks. On that basis, NBC urged that these Low Power Broadcast Auxiliary Stations be permitted to continue to operate on any frequency within the band 942–952 MHz. The comments of CBS stated that Low Power Broadcast Auxiliary Stations, licensed under § 74.437 of the Commission's rules, included such devices as cue and control signal transmitters and wireless microphones, licenses for which may currently be issued to television, as well as AM and FM broadcast station licensees in bands including 942–952 MHz. The CBS comments further stated that this is the only band in which Low Power Broadcast Auxiliary Stations may be used for the transmission of synchronizing signals and various control signals to portable or hand-carried TV cameras under the provisions of § 74.437(c) of the rules and assumed that the Commission did not intend, in Docket No. 19130, to preclude their continued use. The Cullum comments support those of CBS but recommend that any rules adopted should permit the continued availability of the 947–952 MHz band for Low Power Broadcast Auxiliary Station uses now permitted under § 74.437(c) and (e) of the rules. The reply comments of NAEB supported those of the networks, and

others, which urged retention of existing provisions for Low Power Broadcast Auxiliary Station operations within the band 947–952 MHz.

12. In addition to the above summaries of comments on the subjects indicated, certain comments which were filed dealt, in part, with matters clearly not within the scope of this joint proceeding. The NAB comments, for example, refer to a petition which NAB filed with the Commission on January 8, 1971 (RM–1735) in the matter of revising Part 74 Subparts D, E and F which, if granted, would, among other things, provide a 1 MHz band (for ten 100 kHz channels) in the upper part of the 947–952 MHz band for "transmitter-studio-links (TSL)" use, on a secondary basis. These links would provide for the transmission of telemetry information to a remote control location prior to the activation of the main transmitter, and NAB stated that such links must be provided for as requested in the above referenced filing. The Varian comments suggested that, as part of this present rule making action, the Commission should eliminate § 91.554(b)(22) of the rules, which provides for the use of various frequencies in the 952–960 MHz band for central station commercial protection service use, and that the band 2150–2160 MHz be reserved for the exclusive use of common carriers for "subscriber-programmed television service and related publicly available non-video services." Because of the reason given above, the comments summarized in this paragraph will not be considered further in this proceeding.

13. A number of comments received indicated that the Commission's notice of proposed rule making and Notice of Inquiry in Docket No. 19130 did not state with sufficient clarity whether it proposed that Low Power Broadcast Auxiliary Stations licensed to TV station licensees be excluded from operating on frequencies in the 900 MHz region, such as now provided in § 74.437 (c) and (e) of the rules. It was the Commission's intention to propose that such operations not be permitted in the band 2150–2160 MHz, because of the unpredictable nature of the interference which such stations could cause to others operating in the band. The Commission recognizes the importance of such stations for the transmission of synchronizing and various control signals to portable and hand-carried TV cameras, as well as the transmission of wireless microphone and cue signals.

14. Earlier reference was made above, in paragraph 4, to the increased interest recently shown in the use of the 2150–2160 MHz band for omnidirectional common carrier services and it was stated that this aspect would be treated further. This interest was strongly reflected in the comments filed. The comments of Chicago, for example, requested that all of the band be reserved for the exclusive use of omnidirectional television services on a common carrier basis. The comments further described a survey by Chicago and Varian which indicated to them that there is a large potential market for such services, including applications such as video instructional training in industry, continuing professional education, instruction in public and private schools and in municipal government functions. Chicago stated that it had initially requested the use of a 6 MHz channel, but indicated that it was also interested in other services which could be provided in the remaining 4 MHz. Chicago's comments also stated that a need exists for higher definition TV requiring an 8 MHz channel, instead of 6 MHz, to meet special needs such as the demonstration of new concepts in surgery by medical groups. Varian opposed any use of the band by Aural Broadcast STL Stations, at least for the present. World expressed a need for the entire band for omnidirectional common carrier services, as did Taft and Browne Renaud. In general, the above respondents went to considerable length to underscore and describe the large demands which they believed would be made on the band for omnidirectional common carrier services, including video and additional other types of transmissions. Of perhaps more significance is the fact that since the 3.5 MHz bandwith limitation was removed in 1970 for omnidirectional common carrier use of the band 2150–2160 MHz, the Commission has currently pending 148 applications in 93 cities for wide band common carrier services to be conducted in the band. This is in direct contrast to the previous light usage made of the band, as indicated in the Commission's notice of proposed rule making and notice of inquiry in Docket No. 19130.

15. Because of the developments outlined above, the Commission, after further review, has concluded that the present indicated requirements for omnidirectional common carrier use of the band 2150–2160 MHz would severely limit any shared future use of the band by Aural Broadcast STL Stations, especially since the maximum anticipated requirements for both uses appear to be in a relatively small number of our larger cities. Although the band is also now available for use by omnidirectional point-to-point stations in all other services except broadcast and auxiliary broadcast, no assignments in such services have been made. Accordingly, the Commission is withdrawing those portions of our notice of proposed rule making and notice of inquiry in Docket No. 19130 which concern the proposed shared use of the band 2150–2160 MHz by Aural Broadcast STL Stations. As indicated in the title of this document, the Commission is now proposing, in a new Docket No. 19494, the use of frequencies between 2110 and 2113 MHz for such STL stations. The matters now become the subject of a joint proceeding. Further, the Commission believes that it would be inappropriate to take final action at this time on other matters previously proposed in Docket No. 19130 regarding the future accommodation of certain Broadcast Auxiliary Stations in the 900 MHz region of the spectrum, because such matters are directly related to the possible use of frequencies between 2110 MHz and 2113 MHz for Aural Broadcast STL Stations, as proposed herein.

16. In the Commission's rules (§ 2.106), the band 2110–2130 MHz is allocated in the United States to the Fixed Service for use by stations in the domestic fixed public service which are operated by "wireline" common carriers. Current FCC service rules governing the use of the band are in Part 21, "Domestic Public Radio Services (Other than Maritime Mobile)". These rules make the band available for use by stations operating in the "Point-to-Point Microwave Radio Service" and, on a shared basis, by control and repeater stations functioning in conjunction with the Domestic Public Land Mobile Radio Service. At present, there are no assignments to stations in the latter category between 2110 MHz and 2113 MHz. The band 2110–2130 MHz is now used primarily for narrow band, common carrier stations in the Point-to-Point Microwave Radio Service, with generally paired assignments in the 2160–2180 MHz band for full duplex transmission. In a concurrent notice of proposed rule making,[1] the Commission is proposing to provide in the larger cities, two wideband (6 MHz) channels for use by omnidirectional common carrier video services between 2150 MHz and 2162 MHz (plus the possible use of an additional 1 MHz for a guard band between these channels). This space is proposed for use by a new Multi-Point Distribution Service. Such a 2 MHz or 3 MHz incursion into the lower end of the band 2160–2180 MHz could efficiently permit the 3 MHz at the lower end of the band 2110–2130 MHz to be made available for use by Aural Broadcast STL Stations without substantially further limiting the potential of the band for two-way communications. Studies indicate that the common carrier use of the band 2110–2130 MHz and the band 2160–2180 MHz are primarily in rural areas, which would be compatible with the proposals herein involving certain larger metropolitan areas only.

17. More specifically, the Commission is proposing in this joint proceeding that applicants for Aural Broadcast STL Stations, who are also licensees of AM and FM Broadcast Stations, would be permitted to utilize frequencies between 2110 MHz and 2113 MHz in ten of our larger cities where it appears that the band 947–952 MHz cannot be expected to provide sufficient channels for such stations to meet growing requirements. In those few cases where existing common carrier operations would serve to preclude such shared STL use, it is proposed to require such operations to shift to other frequencies. Footnote US90 in Section 2.106 would require that the use of frequencies between 2110 MHz and 2113 MHz by Aural Broadcast STL Stations would be subject to coordination with satellite earth stations in the band 2110–2120 MHz. Such earth stations presently operate only at Goldstone, California;

[1] See notice of proposed rule making in Docket No. 19493, adopted April 19, 1972.

V 37-83 APR 28 72 XUM

Kauai, Hawaii and Guam. This is not expected to present problems in the use of frequencies between 2110 MHz and 2113 MHz in major metropolitan areas. Also, footnote NG23 provides that frequencies in the band 2110–2200 MHz may also be assigned to stations in the international fixed public radio service located south of 25°30′ north latitude in the State of Florida and in U.S. possessions in the Caribbean area. It is proposed that Rule provisions for this would be made by adding a new footnote applicable to the band 2110–2130 MHz in the Table of Frequency Allocations and by amendments to appropriate rule sections in Part 74 governing Broadcast Auxiliary Stations. Specific rule amendments are not proposed herein because they can be evolved only after careful review of the anticipated comments in response to this further notice of proposed rule making. New assignments for common carrier use of frequencies between 2110 MHz and 2113 MHz near the ten cities would be limited to those carriers which could show that no reasonable alternative was available and on the condition that they cause no interference to Aural Broadcast STL Stations, as proposed in the concurrent notice of proposed rule making referred to in footnote 1. It is proposed to make frequencies between 2110 MHz and 2113 MHz available only to Aural Broadcast STL Stations serving AM and FM Broadcast Stations, which would not provide for the STL use of those frequencies for the relaying of the aural portion of TV program material to TV Broadcast Stations and would also not provide for the use of such frequencies by Aural Broadcast Intercity Relay Stations or Low Power Broadcast Auxiliary Stations.

18. Comments are invited regarding this further notice of proposed rule making which proposes the use of frequencies between 2110 MHz and 2113 MHz by Aural Broadcast STL Stations and related matters. The summaries of comments filed in response to the previous notice of proposed rule making and notice of inquiry in Docket 19130 have been included because they deal with the matter of total frequency requirements of Aural Broadcast STL stations, and to some extent, with the matter of technical requirements which may be made applicable to Aural Broadcast STL operations in the 2000 MHz region of the radio spectrum. Based on those comments, the current technical standards for common carrier operations in the band 2110–2130 MHz, and other information available, the Commission proposes to adopt rules providing a 250 kHz channeling plan for Aural Broadcast STL operations between 2110 MHz and 2113 MHz. It is believed that one 250 kHz channel would be capable of providing a program channel of high technical quality, as well as multiplex sub-channels for SCA and remote control transmissions. Also, it is proposed that the rules should permit the authorization of two 250 kHz channels to provide for the greater bandwidth requirements of Aural Broadcast STL Stations serving FM Stereo Broadcast Stations, if applicants provide an adequate showing of need. These two 250 kHz channels would be adjacent, in the case of composite stereo STL operations, but would not need to be adjacent where individual STL facilities are used for left and right stereo program channels. However, there appear to be unresolved questions concerning which of the two systems offers the greater advantage, especially from the standpoint of better frequency utilization and management. Regarding the possible improvement in frequency tolerance for STL stations, it appears that its value should be reduced from plus or minus .005 percent to plus or minus .001 percent, or less, of the assigned frequency. Further, comments are requested regarding whether a tighter tolerance should also be adopted applicable to stereo Aural Broadcast STL Stations using two offset carriers for left and right channels. The value presently required in § 74.502(a) is .001 percent of the assigned frequency for such operations. Attention is invited to the comments of Moseley and Martl, summarized in paragraph 8, above.[3]

19. Specific comments are also invited concerning the question of whether applicants for Aural Broadcast STL stations on frequencies between 2110 MHz and 2113 MHz should be required to demonstrate by a special showing that their STL operation could not be accommodated in the band 947–952 MHz without resulting in harmful interference to or from stations already authorized to use the latter band. Also, comments are invited on the subject of how channels and frequencies should be selected for assignment to Aural Broadcast STL stations between 2110 MHz and 2113 MHz, if those frequencies become available for such stations. It is pointed out that in the Table of Frequency Allocations (§ 2.106) existing footnote NG10 requires that frequency assignments for common carrier stations in the band 2110–2130 MHz should be selected on the basis of using the highest frequency which will not result in harmful interference to stations in the same area already assigned frequencies in accordance with the Table of Frequency Allocations. This indicates that more efficient use of the band and fewer frequency conflicts would result if assignments to Aural Broadcast STL Stations were made from the lower edge of the band (2110 MHz) upward, the first assignable frequency being 2110.125 MHz if a 250 kHz channel width were to be adopted.

20. In paragraph 17, above, it was stated that the Commission was herein proposing the use of frequencies between 2110 MHz and 2113 MHz by Aural Broadcast STL Stations in 10 of our larger cities where the frequency requirements for such stations appear greatest. Because it appears that common carrier operations in or near most of these cities are minimal, it is believed that interference conflicts with STL operations in the same areas can be avoided if frequency assignments are properly engineered.[4] Although the greatest requirements for Aural Broadcast STL assignments are generally limited to a relatively few of our larger cities (or urbanized areas), their population is not the determining factor. Instead, these requirements are also greatly influenced by other factors such as the topography of the area, the location and height of the taller buildings which make up the "sky line" of a city and the number and locations of broadcast stations serving the area. In addition, there are factors such as the availability and reliability of high-quality wire line circuits to carry program material and other transmissions from studios to transmitter sites under a wide variety of conditions, and of course, economic considerations are involved when broadcasters choose between the use of wire lines and STL facilities. Accordingly, our studies show that the largest demand for channels for Aural Broadcast STL Stations presently occurs in the following principal cities in the order listed:

1. Los Angeles, California
2. San Juan, Puerto Rico
3. San Francisco, California
4. Dallas, Texas
5. Denver, Colorado
6. Chicago, Illinois
7. Salt Lake City, Utah
8. Houston, Texas
9. Albany, New York
10. New York, New York

The Commission proposes to permit Aural Broadcast STL assignments within 50 miles of the coordinates of the above cities (as set forth in the U.S. Department of Commerce publication "Air Line Distances Between Cities in the United States"). That distance appears adequate to also accommodate STL requirements in nearby large cities such as Oakland, Calif.; Fort Worth, Tex., and Schenectady and Troy, N.Y. However, comments are invited concerning the composition and adequacy of the above list, including the rationale and data employed in arriving at conclusions reached.

[3] Because the equipment employed by Aural Broadcast STL and Intercity Relay Stations is, with few exceptions, identical, our present rules setting forth the technical standards applicable to such stations are the same. (See Part 74, Subpart E.) Accordingly, it is proposed that any changes in such standards applicable to Aural Broadcast STL Stations which are adopted in this proceeding will also be made applicable to Aural Broadcast Intercity Relay Stations, as appropriate.

[4] A preliminary survey of the areas in question indicates little likelihood of conflict between existing users and potential STL use, with the possible exception of San Juan, Puerto Rico, and Los Angeles, California. However, in those few cases where existing common carrier stations are found to block full use of frequencies between 2110 MHz and 2113 MHz by Aural Broadcast STL Stations, the common carrier stations would be required to shift to other frequencies in the band 2110–2130 MHz. In essence, it is proposed that, in the ten areas specified, common carrier operations would be on a secondary basis to Aural Broadcast STL operations on frequencies between 2110 MHz and 2113 MHz. This would be stipulated in appropriate rule amendments.

21. Authority for this proposed rule making is contained in section 4(i), 303 and 403 of the Communications Act of 1934, as amended. All interested persons are invited to file written comments on these proposed rules on or before July 5, 1972, and reply comments on or before August 7, 1972. In reaching its decision in this matter the Commission may take into account any other relevant information before it in addition to the comments invited by this notice.

22. In accordance with the provisions of § 1.419 of the Commission's rules, an original and 14 copies of all comments, replies, pleadings, briefs, or other documents shall be furnished to the Commission. Responses will be available for public inspection during regular business hours in the Commission's Public Reference Room at its headquarters in Washington, D.C.

Adopted: April 19, 1972.

Released: April 26, 1972.

[47 CFR Parts 2, 74]

[Docket No. 17022; FCC 72-343]

AUDIO FREQUENCIES

Report and Order Regarding Terminating Proceeding

In the matter of amendment of Parts 2 and 74 of the Commission's rules to reallocate the frequency bands 450.5–451 MHz and 455.5–456 MHz to the Land Mobile Service in general (other than remote pickup) and to reduce to 50 kHz the spacing between assignable frequencies in the bands 450–450.5 MHz and 455–455.5 MHz for use by remote pickup stations, Docket No. 17022.

1. On November 30, 1966, the Commission adopted a notice of proposed rule making (31 F.R. 15491) proposing to reduce the spacing between assignable frequencies in the remote pickup broadcast auxiliary bands in the range 450–460 MHz and to reallocate half of each of these bands to other land mobile services, excluding remote pickup. It was the Commission's intent in those proposals to provide some limited relief to the congested services by increasing the utilization of the lightly used remote pickup bands.

2. Comments filed in response to the notice (a list of parties filing comments and replies is attached) generally supported the channel splitting proposal. Broadcasters, however, strongly opposed any loss of remote pickup spectrum based on their own projected frequency needs. The Commission now has before it a petition to terminate proceedings in this docket filed by the National Association of Broadcasters (NAB). NAB contends that the proposals made in this proceeding in 1966 are no longer meaningful in light of the more recent FCC decisions in Dockets 13847, 18261, and 18262[1] dealing broadly with land mobile frequency requirements. NAB views continuation of the instant proceeding as an unnecessary deterrent to the further growth of remote pickup facilities and asks that the proposals be withdrawn and the proceeding terminated.

3. As mentioned above, it was the Commission's purpose in this proceeding to correct what appeared to be an imbalance in channel loading between the remote pickup UHF bands and those allocated to other land mobile services. At the time the notice was issued, utilization of the remote pickup bands was relatively light compared with that of other land mobile allocations which were becoming congested in some of the larger metropolitan areas. Through channel splitting and reallocation of a portion of the remote pickup spectrum, the Commission hoped to afford some temporary relief to the congested services without seriously affecting remote pickup operations. However, as pointed out by NAB, the Commission has since completed a number of other rule making actions which, when fully implemented, will provide more general long term relief to the land mobile service. Moreover, examination of the Commission's assignment records indicates considerable growth in the number of remote pickup assignments in the UHF bands. Most, if not all, of the presently available channels in this range are now assigned in many of the larger metropolitan areas. For example, only one unassigned channel was found in Chicago and none in the cities of New York and Los Angeles. Clearly, additional channels will be needed if the service is to continue to grow in these areas.

4. Considering the above, the Commission has decided to grant NAB's request and is withdrawing the proposal to reallocate a portion of the remote pickup bands to other land mobile radio services. Also, it is noted that there is pending before the Commission a petition by NAB (RM 1735) requesting a number of amendments to Part 74 of the Commission's rules dealing with the Auxiliary Broadcast Services in general. Included in that petition is a proposed frequency assignment plan for the NHF remote pickup bands based on reduced separation between assignable frequencies. The Commission will therefore defer a final decision on channel splitting in these bands pending consideration of RM 1735 in a separate proceeding.

5. *Accordingly, it is ordered,* Pursuant to authority contained in sections 4(i) and 303 of the Communications Act of 1934, as amended, that the proceeding in Docket 17022 is hereby terminated.

Adopted: April 19, 1972.

Released: April 25, 1972.

[Docket No. 19491; FCC 72-355]

FM BROADCAST STATIONS IN CERTAIN CITIES IN VIRGINIA, CALIFORNIA, AND PUERTO RICO

Table of Assignments

In the matter of amendment of § 73.202, *Table of Assignments,* FM Broadcast Stations (Front Royal, Va.; Morro Bay, Calif.; Vieques, P.R.), Docket No. 19491, RM–1769, RM–1789, RM–1792.

1. We have before us, for consideration, three petitions, each requesting the institution of rule making looking toward the assignment of a new FM channel. They each deal with different communities and will be discussed seriatim. All population statistics cited are from the 1970 U.S. Census.

RM–1769, FRONT ROYAL, VA.

2. On March 19, 1971, WFTR, Inc. (WFTR) filed a petition with this Commission requesting the assignment of FM

[1] Second Report and Order, Docket 13847, 33 F.R. 3114; First Report and Order, Docket 18261, 35 F.R. 8634; First Report and Order and Second Notice of Inquiry, Docket 18262, 35 F.R. 8644.

[2] Commissioners Johnson and H. Rex Lee absent.

[5] Commissioners Johnson and H. Rex Lee absent.

V 37-83 APR 28 72 XUM

Channel 237A to Front Royal, Va. No other revisions in our Table of Assignments were proposed. No comments were filed in respect to the petition.

3. Front Royal, Va. (population 8,211) is the county seat of Warren County (population 15,301). The only standard broadcast station in Front Royal (WFTR), a Class IV operation, is licensed to the petitioner. Channel 257A is occupied by Wayside Broadcasting Corp. which holds a CP for WFFV at Front Royal. It is the only FM assignment in the community.

4. Petitioner commences its public interest showing concerning the need for an additional FM assignment at Front Royal by stating:

> Front Royal, Va., is the gateway to the Shenandoah National Forest and the Skyline Drive. The industry of the area is largely dependent on the heavy tourism. During 1970, there were 2,411,500 visitors to the Shenandoah National Forest. It is anticipated that this number of tourists will substantially increase as Route 66 linking Washington, D.C., to Front Royal, is partially completed, and a link from Front Royal to Route 81 is almost completed. Completion of these routes will not only increase the number of tourists visiting Front Royal, but will also result in rapid growth and industrialization of the community.

It is asserted that only 12 of Virginia's 96 counties have a higher per capita income than Warren County, and that only eight have a higher median income. A showing is made that over one-half of the population of Warren County is under 31 years of age, and that the average family size of the population is 3.42 persons. Over two-thirds of these families have children under 18 years of age. Thus, it is submitted that Warren County and Front Royal are dynamic and growing areas. WFTR points out that its AM operation is severely limited in its nighttime coverage and that the proposed FM service would increase the nighttime coverage of its present programing from nine square miles to 615 square miles.

5. In light of the facts that, no oppositions have been filed, no existing FM assignments will be disturbed under the proposal and, that a preliminary showing appears to have been made that Front Royal needs an additional aural broadcast service, we consider it in the public interest to explore WFTR, Inc.'s proposal to assign Channel 237A to Front Royal, Va., in this rule making proceeding.[1]

RM–1739, MORRO BAY, CALIF.

6. On April 9, 1971, Mineral King Broadcasters and Mr. Elbert H. Dean, a joint venture doing business as Morro Bay Broadcasters (Bay Broadcasters), filed a petition (supplemented on May 14, 1971) with this Commission requesting the assignment of FM Channel 283B to Morro Bay, Calif. No other changes in our FM allocation table are required or proposed. No comments concerning the petition were filed.

7. San Luis Obispo County, Calif., has a population of 105,690 persons. It contains the small city of Morro Bay with 7,109 residents. Our FM Table of Assignments contains no assignment for Morro Bay. KBAI expects to serve the community as a daytime-only standard broadcast station. Petitioner presently holds a CP (BP–14338) for its construction.

8. Petitioner advises us that the majority of the people in San Luis Obispo County reside in a relatively narrow 12 mile strip along the Pacific Coast and that the immediate Morro Bay shopping area contains approximately 27,000 people since it includes persons living in Cambria, San Simeon and Baywood Park. It is maintained that Morro Bay, as many other communities in California, has a very high level of population growth. Too, it is projected that the relative importance of Morro Bay to San Luis Obispo County will continue to increase (in 1950 the city held 4.9 percent of the total population of the county, a figure that it expected to increase to 10.6 percent by 1975). The community has the only natural landlocked harbor, with a navigable entrance, between San Francisco and Los Angeles. Although an important part of the community's economics rests on tourism, there are a significant number of persons who are permanent residents and employed as managers, officials, and proprietors, craftsmen, foremen, and service workers. The labor force is predominantly engaged in services, wholesale and retail trade and contract construction, with a substantial number also engaged in transport, communications, and utilities industries. It is projected that the city of Morro Bay will increase its share of San Luis Obispo County's personal income from 6.4 percent in 1960 to 9.4 percent by 1985. Bay Broadcasters maintains that the proposed FM station could be used to provide Morro Bay and the surrounding area with broadcasts of agricultural reports, community events, and public affairs programming not now, and not expected to be, available on a local basis during evening and nighttime hours. During times of emergency, a nighttime FM service, petitioner forwards, could be most helpful by broadcasting storm warnings and road condition notices. Petitioner points out that Morro Bay has substantial mountains to the north, east and south with the Pacific Ocean lying to the west. Because of these topography facts it is maintained that the community and surrounding area need a Class B rather than a Class A fulltime radio service.[2] A showing is also made which indicates that the assignment of Channel 283B to Morro Bay will not have a preclusionary effect on other assignments which would be opposed to the public interest.

9. In view of the foregoing, we have come to the judgment that the public interest would be served by setting forth petitioner's proposal (the assignment of Channel 283B to Morro Bay, Calif., in this rule making proceeding, in order to explore the public interest factors involved in such an allocation.

RM–1792, VIEQUES, P.R.

10. On May 7, 1971, Mr. Carlos Juan Colon Ventura filed a petition with the Commission requesting the assignment of FM Channel 255B to Vieques, P.R., as a simple "drop-in". The record contains an opposition, in the form of a letter, from Mr. Riggin Dapena.

11. There is no FM assignment on the small isand of Vieques, P.R., with its population of 7,767 residents. WIVV, a standard broadcast station, is licensed to the Calvary Baptist Mission of Puerto Rico, on Vieques. On July 30, 1970, Vieques Radio Corp. (with which Mr. Dapena is connected) tendered an application for a new standard broadcast station to be located on Vieques Island. Accompanying the application was a request for a waiver of our "freeze" on AM applications. The application and request for a waiver are presently under consideration by the Commission.

12. Vieques Island is located approximately 9 miles east of the main island of Puerto Rico. It measures 5 miles in width by 20 miles in length with a total land area of 52 square miles. Petitioner points out that in addition to the normal residents on the island, the island is host to approximately 3,000 military personnel located at the island's U.S. Naval base. Vieques produces approximately 50,000 to 60,000 tons of sugarcane annually, apparently its main crop. Fishing in the Caribbean around Vieques is both a sport and a business. It is asserted that:

> • • • there are 161 business establishments on Vieques, including three wholesale trade establishments, 137 retail establishments, and 21 service establishments • • • Tourists are attracted to Vieques by the excellent beaches, a phosphorescent bay and the rolling pasture and sugarcane country. Transportation to Vieques is supplied by ferry from Fajardo and by air from San Juan and several other Puerto Rican towns. To stimulate the tourist trade and the economic development of Vieques, the local government is sponsoring a program to restore "El Fortin," one of the island's historical attractions, and to include a cultural center and a restaurant in the project • • • A proposal has also been made to develop the island as a free port or free trade zone to further stimulate commercial development, and both the Governor of Puerto Rico and the Administrator of Economic Development have promised to accelerate industrial development in Vieques.
>
> This development of Vieques will add to the economic support of an FM station located on this island. But, even more significantly, a Vieques FM station will help to stimulate Vieques' development by providing a needed source of information about events on the island and by offering the only diversified broadcast service to civilian and military residents and visitors alike • • • Without this assignment, the people of Vieques will be left without any local FM service and without any truly local commercial broadcast service • • •

Petitioner brings to our attention the fact that WIVV primarily broadcasts religious programing and is, basically, supported by donations. Mr. Ventura states his proposed operation, in contrast, would provide local commercial programming concerning news, public affairs, political discussion and entertainment. In conclusion, the petition makes a showing that FM Channel 255B can be assigned to Vieques without precluding the assignment of this channel or, any of the 6 adjacent channels at any community of more than 2,500 persons which does not already have an FM assignment.

13. Mr. Dapena opposes the assignment of any FM channel to Vieques primarily on two grounds: First, he believes that FM radio service is, in some way, inferior to AM radio service. In support of this belief he alleges that there are exceedingly few FM receivers on Vieques. Second, Mr. Dapena holds the belief that the ultimate issuance of a construction permit for an FM assignment at Vieques will prevent the issuance of a construction permit for the AM station he and Vieques Radio Corp. seek to establish on the island. With regard to Mr. Dapena's first point, we must comment that the number of FM receivers presently, or in the future, in the hands of the Vieques public is a factor which surely will be considered, as part of a business judgment, by any applicant for an FM station on Vieques. In respect to Mr. Dapena's second point, we must point out simply that he is mistaken. The issuance of a construction permit for any FM channel to be assigned to Vieques will not necessarily preclude the issuance of a construction permit for an AM station there. All applications are considered on the basis of whether they are in the public interest. To clarify an additional misconception held by Mr. Dapena, the grant of the subject petition for an FM assignment at Vieques in no way determines the ultimately successful applicant for the use of that FM frequency. If an assignment is made, applications for the frequency's use will be entertained from any member of the public.

14. From the above, we conclude that it is in the public interest to explore the possible assignment of FM Channel 255B to Vieques, P.R. in this rule making proceeding.

15. With the above material and public interest findings before us, we propose, for consideration, the following revisions in our FM Table of Assignments (§ 73.202 of our rules) with respect to the cities listed below:

City	Channel No.	
	Present	Proposed
Morro Bay, Calif.		283
Vieques, P.R.		255
Front Royal, Va.	257A	237A, 257A

16. Authority for the actions proposed herein is contained in sections 4(i), 303, and 307(b) of the Communications Act of 1934, as amended.

17. Showings required: All proponents of the proposed allocations should file comments with respect to the need of the proposed assignments. They may do so, in large part, by describing the economics, sociology, and importance of the subject community. This, in order to give the Commission the information it must have to render the required judgment that the assignment would be in the public interest. In the event a proponent is of the view that an adequate public interest showing has been made, a comment should be filed incorporating formal pleadings by reference and stating a current intent to apply for the FM channel of interest, if assigned. Failure to file may lead to denial of the request.

18. Cutoff procedure: As in other recent FM rule making proceeding, the following procedures will govern:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments.

(b) With respect to petitions for rule making which conflict with the proposals in this notice, they will be considered as comments in the proceeding, and public notice to this effect will be given, as long as they are filed before the date for filing initial comments herein. If filed later than that they will not be considered in connection with the decisions herein.

19. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before June 2, 1972, and reply comments on or before June 12, 1972. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings.

20. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

21. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its headquarters at 1919 M Street NW., Washington, DC.

Adopted: April 19, 1972.

Released: April 25, 1972.

FEDERAL COMMUNICATIONS COMMISSION,[3]
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72–6512 Filed 4–27–72;8:48 am]

[3] Commissioners Johnson and H. Rex Lee absent.

[1] Due to the existence of Station WQMC on Channel 237A at Charlottesville, Va., the transmitter site for any Front Royal station established on Channel 237A would have to be located approximately 4 miles north of the community.

[2] It is contended that a Class B FM station, operating with 50 kilowatts and antenna height of 500 feet above average terrain at Morro Bay would provide service to 200,384 persons in an area of 2,639 square miles and that, although it would not provide a first service, it would provide a second service, to 4,090 persons in an area of 698 square miles, or 2.05 percent of the population and 26.5 percent of the area within the 1 mv/m contour. In contrast thereto, Bay Broadcasters asserts that a Class A FM station, operating with a maximum facility, would provide service to 56,561 persons in an area of only 426 square miles, and a second service to 53 persons in an area of 13 square miles, or 0.09 percent of the population and 3.1 percent of the area within the 1 mv/m contour.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Price Commission Ruling 1972–151]

AGGREGATE PRICING SYSTEM

Price Commission Ruling

Facts. Retailer B operates a shoe store. He customarily employs a pricing practice for women's shoes by which he determines all item prices within the category of women's shoes in the following manner. B specifies a weighted average markup of 50 percent to be achieved for the season resulting from all sales expected to be made in that season. The specified markup, purchase order costs, tentative retail prices, and projected sales volume are submitted for computer analysis to achieve the specified markup. If the analysis does not yield the specified markup, the tentative retail prices are adjusted until the mix of retail prices is arrived at which will achieve the specified weighted average markup. If the data used in the calculation to establish the initial selling price changes during the season, selling prices are adjusted accordingly to achieve the specified markup. B plans to continue to establish and adjust his prices by using this same practice.

Issue. May B price women's shoes in this manner for the summer season and be in compliance with § 300.13 of the regulations?

Ruling. Yes, so long as the prices actually charged by B do not result in a weighted average markup for the category of women's shoes during this year's seasonal pricing period which exceeds the weighted average markup actually achieved during the same pricing period during his last fiscal year ending before August 15, 1971. B is using one type of aggregate pricing system to determine selling prices. The customary initial percentage markup under the system used in this case is the weighted average markup achieved on the category during the same pricing period during B's last fiscal year ending before August 15, 1971.

Section 300.13(a)(1) of the regulations, 6 CFR 300.13(a)(1), 37 F.R. 284 (January 8, 1972), permits a retailer to charge a price in excess of the base price after November 13, 1971, for any merchandise only if such price does not result in a "customary initial percentage markup" (CIPM) which exceeds the retailer's last CIPM before November 14, 1971, or at its option, its CIPM, "[D]uring its last fiscal year ending before August 15, 1971." CIPM is defined in section 300.5 of the regulations, 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971), to mean:

"The markup applied to the cost (purchase price actually paid by the selling person and transportation charges to be allocated to the merchandise) of merchandise when first offered for sale, determined on an item, product line, department, store, or other pricing unit basis, according to the person's customary pricing practice.

If a retailer's customary pricing practice is the use of an aggregate pricing system, he may continue to use that practice. A firm that qualifies as a category pricer for all or a portion of its operations must continue to apply the applicable category markups at the lowest level of aggregation of goods to which those markups have been customarily applied. A firm is using an aggregate pricing system if its prior practice was:

(1) To determine prices for a group of items in order to achieve a particular weighted average markup for the entire group. A firm that uses average markup objectives for management control purposes (such as target overall markup percentage for a department) does not necessarily qualify as a category pricer. or,

(2) To determine prices by applying a single markup to a group of items, classified on the basis of such factors as volume purchased, class of customer, or type of products.

It is the responsibility of the retailer to document that his customary pricing practice is the use of an aggregate pricing system.

The maximum category markup for each category is determined by obtaining a weighted average of the markups applied for that category during the company's last fiscal year ending prior to August 15, 1971. In the event a firm determines the prices for all items within the category at the same time, the maximum category markup is, at the option of the firm, the weighted average markup for the last fiscal year as described in the previous sentence or the last category markup applied prior to November 14, 1971.

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 26, 1972.

LEE H. HENKEL, Jr.,
Acting Chief Counsel.

Approved: April 26, 1972.

[Price Commission Ruling 1972–152]

ITEM PRICING SYSTEM—DEPARTMENT STORE

Price Commission Ruling

Facts. Retailer A operates a department store. In order to maintain profit control, he establishes "target" rates of return over merchandise cost for each department. Customarily he has set and changed prices on each item within a department to reflect cost and cost changes on that item. A's "target" rate of return for women's accessories is 50 percent. Markups used on individual items in this category range from 25 percent to 100 percent. The cost of handbags has increased. A wants to increase the prices on all accessories, including handbags, over those which would be permitted if the firm were to apply the customary initial percentage markup (CIPM) for each item to the cost of each item. By doing so, A would offset the increased cost of handbags and, therefore, maintain the target rate of 50 percent return for the whole department.

Issue. Would the price adjustments planned by A be in compliance with § 300.13 of the regulations?

Ruling. No. A has customarily set and changed prices on items within each department to reflect cost and cost changes on that item. Therefore, A has used an item system of pricing in the past and the prices established now on each item must not result in a CIPM on that item in excess of the CIPM allowed under 6 CFR 300.13(a)(1), 37 F.R. 284 (January 8, 1972).

Section 300.13(a)(1) of the regulations permits a retailer to charge a price in excess of the base price for any merchandise after November 13, 1971, only if such price does not result in a CIPM which exceeds the retailer's last CIPM before November 14, 1971, or at its option its CIPM, "[D]uring its last fiscal year ending before August 15, 1971." The limiting CIPM under § 300.13 of the regulations is thus either the last markup for the item applied prior to November 14, 1971, or the top markup in the range of markups which was applied to the item during the retailer's last fiscal year ending before August 15, 1971. Section 300.13(a)(1) of the regulations permits a retailer to select either of these markups and price merchandise now so that the markup used does not exceed the selected markup.

Although A uses categories, such as women's accessories for profit and management control, this is not construed as sufficient evidence of an aggregate pricing system which would permit the use of a category CIPM instead of the CIPM on each item. A may increase prices over base prices only on the handbag items for which he has incurred cost increases, or which he is selling below the limiting CIPM for that item as determined by the interpretation of § 300.13 of the regulations stated above.

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 26, 1972.

LEE H. HENKEL, Jr.,
Acting Chief Counsel.

Approved: April 26, 1972.

[Price Commission Ruling 1972–153]

ITEM PRICING SYSTEM—GROCERY STORE

Price Commission Ruling

Facts. Retailer D operates a grocery store. He prices items by taking into account the supply, demand, and competitive conditions prevailing in his locality at any given time. Although C has set a gross profit control "target" rate of 28 percent over costs for the entire store, he has historically priced goods in a manner that produced a certain percentage markup on each product. The cost of frozen vegetables has increased by 10 percent. Because of competitive conditions, C plans to increase prices over base prices for a variety of grocery products in order to offset the increase in frozen vegetable's cost and to maintain the 28 percent markup goal for the entire store.

Issue. Would the price adjustments planned by D be in compliance with § 300.13 of the regulations?

Ruling. No. D has historically priced goods in a manner that produced a certain percentage markup on each product. Therefore, D has used an item system of pricing in the past and the prices established now on each item must not result in a CIPM on that item in excess of the CIPM allowed under 6 CFR 300.13(a)(1), 37 F.R. 284 (January 8, 1972).

The limiting CIPM under § 300.13 of the regulations is either the last markup for the item applied prior to November 14, 1971, or the top markup in the range of markups which was applied to the item during the retailer's last fiscal year ending before August 15, 1971. Price Commission Ruling 1972–152 (Item Pricing System—Department Store.) Although D uses his whole store as a pricing unit for profit control, this is not construed as sufficient evidence of an aggregate pricing system which would permit the use of a storewide CIPM instead of the CIPM on each item. D may increase prices over base prices only on the items for which he has incurred cost increases, or which he is selling below the limiting CIPM for that item as determined by the interpretation of § 300.13 of the regulations stated above. The burden is on the retailer to document his customary pricing procedure.

This ruling has been approved by the General Counsel of the Price Commission.

Office of Hearings and Appeals

[Docket No. M72-35]

GATEWAY COAL CO.

Notice of Petition for Modification of Mandatory Safety Standard

In regard petition of Gateway Coal Co. for modification of mandatory safety standard (sec. 303(f)), Docket No. M72-35.

In accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. sec. 861(c) (1970)), notice is given that Gateway Coal Co. has filed a petition to modify the application of 30 CFR 75.305 to its Gateway Mine.

30 CFR 75.305 is a repetition of section 303(f) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 863(f) (1970), which reads as follows:

(f) In addition to the preshift and daily examinations required by this section, examinations for hazardous conditions, including tests for methane, and for compliance with the mandatory health or safety standards, shall be made at least once each week by a certified person designated by the operator in the return of each split of air where it enters the main return, on pillar falls, at seals, in the main return, at least one entry of each intake and return aircourse in its entirety, idle workings, and, insofar as safety considerations permit, abandoned areas. Such weekly examination need not be made during any week in which the mine is idle for the entire week, except that such examination shall be made before any other miner returns to the mine. The person making such examinations and tests shall place his initials and the date and time at the places examined, and if any hazardous condition is found, such condition shall be reported to the operator promptly. Any hazardous condition shall be corrected immediately. If such condition creates an imminent danger, the operator shall withdraw all persons from the area affected by such condition to a safe area, except those persons referred to in section 104(d) of this Act, until such danger is abated. A record of these examinations, tests, and actions taken shall be recorded in ink or indelible pencil in a book approved by the Secretary kept for such purpose in an area on the surface of the mine chosen by the mine operator to minimize the danger of destruction by fire or other hazard, and the record shall be open for inspection by interested persons.

Petitioner states that the Gateway Mine is an old mine with many worked-out areas and that the return air entries from Browns Run Shaft to the mouth of the river cannot be traveled today because of numerous roof falls. Petitioner asserts that exorbitant expenditures and years of work would be required to restore the returns to a travelable condition. Petitioner proposes to establish five air measuring stations at certain locations in the returns at which methane and air readings will be made by a certified person and that this will assure that the criteria of section 303(f) will be met. Petitioner asserts that this alternate procedure will guarantee to the miners no less than the measure of protection afforded by section 303(f).

Parties interested in this petition should file their answers or comments within 30 days from the date of publication of this notice in the FEDERAL REGISTER with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

APRIL 20, 1972.

[FR Doc.72-6482 Filed 4-27-72;8:46 am]

[Docket No. M72-36]

POCAHONTAS FUEL CO.

Notice of Petition for Modification of Mandatory Safety Standard

In regard petition of Pocahontas Fuel Co. for modification of mandatory safety standard (sec. 308(f)), Docket No. M72-36.

In accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. sec. 861(c) (1970)), notice is given that the Pocahontas Fuel Co., a division of Consolidation Coal Co., has filed a petition to modify the application of section 308(f) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. section 868(f) (1970), to the Itmann Nos. 1, 2, 3, and 4 Mines, Bishop Nos. 33 and 34 Mines, and Jenkinjones Mine.

Section 308(f) reads as follows:

(f) Couplers that are used with medium-voltage or high-voltage power circuits shall be of the three-phase type with a full metallic shell, except that the Secretary may permit, under such guidelines as he may prescribe, no less effective couplers constructed of materials other than metal. Couplers shall be adequate for the voltage and current expected. All exposed metal on the metallic couplers shall be grounded to the ground conductor in the cable. The coupler shall be constructed so that the ground check continuity conductor shall be broken first and the ground conductors shall be broken last when the coupler is being uncoupled.

Petitioner states that it is using high-voltage potheads at the mines listed and that the potheads were designed as cable terminations rather than cable couplers and are therefore not subject to section 308(f). It states, however, that the Bureau takes the position that the potheads are couplers and are not in compliance with section 308(f). Petitioner asserts that if this is so the application of the standards set forth in section 308(f) will result in a diminution of safety in its mines. It requests that it be permitted to continue the use of the potheads as they are presently installed.

Parties interested in this petition should file their answers or comments within 30 days from the date of publication of this notice in the FEDERAL REGISTER with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director,
Office of Hearings and Appeals.

DEPARTMENT OF AGRICULTURE

Office of the Secretary

UTAH

Designation of Areas for Emergency Loans

For the purpose of making emergency loans pursuant to section 321 of the Consolidated Farmers Home Administration Act of 1961 (7 U.S.C. 1961) and section 232 of the Disaster Relief Act of 1970 (Public Law 91-606), it has been determined that in the following counties in the State of Utah natural disasters have caused a general need for agricultural credit:

Counties:	
Box Elder.	Utah.
Davis.	Washington.
Salt Lake.	Weber.

Emergency loans will not be made in the above-named counties under this designation pursuant to applications received after December 31, 1972, except subsequent loans to qualified borrowers who received initial loans under this designation. Emergency loans will be made under this designation only to producers of fruit in the above-named counties.

The urgency of the need for emergency loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 25th day of April 1972.

EARL L. BUTZ,
Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-461; NADA No. 7-987V]

WINTHROP LABORATORIES

Chloroquine Hydrochloride; Notice of Opportunity for Hearing

In an announcement in the FEDERAL REGISTER of October 4, 1969 (34 F.R. 15504, DESI 7-987V), the Commissioner of Food and Drugs announced the conclusions of the Food and Drug Administration following evaluation of a report received from the National Academy of Sciences-National Research Council, Drug Efficacy Study Group, on Aralen Hydrochloride NADA (new animal drug application) No. 7-987V (a product containing chloroquine hydrochloride), marketed by Winthrop Laboratories, Division of Sterling Drug, Inc., Rensselaer, New York 12144. The announcement invited the holder of said new animal drug application and any other interested persons to submit revised labeling or adequate documentation in support of the labeling used.

No approvable revised labeling has been submitted in response to said announcement and available information fails to provide substantial evidence that this drug will have the effect it purports to have when administered in accordance with the conditions of use prescribed, recommneded, or suggested in its labeling.

Therefore, notice is given to Winthrop Laboratories and to any other interested person who may be adversely affected that the Commissioner proposes to issue an order under the provisions of section 512 of the Federal Food, Drug, and Cosmetic Act (21 U.S.C. 360b) withdrawing approval of NADA No. 7-987V, including all amendments and supplements thereto.

In accordance with the provisions of section 512 of the act (21 U.S.C. 360b), the Commissioner hereby gives the applicant, and any interested persons who would be adversely affected by an order withdrawing such approval an opportunity for a hearing at which time such persons may produce evidence and arguments to show why approval of NADA No. 7-987V should not be withdrawn. Promulgation of the order will cause any drug similar in composition to the above cited drug product and recommended for similar conditions of use to be a new animal drug for which an approved new animal drug application is not in effect. Any such drug then on the market would be subject to appropriate regulatory action.

Within 30 days after publication hereof in the FEDERAL REGISTER, such persons are required to file with the Hearing Clerk, Department of Health, Education, and Welfare, Office of the General Counsel, Room 6-88, 5600 Fishers Lane, Rockville, Md. 20852, a written appearance electing:

1. To avail themselves of the opportunity for a hearing; or
2. Not to avail themselves of the opportunity for a hearing.

If such persons elect not to avail themselves of the opportunity for a hearing, the Commissioner, without further notice, will enter a final order withdrawing approval of the new animal drug application.

Failure of such persons to file a written appearance of election within 30 days will be construed as an election by such persons not to avail themselves of the opportunity for a hearing.

The hearing contemplated by this notice will be open to the public except that any portion of the hearing concerning a method or process that the Commissioner finds entitled to protection as a trade secret will not be open to the public, unless the respondent specifies otherwise in his appearance.

If such persons elect to avail themselves of the opportunity for a hearing, they must file a written appearance requesting the hearing and giving the reasons why approval of the new animal drug application should not be withdrawn together with a well-organized and full-factual analysis of the clinical and other investigational data they are prepared to prove in support of their opposition to the grounds for this notice of opportunity for a hearing. A request for a hearing may not rest upon mere allegations or denials but must set forth specific facts showing that there is a genuine and substantial issue of fact requiring a hearing. When it clearly appears from the data in the application and from the reasons and factual analysis in the request for the hearing that no genuine and substantial issue of fact precludes the withdrawal of approval of the application, the Commissioner will enter an order stating his findings and conclusions on such data. If a hearing is requested and justified by the response to this notice, the issues will be defined, a hearing examiner will be named, and he shall issue a written notice of the time and place at which the hearing will commence.

Responses to this notice will be available for public inspection in the Office of the Hearing Clerk (address given above) during regular business hours, Monday through Friday.

This notice is issued pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-51; 21 U.S.C. 360b) and under the authority delegated to the Commissioner (21 CFR 2.120).

Dated: April 19, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Coast Guard

[CGD 72-72N]

EQUIPMENT, CONSTRUCTION, AND MATERIALS

Approval Notice

1. Certain laws and regulations (46 CFR Chapter I) require that various items of lifesaving, firefighting and miscellaneous equipment, construction, and materials used on board vessels subject to Coast Guard inspection, on certain motorboats and other recreational vessels, and on the artificial islands and fixed structures on the Outer Continental Shelf be of types approved by the Commandant, U.S. Coast Guard. The purpose of this document is to notify all interested persons that certain approvals have been granted as herein described during the period from February 24, 1972, to March 7, 1972 (List No. 8-72). These actions were taken in accordance with the procedures set forth in 46 CFR 2.75-1 to 2.75-50.

2. The statutory authority for equipment, construction, and material approvals is generally set forth in sections 367, 375, 390b, 416, 481, 489, 526p, and 1333 of Title 46, United States Code, section 1333 of Title 43, United States Code, and section 198 of Title 50, United States Code. The Secretary of Transportation has delegated authority to the Commandant, U.S. Coast Guard with respect to these approvals (49 CFR 1.46 (b)). The specifications prescribed by the Commandant, U.S. Coast Guard for certain types of equipment, construction, and materials are set forth in 46 CFR Parts 160 to 164.

3. The approvals listed in this document shall be in effect for a period of 5 years from the date of issuance, unless sooner canceled or suspended by proper authority.

DAVITS FOR MERCHANT VESSELS

Approval No. 160.032/142/3, mechanical davit, steel straight boomsheath screw, Type 24-40, MKII; approved for a maximum working load of 12,000 pounds per set (6,000 pounds per arm), identified by general arrangement dwg. 5011-1E, alteration E dated April 13, 1967, and drawing list GA-5011-2D dated April 14, 1967, manufactured by Marine Safety

No. 49R–1612 dated August 27, 1950 and revised January 28, 1972, if mechanical disengaging apparatus is fitted, it shall be of an approved type and the installation in this particular lifeboat shall be approved by the Commandant, approved for 12-person capacity for replacement lifeboats, 46 CFR 160.035–13(c) Marking, Weights: (steel gunwale) Condition "A"=1,050 pounds; Condition "B"=3,615 pounds, manufactured by Lane Lifeboat Division of Lane Marine Technology, Inc., 150 Sullivan Street, Brooklyn, NY 11231, effective February 28, 1972. (It reinstates and supersedes Approval No. 160.035/89/3 terminated December 4, 1971.)

LINE-THROWING APPLIANCE, IMPULSE-PROJECTED ROCKET TYPE (AND EQUIPMENT), FOR MERCHANT VESSELS

Approval No. 160.040/3/0, Kilgore's general arrangement dwg. No. BP–4158–1–1 dated January 12, 1972, dwg. No. SP–150 revised May 31, 1956; dwg. CP–4140–1–1 dated December 21, 1971; dwg. No. CP–4153–1–1 dated December 21, 1971; dwg. No. BP–4160–1–1 dated January 13, 1972, and drawing list dated February 24, 1972, Model No. GR–52–A2, rockets made to dwg. No. BP–4137–1–1; BP–4136–1–1; CP–4153–1–1, and CP–4140–1–1 with Approval No. 160.040/3/0 may be used with Kilgore's Launcher Model GR–52–A1, manufactured by Kilgore Corp., Toone, Tenn. 38381, effective February 24, 1972.

KITS, FIRST AID, FOR MERCHANT VESSELS

Approval No. 160.041/3/0, first-aid kit, Model No. 600 M, dwg. No. 100A dated February 25, 1952, manufactured by Medical Supply Co., 1027 West State Street, Rockford, IL 61102, effective March 1, 1972. (It is an extension of Approval No. 160.041/3/0 dated May 2, 1967.)

BUOYANT VESTS, KAPOK, OR FIBROUS GLASS

NOTE: For motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.047/511/0, Type I, Model AK–1, adult kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, NY 11201, for Herter's, Inc., Waseca, Minn. 56093, effective March 3, 1972. (It is an extension of Approval No. 160.047/511/0 dated May 9, 1967.)

Approval No. 160.047/512/0, Type I, Model CKM–1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, NY 11201, for Herter's, Inc., Waseca, Minn. 56093, effective March 3, 1972. (It is an extension of Approval No. 160.047/512/0 dated May 9, 1967.)

Approval No. 160.047/513/0, Type I, Model CKS–1, child kapok buoyant vest, U.S.C.G. Specification Subpart 160.047, manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, NY 11201, for Herter's, Inc., Waseca, Minn. 56093, effective March 3, 1972. (It is an extension of Approval No. 160.047/513/0 dated May 9, 1967.)

BUOYANT CUSHIONS, KAPOK, OR FIBROUS GLASS

NOTE: For motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.048/206/0, group approval for rectangular and trapezoidal kapok buoyant cushions, U.S.C.G. Specification Subpart 160.048, sizes and weights of kapok filling to be as per Table 160.048–4(c) (1) (i), manufactured by Atlantic-Pacific Manufacturing Corp., 124 Atlantic Avenue, Brooklyn, NY 11201, for Herter's Inc., Waseca, Minn. 56093, effective March 3, 1972. (It is an extension of Approval No. 160.048/206/0 dated May 9, 1967.)

BUOYANT VESTS, UNICELLULAR PLASTIC FOAM

NOTE: For motorboats of Classes A, 1, or 2 not carrying passengers for hire.

Approval No. 160.052/350/0, Type II, Model BVA, adult vinyl-dip coated unicellular plastic foam buoyant vest, dwg. No. 1001, Rev. 1 dated December 23, 1966, manufactured by Texas Water Crafters, Post Office Drawer 539, Wichita Falls, TX 76307, for Buddy Schoellkopf Products, Inc., 148 Fordyce Street, Dallas, TX 75207, effective March 3, 1972. (It is an extension of Approval No. 160.052/350/0 dated May 26, 1967.)

LIFE PRESERVERS, UNICELLULAR PLASTIC FOAM, ADULT AND CHILD FOR MERCHANT VESSELS

Approval No. 160.055/68/0, Type IB, Model 63, adult cloth-covered unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160.055–IB (Sheet 1 and 2), manufactured by Crawford Manufacturing Co., Third and Decatur Streets, Richmond, VA 23212, effective March 2, 1972. (It is an extension of Approval No. 160.055/68/0 dated May 25. 1967.)

Approval No. 160.055/69/0, Type IB, Model 67, child cloth-covered unicellular plastic foam life preserver, U.S.C.G. Specification Subpart 160.055 and dwg. No. 160055–IB (sheet 3 and 4), manufactured by Crawford Manufacturing Company, third and Decatur Streets, Richmond, VA 23212, effective March 2, 1972. (It is an extension of Approval No. 160.–055/69/0 dated May 25, 1967.)

Special Purpose Water Safety Buoyant Devices for Designated Use on All Motorboats and for General Use on Motorboats of Classes A, 1, or 2 Not Carrying Passengers for Hire

Approval No. 160.064/1/2, adult medium, competition vest, model GT–5, cloth covered PVC foam, manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ–16, manufactured by Gentex Corp., Carbondale, Pa. 18407, effective March 6, 1972.

Approval No. 160.064/2/2, child medium, competition vest, model GT–5, cloth covered PVC foam, manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ–16, manufactured by Gentex Corp., Carbondale, Pa. 18407, effective March 6, 1972.

Approval No. 160.064/12/0, 18-inch koroseal foam ring buoy, model XS–18, manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ–12, manufactured by Carlon Rubber Products Co., 1 New Haven Avenue, Derby, CT 06418, effective March 7, 1972.

Approval No. 160.064/13/0, 19-inch ring buoy, vinyl dipped unicellular plastic foam, manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ–16, manufactured by Gentex Corp., Carbondale, Pa. 18407, effective March 7, 1972.

Approval No. 160.064/18/2, adult large, competition vest, model GT–5, cloth covered PVC foam, manufactured in accordance with U.S.C.G. Specification Subpart 160.064 and UL/MD report file No. MQ–16, manufactured by Gentex Corporation, Carbondale, Pa. 18407, effective March 6, 1972.

SAFETY VALVES (STEAM HEATING BOILERS)

Approval No. 162.012/8/0, Fig. 629 pop safety valve, bronze body, for steam heating boilers and unfired steam generators dwg. No. S4785, dated February 27, 1952, approved for a maximum pressure of 30 p.s.i. in the following sizes:

CAPACITY—POUNDS PER HOUR

Size (inches)	At 15 p.s.i.	At 30 p.s.i.
¾	98	148
1	163	246
1¼	204	307
1½	294	443
2	457	688
2½	653	983
3	980	1,475

manufactured by The Lunkenheimer Co., Post Office Box 360, Annex Station, Cincinnati, OH 45214, effective March 2, 1972. (It is an extension of Approval No. 162.012/8/0 dated May 3, 1967.)

DECK COVERINGS FOR MERCHANT VESSELS

Approval No. 164.006/9/0, RAECOLITH magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–76; F.R. 1866 dated August 9, 1941, approved for use without other insulating material as meeting Class A–60 requirements in a 1¾ inch thickness, manufactured by Raecolith Flooring Co., 5622 Corson Avenue, Seattle, WA 98108, effective March 1, 1972. (It is an extension of Approval No. 164.006/9/0 dated May 2, 1967.)

Approval No. 164.006/23/0, DEX-O-TEX MAGNABOND No. 1 composite and magnesite type deck covering identical to that described in National Bureau of Standards Test Report No. TP 367–116; F.R. 2395 dated July 11, 1945, approved for use without other insulating material as meeting Class A–15 requirements in the thickness noted below:

DEX-O-TEX Subkote No. 1 underlay one-fourth inch plus magnesite overlay three-eighths inch.

Manufactured by Crossfield Products Corp., 140 Valley Road, Roselle Park, NJ 07204, effective March 1, 1972. (It is an extension of Approval No. 164.006/23/0 dated May 5, 1967.)

INCOMBUSTIBLE MATERIALS FOR MERCHANT VESSELS

Approval No. 164.009/7/0, Gold bond A–C board, asbestos cement board type incombustible material identical to that described in National Gypsum Co. letter dated June 4, 1943, manufactured by National Gypsum Co., Buffalo, N.Y. 14202, effective March 1, 1972. (It is an extension of Approval No. 164.009/7/0 dated May 2, 1967.)

Approval No. 164.009/98/0, "J–M Foil-Faced Marine Microlite Duct Insulation," aluminum faced fibrous glass insulation type incombustible material identical to that described in National Bureau of Standards Test Report No. TG10210–2141:F.R. 3678 dated March 1, 1967, and Commandant (MMT–3) letter dated March 9, 1967, approved in a density of 0.6 through 2 pounds per cubic foot, manufactured by Johns-Manville Sales Corp., 22 East 40th Street, New York, NY 10016, Plant: Defiance, Ohio, effective March 1, 1972. (It is an extension of Approval No. 164.009/98/0 dated March 9, 1967.)

Dated: April 25, 1972.

G. H. READ,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

ATOMIC ENERGY COMMISSION

[Docket No. 50–171]

PHILADELPHIA ELECTRIC CO.

Notice of Issuance of Provisional Operating License Amendment

The Atomic Energy Commission (the Commission) has issued, effective as of the date of issuance, Amendment No. 4 to Provisional Operating License No. DPR–12. The license presently authorizes the Philadelphia Electric Co. to possess, use, and operate the Peach Bottom Atomic Power Station Unit No. 1 located in York County, Pa., at power levels up to 115 megawatts' (thermal). Amendment No. 4 amends the license to permit the receipt, possession and use of 25 grams of plutonium 239 for use in test fuel elements in connection with operation of the facility, in accordance with the company's application Amendment No. 18 dated April 10, 1972.

The Commission has found that the application for the amendment complies with the provisions of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations published in 10 CFR Chapter I, and has concluded that the issuance of the amendment will not be inimical to the common defense and security or to the health and safety of the public. The Commission also has found that prior public notice of proposed issuance of this license amendment is not required since the operation of the facility in accordance with the terms of the license, as amended, does not involve significant hazards considerations different from those previously evaluated.

Within 15 days from the date of publication of this notice in the FEDERAL REGISTER, the applicant may file a request for a hearing and any person whose interest may be affected by this proceeding may file a petition for leave to intervene. Requests for a hearing and petitions to intervene shall be filed in accordance with the Commission's "Rules of Practice" in 10 CFR Part 2. If a request for a hearing or a petition for leave to intervene is filed within the time prescribed in this notice, the Commission will issue a notice of hearing or an appropriate order.

For further details with respect to this amendment, see (1) the licensee's application for license amendment dated April 10, 1972, and (2) Amendment No. 4 to the license, both of which are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, DC. Copies of item (2) may be obtained upon request sent to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Md., this 20th day of April 1972.

For the Atomic Energy Commission.

DUDLEY THOMPSON,
Acting Assistant Director for Reactor Operations, Division of Reactor Licensing.

CIVIL AERONAUTICS BOARD

[Docket No. 20650; Order 72–4–114]

AIR TRAFFIC CONFERENCE OF AMERICA

Order Disapproving Agreements and Deferring Action

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 20th day of April 1972.

Agreements among the members of the Air Traffic Conference of America establishing new financial standards and fees for travel agents, Agreements CAB 20727 and 20727–A1, Docket 20650.

By this order we are disapproving that part of a resolution adopted by the air carrier members of the Air Traffic Conference of America (ATC) which establishes credit evaluation procedures to review the applications of travel agents holding or seeking appointment to represent domestic air carriers. We are deferring action on that part of the resolution dealing with the establishment of a revised fee schedule for agents (not to be confused with travel agent's commissions) to allow the ATC carriers to sort out from such part those aspects which relate to the credit evaluation procedures.

Background. By Order 71–8–5, August 2, 1971, the Board deferred action and invited comment on the agents' financial responsibility resolution (hereinafter denominated as the financial resolution) submitted by the ATC proposing extensive revisions in the business relationships between the ATC carriers and their sales agents. The financial resolution would, inter alia, (a) delete the requirement that agents procure a bond for the benefit of ATC members, (b) establish, in lieu of bonding, specific credit evaluation procedures and criteria for both prospective and existing agents under an ATC-administered program,[1] (c) increase agents' application and an-

[1] The program contemplates the following: (a) Each applicant submits to ATC prescribed financial and credit data; (b) such data is evaluated by the ATC staff; if deemed satisfactory, the applicant is approved from a financial standpoint; (c) if the evaluation does not support such an approval, the application is referred by the Executive Secretary of ATC to the Credit Review Subcommittee of the ATC Agency Committee (NOTE: when the financial statement of an applicant (or of an approved agent) fails to reflect a cash balance of $10,000 or a tangible net worth of at least $15,000 the matter is automatically referred to the subcommittee for review); (d) if the subcommittee findings are unfavorable, the matter must be referred to the full ATC Agency Committee, which is empowered to approve or disapprove the application; and (e) as a last resort the matters may be submitted to arbitration.

V 37-83 APR 28 72 XUM

nual fees,[1] and (d) increase the annual fee payable by certain carriers concurring in the ATC standard agent's ticket and area settlement plan (settlement plan).

Comments were filed by the air carrier members of ATC; the American Society of Travel Agents, Inc. (ASTA); the Association of Retail Travel Agents (ARTA); Victor O. Schinnerer and Co., Inc. (Schinnerer); the U.S. Department of Justice (DOJ); and various individual travel agencies.

In Order 71-8-5 the Board raised the question of whether ATC should be so closely involved in passing on the financial credentials of applicants and existing agents alike. In light of what appeared to be an unmistakable element of subjectivity inherent in the proposed credit evaluation system, the Board posed the question as to whether the carriers' interest might not best be served by having the financial evaluation of agents conducted on an independent and impartial basis. Thus, the Board asked whether cogent reasons could be advanced to rebut any claim that the proposed credit review procedures would be used to restrict unduly entrance into the travel agency field.

Replies to Order 71-8-5. The ATC carriers assert, inter alia, that it is entirely proper for them to be intimately and exclusively involved in the credit evaluation of prospective agents for it is axiomatic that he who bears the financial risk of agency default should have the right to evaluate that risk. In addition, the carriers claim that the procedures built into the evaluation system initially assure fairness[2] and should dispel any doubts the Board may have that the evaluation would be conducted in any arbitrary or capricious manner.[3] ATC notes that the ATC credit evaluation worksheet is as objective as possible, recognizing that credit evaluation is an unprecise science. Experience under the program, according to ATC, would dictate what changes, if any, would be required to improve the fairness and objectivity of the criteria.[5]

As concerns the proposed increases in travel agent application and annual fees, ATC points out that such increases are fully justified on the basis of costs of administering the agency program, including those related to the proposed credit evaluation system. Various tables submitted by ATC reflect receipts and expenses of the proposed agency program based upon 1971 data. One such table shows that if the proposed fee schedule and credit program had been in effect in 1971, total fees collected would have been $1,012,775 (for both applicants and existing agents) and total expenses would have been $1,396,392, presenting a deficit of $383,617.[6]

DOJ opposes approval of the agreement on the basis that the proposal may unnecessarily restrain admittance into the travel agency industry and constitute an illegal boycott under the Sherman Act. In view of past efforts of ATC to impose selection and retention standards on travel agencies, DOJ believes the financial resolution must be regarded as an effort to limit entry into the travel agency industry and to reduce the present participants in that industry.

ASTA expresses the view that while the financial resolution meets many of the objections of agents to the present bonding system, an extensive reexamination of the various proposals is not now warranted. ASTA asserts that there are currently before Congress various bills which would provide for Federal regulation of travel agents, including rules providing for "sound financial practices by registered travel agents." In the light thereof and because of DOJ's views, ASTA suggests that the Board defer action on the matter pending the outcome of the Federal licensing proposals. In the meantime, ASTA asks that the present bonding requirements be reduced.

ARTA reiterates its opposition to the present bonding system, but states that it cannot support a program where ATC would act as prosecutor, judge and jury—"such resolution could prove more onerous than the present system." ARTA believes action on the financial resolution should be deferred until the Board's investigation of the ATC bylaws is completed.[7] Alternatively, ARTA requests that Board approval of the financial resolution be conditioned (a) to disapprove the worksheet and compel development of a new worksheet by airline and agency representatives, (b) to require the inclusion of agent representatives on the ATC Credit Review Subcommittee, and (c) to provide that agents not having a late remittance during the foregoing year be exempted from the review process.

Schinnerer supports the position of DOJ and argues that the subjective criteria embodied in the financial resolution create an undue risk that ATC will use the criteria to limit entry into the agency business.

On November 5, 1971, ATC carriers filed a consolidated reply to the comments of DOJ, ARTA, ASTA, and Schinnerer stating, inter alia, that (1) the financial resolution is a sincere effort to assure the financial integrity of travel agents, (2) the airline industry has no intention of using the financial resolution as an invidious tool for restricting entry into the travel agency industry, and (3) there is no basis for a reduction in the bond requirement as suggested by ASTA; in fact ATC asserts that if the credit evaluation program is disapproved the carriers will consider increasing the level of bond coverage. ATC also rejects

[1] The total fee schedule applicable to agents is as follows:

Application fees	Present	Proposed	Nonrefundable
New agent	$50	$500	$100
Additional location	30	250	100
Transfer	50	250	100
New location	30	100	50
Change of name		25	

If an application is disapproved, the fee is refundable except to the extent shown above. Based upon 1969 application volumes, ATC estimates that the proposed fees above would have resulted in collections of $422,350 versus expenses of $439,641.

Annual fees	Present	Proposed	Nonrefundable
Main office	[1] $20	$75	
Branch office	[1] 10	50	

[1] (Note: The Board, by Order 72-2-7, dated Feb. 2, 1972, approved an increase in these fees to $50 for the calendar year 1972.)

[2] ATC cites the four opportunities an applicant would have to pass the credit evaluation test; i.e., (1) evaluation of the credit standing of an applicant or agent by a member of the ATC credit staff; (2) review by the Credit Review Subcommittee of an applicant or agent whose credit standing was found to be deficient by a member of the credit staff; (3) review by the full ATC Agency Committee of a finding by the Credit Review Subcommittee that an applicant's or agent's credit rating is unsatisfactory; and (4) in the event the Agency Committee renders a decision disapproving an applicant or agent, the right of the disapproved party to submit such decision to binding arbitration.

[3] ATC rejects ARTA's proposal that the initial credit analysis be conducted by an independent third party selected by ATC and the agents with equal representation of agents and airlines on any review committee. In this connection, ATC cites the undesirability of agents judging the credit of present or potential competitors. However, ATC asserts that it might accept a third party credit evalutation, provided the third party is the CAB or a financial expert appointed by the CAB.

[5] ATC notes the worksheet uses a numerical rating to quantify the basic three C's of credit, i.e., character, capacity, and capital. It gives 50 percent weight to character and capacity and 50 percent to capital. Three points are given to an agent who has operated an agency 5 years or more. If the applicant or agent has engaged in other business activities with reasonable success, it obtains five points. According to ATC, if the past business activities were profitable, they were reasonably successful. If the owner or management of the applicant or agent is of good character, educational and business background and has a good prior employment record, it may obtain up to eight points. Character would be rated on the basis of honest dealing. In a similar manner, if an applicant or agent has a current ratio of 4+ it can obtain 12 points. If the principal has at least nominal outside income one point is given. A high bank opinion regarding owners or management results in two points for the applicant or agent. Another 29 points can be obtained by meeting various other financial tests. Thus 60 points is the maximum that can be obtained. Thirty-one points are needed under the proposal to show a satisfactory credit standing. In this connection, ATC states: "If it is the [ATC] working group's opinion, based upon the closely monitored experience under the program, that the 31 points passing score is too generous, the passing score will be raised. If, on the other hand, it is the opinion of the working group that the 31 points passing grade is too strict the number of points required to pass will be lowered * * *"

[6] ATC states that the four categories of expenses for servicing home offices and branch locations on the agency list are: Publications, ticketing equipment, credit investigations, and general and administrative costs.

[7] See Order 71-6-127, June 24, 1971, initiating the ATC Bylaws Investigation, Docket 23542; the prehearing conference is scheduled for May 1, 1972.

ARTA's suggestions for a travel agent representative on the Credit Review Subcommittee and for exemption of certain agents from the credit review requirement. Insofar as the proposed fee schedules in the financial resolution, ATC asserts that even if the Board should disapprove the credit evaluation phase of the resolution the Board should approve the new fee schedule.

Most individual travel agencies filing comments and expressing opinion on the credit evaluation procedures and revised fee schedule were against such procedures and fees. On the other hand, half (4) of the agents who expressed opinions on the bonding program were in favor thereof. In addition, one agency suggested that the Board consider an inventory method—through the prepayment of air transportation, for establishing financial responsibility.

Determination of the Board. As noted above, ASTA suggests action here be deferred pending outcome of Federal licensing proposals; ARTA asks that a decision be held over until after completion of the ATC Bylaws Investigation. Although there may be a relationship between the instant proposal and the other matters mentioned, it is not apparent that issues are sufficiently intertwined to warrant withholding a decision on the resolution.

Upon consideration of the foregoing, the Board has decided to disapprove the credit evaluation portion of the agreement and those related provisions and procedures which would become effective upon implementation of the proposed credit evaluation system.

In weighing the advantages and disadvantages of the credit evaluation portion of the instant proposal, it is important to recall the nature of the system to which the new procedures are intended to apply. Thus, on June 10, 1959, in issuing its opinion and order in Docket 8300, et al., the ATC Agency Resolution Investigation,[8] the Board stated:

> It must always be realized that the entire system of joint carrier screening of travel agencies is a substantial departure from the normal free competitive practices of our economy, and that it would be clearly in violation of the Federal antitrust laws were it not for the immunity extended by section 414 of the Act * * *

And in this connection, the Board had earlier noted:

> Where an agreement has among its significant aspects elements which are plainly repugnant to established antitrust principles, approval should not be granted unless there is a clear showing that the agreement is required by a serious transportation need or in order to secure important public benefits.[9]

Although we are not here reexamining the need for the agency program as a whole, we are concerned, through the financial resolution, with what is undoubtedly the single most important factor in the relationship between carriers and agents. The proposed financial standards not only affect the continued appointment of more than 7,000 existing agents but, as importantly, will have a substantial impact on those presently unknown persons who in the future may seek to enter the agency field. This latter fact in particular places special responsibilities on the Board, bearing in mind the antitrust immunity which protects the system as a whole.

Two purposes of the financial resolution, as stated in our earlier order and not disputed, are: (1) To provide a mechanism for examining the financial health of applicant-agents and approved agents; and (2) to protect carrier funds in the hands of approved agents to a greater degree than is possible under the present bonding system. In short, the proposal is bottomed to a large degree on the belief that the carriers' interests will be more adequately protected under an ATC-administered credit program than under one which relies on bonding for the achievement of the above objectives.

The instant proposal presents the Board with a difficult choice. The carriers believe they have devised a good, workable procedure which has been made as objective as possible. They are also of the opinion that adoption of the financial resolution was responsive to expressions of concern within the agency industry over the efficacies of the bonding program. By contrast, major groups within the agency industry are not today of one mind, and, in fact, seemingly are somewhat undecided on a proper course of action.

In our earlier order in this proceeding we outlined the events which led to adoption by ATC of the bonding program. Suffice it to say here, such program reflected a strong desire on the part of the Board for the carriers to turn away from the use of broad and indefinite standards in judging agents' qualifications in favor of more objective requirements.[10] A major question, therefore, is whether the credit evaluation system now before us is any more acceptable than the requirement for agents to show a "satisfactory credit standing," which we overturned in favor of bonding. We have concluded that it is not, and we find no reason to permit a return to the use of a system which in large part utilizes essentially subjective procedures.

ATC contemplates use of the worksheet and various levels of review to determine if an applicant or agent is financially qualified for approval or retention as an agent. It appears, however, that the worksheet and the numerical rating system are manifestly subjective. For example, standards based on consideration of such matters as "reasonable success" of other business activities, "character, educational and business background, prior employment record, etc.," and "record of previous business failure," are undefined and subject to nonuniform interpretation.[11] Furthermore, such a system, coupled with the substantial increase in application fees, places in the hands of ATC the means of restricting entry into the travel agency industry. As DOJ has pointed out, the proposed credit system removes the element of impartiality that exists under the present bonding program.

Admittedly, the instant proposal may be more scientific and specific than that which was in effect prior to bonding, and we do not question the good faith and sincerity of the carriers in their claim that the proposed credit evaluation procedure is as fair and objective as they can make it. The fact is, however, that the Board has no valid basis for judging the reasonableness of the "point" proposal; basically, acceptance would have to be at face value. Bearing in mind the antitrust implications, this is unacceptable. Nor would the Board have an adequate basis for evaluating future changes in the proposed system, which changes, we note, are already contemplated.[12] In this connection, it is not clear that a persuasive defense could be offered in rebuttal of a possible claim that in altering the procedure later on because experience proved it to be "too generous," the carriers were not in fact controlling entry into the agency field.[13]

The Board has stated before, and reiterates here, its concern that the carriers (and the public) be served by qualified and responsible agents. Yet there is nothing in the record to support a claim that the financial effect on the carriers under bonding is less acceptable than under the carrier-administered system which bonding supplanted. Nor do we have convincing evidence that the instant proposal will serve the carriers' objectives better than bonding. Agents have attacked bonding principally from the standpoint of its usefulness in protecting carrier funds; no importance has been placed on its significant value as a financial screening device. Some part of the cost obviously must be assigned to the latter aspect. A substitute arrangement would not be devoid of the cost to individual agents, e.g., the costs of the proposed ATC credit evaluation procedures are built into the fee schedule.

[8] 29 CAB 258, 264 (1959).

[9] Local Cartage Agreement Case, 15 CAB 850, 853 (1952).

[10] Bonding also expedites ATC's review of agents' qualifications.

[11] Similar considerations led the Board, in Order 69-2-125, Feb. 25, 1969, to disapprove certain portions of ATC resolutions governing agents' appointments (CAB 5044-A-129 and 138).

[12] We recognize that an agent has four opportunities to pass the credit evaluation test: (1) ATC professional credit staff, (2) ATC Credit Review Subcommittee, (3) ATC Agency Committee, and (4) arbitration. In this connection, ATC notes that the Board is "certainly capable of dealing with problems, if any should arise," in the administration of the financial responsibility program. The Board is not convinced, however, that it could or should enmesh itself into the inner workings of this program to the extent necessary to achieve effective oversight of the ATC-administered procedures.

[13] Footnote 5, supra.

V 37-83 APR 28 72 XUM

Balancing all aspects of the matter, the Board is unable to conclude on this record that the costs of bonding warrant abandonment of the program.[14]

ATC has asked the Board to approve the proposed application and annual fee schedule even if it should disapprove the credit evaluation phase of the pending agreement. ATC points out that the present annual costs, even without the additional cost associated with the credit evaluation system, are already in excess of the proposed fees. Similarly, ATC notes that revenue derived from the proposed application fees would be insufficient to cover the cost of processing the five types of applications.[15]

In Order 71-8-5, the Board indicated that "a more detailed justification is needed of the basis of all proposed increases in fees." In replying, ATC submitted separate schedules showing generally allocations of total cost for items covered by both annual and application fees.[16] Furthermore, ATC offered to provide the data on which such schedules are based.

The Board finds that it does need additional information concerning these fees. In several instances the specific nature of the expense is not evident; [17] the absolute amounts of the proposed increases are very substantial; [18] and as presently constructed both types of fees include charges for credit investigations under the proposal which we have disapproved.[19] Then, too, it would appear appropriate for ATC to comment on the proposed increases in light of Phase II of the Economic Stabilization Program.[20] It would also be desirable to receive an explanation/justification for the various changes contemplated in the resolution concerning the procedures utilized in determining the amount of a fee or its allocation (e.g., as contemplated in sections I.V and III.E).[21]

Based on the foregoing, the Board finds that all provisions of the financial resolutions, except those provisions relating to applicant and agency fees and fees paid by carriers concurring in the area settlement plan, are adverse to the public interest and should not be approved. The Board further finds, for the reasons expressed above, that it will defer action on the aforementioned provisions concerning fees and related matters.

Accordingly, it is ordered, That:

1. Action on sections I.C, I.P.1, I.T, I.V, II.A, II.D, III.A, III.C, III.E, IV, V, and VIII, of the financial resolution (Agreement CAB 20727 as amended by Agreement CAB 20727-A1) be and it hereby is deferred for consideration by the carriers in accordance with the review expressed herein;

2. All remaining sections and provisions of the financial resolution not described in ordering paragraph 1 above be and they hereby are disapproved;

3. All other requests in Docket 20650 be and they hereby are denied; and

4. This order shall be served upon the Air Traffic Conference of America, the American Society of Travel Agents, the Association of Bank Travel Bureaus, Inc., the Association of Retail Travel Agents, Victor O. Schinnerer and Co., Inc., and the Department of Justice.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[22]

[SEAL] HARRY J. ZINK,
Secretary.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILES AND COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE CZECHOSLOVAK SOCIALIST REPUBLIC

Entry or Withdrawal From Warehouse for Consumption

APRIL 25, 1972.

On August 29, 1969, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a comprehensive bilateral cotton textile agreement with the Government of the Czechoslovak Socialist Republic concerning exports of cotton textiles and cotton textile products from the Czechoslovak Socialist Republic to the United States over a 2-year period beginning on May 1, 1969. The bilateral agreement was extended for an additional 2-year period beginning May 1, 1971. Among the provisions of the agreement, as extended, are those establishing an aggregate limit for the 64 categories and within the aggregate limit a specific limit on Category 26 (other than duck).

There is published below a letter of April 25, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that the amounts of cotton textile products in Category 26 (other than duck) produced or manufactured in the Czechoslovak Socialist Republic which may be entered or withdrawn from warehouse for consumption in the United States for the 12-month period beginning May 1, 1972, and extending through April 30, 1973, be limited to the designated level. The letter published below and the actions pursuant thereto are not designed to implement all of the provisions of the bilateral agreement, but are designed to assist only in the implementation of certain of its provisions.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

ASSISTANT SECRETARY OF COMMERCE
COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

APRIL 25, 1972.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of August 29, 1969, as extended, between the Governments of the United States and the Czechoslovak Socialist Republic, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective May 1, 1972 and for the 12-month period extending through April 30, 1973, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 26 (other than duck)[1], produced or manufactured in the Czechoslovak Socialist Republic, in excess of the level of restraint for the period of 1,157,625 square yards.

Cotton textile products in Category 26 (other than duck)[1] produced or manufactured in the Czechoslovak Socialist Republic and which have been exported prior to May 1, 1972, shall, to the extent of any unfilled balances, be charged against the level of restraint established for such goods during the period of May 1, 1971 through April 30, 1972. In the event that the level of restraint established for that period has been exhausted by previous entries, such goods shall be subject to the level set forth in this letter.

The level of restraint set forth above is subject to adjustment pursuant to the provisions of the bilateral agreement of August 29, 1969, as extended, between the Governments of the United States and the Czechoslovak Socialist Republic which provide, in part, that within the aggregate limit, the limitation on Category 26 (other than duck)[1] may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements.

A detailed description of the categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on October 9, 1972 (36 F.R. 19722).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the Czechoslovak Socialist Republic and with respect to imports of cotton textiles and cotton textile products from the Czechoslovak Socialist Republic have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

[FR Doc.72-6580 Filed 4-27-72;8:51 am]

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN HAITI

Entry or Withdrawal From Warehouse for Consumption

APRIL 25, 1972.

On November 3, 1971, the U.S. Government, in furtherance of the objectives of, and under the terms of, the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, concluded a new comprehensive bilateral cotton textile agreement with the Government of Haiti concerning exports of cotton textiles and cotton textile products from Haiti to the United States over a 5-year period beginning on October 1, 1971, and extending through September 30, 1976. Among the provisions of the agreement are those establishing a consultation level of 350,000 square yards equivalent for cotton textile products in each category not having a specific limit in Categories 39 through 63 for the first agreement year which began on October 1, 1971. Imports of cotton textile products in Category 51 from Haiti have exceeded the consultation level for the first agreement year.

Accordingly, there is published below a letter of April 25, 1972, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs, directing that upon publication of that letter in the FEDERAL REGISTER, and until further notice, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 51, produced or manufactured in Haiti and exported therefrom to the United States during the period beginning October 1, 1971, and extending through September 30, 1972, be prohibited.

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

ASSISTANT SECRETARY OF COMMERCE
COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20226.

APRIL 25, 1972.

DEAR MR. COMMISSIONER: Under the terms of the Long-Term Arrangement Regarding International Trade in Cotton Textiles done at Geneva on February 9, 1962, pursuant to the bilateral cotton textile agreement of November 3, 1971, between the Governments of the United States and Haiti, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to prohibit, effective upon publication of this letter in the FEDERAL REGISTER, and until further notice, entry into the United States for consumption and withdrawal from warehouse for consumption of cotton textile products in Category 51, produced or manufactured in Haiti and which have been exported to the United States during the period beginning October 1, 1971, and extending through September 30, 1972.

Cotton textile products in Category 51, produced or manufactured in Haiti, which have been released from the custody of the Bureau of Customs under the provisions of 19 U.S.C. 1448(b) prior to the effective date of this directive shall not be denied entry under this directive.

A detailed description of the Categories in terms of T.S.U.S.A. numbers was published in the FEDERAL REGISTER on October 9, 1971 (36 F.R. 19722).

In carrying out the above directions, entry into the United States for consumption shall be construed to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of Haiti and with respect to imports of cotton textiles and cotton textile products from Haiti have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely yours,

STANLEY NEHMER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources.

[FR Doc.72-6581 Filed 4-27-72;8:51 am]

DELAWARE RIVER BASIN COMMISSION

CERTAIN WATER RESOURCES PROJECTS

Notice of Public Hearing Regarding Payment of Fees and Charges

Notice is hereby given that the Delaware River Basin Commission will hold

[14] The record in this proceeding does not provide a basis for determining whether either an upward or downward adjustment in the bonding requirement is appropriate. The Board shares the interest of the carriers and agents in keeping bond requirements (and cost) as low as possible. It would expect of course, that any proposal advanced by either carriers or agents to change the present formula would be fully documented.

[15] New agent; new branch; ownership; location change; and name change.

[16] The schedules presented by ATC are quoted in appendices A and B hereto, filed as part of the original document.

[17] We wish to know the basis for each expense item (labor, postage, printing, etc.) and more specifically the nature of each such item, e.g., what is included in "site inspections/reports" costing $179, and in "processing applications" costing $73; what is the basis for the "imprinter" cost ($89) and why is the amount paid to ATC rather than to the manufacturer?

[18] Footnote 2, supra.

[19] Presumably, the allocation for credit investigations ($24 in the annual fee schedule; $49 in the application fee schedule) should be omitted, along with other items of expense, if any, related to the credit evaluation system.

[20] See Order 72-2-7, Feb. 2, 1972.

[21] ATC should also provide justification for (a) those increased or additional carrier fees specified in this note, infra, and (b) the purpose for which such fees are to be utilized.

The Board will defer action on the following provisions of the financial resolution which concern ATC fees paid by applicants and agents, or matters related to such fees: Secs. I.C, I.P.1, I.T, I.V, II.A, II.D, IV, V, and VIII. The Board will also defer action on the following provisions of the financial resolution which increase or add fees to be paid by certain airlines concurring in the ATC settlement plan, or specify the purpose for which such fees are to be used: Secs. III.A, II.C, and III.E.

[22] Vice Chairman Gilliland dissenting.

[1] The T.S.U.S.A. Nos. for duck fabric not covered by this directive are:

320.--01 through 04, 06, 08
321.--01 through 04, 06, 08
322.--01 through 04, 06, 08
326.--01 through 04, 06, 08
327.--01 through 04, 06, 08
328.--01 through 04, 06, 08

V 37-83 APR 28 72 XUM

a public hearing on Wednesday, April 26, 1972, in the South Auditorium of the ASTM Building, 1916 Race Street in Philadelphia, beginning at 2 p.m. The subjects of the hearing are as follows:

I. Proposed regulation requiring the payment of fees and charges in connection with review of certain water resources projects. The text of the proposed regulation is as follows:

Whereas, review of proposed water resources projects pursuant to section 3.8 of the Delaware River Basin Compact has become a substantial program activity representing a major public cost; and

Whereas, certain categories of project review cases demand extended staff analysis and the use of expert consultants, the cost of which cannot always be forecast within the Commission's budget; and

Whereas, it is timely and in the public interest to initiate a program of allocating a portion of the costs of reviewing water resources projects to the applicant or project sponsor; now therefore

Be it resolved by the Delaware River Basin Commission:

1. A filing fee shall be paid to the Commission, according to the schedule herein, at the time of submission of each application for project review pursuant to section 3.8 of the Delaware River Basin Compact, subject to the provisions of section 2-3.5(a) of the Rules of Practice and Procedure.

2. The schedule of project review fees is the greater of (a) and (b) as follows:

(a) Minimum fee: $25 for any project; and

(b) Alternative fee: One-tenth of 1 percent of the estimated project cost.

3. Project review fees under this regulation shall be required for the following categories of projects:

(a) Impoundments;

(b) Divisions of water into or out of the Delaware River Basin;

(c) Industrial water use and waste treatment facilities;

(d) Electric generating and transmission facilities;

(e) Petroleum product pipelines;

(f) Stream encroachments; and

(g) Withdrawal of ground water.

4. Water resources projects sponsored by other public agencies shall be exempt from fees or charges pursuant to this regulation. Projects subject to a charge by another signatory agency may be exempt from this regulation if such charge represents a reasonable reflection of the cost to the public of performing the project review.

5. Hearing charges: If any adversary hearing is required pursuant to the rules of practice and procedure, one-half of the charges of the official stenographer shall be paid by the sponsor or applicant and the hearing examiner may apportion the remainder for payment by the objectors. No apportionment of hearing costs may be made to any objector who withdraws prior to the hearing.

6. Revenues received pursuant to this regulation shall be covered into the Commission's general fund and be subject to specific appropriation by the Commission.

II. Proposed revisions to the eighth annual Water Resources Program as mandated by section 13.2 of the Delaware River Basin Compact. Revisions relate to development of water resources programs in the Basin.

III. Proposal to approve the following water pollution abatement schedule as submitted in accordance with section 3-4.2(2) of the Basin Regulations-Water Quality:

(a) *A-72-2—GAF Corp.* Plant is located in Gloucester City, N.J., discharging into Zone 3 of the Delaware Estuary. Schedule would require recycling of all contaminated wastewater and that facilities to accomplish this go into operation no later than July 31, 1973. The allocation of 3,430 pounds per day of carbonaceous (first stage) oxygen demand for this discharge would be withdrawn and returned to the Zone 3 reserve.

IV. Proposal to amend the comprehensive plan so as to include the following project:

(a) *Greater Pottsville Industrial Development Corp.* A well water supply project to provide water service in the Frackville Industrial Park, Frackville, Schuylkill County, Pa. The new well would be designed to yield 40,000 gallons per day initially and 250,000 gallons per day ultimately. The water will pass through the city of Frackville sewage treatment system and discharge ultimately into the Susquehanna River Basin.

Copies of the proposed revisions to the Water Resources Program may be obtained from the Commission upon request. Documents relating to the other items listed for hearing may be examined at the Commission's offices. All persons wishing to testify are requested to register in advance with the Secretary to the Commission (Telephone (609) 883-9500).

W. BRINTON WHITALL,
Secretary.

APRIL 14, 1972.

ENVIRONMENTAL PROTECTION AGENCY

ENVIRONMENTAL IMPACT STATEMENTS

Availability of Comments

Appendix I below contains a listing of draft environmental impact statements which the Environmental Protection Agency (EPA) has reviewed and commented upon in writing during the period from March 16, 1972, to March 31, 1972, as required by section 102(2)(C) of the "National Environmental Policy Act" of 1969 and section 309 of the "Clean Air Act", as amended. The listing includes the Federal agency responsible for the statement, the number assigned by EPA to the statement, the title of the statement, the classification of the nature of EPA's comments, and the source for copies of the comments.

Appendix II below contains definitions of the four classifications of EPA's comments. Copies of EPA's comments on these draft environmental impact statements are available to the public from the EPA offices noted.

Appendix III below contains a listing of the addresses of the sources for copies of EPA comments listed in Appendix I below.

Copies of the draft environmental impact statements are available from the Federal department or agency which prepared the draft statement or from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

Dated: April 21, 1972.

SHELDON MEYERS,
Director,
Office of Federal Activities.

APPENDIX II

DEFINITION OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

(1) *General agreement/lack of objections.* The Agency generally:

(a) Has no objections to the proposed action as described in the draft impact statement;

(b) Suggest only minor changes in the proposed action or the draft impact statement; or

(c) Has no comments on the draft impact statement or the proposed action.

(2) *Inadequate information.* The Agency feels that the draft impact statement does not contain adequate information to access fully the environmental impact of the proposed action. The Agency's comments call for more information about the potential environmental hazards addressed in the statement, or ask that a potential environmental hazard be addressed since it was not addressed in the draft statement.

(3) *Major changes necessary.* The Agency believes that the proposed action, as described in the draft impact statement, needs major revisions or major additional safeguards to adequately protect the environment.

(4) *Unsatisfactory.* The Agency believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the Agency believes that the safeguards which might be utilized may not adequately protect the environment from the hazards arising from this action. The Agency therefore recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

FEDERAL COMMUNICATIONS COMMISSION

[Dockets Nos. 19122-19125; FCC 72R-114]

STAR STATIONS OF INDIANA, INC., ET AL.

Memorandum Opinion and Order Enlarging Issues

In re applications of Star Stations of Indiana, Inc., Docket No. 19122, Files Nos. BR-1144, BRH-1276, for renewal of license of WIFE and WIFE-FM, Indianapolis, Ind.; Indianapolis Broadcasting, Inc., Docket No. 19123, File No. BP-18706, for a construction permit for a standard broadcast station Indianapolis, Ind.; Central States Broadcasting, Inc., Docket No. 19124, Files Nos. BR-516, BRH-992, for renewal of license of KOIL and KOIL-FM, Omaha, Nebr.; Star Broadcasting, Inc., Docket No. 19125, File No. BR-1027, for renewal of license of KISN Vancouver, Wash.

1. This proceeding involves the mutually exclusive applications of Star Stations of Indiana, Inc. (Star), for renewal of license for Stations WIFE and WIFE-FM, Indianapolis, Ind.; and Indianapolis Broadcasting, Inc. (Indianapolis), for a construction permit for a standard broadcast station on the same frequency in Indianapolis, Ind. These applications were consolidated with the renewal applications of Central States Broadcasting, Inc., for renewal of license for Stations KOIL and KOIL-FM, Omaha, Nebr., and Star Broadcasting, Inc., Station KISN, Vancouver, Wash. (also Star stations), and the six applications were designated for hearing by Commission Order, FCC 70-1256, 35 F.R. 19209, published December 18, 1970.[1] The Commission specified 25 issues, one of which (Issue No. 23) is a financial qualifications issue against Indianapolis inquiring into: "(a) Whether Jerry L. Kunkel (an Indianapolis stock subscriber) has sufficient funds to meet his stock purchase commitment; (b) whether the applicant can raise the $250,000 in unencumbered capital upon which its bank loan is contingent; and (c) whether in light of the evidence adduced pursuant to (a) and (b) above, the applicant is financially qualified." Presently before the Review Board is a petition to enlarge issues, filed November 30, 1971, by Star requesting misrepresentation, failure to disclose, lack of candor, and § 1.65 issues against Indianapolis, and clarification of Issue (23).[2]

FAILURE TO DISCLOSE § 1.65 AND RELATED ISSUES

2. Star alleges that Indianapolis misrepresented certain financial aspects of its application to the Commission, and, in addition, violated § 1.65 of the Commission's rules by failing to disclose substantial and material changes in the financial aspects of its proposal. The charges and counter-charges made in the pleadings involve five of 12 Indianapolis stock subscribers and are somewhat complex. Therefore, in order to simplify the presentation of alleged facts, and to clarify petitioner's requests and Indianapolis' and the Broadcast Bureau's oppositions, we will set forth the arguments of all three as they relate to each of the five Indianapolis principals Star alleges have failed to adequately report their financial position and changes therein. First, according to Star, Jack C. Brinson is pledged to purchase 62½ shares or $31,250 worth of Indianapolis stock and is relying upon his personal assets to meet the commitment. Star asserts that Brinson has failed to report the following facts to the Commission: (1) That the "in excess of $35,000" of stock listed on the American Stock Exchange reported in Brinson's balance sheet has been sold; (2) that 3 months prior to the designation order he incurred a $150,000 liability to the American Fletcher National Bank which he did not report in his balance sheet; and (3) that Brinson has purchased a home upon which there is a $37,500 mortgage. Consequently, Star argues, Brinson has substantially reduced his liquid asset position and this reduction raises serious questions as to his ability to meet his subscription commitment. Star, however, is not challenging Brinson's ability to meet his stock subscription agreement, but rather Indianapolis' failure to inform the Commission, as required by § 1.65, of these allegedly material and substantial changes in Brinson's financial position.

3. Indianapolis, in opposition, maintains that Brinson has paid $6,687.50 of his commitment, thereby leaving a balance of $24,562.50. Indianapolis submits that by a petition for leave to amend, filed December 1, 1971, and granted by the Hearing Examiner on December 6, 1971 (FCC 71M-1891), Brinson reported his intention to meet his stock subscription commitment through a bank loan.[3] Indianapolis further argues that Brinson never indicated an intention to rely upon any particular assets to meet his stock subscription. Indianapolis concedes that Brinson's liquid position has changed, but maintains that the Commission has never required a stock subscriber to always have liquid assets.[4] The Broadcast Bureau's argument essentially parallels that of Indianapolis with the additional argument that Star has failed to show that Brinson has insufficient assets to meet the subscription commitment. The Bureau alleges that Brinson's current balance sheet, dated November 15, 1971, and submitted into evidence at the hearing, shows that Brinson's assets total $520,218 and his liabilities total $187,500, thereby leaving a net worth of $332,718, which is certainly sufficient, in the Bureau's view, to meet the balance of approximately $22,000 which he owes on the subscription.[5]

4. Second, Star argues that Stanley C. Cederquist misrepresented or is guilty of lack of candor with respect to his financial showing. According to Star, Cederquist has subscribed to $25,000 worth of Indianapolis stock. Star alleges that Cederquist omitted the following facts on his balance sheet: (1) That he personally guaranteed a loan for $420,000; (2) that he is personally liable for approximately $24,000 on revolving line-of-credit; and (3) that he has subsequently sold $3,000 worth of stock. Star alleges that Cederquist testified at the deposition hearing that his present liquid assets would be insufficient to meet his subscription commitment and that he would have to rely upon a bank loan; however, Star asserts, Cederquist failed to report to the Commission his present need to rely upon a bank loan. In opposition, Indianapolis recites that Cederquist has paid $6,750 of his subscription, leaving a balance of $18,250. Indianapolis contends that Cederquist did not report the obligations upon which he is secondarily liable because they are contingent in nature and corporations are primarily liable for them; further, Cederquist, in Indianapolis' amendment of December 1, 1971, submitted a letter from a bank extending him credit, therefore indicating his intention to rely upon a bank loan to meet his stock subscription.[6] In its opposition, the Bureau notes that the $420,000 guarantee agreement was made after the balance sheet was filed in 1969. The Bureau also notes that Cederquist's current balance sheet, filed November 15, 1971, and introduced into evidence at the hearing, shows very little change from the balance sheet filed with the application which revealed assets of $770,000 and liabilities of approximately $55,000; therefore, the Bureau urges, these contingent liabilities do not affect his financial position.

5. Third, Star argues that although Indianapolis principal, Walter S. Blackburn, subscriber of $12,500 worth of stock, expressed in Indianapolis' application his intention to meet his commitment by a loan from the Indiana National Bank, Blackburn failed to indicate in his balance sheet certain liabilities which, Star asserts, might affect Blackburn's ability to secure his loan. The omissions, Star recites, are his failure to report the following: (1) A personal liability on a loan of $140,000 by Indiana National Bank to a corporation in which Blackburn is a principal stockholder; (2) a line-of-credit of $50,000; (3) a $3,000 liability for an investment in a liquor store; and (4) a long-term mortgage of $50,000. In opposition, Indianapolis asserts that Blackburn has paid $1,875 of his commitment leaving a balance of $10,625. According to Indianapolis, Blackburn is secondarily liable on the $140,000 loan which is also secured by an office building; the $40,000 line-of-credit on which he is secondarily liable has only been used twice and paid back since its creation in 1969; and his $11,000 liability on the liquor store is not due for 2 years. Furthermore, argues Indianapolis, Blackburn's assets have increased from $79,000 to $183,950, and his net worth from $54,100 to $80,550. The Broadcast Bureau asserts that Blackburn testified at his deposition that he has had various discussions with officials of the Indiana National Bank and that at no time did any official indicate to him that the loan to meet his subscription was not still available. The Bureau therefore argues that it is safe to presume that Blackburn's loan is still available.

6. Fourth, Star alleges that, although Herbert Simon also submitted a bank letter indicating the availability of a line-of-credit to meet his stock subscription commitment, he has failed to report to the Commission: (1) That stocks owned by him have since been sold or have decreased in value; (2) that he is a guarantor on a loan to finance real estate ventures; and (3) that he is a guarantor on several other notes. In opposition, Indianapolis notes that Simon has paid $10,125 of his subscription, leaving a balance of $27,375. Indianapolis represents that the corporation which Simon is associated with is primarily liable on all loans and that all loans are secured by real estate and buildings. According to Indianapolis, if Simon should become liable on any notes which he guaranteed, he would still be able to meet his commitment. The Bureau expresses the opinion that Star has not shown that the loan is not still available.

7. Finally, Star asserts that Indianapolis made false representations concerning subscriber Jerry Kunkel's interest in Indianapolis. According to Star, Indianapolis represented in its application that Kunkel's subscription for 62½ shares of stock ($31,250) was to be met in the same manner as the other subscribers; however, Kunkel's deposition revealed that he was only to pay for $10,000 worth of stock and the rest of the stock was to be given to him for services rendered as general manager of Indianapolis' proposed station. Star notes that a financial qualifications issue has been specified against Indianapolis to determine Kunkel's ability to meet his subscription commitment. See paragraph 1, supra. In opposition, Indianapolis explains that it has been its intention all along that Kunkel was to receive 10 percent (50 shares) of the stock offering for his services in the preparation and prosecution of Indianapolis' application and that he was to pay in cash for an additional 2½ percent ($6,000). According to Indianapolis, Kunkel has paid $1,867.50, leaving a balance of $4,562.50. As further proof that it intended Kunkel to receive stock for services performed, Indianapolis notes that it only relied on $225,000 in new capital in its original application, and not on the full $250,000, which would result from 500 shares subscribed to at $500 per share. The Broadcast Bureau asserts that it is not necessary for an applicant to report in the application that one of its principals will receive stock for services performed; therefore, failure to report the arrangement would not warrant addition of a misrepresentation issue.

8. In reply, Star argues that both Indianapolis and the Bureau have premised their oppositions to Star's petition on two faulty assumptions. First, each assumes that Indianapolis' financial position is sound which, according to Star, has not been proven; and, second, the opposition arguments disregard the main purpose behind § 1.65, which is complete disclosure of all significant facts called for by the Commission. Star contends that § 1.65 removes from the applicant and places before the Commission the discretion to determine whether significant changes in an applicant's circumstances bear upon its basic qualifications. Star further asserts that presentation of all necessary information may save needless hearing time. With respect to this point, Star cites Indianapolis' failure to report Kunkel's stock-for-services agreement, which Indianapolis concedes should have been reported and if reported would have spared the Commission the necessity of adding Issue 23 (the financial issue against Indianapolis).

9. Section 1.65 requires an applicant to amend his application "when the information furnished in (the) application is no longer substantially accurate and complete in all significant respects or when changes which may be of decisional significance have occurred." Lake Erie Broadcasting Company, FCC 72R-91, ------ FCC 2d ------, released April 4, 1972. Furthermore, an applicant's failure to voluntarily disclose such information, even though the applicant may not believe the information to be of any decisional value to the Commission, may bear adversely on the applicant's qualifications to be a Commission licensee. See Horne Industries, Inc., 28 FCC 2d 454, 21 RR 2d 851 (1969). See also report and order in Docket 14867, Reporting of Changed Circumstances, 29 F.R. 15516, 3 RR 2d 1622 (1964). Considered separately, perhaps the failure of each individual Indianapolis stock subscriber to initially disclose in the application or later report changes in his financial position would not require the addition of issues against Indianapolis; however, for the reasons hereinafter stated and because the omissions are numerous and involve five out of 12 stock subscribers,[7] appropriate issues are necessary. Since the charges made by Star involve the sale of assets and the acquisition of liabilities both before and after Indianapolis' application was filed, we will specify an issue permitting exploration of possible violations of both §§ 1.65 and 1.514(a).[8] Cf. Lake Erie Broadcasting Company, supra.

10. Indianapolis' contention that Brinson's, Cederquist's and Blackburn's liabilities on notes were not required to be reported because they were only secondarily liable is incorrect. The Board has held on several occasions that secondary liabilities must be reported by broadcast applicants. See e.g. Folkways Broadcasting Co., Inc., 36 F.R. 3847, 3848, 21 RR 2d 211, 214 (1971). Indianapolis' reliance on Mace Broadcasting Co., 25

---

[1] The Commission recently redesignated this proceeding for hearing (FCC 72-148, released Feb. 24, 1972); as a result, the instant petition will be regarded as having been timely filed. See WPIX, Inc., (WPIX), FCC 72R-88, ------ FCC 2d ------, released Mar. 31, 1972.

[2] Also before the Review Board are the following related pleadings; (a) Opposition, filed Dec. 17, 1971, by Indianapolis; (b) opposition, filed Dec. 17, 1971, by the Broadcast Bureau; and (c) reply, filed Dec. 30, 1971, by Star.

[3] Brinson submitted a letter from the American Fletcher National Bank, dated Nov. 30, 1971, extending a line-of-credit for $25,000.

[4] Indianapolis also argues that Star used discovery proceedings as a fishing expedition in order to seek enlargement of issues. However, the Board has recently held, in a similar situation, that facts revealed at a discovery proceeding for the first time can be utilized as a basis for requesting enlargement of issues. See Folkways Broadcasting Co., Inc., 33 FCC 2d 813, 816 n. 16, 23 RR 2d 944, 948-949 n. 16 (1972).

[5] The Bureau also predicates its entire opposition on the contention that the petition is untimely. However, as indicated in footnote 1, supra, the petition will be regarded as having been timely filed. Moreover, Star's petition raises serious public interest questions which warrant consideration on the merits. See The Edgefield-Saluda Radio Co., 5 FCC 2d 148, 8 RR 2d 611 (1966).

[6] Cederquist submitted a letter from the Indiana National Bank, dated Nov. 26, 1971, extending to him a line-of-credit for $20,000.

[7] The Broadcast Bureau argues that Star has failed to comply with § 1.229 by not submitting supporting affidavits with its petition. Although Star has not submitted affidavits from persons having personal knowledge of the facts relied upon, as required by § 1.229(c), it does rely upon testimony taken at prehearing discovery depositions. Furthermore, the facts relied upon have not been contested by Indianapolis.

[8] Section 1.514(a) requires that: "Each application shall include all information called for by the particular form on which the application is required to be filed • • •." FCC Form 301 requires all liabilities of an applicant's principals to be reported. See paragraph 10, infra.

V 37 • 83 APR 28 72 XUM

FCC 2d 621, 19 RR 2d 1135 (1970), for the proposition that the fluctuations in a stockholder's liquid assets do not constitute such a "substantial change" as to warrant a § 1.65 or misrepresentation issue, is misplaced. Mace is factually distinguishable from the instant case. In Mace, the petitioner argued that the applicant had violated § 1.65 by not reporting a decrease in the value of stock owned by one of its stockholders and that the stock constituted a substantial part of the applicant's liquid assets. The Board held that the decrease in the value of the stock was not a "substantial change" warranting § 1.65 issue because stocks by their very nature fluctuate in value and it would be difficult to develop criteria to determine what constitutes a substantial change without the necessity of the applicant reporting every change in value. In this case, however, we are not presented with only one isolated instance or with just the matter of fluctuating stock values, but with the sale of assets and the acquisition of liabilities by several Indianapolis stock subscribers. Likewise, Indianapolis' citation of Virginia Broadcasters, 16 FCC 2d 1024, 15 RR 2d 1016 (1969), to support its argument that an applicant's stockholder need not always have liquid assets, is inapposite. In Virginia, we did not add § 1.65 issue because we did not believe that the petitioner had shown that the acquisition of two business interests by an applicant's stockholder could affect the applicant's financial position. In the instant case, it is undisputed that more than one stock subscriber has omitted reporting liabilities which, we believe, could raise serious questions as to the soundness of the applicant's financial position. FCC Form 301, section III, 4(b), states that, "For each person (except financial institutions) who has agreed to furnish funds or purchase stock, but who has not already done so, submit a balance sheet or, in lieu thereof, a financial statement showing all liabilities and containing current and liquid assets * * *." Indianapolis does not appear to have complied with this requirement. The Board, therefore, will add appropriate issues to inquire into these matters at the hearing. In our opinion, however, the facts do not warrant the addition of separate lack of candor or misrepresentation issues. Cf. United Television Co., 19 FCC 2d 1060, 17 RR 2d 467 (1969). Nevertheless, the general question of Indianapolis' candor may be examined under the issues being specified herein. Folkways Broadcasting Co., Inc., supra, 36 F.R. at 384 n. 8, 21 RR 2d at 215 n. 8.

11. Next, the Board is of the opinion that the circumstances surrounding Indianapolis' failure to report Kunkel's stock for services agreement warrants further inquiry at the hearing. We cannot agree with the Broadcast Bureau or Indianapolis that the $25,000 difference between the $250,000 Indianapolis indicates will come from the sale of 500 shares of stock at $500 per share and the total existing and new capital stated as $225,000 shows that Kunkel was to receive stock for services. Furthermore, if, as Indianapolis now asserts, Kunkel was from the beginning to receive stock for services then it would appear that the bank commitment letter to Kunkel, submitted in Indianapolis' amendment of December 31, 1971, for the amount of $28,000 and stating that the money is to be used by Kunkel to acquire Indianapolis stock, was unnecessary. In any event, sufficient questions have been raised concerning this matter to warrant exploration at the hearing. We do not agree with the Bureau that North American Broadcasting Co., Inc., 17 FCC 2d 299, 15 RR 2d 1329 (1969), stands for the proposition that an applicant need not report stock for services agreements in its application. In North American, the Board found that the applicant was not relying on monetary consideration as part of its financial proposal. The applicant specifically denied such an arrangement. In the instant case, Indianapolis in its opposition pleading has admitted the stock for services agreement with Kunkel; therefore, since the stock for services agreement is part of Indianapolis' financial proposal, the Board believes it should have been reported. In light of the apparent contradiction in statements by Indianapolis, i.e., that a stock for services agreement existed at the time it filed its application and the submission of a bank line-of-credit for Kunkel covering the entire cost of his subscription for 62½ shares, we believe a serious question arises as to whether Indianapolis misrepresented facts in its application. Consequently, we will add a misrepresentation issue against Indianapolis limited to an inquiry surrounding the stock for services agreement.

CLARIFICATION OF FINANCIAL ISSUE

12. Finally, Star requests the Review Board to clarify the scope of the financial issue specified against Indianapolis (Issue 23). See paragraph 1, supra. Star requested a clarification of Issue 23 from the Hearing Examiner but the Examiner refused to clarify the issue. The Examiner, Star explains, interpreted the issue as limited solely to Kunkel's financial position. Under the existing issue, Star asserts, Indianapolis should have the burden of proceeding with the evidence to establish the availability of the necessary funds for each of Indianapolis' principals to meet their subscription obligations.

13. We agree with the Broadcast Bureau's contention that Star's requested clarification of the financial issue is in reality an unauthorized appeal from the Examiner's ruling. In its petition, Star states that its request for clarification of the issue from the Examiner was denied because of "* * * his (the Examiner's) belief that the parties were, in fact, requesting a holding whether or not Indianapolis had met its burden of proof, a decision which was premature prior to the holding of the hearing itself." Thus, it is clear that Star's request seeks to have the Examiner's ruling regarding the scope of Issue 23 reversed. Since the Examiner's permission to appeal has not been obtained by Star, its request must be dismissed. See § 1.301 (a) and (b) of the rules. Cf. 5 KW, Inc., 31 FCC 2d 871, 22 RR 2d 1056 (1971).

14. *Accordingly, it is ordered,* That the petition to enlarge issues, filed November 30, 1971, by Star Stations of Indiana, Inc., is granted to the extent indicated below, is dismissed as it relates to the request for clarification of Issue No. 23, and is denied in all other respects; and

15. *It is further ordered,* That the issues in this proceeding are enlarged by the addition of the following issues:

(a) To determine whether Indianapolis Broadcasting, Inc., has failed to comply with the provisions of §§ 1.514 and/or 1.65 of the Commission's rules, and, if so, to determine the effect of such noncompliance on the applicant's basic or comparative qualifications to be a Commission licensee; and

(b) To determine whether Indianapolis Broadcasting, Inc., misrepresented facts to the Commission, and, if so, whether such conduct reflects adversely on the basic or comparative qualifications of Indianapolis Broadcasting, Inc., to be a Commission licensee.

16. *It is further ordered,* That the burden of proceeding with the introduction of evidence under the issues added herein shall be upon Star Stations of Indiana, Inc., and the burden of proof under such issues shall be upon Indianapolis Broadcasting, Inc.

Adopted: April 19, 1972.

Released: April 21, 1972.

FEDERAL COMMUNICATIONS COMMISSION,*

[SEAL] BEN F. WAPLE, *Secretary.*

FEDERAL MARITIME COMMISSION

CERTIFICATES OF FINANCIAL RESPONSIBILITY (OIL POLLUTION)

Notice of Certificates Issued

Notice is hereby given that the following vessel owners and/or operators have established evidence of financial responsibility, with respect to the vessels indicated, as required by section 11(p)(1) of the Federal Water Pollution Control Act, as amended, and, accordingly, have been issued Federal Maritime Commission Certificates of Financial Responsibility (Oil Pollution) pursuant to Part 542 of Title 46 CFR.

Certificate No.	*Owner/operator and vessels*

FEDERAL POWER COMMISSION

[Docket No. CI72-688]

ALMOS GAS GATHERING CO.

Notice of Application

APRIL 25, 1972.

Take notice that on April 19, 1972, Almos Gas Gathering Co. (applicant), 508 Broadway National Bank Building, 1177 Northeast Loop 410, San Antonio, TX 78209, filed in Docket No. CI72–668 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. (United) from the Silva Area, Bee County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant commenced the sale of natural gas to United on March 12, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (157.29) and proposes to continue said sale for 1 year from the expiration of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 22,500 Mcf of gas per month at 35 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protests with reference to said application should on or before May 5, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections

V 37 ■ 83 APR 28 72 XUM

7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-6493 Filed 4-27-72;8:46 am]

[Docket No. CI72-669]

GENERAL CRUDE OIL CO. ET AL.

Notice of Application

APRIL 25, 1972.

Take notice that on April 19, 1972, General Crude Oil Co. (Operator) et al. (applicant), Post Office Box 2252, Houston, TX 77001, filed in Docket No. CI72-669 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to United Gas Pipe Line Co. (United) from the Lake Verret Field, Assumption Parish, La., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant commenced the sale of natural gas to United on April 13, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for 1 year from the expiration of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 20,000 Mcf of gas per day at 35 cents per Mcf at 15.025 p.s.i.a.

It appears reasonable and consistent with the public interest to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before May 5, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

NATIONAL GAS SURVEY

Order Amending Orders

APRIL 25, 1972.

The Commission, on February 23, 1971, 36 F.R. 3851, issued an order authorizing the establishment of National Gas Survey Advisory Committees and prescribing procedures. On April 6, 1971, 36 F.R. 6922, the Commission issued an order establishing National Gas Survey Executive Advisory Committee and designating its membership and chairmanship. This committee constitutes "• • • the principal policy advisory committee to the Commission and its staff in the Commission's planning, conduct and execution of the National Gas Survey", order issued April 6, 1971, paragraph "1. Purpose."

As a part of both of these orders, provision is made for the keeping of minutes of Executive Advisory Committee meetings in lieu of a verbatim transcript; order issued February 23, 1971, paragraph "4. Minutes",[1] and order issued April 6, 1971, paragraph "4." incorporating, by reference inter alia, the aforementioned paragraph "4." of the February 23 order. The meetings of the Executive Advisory Committee are conducted in accordance with the requirements of these orders, as well as the provisions of Executive Order No. 11007, 27 F.R. 1875.

Section 7 of the Executive order provides in part "The head of each • • • agency • • • may prescribe additional regulations, consistent with • • • this order, to govern the formation or use of such committees • • •." In accordance therewith, and considering the nature of the Executive Advisory Committee, the chairman of the Commission has determined that all meetings of the Executive Advisory Committee convened hereafter shall be open to members of the general public, as well as to Committee members; and that a verbatim transcript shall be kept of all such meetings of the Executive Advisory Committee. The transcript shall be retained within the public records of the Commission.

The Commission's aforesaid orders issued February 23, 1971, and April 6, 1971, are hereby amended in the following respects:

(A) Paragraph "4. Minutes" of the Commission's order issued February 23, 1971, is hereby changed to read:

4. *Minutes.* The chairman of the Commission having made a finding with respect to committees other than the Executive Advisory Committee that maintenance of a verbatim transcript would be impracticable and not in the public interest, there shall be kept by the secretary of each committee, in lieu thereof, a record of persons present, a description of matters discussed and conclusions reached, and copies of all reports received, issued, or approved by each committee. A verbatim transcript shall be kept of all proceedings at all meetings of the Executive Advisory Committee convened hereafter, including as a part of the transcript the names of all persons present, their affiliation and the capacity in which they attend, all matters discussed, conclusions reached, and copies of all reports received, issued, or approved by the Committee.

(B) Paragraph "4. The following paragraphs of the aforementioned ordered issued February 23, 1971 • • • 4. Minutes. • • •" of the Commission's order issued April 6, 1971, is hereby changed to reflect therein the provisions of paragraph (A) above.

The secretary of the Commission shall cause prompt publication of this order to be made in the FEDERAL REGISTER in accordance with the provisions of the Office of Management and Budget Circular No. A-63.

By the Commission.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-6495 Filed 4-27-72;8:47 am]

[1] States as follows:
4. *Minutes.* The chairman of the Commission having made a finding that maintenance of a verbatim transcript would be impracticable and not in the public interest, there shall be kept by the secretary of each committee, in lieu thereof, a record of persons present, a description of matters discussed and conclusions reached, and copies of all reports received, issued, or approved by each committee.

FEDERAL RESERVE SYSTEM

NONDISCRIMINATION IN REAL ESTATE LOAN ACTIVITIES

Poster Requirement

On December 29, 1971, the Board of Governors published in the FEDERAL REGISTER (36 F.R. 25168) a statement on Civil Rights Act Nondiscrimination Requirements in Real Estate Loan Activities to encourage compliance with and increase public awareness of the requirements of title VIII of the Civil Rights Act of 1968 (42 U.S.C. 3601). The Board's statement included a design of a poster, incorporating a facsimile of a logotype, to be displayed in the public lobbies of banking offices of State member banks.

In lieu of the poster design and logotype set forth in the December 29, 1971 notice, State member banks shall, effective May 1, 1972, display a revised poster, the design of which is set forth below. The Assistant Secretary for Equal Opportunity of the Department of Housing and Urban Developmen has granted a waiver to State member banks, in view of the Board's poster requirements, from the Fair Housing Poster Requirements described by Part 110 of that agency's regulations (24 CFR 110.25(b)).

Copies of the revised poster are being distributed free of charge to all State member banks.

Board of Governors of the Federal Reserve System, April 19, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

EQUAL HOUSING
LENDER

We Do Business in Accordance With the Federal Fair Housing Law

IT IS ILLEGAL, BECAUSE OF RACE, COLOR, RELIGION, OR NATIONAL ORIGIN, TO:

- Deny a loan for the purpose of purchasing, constructing, improving, repairing or maintaining a dwelling or
- Discriminate in fixing of the amount, interest rate, duration, application procedures or other terms or conditions of such a loan.

IF YOU BELIEVE YOU HAVE BEEN DISCRIMINATED AGAINST, YOU MAY SEND A COMPLAINT TO:

Assistant Secretary for Equal Opportunity,
Department of Housing and Urban Development,

CAPITAL MANAGEMENT, INC.

Formation of Bank Holding Company and Proposed Retention of Brady Insurance Agency

Capital Management, Inc., Aurora, Nebr., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to form a bank holding company through ownership of 80 percent or more of the voting shares of Bank of Brady, Brady, Nebr. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Capital Management, Inc., has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1943(c)(8) and § 225.4(b)(2) of the Board's Regulation Y, for permission to retain the assets of Brady Insurance Agency, Brady, Nebr. Notice of the application was published on February 15, 1972, in the Tri-City Tribune, a newspaper circulated in Dawson County, Nebr.

Applicant states that it will continue to engage in the activities of a general insurance agency in a community of less than 5,000 people. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The applications may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than May 15, 1972.

Board of Governors of the Federal Reserve System, April 21, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

[FR Doc.72-6499 Filed 4-27-72;8:47 am]

V 37 • 83 APR 28 72 XUM

FIRST CITY BANCORPORATION OF TEXAS, INC.

Order Approving Acquisition of Bank

First City Bancorporation of Texas, Inc., Houston, Tex., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 percent or more of the voting shares of First National Bank in Arlington, Arlington, Tex. (Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant controls seven banks with aggregate deposits of $1.3 billion, which amounts to 4.7 percent of deposits in commercial banks in Texas. (Banking data are as of June 30, 1971, and reflect holding company formations and acquisitions approved to date.)

Bank (with deposits of $43.4 million) is the fifth largest of 44 banks in the Fort Worth banking market and controls 2.4 percent of the deposits in that market. Since Applicant's closest subsidiary is located over 200 miles from Bank and Texas' laws prohibit branching, it appears that consummation of the proposed transaction would not eliminate any meaningful existing or potential competition. Additionally, the three largest banks in the market control 64 percent of such deposits and consummation of the proposal would have a procompetitive effect by enhancing Bank's ability to compete.

Applicant will provide Bank with expertise in construction and mortgage lending, business and industrial development, and international banking. In addition, Bank will benefit from expanded lending capability through loan participations and the availability of credit as needed. Considerations related to the convenience and needs of the communities to be served lend weight in favor of approval. The financial and managerial resources and future prospects of Applicant, its subsidiary banks, and Bank are generally satisfactory and consistent with approval. It is the Board's judgment that the proposed transaction is in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Board of Governors,[1] April 21, 1972.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.72-6477 Filed 4-27-72;8:45 am]

FIRST NATIONAL HOLDING CORP.

Order Approving Acquisition of Dixie Finance Co.

First National Holding Corp., Atlanta, Ga., a bank holding company registered under the Bank Holding Company Act of 1956, as amended, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Dixie Finance Co. (Dixie), Atlanta, Ga. Notice of the application affording opportunity for interested persons to submit comments and views has expired and those received have been considered.

Applicant's banking subsidiary, First National Bank of Atlanta (First National), is the third largest bank in the State of Georgia and the second largest bank in the Atlanta Standard Metropolitan Statistical Area (SMSA), which is comprised of Clayton, Cobb, De Kalb, Fulton, and Gwinnett Counties, and holds deposits of $699.7 million representing 22.8 percent to total deposits in the Atlanta SMSA. (All banking data are as of June 30, 1970, unless otherwise indicated.) First National makes consumer installment loans through its headquarters office and branch offices throughout the Atlanta SMSA. As of December 31, 1970, First National held personal loans amounting to $22.4 million, constituting 12.4 percent of the total personal loans made by the 58 banks and 79 finance companies making such loans in the Atlanta area. First National is thereby the largest personal lender in the Atlanta SMSA.

Dixie is a consumer finance company with total assets of $17.5 million. It operates 54 offices in Georgia, of which five are in the Atlanta SMSA, 13 offices in Louisiana, and one office in Florida. Dixie makes direct cash loans on an installment basis to individuals and families under State small loan laws and sells credit insurance in connection with its lending activities. The five Atlanta offices of Dixie hold personal loans in the amount of $1.6 million, constituting 0.9 percent of the market, and thereby ranks 26th of the 137 competitors in the Atlanta personal loan market.

Although First National and Dixie both compete for personal loan business in the Atlanta SMSA, consummation of the proposed acquisition would not have any significant adverse effect on existing competition since the market share of First National would be increased only 0.9 percent and there would remain a substantial number of independent competitors in the market.

Georgia branching law precludes the establishment of banking offices outside the Atlanta SMSA by First National. Therefore, the development of competition between First National and Dixie beyond the Atlanta SMSA is unlikely. Applicant is able to enter markets served by Dixie outside of the Atlanta area through the establishment of its own personal loan companies. However, the existence of many potential entrants into such personal loan markets diminishes any possible adverse effects that consummation of the proposed acquisition might have upon potential competition. The Board concludes that consummation of the proposed acquisition would not have a serious adverse effect upon existing or potential competition between Applicant and Dixie. Further, there is no significant possibility that the acquisition will have adverse effects on credit availability to independent finance companies.

It is anticipated that Dixie's affiliation with Applicant will give Dixie access to the greater resources of Applicant, and enable it to compete more effectively with other consumer finance companies in the areas in which it operates. There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects that are not outweighed by public benefits that may be reasonably expected to be produced by consummation of the proposed acquisition.

Based upon the foregoing and other considerations reflected in the record, the Board hereby approves the application. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By order of the Board of Governors,[1] April 21, 1972.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.72-6478 Filed 4-27-72;8:45 am]

FIRST NATIONAL HOLDING CORP.

Order Approving Acquisition of Wholly Owned Consumer Finance Subsidiaries of Gulf Financial Corp.

First National Holding Corp., Atlanta, Ga., a bank holding company within the meaning of the Bank Holding Company Act of 1956, as amended, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of the wholly owned consumer finance subsidiaries of Gulf Financial Corp. (Gulf), Atlanta, Ga., also a registered bank holding company. Notice of the application affording opportunity for interested persons to submit comments and views has been duly published. Time for filing comments and views has expired and those received have been considered.

Applicant's banking subsidiary, First National Bank of Atlanta (First National), is the third largest bank in the State of Georgia and the second largest bank in the Atlanta Standard Metropolitan Statistical Area (SMSA), which is comprised of Clayton, Cobb, DeKalb, Fulton, and Gwinnett Counties, and holds deposits of $762.4 million representing 22.8 percent of total deposits in the Atlanta SMSA as of June 30, 1970. (All banking data are as of June 30, 1971, unless otherwise indicated.)

The wholly owned consumer finance subsidiaries of Gulf had total loans outstanding of $6.6 million as of June 30, 1971, and operate 38 offices in the State of Mississippi. Collectively, these subsidiaries constitute the third largest consumer finance operation licensed under Mississippi Small Loan Laws. These subsidiaries make high-risk direct cash loans on an installment basis to individuals and families and sell credit-related insurance in connection with their lending activities.

Although, as indicated above, First National does extend consumer credit, it is legally prohibited from operating an office outside of Fulton and DeKalb Counties and, therefore, is effectively prevented from competing for personal loan business in Mississippi. Applicant is able to enter the State of Mississippi de novo through the establishment of personal loan companies. However, the existence of many potential entrants into Mississippi personal loan markets diminishes any possible adverse effects that consummation of the proposed acquisitions might have upon potential competition in that State. The Board concludes that consummation of the proposed acquisition would not eliminate any existing or significant potential competition between applicant and the wholly owned consumer finance subsidiaries of Gulf. Further, there is no significant probability that the acquisition will have adverse effects on credit availability to independent finance companies.

Gulf Financial Corp. is a registered bank holding company holding total assets of approximately $22.2 million as of December 31, 1970. It is anticipated that affiliation of Gulf's wholly owned consumer finance subsidiaries with applicant would give those subsidiaries access to the greater resources of applicant and enable them to compete more effectively with other consumer finance companies in the areas in which they operate. There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects.

Based upon the foregoing and other considerations reflected in the record, the Board hereby approves the application. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasions thereof.

By order of the Board of Governors,[1] April 21, 1972.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc. 72-6479 Filed 4-27-72;8:45 am]

FIRST STATE BANKING CORP.

Order Approving Formation of Bank Holding Company

First State Banking Corp., Miami, Fla., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through acquisition of 80 percent or more of the voting shares of the following banks located in Florida: First State Bank of Miami, Miami (Miami Bank); Hialeah-Miami Springs First State Bank, Hialeah (Hialeah Bank); North Hialeah First State Bank, Hialeah (North Hialeah Bank); Airport First State Bank, Miami (Airport Bank); and Miami Lakes First State Bank, Miami (Miami Lakes Bank).

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in the light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)) and finds that:

Applicant, a nonoperating corporation, was formed for the purpose of acquiring the proposed group of five banks. Upon acquisition of Miami Bank (deposits of $101 million); Hialeah Bank (deposits of $75 million); North Hialeah Bank (deposits of $17 million); Airport Bank (deposits of $11 million); and Miami Lakes Bank which was opened December 1, 1971, applicant would control 1.38 percent of the State's deposits in commercial banks and would be Florida's 16th largest bank holding company (all banking data are as of June 30, 1971, and reflect holding company formations and acquisitions approved through February 29, 1972).

The five proposed banks are located in the northeastern portion of the Miami banking market, and upon consummation of this proposal, applicant would control 6 percent of the total deposits in the market and be the fourth largest banking organization. Although the service areas of the five banks overlap, no meaningful present competition would be eliminated by the proposed formation since this proposal represents a corporate reorganization of the five banks which have been closely affiliated over a long period of time. Common shareholders control 51 percent or more of the outstanding stock of each bank, and the group has a common directorate and shares banking services. The group competes with three larger banking organizations in the market controlling 27, 9, and 9 percent, respectively, of market deposits, one of which is the State's largest holding company. It appears that disaffiliation of the group is unlikely even in the absence of this proposal, and, therefore, consummation of the proposed formation would not significantly affect potential competition, nor have an adverse effect on other area banks.

The financial and managerial resources of applicant and the proposed subsidiaries are satisfactory and consistent with approval, and it appears that prospects for the group are favorable. The formation would have no immediate effect on the convenience and needs of the communities involved, however some expansion and improvement in present services offered by the proposed subsidiaries are likely. Considerations relating to the convenience and needs of the communities to be served are, therefore, consistent with approval. It is the Board's judgment that the proposed transaction would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the date of this order or (b) later than 3 months after the date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] April 21, 1972.

[SEAL] TYNAN SMITH, *Secretary of the Board.*

[FR Doc.72-6481 Filed 4-27-72;8:46 am]

IMPERIAL BANCORP

Order Approving Acquisition of Rayor Realty Co.

Imperial Bancorp, Los Angeles, Calif., a bank holding company within the meaning of the Bank Holding Company Act of 1956, has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y to acquire voting shares of the Rayor Realty Co., Los Angeles, Calif. (Rayor). Notice of the application affording opportunity for interested persons to submit comments and views was

[1] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, and Sheehan. Absent and not voting: Governors Daane, Maisel, and Brimmer.

APR 28 72 XUM

duly published. The time for filing comments and views has expired and all received have been considered.

Applicant owns Imperial Bank in Los Angeles, whose deposits of $84.4 million represent 0.3 percent of deposits in the Los Angeles banking market.[1]

Rayor, a nonoperating company, was formed in 1957 to engage in real estate brokerage activities. It has not engaged in such activities for the past 5 years[2] nor has Rayor engaged in mortgage banking activities in recent years. Accordingly, Applicant's acquisition of Rayor may be viewed as similar to de novo entry into mortgage banking. Therefore, Applicant's acquisition of Rayor will have no adverse effect on either existing or potential competition and will have the procompetitive effect of adding an additional firm to the mortgage banking industry.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the Board's authority to require reports by, and make examinations of, holding companies and their subsidiaries and to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[3] April 21, 1972.

[SEAL] TYNAN SMITH,
Secretary of the Board.

OLD KENT CORP.

Formation of One-Bank Holding Company

Old Kent Corp., Grand Rapids, Mich., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of at least 80 percent of the voting shares of Old Kent Bank and Trust Co., Grand Rapids, Mich. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Reserve Bank to be received not later than May 17, 1972.

Board of Governors of the Federal Reserve System, April 21, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary.

GENERAL SERVICES ADMINISTRATION

PAINT; LATEX BASE, INTERIOR, FLAT

Industry Specification Development Conference

Notice is hereby given that the Federal Supply Service, General Services Administration, will hold an Industry Specification Development Conference in connection with proposed Federal Specification TT-P-29H, Paint, Latex Base, Interior, Flat.

The purpose of the conference is to provide a forum for consideration of suggestions, ideas, or ways and means to improve the specification to the end that: (1) Mutual understanding by both the Government and industry of the Government's technical requirements for the items, and (2) the quality of the products shipped to the Government will be enhanced. It will be open to all those in the private sector who have an interest or concern for these matters and all other Government departments or agencies having an interest therein are also being invited to send their representatives.

The conference will be held on June 1, 1972, at 10 a.m., General Services Administration Auditorium, 18th and F Streets, NW., Washington, DC. Anyone who wants to attend or desires further information should contact Mr. A. P. Baldwan, General Services Administration, Federal Supply Service, Office of Standards and Quality Control, telephone No. (area code 703) 557-7899; or should write to the General Services Administration (FMSB), Washington, D.C. 20406.

Issued in Washington, D.C., on April 18, 1972.

M. S. MEEKER,
Commissioner.

SECURITIES AND EXCHANGE COMMISSION

[812-3038]

BLOCK ENGINEERING INC.

Notice of Filing of Application

APRIL 24, 1972.

Notice is hereby given that Block Engineering, Inc., 19 Blackstone Street, Cambridge, MA 02139 (Applicant), a Delaware corporation which is controlled by E. I. du Pont de Nemours and Co. (du Pont), which in turn is controlled by Christiana Securities Co. (Christiana), a Delaware corporation registered as a closed-end, nondiversified, management investment company under the Investment Company Act of 1940 (Act), has filed an application pursuant to section 17(b) of the Act for an order exempting from the provisions of section 17(a)(3) of the Act certain transactions or classes of transactions involving proposed loans by Applicant to its employees.

All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

Relationship of the parties. Christiana, a registered investment company, owns approximately 28 percent of the outstanding common stock of du Pont which in turn owns approximately 33 percent of the common stock of Applicant. Thus, pursuant to section 2(a)(9) of the Act, Applicant is presumed to be controlled by du Pont which is presumed to be controlled by Christiana and accordingly, Applicant is presumed to be a controlled person of Christiana. By reason of the above-mentioned relationships, Applicant's employees, under section 2(a)(3) of the Act, are affiliated persons of an affiliated person (Applicant) of a registered investment company (Christiana).

The proposed transaction or class of transactions. Applicant proposes, pursuant to a resolution of the Executive Committee of its Board of Directors and subject to the Commission granting the requested order, to establish an employee loan program whereby Applicant would make or guarantee loans to employees of Applicant and its wholly owned subsidiaries, Sadtler Research Laboratories, Inc., Digilab, Inc., and Blackstone Realty Corp. (other than officers or directors of Applicant of any affiliated company). It is proposed that Applicant would make or guarantee loans to eligible employees (1) to assist new or transferred employees to meet transportation, relocation and settling in expenses incurred in relocating, other than those expenses otherwise reimbursed by Applicant as a matter of normal policy, (2) to purchase a home, and (3) to meet emergencies, such as unusual, serious and costly medical expenses and expenses of accidents and other casualties.

The amount to be loaned to any individual at any time is not to exceed (1) $25,000 or (2) 3 years' gross salary for such individual, whichever is less, and the aggregate amount of all such loans outstanding at any time is limited to $75,000. All loans under the program are to be evidenced by a promissory note and, except in the case of interest-free temporary loans (no longer than 3 months) to purchase a new home because of relocation; all loans and loan guarantees will bear interest at rates comparable to those charged by local lending institutions on loans of similar types. Loans or loan guarantees will be made for the shortest possible term consistent with the borrowing employee's financial status. The maximum term of any loan under the program will be 3 years. No collateral security will be required for loans made under the program.

With respect to loans up to an aggregate of $500, the approval of one of applicants, President, Treasurer, or any of its Vice President is required and such loans must be reported to applicants Executive Committee. Loans in excess of an aggregate of $500 must receive the recommendation of both applicant's Treasurer and either its President or one of its Vice Presidents and must also be approved by the Executive Committee of applicant's Board of Directors.

Statements in support of applicant's request for an exemptive order. Applicant represents that, in its opinion, the proposed employee loan program is necessary to enable applicant to recruit and retain its employees and compete in the employment market. The application states that on the basis of its audited balance sheet at May 31, 1971, applicant and its consolidated subsidiaries had total assets of $4,452,177 and a net worth of $1,374,097. The application further states that based on its unaudited balance sheet at February 27, 1972, applicant and its consolidated subsidiaries had total assets of $4,537,589 and a net worth of $1,519,528. Applicant represents that the proposed limitation of $75,000 on the aggregate amount of loans and loan guarantees which may be outstanding at any time is not sufficient in relation to either its total assets or net worth, as set forth above.

In addition, applicant represents that the terms of the proposed employee loan program, as described above, are reasonable and fair and do not involve overreaching on the part of any of the persons concerned; that the terms of the loan program are consistent with the policies of the registered investment company concerned as recited in its registration statement and reports filed under the Act and that they are consistent with the general purposes of the Act.

Applicable statutory provisions. Section 17(a) of the Act, as here pertinent, provides that it shall be unlawful for any affiliated person of a registered investment company or any affiliated person of such a person to borrow money or other property from any company controlled by such registered investment company.

Section 17(b) provides that a proposed transaction may be exempted from the provisions of section 17(a) upon application if the Commission finds that the terms of the proposed transaction, including the consideration to be paid or received, are reasonable and fair and do not involve overreaching on the part of any person concerned, and that the proposed transaction is consistent with the policy of each registered investment company concerned and with the general purposes of the Act.

Notice is further given that any interested person may, not later than May 15, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit or in case of an attorney-at-law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the Rules and Regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.72-6503, Filed 4-27-72;8:47 am]

UNIVERSAL AIRLINES CO.

Order Suspending Trading

APRIL 24, 1972.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, no par value, of Universal Airlines Company being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

It is ordered, Pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, that trading in such securities otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period from April 24, 1972, through May 3, 1972.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

[70-5049]

VERMONT YANKEE NUCLEAR POWER CORP. ET AL.

Notice of Post-Effective Amendment Regarding Proposed Issuance and Sale of Additional Subordinated Notes

APRIL 24, 1972.

Notice is hereby given that Vermont Yankee Nuclear Power Corp., 77 Grove Street, Rutland, VT 05701 (Vermont Yankee), an electric utility company and a subsidiary company of both Northeast Utilities (Northeast) and New England Electric System (NEES), registered holding companies; New England Power Co. (NEPCO), an electric utility subsidiary company of NEES; Western Massachusetts Electric Co. (WMECO), The Connecticut Light & Power Co. (CL&P), and The Hartford Electric Light Co. (Hartford), three public-utility subsidiary companies of Northeast; and Montaup Electric Co. (Montaup), an electric utility subsidiary company of Eastern Utilities Associates, a registered holding company (referred to collectively as "applicant-sponsors"), have filed with this Commission a post-effective amendment to the application-declaration in this proceeding pursuant to sections 6, 7, 9, and 10 of the Public Utility Holding Company Act of 1935 (Act) regarding the following proposed transactions. All interested persons are referred to the application-declaration, which is summarized below, for a complete statement of the proposed transactions.

Vermont Yankee is constructing a nuclear-powered electric generating plant with a net expected capacity of approximately 540 megawatts which is expected to be in operation in 1972. The total capital cost of the plant, excluding the cost of the initial inventory of nuclear fuel of about $21 million, is estimated at $186,850,000. Its 10 sponsor companies are committed by capital fund requirements and power contracts to provide Vermont Yankee, in accordance with their stock percentages, the capital required by Vermont Yankee, and to purchase a like percentage of the capacity and power output of the Vermont Yankee plant on a cost-of-service basis, which includes an appropriate return on their investment.

By order dated August 30, 1971 (Holding Company Act Release No. 17252), the Commission authorized Vermont Yankee to issue and sell, and the sponsors to acquire, an aggregate of $49,500,000 of its subordinated notes. The applicant-sponsors agreed to acquire 34.5 percent of the subordinated notes in the following percentages: NEPCO 20 percent, CL&P 6 percent, Hartford 3.5 percent, Montaup 2.5 percent, and WMECO 2.5 percent. The remaining amount was to be issued to the other sponsors, but the acquisition thereof was not subject to the approval of this Commission. The notes were to mature within 1 year from the date of issue and were to bear interest at an annual rate 1½ percent in excess of the lowest prime rate for commerical loans in effect at any bank in New York City on the date of issue thereof. The notes were to be subordinated as to both principal and interest to senior indebtedness. It was represented that substantially all of Vermont Yankee's short-term indebtedness would be refunded by the issuance of debt and equity securities.

It is now proposed that the amount of subordinated notes to be issued by Vermont Yankee and acquired by the sponsor companies be increased from $49,500,000 to $60,500,000. The proceeds from

[1] Deposit data is based on June 1971 data; banking market share data is as of June 1970.

[2] Applicant realizes that real estate brokerage is not a permissible activity under section 4(c)(8) and has assured the Board that Rayor will not engage in real estate brokerage activities.

[3] Voting for this action: Chairman Burns and Governors Robertson, Mitchell, and Sheehan. Absent and not voting: Governors Daane, Maisel, and Brimmer.

V 37 I 83 APR 28 72 XUM

the sale of subordinated notes will be used in the following manner: $21 million for the payment when due of notes issued pursuant to a loan agreement with The Chase Manhattan Bank, $3,500,000 to refund at maturity, October 14, 1972, subordinated notes now outstanding, and $36 million to meet capital requirements for construction of the generating plant, including repayment of loans made for such purpose. The terms and conditions of the issuance and sale of the subordinated notes remain unchanged.

It is stated that The Vermont Public Service Board has jurisdiction over the issue and sale of the notes and that the Massachusetts Department of Public Utilities has jurisdiction over the acquisition of the notes by the Massachusetts sponsors. No other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. Fees and expenses to be incurred in connection with the proposed additional subordinated notes will be filed by amendment.

Notice is further given that any interested person may, not later than 12 noon on May 15, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as now amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[FR Doc.72-6502 Filed 4-27-72;8:47 am]

SELECTIVE SERVICE SYSTEM

REGISTRANTS PROCESSING MANUAL

The Registrants Processing Manual is an internal manual of the Selective Service System. The material contained in Chapter 622 is considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER. Therefore Chapter 622 is set forth in full as follows:

CHAPTER 622—CLASSIFICATION RULES AND PRINCIPLES

SECTION 622.1 *General principles of classification.* 1. It is the local board's responsibility to decide, subject to appeal, the class in which each registrant shall be placed. Each registrant will be considered as available for military service until his eligibility for deferment or exemption from military service is clearly established to the satisfaction of the local board. The local board will receive and consider, at the appropriate time, all information presented to it pertinent to the classification of a registrant. The mailing by the local board of a Current Information Questionnaire (SSS Form 127) to the latest address furnished by a registrant shall be notice to the registrant that unless information is presented to the local board, within the time specified for the return of the questionnaire, which will justify his deferment or exemption from military service, the registrant will be classified on the basis of the information in his file, and the applicable rules and regulations.

2. In classifying a registrant there shall be no discrimination for or against him because of his race, creed, or color, or because of his membership or activity in any labor, political, religious, or other organization. Each registrant shall receive equal consideration.

SEC. 622.2 *Classes.* Each registrant shall be classified in one of the following classes:

CLASS 1

Class 1-A: Available for military service.
Class 1-A-O: Conscientious objector available for noncombatant military service only.
Class 1-C: Member of the Armed Forces of the United States, the National Oceanic and Atmospheric Administration, or the Public Health Service.
Class 1-D: Member of reserve component or student taking military training.
Class 1-H: Registrant not currently subject to processing for induction.
Class 1-O: Conscientious objector available for alternate service.
Class 1-W: Conscientious objector performing alternate service in lieu of induction.

CLASS 2

Class 2-A: Registrant deferred because of civilian occupation (except agriculture) or nondegree study.
Class 2-C: Registrant deferred because of agricultural occupation.
Class 2-D: Registrant deferred because of study preparing for the ministry.
Class 2-S: Registrant deferred because of activity in degree study.

CLASS 3

Class 3-A: Registrant with a child or children; and registrant deferred by reason of extreme hardship to dependents.

CLASS 4

Class 4-A: Registrant who has completed military service.
Class 4-B: Official deferred by law.
Class 4-C: Alien.
Class 4-D: Minister of religion.
Class 4-F: Registrant not qualified for military service.
Class 4-G: Registrant exempted as a surviving son from service during peace.
Class 4-W: Conscientious objector who has completed alternate service in lieu of induction.

SEC. 622.10 *Class 1-A: Available for military service.* In Class 1-A shall be placed every registrant who has failed to establish to the satisfaction of the local board, subject to appeal, that he is eligible for classification in another class.

SEC. 622.11 *Class 1-A-O: Conscientious objector available for noncombatant military service only.* In class 1-A-O shall be placed every registrant who would have been classified in Class 1-A but for the fact that he has been found, by reason of religious, ethical, or moral belief, to be conscientiously opposed to participation in combatant training and service in the armed forces.

SEC. 622.12 *Class 1-C: Member of the Armed Forces of the United States, the National Oceanic and Atmospheric Administration, or the Public Health Service.* In Class 1-C shall be placed:

1. Every registrant who is, or who by enlistment, induction, or appointment becomes a commissioned officer, a warrant officer, an enlisted man, or an aviation cadet of the Army, the Navy, the Air Force, the Marine Corps, the Coast Guard, the National Oceanic and Atmospheric Administration or the regular Public Health Service.

2. Every registrant who is a cadet, U.S. Military Academy; or a midshipman, U.S. Naval Academy; or a cadet, U.S. Air Force Academy; or a cadet, U.S. Coast Guard Academy.

3. Except for periods of active duty for training only, every registrant who is a member of a reserve component of the Armed Forces and is on active duty, and every member of the Reserve of the Public Health Service on active duty on or before June 30, 1967, or who after such date is on active duty and assigned to staff the various offices and bureaus of the Public Health Service including the National Institutes of Health, or assigned to the Coast Guard, or the Bureau of Prisons of the Department of Justice, or the National Oceanic and Atmospheric Administration.

SEC. 622.13 *Class 1-D: Member of reserve component or student taking military training.* 1. Upon receipt of a Record of Military Status of Registrant (DD Form 44) indicating a registrant is entitled to classification in Class 1-D, the local board shall consider him for classification in 1-D and if granted, retain him in 1-D until information is received indicating a change in his classification is warranted.

The Armed Forces will submit a DD Form 44 when a registrant enters a reserve component and when a change in his status occurs.

2. In Class 1-D shall be placed any registrant, other than a registrant referred to in paragraph 3 of this section, who—

a. Prior to the issuance of orders for him to report for induction; or

b. Prior to the date scheduled for his induction and pursuant to a proclamation by the Governor of a State to the effect that the authorized strength of any unit of the National Guard of that State cannot be maintained by the enlistment or appointment of persons who have not been issued orders to report for induction; or

c. Prior to the date scheduled for his induction; or pursuant to a determination by the President that the strength of the Ready Reserve of the Army Reserve, Naval Reserve, Marine Corps Reserve, Air Force Reserve, or Coast Guard Reserve cannot be maintained by the enlistment or appointment of persons who have not been issued orders to report for induction;

enlists or accepts appointment in the Ready Reserve of any Reserve component of the Armed Forces, the Army National Guard, or the Air National Guard. Such registrant shall remain eligible for Class 1-D so long as he serves satisfactorily as a member of a Ready Reserve or National Guard.

3. In Class 1-D shall be placed any registrant who (1) has been selected for enrollment or continuance in the Senior Division (entire college level) of the Army Reserve Officers' Training Corps, or the Air Force Reserve Officers' Training Corps, or the Naval Reserve Officers' Training Corps, or the Naval and Marine Corps officer candidate program of the Navy, or the platoon leader's class of the Marine Corps, or the officer procurement programs of the Coast Guard and the Coast Guard Reserve, or is appointed an ensign, United States Naval Reserve, while undergoing professional training; (2) has signed an agreement to accept a commission, if tendered, and to serve subject to order of the Secretary of the military department having jurisdiction over him (or the Secretary of Transportation with respect to the U.S. Coast Guard), not less than 2 years on active duty after receipt of a commission; and (3) has signed an agreement to remain a member of a regular or reserve component until the sixth anniversary of his receipt of a commission. Such registrant shall remain eligible for Class 1-D until completion or termination of the course of instruction and so long thereafter as he continues in a reserve status upon being commissioned except during any period he is eligible for Class 1-C.

4. To assist local boards in continuing a uniform procedure in classifying registrants who are satisfactorily participating in an ROTC program, the following comments set forth our understanding with the Department of Defense:

(1) *Four-year program.* Upon enrollment into an ROTC program and after completion of an "ROTC Deferment Agreement" the responsible professor of military science, professor of naval science or professor of aerospace studies will submit a DD Form 44 (Record of Military Status of Registrant) to the enrollee's selective service local board. Upon receipt of a DD Form 44, the registrant's local board shall place him in Class 1-D, and retain him in this classification until reason for a change in his classification is a matter of record in his selective service file.

If a DD Form 44 is issued after a registrant has been issued an order to report for induction, he will be expected to report for induction under the guidelines provided for induction of other students.

(2) *Two-year program.* The local board shall postpone the induction of a registrant providing the professor of military science or professor of aerospace studies furnishes a form letter during the spring term confirming the registrant's acceptance for training in an ROTC basic camp that following summer. If he is under an order to report for induction and an enrollment letter is received, he shall be issued an SSS Form 264 (Postponement of Induction) and the reporting date postponed until October 31 of that year. If he is accepted for the summer basic camp and is later reached for induction, his local board will issue an SSS Form 252 (Order to Report for Induction) and postpone his date of induction until October 31, providing the appropriate form letter is in his selective service file.

If the registrant enters an advanced ROTC program that fall, the professor of military science or professor of aerospace studies will issue a DD Form 44 and upon its receipt, the registrant will be considered for Class 1-D. If a DD Form 44 is not received by October 31, if the registrant drops from the basic camp, or if he fails to enroll in the fall course, his postponement shall be terminated at the time and he shall be placed on the local board's induction call when he is reached.

(3) Registrants who have been awarded ROTC scholarships but who have not yet enrolled in the ROTC program will be issued their orders to report for induction, when reached, and then postponed until October 31 of that year. If a registrant is under an outstanding order to report for induction, he shall be postponed until October 31 of that year.

If the registrant enrolls in college and enters the ROTC program on an ROTC scholarship and a DD Form 44 is received, he will be considered for Class 1-D. If a DD Form 44 is not received by October 31, his postponement shall be terminated at that time and he shall be placed on the local board's induction call when reached.

5. In Class 1-D shall be placed any registrant who is a fully qualified and accepted aviation cadet applicant of the Army, Navy, or Air Force, who has signed an agreement of service and is within such numbers as have been designated by the Secretary of Defense. Such registrant shall be retained in Class 1-D during the period covered by such agreement but in no case in excess of 4 months.

6. In Class 1-D shall be placed any registrant who is a student enrolled in an officer procurement program in one of the following colleges, the curriculum of which has been approved by the Secretary of Defense:

(a) The Citadel, Charleston, S.C.;
(b) Norwich University, Northfield, Vt.;
(c) Virginia Military Institute, Lexington, Va.;
(d) North Georgia College, Dahlonega, Ga.; and
(e) Pennsylvania Military College, Chester, Pa.

SEC. 622.14 *Class 1-O: Conscientious objector available for alternate service.* In Class 1-O shall be placed every registrant who would have been classified in Class 1-A but for the fact that he has been found, by reason of religious, ethical, or moral belief, to be conscientiously opposed to participation in war in any form and to be conscientiously opposed to participation in both combatant and noncombatant training and service in the Armed Forces.

SEC. 622.16 *Class 1-W: Conscientious objector performing alternate service in lieu of induction.* In Class 1-W shall be placed any registrant who has entered upon and is performing alternate service contributing to the maintenance of the national health, safety, or interest, in accordance with the order of the local board.

SEC. 622.18 *Class 1-H: Registrant not currently subject to processing for induction.* 1. The 1-H classification applies only to registrants subject to a regular call.

2. Registrants subject to a regular call are eligible for Class 1-H unless eligible for a lower class if they are:

a. Members of the first priority group whose random sequence number is above the 1-H cutoff number which will be designated by the Director from time to time;

b. Members of the second or lower priority groups;

c. Registrants, in the year of their 19th birthday, whose random sequence number is above the 1-H cutoff number designated by the Director for the following year's first priority group;

d. Registrants, in the year of their 19th birthday who have been assigned RSN's but for whom no 1-H cutoff has yet been set;

e. Registrants age 26 or older;

f. Registrants who have not yet been assigned a random sequence number;

g. Registrants, not in one of the above categories, who have a wife whom they married on or before August 26, 1965, and with whom they maintain a bona fide relationship in their home.

3. The following registrants are specifically ineligible for classification into Class 1-H by local board action:

a. Volunteers;

b. Registrants in the extended priority group;

c. Registrants in the first priority group below the 1-H cutoff number;

d. Registrants, in the year of their 19th birthday, whose RSN is below the 1-H cutoff number designated for the following year's first priority group;

e. Any registrant who qualifies for Class 4-F, 4-A, 4-G, 1-W, 4-W, 1-D, or 1-C.

f. Registrants subject to special calls.

4. Every registrant will be administratively assigned to Class 1-H at the time of registration. Compensated employees

APR 28 72 XUM

of the Selective Service System are authorized and directed to administratively assign newly registered registrants to Class 1–H. Any 1–H classification after this initial administrative assignment must be made by local board or appeal board action. Any new registrant who qualifies for a class lower than 1–H will be classified out of 1–H and into that lower class by the local board as soon as practicable.

5. The 1–H cutoff number will be designated by the Director pertaining to a specific first priority group. If the 1–H cutoff number were to be established as 200, 1–H registrants whose RSN's were 001–200 would be considered for 1–A. Those with RSN 201–365(366) would continue in 1–H.

6. The designation of a 1–H cutoff number by the Director for the following year's first priority group is a basis for reopening the classification of those registrants in Class 1–H who are below the cutoff and who will attain the age of 20 in the following year. Unless information in their file indicates these registrants are eligible for another class, they will be reclassified into Class 1–A.

7. When local boards classify a registrant into Class 1–H, they will send a letter to each registrant with his Notice of Classification (SSS Form 110), clarifying his 1–H status. This letter will also be given or mailed to registrants who are administratively assigned into Class 1–H at the time of registration. A letter to be used for this purpose is attached to this chapter, and may be obtained through normal supply channels.

8. After priority is given to the processing of registrants who are or may be vulnerable for induction in the near future, local boards should reclassify eligible registrants into Class 1–H in the following priority:

a. Deferred or exempt registrants with RSN's above the 1–H cutoff number for the 1972 First Priority Selection Group who are in classes 1–S, 2–A, 2–C, 2–S, 2–D, 3–A, 4–B, 4–C, and 4–D, and who would therefore become new members of or reenter the first priority group;

b. Present members of the 1972 first priority group with RSN's above the 1972 1–H cutoff number.

c. Registrants who will be in the 1973 first priority group, whose RSN's are above the 1–H cutoff number established for the 1973 first priority group.

d. Second or lower priority registrants.

e. Registrants, not in one of the above categories, who have a wife whom they married on or before August 26, 1965, and with whom they maintain a bona fide relationship in their homes.

Conversion of registrants into Class 1–H by local boards according to the preceding schedule will be accomplished as time and workload permits, but in no event later than December 31, 1972.

SEC. 622.20 *General rules for classification in Class 2.* 1. The local board has primary responsibility, under applicable rules and instructions in this chapter, for deciding which men should be deferred because of their civilian activities. Civilian activities which are contributing to the national health, safety, or interest should be disrupted as little as possible, consistent with the fundamental purpose of the Military Selective Service Act.

2. No deferment from training and service shall be granted in the case of any registrant except upon the basis of his individual status, as reflected in his selective service file.

3. The local board may avail itself of the assistance of all Federal, State, or local agencies to obtain information which will help it to determine whether a claim for deferment should be granted.

SEC. 622.21 *Length of deferments in Class 2.* 1. Class 2 deferments shall be for a period of 1 year or less. If there is a change in the registrant's status during the period of deferment which would affect his eligibility for Class 2, his classification shall be reopened and considered anew.

2. After the expiration of the period of a registrant's deferment in Class 2, his classification shall be reopened and he shall be classified anew based upon the information in his selective service file, and applicable rules and regulations. The registrant may be continued in Class 2 for a further period of 1 year or less if such classification is considered warranted by the classifying board. The same procedures shall apply when classifying a registrant at the end of each successive period for which he has been classified in Class 2.

3. Nothing in this section is intended to require or permit the local board to retain in Class 2 any registrant when the reason for his classification has ceased to exist.

SEC. 622.22 *Class 2–A: Registrant Deferred Because of Civilian Occupation (except agriculture) or Nondegree Study.* 1. In Class 2–A shall be placed any registrant whose continued employment is found to be necessary to the maintenance of the national health, safety, or interest in an activity which may be identified as essential by the Director of Selective Service upon the advice of the National Security Council. Any registrant who was classified into Class 2–A prior to April 23, 1970, or who was later classified into Class 2–A as a result of a request filed prior to April 23, 1970, may be retained in such class so long as he qualifies under the provisions of paragraph 1 of section 622.23 and remains on the same job. Any registrant who qualified for deferment in Class 2–A as an apprentice in an approved program will be qualified for the 2–A status until he completes his apprentice program or ceases to satisfactorily pursue the course of training.

2. In Class 2–A shall be placed any registrant who: (1) Was satisfactorily pursuing an approved full-time course of instruction, not leading to a baccalaureate degree, in a junior college, community college or technical school during the 1970–71 academic school year, (2) is engaged in an apprentice training program approved and begun prior to July 1, 1971, or (3) is satisfactorily pursuing approved full-time training, begun prior to July 1, 1971, in a technical or trade school not on an academic year. Deferment under the authority of this paragraph will continue until such registrant fails to pursue satisfactorily such full-time course of instruction or training or until the expiration of the period of time normally required to complete such course of full-time instruction or training.

SEC. 622.23 *Necessary employment defined.* 1. A registrant's continued employment in an occupation identified in the preceding section shall be considered to be necessary to the maintenance of the national health, safety, or interest only when all of the following conditions exist:

a. The registrant is, or but for a seasonal or temporary interruption would be, engaged in such activity.

b. The registrant cannot be replaced because of a shortage of persons with his qualifications or skill in such activity.

c. The removal of the registrant would cause a material loss of effectiveness in such activity.

2. A registrant's activity as an apprentice in an apprentice training program will qualify him for deferment when all of the following conditions exist:

a. The apprentice training program meets the standards and requirements prescribed in section 622.23a based upon the recommendations of the secretary of Labor.

b. The program has been accepted by the Director or State Director of Selective Service for deferment purposes.

c. The registrant is satisfactorily pursuing his training in the program and meeting the requirements and standards of performance as prescribed in section 622.23a.

SEC. 622.23a *Standards and requirements for apprentice training programs and acceptance of such programs for deferment purposes.* 1. The apprentice training program must be an organized plan, written or implied, embodying the terms and conditions of employment, training, and supervision of one or more apprentices in one or more apprenticeable occupations, as defined in paragraph 2 of this section, and subscribed to by a sponsor who has undertaken to carry out the apprentice training program. The sponsor may be an employer of labor, a joint apprenticeship committee, a trade union, a group of employers of labor, or an association of journeymen.

2. The apprentice training program must offer apprentice training in an occupation which:

a. Customarily has been learned in a practical way through on-the-job training;

b. Requires 4,000 or more hours of work experience to learn;

c. Is clearly identified and commonly recognized throughout the industry;

d. Requires during each year of apprenticeship the completion of 144 hours or more of organized and systematic related trade instruction designed to provide the apprentice with learning in theoretical and technical subjects related to the occupation;

e. Is not merely a part of an occupation normally learned through apprenticeship;

f. Involves a development of skill sufficiently broad to be applicable in like occupations throughout an industry rather than of restricted application to the products of one employer; and

g. Does not fall within any of the following categories:

(1) Selling, retailing, or similar occupations in the distributive field;

(2) Managerial occupations;

(3) Clerical occupations;

(4) Professional or semiprofessional occupations including occupations for which entrance requirements customarily include education of college level; or

(5) Agricultural occupations which include occupations such as the growing of crops, fruits, or nuts, and the raising of livestock or poultry.

3. A registrant's activity in an apprentice training program will qualify him for deferment when all of the following conditions exist:

a. The program sponsor has submitted to the local board a request for the occupational deferment of the registrant accompanied by the certificate of the sponsor that (1) the apprentice training program has been accepted for the purpose of deferment by the State Director of Selective Service for the State within which the program is being operated or by the Director of Selective Service, and (2) the registrant is meeting the conditions prescribed in the following paragraph.

b. The registrant currently is meeting all the standards and requirements of the apprentice training program and is satisfactorily performing and progressing in his on-the-job training and related trade instruction.

4. All approved apprentice training programs with deferred participants should be reviewed by the State Director periodically to determine whether the required standards are being maintained.

SEC. 622.24 *Class 2–C: Registrant Deferred Because of Agricultural Occupation.* 1. In Class 2–C shall be placed any registrant who was classified in Class 2–C prior to April 23, 1970, or who was later classified into Class 2–C as a result of a request filed prior to April 23, 1970, and who continues to be employed in the same agricultural activity, but only when all of the conditions described in paragraph 1 of section 622.23 are found by the local board to exist, and he is endeavoring to maintain the same or higher level of production.

SEC. 622.25 *Class 2–S: Registrant Deferred Because of Activity in Degree Study.* 1. In Class 2–S shall be placed any registrant who requests such classification, who was satisfactorily pursuing a full-time course of instruction leading to a baccalaureate degree at a college, university, or similar institution of learning during the 1970–71 regular academic school year and who is satisfactorily pursuing such course, such classification to continue until the registrant completes the requirement for his baccalaureate degree, fails to pursue satisfactorily a full-time course of instruction, or attains the 24th anniversary of the date of his birth, whichever occurs first.

2. A registrant will be deemed to be satisfactorily pursuing a full-time course of instruction when he is making proportionate progress toward his degree. For example, if the registrant is enrolled in a 4-year course of instruction, the registrant should complete at least one-fourth of the total requirements by the end of the first academic year, at least one-half by the end of the second academic year, at least three-fourths by the end of the third academic year, and should graduate by the end of the fourth academic year. If the registrant is in a course of instruction for which the curriculum has been prescribed in the official college catalog as requiring 5 or more years duration, he must make similar proportionate progress, such as completing one-fifth of the requirements each year of a 5-year course. The registrant's academic year, for the purpose of this section, shall terminate on the anniversary of his entrance into the course of study.

3. When a registrant transfers from a junior college or community college to a baccalaureate degree granting institution, even though some of his credits are not accepted through no fault of his own, he shall be eligible for continued deferment so long as he remains a full-time student and maintains satisfactory progress from the status in which he was accepted for transfer.

4. It shall be the registrant's duty to provide the local board each academic year with verification from a college, university, or similar institution of learning that he is satisfactorily pursuing a full-time course of instruction at that institution of learning.

SEC. 622.26 *Class 2–S: Registrant Deferred Because of Activity in Graduate Study.* In Class 2–S shall be placed any registrant who is satisfactorily pursuing a full-time course of graduate study in medicine, dentistry, veterinary medicine, osteopathy, optometry or podiatry. It shall be the registrant's duty to provide the local board each academic year with verification from a college, university, or similar institution of learning that he is satisfactorily pursuing a full-time course of instruction in one of these fields of study at such institution of learning. Any registrant who is ordered to report for induction or alternate service, and who has or receives a firm acceptance into the next beginning class in courses of study, shall have his reporting date for induction or alternate service postponed until the beginning of such course of study, and upon entry into such course of study, his classification shall be reopened.

SEC. 622.27 *Class 2–D: Registrant Deferred Because of Study Preparing for the Ministry.* 1. In Class 2–D shall be placed any registrant preparing for the ministry under the direction of a recognized church or religious organization, who requests such deferment and who:

a. Is satisfactorily pursuing a full-time course of instruction in a recognized theological or divinity school, or

b. Is satisfactorily pursuing a full-time course of instruction required for his entrance into a recognized theological or divinity school in which he has been preenrolled, and

c. Is a student in a full-time program preparing for the ministry under the direction of a recognized church or religious organization.

2. It shall be the duty of any registrant who is a theological or divinity student to provide the local board each year with evidence that:

a. He is a student preparing for the ministry under the direction of a recognized church or religious organization, and

b. He is satisfactorily pursuing a full-time course of instruction in a recognized theological or divinity school.

3. It shall be the duty of any registrant who is a pretheological student to provide the local board each year with evidence that:

a. He is a student preparing for the ministry under the direction of a recognized church or religious organization, and

b. He is satisfactorily pursuing a full-time course of instruction required for entrance into a recognized theological or divinity school in which he has been preenrolled.

4. It shall be the duty of any registrant who is a student in a full-time program preparing for the ministry to provide the local board each year with evidence that:

a. He is a student preparing for the ministry under the direction of a recognized church or religious organization,

b. His studies relate to and lead toward entry into service as a regular or duly ordained minister of religion, as defined in section 622.43 of this chapter, and

c. He is making appropriate progress in his studies.

5. The local board or appeal board may require from the church religious organization, or school detailed information in order to determine whether or not the theological or divinity school is in fact recognized and whether or not the church or religious organization which is sponsoring the registrant is recognized.

6. A school, to be recognized as a theological or divinity school, should enjoy a good reputation, and its graduates should be acceptable, by the church sponsoring the registrant, for ministerial duties, either as an ordained or regular minister.

7. A church or religious organization should be able to show that it was established on the basis of a community of faith and belief, doctrines and practices of a religious character, and that it engages primarily in religious activities.

8. If the local board or appeal board considers the information it has received to be insufficient for the purpose of making a determination, it should request assistance or additional information from the State Director of Selective Service. When the church or religious organization, or the theological or divinity school is located in another State, the State Director may contact the appropriate State Director for advice and recommendation, or may request advice

APR 28 72 XUM

from the Director of Selective Service. In any case, the advice of the State Director or the Director of Selective Service shall not be binding upon the local board.

SEC. 622.30 *Class 3–A: Registrant with a Child or Children: and Registrant Deferred by Reason of Extreme Hardship to Dependents.* 1. In Class 3–A shall be placed any registrant whose induction into the armed forces would result in extreme hardship to his wife, divorced wife, child, parent, grandparent, brother, or sister who is dependent upon him for support, except that a person shall be considered to be a dependent of a registrant under the paragraph only when such person is either a citizen of the United States or lives in the United States, its Territories, or possessions.

2. The term "child" as used in this section shall include a legitimate or illegitimate child from the date of its conception, a child legally adopted, a stepchild, a foster child, and a person who is supported in good faith by the registrant in a relationship similar to that of parent and child but shall not include any person 18 years of age or over unless he is physically or mentally handicapped.

3. In Class 3–A shall be placed any registrant who prior to April 23, 1970 submitted to his local board information establishing his eligibility for deferment on the grounds of fatherhood under regulations in effect prior to that date, or who was classified in Class 3–A prior to that date, and who continues to maintain a bona fide family relationship in their home with his child or children, except that this paragraph shall not apply to any registrant who subsequently becomes a physician or allied medical specialist.

4. Request for deferment based upon extreme hardship:

a. A person shall be considered financially dependent upon the registrant only if such person depends upon the registrant for his maintenance, and not if he receives only partial help to live more comfortably.

b. The phrase "extreme hardship" must be interpreted with emphasis on the word "extreme" which means, in any case, that there exists a severe condition of physical or mental dependency or extreme economic factors. Keep in mind that the interruption of a family routine, the difference in pay, and other factors may be hardships to some degree, but are no different than those experienced by thousands of others who enter the service and are generally not grounds for hardship deferment.

c. A registrant may file a written claim for hardship deferment at any time. The claim may be by letter or other writing such as Dependency Questionnaire (SSS Form 118), which indicates that such deferment is desired.

d. After the issuance of an Order to Report for Induction, or Selection for Alternate Service, a request for, or submission of, a Dependency Questionnaire (SSS Form 118) does not constitute a basis for delay of a registrant's processing for induction or alternate service. Such a delay will not be permitted, unless information is presented which, if true, would be a basis for reopening a registrant's classification, and the late submission of the information is due to reasons beyond the registrant's control.

5. Preclassification action:

a. Prior to a local board classifying or reclassifying a registrant who has claimed extreme hardship, the local board shall furnish the registrant a Dependency Questionnaire (SSS Form 118) and request the registrant to furnish such additional information to support his claim for deferment as he may desire.

b. In the event the registrant fails to return the SSS Form 118 within the time indicated on the form, the local board shall consider the registrant's claim without the benefit of the information on the form. The local board shall not postpone a registrant's induction or alternate service to allow the filing of the form.

c. Classification need not be based solely upon the information contained in the questionnaire. When the local board determines that the information in the file is inadequate, it may request further information from the registrant, his dependents, or other government or civilian agencies.

6. Financial hardship:

a. Information to be considered:

(1) Financial needs of the claimed dependent.

(2) Reasonableness of such claim.

(3) Earnings of the claimed dependent if employed and/or other income.

(4) Income of other members of the registrant's family and their ability to contribute to the claimed dependent.

(5) Financial effect of entry into military service including all pay and allowances, and the Soldiers and Sailors Relief Act.

(6) Indebtedness of the registrant or claimed dependent.

b. For the purpose of determining whether or not the induction of a registrant would result in extreme hardship to his dependent(s), the local board must consider the pay, along with clothing allowances, lodging and food, which the registrant would receive as a member of the Armed Forces, the free medical care for the member and his dependents, as well as the allowances which are payable by the United States to dependents of persons serving in the Armed Forces. However, the fact that such pay and allowances are payable shall not be deemed conclusively to remove the grounds for deferment when the dependency is based upon financial considerations and shall not be deemed to remove the grounds for deferment when the dependency is based upon other than financial considerations and cannot be eliminated by financial assistance to the dependents.

c. The following table sets forth, according to pay grade, the amount of pay and the allowance for quarters, the amount deducted from the enlisted man's pay, and the total amount payable to his dependents for each month:

Pay grade	Monthly pay	Allowance for quarters—one or more dependents	Amount deducted from soldier's pay	Total dependency allowance—with one or more dependents
E–1	$288.00	$105.00	$40.00	$145.00
E–2	320.70	105.00	40.00	145.00
E–3	333.60	105.00	40.00	145.00
E–4	346.80	121.50	40.00	161.50

7. Physical or mental hardship:

a. Medical documentation of the dependent should be evaluated as to degree of disability, the length of time the medical condition has been in existence and the prognosis as to the continuation of the medical condition. The dependent's ability to care for himself, or be cared for without the aid of the registrant shall be considered.

b. Doctors' statements must verify any claimed disability of dependents. It must be determined that the registrant alone is responsible for the care of the dependent. The normal anxiety attributable to a son or husband entering the armed forces should not be a basis for deferment. The prognosis for the registrant's dependent must also be considered to determine if this is a short- or long-term condition.

8. Paternity claims:

a. April 23, 1970, was the termination date for eligibility for paternity deferments. Young men who register after that date shall be eligible for consideration for a Class 3–A paternity deferment only if documentation is presented prior to his classification into Class 1–A which establishes that the registrant's child was conceived prior to April 23, 1970, and prior to the time set for registration of the claimant.

b. Since June 30, 1967, registrants who have received a student deferment in Class 2–S have not been eligible for deferment in Class 3–A solely on the basis of having a child or children with whom they may maintain a bona fide family relationship. These registrants may qualify for Class 3–A on the basis of extreme hardship upon presentation of convincing evidence to the classifying board which conclusively substantiates the claim.

9. Postponement of Induction. Whenever facts are presented to a local board which establish that extreme hardship to a registrant's dependent(s) would result if the registrant is inducted within the ensuing 6-month period, but would not result if the registrant is inducted after such 6-month period, it is recommended that the local board request the State director to postpone the registrant's induction for the appropriate length of time, rather than utilizing a 3–A classification which would be of short duration.

SEC. 622.40 *Class 4–A: Registrant who has completed military service.* 1. In Class 4–A shall be placed any registrant who falls within any of the following categories:

a. A registrant discharged or transferred to a reserve component of the Armed Forces after having served honorably on active duty for a period of not less than 6 months in the Army, the Air Force, the Navy, the Marine Corps, or the Coast Guard.

b. A registrant who has served on active duty for a period of not less than 24 months as a commissioned officer in the National Oceanic and Atmospheric Administration or in the Public Health Service, provided that such period of active duty in the Public Health Service as a commissioned reserve officer commencing after June 30, 1967, shall have been performed by the registrant while assigned to staff any of the various offices and bureaus of the Public Health Service including the National Institutes of Health, or while assigned to the Coast Guard, or the Bureau of Prisons of the Department of Justice, or the National Oceanic and Atmospheric Administration.

c. A registrant who has served on active duty for a period of not less than 12 months in the Armed Forces of any of the following nations which are certified by the Department of State to be nations with which the United States is associated in mutual defense activities.

Argentina.	Iran.
Australia.	Italy.
Barbados.	Jamaica.
Belgium.	Japan.
Bolivia.	Korea, Republic of (South).
Brazil.	Luxembourg.
Canada.	Mexico.
Chile.	Netherlands.
China, Republic of.	New Zealand.
Colombia.	Nicaragua.
Costa Rica.	Norway.
Denmark.	Spain.
Dominican Republic.	Thailand.
Ecuador.	Tobago.
France.	Trinidad.
Germany, Federal Republic of.	Turkey.
Greece.	United Kingdom.
Guatemala.	Uruguay.
Haiti.	Venezula.
Honduras.	Vietnam, Republic of (South).
Iceland.	

When an alien believes he qualifies for exemption from training and service under the provisions of this paragraph, he must request a certificate verifying his military service from his country's diplomatic mission in Washington, D.C. or from the nearest consular office of his country. The mission or the consular office, after verification of the alien's service, will provide a certificate written in English evidencing such service, direct to the local board of jurisdiction.

d. A registrant who has completed 6 years of satisfactory service as a member of one or more of the armed forces including the reserve components thereof.

2. For the purpose of computation of periods of active duty referred to in subparagraphs a or b of paragraph 1, of this section, no credit shall be allowed for—

a. Periods of active duty training performed as a member of a reserve component pursuant to an order or call to active duty solely for training purposes;

b. Periods of active duty in which the service consisted solely of training under a college training program under the jurisdiction of the Army, Air Force, Navy, Marine Corps, or Coast Guard;

c. Periods of active duty as a cadet at the U.S. Military Academy, U.S. Air Force Academy, or U.S. Coast Guard Academy, or as a midshipman at the U.S. Naval Academy, or in a preparatory school after nomination as a principal, alternate, or candidate for admission to any such academies;

d. Periods of active duty in any of the Armed Forces while being processed for entry into or separation from any educational program or institution referred to in subparagraphs b or c of this paragraph; or

e. Periods of active duty performed by medical, dental, or allied specialists in student programs prior to receipt of the appropriate professional degree or in intern training.

f. Periods of active duty of members of the Reserve of the Public Health Service other than when assigned to staff any of the various offices and bureaus of the Public Health Service, including the National Institutes of Health, or the Coast Guard, or the Bureau of Prisons of the Department of Justice, or the National Oceanic and Atmospheric Administration.

SEC. 622.41 *Class 4–B: Official Deferred by Law.* In Class 4–B shall be placed any registrant who is the Governor of a State, Territory, or possession, or any other official chosen by the voters of the entire State, Territory, or possession; a member of a legislative body of the United States or of a State, Territory, or possession; a judge of a court of record of the United States or of a State, Territory, or possession, or the District of Columbia.

SEC. 622.42 *Class 4–C: Aliens.* 1. In Class 4–C shall be placed any registrant who is an alien and who has not resided in the United States for one year, including any period before his registration. When such a registrant has been within the United Statese for two or more periods and the total of such periods equals one year, he shall be deemed to have resided in the United States for one year. In computing the length of such periods, any portion of one day shall be counted as one full day. When any such registrant has resided in the United States for one year, he shall be classified as available for military service unless he is found to be eligible for another classification for a reason other than his alien status.

2. In Class 4–C shall be placed any registrant who is an alien who furnishes documentation establishing that he is a national of any of the following countries ("treaty alien") and who has made application to be exempted from liability for training and service in the Armed Forces of the United States:

Argentina.	Italy.
Austria.	Latvia.
China, Republic of (Nationalist).	Liberia.
Costa Rica.	Norway.
Estonia.	Paraguay.
Honduras.	Spain.
Ireland.	Switzerland.
	Yugoslavia.

3. In Class 4–C shall be placed any registrant who is an alien and who has departed from the United States. If any registrant so classified under this paragraph returns to the United States, his classification shall be reopened and he shall be classified anew. No reopening and reclassification under the provisions of this paragraph will cancel any outstanding order to report for induction or alternate service.

4. In Class 4–C shall be placed any alien who has registered at a time when he was required by the selective service law to register and thereafter has acquired status within one of the groups of persons exempt from registration.

5. In Class 4–C shall be placed any registrant who is an alien lawfully admitted for permanent residence, and who by reason of occupational status (such as employment at the World Bank or United Nations) is subject to adjustment to nonimmigrant status, but who executes a waiver of all rights, privileges, exemptions, and immunities which would otherwise accrue to him as a result of that occupational status. A registrant placed in Class 4–C under the authority of this paragraph shall be retained in Class 4–C only for so long as such occupational status continues.

6. Treaties between the United States and the countries listed below, relating to military obligations in certain cases of double nationality, provide that a person possessing two or more nationalities who habitually resides in one of the countries whose nationality he possesses, and who is in fact most closely connected with that country, shall be exempt from all military obligations in the other countries:

Australia.	Netherlands.
Austria.	Niger.
Belgium.	Nigeria.
Brazil.	South Africa.
Burma.	Swaziland.
Colombia.	Sweden.
Cuba.	United Kingdom of Great Britain and Northern Ireland, and all parts of the British Empire which are not separate members of the League of Nations.
Cyprus.	
El Salvador.	
Finland.	
Germany.	
Indonesia.	
Malawi.	
Malta.	
Mauritania.	

A registrant who is a national of both the United States and any of the above listed countries, and who meets the above requirements, as evidenced by information submitted on Special Form for Alien or Dual National (SSS Form 131) and documentation of his claim, shall be classified in Class 4–C. This exemption may involve the loss of the nationality of the other country or countries.

7. Agreements between the United States and Switzerland, and between the United States and Norway, provide that a person born in Switzerland or Norway, of parents who are nationals of the United States, and who is a national of both the United States and the other country, and who habitually resides in

V 37 I 83 APR 28 72 XUM

the other country is exempt from liability for military service in the United States. A registrant who qualifies for exemption under this provision as evidenced by information submitted on Special Form for Alien or Dual National (SSS Form 131) and documentation of his claim, shall be classified in Class 4–C.

SEC. 622.43 *CLASS 4–D: Minister of Religion.* 1. In Class 4–D shall be placed any registrant who is a regular or duly ordained minister of religion.

2. The term "duly ordained minister of religion" means a person who has been ordained, in accordance with the ceremonial ritual or discipline of a church, religious sect, or organization established on the basis of a community of faith and belief, doctrines and practices of a religious character, to preach and to teach the doctrines of such church, sect, or organization and to administer the rites and ceremonies in public worship, and who as his regular and customary vocation preaches and teaches the principles of religion and administers the ordinances of public worship as embodied in the creed or principles of such church, sect, or organization.

3. The term "regular minister of religion" means one who as his customary vocation preaches and teaches the principles of religion of a church, religious sect, or organization of which he is a member, without having been formally ordained as a minister of religion, and who is recognized by such church, sect, or organization as a regular minister.

4. The terms regular or duly-ordained minister of religion do not include a person who irregularly or incidentally preaches and teaches the principles of religion of a church, religious sect, or organization and do not include any person who may have been duly ordained a minister in accordance with the ceremonial rite or discipline of a church, religious sect or organization, but who does not regularly, as a bona fide vocation, teach and preach the principles of religion and administer the ordinances of public worship, as embodied in the creed of principles of his church, sect, or organization.

SEC. 622.44 *Class 4–F: Registrant Not Qualified for Military Service.* 1. In Class 4–F shall be placed any registrant who is found under applicable physical, mental, and moral standards to be not qualified for service in the Armed Forces, except that no such registrant whose further examination or reexamination may be justified shall be placed in Class 4–F until such further examination as the Director of Selective Service deems appropriate has been accomplished and such registrant continues to be found not qualified for military service.

2. In Class 4–F shall be placed any registrant in the medical, dental, and allied specialist categories who has applied for an appointment as a Reserve officer in one of the Armed Forces in any of such categories and has been rejected for such appointment on the sole ground of physical disqualification.

SEC. 622.45 *Class 4–G: Registrant Exempted as a Surviving Son From Service During Peace.* 1. Prior to September 28, 1971, when admendments to the Military Selective Service Act of 1967 were adopted, the law and regulations made provision for exemption from service for only the registrant who was the sole surviving son of a family of which the father or one or more sons or daughters were killed in action or died in line of duty while serving in the Armed Forces of the United States, or subsequently died as a result of injuries received or disease incurred during such service. Dates of service or death of the family member were not specified.

2. As of September 28, 1971, Section 6 of the Military Selective Service Act reads as follows:

> Except during the period of a war or national emergency declared by Congress, no person may be inducted for training and service under this title unless he volunteers for such induction—(1) if the father or a brother or a sister of such person was killed in action or died in line of duty while serving in the Armed Forces after December 31, 1959, or died subsequent to such date as a result of injuries received or disease incurred in line of duty during such service, or (2) during any period of time in which the father or a brother or a sister of such person is in a captured or missing status as a result of such service.
>
> As used in this subsection, the term "brother" or "sister" means a brother of the whole blood or a sister of the whole blood as the case may be.

Section 101(d)(3)9 P.L. 92–929 provides:

> Notwithstanding the (above quoted paragraph), except during the period of a war or a national emergency declared by Congress, the sole surviving son of any family in which the father or one or more sons or daughters thereof were killed in action before January 1, 1960, or died in line of duty before January 1, 1960, while serving in the Armed Forces of the United States, or died subsequent to such date as a result of injuries received or disease incurred before such date during such service shall not be inducted under the Military Selective Service Act unless he volunteers for induction.

3. As explained above, provisions now exist for the local board to consider the exemption of both sole surviving sons, and surviving sons and brothers. Dates of service and death of the family member have been prescribed and will establish which of the above provisions applies in each individual case. The dates of December 31 1959, and January 1, 1960, set forth in the law, apply only to sole surviving son and surviving son classifications made after September 28, 1971.

4. The following examples may be of assistance to local boards in considering claims for exemption under this section:

a. The father of John Smith, an only child, served in the Navy from 1943 until 1945 when he was discharged because of multiple wounds. He died in 1950 from those injuries. John is eligible for exemption as a sole surviving son.

b. Same as above, except John's father died in 1964 from wounds sustained in 1945. John qualifies for exemption as a sole surviving son.

c. Same as above, except the father's death was due to an automobile accident in 1961. John does not qualify for exemption as the death was not from a service connected cause.

d. John's father and mother were divorced in 1946. His mother, who gained custody of John, remarried and bore a son by her second husband. John's father died in 1950 from wartime wounds. John qualifies for exemption, even though he has a half-brother, because he was the only son of a man who died from wounds sustained while in the Navy. (John's half-brother would not qualify as he was not a son of John's father).

e. John joined the Marines in 1962. He was killed by a land mine in 1964. His half-brother would not qualify for exemption as he was not of the whole blood.

f. William Miller's half-brother joined the Army and was killed in 1969 in Vietnam. William would not be eligible for exemption as the deceased was not a brother of the whole blood.

g. James Nelson had four brothers of the whole blood. Tom, the second oldest, died in service on January 4, 1963. All three remaining brothers qualify for exemption from service as surviving brothers.

h. Edward Kolski's mother, a reserve officer in the WAC, was killed in a plane crash during her annual 2 weeks tour of active duty. Edward would not qualify for exemption since there is no provision for exemption based on the death of a mother.

i. Robert Duran's father died in 1961 from World War II injuries. Robert has two brothers who are still living. None of the sons qualify for exemption because there is no sole surviving son.

5. Determinations by the Armed Forces or the Veterans' Administration as to the status of the registrant's father, brother or sister who was killed or who died or who is captured or missing will be conclusive as to facts to which they pertain.

SEC. 622.46 *Class 4–W: Registrant Who Has Completed Alternate Service in Lieu of Induction.* In Class 4–W shall be placed any registrant who subsequent to being ordered by the local board to perform alternate service in lieu of induction has been released from such service by the local board after satisfactorily performing the work for a period of 24 consecutive months or has been released from such service by the Director of Selective Service.

(SAMPLE LETTER TO 1–H REGISTRANT)

Dear ----------,

The enclosed notification advises you that you have been placed in Class 1–H. This is a holding classification for registrants who are not currently subject to processing for induction. If your lottery number is high enough, you will be left in Class 1–H indefinitely, with the realization that each year your likelihood of being selected for induction is decreasing.

If at any future time, your lottery number and priority group fall in the range of those being selected for induction, you will be reclassified out of 1–H. At that time, you will have the opportunity to present any claim for deferment and you will be classified into an appropriate class. You will also have the procedural rights of personal appearance and appeal during the 15-day period following the issuance of the notice that you have been reclassified.

As a 1–H registrant, you are required to inform the local board of any change in your address. However, it will not be necessary for you to inform the local board of any change in your occupational, marital, family, or dependency status or of your physical condition until such time as your local board requests further information.

By direction of the local board.

CURTIS W. TARR,
Director.

[FR Doc.72–6505 Filed 4–27–72;8:47 am]

VETERANS ADMINISTRATION

ENVIRONMENTAL IMPACT PROGRAM

Notice is hereby given of the publication of procedures of the Veterans Administration to implement section 102 (2)(C) of the National Environmental Policy Act of 1969 (Public Law 91–190, Jan. 1, 1970, 83 Stat. 852); section 2(f), Executive Order 11514 (Mar. 5, 1970, 35 F.R. 4247, 3 CFR Part 104, 1970 compilation), and the guidelines issued by the Council on Environmental Quality (Apr. 23, 1971, 36 F.R. 7724).

Interested persons are invited to submit written comments regarding these procedures to the following office:

Mr. Arthur W. Farmer, Assistant Chief Medical Director for Administration and Facilities, Room 600, Veterans Administration, 810 Vermont Avenue NW., Washington, DC 20420.

All relevant comments received not later than 30 days after publication of this notice in the FEDERAL REGISTER will be considered with a view to later revision of the procedures if necessary.

Set forth below is VA Manual MP–1, General Administrative, Part I, Chapter 9, "VA Environmental Impact Program." The numbering system used is that of the VA manual.

Dated: April 24, 1972.

By direction of the Administrator.

FRED B. RHODES,
Deputy Administrator.

Included in MP–1, Part I, Chapter 9 but not published in this notice are:

A. National Environmental Policy Act of 1969 (Public Law 91–190, Jan. 1, 1970, 83 Stat. 852).

B. Executive Order 11514, Protection and Enhancement of Environmental Quality (Mar. 5, 1970, 35 F.R. 4247, 3 CFR 104, 1970 Comp.).

C. Executive Order 11507, Prevention, Control and Abatement of Air and Water Pollution at Federal Facilities (Feb. 4, 1970, 35 F.R. 2573, 3 CFR, 1970 Comp.).

D. Council on Environmental Quality Guidelines, Statements on Proposed Federal Actions Affecting the Environment and Memorandum to the Heads of Agencies, April 23, 1971.

E. Office of Management and Budget Bulletin No. 72–6, September 14, 1971, Proposed Federal Actions Affecting the Environment.

F. Office of Management and Budget Circular No. A–85, Revised, January 20, 1971, Consultation with Heads of State and Local Governments in Development of Federal Regulations.

G. Office of Management and Budget Circular No. A–95, Revised, February 9, 1971, Evaluation, Review, and Coordination of Federal and Federally Assisted Programs and Projects, as amended July 26, 1971.

H. FEDERAL REGISTER Notices of Availability.

I. Format for Notice of Intent to Prepare a 102 Statement.

CHAPTER 9—VA ENVIRONMENTAL IMPACT PROGRAM

1. *Purpose.* This chapter establishes policies and procedures to facilitate VA compliance with various legal requirements and guidelines concerning the environmental impact of proposed actions, coordination with Federal, State, and local government authorities, and formulation of detailed Environmental Impact Statements (hereafter referred to as 102 statements). These 102 statements are required on all proposals for legislation and other major VA actions significantly affecting the quality of the human environment by section 102 (2)(C) of NEPA (National Environmental Policy Act of 1969, Public Law 91–190). (See Appendix A.) One of the general purposes of title IV of the Intergovernmental Cooperation Act of 1968 (Public Law 90–577) was to provide that the chief executives of State and local governments will be given a reasonable opportunity to comment on major proposed Federal rules, regulations, standards, procedures, and guidelines, major interagency agreements concerning program operations, and major organization changes, any of which have a significant and nationwide effect on State and local governments. This will sometimes require assistance by the ACIR (Advisory Commission on Intergovernmental Relations). (See OMB Circular No. A–85 Revised, Appendix F.) Other requirements to be observed are set forth in Executive Orders 11514 and 11507 (see Appendixes B and C); in CEQ (Council on Environmental Quality) guidelines (see Appendix D); and in OMB (Office of Management and Budget) directives (see Appendixes E–G).

2. Responsibilities—a. *Department of Medicine and Surgery.* Under the general direction of the Deputy Administrator, the ACMD for Administration and Facilities is responsible for the formulation of overall policies, plans and procedures governing the VA environmental impact program.

b. *The Assistant Administrator for Management and Evaluation.* The AA/M&E is responsible for liaison with the Director, Office of the Federal Register, General Services Administration on matters relating to the publication of public notices in the FEDERAL REGISTER announcing the availability of 102 statements or other environmental program material requiring publication in the FEDERAL REGISTER.

c. *Department and Staff Office Heads.* Staff or department heads will supplement this chapter as necessary to make its provisions and policies effective in their areas of jurisdiction. In carrying out these responsibilities they will seek the advice and guidance of the ACMD for Administration and Facilities and the AA/M&E, as appropriate.

3. *Scope.* The need for the preparation of a 102 statement will be based on the criteria established for each of the following categories of VA action:

a. *Major land purchases and improvements.* A 102 statement will normally be prepared for any major land purchase and improvement thereon.

b. *Major new building or facility.* A 102 statement will normally be prepared when a major new building or facility is constructed at an existing facility or site and the new building or facility will have a significantly adverse environmental impact in relation to the existing facility or site.

c. *Major replacement building or facility.* A 102 statement will normally be prepared when a major replacement building or facility is constructed at an existing facility and the adverse environmental impact of the replacement building or facility is greater than that of the building or facility being replaced.

d. *Nursing home and State home grants.* (1) Each application for a nursing home or State home grant will be reviewed by the central point prior to approval of such grant.

(2) A 102 statement will normally be prepared when remodeling of an existing nursing home or State home will result in an adverse environmental impact significantly greater than that which previously existed.

(3) A 102 statement will normally be prepared when construction of a new nursing home or State home will result in a significantly adverse environmental impact.

e. *Major pollution abatement measures.* (1) A 102 statement will normally be prepared when such measures have a significantly adverse environmental impact.

(2) A 102 statement will normally not be prepared when such measures maintain the environment at the existing level or result in a reduced adverse environmental impact.

f. *Standards and criteria governing the approval of residential developments in VA home loan financing.* The preparation of a 102 statement will be determined by the Veterans Administration and the Department of Housing and Urban Development based on criteria jointly developed.

g. *Recommendations or reports relating to legislation and appropriations.* All such recommendations or reports which have potential or actual adverse environmental impact will be reviewed by the central point. The need for a 102 statement will be based on the criteria established in this paragraph and

V 37-83 APR 28 72 XUM

normally be prepared when such recommendation or report will result in an adverse environmental impact significantly greater than that existing at the time of implementation of such recommendation or report.

h. *Federal leases, permits, licenses, certificates, or other entitlements for use.* The need for a 102 statement will normally be based on the criteria established in this paragraph and normally be prepared if such leases, permits, licenses, certificates, or other entitlements for use will result in an adverse environmental impact significantly greater than that presently existing.

i. *Policy or procedure making.* The need for a 102 statement will normally be based on the criteria established in this paragraph and a 102 statement will normally be prepared if such policy or procedure results in an adverse environmental impact significantly greater than that existing prior to the implementation of such policy or procedure.

j. *Removal or disturbance of a site, building, or object which has a significant historical value.* A 102 statement will normally be prepared for removal or disturbance of such site, building, or object.

4. *A 102 statement defined.* A 102 statement is a detailed statement by the Administrator discussing the following considerations:

a. The environmental impact of the proposed actions.

b. Any adverse environmental effects which cannot be avoided should the proposal be implemented.

c. Alternatives to the proposed action.

d. The relationship between a local short-term use of man's environment and the maintenance and enhancement of long-term productivity.

e. Any irreversible or irretrievable commitment of resources which would be involved in the proposed action should it be implemented.

5. *The principal characteristics of a 102 statement.* In general a 102 statement will have the following characteristics:

a. It will contain a description of the physical and environmental aspects of the proposed action.

b. It will be sufficiently descriptive to allow evaluation and appraisal of the favorable and adverse environmental effects of each proposal.

c. Its length will be suited to the proposal and the nature of its impact.

d. It will be submitted as a separate document and not as an enclosure or an appendix to another document.

e. It will not be based on ultimate conclusions, but should show consideration of the potential impact of the proposal on the environment.

f. It will summarize information and cite sources of overall appraisals with attention to the following:

(1) Include and comment on the views of those opposing the proposal for environmental reasons.

(2) Summarize the views of agencies having environmental responsibilities.

(3) Include a full and objective appraisal of the environmental effects, good and bad, and of available alternatives.

(4) Do not overstate favorable effects.

(5) Discuss regional significance when the environmental impact extends beyond the immediate area.

(6) Include significant relationships between the proposal and other developments, both existing and authorized.

6. *The format of a 102 statement.* The completed 102 statement should have the following general structure:

a. *A Project description.* (1) The name of the project or action.

(2) Its location.

(3) Its purposes.

(4) The authorizing document if available.

(5) The current status of the action.

b. *A description of the environmental setting without the project.* (1) Describe the area.

(2) Mention the present level of economic development.

(3) Disclose the existing land and water uses, and other environmental determinants.

(4) Discuss the setting on a regional basis.

(5) Discuss the interrelations of projects and alternatives proposed, under construction, or in operation by the agency or organization.

(6) Discuss existing levels of pollution in the project area.

c. *A statement of the anticipated environmental impact of the proposed action.* (1) Identify the various environmental impacts anticipated, viewed as changes or conversions of environmental elements which result from the direct and indirect consequences of the proposed action.

(2) Describe such impacts in a dispassionate manner to provide a basis for a meaningful treatment of the trade-offs involved.

(3) Set forth quantitative estimates of ecological gains or losses whenever practicable.

(4) Discuss both the beneficial and detrimental aspects of the environmental changes or conversions. Place some relative value on the impacts described. Include such items as:

(a) A discussion of the impacts in terms of their effects.

(b) An identification of the recipient of these effects.

(c) A discussion of these effects regionally.

(5) Identify remedial, protective, and mitigative measures which would be taken in response to adverse effects of environmental impacts.

d. *A statement of any adverse environmental effects which cannot be avoided should the proposal be implemented.* (1) Discuss the unavoidable adverse effects and their implications.

(2) Identify the abatement or mitigative measures proposed to rectify the adverse effects and the extent of their effectiveness.

(3) Identify the nature and extent of the principal adverse effects and the parties affected.

(4) Present and comment on the objections of all concerned parties.

(5) Consider such specific items as:

(a) Loss of given acreage.

(b) Water and air pollution.

(c) Damage to life systems.

(d) Urban congestion.

(e) Threats to health.

(f) Other consequences adverse to the environmental goals set out in section 101(b) of the NEPA.

(g) Generation and disposal of solid wastes.

e. *A résumé of alternatives to the proposed action.* (1) Describe the various alternatives considered, their environmental impact, and the reasons why each was not recommended.

(2) Identify the alternatives as to their beneficial and detrimental effects on the environmental elements.

(3) Specifically take into account the alternative of NO ACTION. This last alternative requires a projection of the future environmental setting if the project is not accomplished.

(4) A discussion of both natural and man-induced changes.

(5) A discussion of economically justified alternatives.

f. *An evaluation of the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* (1) Assess the cumulative and long-term impacts of the proposed action with the view that "each generation is trustee of the environment for succeeding generations."

(2) Give special attention to considerations that would narrow the range of beneficial uses of the environment for succeeding generations.

(3) Consider that the priority of any action should be weighed against the potential for damage to man's life support system.

(4) Consider temporary environmental impacts such as air, water, noise, pollution, etc.

g. *A review of any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.* (1) Discuss irrevocable uses of resources.

(2) Discuss changes in land use.

(3) Discuss destruction of archeological or historical sites.

(4) Discuss unalterable disruptions in the eco-system.

(5) Discuss any other effects that would curtail the diversity and range of beneficial uses of the environment should the proposal be implemented.

h. *A synopsis of coordination with other Agencies.* (1) List all government and private entities with whom coordination has been accomplished.

(2) Discuss public participation efforts.

(3) Specify coordination measures taken with those having environmental interest.

(4) Summarize and identify all views, both pro and con.

(5) Attach a copy of all comments received concerning the proposal to the 102 statement.

i. *A summary sheet which will accompany each draft and final 102 statement.* This summary sheet consisting of no more than one page, will contain the following information:

Check one:
( ) Draft.
( ) Final 102 statement.

Name of responsible Federal agency (with name of operating division where appropriate).

(1) Name of action. Check one:
( ) Administrative action.
( ) Legislative action.

(2) Brief description of action indicating what States (and counties) particularly affected.

(3) Summary of environmental impact and adverse environmental effects.

(4) List alternatives considered.

(5) (a) (For draft statements) List all Federal, State, and local agencies from which comments have been requested.

(b) (For final statements) List all Federal, State, and local agencies and other sources from which written comments have been received.

(6) Dates draft statement and final statement made available to CEQ and public.

7. *Plans and procedures.* a. The following considerations are associated with the preparation and use of a 102 statement:

(1) Consultation with Federal, State, and local agencies, the CEQ, and the OMB.

(2) Planning procedures for the use of the 102 statement.

(3) 102 statement filing procedures.

(4) Public information.

b. Each of these considerations is explained in more detail below, in the order of their listing:

(1) *Consultation with Federal, State, and local agencies, the CEQ, and the OMB.* VA must coordinate 102 statements with the CEQ, the OMB, and the EPA (Environmental Protection Agency) along with other Federal agencies having relevant environmental expertise or jurisdiction by law. The views of State and local agencies authorized to develop and enforce environmental standards will be sought. This will sometimes require assistance by the ACIR. (See Appendix F.)

(a) The appropriate agencies will be consulted concerning VA actions, reports, or proposals for:

1. Legislation.

2. Other major Federal actions significantly affecting the quality of the human environment.

(b) Recommendations or reports on proposals for legislation include:

1. VA recommendations on their own proposals for legislation.

2. VA reports on legislation initiated elsewhere. In this case, only the agency which has primary responsibility for the subject matter will prepare a 102 statement.

(c) Coordination of 102 statements with responsible agencies will be done as follows:

1. Transmit draft 102 statements to responsible agencies for review and comment. Review and comment will be requested from the EPA on all such matters.

2. A 30-day time limit for reply is established. After this time period has passed, it may be presumed that the agency has no comment to make.

3. Upon receipt, comments from agencies will be reviewed by the VA and, where appropriate, summarized in the final 102 statement.

4. Copies of comments from these agencies will be included as attachments to the final 102 statement when forwarded for further action.

5. Comments from agencies and the views expressed should be no older than:

a. Twelve months for new projects or proposals.

b. Three calendar years for previously authorized projects or proposals.

6. More recent coordination will be required if significant changes in the project or proposal or in the associated environment have occurred in the meantime.

7. Where emergency circumstances make it necessary to take an action with significant environmental impact without regard to minimum periods for review and advance availability of 102 statements, the cognizant office should notify the "Central Point" who will consult with the CEQ about alternative arrangements.

(d) When seeking comments from Federal, State, and local agencies, it will be kept in mind that:

1. Existing mechanisms for obtaining the views of responsible agencies will be used to the fullest extent possible.

2. OMB Bulletin No. 72–6 outlines requirements for:

a. Proposed legislation and reports on bills.

b. Preparation of Annual Budget Estimates.

c. Water resource project reports.

3. OMB Circular No. A–95 outlines requirements regarding direct Federal development projects, federally assisted programs, and programs requiring State plans as a condition of assistance.

4. OMB Circular No. A–85 outlines requirements for consultation with the heads of State and local governments.

5. Where the above procedures are not appropriate, review by State and local agencies authorized to develop and enforce environmental standards, and their comments on environmental impact may be obtained directly by distributing the draft 102 statement to the appropriate State, regional, and metropolitan clearing houses.

6. In accordance with section 309 of the Clean Air Act, as amended, the EPA will be requested to review and comment (or proceed as indicated) on:

a. Legislation proposed by the VA,

b. Newly authorized Federal projects for construction and any major Federal action (other than a project for construction) to which section 102(2)(C) of NEPA applies, and

c. Proposed regulations published by VA.

d. A period of 45 days will be allowed for such review and comment.

e. The EPA will be provided with information and asked to comment on proposed legislation or regulations where the matter affects the areas of EPA's jurisdiction and no 102 statement is to be filed (i.e. air and water quality, solid waste, pesticides, radiation standards, noise).

(2) *Planning procedures for the use of 102 statements.* Planning for the use and preparation of the 102 statement will be as follows:

(a) Preliminary identification and assessment of possible environmental impacts and effects should be made at an early stage. Consideration of environmental elements will be included:

1. Geological elements.
2. Hydrological elements.
3. Botanical elements.
4. Zoological elements.
5. Archeological—historical—cultural elements:
a. Ruins.
b. Artifact sites.
c. Battlefields.
d. Cemeteries.
e. Ethnic colonies.

(b) At the next stage:

1. All anticipated environmental impacts and effects of each solution under consideration will be identified and discussed.

2. Views of interested agencies, groups, and citizens will be sought and considered.

(c) At a late stage:

1. Discussion regarding the proposals and alternatives will be specific and thorough regarding environmental impacts and effects.

2. The range of feasible alternatives will be pursued on projects which were recommended, authorized, or under construction prior to the NEPA. Application of all the procedures regarding 102 statements shall apply to existing actions having a significant effect on the environment even though they arise from projects or programs initiated prior to the enactment of the Act on January 1, 1970.

a. Further incremental major actions will be shaped to minimize adverse environmental consequences.

b. Consider environmental consequences not fully taken into account at the start of the project.

3. Do not duplicate the clearance process.

4. Do not take administrative action subject to section 102(2)(C), NEPA, sooner than 90 days after a draft 102 statement has been circulated for comment, furnished to the CEQ and made available to the public.

5. Do not take administrative action subject to section 102(2)(C), NEPA, sooner than 30 days after final text of a 102 statement (together with comments) has been made available to the CEQ and the public.

6. Regarding proposals for legislation to which section 102(2)(C), NEPA, applies, the final text of the 102 statement will be made available to Congress and the public in advance of any relevant congressional hearings.

(3) *102 statement filing procedures.* The following will be supplied to CEQ:

(a) Ten copies of draft 102 statements (when prepared).

(b) Ten copies of all comments received thereon (when received).

(c) Ten copies of the final text of the 102 statements.

V 37-83
APR 28 72
XUM

(4) *Public information.* (a) When the VA prepares a 102 statement, VA is obligated to disclose the draft and final 102 statement along with comments to the public pursuant to the provisions of the Freedom of Information Act (5 U.S.C. 552). In addition, certain groups of people will be using the 102 statement as a valid source of information. Among these groups are:

1. General public.
2. Environmental action groups.
3. Trade and special interest associations.
4. Governmental agencies.
5. Congressional committees.
6. Press, radio, and television.

(b) For the above reasons, public dissemination of a 102 statement is of the utmost importance. The following procedures will be adhered to:

1. Make a 102 statement available through publication of a draft notice and final notice in the FEDERAL REGISTER advising the public where it may be examined or obtained. (See appendix H.)

2. Provide timely public notice of an undertaking. Procedures to accomplish this should include, where appropriate:

a. Public hearings.

b. Providing the public with relevant information.

c. Include information concerning alternative courses of action.

3. Where recommendations or reports on proposals for legislation are involved, the 102 statement and comments will be made available to the public the same time they are made available to Congress.

4. Where administrative actions are involved:

a. The draft 102 statement will be made available to the public the same time it is circulated for comment and furnished to the CEQ.

b. The final 102 statement and comments will be made available to the public when it is furnished to the CEQ.

5. When the VA holds public hearings, a draft 102 statement will be made available to the public 15 days prior to the time of the relevant hearings.

6. Requirements for public availability of a 102 statement and comments must be met.

a. Availability at VA Central Office.

b. Availability at appropriate State, regional and metropolitan clearinghouses.

8. *Initiating and controlling the preparation, coordination and administration of 102 statements.* a. Under the general direction of the Deputy Administrator, the "Central Point" in the VA for the control and administration of the program concerning 102 statements will be located in DM&S, under the Assistant Chief Medical Director for Administration and Facilities, in Engineering Service.

b. The office with cognizance of an action requiring a 102 statement will initiate action to prepare a notice of intent, a draft and a final 102 statement. Prior to submission to the Administrator, these statements will be fully coordinated with all appropriate staff elements including the General Counsel and Information Service.

c. The Office of Construction, the Department of Medicine and Surgery, the Department of Veterans Benefits and staff office heads having cognizance of any of the categories of VA actions or administrative responsibilities related thereto outlined in paragraph 3 will:

(1) Designate officials who will perform liaison duties in connection with 102 statements. Provide names and telephone numbers to the "Central Point" in DM&S.

(2) Subject all major actions to the environmental assessment process. This process should commence at the earliest possible point in the development of major legislative and administrative actions. It shall consist of a thorough study of the proposed action to identify and evaluate the expected and potential environmental impacts of the action and alternatives to it. It will determine whether a significant impact is anticipated from the proposed action. When the assessment indicates there will be a significant environmental impact, prepare a notice of intent to prepare a draft 102 statement. The notice of intent shall briefly describe the action, its location and the issues involved. (See Appendix I.) Preparation of the notice of intent will be based on the criteria established in paragraph 3, "Scope," above.

(a) Provide notices of intent to prepare 102 statements on major land purchases and improvements, major buildings or facilities and major pollution abatement measures after the projects have been approved by OMB.

(b) Provide notices of intent to prepare 102 statements on nursing home grants and State home grants after the applications for grants have been approved.

(c) The need for a 102 statement and notice of intent on standards and criteria governing the approval of residential developments in VA home loan financing will be mutually determined between the VA and the Department of Housing and Urban Development.

(d) Provide notices of intent to prepare 102 statements on recommendations or reports relating to legislation and appropriations and on policy or procedure making when the recommendations and reports are being made or when the policy or procedures are approved.

(e) Provide notices of intent to prepare 102 statements on Federal leases, permits, licenses, certificates, or other entitlements for use when such entitlements are approved.

(f) Provide notices of intent to prepare 102 statements on the removal or disturbance of sites, buildings, or objects which have significant historical value when projects are approved.

(3) Provide information to the "Central Point" at inception of any action or at the earliest possible time so that assistance may be given in the environmental assessment process in determining the need for a 102 statement. The final decision as to the need for a 102 statement will be made by the "Central Point."

(4) Secure information from local, State, and regional offices of Federal agencies during site selection visits or other preliminary investigations involving proposed action which may have a bearing on the environment, such as:

(a) Maps and photographs.
(b) Topographic layouts.
(c) Utilities provided and required.
(d) Roads.
(e) Streams, rivers, lakes, etc., nearby.
(f) Neighboring activities, structures.
(g) Housing in the area.
(h) Accessibility.
(i) Public transportation.
(j) Botanical and zoological elements.

(5) A draft 102 statement will be submitted to the "Central Point" a minimum of 6 months prior to proposed action for which a 102 statement is required.

(6) Provide sufficient information for a draft statement and subsequent final 102 statement on previously authorized or ongoing actions requiring a 102 statement.

(7) Hold public hearings as necessary, and provide relevant information on proposed environmental action, including information on alternate courses of action.

(8) As outlined in OMB Bulletin No. 72–6, provide Summary List of section 102(2)(C) Statements information (Exhibit 1 of Appendix E).

(9) Provide 30 copies of the notice of intent to the "Central Point" for distribution to Government agencies, private groups, and the public. Provide a list of the proposed recipients of the notice of intent.

(10) Provide 30 copies of the draft 102 statement to the "Central Point" for distribution to CEQ, Federal, State, and local government agencies and for response to requests from the public.

(11) Provide 30 copies of the final 102 statement including comments for submission to CEQ and for information copies to be distributed to all Federal, State, and local government agencies, private groups and citizens with which the statement was coordinated.

(12) Information Service will submit a notice of intent to prepare a 102 statement to the local news media (see Appendix I).

(13) Information Service will determine the need for the issuance of a news release stating that draft or final environmental impact statements, as appropriate, are available from the VA, after notice of completion of the draft or final 102 statement has been given by the "Central Point."

(14) The Office of the Controller, Budget Service, will appoint an official to perform liaison duties in connection with environmental statements, with the "Central Point" and between his office and cognizant department and staff offices. The Budget Service liaison official will:

(a) Assure that all information required by paragraph 3b of OMB Bulletin No. 72–6 is available to complete the summary list indicated in Exhibit 1 of that Bulletin. (See Appendix E.)

(b) Set a time limit for the receipt of the above information prior to submission of the annual budget estimates.

(c) Forward the completed list to OMB along with annual budget estimates.

(15) Submit all VA regulations having an impact on the environment to the "Central Point" for review and comment and final determination of need for a 102 statement.

9. *The VA "Central Point."* Under the general direction of the Deputy Administrator, the ACMD for Administration and Facilities (Engineering Service), DM&S will coordinate, evaluate, and provide guidance in preparing and processing 102 statements. This will be the "Central Point" in VA for matters involving environmental statements. The "Central Point" will:

a. Review decisions by the cognizant department and staff offices regarding whether or not environmental statements are to be made on actions and make final decisions thereon.

b. Review, comment on, and have revised where necessary, all draft and final environmental statements.

c. Distribute copies of notice of intent to prepare a 102 statement.

d. Forward copies of draft and final 102 statements to CEQ. Ten copies of the draft and the final 102 statements with all comments will be forwarded to CEQ.

e. Provide liaison with the CEQ, EPA, and OMB on matters under the NEPA.

f. Distribute draft 102 statements to the appropriate State, regional, and metropolitan clearinghouses.

g. Provide draft 102 statements, consult with and secure comments from Federal, State and local government agencies and from private organizations and citizens on proposed action.

h. Notify the cognizant department or staff office when final 102 statements are filed with CEQ. Copies of the final 102 statements will be provided to the cognizant offices at this time.

i. Review the need for public hearings with the assistance of the General Counsel. A review of comments from government agencies, private groups, and citizens on proposed action will be used to determine whether or not public hearings are required.

j. Notify the Information Service when the notice of intent, draft or final 102 statements have been completed.

k. Submit proposed FEDERAL REGISTER notices of availability of draft or final 102 statements through AA/M&E to the Office of the Administrator, to advise the public where they may be examined or copies obtained. (See Appendix H.)

l. Have the responsibility for consultation in connection with the preparation of a 102 statement by other Federal agencies when such consultation or comments are requested from the VA. The "Central Point" may request VA comments on 102 statements submitted by other agencies or from other VA departments or staff offices at its discretion. A time limit for comments will be indicated in the referral from the "Central Point."

m. Set time limits for the completion of draft and final 102 statements as required by the proposed action after coordination and consultation with the concerned department or staff offices.

n. Review and comment on VA regulations which have an impact on the environment.

INTERSTATE COMMERCE COMMISSION

ASSIGNMENT OF HEARINGS

APRIL 25, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the official docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 89084 Sub 4, Interstate Heavy Hauling, Inc., now assigned May 1, 1972, at Salt Lake City, Utah, canceled and the application is dismissed.

MC 97394 Sub 11, Bowling Green Express, Inc., now being assigned hearing May 22, 1972, at Holiday Inn, Interstate 65 Interchange, Cave City, Ky.

MC 71652 Sub 3, Athel Hupp Hudley, Inc., now assigned May 1, 1972, at Salt Lake City, Utah, canceled and the application is dismissed.

MC–C–7624, Great Lakes Express Co., investigation and revocation of certificates, now assigned May 4, 1972, at Chicago, Ill., postponed indefinitely.

MC 2153 Sub 41, Midwest Motor Express, Inc., Extension—Glendive, Mont., now being assigned hearing July 10, 1972, at Bismarck, N. Dak. in a hearing room later to be designated.

FD 26115, Boston and Maine Corp. Reorganization, now assigned May 1, 1972, at Boston, Mass., will be held in Court Room No. 3, 12th Floor, John W. McCormack Building, Post Office, Courthouse, Post Office Square, instead of Room 2211B, John F. Kennedy Building, Government Center, same day and time.

FOURTH SECTION APPLICATION FOR RELIEF

APRIL 25, 1972.

Protests to the granting of an application must be prepared in accordance with Rule 1100.40 of the general rules of practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 42406—*Phosphates between points in Southwestern Illinois Freight Association and WTL Territories.* Filed by Southwestern Freight Bureau, agent (No. B–312), for interested rail carriers. Rates on diammonium phosphate, monoammonium phosphate, and superphosphate, in carloads, as described in the application, between points in southwestern territory, on the one hand, and points in Illinois Freight Association and western trunkline territories, on the other.

Grounds for relief—Market and carrier competition.

Tariff—Supplement 59 to Southwestern Freight Bureau, agent, tariff ICC 4941. Rates are published to become effective on June 1, 1972.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.72–6539 Filed 4–27–72;8:49 am]

[Special Permission No. 72–3700, Amdt. 2]

INCREASED RATES AND CHARGES

At a session of the Interstate Commerce Commission, Division 2, held at its office in Washington, D.C., on the 20th day of April 1972.

Advance effective date of corrected rates and charges and provisions in tariff of increased rates and charges X–281–A.

By special permission application No. C–2950, as amended, filed by Traffic Executive Association—Eastern Railroads, Agent, for and in behalf of carriers parties to Ex Parte No. 281, authority is sought to advance the effective date of Supplement 3 to its Tariff of Increased Rates and Charges X–281–A, ICC C–908, joint with other agents, from May 20, 1972 to May 1, 1972, including authority to correct errors made in Supplement No. 3, upon 1 day's notice, as set forth in the application. A full investigation of the matters and things involved in the application having been made, which application is hereby referred to and made a part hereof:

It appearing, that, the proposal would reduce published increases, and correct errors, and good cause for the action sought having been shown,

It is ordered, that, special permission application No. C–2950, as amended, be, and it is hereby, granted, except effective upon not less than 7 days' notice.

By the Commission, Division 2.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.72–6541 Filed 4–27–72;8:50 am]

[Special Permission No. 72–3700; Amdt. 1]

WAIVER OF TARIFF PUBLISHING RULES

At a General Session of the Interstate Commerce Commission, held at its office

V 37 83 APR 28 72 XUM

in Washington, D.C., this 14th day of March 1972.

Ex Parte No. 281, increased freight rates and charges, 1972; waiver of tariff publishing rules.

Upon consideration of the petition dated and filed March 10, 1972, by James L. Tapley and other attorneys for and on behalf of respondent carriers, amending the original statement of proposed selective increases, insofar as it requests amendment of the Special Permission No. 72–3700, which granted relief from certain tariff publishing rules, so as to include therein references to the petition as now amended and to amend the first ordering paragraph to substitute "not exceeding those" in place of "as" following the words "rates and charges", in order to permit publication in the initial master tariff of the new greater and lesser increases identified in the petition and also unspecified selective increase (or no-increase) provisions which are different from but in no case higher than those specifically set forth in the petition as amended March 10, 1972.

For good cause shown, it is ordered that:

1. The Special Permission No. 72–3700, dated March 6, 1972, be and it is hereby amended as requested; in all other respects the terms of the original permission shall remain the same.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice 53]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–73348. By order of April 18, 1972, the Motor Carrier Board approved the transfer to WMA Interstate Motor Lines, Inc., Washington, D.C., of the operating rights in Certificate No. MC–3677 and subnumbers thereunder issued to WMA Transit Company, a corporation, Bradbury Heights, Md., authorizing the transportation of passengers and their baggage, and express and newspapers in the same vehicle with passengers, over regular routes, between Washington, D.C., and Andrews Field, Camp Springs, Md., and numerous other points in Maryland, serving all intermediate points. L. C. Major, Jr., and Russell R. Sage, Suite 301 Tavern Square, 421 King Street, Alexandria, VA 22314, attorneys for applicants.

No. MC–FC–73380. By order of April 21, 1972, the Motor Carrier Board approved the transfer to Taylor Trucking Co., Inc., East Rutherford, N.J., of the operating rights in Certificate No. MC–133704 (Sub-No. 1), issued July 14, 1971, to Dependable Container Service, Inc., Brooklyn, N.Y., authorizing the transportation of general commodities, with usual exceptions, from Philadelphia, Pa., to New York, N.Y., and from points in New Jersey, Delaware, and Maryland, to Philadelphia, Pa.; electric fixtures and supplies, from New York, N.Y., to Philadelphia, Pa., and from Philadelphia, Pa., to points in New Jersey; equipment, materials, and supplies used in connection with dog-shows, not including animals between points in New York, New Jersey, Pennsylvania, Delaware, Maryland, Virginia, Connecticut, and Massachusetts; teletype machines and equipment, between Philadelphia, Pa., on the one hand, and, on the other, New York, N.Y., and points in New Jersey, Maryland, and Delaware; and glassware, from New York, N.Y., to Philadelphia, Pa. George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306, registered practitioner for applicants.

No. MC–FC–73488. By order of April 18, 1972, the Motor Carrier Board approved the transfer to Empire Fuel & Transfer Co., a corporation, Coos Bay, Oreg., of that portion of the operating rights set forth in Certificate No. MC–113466, issued May 29, 1961, to Cecil E. Alto and Robert A. Alto, doing business as Alto Bros. Trucking, Eureka, Calif., authorizing the transportation of: Logs, lumber, piling, plywood, poles, posts, and wooden shingles, between points in Klamath, Jackson, Josephine, Curry, Coos, and Douglas Counties, Oreg. Earle V. White, 2400 Southwest Fourth Avenue, Portland, OR 97201.

No. MC–FC–73518. By order of April 21, 1972, the Motor Carrier Board approved the transfer to L. B. Transport, Inc., Bradgate, Iowa, of the operating rights in Certificates Nos. MC–117386 (Sub-No. 1), MC–117386 (Sub-No. 3), and MC–117386 (Sub-No. 5), issued May 4, 1959, October 21, 1960, and June 18, 1971, respectively, to Lee S. Burris, Bradgate, Iowa, authorizing the transportation of liquid fertilizer, in bulk, in tank vehicles, from Humboldt, Iowa, to specified parts in Minnesota and Nebraska; and from the plantsite of Farmland Industries, Inc., at Humboldt, Iowa, to specified points in South Dakota. Kenneth F. Dudley, Post Office Box 279, Ottumwa, IA 52501, representative for applicants.

No. MC–FC–73524. By order of April 21, 1972, the Motor Carrier Board approved the transfer to Wright Trucking, Inc., Jamestown, N. Dak., of Certificate No. MC–129972, issued June 11, 1969, to Gerald D. Wright, Jamestown, N. Dak., authorizing the transportation of malt beverages and articles dealt in by wholesale beverage distributors, from Minneapolis and St. Paul, Minn., and La Crosse and Milwaukee, Wis., to Jamestown and Bismarck, N. Dak. Thomas J. Van Osdel, 502 First National Bank Building, Fargo, N. Dak. 58102, attorney for applicants.

No. MC–FC–73560. By order of April 21, 1972, the Motor Carrier Board approved the transfer to Carroll's Torrington Express Co., a corporation, Torrington, Conn., of Certificate of Registration No. MC–97925 (Sub-No. 1), issued June 30, 1964, to George F. Carroll, doing business as Carroll's Torrington Express, Torrington, Conn., evidencing a right to engage in transportation in interstate commerce as described in certificate C–1154, dated January 19, 1951, as amended October 22, 1956 issued by the Public Utilities Commission of Connecticut. Richard M. Krezek, 41 Tallwood Drive, Southington, CT 06489, attorney for applicants.

No. MC–FC–73612. By order of April 21, 1972, the Motor Carrier Board approved the transfer to M. H. Mesenbring, doing business as Mike's Trucking, Bourbonnais, Ill., of the operating rights in Certificates No. MC–119777 (Sub-No. 1) and MC–119777 (Sub-No. 31) issued October 16, 1967, and November 10, 1965, respectively to Ligon Specialized Hauler, Inc., Madisonville, Ky., authorizing the transportation of various commodities from Kankakee, Ill., to points in New York and Pennsylvania. Paul F. Sullivan, 711 Washington Building, Washington, D.C. 20005, attorney for applicants.

No. MC–FC–73619. By order of April 6, 1972, the Motor Carrier Board approved the transfer to Scholastic Transit Co., a corporation, Northbrook, Ill., of the operating rights in Certificate No. 43263 issued January 6, 1967, to United Motor Coach Co., a corporation, Des Plaines, Ill., authorizing the transportation of passengers and their baggage in special or charter service, from Des Plaines, Ill., and points within 20 miles thereof, to points in Illinois, Indiana, and Wisconsin, and return. Abraham A. Diamond, 33 North Dearborn Street, Chicago, IL 60602, attorney for applicants.

[Notice 58]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 27, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC–67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 1641 (Sub-No. 96 TA), filed April 7, 1972. Applicant: PEAKE TRANSPORT SERVICE, INC., Post Office Box 366, Chester, NE 68327. Applicant's representative: R. B. Parker (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions*, in bulk, in tank vehicles, from Denison, Iowa, to points in Kansas, Missouri, and Nebraska, for 180 days. Supporting shipper: R. O. Brown, Manager Operations, Standard Oil Division, American Oil Co. (Western Region), 114 East Armour Boulevard, Kansas City, MO 64111. Send protests to: Max H. Johnston, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 320 Federal Building and Courthouse, Lincoln, Nebr. 68508.

No. MC 61496 (Sub-No. 232 TA), filed April 7, 1972. Applicant: HERMAN BROS. INC., 2501 North 11th Street, Post Office Box 189, Downtown Station 68110, Omaha, NE 68101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cement*, in bulk and in packages, from plantsite of Penn-Dixie Cement Corp., from near Kingsport, Tenn., to points in Georgia, Kentucky, North Carolina, South Carolina, Tennessee, Virginia, and West Virginia, for 180 days. Supporting shipper: Penn-Dixie Cement Corp., Post Office Box 152, Nazareth, PA 18064. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 711 Federal Office Building, Omaha, Nebr. 68102.

No. MC 96925 (Sub-No. 3 TA), filed April 7, 1972. Applicant: JACKSONVILLE TRANSFER & STORAGE, INC., 127 Willowbranch Avenue, Jacksonville, FL 32205. Applicant's representative: James E. Wharton, Post Office Box 231, Orlando, FL 32802. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, commodities in bulk, those requiring special equipment and household goods as defined by the Commission) over the following routes: Between Orlando, Fla., and Ocala, Fla., serving all intermediate points and the off-route points of Eustic and Altamonte Springs, Fla.: From Orlando over U.S. Highway 441 to Ocala, and return over the same route; between Orlando, Fla., and Leesburg, Fla., serving all intermediate points: From Orlando over Florida Highway 50 to junction Florida Highway 33, thence over Florida Highway 33 to junction U.S. Highway 27, and thence over U.S. Highway 27 to Leesburg, and return over the same route; between De Land, Fla., and Eustis, Fla., serving all intermediate points: From De Land over Florida Highway 44 to Eustis, and return over the same route; between De Land, Fla., and Altoona, Fla., serving all intermediate points: From De Land over Florida Highway 42 to Altoona, and return over the same route; between Eustis, Fla., and Groveland, Fla., serving all intermediate points: From Eustis over Florida Highway 19 to Groveland, and return over the same route; between Ocala, Fla., and Barberville, Fla., serving all intermediate points and the off-route points of Moss Bluff, Fort McCoy, Orange Springs, Starke's Landing, and Connor, Fla.:

From Ocala over Florida Highway 40 to Barberville, and return over the same route; between Sanford, Fla., and Mount Dora, Fla., serving all intermediate points: From Sanford over Florida Highway 46 to Mount Dora, and return over the same route; between Astor Park, Fla., and Clermont, Fla., serving all intermediate points: From Astor Park over Florida Highway 445 to junction Florida Highway 19, thence over Florida Highway 19 to junction Florida Highway 561, and thence over Florida Highway 561 to Clermont, and return over the same route; between Jacksonville, Fla., and New Smyrna Beach, Fla., serving all intermediate points and the off-route point of Ormond Beach, Fla.: From Jacksonville over U.S. Highway 1 to New Smyrna Beach, and return over the same route; between Jacksonville, Fla., and Greenland, Fla., as an alternate route for operating convenience only, in connection with carrier's authorized regular-route operations, serving no intermediate points: From Jacksonville over Alternate U.S. Highway 1 (via John E. Matthews Bridge), to junction U.S. Highway 1, thence over U.S. Highway 1 to Greenland, and return over the same route; between Hawthorne, Fla., and Palatka, Fla., serving all intermediate points and the off-route point of Edgar, Fla.: From Hawthorne over Florida Highway 20 to Palatka, and return over the same route; between St. Augustine, Fla., and Bunnell, Fla., serving all intermediate points: From St. Augustine over Florida Highway 207 to Palatka, Fla., thence over Florida Highway 100 to junction Florida Highway 20, and thence over Florida Highway 20 to Bunnell, and return over the same route; between De Land, Fla., and New Smyrna Beach, Fla., serving all intermediate points: From De Land over Florida Highway 44 to New Smyrna Beach, and return over the same route; between De Land, Fla., and Daytona Beach, Fla., serving all intermediate points: From De Land over U.S. Highway 17 to junction U.S. Highway 92, thence over U.S. Highway 92 to Daytona Beach and return over the same route; between De Land, Fla., and Bunnell, Fla., serving all intermediate points: From De Land over U.S. Highway 17 to junction Florida Highway 11, and thence over Florida Highway 11 to Bunnell, and return over the same route; between Bunnell, Fla., and Flagler Beach, Fla., serving all intermediate points: From Bunnell over Florida Highway 100 to Flagler Beach, and return over the same routes; between Jacksonville, Fla., and Ocala, Fla., serving all intermediate points:

From Jacksonville over Florida Highway 228 to Maxville, Fla., thence over U.S. Highway 301 to Waldo, Fla., thence over U.S. Highway 441 to Ocala, and return over the same route; between Jacksonville, Fla., and Lake City, Fla., serving all intermediate points: From Jacksonville, Fla., over U.S. Highway 90 to Lake City, Fla., and return over the same route; between Lake City, Fla., and Gainesville, Fla.: From Lake City, Fla., over U.S. Highway 441, to Gainesville, Fla., and return over the same route; between New Smyrna Beach, Fla., and Melbourne, Fla., serving all intermediate

[1] Except as otherwise specifically noted, each applicant (on applications filed after Mar. 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

V 37 I 83 APR 28 72 XUM

points: From New Smyrna Beach, Fla., over U.S. Highway No. 1 to Melbourne, Fla., and return over the same route; between Melbourne, Fla., and Orlando, Fla., serving all intermediate points: From Melbourne, Fla., over U.S. Highway 192 to Ashton, Fla., thence over Florida State Road 15 to Orlando, Fla., and return over the same route; between Lake City and Quincy, Fla., over U.S. Highway 90, serving all intermediate points: Between Lake City and point of intersection between Interstate Highway 10 and U.S. Highway 90 near Falmouth, Fla., as follows: From Lake City, Fla., over U.S. Highway 441 to points of intersection with Interstate Highway No. 10, thence over Interstate Highway No. 10 to point of intersection with U.S. Highway 90 near Falmouth, Fla., and return over the same routes serving no intermediate points as an alternate route for operating convenience only. Between Gainesville, Fla., and Tallahassee, Fla., over the following route: From Gainesville, Fla., over Interstate Highway 75 to Alachua, Fla., thence over U.S. Highway 27 to Tallahassee, Fla., and return over the same route serving no intermediate points as an alternate route for operating convenience only.

In connection with the above routes, applicant seeks to serve all other points as intermediate and off-route points in a section of Florida bordered on the east by the Atlantic Ocean, on the south by a line commencing at the Atlantic Ocean at Melbourne, Fla., thence along U.S. Highway 192 to point of intersection with the eastern boundary of Osceola County, thence along the eastern boundary of Osceola County south to the southern boundary of Osceola County, thence westerly along the southern boundary of Osceola County to the eastern boundary of Polk County, thence along the eastern boundary of Polk County in a northerly direction to intersection with the western boundary of Orange County, thence northerly along the western boundary of Orange County to point of intersection with State Road 50, thence along State Road 50 to Groveland, Fla., thence north on State Road 33 to point of intersection with the Sunshine State Parkway, thence along the Sunshine State Parkway in a northwesterly direction to point of intersection with Interstate Highway 75 near Wildwood, Fla., thence along Interstate Highway 75 to point of intersection with Interstate Highway No. 10, thence east along Interstate Highway 10 to point of intersection with U.S. Highway 441, thence north along U.S. Highway 441 to the Florida-Georgia State line and bordered on the north by the Florida-Georgia State line to point of intersection with the Atlantic Ocean. Applicant also seeks authority to serve all other points as intermediate and off-route points in connection with same described routes in the counties of: Gadsden, Leon, Jefferson, Madison, Hamilton, Suwannee, Columbia, Baker, and Duval, for 180 days. NOTE: Applicant seeks authority to tack the authority requested hereinabove with its existing authority as presently issued to it by this Commission. Supporting shippers: There are approximately 25 statements of support attached to the application which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: District Supervisor G. H. Fauss, Jr., Bureau of Operations, Interstate Commerce Commission, Box 35008, 400 West Bay Street, Jacksonville, FL 32202.

No. MC 107403 (Sub-No. 834 TA), filed April 6, 1972. Applicant: MATLACK, INC., 10 West Baltimore Avenue, Lansdowne, PA 19050. Applicant's representative: John Nelson (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bauxite*, from Marrero, La., to Redwood, Miss., for 180 days. Supporting Shipper: Allied Chemical Corp., Post Office Box 1139R, Morristown, NJ 07960. Send protests to: Ross A. Davis, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 1518 Walnut Street, Room 1600, Philadelphia, PA 19102.

No. MC 115826 (Sub-No. 243 TA), filed April 5, 1972. Applicant: W. J. DIGBY, INC., 1960 31st Street, Post Office Box 5088, Denver CO 80217, Terminal Annex 80216. Applicant's representative: Ezekial Gomez (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen food, frozen fruit and vegetables, frozen and nonfrozen potato products*, from points in Oregon and Washington to Turlock and Atwater, Calif., and cold storage facilities utilized by Banquet Foods, and the commercial zones thereof, for 180 days. Supporting shipper: Banquet Foods Corp., Post Office Drawer 1809, Turlock, CA 95380. Send protests to: District Supervisor Roger L. Buchanan, Interstate Commerce Commission, Bureau of Operations, 2022 Federal Building, Denver, Colo. 80202.

No. MC 116077 (Sub-No. 324 TA), filed April 6, 1972. Applicant: ROBERTSON TANK LINES, INC., 2000 West Loop South, Suite 1800, Houston, TX 77027. Applicant's representative: Delmas W. Heinke (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chromic sulfuric solutions and etchants*, from Garland, Tex., to Eau Claire, Wis., *and spent etchants*, from Eau Claire, Wis., to Garland, Tex., for 180 days. Supporting shipper: Southern California Chemical Co., Inc., Barry N. Dees, Branch Manager, 1000 Profit Drive, Garland, TX 75040. Send protests to: District Supervisor John C. Redus, Bureau of Operations, Interstate Commerce Commission, Post Office Box 61212, Houston, TX 77061.

No. MC 116077 (Sub-No. 325 TA), filed April 6, 1972. Applicant: ROBERTSON TANK LINES, INC., 2000 West Loop South, Suite 1800, Houston, TX 77027. Applicant's representative: Delmas W. Heinke (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chromic sulfuric solutions and etchants*, from Garland, Tex., to Tampa, Fla., *and spent etchants*, from Tampa, Fla., to Garland, Tex., for 180 days. Redus, Bureau of Operations, Interstate Commerce Commission, Post Office Box 61212, Houston, TX 77061.

No. MC 116459 (Sub-No. 43 TA), filed April 6, 1972. Applicant: RUSS TRANSPORT, INC., Post Office Box 4022, Riverville Road, Route 5, Chattanooga, TN 37405. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry bulk chemicals* (except fertilizer and fertilizer materials), from the plantsite of Bulk Distribution Centers, Inc., Chattanooga, Tenn., to points in Alabama, Georgia, North Carolina, and Tennessee, for 100 days. Supporting shipper: Bulk Distribution Centers, Inc., Post Office Box 19022, Louisville, KY 40219. Send protests to: Joe J. Tate, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 803, 1808 West End Building, Nashville, Tenn. 37203.

No. MC 119118 (Sub-No. 35 TA), filed April 7, 1972. Applicant: McCURDY TRUCKING, INC., Post Office Box 388, Rural Delivery No. 4, Latrobe, PA 15650. Applicant's representative: Lewis W. McCurdy (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages, in containers, and related advertising materials*, (a) from Frankenmuth, Mich., to points in Illinois, Indiana, Kentucky,

New York, Ohio, Wisconsin, Pennsylvania, West Virginia, and St. Louis, Mo., and Baltimore, Md., and (b) from Baltimore, Md., to points in Illinois, Kentucky, and St. Louis, Mo., for 120 days. Supporting shipper: Carling Brewing Co., 610 Lincoln Street, Waltham, MA 02154. Send protests to: James C. Donaldson, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, PA 15222.

No. MC 124083 (Sub-No. 43 TA), filed April 4, 1972. Applicant: SKINNER MOTOR EXPRESS, INC., 1035 South Keystone Avenue, Indianapolis, IN 46203. Applicant's representative: Walter F. Jones, 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap metal*, from South Bend, Elkhart, Kokomo, Columbus, and Indianapolis, Ind., to Three Rivers, Mich., for 180 days. Supporting shipper: Hurwich Iron Co., Inc., Lafountain Square, 3825 South Lafountain Street, Kokomo, IN 46901. Send protests to: James W. Habermehl, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 802 Century Building, 36 South Pennsylvania Street, Indianapolis, IN 46204.

No. MC 126038 (Sub-No. 8 TA), filed April 7, 1972. Applicant: PENINSULA PRODUCTS, INC., 47 Northeast Middlefield Road, Portland, OR 97211. Applicant's representative: David C. White, 2400 Southwest Fourth Avenue, Portland, OR 97201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wooden shakes and shingles*, from points in Washington to points in California, under contract with International Paper Co., for 180 days. Supporting shipper: International Paper Co., Box 579, Longview, WA 98632. Send protests to: District Supervisor A. E. Odoms, Bureau of Operations, Interstate Commerce Commission, 450 Multnomah Building, Portland, Oreg. 97204.

No. MC 126539 (Sub-No. 10 TA), filed April 5, 1972. Applicant: KATUIN BROS. INC., 102 Terminal Street, Dubuque, IA 52001. Applicant's representative: Carl E. Munson, 469 Fischer Building, Dubuque, Iowa 52001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Soy products*, from Gladbrook, Iowa, to Marion, Ohio, for 180 days. Supporting shipper: Central Iowa Bean Mill, Gladbrook, Iowa 50635. Send protests to: Herbert W. Allen, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 677 Federal Building, Des Moines, Iowa 50309.

No. MC 128608 (Sub-No. 5 TA), filed April 6, 1972. Applicant: M.D.I. TRUCKING CORP., 307 Oliver Building, Pittsburgh, Pa. 15222. Applicant's representative: David E. Rosenberg, Box 481, Washington, PA 15301. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Formed metal building products, materials, supplies, and equipment* for the erection thereof, from the plantsite of Plasteel Products Corp., Washington, Pa., to the River Project Navajo Generating Station, Page, Ariz., no return movement other than returned or rejected material, for 180 days. Supporting shipper: Plasteel Products Corp., Box 481, Washington, PA 15301. Send protests to: John J. England, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, PA 15222.

No. MC 135182 (Sub-No. 2 TA), filed April 6, 1972. Applicant: TRANS-WAYS CO., Moscow, Pa. 18444. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Materials, supplies, and products*, used in or produced by the food processing industry, for the account of Welch Foods, Inc., between Erie, North East, Pa., Westfield, Dunkirk, Buffalo, and Newark, N.Y., on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, Maryland, and the District of Columbia, for 180 days. Supporting shipper: Welch Foods, Inc., Westfield, N.Y. 14787. Send protests to: Paul J. Kenworthy, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 309 U.S. Post Office Building, Scranton, Pa. 18503.

No. MC 135809 (Sub-No. 1 TA), filed March 3, 1972. Applicant: B–H TRANSFER CO., Post Office Box 269, Sandersville, GA 31082. Applicant's representative: J. Raymond Clark, 1250 Connecticut Avenue NW., Suite 600, Washington, DC 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Clay and clay slurry*, restricted to traffic having a subsequent movement by water, and *empty cargo containers* in return movement, from Sandersville, Ga., and Kaolin, Ga., to points in Chatham County, Ga., and Charleston, N.C., and Port Royal, S.C., for 180 days. Supporting shippers: Georgia Kaolin Co., 433 North Broad Street, Elizabeth, NJ 07207; GITC, Inc., 2 Whitaker Street, Post Office Box 126, Savannah, GA 31402; Angle-American Clays Corp., 52 Executive Park South, Atlanta, GA 30329; United Sierra, Box 1201, Trenton, NJ 08606; Burgess Pigment Co., Sandersville, Ga. 31082; J. K. Ebberwein Foreign Freight Forwarder, Savannah, Ga. 34102; Strachan Shipping Co., Chatham County, Ga.; Georgia Ports Authority, 1131 Healey Building, Atlanta, Ga. 30303. Send protests to: William L. Scroggs, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 309, 1252 West Peachtree Street NW., Atlanta, GA 30309.

No. MC 136014 (Sub-No. 2 TA), filed April 5, 1972. Applicant: INTERNATIONAL CONTAINER SERVICE, INC., 2416 North Marine Drive, North Portland, OR 97043. Applicant's representative: James T. Johnson, 1610 IBM Building, 1200 Fifth Avenue, Seattle, WA 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except household goods as defined by the Commission, in cargo containers only, between ports of entry at Blaine, Seattle, Tacoma, Longview, and Vancouver, Wash., and Astoria and Portland, Oreg., on the one hand, and, on the other, points in Washington, Oregon, California, Idaho, Montana, and Nevada, limited to traffic having an immediate, prior or subsequent movement by water, or air; and (2) *empty cargo containers and chassis*, between the same points and areas, for 180 days. Supporting shippers: Williams, Dimond & Co., 1515 Pacific Building, Seattle, Wash. 98104; Ziegler International, 260 Spear Street, San Francisco, CA 94105; Olympic Steamship Co., Inc., World Trade Building, Portland, Oreg. 97204; Port of Portland, Box 3529, Portland, OR 97208; Acme Trading & Supply Co., 4927 Northwest Front Avenue, Portland, OR 97210; Mindel Brokerage Co., Post Office Box 336, Lake Oswego, OR 97034; Empire

AM–395 (8603), AM–396 (8604), AM–397 (8605), AM–422	Aug. 18, 1971
AM–479 (9694), AM–1849, AM–1850, AM–1851, AM–1855, AM–1857, AM–1858, AM–1861, AM–1866	Aug. 20, 1971
AM–3573 (11,416), AM–3616 (6724), AM–3626, AM–3627 (11,417)	Aug. 25, 1971
AM–2513, AM–2514, AM–2516, AM–2518, AM–2519, AM–2520, AM–2521, AM–2522, AM–2523	Aug. 27, 1971
AM–2525	Sept. 3, 1971
AM–6131	Nov. 12, 1971
AM–6242	Nov. 19, 1971
AM–8582	Feb. 11, 1972
AM–9684, AM–9685, AM–9686, AM–9687, AM–9688, AM–9689	Mar. 10, 1972
AM–8588	Mar. 17, 1972
AM–11,408, AM–11,409, AM–11,410	Mar. 31, 1972
AM–9691, AM–9692	Apr. 14, 1972

are hereby modified and/or superseded as set forth below. Supersedeas decision numbers are in parentheses following the number of the decisions being superseded.

These modification and/or supersedeas decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since these determinations were issued.

The determinations of prevailing rates and fringe benefits made in these modifications and/or supersedeas decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, and of Secretary of Labor's Orders 13–71 and 15–71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in the foregoing area wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

The modification and/or supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER until the end of the period for which the determinations being modified and/or superseded were issued and are to be used in accordance with the provisions of 29 CFR Part 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. No. 553 is set forth in the document being modified.

The modification and/or supersedeas decisions to the area wage determination decisions listed above are set forth below.

Signed at Washington, D.C., this 21st day of April 1972.

HORACE E. MENASCO,
Administrator, Employment Standards Administration.

Group X: Boom-type backfilling machine; bridge crane; Cary-lift (or similar); chemical grouting machine; chief of party; combination backhoe and loader (up to and including ¼ cu. yd. m.r.c.); derricks (2 operators required when swing engine remote from hoist); derrick barges (except excavation work); Do-more loader and Adams elegrader; elevating grader operator; rubber-tired scraper, self-loading (paddle wheels, etc.); heavy-duty rotary drills rigs including caisson foundation work and Robbins type drills); Koehring skooper (or similar); lift slab machine (Vagtborg and similar types); loader (2 yd. up to and including 4 yd.); locomotive (over 100 tons) (single or multiple units); multiple engine earth moving machine (Euclids, dozers, etc.) (no tandem scraper); prestress wire wrapping machine; shuttle car (reclaim station); soil stabilizer (P & H or equal); subgrader (Gurries or other automatic type); track laying type—earth-moving machine (single engine with tandem scrapers); tractor, compressor drill combination; train loading station; vacuum cooling plant; single engine scraper over 45 yd.; Whirley crane (up to and including 25 tons)	7.98	.59	.75	.60	.24	
Group X-A: Backhoe (hydraulic) (up to and including 1 cu. yd. m.r.c.); backhoe (cable) (up to and including 1 cu. yd. m.r.c.); combination backhoe and loader (over ½ cu. yd. m.r.c.); continuous flight tie back auger (up to and including 1 cu. yd.) (crane attached); cranes (not over 25 tons, Hammerhead and Gantry); Gradeall (up to and including 1 cu. yd.); power shovels, clamshells, draglines (up to and including 1 cu. yd. m.r.c.); power blade; self-propelled boom type lifting device (center mount) (over 10 tons); self-propelled boom type lifting device (center mounted) (over 15 tons)	8.07	.59	.75	.60	.24	
Group XI: Automatic concrete slip form paver; automatic railroad car dumper; canal finger drain backfiller; canal trimmer; canal trimmer with ditching attachments; cranes (over 25 tons, up to and including 125 tons); continuous flight tieback auger over 1 cu. yd. (including crane); Drott Travelift 650-A-1 or similar (45 tons or over); rubber tired earth-moving machines (multiple propulsion power units and 2 or more scrapers) (up to and including 75 cu. yd. "struck" m.r.c.); highline cableway (over 5 tons); loader (over 4 yd. up to and including 12 cu. yd.); power blades operator (multiengine); power shovels, clamshells, draglines, backhoes, Grindealls (over 1 yd. up to and including 7 cu. yd. m.r.c.); self-propelled compactor (with multiple propulsion power units); slip form paver (concrete or asphalt); tandem cats; tower cranes mobile; trencher (pulling attached shield); tower cranes, mobile; single engine rubber tired earth-moving machine (with tandem scrapers); Universal Liebher and tower cranes (and similar types); wheel excavator (up to and including 750 cu. yd. per hour); Whirley cranes (over 25 tons)	8.19	.59	.75	.60	.24	
Group XI-A: Loader (over 12 cu. yd. up to and including 18 cu. yd.); rubber tired multipurpose earth-moving machine (2 units) (over 75 cu. yd. "struck" m.r.c.); power shovels and draglines (over 7 cu. yd. m.r.c.); bandwagons (in conjunction with wheel excavator) wheel excavator (over 750 yd. per hour); cranes (over 125 tons).	9.00	.59	.75	.60	.24	
Group XI-B: Loader (over 18 cu. yd.)	9.20	.59	.75	.60	.24	
Group XI-C: Operator of helicopter (when used in erection work); remote controlled earth-moving equipment	9.42	.59	.75	.60	.24	
**Area 2: Power equipment operators:						
Group I: Assistants to engineers (brakeman; fireman; heavy duty repairman helper; oiler; deckhand; signalman; switchman; tar pot fireman); partsman (heavy duty repair shop parts room)	7.28	.59	.75	.60	.24	
Group II: Compressor operator; concrete mixer (up to and including 1 yd.); conveyor belt operator (tunnel); fireman, hot plant; hydraulic monitor; mechanical conveyor (handling building materials); mixer box operator (concrete plant); pump operator spreader boxman (with screeds); tar pot fireman (power agitated)	7.54	.59	.75	.60	.24	
Group III: Box operator (bunker); locomotive; motorman; oiler; rodman or chainman; Ross carrier (construction jobsite); Rotomist operator; screedman (except asphaltic concrete paving); self-propelled, automatically applied concrete curing machine (on streets, highways, airports, and canals); trenching machine (maximum digging capacity 3 ft. depth); tugger hoist, single drum	7.09	.59	.75	.60	.24

V 37-83 APR 28 72 XUM

CALIFORNIA AREA DEFINITIONS FOR POWER EQUIPMENT OPERATORS

**Area 2: All areas not included within Area 1 as defined below.

*Area 1: All areas included in the description defined below which is based upon township and range lines of Areas 1 and 2.

Commencing in the Pacific Ocean on the extension of the southerly line of township 19S,

Thence easterly along the southerly line of township 19S, crossing the Mount Diablo meridian to the southwest corner of township 19S, range 6E, Mount Diablo base line and meridian.
Thence southerly to the southwest corner of township 20S, range 6E.
Thence easterly to the southwest corner of township 20S, range 13E.
Thence southerly to the southwest corner of township 21S, range 13E.
Thence easterly to the southwest corner of township 21S, range 17E.
Thence southerly to the southwest corner of township 22S, range 17E.
Thence easterly to the southeast corner of township 22S, range 17E.
Thence southerly to the southwest corner of township 23S, range 18E.
Thence easterly to the southeast corner of township 23S, range 18E.
Thence southerly to the southwest corner of township 24S, range 19E, falling on the southerly line of Kings County, thence easterly along the southerly boundary of Kings County and the southerly boundary of Tulare County, to the southeast corner of township 24S, range 29E.
Thence northerly to the northeast corner of township 21S, range 29E.
Thence westerly to the northwest corner of township 21S, range 29E.
Thence northerly to the northeast corner of township 13S, range 28E.
Thence westerly to the northwest corner of township 13S, range 28E.
Thence northerly to the northeast corner of township 11S, range 27E.
Thence westerly to the northwest corner of township 11S, range 27E.
Thence northerly to the northeast corner of township 10S, range 26E.
Thence westerly to the northwest corner of township 10S, range 26E.
Thence northerly to the northeast corner of township 9S, range 25E.
Thence westerly to the northwest corner of township 9S, range 25E.
Thence northerly to the northeast corner of township 8S, range 24E.
Thence westerly to the northwest corner of township 8S, range 24E.
Thence northerly to the northeast corner of township 6S, range 23E.
Thence westerly to the southeast corner of township 5S, range 19E.
Thence northerly to the northeast corner of township 5S, range 19E.
Thence westerly to the northwest corner of township 5S, range 19E.
Thence northerly to the northeast corner of township 3S, range 18E.
Thence westerly to the northwest corner of township 3S, range 18E.
Thence northerly to the northeast corner of township 2S, range 17E.
Thence westerly to the northwest corner of township 2S, range 17E.
Thence northerly crossing the Mount Diablo baseline to the northeast corner of township 2N, range 16E.
Thence westerly to the northwest corner of township 2N, range 16E.
Thence northerly to the northeast corner of township 3N, range 15E.
Thence westerly to the northwest corner of township 3N, range 15E.
Thence northerly to the northeast corner of township 4N, range 14E.
Thence westerly to the northwest corner of township 4N, range 14E.
Thence northerly to the northeast corner of township 5N, range 13E.
Thence westerly to the northwest corner of township 5N, range 13E.
Thence northerly to the northeast corner of township 10N, range 12E.
Thence easterly to the southeast corner of township 11N, range 14E.
Thence northerly to the northern corner of township 11N, range 14E.
Thence westerly to the northeast corner of township 11N, range 10E.
Thence northerly to the northeast corner of township 15N, range 10E.
Thence easterly to the southeast corner of township 16N, range 11E.
Thence northerly to the northeast corner of township 16N, range 11E.
Thence easterly to the southeast corner of township 17N, range 14E.
Thence southerly to the southwest corner of township 14N, range 15E.
Thence easterly to the southeast corner of township 14N, range 15E.
Thence southerly to the southwest corner of township 13N, range 16E.
Thence easterly to the southeast corner of township 13N, range 16E.
Thence southerly to the southwest corner of township 12N, range 17E.
Thence easterly along the southern line of township 12N to the eastern boundary of the State of California;
Thence northwesterly, thence northerly along the eastern boundary of the State of California to the northeast corner of township 17N, range 18E.
Thence westerly to the northwest corner of township 17N, range 11E.
Thence northerly to the northeast corner of township 20N, range 10E.
Thence westerly to the northwest corner of township 20N, range 10E.
Thence northerly to the northeast corner of township 21N, range 9E.
Thence westerly to the northwest corner of township 21N, range 9E.
Thence northerly to the northeast corner of township 22N, range 8E.
Thence westerly to the northwest corner of township 22N, range 8E.
Thence northerly to the southwest corner of township 27N, range 8E.
Thence easterly to the southeast corner of township 27N, range 8E.
Thence northerly to the northeast corner of township 28N, range 8E.
Thence westerly to the northwest corner of township 28N, range 7E.
Thence northerly to the northeast corner of township 30N, range 6E.
Thence westerly to the northwest corner of township 30N, range 1E.
Thence northerly along the Mount Diablo meridian to the northeast corner of township 34N, range 1W;
Thence westerly to the northwest corner of township 34N, range 6W.
Thence southerly to the northeast corner of township 32N, range 7W.
Thence westerly to the northwest corner of township 32N, range 7W.
Thence southerly to the southwest corner of township 30N, range 7W.
Thence easterly to the southeast corner of township 30N, range 7W.
Thence southerly to the southwest corner of township 16N, range 6W.
Thence easterly to the southeast corner of township 16N, range 6W.
Thence southerly to the southwest corner of township 14N, range 6W.
Thence westerly to the southeast corner of township 14N, range 7W.
Thence northerly to the northeast corner of township 14N, range 7W.
Thence westerly to the northwest corner of township 14N, range 7W.
Thence northerly to the northeast corner of township 15N, range 8W.
Thence westerly to the southeast corner of township 16N, range 12W.
Thence northerly to the northeast corner of township 16N, range 12W.
Thence westerly to the northwest corner of township 16N, range 12W.
Thence northerly to the northeast corner of township 18N, range 13W.
Thence westerly to the northwest corner of township 18N, range 14W.
Thence southerly to the southwest corner of township 18N, range 14W.
Thence easterly to the southeast corner of township 18N, range 14W.
Thence southerly to the southwest corner of township 16N, range 13W.
Thence westerly to the northwest corner of township 15N, range 14W.
Thence southerly to the southwest corner of township 14N, range 14W.
Thence easterly to the southeast corner of township 14N, range 11W.
Thence southerly to the southwest corner of township 13N, range 13W.
Thence easterly to the southeast corner of township 13N, range 13W.
Thence southerly to the southwest corner of township 11N, range 12W.
Thence easterly to the southeast corner of township 11N, range 12W.
Thence southerly along the eastern line of range 12W to the Pacific Ocean excluding that portion of northern California within Santa Clara County included within the following line: Commencing at the northwest corner of township 6S, range 3E, Mount Diablo baseline and meridian.
Thence in a southerly direction to the southwest corner of township 7S, range 3E.
Thence in a easterly direction to the southeast corner of township 7S, range 4E.

CALIFORNIA AREA DEFINITIONS FOR POWER EQUIPMENT OPERATORS—continued

Thence in a northerly direction to the northeast corner of township 6S, range 4E.
Thence in a westerly direction to the northwest corner of township 6S, range 3E, to the point of beginning, which portion is a part of Area 2.
Area 1 also includes that portion of northern California within the following lines: Commencing in the Pacific Ocean on an extension of the southerly line of township 2N, Humboldt baseline and meridian.
Thence easterly along the southerly line of township 2N to the southwest corner of township 2N, range 1W.
Thence southerly to the southwest corner of township 1N, range 1W.
Thence easterly along the Humboldt baseline to the southwest corner of township 1N, range 2E.
Thence southerly to the southwest corner of township 2S, range 2E.
Thence easterly to the southeast corner of township 2S, range 2E.
Thence southerly to the southwest corner of township 4S, range 3E.
Thence easterly to the southeast corner of township 4S, range 3E.
Thence northerly to the northeast corner of township 2S, range 3E.
Thence westerly to the northwest corner of township 2S, range 3E.
Thence northerly crossing the Humboldt baseline to the southwest corner of township 1N, range 3E.
Thence easterly along the Humboldt baseline to the southeast corner of township 1N, range 3E.
Thence northerly to the northeast corner of township 9N, range 3E.
Thence westerly to the northwest corner of township 9N, range 2E.
Thence northerly to the northeast corner of township 10N, range 1E.
Thence westerly along the northerly line of township 10N, into the Pacific Ocean.
Area 1 also includes that portion of northern California included within the following line: Commencing at the northerly boundary of the State of California at the northwest corner of township 48N, range 7W, Mount Diablo baseline and meridian.
Thence southerly to the southwest corner of township 44N, range 7W.
Thence easterly to the southeast corner of township 44N, range 7W.
Thence southerly to the southwest corner of township 43N, range 6W.
Thence easterly to the southeast corner of township 43N, range 5W.
Thence northerly to the northeast corner of township 48N, range 5W, on the northerly boundary of the State of California.
Thence westerly along the northerly boundary of the State of California to the point of beginning.

CHANGE:						
Laborers:						
Bridge; brush loaders and piler; cleanup; dumpman; general; landscape; limbers tool room attendant	$5.185	$0.50	$0.90	$0.70	$0.06	
Asphalt shovelers; cement dumper; chipper; choker setter and rigger; chuektender; concrete; guinea chaser; high pressure nozzleman-hydraulic monitor; nipper; pneumatic-gas-electric tool operator (not otherwise classified); sloper; loading, unloading, handling materials for reinforcing concrete consetruction	5.285	.50	.90	.70	.06	
Aligners; asphalt ironers and rakers; bucker; buggymobile; chainsaw; compactors; concrete saw and pan work; cribber and/or shoring; curb setter; form raiser; faller; headerboard man; post hole digger (air-gas-electric); jackhammer; kettleman; log loader; magnesite and mastic workers; pavement breaker pipelayer; pipewrapper; power broom sweeper; riprap stonepaver and rockslinger; rotary scarifier; roto-tiller; sandblaster; Barko, wackers and similar type tampers; tank cleaners; tree climber; vibrator; vibra-screed bull float	5.435	.50	.90	.70	.06	
Burning and welding	5.485	.50	.90	.70	.06	
Pipelayers; caulkers; banders (Contra Costa County only)	5.635	.40	.90	.70	.06	
Blasters; drills (diamond-wagon); high scaler; powderman; tree topper	5.66	.50	.90	.70	.06	
Laborers on general construction work on or in bell hole footings, and shaft	5.985	.50	.90	.70	.06	
Gunite laborers:						
Nozzleman; rodman; gunman; groundman	5.895	.50	.90	.70	.06	
Reboundman	5.305	.50	.90	.70	.06	
Area 1: Power equipment operators:						
Group I: Assistants to engineers (Brakeman; fireman; heavy duty repairman helper; oiler; deckhand; signalman; switchman; tar pot fireman); partsman (heavy duty repair shop parts room)	$6.15	.59	.75	.60	.24	
Group II: Compressor operator; concrete mixer (up to and including 1 yd.); Conveyor belt operator (tunnel), fireman hot plant- hydraulic monitor; mechanical roaveyor (handling building materials); mixer box operator (concrete plant); pump operator, spreader boxman (with screeds); tar pot fireman (power agitated)	6.41	.59	.75	.60	.24	
Group III: Box operator (bunker); locomotive; motorman; oiler rodman or chainman; Ross carrier (construction job site); rotomist operator; screedman (except asphaltic concrete paving); self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); trenching machine (maximum digging capacity 3 ft. depth); tugger hoist, single drum	6.56	.59	.75	.60	.24	
Group IV: Ballast jack tamper; Ballast regulator; ballast tamper multipurpose; boxman (asphalt plant); fork lift or lumber stacker (construction ob site); line master; lubrication and service engineer (mobile and grease rack); material hoist (1 drum); shuttlecar; tie spacer; towermobile	6.99	.59	.75	.60	.24	
Group V: Compressor operator (2 to 7); concrete mixers (over 1 yd.); Concrete pumps or pumpcrete guns; generators (100 kw. or over); press-weld (air-operated); pumps (2 to 7); welding machines (gasoline or diesel) (2 to 7)	7.15	.59	.75	.60	.24	
Group VI: BLH Lima road pactor or similar; boom truck or dual purpose A-frame truck; concrete batch plants (wet or dry); concrete saws (self-propelled unit) on streets, highways, airports, and canals; drilling and boring machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); gradesetter, grade checker (mechanical or otherwise); Highline cableway signalman; locomotives (steam or over 30 tons) Maginnis internal full slab vibrator (on airports, highways, canals and warehouses); mechanical finishers (concrete) (Clary, Johnson, Bidwell bridge deck or similiar types); mechanical burrn, curb and/or curb and gutter machine, concrete or asphalt; portable crushers; power Jumbo operator (setting slip forms, etc. in tunnels); roller; screedman (Barber-Greene and similar) (asphaltic concrete paving); self-propelled compactor (single engine); self-propelled pipeline wrapping machine (perault, CRC, or similar types); slip forms pumps (lifting device for concrete forms); small rubber tired tractors; surface heater	7.25	.59	.75	.60	.24	
Group VII: Concrete conveyor or concrete pump, truck or equipment mounted (boom length to apply); concrete conveyor, building site; deck engineers; dual drum mixer; Fuller Kenyon pump and similar types; Instrument man; material hoist (2 or more drums); mechanical finishers or spreader machine (asphalt, Barber-Greene and similar); mine or shaft hoist; mixer-mobile; pavement breaker with or without compressor combination; pavement breaker, truck mounted with compressor combination; pipe bending machine (pipe lines only); pipe cleaning machine (tractor propelled and supported); pipe wrapping machine (tractor propelled and supported); refrigeration plant; self-propelled boom type lifting device; self-propelled Elevating grade plane; slusher operator; small tractor (with boom); Soil tester; truck type loader	7.36	.59	.75	.60	.24

Group VIII: Armor-coater (or similar); asphalt plant engineer; cast-in-place pipe laying machine; combination slusher and motor operator; concrete batch plant (multiple units); dozer; heavy duty repairman and/or welders; Ken seal machine (or similar); Kolman loader; loader (up to 2 yd.); mechanical shield operator (or similar); mechanical trench shield; portable crushing and screening plants; push cat; rubber tired earth moving equipment (up to and including 45 cu. yd. "struck" m.r.c., Euclids, T-pulls, DW-10, 20, 21 and similar); tractor drawn scraper; self-propelled compactor with dozer; sheepfoot; tractor; trenching machine; tri-batch paver; tunnel mole boring machine operator; welder; woodsmixer (and other similar pugmill equipment)	$7.66	.59	.75	.60	.24	----------
Group IX: Canal finger drain digger; Chicago boom; Combination mixer and compressor (gunite); combination slurry mixer and/or cleaner; highline cableway (5 tons and under); lull hi-lift or similar (20 ft. or over); mucking machine; Tractor (with boom) (D-6 or larger and similar)	7.83	.59	.75	.60	.24	----------
Group X: Boom-type backfilling machine; bridge crane; Cary-lift (or similar); chemical grouting machine; chief of party; Combination backhoe and loader (up to and including ½ cu. yd. m.r.c.); derricks (2 operators required when swing engine remote from hoist); derrick barges (except excavation work); Do-more loader and Adams elegrader; elevating grader operator; rubber tired scraper, self-loading (paddle wheels, etc.); heavy duty rotary drills rigs (including caisson foundation work and Robbins type drills); Koehring skooper (or similar); lift slab machine (Vagtborg and similar types); loader (2 yd. up to and including 4 yd.); locomotive (over 100 tons) (single or multiple units); Multiple engine earthmoving machine (Euclids, dozers, etc.) (no tandem scraper); prestress wire wrapping machine; shuttle car (reclaim station); soil stabilizer (P & H or equal); subgrader (Gurries or other automatic type); track laying type-earth moving machine (single engine with tandem scrapers); tractor, compressor drill comb.; train loading station; vacuum cooling plant; single engine scraper over 45 yd.; Whirley crane (up to and including 25 tons)	$7.98	.59	.75	.60	.24	----------
Group X-A: Backhoe (hydraulic) (up to and including 1 cu. yd. m.r.c.); backhoe (cable) (up to and including 1 cu. yd. m.r.c.); Combination backhoe and loader (over ½ cu. yd. m.r.c.); Continuous flight tie back auger (up to and including 1 cu. yd.) (crane attached); cranes (not over 25 tons, hammerhead and gantry); grade all (up to and including 1 cu. yd.); Power shovels, clamshells, draglines (up to and including 1 cu. yd. m.r.c.); power blade; self-propelled boom-type lifting device (center mounted) (over 10 tons); self-propelled boom-type lifting device (center mounted) (over 15 tons)	8.07	.59	.75	.60	.24	----------
Group XI: Automatic concrete slip form paver; Automatic railroad car dumper; canal finger drain backfiller; canal trimmer; canal trimmer w/ditching attachment; cranes (over 25 tons up to and including 125 tons); Continous flight tie back Auger over 1 cu. yd. (including crane); Drott travelift 650-A-1 or similar (45 tons or over); rubber tired earth moving machines (multiple propulsion power units and two or more scrapers) (up to and including 75 cu. yds. "struck" m.r.c.); highline cableway (over 5 tons); loader (over 4 yds. up to and including 12 cu. yds.); power blades operator (multiengine); power shovels, clamshells, draglines, backhoes, gradalls (over 1 yd. up to and including 7 cu. yds. m.r.c.; self-propelled compactor (with multiple propulsion power units); slip form paver (concrete or asphalt); tandem cats; tower cranes mobile; trencher (pulling attached shield); tower cranes mobile; single engine rubber tired earth moving machine (with tandem scrapers); Universal Liebher and tower cranes (and similar types); wheel excavator (up to and including 750 cu. yds. per hour); Whirley cranes (over 25 tons)	$8.19	.59	.75	.60	.24	----------
Group XI-A: Loader (over 12 cu. yds. up to and including 18 cu. yds.); rubber tired multipurpose earth moving machine (2 units) (over 75 cu. yds. "struck" m.r.c.); power shovels and draglines (over 7 cu. yds. m.r.c.); band wagons (in conjunction with wheel excavator) wheel excavator (over 750 yds. per hour); cranes (over 125 tons)	9.00	.59	.75	.60	.24	----------
Group XI-B: Loader (over 18 cu. yds.)	9.20	.59	.75	.60	.24	----------
Group XI-C: Operator of helicopter (when used in erection work); remote controlled earth moving equipment	9.42	.59	.75	.60	.24	----------
**Area 2: Power equipment operators:						
Group I: Assistants to engineers (brakeman; fireman; heavy duty repairman helper; oiler; deckhand; signalman; switchman; tar pot fireman); partsman (heavy duty repair shop parts room)	$7.28	.59	.75	.60	.24	----------
Group II: Compressor operator; concrete mixer (up to and including 1 yd.); conveyor belt operator (tunnel); fireman hot plant; hydraulic monitor; mechanical conveyor (handling building materials); mixer box operator (concrete plant); pump operator spreader boxman (with screeds); tar pot fireman (power agitated)	7.54	.59	.75	.60	.24	----------
Group III: Box operator (bunker); locomotive; motorman; oiler; rodman or chainman; Ross carrier (construction jobsite); rotomist operator; screedman (except asphaltic concrete paving); self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); trenching machine (maximum digging capacity 3 ft. depth); lugger hoist, single drum	7.69	.59	.75	.60	.24	----------
Group IV: Ballast jack tamper; Ballast regulator; ballast tamper multipurpose; boxman (asphalt plant); fork lift or lumber stacker (construction jobsite); line master; lubrication and service engineer (mobile and grease rack); material hoist (1 drum); shuttlecar; tie spacer; towermobile	8.12	.59	.75	.60	.24	----------
Group V: Compressor operator (2 to 7); concrete mixers (over 1 yd.); concrete pumps or pumpcrete guns; generators (100 kw. or over); press-weld (air-operated); pumps (2 to 7); welding machines (gasoline or diesel) (2 to 7)	8.28	.59	.75	.60	.24	----------
Group VI: BLH lima road pactor or similar; boom truck or dual purpose A-frame truck; concrete batch plants (wet or dry); Concrete saws (self-propelled unit) on streets, highways, airports, and canals; drilling and boring machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); gradesetter, grade checker (mechanical or otherwise); highline cableway signalman; locomotives (steam or over 30 tons) Maginis internal full slab vibrator (on airports, highways, canals and warehouses); mechanical finishers (concrete) (Clary, Johnson, Bidwell bridge deck or similar types); mechanical burm, curb and/or curb and gutter machine, concrete or asphalt; portable crushers; power jumbo operator (setting slip forms, etc. in tunnels); roller; screedman (Barber-Greene and similar) (asphaltic concrete paving); self-propelled compactor (single engine); self-propelled pipeline wrapping machine (perault, CRC, or similar types); slip forms pumps (lifting device for concrete forms); small rubber tired tractors; surface heater	$8.38	.59	.75	.60	.24	----------
Group VII: Concrete conveyor or concrete pump, truck or equipment mounted (boom length to apply); concrete conveyor, building site; deck engineers; dual drum mixer; Fuller Kenyon pump and similar types; Instrument man; material hoist (2 or more drums); mechanical finishers or spreader machine (asphalt, Barber-Greene and similar); mine or shaft hoist; mixer mobile; pavement breaker with or without compressor combination; pavement breaker, truck mounted with compressor combination; pipe bending machine (pipe lines only); pipe cleaning machine (tractor propelled and supported); pipe wrapping machine (tractor propelled and supported); refrigeration plant; self-propelled boom type lifting device; self-propelled elevating grade plane; slusher operators; small tractor (with boom); Soil tester; truck type loader	8.49	.59	.75	.60	.24	----------

CALIFORNIA AREA DEFINITIONS FOR POWER EQUIPMENT OPERATORS

**AREA 2: All areas not included within Area 1 as defined below.

*AREA 1: All areas included in the description defined below which is based upon township and range lines of Areas 1 and 2.

Commencing in the Pacific Ocean on the extension of the southerly line of township 10S.

Thence easterly along the southerly line of township 10S, crossing the Mount Diablo meridian to the southwest corner of township 10S, range 6E, Mount Diablo base line and meridian.

Thence southerly to the southwest corner of township 20S, range 6E.
Thence easterly to the southwest corner of township 20S, range 13E.
Thence southerly to the southwest corner of township 21S, range 13E.
Thence easterly to the southwest corner of township 21S, range 17E.
Thence southerly to the southwest corner of township 22S, range 17E.
Thence easterly to the southeast corner of township 22S, range 17E.
Thence southerly to the southwest corner of township 23S, range 18E.
Thence easterly to the southeast corner of township 23S, range 18E.
Thence southerly to the southwest corner of township 24S, range 19E, falling on the southerly line of Kings County, thence easterly along the southerly boundary of Kings County and the southerly boundary of Tulare County, to the southeast corner of township 24S, range 29E.
Thence northerly to the northeast corner of township 21S, range 29E.
Thence westerly to the northwest corner of township 21S, range 29E.
Thence northerly to the northeast corner of township 13S, range 28E.
Thence westerly to the northwest corner of township 13S, range 28E.
Thence northerly to the northeast corner of township 11S, range 27E.
Thence westerly to the northwest corner of township 11S, range 27E.
Thence northerly to the northeast corner of township 10S, range 26E.
Thence westerly to the northwest corner of township 10S, range 26E.
Thence northerly to the northeast corner of township 9S, range 25E.
Thence westerly to the northwest corner of township 9S, range 25E.
Thence northerly to the northeast corner of township 8S, range 24E.
Thence westerly to the northwest corner of township 8S, range 24E.
Thence northerly to the northeast corner of township 6S, range 23E.
Thence westerly to the southeast corner of township 8S, range 19E.
Thence northerly to the northeast corner of township 5S, range 19E.
Thence westerly to the northwest corner of township 5S, range 19E.
Thence northerly to the northeast corner of township 3S, range 18E.
Thence westerly to the northwest corner of township 3S, range 18E.
Thence northerly to the northeast corner of township 2S, range 17E.
Thence westerly to the northwest corner of township 2S, range 17E.
Thence northerly crossing the Mount Diablo baseline to the northeast corner of township 2N, range 16E:
Thence westerly to the northwest corner of township 2N, range 16E.
Thence northerly to the northeast corner of township 3N, range 15E.
Thence westerly to the northwest corner of township 3N range, 15E.
Thence northerly to the northeast corner of township 4N, range 14E.
Thence westerly to the northwest corner of township 4N, range 14E.
Thence northerly to the northeast corner of township 5N, range 13E.
Thence westerly to the northwest corner of township 5N, range 13E.
Thence northerly to the northeast corner of township 10N, range 12E.
Thence easterly to the southeast corner of township 11N, range 14E.
Thence northerly to the northeast corner of township 11N, range 14E.
Thence westerly to the northeast corner of township 11N, range 10E.
Thence northerly to the northeast corner of township 15 N, range 10E.
Thence easterly to the southeast corner of township 16N, range 11E.

V 37-83 APR 28 72 A XUM

CALIFORNIA AREA DEFINITIONS FOR POWER EQUIPMENT OPERATORS—continued

Thence northerly to the northeast corner of township 16N, range 11E.
Thence easterly to the southeast corner of township 17N, range 14E.
Thence southerly to the southwest corner of township 14N, range 15E.
Thence easterly to the southeast corner of township 14N, range 15E.
Thence southerly to the southwest corner of township 13N, range 16E.
Thence easterly to the southeast corner of township 13N, range 16E.
Thence southerly to the southwest corner of township 12N, range 17E.
Thence easterly along the southern line of township 12N to the eastern boundary of the State of California.
Thence northwesterly, thence northerly along the eastern boundary of the State of California to the northeast corner of township 17N, range 18E.
Thence westerly to the northwest corner of township 17N, range 11E.
Thence northerly to the northeast corner of township 20N, range 10E.
Thence westerly to the northwest corner of township 20N, range 10E.
Thence northerly to the northeast corner of township 21N, range 9E.
Thence westerly to the northwest corner of township 21N, range 9E.
Thence northerly to the northeast corner of township 22N, range 8E.
Thence westerly to the northwest corner of township 22N, range 8E.
Thence northerly to the southwest corner of township 27N, range 8E.
Thence easterly to the southeast corner of township 27N, range 8E.
Thence northerly to the northeast corner of township 28N, range 8E.
Thence westerly to the northwest corner of township 28N, range 7E.
Thence northerly to the northeast corner of township 30N, range 6E.
Thence westerly to the northwest corner of township 30N, range 1E.
Thence northerly along the Mount Diablo meridian to the northeast corner of township 31N, range 1W.
Thence westerly to the northwest corner of township 31N, range 6W.
Thence southerly to the northeast corner of township 32N, range 7W.
Thence westerly to the northwest corner of township 32N, range 7W.
Thence southerly to the southwest corner of township 30N, range 7W.
Thence easterly to the southeast corner of township 30N, range 7W.
Thence southerly to the southwest corner of township 16N, range 6W.
Thence easterly to the southeast corner of township 16N, range 6W.
Thence southerly to the southwest corner of township 14N, range 5W.
Thence westerly to the southeast corner of township 14N, range 7W.
Thence northerly to the northeast corner of township 14N, range 7W.
Thence westerly to the northwest corner of township 14N, range 7W.
Thence northerly to the northeast corner of township 15N, range 8W.
Thence westerly to the southeast corner of township 16N, range 12W.
Thence northerly to the northeast corner of township 16N, range 12W.
Thence westerly to the northwest corner of township 16N, range 12W.
Thence northerly to the northeast corner of township 18N, range 13W.
Thence westerly to the northwest corner of township 18N, range 14W.
Thence southerly to the southwest corner of township 18N, range 14W.
Thence easterly to the southeast corner of township 18N, range 14W.
Thence southerly to the southwest corner of township 16N, range 13W.
Thence westerly to the northwest corner of township 15N, range 14W.
Thence southerly to the southwest corner of township 14N, range 14W.
Thence easterly to the southeast corner of township 14N, range 14W.
Thence southerly to the southwest corner of township 13N, range 13W.
Thence easterly to the southeast corner of township 13N, range 13W.
Thence southerly to the southwest corner of township 11N, range 12W.
Thence easterly to the southeast corner of township 11N, range 12W.
Thence southerly along the eastern line of range 12W to the Pacific Ocean excluding that portion of northern California within Santa Clara County included within the following line: Commencing at the northwest corner of township 6S, range 3E, Mount Diablo baseline and meridian.
Thence in a southerly direction to the southwest corner of township 7S, range 3E.
Thence in an easterly direction to the southeast corner of township 7S, range 4E.
Thence in a northerly direction to the northeast corner of township 6S, range 4E.
Thence in a westerly direction to the northwest corner of township 6S, range 3E, to the point of beginning, which portion is a part of Area 2.

Area 1 also includes that portion of northern California within the following lines: Commencing in the Pacific Ocean on an extension of the southerly line of township 2N, Humboldt baseline and meridian.
Thence easterly along the southerly line of township 2N to the southwest corner of township 2N, range 1W.
Thence southerly to the southwest corner of township 1N, range 1W.
Thence easterly along the Humboldt baseline to the southwest corner of township 1N, range 2E.
Thence southerly to the southwest corner of township 2S, range 2E.
Thence easterly to the southeast corner of township 2S, range 2E.
Thence southerly to the southwest corner of township 4S, range 3E.
Thence easterly to the southeast corner of township 4S, range 3E.
Thence northerly to the northeast corner of township 2S, range 3E.
Thence westerly to the northwest corner of township 2S, range 3E.
Thence northerly crossing the Humboldt baseline to the southwest corner of township 1N, range 3E.
Thence easterly along the Humboldt baseline to the southeast corner of township 1N, range 3E.
Thence northerly to the northeast corner of township 9N, range 3E.
Thence westerly to the northwest corner of township 9N, range 2E.
Thence northerly to the northeast corner of township 10N, range 1E.
Thence westerly along the northerly line of township 10N, into the Pacific Ocean.

Area 1 also includes that portion of northern California included within the following line: Commencing at the northerly boundary of the State of California at the northwest corner of township 48N, range 7W, Mount Diablo baseline and meridian.
Thence southerly to the southwest corner of township 41N, range 7W.
Thence easterly to the southeast corner of township 41N, range 7W.
Thence southerly to the southwest corner of township 43N, range 6W.
Thence easterly to the southeast corner of township 43N, range 5W.
Thence northerly to the northeast corner of township 48N, range 5W, on the northerly boundary of the State of California, thence westerly along the northerly boundary of the State of California to the point of beginning.

Group VI: BLH lima road pactor or similar; boom truck or dual purpose A-frame truck; concrete batch plants (wet or dry); concrete saws (self-propelled unit) on streets, highways, airports, and canals; drilling and boring machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); gradesetter, grade checker (mechanical or otherwise); highline cableway signalman; locomotives (steam or over 30 tons) Maginnis internal full slab vibrator (on airports, highways, canals and warehouses); Mechanical finishers (concrete) (Clary, Johnson, Bidwell bridge deck or similar types); mechanics burm, curb and/or curb and gutter machine, concrete or asphalt; portable crushers; power jumbo operator (setting slip forms, etc. in tunnels); roller; screedman (Barber-Greene and similar) (asphaltic concrete paving); Self-propelled compactor (single engine); self-propelled pipelinewrapping machine (perault, CRC, or similar types), slip forms pumps (lifting device for concrete forms); small rubber tired tractors; Surface heater	$7.25	.59	.75	.60	.24	
Group VII: Concrete conveyor or concrete pump, truck or equipment mounted (boom length to apply); concrete conveyor, building site; deck engineers; dual drum mixer; Fuller Kenyon pump and similar types; Instrument man; material hoist (2 or more drums); mechanical finishers or spreader machine (asphalt, Barber-Greene and similar; mine or shaft hoist; mixer-mobile; pavement breaker with or without compressor combination; pavement breaker, truck mounted with compressor combination; pipe bending machine (pipe lines only); pipe cleaning machine (tractor propelled and supported); pipe wrapping machine (tractor propelled and supported); refrigeration plant; self-propelled boom type lifting device; self-propelled elevating grade plane; slusher operator, small tractor (with boom); soil tester; Truck type loader	7.36	.59	.75	.60	.24	
Group VIII: Armor-coater (or similar); Asphalt plant engineer; cast-in-place pipe laying machine; combination slusher and motor operator; concrete batch plant (multiple units); dozer; heavy duty repairman and/or welders; Ken seal machine (or similar); Kolman loader; loader (up to 2 yd.); mechanical shield operator (or similar); mechanical trench shield; portable crushing and screening plants; push cat; rubber tire dearth moving equipment (up to and including 45 cu. yds. "struck" m.r.c., Euclids, T-pulls, DW-10, 20, 21 and similar); tractor drawn scarper; self-propelled compactor with dozer; sheepfoot; tractor; trenching machine; tri-batch paver; tunnel mole toring machine operator; welder; woodsmiter (and other similar pugmill equipment)	$7.66	.59	.75	.60	.24	
Group 1X: Canal finger drain digger; Chicago boom; combination mixer and compressor (Gunite); combination slurry mixer and/or cleaner; highline cableway (5 tons and under); Lull hi-lift or similar (20 ft. or over); mucking machine; tractor (with boom) (D-6 or larger and similar)	7.88	.59	.75	.60	.24	
Group X: Boom-type backfilling machine; bridge crane; Cary-lift (or similar); chemical grouting machine; chief of party; Combination backhoe and loader (up to and including ½ cu. yd. m.r.c.); derricks (2 operators required when swing engine remote from hoist); derrick barges (except excavation work); do-more loader and Adams elegrader; elevating grader operator; rubber tired scraper, self-loading (paddle wheels, etc.); heavy duty rotary drills rigs (including caisson foundation work and Robbins type drills); Koehring skooper (or similar); lift slab machine (Vagtborg and similar types); loader (2 yd. up to and including 4 yd.); locomotive (over 100 tons) (single or multiple units); multiple engine earth-moving machine (Euclids, dozers, etc.) (no tandem scraper); prestress wire wrapping machine; shuttle car (reclaim station); soil stabilizer (P & H or equal); subgrader (gurries or other automatic type); track laying type-earthmoving machine (single engine with tandem scrapers); tractor, compressor drill comb.; train loading station; vacuum cooling plant; single engine scraper over 45 yd.; Whirley crane (up to and including 25 tons)	$7.98	.59	.75	.60	.24	
Group X-A: Backhoe (hydraulic) (up to including 1 cu. yd. m.r.c.); backhoe (cable) (up to and including 1 cu. yd. m.r.c.); combination backhoe and loader (over ½ cu. yd. m.r.c.); continuous flight tie back auger (up to and including 1 cu. yd.) (crane attached); cranes (not over 25 tons, hammerhead and gantry); Gradall (up to and including 1 cu. yd.); power shovels, clamshells, draglines (up to and including 1 cu. yd. m.r.c.); power blade; self-propelled boom-type lifting device (center mount) (over 10 tons); self-propelled boom-type lifting device (center mounted) (over 15 tons)	8.07	.59	.75	.60	.24	
Group XI: Automatic concrete slip form paver; automatic railroad car dumper; canal finger drain backfiller; canal trimmer; Canal trimmer with ditching attachments; cranes (over 25 tons up to and including 125 tons); continuous flight tie back auger over 1 cu. yd. (including crane); Drott travelift 650-A-1 or similar (45 tons or over); rubber tired earth moving machines (multiple propulsion power units and two or more scrapers) (up to and including 75 cu. yds. "struck" m.r.c.); highline cableway (over 5 tons); loader (over 4 yds. up to and including 12 cu. yds.); power blades operator (multiengine); power shovels, clamshells, draglines, backhoes, Gradalls (over 1 yd. up to and including 7 cu. yds. m.r.c.); self-propelled compactor (with multiple propulsion power units); slip form paver (concrete or asphalt); tandem cats; tower cranes mobile; trencher (pulling attached shield); tower cranes mobile; single engine rubber tired earthmoving machine (with tandem scrapers); Universal Liebher and tower cranes (and similar types); wheel excavator (up to and including 750 cu. yds. per hour); Whirley cranes (over 25 tons)	8.19	.59	.75	.60	.24	
Group XI-A: Loader (over 12 cu. yds. up to and including 18 cu. yds.); rubber tired multipurpose earthmoving machine (2 units) (over 75 cu. yds. "struck" m.r.c.); power shovels and draglines (over 7 cu. yds. m.r.c.); band wagons (in conjunction with wheel excavator) wheel excavator (over 750 yds. per hour); cranes (over 125 tons)	9.00	.59	.75	.60	.24	
Group XI-B: Loader (over 18 cu. yds.)	9.20	.59	.75	.60	.24	
Group XI-C: Operator of helicopter (when used in erection work); remote controlled earthmoving equipment	9.42	.59	.75	.60	.24

**AREA 2: Power equipment operators:						
Group I: Assistants to engineers (brakeman; fireman; heavy duty repairman helper; oiler; deckhand; signalman; switchman; tar pot fireman); partsman (heavy duty repair shop parts room)	$7.28	.59	.75	.60	.24	
Group II: Compressor operator; concrete mixer (up to and including 1 yd.); conveyor belt operator (tunnel); fireman hot plant; hydraulic monitor; mechanical conveyor (handling building materials); mixer box operator (concrete plant); pump operator spreader boxman (with screeds); tar pot fireman (power agitated)	7.54	.59	.75	.60	.24	
Group III: Box operator (bunker); locomotive; motorman; oiler; rodman or chainman; Ross carrier (construction jobsite); rotomist operator; screedman (except asphaltic concrete paving); self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); trenching machine (maximum digging capacity 3 ft. depth); tugger hoist, single drum	7.69	.59	.75	.60	.24	
Group IV: Ballast jack tamper; Ballast regulator; ballast tamper multipurpose; boxman (asphalt plant); fork lift or lumber stacker (construction jobsite); line master; lubrication and service engineer (mobile and grease rack); material hoist (1 drum); shuttlecar; tie spacer; towermobile	8.12	.59	.75	.60	.24	
Group V: Compressor operator (2 to 7); concrete mixers (over 1 yd.); concrete pumps or pumpcrete guns; generators (100 kw. or over); press-weld (air-operated); pumps (2 to 7); welding machines (gasoline or diesel) (2 to 7)	8.28	.59	.75	.60	.24	
Group VI: BLH lima road pactor or similar; boom truck or dual purpose A-frame truck; concrete batch plants (wet or dry); concrete saws (self-propelled unit) on streets, highways, airports, and canals; drilling and boring machinery, vertical and horizontal (not to apply to waterliners, wagon drills or jackhammers); gradesetter, grade checker (mechanical or otherwise); highline cableway signalman; locomotives (steam or over 30 tons) Magnuis internal full slab vibrator (on airports, highways, canals and warehouses); mechanical finishers (concrete) (Clary, Johnson, Bidwell bridge deck or similar types); mechanical burm, curb and/or curb and gutter machine, concrete or asphalt; portable crushers; power jumbo operator (setting slip forms, etc. in tunnels); roller; screedman (Barber-Greene and similar) (asphaltic concrete paving); self-propelled compactor (single engine); self-propelled pipeline wrapping machine (perault, CRC, or similar types); slip forms pumps (lifting device for concrete forms); small rubber tired tractors; surface heater	$8.38	.59	.75	.60	.24	
Group VII: Concrete conveyor or concrete pump, truck or equipment mounted (boom length to apply); concrete conveyor, building site; deck engineers; dual drum mixer; Fuller Kenyon pump and similar types; instrument man; material hoist (2 or more drums); mechanical finishers or spreader machine (asphalt, Barber-Greene and similar; mine or shaft hoist; mixer-mobile; pavement breaker with or without compressor combination; pavement breaker, truck mounted with compressor combination; pipe bending machine (pipe lines only); pipe cleaning machine (tractor propelled and supported); pipe wrapping machine (tractor propelled and supported); refrigeration plant; self-propelled boom type lifting device; self-propelled elevating grade plane; slusher operator; small tractor (with boom); soil tester; truck type loader	8.49	.59	.75	.60	.24	
Group VIII: Armor-coater (or similar); asphalt plant engineer; cast-in-place pipe laying machine; combination slusher and motor operator; concrete batch plant (multiple units); dozer; heavy duty repairman and/or welders; Ken seal machine (or similar); Kolman loader; loader (up to 2 yds.); mechanical shield operator (or similar); mechanical trench shield; portable crushing and screening plants; push cat; rubber tired earth moving equipment (up to and including 45 cu. yds. "struck" m.r.c., Euclids, T-pulls, DW-10, 20, 21 and similar); tractor drawn scraper; self-propelled compactor with dozer; sheepfoot; tractor; trenching machine; tri-batch paver; tunnel mole boring machine operator; welder; Woodsmixer (and other similar pugmill equipment)	$8.79	.59	.75	.60	.24	
Group IX: Canal finger drain digger; Chicago boom; combination mixer and compressor (gunite); combination slurry mixer and/or cleaner; highline cableway (5 tons and under); hull bi-lift or similar (20 ft. or over); mucking machine; tractor (with boom) (D–6 or larger and similar)	8.96	.59	.75	.60	.24	
Group X: Boom-type backfilling machine; bridge crane; Cary-lift (or similar); chemical grouting machine; chief of party; combination backhoe and loader (up to and including ½ cu. yd. m.r.c.); derricks (2 operators required when swing engine remote from hoist); derrick barges (except excavation work); do-more loader and Adams elegrader; elevating grader operator; rubber tired scraper, self-loading (paddle wheels, etc.); heavy duty rotary drills rigs (including caisson foundation work and Robbins type drills); Koehring skooper (or similar); Lift slab machine (Vagtborg and similar types); loader (2 yds. up to and including 4 yds.); locomotive (over 100 tons) (single or multiple units); multiple engine earthmoving machine (Euclids, dozers, etc.) (no tandem scraper); prestress wire wrapping machine; shuttle car (reclaim station); soil stabilizer (PAUl or equal); subgrader (gurries or other automatic type); track laying type-earthmoving machine (single engine with tandem scrapers); tractor, compressor drill comb.; train loading station; vacuum cooling plant; shigle engine scraper over 45 yds.; Whirley crane (up to and including 25 tons)	9.11	.59	.75	.60	.24	
Group X–A: Backhoe (hydraulic) (up to and including 1 cu. yd. m.r.c.); backhoe (cable) (up to and including 1 cu. yd. m.r.c.); combination backhoe and loader over ½ cu. yd. m.r.c.); continuous flight tie back auger (up to and including 1 cu. yd.) (crane attached); cranes (not over 25 tons, hammerhead and gantry); Gradall up to and including 1 cu. yd.); power shovels, clamshells, draglines (up to and including 1 cu. yd. m.r.c.); power blade; self-propelled boom-type MMM lifting device (center mount) (over 10 tons); self-propelled boom-type lifting device (center mounted) (over 15 tons)	9.20	.59	.75	.60	.24	
Group XI: Automatic concrete slip form paver; automatic railroad car dumper; canal finger drain backfiller; canal trimmer; canal trimmer with ditching attachments; cranes (over 25 tons up to and including 125 tons); continuous flight tie back auger over 1 cu. yd. (including crane); Drott travelift 650–A–1 or similar (45 tons or over); rubber tired earthmoving machines (multiple propulsion power units and two or more scrapers) (up to and including 75 cu. yd. "struck" m.r.c.); highline cableway (over 5 tons); loader (over 4 yd. up to and including 12 cu. yd.); power blades operator (multiengine); power shovels, clamshells, draglines, backhoes, Gradalls, (over 1 yd. up to and including 7 cu. yd. m.r.c.); self-propelled compactor (with multiple propulsion power units); slip form paver (concrete or asphalt); tandem cats; tower cranes mobile; treneher (pulling attached shield); tower cranes mobile; single engine rubber tired earthmoving machine (with tandem scrapers); Universal Liebher and tower cranes (and similar types); wheel excavator (up to and including 750 cu. yd. per hour); Whirley cranes (over 25 tons)	9.32	.59	.75	.60	.24	
Group XI–A: Loader (over 12 cu. yd. up to and including 18 cu. yd.); rubber tired multipurpose earthmoving machine (2 units) (over 75 cu. yd. "struck" m.r.c.); power shovels and draglines (over 7 cu. yd. m.r.c.); haul wagons (in conjunction with wheel excavator) wheel excavator (over 750 yd. per hour); cranes (over 125 tons)	10.13	.59	.75	.60	.24	
Group XI–B: Loader (over 18 cu. yd.)	10.33	.59	.75	.60	.24	
Group XI–C: Operator of helicopter (when used in erection work); remote controlled earth moving equipment	10.55	.59	.75	.60	.24	

CALIFORNIA AREA DEFINITIONS FOR POWER EQUIPMENT OPERATORS

**AREA 2: All areas not included within Area 1 as defined below.

*AREA 1: All areas included in the description defined below which is based upon township and range lines of Areas 1 and 2:

Commencing in the Pacific Ocean on the extension of the southerly line of township 19S.

Thence easterly along the southerly line of township 19S, crossing the Mount Diablo meridian to the southwest corner of township 19S, range 6E, Mount Diablo base line and meridian.

Thence southerly to the southwest corner of township 20S, range 6E.
Thence easterly to the southwest corner or township 20S, range 13E.
Thence southerly to the southwest corner of township 21S, range 13E.
Thence easterly to the southwest corner of township 21S, range 17E.
Thence southerly to the southwest corner of township 22S, range 17E.
Thence easterly to the southeast corner of township 22S, range 17E.
Thence southerly to the southwest corner of township 23S, range 18E.
Thence easterly to the southeast corner of township 23S, range 18E.
Thence southerly to the southwest corner of township 24S, range 19E, falling on the southerly line of Kings County, thence easterly along the southerly boundary of Kings County and the southerly boundary of Tulare County, to the southeast corner of township 24S, range 29E.
Thence northerly to the northeast corner of township 21S, range 29E.
Thence westerly to the northwest corner of township 21S, range 29E.
Thence northerly to the northeast corner of township 13S, range 28E.
Thence westerly to the northwest corner of township 13S, range 28E.
Thence northerly to the northeast corner of township 11S, range 27E.
Thence westerly to the northwest corner of township 11S, range 27E.
Thence northerly to the northeast corner of township 10S, range 26E.
Thence westerly to the northwest corner of township 10S, range 26E.
Thence northerly to the northeast corner of township 9S, range 25E.
Thence westerly to the northwest corner of township 9S, range 25E.
Thence northerly to the northeast corner of township 8S, range 24E.
Thence westerly to the northwest corner of township 8S, range 24E.
Thence northerly to the northeast corner of township 6S, range 23E.
Thence westerly to the southeast corner of township 5S, range 19E.
Thence northerly to the northeast corner of township 5S, range 19E.
Thence westerly to the northwest corner of township 5S, range 19E.
Thence northerly to the northeast corner of township 3S, range 18E.
Thence westerly to the northwest corner of township 3S, range 18E.
Thence northerly to the northeast corner of township 2S, range 17E.
Thence westerly to the northwest corner of township 2S, range 17E.
Thence northerly crossing the Mount Diablo baseline to the northeast corner of township 2N, range 16E.
Thence westerly to the northwest corner of township 2N, range 16E.
Thence northerly to the northeast corner of township 3N, range 15E.
Thence westerly to the northwest corner of township 3N, range 15E.
Thence northerly to the northeast corner of township 4N, range 14E.
Thence westerly to the northwest corner of township 4N, range 14E.
Thence northerly to the northeast corner of township 5N, range 13E.
Thence westerly to the northwest corner of township 5N, range 13E.
Thence northerly to the northeast corner of township 10N, range 12E.
Thence easterly to the southeast corner of township 11N, range 14E.
Thence northerly to the northeast corner of township 11N, range 4E.
Thence westerly to the northeast corner of township 11N, range 10E.
Thence northerly to the northeast corner of township 15N, range 10E.
Thence easterly to the southeast corner of township 16N, range 11E.
Thence northerly to the northeast corner of township 16N, range 11E.
Thence easterly to the southeast corner of township 17N, range 14E.
Thence southerly to the southwest corner of township 14N, range 15E.
Thence easterly to the southeast corner of township 14N, range 15E.
Thence southerly to the southwest corner of township 13N, range 16E.
Thence easterly to the southeast corner of township 13N, range 16E.
Thence southerly to the southwest corner of township 12N, range 17E.
Thence easterly along the southern line of township 12N to the eastern boundary of the State of California, thence northwesterly, thence northerly along the eastern boundary of the State of California to the northeast corner of township 17N, range 18E.
Thence westerly to the northwest corner of township 17N, range 11E.
Thence northerly to the northeast corner of township 20N, range 10E.
Thence westerly to the northwest corner of township 20N, range 10E.
Thence northerly to the northeast corner of township 21N, range 9E.
Thence westerly to the northwest corner of township 21N, range 9E.
Thence northerly to the northeast corner of township 22N, range 8E.
Thence westerly to the northwest corner of township 22N, range 8E.
Thence northerly to the southwest corner of township 27N, range 8E.
Thence easterly to the southeast corner of township 27N, range 8E.
Thence northerly to the northeast corner of township 28N, range 8E.
Thence westerly to the northwest corner of township 28N, range 7E.
Thence northerly to the northeast corner of township 30N, range 6E.
Thence westerly to the northwest corner of township 30N, range 1E.
Thence northerly along the Mount Diablo meridian to the northeast corner of township 34N, range 1W:
Thence westerly to the northwest corner of township 34N, range 6W.
Thence southerly to the northeast corner of township 32N, range 7W.
Thence westerly to the northwest corner of township 32N, range 7W.
Thence southerly to the southwest corner of township 30N, range 7W.
Thence easterly to the southeast corner of township 30N, range 7W.
Thence southerly to the southwest corner of township 16N, range 6W.
Thence easterly to the southeast corner of township 16N, range 6W.
Thence southerly to the southwest corner of township 14N, range 5W.
Thence westerly to the southeast corner of township 14N, range 7W.
Thence northerly to the northeast corner of township 14N, range 7W.
Thence westerly to the northwest corner of township 14N, range 7W.
Thence northerly to the northeast corner of township 15N, range 8W.
Thence westerly to the southeast corner of township 16N, range 12W.
Thence northerly to the northeast corner of township 16N, range 12W.
Thence westerly to the northwest corner of township 16N, range 12W.
Thence northerly to the northeast corner of township 18N, range 13W.
Thence westerly to the northwest corner of township 18N, range 14W.
Thence southerly to the southwest corner of township 18N, range 14W.
Thence easterly to the southeast corner of township 18N, range 14W.
Thence southerly to the southwest corner of township 16N, range 13W.
Thence westerly to the northwest corner of township 15N, range 14W.
Thence southerly to the southwest corner of township 14N, range 14W.
Thence easterly to the southeast corner of township 14N, range 14W.
Thence southerly to the southwest corner of township 13N, range 13W.
Thence easterly to the southeast corner of township 13N, range 13W.
Thence southerly to the southwest corner of township 11N, range 12W.
Thence easterly to the southeast corner of township 11N, range 12W.
Thence southerly along the eastern line of range 12W to the Pacific Ocean excluding that portion of northern California within Santa Clara County included within the following line: Commencing at the northwest corner of township 6S, range 3E, Mount Diablo baseline and meridian.
Thence in a southerly direction to the southwest corner of township 7S, range 3E.
Thence in a easterly direction to the southeast corner of township 7S, range 4E.
Thence in a northerly direction to the northeast corner of township 6S, range 4E.
Thence in a westerly direction to the northwest corner of township 6S, range 3E, to the point of beginning, which portion is a part of Area 2.

Area 1 also includes that portion of northern California within the following lines: Commencing in the Pacific Ocean on an extension of the southerly line of township 2N, Humboldt baseline and meridian.
Thence easterly along the southerly line of township 2N to the southwest corner of township 2N, range 1W:
Thence southerly to the southwest corner of township 1N, range 1W.
Thence easterly along the Humboldt baseline to the southwest corner of township 1N, range 2E.
Thence southerly to the southwest corner of township 2S, range 2E.

V 37-83 APR 28 72 XUM

CALIFORNIA AREA DEFINATIONS FOR POWER EQUIPMENT OPERATORS—continued

Thence easterly to the southeast corner of township 2S, range 2E.
Thence southerly to the southwest corner of township 4S, range 3E.
Thence easterly to the southeast corner of township 4S, range 3E.
Thence northerly to the northeast corner of township 2S, range 3E.
Thence westerly to the northwest corner of township 2S, range 3E.
Thence northerly crossing the Humboldt baseline to the southwest corner of township 1N, range 3E.
Thence easterly along the Humboldt baseline to the southeast corner of township 1N, range 3E.
Thence northerly to the northeast corner of township 6N, range 3E.
Thence westerly to the northwest corner of township 6N, range 2E.
Thence northerly to the northeast corner of township 10N, range 1E.
Thence westerly along the northerly line of township 10N, into the Pacific Ocean.
Area 1 also includes that portion of northern California included within the following line: Commencing at the northerly boundary of the State of California at the northwest corner of township 48N, range 7W, Mount Diablo baseline and meridian.
Thence southerly to the southwest corner of township 44N, range 7W.
Thence easterly to the southeast corner of township 44N, range 7W.
Thence southerly to the southwest corner of township 43N, range 6W.
Thence easterly to the southeast corner of township 43N, range 5W.
Thence northerly to the northeast corner of township 48N, range 5W, on the northerly boundary of the State of California.
Thence westerly along the northerly boundary of the State of California to the point of beginning.

Group A: Building and construction laborers, scaffold builders other than for mason or plasterers, ironworkers' helpers, mechanic helpers, mechanic tenders, window washers and cleaners, roofers' helpers, railroad laborer, masonry wall washers (interior and exterior), cement finisher helper, carpenter helper, all portable water pumps with discharge up 3 in., mason tenders	5.45	.18	.25		.07	
Group B: Waterproofing, handling of creosote lumber or like treated material (excluding railroad material), asphalt rakers and lutemen, kettlemen, air tool operators, vibrators, chipping hammer operators, and all other pneumatic tool operators, jackmen and sheeting men working in ditches deeper than 6 ft., laborers working in ditches 6 ft. in depth or deeper, assembly of unicrete pump, chain saw operators, tile layers (sewer or field), sewer pipe layers (metallic and nonmetallic), motor-driven wheelbarrows and concrete buggies, Hyster operators, pump crete assemblers, conveyor assemblers, core drill operators, cement, lime, or silica clay handlers (bulk or bag), pneumatic spikers, deck, engine and winch operator, water main and cable ducking (metallic and nonmetallic)	5.65	.18	.25		.07	
Group C: Plaster tenders, mortar mixers, welders (acetylene or electric), cutting torch or burner, cement nozzle laborers, cement gun operator, scaffold builders when working for plasterer	5.75	.18	.25		.07	
Group D: Tunnel work in free air: Muckers or tunnel laborers, bottom men, concrete men (bottom), miners and header men	6.05	.18	.25		.07	
Group E: Dynamite men	6.45	.18	.25		.07	
Laborers: Heavy and highway construction:						
Dynamite and powdermen	5.15	.18	.25		.07	
Asphalt lutemen, asphalt rakermen, batch truck dumpers, cement handlers (bulk or bag cement), concrete puddlers, hand blade operator, power tools and power equipment side rail setters (for sidewalks, side ditches, radii and pavement), spreader box tenders, tile layers, transverse and longitudinal hand bull float men, wagon drill operator, chain saws, concrete rubbers, concrete saws (manually operated)	4.95	.18	.25		.07	
Common laborers, unskilled	4.80	.18	.25		.07	
Laborers (sewer and tunnel):						
Top laborer	4.92	.18	.25		.07	
Well point lead man	4.97	.18	.25		.07	
Jackhammer and air tool operators	5.02	.18	.25		.07	
Bottomman	5.22	.18	.25		.07	
Pipelayer	5.22	.18	.25		.07	
Free air tunnel and caisson work:						
Miners or beadermen	6.00	.18	.25		.07	
Muckers and tunnel laborers	5.50	.18	.25		.07	
Bottommen and concretemen	5.40	.18	.25		.07	
Topmen	5.30	.18	.25		.07

Truck mechanics	5.25	a	f			

Welders receive rate prescribed for craft performing operation to which welding is incidental.

Paid holidays: A—New Year's Day; B—Memorial Day; C—Independence Day; D—Labor Day; E—Thanksgiving Day; F—Christmas Day.

Footnotes:
a. $5 per week for each employee.
b. Holidays: A through F.
c. Employer contributes 4 percent of regular hourly rate to vacation pay credit for employee who has worked in business more than 5 years. Employer contributes 2 percent of regular hourly rate to vacation pay credit for employee who has worked in business less than 5 years.
d. 1 week's paid vacation after 1 year's employment; 2 weeks' after 3 years; and 3 weeks' after 20 years.
e. Holidays: A through F plus Washington's Birthday, Good Friday, and Christmas Eve, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regularly scheduled workdays immediately preceding and following the holiday.
f. $6 per week for each employee.

Laborers: Building construction:					
Group A: Building and construction laborers, scaffold builders other than for mason or plasterers, ironworkers' helpers, mechanic helpers, mechanic tenders, window washers and cleaners, roofers' helpers, railroad laborer, masonry wall washers (interior and exterior), cement finisher helper, carpenter helper, all portable water pumps with discharge up to 3 in.	4.95	$0.18	$0.25		.07
Group B: Waterproofing, handling of creosote lumber or like treated material (excluding railroad material), asphalt rakers and lutemen, kettlemen, air tool operators, vibrators, chipping hammer operator, and all other pneumatic tool operators, jackmen and sheeting men working in ditches deeper than 6 ft., laborers working in ditches 6 ft. in depth or deeper, assembly of Unicrete pump, chain saw operators, tile layers (sewer or field), sewer pipelayers (metallic and nonmetallic), motor-driven wheelbarrows and concrete buggies, hyster operators, pumperete assemblers, conveyor assemblers, core drill operators, cement lime or silica clay handlers (bulk or bag), pneumatic spikers, deck, engine and winch operator, water main and cable ducking (metallic and nonmetallic)	5.15	.18	.25		.07
Group C: Plaster tenders, mortar mixers, welders (acetylene or electric), cutting torch or burner, cement nozzle laborers, cement gun operator, scaffold builders when working for plasterer or masons, mason tenders	5.25	.18	.25		.07
Group D: Tunnel work in free air: Muckers or tunnel laborers, bottommen, concrete men (bottom), miners and header men	5.55	.18	.25		.07
Group E: Dynamite men	5.95	.18	.25		.07
Stacks and chimneys: Base to 25 ft., $0.25 per hour over base rate; 25 ft. to 50 ft., $0.50 per hour over base rate; 50 ft. to 75 ft., $0.75 per hour over base rate; 75 ft. to 100 ft., $1 per hour over base rate; 100 ft. to 150 ft., $1.25 per hour over base rate; 150 ft. to 200 ft., $1.50 per hour over base rate; 200 ft. to 250 ft., $1.75 per hour over base rate; 250 ft. and up, $2.00 per hour over base rate.					
Laborers: heavy and highway construction:					
Dynamite and powdermen	5.15	.18	.25		.07
Asphalt lutemen, asphalt raker men, batch truck dumpers, cement handlers (bulk or bag cement), concrete puddlers, hand blade operator, power tools and power equipment side rail setters (for sidewalks, side ditches, radii and pavement), spreader box tenders, tile layers, transverse and longitudinal hand bull float men, wagon drill operator, chain saws, concrete rubbers, concrete saws (manually operated)	4.95	.18	.25		.07

Group I: Auto patrol, backhoe (on farm type tractor over 50 h.p.), ballast regulator (R.R.), bituminous mixer, bituminous paver, bituminous plant engineer, bulldozer, caisson drilling machine (crane mounted), C.M.I. machine autograde, concrete mixer (21 cu. ft. or over), core drilling machine, crane or derrick with any attachments (including clamshell, dragline, shovel, backhoe, etc.) dredge operator, drilling machine (on which the drill is an integral part), elevating grader, Euclid loader, formless paver, Gradall, gravel processing machine, operator of guardrail post driver high-lift shovel 1½ yd. and over), hoist (2 drums and over), keystone (skimmer scoop) locomotive operator, mucking machine, panel board concrete plant (central mix type), paver—Hetherington, piledriver, skid or crawler, road paving mixer, rock crusher, roller—asphalt, waterbound macadam, bituminous macadam, brick surface, roller with dozer blade, self-propelled widener, surface heater and planer, tandem push cat, Tournapull or similar equipment, Tournapull tandem, tractor (boom or winch), tractor (push), tractor with scoop, tractor mounted spreader, trench machine (over 24 in.) tugboat operator, well-drilling machine, winch truck with A-frame	6.60	.25	.20		.04	
Group II: Backfiller, backhoe on farm type tractor with less than 50 h.p., bull float, concrete pump, concrete mesh depressor (independently operated), concrete spreader (power driven), excavating loader (portable), finishing machine and bull float, Gunite machine, head greaser, mechanic, multiple tamping machine (R.R.), P.C.C. concrete belt placer, pull grader—power control, Ross carrier, sheepfoot roller (self-propelled), tamper—multiple vibrating—asphalt, waterbound macadam, bituminous macadam, brick surface, trench machine (24 in. and under), welder	6.25	.25	.20		.04	
Group III: Assistant plant engineer, concrete finishing machine, concrete mixer (less than 21 cu. ft.) curb machine, farm tractor (including farm tractor with all attachments except backhoe, and including high lift end loaders of 1 cu. yd. capacity and less), fireman (on boiler), greaser, hoist (1 drum), Jersey spreader or base paver, operator (3 to 5 pieces of minor equipment), paving breaker, power broom (self-propelled), roller (earth and subbase material), slurry seal machine (R.R.), tamper—multiple vibrating—earth and subbase material, throttle valve, throttle valve and compressor or Clever-Brooks type combination, throttle valve and firemen combination on horizontal or upright boiler, Tractair with drill, tractor (50 h.p. or over), well-point system, widener (Apsco or similar type)	5.90	.25	.20		.04	
Group IV: Air compressor, assistant to engineer, automatic dry batch plant, bituminous distributor, bituminous patching tamper, broom and belt machine, Coleman type screen, conveyor (portable), deck hand, digger—posthole (power driven), Ulrich spreader, form grader, form tamper (motor driven), generator, Hetherington driver, Hetherington helper, mechanic's helper, mechanical heater, operator, 2 pieces of minor equipment, outboard or inboard motorboat, power curing spraying machine, power saw—concrete (power driven), pull broom (power type), Seaman tiller, straw blower, stripping machine, paint (motor driven), subgrader, Tractair, tractor (below 50 h.p.), truck crane oiler-driver, water pump, welding machine	5.25	.25	.20		.04	
Sewer and tunnel construction:						
Power equipment operators:						
Air compressor (1, any size), concrete mixer under 21 cu. ft., conveyor, oilers, greasers, pump (1), welding machine (1)	5.03	.15	.20		.02	
Truck-crane driver	5.13	.15	.20		.02	
Firemen, roller, throttle valve, tractor, well-point system	5.73	.15	.20		.02	
Dinky engine in tunnel	6.23	.15	.20		.02	
Finishing machine, flex plane, form grader	6.05	.15	.20		.02	
Tractor (farm, with attachments)	6.10	.15	.20		.02	
Boatman	6.21	.15	.20		.02	
Tractor (farm with backhoe)	6.28	.15	.20		.02	
Bituminous paver bull float, subgrader	6.30	.15	.20		.02	
Concrete mixer, 21 cu. ft. and over	6.56	.15	.20		.02	
Auto patrol, back filler, boom cat, bulldozer, concrete pump, concrete saw, ditching machine (under 24 in.), hoist, Hydrohammer, mechanic on job, push dozer, scoops, Tournapul and similar equipment, tractor shovel (high lift), tractor with winch, truck with winch, drilling machine	6.66	.15	.20		.02	
Concrete mixer (dual drum), crane with any attachments, derrick, ditching machine (over 24 in.), dredge, orange-peel bucket, piledriver, shovels, mucking machine	6.71	.15	.20		.02	
Helicopter other than transportation	7.43	.15	.20		.02	

Air compressor (2), pumps (2, 3 or 4), welding machine (2, 3 or 4)—*Combination rate.
*Combination rate shall mean $0.25 per hr. extra for each additional machine.

V 37-83 APR 28 72 XUM

Classification	Basic hourly rates	Fringe benefits payments H & W	Pensions	Vacation	App. Tr.	Other
100-Kan.-PEO-2-3-h:						
Site preparation and grading, heavy and highway construction (Johnson and Wyandotte Counties, Kans.):						
Power equipment operators:						
Group I: Asphalt paver and spreader; autograder; backhoe; blade operator, all types; boilers—2; booster pump on dredge; boring machine (truck or crane mounted); bulldozer operator; clamshell operator; compressor maintenance operator—2; concrete plant operator—central mix; concrete mixer paver; crane operator; derrick or derrick trucks; ditching machine; dragline operator; dredge engineman; dredge operator; drillcat with compressor mounted on cat; drilling or boring machine, rotary, self-propelled; high loader—forklift; locomotive operator, standard gauge; mechanics and welders; maintenance operator; mucking machine; pile driver operator; Pitman crane operator; pump—2; Quad-Trac; scoop operator—all types; scoops in tandem; self-propelled rotary drill (Leroy or equal—not Air Trac); shovel operator; side discharge spreader; sideboom cats; skimmer scoop operator; throttle man; truck crane; welding machine maintenance operator—2	8.00	.40	.40	.50	.10	
Group II: A-frame truck; asphalt hot mix silo; asphalt plant fireman, drum or boiler; asphalt plant mixer operator; asphalt plant operator; asphalt roller operators; backfiller operator; chip spreader; concrete batch plant, dry—power operated; concrete mixer operator, skip loader; concrete pump operator; crusher operator; elevating grader operator; greaser; hoisting engine—1 drum; LeTourneau Rooter; multiple compactor; pavement breaker, self-propelled, of the Hydrahammer or similar type; power shield; stump cutting machine; towboat operator; tractor operator—over 50 hp	7.75	.40	.40	.50	.10	
Group III: Boilers—1; chip spreader (frontman); enurn drill operator; compressor maintenance operator—1; concrete saws, self-propelled; conveyor operator; distributor operator; finishing machine operator; fireman, rig; float operator; form grader operator; oiler driver, all types; pump; pump maintenance operator, other than dredge; roller operator, other than type asphalt; screening and washing plant operator	7.50	.40	.40	.50	.10	
Self-propelled street broom or sweeper; siphons and jets; subgrading machine operator; tank car heater operator—combination boiler and booster; tractor—50 h.p. or less, without attachments; vibrating machine operator, not hand; welding machine maintenance operator—1	7.50	.40	.40	.50	.10	
Group IV:						
Mechanic's helper; oiler	7.25	.40	.40	.50	.10	
Clamshells, 3 yd. or over	8.25	.40	.40	.50	.10	
Crane or rigs, 80 ft. of boom or over (including jib)	8.25	.40	.40	.50	.10	
Crane or rigs 200 ft. of boom or over	8.50	.40	.40	.50	.10	
Dragline, 3 yd. or over	8.25	.40	.40	.50	.10	
Hoisting engine—each additional drum over 1 drum	8.00	.40	.40	.50	.10	
Pilediivers, 80 ft. of boom or over (including jib)	8.25	.40	.40	.50	.10	
Shovels, 3 yd. or over	8.25	.40	.40	.50	.10	
Men working in tunnels or shafts (not air shafts or cofferdams) of 25 ft. or more in length or depth will be paid 50 cents per hour above the regular classification.						
Site preparation and grading, heavy and highway construction (Johnson and Wyandotte Counties, Kans):						
Laborers:						
General laborer: General laborer, carpenter tenders, salamander tenders, dumpman and ticket takers on stock piles, flagmen, loading trucks under bins, hoppers and conveyors, trackmen and all other general laborers	6.805	.40	.40	.50	.10	
First semiskill: Air tool operator, cement handler (bulk or sack), chain or concrete saw, deck hands, dumpman on earth fill, grade checkers on cuts and fills, georgia buggies man, material batch hopper man, scaleman, material mixer man (except on manholes, coffer dams, abutments and pierhole men working below ground, riprap pavers, rock, block or brick, signalman, scaffolds over 10 ft. not self-supported from ground up, skipman on concrete paving, vibrator man, wire mesh setters on concrete paving, all work in connection with sewer, water, gas, gasoline, oil, drainage pipe, conduit pipe, tile and duct lines and all other pipelines, power tool operator, all work in connection with hydraulic or general dredging operations, form setter helpers, puddlers (paving only)	6.90	.40	.40	.50	.10	
Second semiskill: Crusher feeder, men handling creosote ties or creosote materials, men working with and handling epoxy material or materials (where special protection is required), head pipelayer on sewer work, topper of standing trees, batterboard man on pipe and ditch work, feederman on wood pulverizers, board and willow mat weavers and cable tiers on river work, all laborers working on underground tunnels where compressed air is not used	7.00	.40	.40	.50	.10	
Third semiskill: Spreader or screedman on asphalt machine, asphalt raker, laser beam man, Barco tamper, Jackson or any other similar tamp, wagon driller, churn drills, air track drills and all other similar drills, cutting torch man, form setters, liners and stringline men on concrete paving, curb, gutters etc., hot mastic kettleman, hot tar applicator, hand blade operators, manhole builders helpers and mortarmen on brick or block manholes, sandblasting and Gunnite nozzlemen, rubbing concrete, air tool operator in tunnels	7.125	.40	.40	.50	.10	
Fourth semiskill: Manhole builder (brick or block), dynamite and powdermen, welder, leadman or working foreman, tunnel leadman or working foreman	7.225	.40	.40	.50	.10	
100-Kansas-TD-2-3-d:						
Site preparation and grading, heavy and highway construction (Johnson and Wyandotte Counties, Kans.):						
Truck drivers:						
1 team; station wagons; pickup trucks; material trucks, single axle; tank wagon drivers, single axle	7.39	.25	.50	.50		
Material trucks, tandem; 2 teams; semitrailers; which truck—fork trucks; distributor drivers and operators; agitator and transit mix; tank wagon drivers, tandem or semitrailer; Insley wagons; dump trucks excavation 5 cu. yd. and over; dumpsters; half-tracks; Speedace; Euclids and other similar excavating equipment	7.59	.25	.50	.50		
A-frame; lowboy; Boom truckdrivers	7.90	.25	.50	.50		
Mechanics and welders	8.05	.25	.50	.50		
Mechanics' helpers, oilers and greasers	7.165	.25	.50	.50		
Kansas-Line Construction No. 2:						
Line Construction (Johnson and Wyandotte Counties, Kans):						
Lineman	7.10	.10	1%+.15		1%	
Lineman operator	6.70	.10	1%+.15		1%	
Lineman mechanic	5.60	.10	1%+.15		1%

CODE OF FEDERAL REGULATIONS

Title 3—The President, 1971 Compilation $1.25

[A Cumulative checklist of CFR issuances for 1972 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents,
United States Government Printing Office,
Washington, D.C. 20402

FEDERAL REGISTER
Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

RECLAMATION OF PUBLIC LANDS—Interior Dept. proposal to provide a fund for the reclamation of mined areas; comments by 5–30–72 8676

INCOME TAX—Proposed IRS regulations concerning recoveries of damages for antitrust violations; comments by 5–29–72 8674

Contents

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

[Docket No. 72-516]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2 paragraph (e) (4) relating to the State of South Carolina is amended to read:

(e) • • •

(4) *South Carolina.* (i) That portion of Florence County bounded by a line beginning at the junction of State Highway 57 and State Highway 66; thence, following State Highway 57 in a southeasterly direction to State Highway 41, 51; thence, following State Highway 41, 51 in a southerly direction to the Lynches River; thence, following the north bank of the Lynches River in a generally northwesterly direction to State Highway 49; thence, following State Highway 49 in a northwesterly direction to State Highway 66; thence, following State Highway 66 in a northerly, then northeasterly direction to its junction with State Highway 57.

(ii) That portion of Kershaw County bounded by a line beginning at the junction of the Twenty-Five Miles Creek and the Wateree River; thence, following the west bank of the Wateree River in a generally southeasterly direction to Interstate Highway 20; thence, following Interstate Highway 20 in a southwesterly direction to the dirt road extension of Secondary Road 756; thence, following the dirt road extension in a northwesterly direction to Secondary Road 757; thence, following Secondary Road 757 in a northwesterly direction to Secondary Road 21; thence, following Secondary Road 21 in a northwesterly direction to the Twenty-Five Miles Creek; thence, following the south bank of the Twenty-Five Miles Creek in a generally northeasterly direction to its junction with the Wateree River.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended; 37 F.R. 6327, 6505)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment quarantines a portion of Kershaw County in South Carolina because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined area.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rule making proceeding would make additional relevant information available to this Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 26th day of April 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.72-6600 Filed 4-28-72;8:49 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72-EA-15]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On page 5395 of the FEDERAL REGISTER for March 15, 1972, the Federal Aviation Administration published proposed regulations which would alter the Batavia, N.Y., transition area (37 F.R. 2154).

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t. June 22, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on April 19, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Batavia, N.Y., 700-foot floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of the center 43°01'45" N., 78°10'15" W., of Genesee County Airport, Batavia, N.Y., and within 2.5 miles each side of the Rochester, N.Y., VORTAC 257° radial, extending from the 5.5-mile-radius area to 19.5 miles west of the VORTAC.

[FR Doc.72-6553 Filed 4-28-72;8:46 am]

[Airspace Docket No. 72-NW-03]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On March 17, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 5640) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Burley, Idaho, transition area.

Interested persons were given 30 days in which to submit written comments. No objections were received.

In consideration of the foregoing, the proposed regulation is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., June 22, 1972.

(Sec. 307(a), Federal Aviation Act of 1958 as amended, 49 U.S.C. 1348(a); sec. 6(c) Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Wash., on April 20, 1972.

C. B. WALK, Jr.,
Director, Northwest Region.

In § 71.181 (37 F.R. 2143) the description of the Burley, Idaho, transition area is amended as follows:

At the beginning of the text delete all before "• • • and that airspace extending upward from 1,200 feet • • •" and substitute therefor:

That airspace extending upward from 700 feet above the surface within 5.5 miles each side of the Burley VORTAC 121° radial, extending from the VORTAC to 27 miles southeast of the VORTAC; within 5.5 miles each side of the Burley VORTAC 292° radial extending from the VORTAC to 17 miles west of the VORTAC; within 4.5 miles each side of the Burley VORTAC 323° radial extending from the VORTAC 11 miles northwest of the VORTAC; • • •

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the transition area at Faribault, Minn.

The airways in the area of Faribault and Owatonna, Minn., have been redesignated and the numbering changed. This requires the change of the Faribault-Owatonna transition area description. This change is editorial only and does not increase or decrease the transition area, therefore notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective immediately, as hereinafter set forth:

In § 71.181 (37 F.R. 2143), under the Faribault-Owatonna transition area description, delete "V-170" and insert in place "V-219".

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on April 6, 1972.

H. W. POGGEMEYER,
Acting Director, Great Lakes Region.

[FR Doc.72-6552 Filed 4-28-72;8:46 am]

[Airspace Docket No. 72-EA-25]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On page 5395 of the FEDERAL REGISTER for March 15, 1972, the Federal Aviation Administration published a proposed rule which would designate a Reedsville, Pa., transition area.

Interested parties were given 30 days after publication in which to submit written data or views. No objections to the proposed regulations have been received.

In view of the foregoing, the proposed regulation is hereby adopted, effective 0901 G.m.t. June 22, 1972.

(Sec. 307(a), Federal Aviation Act of 1958, 72 Stat. 749; 49 U.S.C. 1348; sec. 6(c), of Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Jamaica, N.Y., on April 19, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Reedsville, Pa., 700-foot floor transition area as follows:

REEDSVILLE, PA.

That airspace extending upward from 700 feet above the surface within a 14.5-mile radius of the center 40°40'44" N., 77°37'22" W. of Mifflin County Airport, Reedsville, Pa., and within 3.5 miles each side of the 228° bearing from a point 40°36'55" N., 77°43'09" W. extending from said point to a point 11.5 miles southwest.

[Airspace Docket No. 70-WA-43B]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Designation of Area High Route and Change of Waypoint Name

On February 3, 1971, a notice of proposed rule making was published in the FEDERAL REGISTER (36 F.R. 1912) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 75 of the Federal Aviation Regulations that would designate 10 area high routes in the western United States as part of the overall program to establish an area navigation route structure.

J857R has been successfully flight inspected and is being designated in this rule. Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In J852R and J855R the Ceres, Calif., waypoint is located at the Modesto, Calif., VOR. To prevent the use of two names for the same location, the Ceres, Calif., waypoint is changed to Modesto, Calif., in this rule.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., June 22, 1972, as hereinafter set forth.

Section 75.400 (37 F.R. 2400 and 5489) is amended as follows:

a. In J852R and J855R "Ceres, Calif., 37°37'39" N./120°57'25" W. Fresno, Calif.", is deleted and "Modesto, Calif., 37°37'39" N./120°57'25" W. Fresno, Calif.", is substituted therefor.

b. J857R is added to read:

Waypoint name	N. Lat./W. Long.	Reference facility
*J857R DENVER, COLO., TO SALT LAKE CITY, UTAH		
Kremmling, Colo.	40°00'10"/106°26'31"	Meeker, Colo.
Ioka, Utah	40°12'52"/110°07'16"	Myton, Utah.
Fairfield, Utah	40°16'30"/111°58'23"	Delta, Utah.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 25, 1972.

ROBERT G. CARNAHAN,
Acting Chief, Airspace and Air Traffic Rules Division.

Title 17—COMMODITY AND SECURITIES EXCHANGES

Chapter II—Securities and Exchange Commission

[Release No. 34-9588]

PART 240—GENERAL RULES AND REGULATIONS, SECURITIES EXCHANGE ACT OF 1934

PART 249—FORMS, SECURITIES EXCHANGE ACT OF 1934

Annual Fees for Nonmember Broker-Dealers for Fiscal Year 1972

On April 14, 1972, in Securities Exchange Act Release No. 9571, which was published in the FEDERAL REGISTER for April 15, 1972, at 37 F.R. 7533, the Securities and Exchange Commission announced a proposal to amend Rule 15b9-2 under the Securities Exchange Act of 1934 (the Act) (17 CFR 240.15b9-2) and to adopt Form SECO-4-72 (17 CFR 249.504f), to set annual assessments for the fiscal year 1972 payable by registered broker-dealers who are not members of the National Association of Securities Dealers, Inc. (nonmember broker-dealer). Interested persons were invited to submit their comments by April 25, 1972. The Commission has considered the comments which were received. Accordingly, the Commission has adopted the amendment and the form as proposed.

Sections 15(b)(8) and 15(b)(9) under the Act authorize the Commission to collect such reasonable fees and charges as may be necessary to defray the costs of additional regulatory duties required to be performed with respect to nonmember broker-dealers. Pursuant to these sections the Commission has adopted Rule 15b9-1 (17 CFR 240.15b9-1) (32 F.R. 7849, May 30, 1967) to establish initial fees and Rule 15b9-2 (33 F.R. 7075, May 11, 1968) to provide for annual assessments. The rules prescribe the fee structure and the actual fees are set in the applicable forms required to be filed.[1]

ANNUAL FEES—RULE 15b9-2

In general, Rules 15b9-2 provides for an annual assessment payable by nonmember brokers or dealers which is comprised of: (1) A base fee applicable to all such brokers or dealers; (2) a fee for each associated person engaged, directly or indirectly in securities activities for or on behalf of the broker or dealer; and (3) a fee for each office of the broker or dealer which was maintained prior to May 15 during the fiscal year, at any time in which the firm was a nonmember. The present amendment deletes the third category of fees. As amended, paragraph (b) of Rule 15b9-2 reads as follows:

(b) *Fees.* On or before June 1 of each year every broker or dealer to whom this rule applies shall file the Form SECO-4 provided for the particular fiscal year and pay the total fees prescribed by the form. Such fees shall include: (1) A base fee applicable to all brokers or dealers, and (2) a fee for each associated person engaged, directly or indirectly, in securities activities for or on behalf of the broker or dealer prior to May 15 during the fiscal year, at any time in which the broker or dealer was a nonmember broker or dealer: *Provided, however,* That the fee shall not be paid for any person who confines his securities activities to areas outside the United States, its territories and possessions, and who does not deal with or act for any U.S. resident or national wherever located.

. . . . . .

I. Section 240.15b9-2 is amended by deleting therefrom subparagraph (3) of paragraph (b), and as so amended, it reads as follows:

§ 240.15b9-2 Annual fees for registered brokers and dealers not members of a registered national securities association.

. . . . . .

(b) *Fees.* On or before June 1 of each year every broker or dealer to whom this section applies shall file Form SECO-4 (§ 249.504 of this chapter et seq.) provided for the particular fiscal year and pay the total fees prescribed by the form. Such fees shall include: (1) A base fee applicable to all such brokers or dealers, and (2) a fee for each associated person engaged, directly or indirectly, in securities activities for or on behalf of the broker or dealer prior to May 15 during the fiscal year, at any time in which the broker or dealer was a nonmember broker or dealer: *Provided, however,* That the fee shall not be paid for any person who confines his securities activities to areas outside the United States, its territories and possessions, and who does not deal with or act for any U.S. resident or national wherever located.

. . . . . .

II. A new § 249.504f is adopted to read as follows:

§ 249.504f Form SECO-4-72; 1972 assessment and information form for registered brokers and dealers not members of a registered national securities association.

This form shall be filed on or before June 1, 1972, pursuant to § 240.15b9-2 of this chapter, accompanied by the annual assessment fee required thereunder and as specified in this form, for the fiscal year ended June 30, 1972, by every registered broker and dealer not a member of a reigstered national securities association.

The Commission hereby declares that the foregoing amendments shall be effective on June 1, 1972. Copies of the Form SECO-4-72 as adopted have been filed with the Office of the Federal Register, and additional copies are available on request from the Securities and Exchange Commission, Washington, D.C. 20549.

(Secs. 15(b), 23(a), 48 Stat. 895, 901, as amended, sec. 8, 49 Stat. 1379, sec. 6, 78 Stat. 565, 15 U.S.C. 78o(b), 78w(a))

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

APRIL 27, 1972.

[FR Doc.72-6657 Filed 4-28-72;8:50 am]

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter II—Office of Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner [Federal Housing Administration], Department of Housing and Urban Development

[Docket No. R-72-181]

ELIMINATION OF ADJUSTED PREMIUM CHARGE AND TERMINATION CHARGE

Under present Federal Housing Administration regulations, when the principal obligation of any mortgage accepted for insurance is paid in full before the due date of the 120th scheduled monthly payment, the mortgagee must, with some exceptions, pay to the Commissioner an adjusted premium of 1 percent (2 percent for multifamily mortgages) for loans prepaid in full within 5 years from the date of initial insurance endorsement) of the original principal amount of the prepaid mortgage or loan. Similarly, in the event the Commissioner receives a request for voluntary termination of the insurance contract before the due date of the 120th scheduled monthly payment, the mortgagee, must, with some exceptions, pay to the Commissioner a termination charge equal to 1 percent (2 percent for multifamily mortgages or loans voluntarily terminated within 5 years from the date of initial insurance endorsement) of the original principal amount of the mortgage or loan. The Commissioner has decided to amend the regulations to eliminate both the adjusted premium charge and the termination charge for all mortgage or loan insurance contracts terminated by either prepayment or voluntary termination on or after the effective date of these regulations. The requirement that the Mortgage Insurance Certificate or mortgage note for home mortgages or loans be submitted to FHA for cancellation of the insurance endorsement is also being eliminated in accordance with the instructions contained in Commissioner Letter No. 65-8 dated August 4, 1965. Since the elimination of these charges and the requirement for submission of the Mortgage Insurance Certificate or mortgage note for cancellation does not adversely affect the right of any party to the mortgage insurance transaction, it is found upon good cause that notice and public comment with respect to the amendments are unnecessary under the provisions of 5 U.S.C. 553(b).

Accordingly, Chapter II of 24 CFR is amended as follows:

A. The tables of contents contained in Chapter II are amended as follows:

1. The table of contents of Part 203 is amended by inserting the following at the appropriate places:

Sec.
203.22 Payment of insurance premiums or charges; prepayment privilege.
203.285 Computation of adjusted premium [Revoked]
203.286 Maximum adjusted MIP [Revoked]
203.287 Prepayments excepted from adjusted premium charge [Revoked]
203.288 Discontinuance of adjusted premium charge.
203.296 Computation of voluntary termination charge [Revoked]
203.297 Maximum voluntary termination charge [Revoked]
203.298 Exception from voluntary termination charge [Revoked]

2. The table of contents of Part 207 is amended by inserting the following at the appropriate place:

Sec.
207.253 Termination by prepayment and voluntary termination.

3. The table of contents of Part 210 is amended by inserting the following at the appropriate places:

Sec.
210.253 Adjusted premium and termination charge rate [Revoked]
210.260 Adjusted premium and termination charge not due [Revoked]

4. The table of contents of Part 213 is amended by inserting the following at the appropriate places:

Sec.
213.261 Termination of mortgage insurance—prepayment in full and voluntary termination—investor project [Revoked]
213.262 Termination of mortgage insurance—prepayment in full, management, purchasing cooperative, sales and existing construction project mortgages [Revoked]
213.263 Termination of mortgage insurance—voluntary termination—management, purchasing cooperative, sales and existing construction project mortgages [Revoked]
213.264 Termination of insurance—prepayment in full and voluntary termination—supplementary loans [Revoked]
213.265 Modifications and consolidations.
213.513 Payment of insurance premiums or charges; prepayment privilege.

5. The table of contents of Part 221 is amended by inserting the following at the appropriate places:

Sec.
221.254 Mortgage insurance premiums.
221.760 Adjusted premium and termination charges [Revoked]

6. The table of contents of Part 222 is amended by inserting the following at the appropriate place:

Sec.
222.254 Prepayment premiums [Revoked]

7. The table of contents of Part 224 is amended by inserting the following at the appropriate place:

Sec.
224.260 Adjusted premium and termination charges [Revoked]

8. The table of contents of Part 225 is amended by inserting the following at the appropriate place:

Sec.
225.260 Adjusted premium and termination charges [Revoked]

9. The table of contents of Part 227 is amended by inserting the following at the appropriate place:

Sec.
227.253 Adjusted premium and termination charges [Revoked]

10. The table of contents of Part 234 is amended by inserting the following at the appropriate place:

Sec.
234.37 Payment of insurance premiums or charges; prepayment privilege.

11. The table of contents of Part 235 is amended by inserting the following at the appropriate place:

Sec.
235.720 Adjusted premium charge [Revoked]

12. The table of contents of Part 236 is amended by inserting the following at the appropriate place:

Sec.
236.270 Adjusted premium charge [Revoked]

13. The table of contents of Part 241 is amended by inserting the following at the appropriate place:

Sec.
241.265 Termination of insurance [Revoked]

B. The text of Chapter II is amended as follows:

PART 203—MUTUAL MORTGAGE INSURANCE AND INSURED HOME IMPROVEMENT LOANS

§ 203.22 [Amended]

1. Section 203.22 is amended as follows:

a. The heading of § 203.22 is revised to read as follows: Payment of insurance premiums or charges; prepayment privilege.

b. Section 203.22(a) is amended by adding the following subheading:

"Payment of insurance premiums or charges."

c. Section 203.22(b) is revised to read as follows: (b) *Prepayment privilege.* The mortgage shall contain a provision permitting the mortgagor to prepay the mortgage in whole or in part upon any interest payment date after giving to the mortgagee 30 days advance notice in writing of intention to prepay, but shall not provide for the payment of any charge on account of such prepayment.

§ 203.251 [Amended]

2. Section 203.251 (l) and (m) are revoked.

3. The introductory paragraph of § 203.269 is revised to read as follows:

§ 203.269 Pro rata payment of initial MIP.

If termination of the contract of insurance occurs before the due date of the initial MIP, the mortgagee shall pay to the Commissioner the portion of the initial premium due to the first of the month following the effective termination date, which shall be computed from:

. . . . . .

4. Section 203.278(a) is revised to read as follows:

§ 203.278 Pro rata payment of annual MIP.

(a) *In general.* If the insurance contract is terminated after the due date of the initial MIP, the mortgagee shall pay to the Commissioner that portion of the current annual MIP prorated from the due date of the last annual MIP through the end of the month in which the contract of insurance is terminated. The pro rata payment of MIP shall be remitted to the Commissioner with the notice of prepayment or request for voluntary termination.

. . . . . .

§§ 203.285, 203.286 and 203.287 [Revoked]

5. Sections 203.285, 203.286, and 203.287 are revoked.

[1] The initial fees now in effect and which remain unchanged are as follows: $150 fee required to accompany Form SECO-5 which is filed on behalf of the broker-dealer; $35 fee required by Form SECO-2 which is filed for each associated person of the broker-dealer.

Mortgagor is borrower

V 37-84 APR 29 72 XUM

6. Part 203 is amended by adding a new § 203.288 to read as follows:

§ 203.288 Discontinuance of adjusted premium charge.

Notwithstanding any provision in the mortgage instrument, there shall be no adjusted mortgage insurance premium due the Commissioner on account of the prepayment of any mortgage on or after May 1, 1972.

7. Section 203.295 is amended as follows:

a. The centered heading preceding § 203.295 is revised to read as follows: Voluntary Termination.

b. Section 203.295 is revised to read as follows:

§ 203.295 Voluntary termination.

Upon request by the mortgagor and mortgagee the Commissioner may terminate the insurance contract on any mortgage under this part covering a 1-to-4 family residence. The mortgagee shall cancel the insurance endorsement on the mortgage insurance certificate or note upon receipt of notice from the Commissioner that the contract of insurance is terminated. Notwithstanding any provision in a mortgage instrument, there shall be no voluntary termination charge due the Commissioner on account of the voluntary termination of any mortgage insurance contract where the request for termination is received by the Commissioner on or after May 1, 1972.

§§ 203.296, 203.297, and 203.298 [Revoked]

8. Sections 203.296, 203.297, and 203.298 are revoked.

9. Section 203.309 is revised to read as follows:

§ 203.209 Pro rata payment of open-end charge.

Upon termination of the insurance contract, the mortgagee shall pay to the Commissioner (in addition to any pro rata MIP) a portion of the current open-end insurance charge prorated from the beginning of the open-end insurance charge period to the end of the month in which termination occurred.

10. Section 203.319 is revised to read as follows:

§ 203.319 Pro rata payment of premiums and charges.

No contract of insurance shall be terminated until the mortgagee has paid to the Commissioner the pro rata portion of the current annual MIP or open-end insurance charge as set forth in this subpart.

11. Section 203.457 is revised to read as follows:

§ 203.457 Voluntary termination of contract.

Upon request by the borrower and lender the Commissioner may terminate the insurance contract on the loan. The lender shall cancel the insurance endorsement on the insurance certificate or note upon receipt of notice from the Commissioner that the contract of insurance is terminated.

PART 205—MORTGAGE INSURANCE FOR LAND DEVELOPMENT (TITLE X)

12. Section 205.251(a) is revised to read as follows:

§ 205.251 Incorporation by reference.

(a) All of the provisions of §§ 207.251 et seq. (Part 207, Subpart B) of this chapter, covering mortgages insured under section 207 of the National Housing Act, apply to mortgages on a land development insured under title X of the National Housing Act, except the following provisions:

Sec.
207.251 Definitions.
207.252 First, second, and third premiums.
207.253 Termination by prepayment and voluntary termination.

* * * * *

PART 207—MULTIFAMILY HOUSING MORTGAGE INSURANCE

13. Section 207.253 is revised to read as follows:

§ 207.253 Termination by prepayment and voluntary termination.

All rights under the insurance contract and all obligations to pay future insurance premiums shall terminate on the following conditions:

(a) *Termination by prepayment.* Notice of the prepayment in full of the mortgage or loan shall be given to the Commissioner, on a form prescribed by the Commissioner, within 30 days from the date of prepayment. The insurance contract shall terminate, effective as of the date of prepayment. No adjusted premium charge shall be due the Commissioner on account of such termination by prepayment.

(b) *Termination by voluntary agreement.* Receipt by the Commissioner of a written request, by the mortgagor and mortgagee or lender for termination of the insurance on the mortgage or loan, on a form prescribed by the Commissioner, accompanied by the original credit instrument for cancellation of the insurance endorsement and the remittance of all sums to which the Commissioner is entitled. The termination shall become effective as of the date these requirements are met. No voluntary termination charge shall be due the Commissioner on account of such termination by voluntary agreement.

(c) Upon termination of the mortgage or loan insurance contract by a payment in full or by a voluntary termination, the Commissioner shall refund to the mortgagee or lender for the account of the mortgagor or borrower an amount equal to the pro rata portion of the current annual mortgage insurance premium theretofore paid, which is applicable to the portion of the year subsequent to (1) the date of the prepayment or (2) the effective date of the voluntary termination of the contract of insurance.

(d) Notwithstanding any provision in the mortgage instrument, this section shall apply to all mortgage or loan insurance contracts terminated by either prepayment or voluntary termination where (1) the mortgage is prepaid in full or (2) the Commissioner receives a request for voluntary termination, on or after May 1, 1972.

14. Section 207.253a(a) is revised to read as follows:

§ 207.253a Termination of insurance contract.

(a) *Reason for termination.* The happening of any of the following events shall constitute an additional reason for terminating the contract of insurance in cases where the mortgagee has elected to convey the property to the Commissioner:

* * * * *

PART 210—MULTIFAMILY PROJECTS, WAR HOUSING MORTGAGE INSURANCE (SEC. 608)

15. Section 210.251(a) is revised to read as follows:

§ 210.251 Incorporation by reference.

(a) All of the provisions of Subpart B, Part 207 of this chapter covering mortgages insured under section 207 of the National Housing Act apply to war housing multifamily project mortgages insured under section 608 of the National Housing Act except the following provisions:

Sec.
207.259 Insurance benefits.
207.264 Effective date.

* * * * *

§§ 210.253 and 210.260 [Revoked]

16. Sections 210.253 and 210.260 are revoked.

PART 213—COOPERATIVE HOUSING MORTGAGE INSURANCE

17. Section 213.251(a) is revised to read as follows:

§ 213.251 Incorporation by reference.

(a) All of the provisions of Subpart B, Part 207 of this chapter covering mortgages insured under section 207 of the National Housing Act, apply with full force and effect to mortgages insured under section 213 of the National Housing Act, except the following provisions:

Sec.
207.251 Definitions.
207.252 First, second, and third premiums.
207.254 Form of endorsement.

* * * * *

§§ 213.261, 213.262, 213.263, and 213.264 [Revoked]

18. Sections 213.261, 213.262, 213.263, and 213.264 are revoked.

19. Section 213.265 is revised to read as follows:

§ 213.265 Modifications and consolidations.

Where a mortgage covering an investor sponsored project is modified and consolidated with the mortgage of a purchasing nonprofit cooperative housing corporation or trust, it shall be deemed to be paid in full as of the date of such modification and consolidation.

20. Section 213.513 is revised to read as follows:

§ 213.513 Payment of insurance premiums or charges; prepayment privilege.

(a) *Payment of insurance premiums or charges.* The mortgage may provide for monthly payments by the mortgagor to the mortgagee of an amount equal to one-twelfth (1/12) of the annual mortgage insurance premium payable by the mortgagee to the Commissioner. If the mortgage contains a provision permitting the holder to make future "open-end" advances or is amended or modified to include such a provision, the mortgage may provide for a monthly payment by the mortgagor of an amount equal to one-twelfth (1/12) of the annual charge, payable by the mortgagee to the Commissioner for insurance of such advances. Such payments shall continue only so long as the contract of insurance shall remain in effect.

(b) *Prepayment privilege.* The mortgage shall contain a provision permitting the mortgagor to prepay the mortgage in whole or in part upon any interest payment date after giving to the mortgagee 30 days advance notice in writing of intention to prepay, but shall not provide for the payment of any charge on account of such prepayment.

PART 221—LOW COST AND MODERATE INCOME MORTGAGE INSURANCE

21. Section 221.251(a) is revised to read as follows:

§ 221.251 Incorporation by reference.

(a) All of the provisions of Subpart B, Part 203 of this chapter covering mortgages insured under section 203 of the National Housing Act apply to mortgages covering one- to four-family dwellings insured under section 221 of the National Housing Act, except the following provisions:

Sec.
203.260 Method of payment of MIP.
203.261 Calculation of MIP.
203.265 Amount of initial MIP.
203.266 Due date of initial MIP.
203.267 Period covered by initial MIP.
203.268 Adjustment of initial MIP.
203.269 Pro rata payment of initial MIP.
203.275 Amount of annual MIP.
203.276 Due date of annual MIP.
203.277 Duration of annual MIP.
203.278 Pro rata payment of annual MIP.
203.295 Voluntary termination of insurance.
203.389 Waived title objections.
203.400 Method of payment.
203.420 Nature of Mutual Mortgage Insurance Fund.
203.421 Allocation of Mutual Mortgage Insurance Fund income or loss.
203.422 Right and liability under Mutual Mortgage Insurance Fund.
203.423 Distribution of distributive shares.
203.424 Maximum amount of distributive shares.
203.425 Finality of determination.

* * * * *

22. Section 221.254 is amended as follows:

a. The heading of § 221.254 is revised to read as follows: Mortgage insurance premiums.

b. Section 221.254 is amended by revising paragraphs (a), (b), and by revoking paragraph (b)(4) as follows:

§ 221.254 Mortgage insurance premiums.

(a) All of the provisions of §§ 203.260 through 203.295 of this chapter relating to mortgage insurance premiums shall apply to mortgages insured under this subpart, except that as to mortgages meeting the special requirements of § 221.60 or § 221.65, such provisions shall only be applicable under the circumstances prescribed in paragraph (b) of this section. Notwithstanding any provision in the mortgage instrument, there shall be no adjusted mortgage insurance premium or voluntary termination charge due the Commissioner on account of the prepayment of any mortgage or the voluntary termination of any mortgage insurance contract where (1) the mortgage is prepaid in full, or (2) the Commissioner receives a request for voluntary termination on or after May 1, 1972.

(b) Whenever the interest rate on a mortgage insured under this part as having met the special requirement of § 221.60 or § 221.65 shall have been increased to the maximum rate in accordance with § 221.60(j), § 221.65(d)(4), or § 221.65(d)(5), the provisions of §§ 203.260 through 203.295 of this chapter relating to mortgage insurance premiums shall apply except that:

* * * * *

(4) [Revoked]

23. Section 221.256(c) is revised to read as follows:

§ 221.256 Interest rate increase and payment of mortgage insurance premiums on mortgages under §§ 221.60 and 221.65.

* * * * *

(c) The liability for payment of mortgage insurance premiums shall begin on and be computed from the first day of the month following the date on which the right to compute interest at the higher rate shall have first accrued.

24. Section 221.751(a) is revised to read as follows:

§ 221.751 Incorporation by reference.

(a) All of the provisions of Subpart B, Part 207 of this chapter, covering mortgages insured under section 207 of the National Housing Act, apply with full force and effect to multifamily project mortgages insured under section 221 of the National Housing Act, except the following provisions:

Sec.
207.252 First, second, and third premium.
207.259 Insurance benefits.

* * * * *

§ 221.760 [Revoked]

25. Section 221.760 is revoked.

PART 222—SERVICEMEN'S MORTGAGE INSURANCE

§ 222.254 [Revoked]

26. Section 222.254 is revoked.

PART 224—ARMED SERVICES HOUSING—MILITARY PERSONNEL (SEC. 803)

27. Section 224.251 is revised to read as follows:

§ 224.251 Incorporation by reference.

(a) All of the provisions of Subpart B, Part 207 of this chapter covering mortgages insured under section 207 of the National Housing Act apply to armed services housing mortgages for military personnel insured under section 803 of the National Housing Act except the following provisions:

Sec.
207.252 First, second, and third premiums.
207.259 Insurance benefits.
207.264 Effective date.

* * * * *

§ 224.260 [Revoked]

28. Section 224.260 is revoked.

PART 225—MILITARY HOUSING INSURANCE (SEC. 803)

29. Section 225.251(a) is revised to read as follows:

§ 225.251 Incorporation by reference.

(a) All of the provisions of Subpart B of Part 207 of this chapter covering mortgages insured under section 207 of the National Housing Act, apply to mortgages insured pursuant to section 803 of the National Housing Act as in effect prior to August 11, 1955, except the following provisions:

Sec.
207.252 First, second, and third premiums.
207.259 Insurance benefits.

* * * * *

§ 225.260 [Revoked]

30. Section 225.260 is revoked.

PART 227—ARMED SERVICES HOUSING—IMPACTED AREAS (SEC. 810)

31. Section 227.251(a) is revised to read as follows:

§ 227.251 Incorporation by reference—Multifamily, Sales or Rental Projects.

(a) All of the provisions of Subpart B, Part 207 of this chapter covering mortgages insured under section 207 of the National Housing Act apply to Multifamily, Sales, or Rental Project mortgages insured under section 810 of the National Housing Act.

* * * * *

§ 227.253 [Revoked]

32. Section 227.253 is revoked.

V 37-84 APR 29 72 XUM

PART 234—CONDOMINIUM OWNERSHIP MORTGAGE INSURANCE

§ 234.37 [Amended]

33. Section 234.37 is amended to read as follows:

a. The heading of § 234.37 is revised to read as follows: Payment of insurance premiums or charges; prepayment privilege.

b. Section 234.37(a) is amended by adding the following subheading: *Payment of insurance premiums or charges.*

c. Section 234.37(b) is revised to read as follows: (b) *Prepayment privilege.* The mortgage shall contain a provision permitting the mortgagor to prepay the mortgage in whole or in part upon any interest payment date after giving to the mortgagee 30 days advance notice in writing of intention to prepay, but shall not provide for the payment of any charge on account of such prepayment.

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENT FOR HOME OWNERSHIP AND PROJECT REHABILITATION

34. Section 235.701 is revised to read as follows:

§ 235.701 Incorporation by reference.

(a) All of the provisions of Subpart B, Part 207 of this chapter, covering mortgages insured under section 207 of the National Housing Act, apply with full force and effect to mortgages insured under section 235(j) of the National Housing Act except the following provisions:

Sec.
207.259 Insurance benefits.
207.262 No vested right in fund.

. . . . .

§ 235.720 [Revoked]

35. Section 235.720 is revoked.

PART 236—MORTGAGE INSURANCE AND INTEREST REDUCTION PAYMENTS FOR RENTAL PROJECTS

36. Section 236.251 is revised to read as follows:

§ 236.251 Incorporation by reference.

All of the provisions of Subpart B, Part 207 of this chapter covering mortgages insured under section 207 of the National Housing Act, apply with full force and effect to mortgages insured under section 236 of the National Housing Act except the following provisions:

Sec.
207.252 First, second, and third premiums.
207.259 Insurance benefits.
207.262 No vested right in fund.

. . . . .

§ 236.270 [Revoked]

37. Section 236.270 is revoked.

PART 241—SUPPLEMENTARY FINANCING FOR INSURED PROJECT MORTGAGES

38. Section 241.251(a) is revised to read as follows:

§ 241.251 Incorporation by reference.

(a) All of the provisions of Subpart B, Part 207 of this chapter, covering mortgages insured under section 207 of the National Housing Act, apply with full force and effect to multifamily project and group practice facility mortgages insured under section 241 of the National Housing Act, except the following provisions:

Sec.
207.251 Definitions.
207.253a Termination of insurance contract.
207.260 Protection of mortgage security.
207.262 No vested right in fund.

. . . . .

§ 241.265 [Revoked]

39. Section 241.265 is revoked.

Effective date. These regulations shall be effective as of May 1, 1972.

Title 29—LABOR

Chapter XVII—Occupational Safety and Health Administration, Department of Labor

PART 1911—RULES OF PROCEDURES FOR PROMULGATING, MODIFYING, OR REVOKING OCCUPATIONAL SAFETY OR HEALTH STANDARDS

Emergency Standards Informal Rule Making Procedures

Part 1911 of Title 29, Code of Federal Regulations (36 F.R. 17506, September 1, 1971), is hereby amended in the manner indicated below. The amendments provide for situations in which a proceeding is commenced under section 6(b) of the Act after the issuance of an emergency standard, and improve and clarify the informal rule making procedures prescribed in the part by providing for the possible issuance of minor rules or amendments without notice and public participation where the procedural safeguards for such issuance specified in the Administrative Procedure Act (5 U.S.C. 533(b)) are provided and by making other changes indicating more clearly the informal nature of the proceedings.

The amendments shall be effective upon publication in the FEDERAL REGISTER (4-29-72).

Part 1911 is amended as follows:

1. A new § 1911.5 is added and reads as follows:

§ 1911.5 Minor changes in standards.

Section 6(b), when construed in light of the rule making provisions of the Administrative Procedure Act (5 U.S.C. 553), is read as permitting the making of minor rules or amendments in which the public is not particularly interested without the notice and public procedure which is otherwise required. Whenever such a minor rule or amendment is adopted, it shall incorporate a finding of good cause to this effect for not providing notice and public procedure.

2. A new § 1911.12 is added and reads as follows:

§ 1911.12 Emergency standards.

(a) Whenever an emergency standard is published pursuant to section 6(c) of the Act, the Assistant Secretary must commence a proceeding under section 6(b) of the Act, and the standard as published must serve as a proposed rule. Any notice of proposed rulemaking shall also give notice of any appropriate subsidiary proposals.

(b) If the Assistant Secretary wishes to consult an advisory committee on any of the proposals as permitted by section 7(b) of the Act, he shall afford interested persons an opportunity to inspect and copy any recommendations of the advisory committee within a reasonable time before the commencement of any informal hearing which may be held under this part, or before the termination of the period for the submission of written comments whenever an informal hearing is not initially noticed under § 1910.11(b)(4) of this chapter.

(c) Section 6(c) requires that any standard must be promulgated following the rule making proceeding within 6 months after the publication of the emergency standard. Because of the shortness of this period, the conduct of the proceeding shall be expedited to the extent practicable.

3. Section 1911.5 is amended to read as follows:

§ 1911.5 Nature of hearing.

(a) (1) The legislative history of section 6 indicates that Congress intended informal rather than formal rule making procedures to apply. See the Conference Report, H. Rept. No. 91-1765, 91st Cong., second sess., 34 (1970). The informality of the proceedings is also suggested by the fact that section 6(b) permits the making of a decision on the basis of written comments alone (unless an objection to a rule is made and a hearing is requested), the use of advisory committees, and the inherent legislative nature of the tasks involved. For these reasons, the proceedings pursuant to § 1911.10 or § 1911.11 shall be informal.

(2) Section 6(b)(3) provides an opportunity for a hearing on objections to proposed rule making, and section 6(f) provides in connection with the judicial review of standards, that determinations of the Secretary shall be conclusive if supported by substantial evidence in the record as a whole. Although these sections are not read as requiring a rule making proceeding within the meaning of the last sentence of 5 U.S.C. 553(c) requiring the application of the formal requirements of 5 U.S.C. 556 and 557, they do suggest a Congressional expectation that the rule making would be on the basis of a record to which a substantial evidence test, where pertinent, may be applied in the event an informal hearing is held.

(3) The oral hearing shall be legislative in type. However, fairness may require an opportunity for cross-examination on crucial issues. The presiding officer is empowered to permit cross-examination under such circumstances. The essential intent is to provide an opportunity for effective oral presentation by interested persons which can be carried out with expedition and in the absence of rigid procedures which might unduly impede or protract the rule making process.

(b) Although any hearing shall be informal and legislative in type, this part is intended to provide more than the bare essentials of informal rule making under 5 U.S.C. 553. The additional requirements are the following:

(1) The presiding officer shall be a hearing examiner appointed under 5 U.S.C. 3105.

(2) The presiding officer shall provide an opportunity for cross-examination on crucial issues.

(3) The hearing shall be reported verbatim, and a transcript shall be available to any interested person on such terms as the presiding officer may provide.

4. Section 1911.18 is amended to read as follows:

§ 1911.18 Decision.

(a) (1) Within 60 days after the expiration of the period provided for the submission of written data, views, and arguments on a proposed rule on which no hearing is held, or within 60 days after the certification of the record of a hearing, the Assistant Secretary shall publish in the FEDERAL REGISTER either an appropriate rule promulgating, modifying, or revoking a standard, or a determination that such a rule should not be issued. The action of the Assistant Secretary shall be taken after consideration of all relevant matter presented in written submissions and in any hearings held under this part.

(2) A determination that a rule should not be issued on the basis of existing relevant matter may be accompanied by an invitation for the submission of additional data, views, or arguments from interested persons on the issue or issues involved. In which event, an appropriate rule or other determination shall be made within 60 days following the end of the period allowed for the submission of the additional comments.

(b) Any rule or standard adopted under paragraph (a) of this section shall incorporate a concise general statement of its basis and purpose. The statement is not required to include specific and detailed findings and conclusions of the kind customarily associated with formal proceedings. However, the statement will show the significant issues which have been faced, and will articulate the rationale for their solution.

(c) Where an advisory committee has been consulted in the formulation of a proposed rule, the Assistant Secretary may seek the advice of the advisory committee as to the disposition of the proceeding. In giving advice to the Assistant Secretary, an advisory committee shall consider all matter presented to the Assistant Secretary. The advice of an advisory committee shall take the form of written recommendations to be submitted to the Assistant Secretary within a period to be prescribed by him. When the recommendations are contained in the transcript of the meeting of an advisory committee, they shall be summary in form. See §§ 1912.33 and 1912.34 of this chapter.

(Secs. 6(b), 8(g), 84 Stat. 1953, 1600; 29 U.S.C. 655, 657; secs. 1, 4, 49 Stat. 1036, 1038, as amended; 41 U.S.C. 35, 38; secs. 2, 4, 74 Stat. 1034, 1035, 41 U.S.C. 351, 353; sec. 107, 76 Stat. 357; 40 U.S.C. 333, sec. 41, 44 Stat. 1444, 33 U.S.C. 941; sec. 5(j)(2), 79 Stat. 848; 20 U.S.C. 954(j)(2))

Signed at Washington, D.C., this 25th day of April 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

Title 32—NATIONAL DEFENSE

Chapter XVI—Selective Service System

MISCELLANEOUS AMENDMENTS TO CHAPTER

Whereas, on March 25, 1972, the Director of Selective Service published a notice of proposed amendments to Selective Service Regulations, 37 F.R. 6212 of March 25, 1972; and

Whereas such publication complied with the publication requirement of section 13(b) of the Military Selective Service Act (50 App. U.S.C. sec. 451 et seq.) in that more than 30 days have elapsed subsequent to such publication during which period comments from the public have been received and considered; and I certify that I have requested the views of officials named in section 2(a) of Executive Order 11623 and none of them has timely requested that the matter be referred to the President for decision.

Now therefore by virtue of the authority vested in me by the Military Selective Service Act, as amended (50 App. U.S.C. sec. 451 et seq.) and Executive Order 11623 of October 12, 1971, the Selective Service Regulations, constituting a portion of Chapter XVI of Title 32 of the Code of Federal Regulations, are hereby amended, effective 11:59 p.m., e.s.t., on April 29, 1972, as follows:

PART 1617—REGISTRATION CERTIFICATE

Section 1617.10 is amended to read as follows:

§ 1617.10 Duty of registrant separated from active duty in Armed Forces.

Every registrant who is separated from active duty in the Armed Forces, who has not discharged his current military obligation under the Military Selective Service Act, and who does not have a Registration Certificate (SSS Form 2) shall, within 10 days after the date of his separation, request his local board to return his Registration Certificate (SSS Form 2) if available or to issue to him a duplicate Registration Certificate (SSS Form 2). The registrant shall make this request by a letter mailed to his local board or on a Request for Duplicate Registration Certificate or Notice of Classification (SSS Form 6) which he shall file with his own or any other local board.

PART 1622—CLASSIFICATION RULES AND PRINCIPLES

Section 1622.27 is amended to read as follows:

§ 1622.27 Class 2-D: Registrant deferred because of study preparing for or relating to the ministry.

In Class 2-D shall be placed any registrant who has requested such deferment and who is preparing for the ministry under the direction of a recognized church or religious organization and (a) who is satisfactorily pursuing a full-time course of instruction required for entrance into a recognized theological or divinity school in which he has been preenrolled, or (b) who is satisfactorily pursuing a full-time course of instruction in or at the direction of a recognized theological or divinity school, or (c) who having completed theological or divinity school is a student in a full-time graduate program or is a full-time intern. The registrant's studies must be related to and lead toward entry into service as a regular or duly ordained minister of religion as defined in section 16(g) of the Military Selective Service Act and satisfactory progress in these studies, as required by the school in which the registrant is enrolled, must be maintained for qualification for the deferment.

PART 1623—CLASSIFICATION PROCEDURE

Section 1623.9 is amended to read as follows:

§ 1623.9 Registrants transferred for classification.

(a) After completing the Registration Questionnaire (SSS Form 100), and be-

V 37 N 84 APR 29 72 XUM

fore the local board of origin has undertaken the classification of a registrant other than his preliminary classification into Class 1–H, he may be transferred to another local board for classification under procedures prescribed by the Director if he is so far from his local board as to make complying with notices an extreme hardship.

(b) After completing the Registration Questionnaire (SSS Form 100), a registrant may be transferred to another local board for classification at any time under procedures prescribed by the Director (1) when the local board cannot act on his case because of disqualification under provisions of § 1604.55 of this chapter, or (2) when a majority of the members of the local board, or a majority of the members of every panel thereof if the board has separate panels, withdraw from consideration of the registrant's classification because of any conflicting interest, bias, or other reason.

(c) The Director or the State Director of Selective Service may transfer a registrant to another local board for classification at any time (1) when any member of the local board cannot act on the registrant's case because of disqualification under the provisions of § 1604.55 of this chapter, or (2) when the State Director of Selective Service deems such transfer to be necessary in order to assure equitable administration of the selective service law.

PART 1624—PERSONAL APPEARANCE BEFORE LOCAL BOARD

Paragraph (b) of § 1624.1 *Opportunity for personal appearance* is amended to read as follows:

§ 1624.1 Opportunity for personal appearance.

* * * * *

(b) A registrant who has filed a claim for classification in Class 1–O, Class 1–A–O, or Class 3–A, upon his written request, shall be afforded an opportunity to appear in person before the local board before his classification is determined by the local board. Should such registrant appear in person before the local board in advance of his classification being determined, the provisions of § 1624.4 shall apply and he shall not be afforded an opportunity to appear concerning such classification after such determination.

PART 1625—REOPENING AND CONSIDERING ANEW REGISTRANT'S CLASSIFICATION

Section 1625.2 is amended to read as follows;

§ 1625.2 Reopening of classification.

(a) The local board will reopen and consider anew the classification of a registrant (1) upon the written request of the Director of Selective Service or the State Director of Selective Service and upon receipt of such request shall immediately cancel any order to report for induction or alternate service which may have been issued to the registrant; (2) who is in Class 1–H and becomes subject to processing for induction according to these regulations and the rules prescribed by the Director; (3) in any classification for the purpose of classifying him in Class 1–H according to these regulations and the rules prescribed by the Director; (4) upon the written request of the registrant that is accompanied by written information presenting facts not considered when the registrant was classified which, if true in the opinion of the board, would justify a change in the registrant's classification; or (5) upon its own motion if such action based upon facts not considered when the registrant was classified which, in the opinion of the board, would justify a change in the registrant's classification: *Provided*, That in the event of subparagraph (4) or (5) of this section, the classification of a registrant shall not be reopened after the local board has mailed to such registrant an order for induction or alternate service or, in the event the order to report for induction or alternate service was postponed and a subsequent letter from the local board establishes the date for induction or for reporting for alternate service, unless the local board first specifically finds there has been a change in the registrant's status resulting from circumstances over which the registrant had no control.

PART 1628—EXAMINATION OF REGISTRANTS

Section 1628.7 is amended to read as follows:

§ 1628.7 Postponement of Armed Forces examination.

The issuance of an Order to Report for Armed Forces Examination (SSS Form 223) may be delayed in case of death of a member of the registrant's immediate family, extreme emergency involving a member of the registrant's immediate family, serious illness of the registrant, or other emergency beyond the registrant's control. The forwarding of a registrant for examination under an Order to Report for Armed Forces Examination (SSS Form 223) may be postponed by the local board to a date certain not later than 60 days from the date of such postponement in case of death of a member of the registrant's immediate family, extreme emergency involving a member of the registrant's immediate family, serious illness of the registrant, or other emergency beyond the registrant's control. The Director or State Director of Selective Service may, for good cause, direct the local board to extend such postponement. Any postponement under this section shall be terminated whenever the cause therefor has ceased to exist or upon the request of the registrant.

PART 1630—ALLOCATION OF INDUCTIONS

Section 1630.4 is amended to read as follows:

§ 1630.4 Classification of volunteers.

(a) When a registrant who is not in a deferred class files an Application for Voluntary Induction (SSS Form 254) he shall be processed for induction regardless of the class in which he is classified.

(b) When a registrant in a deferred class other than Class 4–F files an Application for Voluntary Induction (SSS Form 254) he shall be classified in Class 1–A as soon as possible.

(c) When a registrant in Class 1–A–O files an Application for Voluntary Induction (SSS Form 254) he shall be processed for induction.

CURTIS W. TARR,
Director.

[Public Land Order 5211]

[Sacramento 3771]

CALIFORNIA

Powersite Restoration No. 714; Partial Revocation of Powersite Reserve No. 248

By virtue of the authority contained in section 24 of the Act of June 10, 1920, 41 Stat. 1075, as amended 16 U.S.C. section 818 (1970), and pursuant to the determination of the Federal Power Commission in DA–1105-California, it is ordered as follows:

1. The Executive Order of February 17, 1912, creating Powersite Reserve No. 248 is hereby revoked so far as it affects the following described land:

MOUNT DIABLO MERIDIAN

T. 35 N., R. 1 E.,
Sec. 6, SE¼NE¼.

The area described aggregates 40 acres in Shasta County.

2. In its order of November 17, 1971 (DA–1105-California), the Federal Power Commission determined that the land is not presently being used for hydroelectric development purposes, there are no known plans for its use, and it has no significant power value. The land was previously restored from Powersite Reserve No. 248 by Restoration Order No. 1174 of May 7, 1945, 10 F.R. 5652 of May 17, 1945, pursuant to a determination of the Federal Power Commission in DA–625-California of May 30, 1944, and opened to operation of the public land laws generally, subject to the provisions and reservations of section 24 of the Act of June 10, 1920, supra. The effect of this order is to relieve the restored land of the limitations prescribed by the said section 24.

3. This revocation is in furtherance of a Fedaral program to acquire privately owned land within the Whiskeytown-Shasta-Trinity National Recreation Area by the National Park Service under the exchange provisions of the Act of November 8, 1965, 79 Stat. 1295, 16 U.S.C. section 460q–1(b) (1970). Accordingly, the land described in this order has been classified as being suitable for such exchange. The land, therefore, will not be subject to other use or disposition under the public land laws, including the mining and mineral leasing lands, in the absence of a modification or revocation of such classification (43 CFR 2440.4).

HARRISON LOESCH,
Assistant Secretary of the Interior.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION AND STANDARDS)

Subpart—U.S. Standards for Grades of Seed Potatoes [1]

On page 616 of the FEDERAL REGISTER of January 14, 1972, there was published a notice of proposed rule making to issue U.S. grade standards for seed potatoes. These grade standards are issued under authority of the Agricultural Marketing Act of 1946 (60 Stat. 1087, as amended; 7 U.S.C. 1621–1627), which provides for the issuance of official U.S. grades to designate different levels of quality for the voluntary use of producers, buyers and consumers. Official grading services are also provided under this act upon request of any financially interested party and upon payment of a fee to cover the cost of such services.

Statement of considerations leading to the issuance of the grade standards. Following publication of the proposal in the FEDERAL REGISTER copies were distributed to industry individuals and organizations and to other interested persons for comment.

Agricultural Marketing Service representatives as well as members of the National Seed Grade Committee discussed and explained the proposed standards at meetings of industry members and organizations. Information concerning the proposal was carried in newspapers and trade publications.

The period for comment ended March 5, 1972. Forty-one letters of comment were received, in response to the proposal, from industry members and organizations in 19 States. Nineteen of these letters of comment indicated unqualified approval of the proposed standards with most also expressing the desire to have them issued promptly. The remaining letters, while expressing general approval, proposed certain changes or additions for consideration.

Of these suggested changes, one is incorporated in the standards. It permits the specifying of maximum sizes other than those stated in the standards. In addition an error in the definition of damage, § 51.3006, is corrected.

These voluntary standards will not supplant State certified seed grades or regulations but will serve as a reference point as the U.S. grade standards for "fresh market" potatoes have done in the past.

After consideration of all revelant matters presented by interested persons, the grade standards so proposed are hereby adopted, subject to the following changes:

1. In § 51.3000, subparagraph (2) of paragraph (e) is changed to read: "Maximum size, unless otherwise specified, shall not exceed 3¼ inches in diameter or 12 ounces in weight."

2. In § 51.3006, line five the word "internal" is changed to read "external".

It is hereby found that good cause exists for not postponing the effective date of these standards beyond the date of publication hereof in the FEDERAL REGISTER, in that: (1) Contracting for the 1972 crop of seed potatoes has already begun and it is in the interest of the public and the industry that these standards be placed in effect at the earliest possible date; and (2) no special preparation is required for compliance with these standards on the part of members of the seed potato industry or of others.

Accordingly these standards shall become effective upon publication in the FEDERAL REGISTER (4–29–72).

Dated: April 25, 1972.

G. R. GRANGE,
Acting Administrator.

AUTHORITY: The provisions of this subpart issued under secs. 203, 205, 60 Stat. 1087, as amended, 1090 as amended; 7 U.S.C. 1622, 1624.

GRADE

§ 51.3000 U.S. No. 1 Seed Potatoes.

"U.S. No. 1 Seed Potatoes" consists of potatoes identified as certified seed of one variety by the State of origin which meet the following requirements:

(a) Fairly well shaped;

(b) Free from:

(1) Freezing;

(2) Blackheart;

[1] Packing of the product in conformity with the requirements of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act or with applicable State laws and regulations.

V 37-84
APR 29 72
XUM

(3) Late Blight Tuber Rot;
(4) Nematode or Tuber Moth injury;
(5) Bacterial Ring Rot; and,
(6) Soft rot or wet breakdown.

(c) Free from serious damage caused by:
(1) Hollow heart.

(d) Free from damage by any other cause (see Tables I and II).

(e) Size:
(1) Minimum diameter, unless otherwise specified, shall be not less than 1½ inches; and,

(2) Maximum size, unless otherwise specified, shall not exceed 3¼ inches in diameter or 12 ounces in weight.

(f) For tolerances see § 51.3001.

TOLERANCES

§ 51.3001 Tolerances.

In order to allow for variations incident to proper grading and handling in the foregoing grade, the following tolerances, by weight, are provided as specified:

(a) For defects:

(1) 10 percent for potatoes in any lot which are seriously damaged by hollow heart;

(2) 10 percent for potatoes which fail to meet the remaining requirements of the grade including therein not more than 5 percent for external defects and not more than 5 percent for internal defects: *Provided*, That included in these tolerances not more than the following percentages shall be allowed for the defects listed:

	Percent
Bacterial Ring Rot	0.00
Serious damage caused by dry or moist type Fusarium Tuber Rot	2.00
Late Blight Tuber Rot	1.00
Nematode or Tuber Moth injury	0.00
Varietal mixture	0.25
Frozen soft rot or wet breakdown	0.50

Provided, That en route or at destination an additional 0.50 percent, or a total of 1 percent, shall be allowed for potatoes which are frozen or affected by soft rot or wet breakdown.

(b) For off-size:

(1) *For undersize.* Three percent for potatoes in any lot which fail to meet the required or specified minimum size except that 5 percent shall be allowed when the minimum size specified is 2¼ inches or more in diameter or 5 ounces or more in weight.

(2) *For oversize.* Ten percent for potatoes in any lot which fail to meet the required or specified maximum size.

APPLICATION OF TOLERANCES

§ 51.3002 Application of tolerances.

Individual samples shall have not more than double the tolerances specified, except that at least one defective and one off-size potato may be permitted in any sample: *Provided*, That en route or at destination one-tenth of the samples may contain three times the tolerance permitted for potatoes which are frozen or affected by soft rot or wet breakdown: *And provided further*, That the averages for the entire lot are within the tolerances specified for the grade.

SAMPLES FOR GRADE AND SIZE DETERMINATION

§ 51.3003 Samples for grade and size determination.

Individual samples shall consist of at least 20 pounds. The number of such individual samples drawn for grade and size determination will vary with the size of the lot.

DEFINITIONS

§ 51.3004 Fairly well shaped.

"Fairly well shaped" means that the potato is not materially pointed, dumbbell-shaped or otherwise materially deformed.

§ 51.3005 Nematode or Tuber Moth injury.

"Nematode or Tuber Moth injury" means the presence of or any evidence of Nematode or Tuber Moth.

§ 51.3006 Damage.

"Damage" means any defect (except sunburn and greening) or any combination of defects which materially detracts from the internal or external appearance of the potato, or any external defect which cannot be removed without a loss of more than 5 percent of the total weight of the potato. See Tables I and II in §§ 51.3010 and 51.3011.

§ 51.3007 Serious damage.

"Serious damage" means any defect (except sunburn and greening), or any combination of defects, which seriously detracts from the internal or external appearance of the potato, or any external defect which cannot be removed without a loss of more than 10 percent of the total weight of the potato.

§ 51.3008 Freezing.

"Freezing" means that the potato is frozen or shows evidence of having been frozen.

§ 51.3009 Soft rot or wet breakdown.

"Soft rot or wet breakdown" means any soft, mushy, or leaky condition of the tissue.

§ 51.3010 External defects.

"External defects" are defects which can be detected externally. However, cutting may be required to determine the extent of the injury. Some external defects are listed in Table I.

TABLE I—EXTERNAL DEFECTS

Defect	Damage		
	When materially detracting from appearance of the potato.	or	When removal causes loss of more than 5 percent of total weight of potato
Air cracks	X		
Bruises	X		X
Cuts or trimming	X		
Enlarged lenticels	X		
External discoloration	X		
Flea Beetle injury	X		X
Rhizoctonia	X		X
Scab, pitted	X		
Scab, russet	X		
Scab, surface	When more than 5 percent of surface affected		
Second growth	X		
Growth cracks	X		
Wireworm or grass damage	When any hole in a potato 2½ inches in diameter or 6 ounces in weight is more than ¾-inch long, or when the aggregate length of all holes is more than 1¼ inches, or correspondingly shorter or longer holes in smaller or larger potatoes.		
Dirt	Dirt or other foreign matter is considered as causing damage when the individual potato is more than slightly dirty or slightly stained, or when more than a moderate amount of loose dirt or other foreign matter is present in the sample.		
Insects or worms	When present inside the potato		
Shriveling	When more than moderately shriveled, spongy, or flabby		
Sprouts	When more than 10 percent of the potatoes in any lot have any sprout more than 1 inch in length.		

§ 51.3011 Internal defects.

"Internal defects" are defects which cannot be detected without cutting the potato. Some internal defects are listed in Table II.

TABLE II—INTERNAL DEFECTS

Defect	*Damage*
Ingrown sprouts	When removal causes a loss of more than 5 percent of the total weight of the potato.
Internal discoloration occurring entirely within the vascular ring.	When more than the equivalent of three scattered light brown spots ⅛ inch in diameter in a potato 2½ inches in diameter or 6 ounces in weight, or correspondingly lesser or greater number of spots in smaller or larger potatoes.
Internal discoloration outside of or not entirely confined within the vascular ring.	When removal causes a loss of more than 5 percent of the total weight of the potato.

§ 51.3012 Permanent defects.

"Permanent defects" are defects which are not subject to change during storage or shipment.

§ 51.3013 Condition defects.

"Condition defects" are defects which may develop or change during storage or shipment.

SUBCHAPTER C—SPECIAL PROGRAMS

PART 755—FEED GRAINS

Subpart—Feed Grain Set-Aside Program for Crop Years 1972–73

Correction

In F.R. Doc. 72-6040 appearing at page 7775 in the issue of Thursday, April 20, 1972, the third line of § 775.11(b)(1) reading "Acreage of cropland equal to 5 percent of" should read "acreage of cropland up to 10 percent of".

Chapter IX—Agricultuural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculuture

[Navel Orange Reg. 265, Amdt. 1]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effecutate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of Navel oranges grown in Arizona and designated part of California.

(b) *Order, as amended.* The provisions in paragraph (b)(1) (i) and (ii) of § 907.565 (Navel Orange Regulation 265, 37 F.R. 7780) during the period April 21, 1972, through April 27, 1972, are hereby fixed as follows:

§ 907.565 Navel Orange Regulation 265.

* * * * * *

(b) *Order.* (1) * * *

(i) District 1: 1,038,000 cartons;

(ii) District 2: 212,000 cartons.

* * * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 26, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-6562 Filed 4-28-72;8:46 am]

[Lemon Reg. 531]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.831 Lemon Regulation 531.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on April 25, 1972.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period April 30, 1972, through May 6, 1972, is hereby fixed at 240,000 cartons.

(2) As used in this section, "handled" and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 28, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-6650 Filed 4-28-72;8:50 am]

[Peach Reg. 1]

PART 917—FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Regulation by Grades and Sizes

Findings. (1) Pursuant to the amended marketing agreement, and Order No. 917 (7 CFR Part 917, 36 F.R. 7510, 14381), regulating the handling of fresh pears, plums, and peaches grown in the State of California, effective under the applicable

V 37-84 APR 29 72 XUM

provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Peach Commodity Committee, established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of peaches, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The recommendation by the Peach Commodity Committee reflect its appraisal of the California peach crop and the current and prospective market conditions. Shipments of California peaches are expected to begin on or about May 1, 1972. The grade and size requirements provided herein are necessary to prevent the handling, on and after May 1, 1972, of California peaches of a lower grade or smaller size than specified herein for such peaches, so as to provide consumers with good quality fruit consistent with (1) the overall quality of the crop, and (2) maximizing returns to the producers pursuant to the declared policy of the act.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this regulation until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) in that, as hereinafter set forth, the time intervening between the date when information upon which this regulation is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective not later than May 1, 1972. A reasonable determination as to the supply of, and the demand for, such peaches must await the development of the crop thereof, and adequate information thereon was not available to the Peach Commodity Committee until April 20, 1972, on which date an open meeting was held, after giving due notice thereof, to consider the need for, and the extent of, regulation of shipments of such peaches. Interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified was promptly submitted to the Department on April 24, 1972; shipments of the current crop of such peaches are expected to begin on or about the effective date hereof; this regulation should be applicable to all such shipments in order to effectuate the declared policy of the act; the provisions of this regulation are identical with the aforesaid recommendation of the committee, information concerning such provisions and effective time has been disseminated among handlers of such peaches; and compliance with the provisions of this regulation will not require of handlers any preparation therefor which cannot be completed by the effective time hereof.

§ 917.426 Peach Regulation 1.

(a) Order: During the period May 1, 1972, through May 31, 1972, no handler shall handle:

(1) Any package or container of any variety of peaches unless such peaches meet the requirement of U.S. No. 1 grade: *Provided*, That, an additional tolerance of 10 percent shall be permitted for fruit that is not well formed but not badly misshapen.

(2) Any package or container of Arm Gold, Pat's Pride, Spring Gold, Springtime, or Royal Gold variety peaches unless:

(i) Such peaches when packed in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 108 peaches in the lug box; or

(ii) Such peaches when packed in any container, other than a No. 22D standard lug box, measure not less than 2 inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent by count of peaches in any container may fail to meet such diameter requirement.

(3) Any package or container of Springcrest variety peaches unless:

(i) Such peaches when packed in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 96 peaches in the lug box; or

(ii) Such peaches when packed in any container, other than a No. 22D standard lug box, measure not less than 2⅛ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent by count of peaches in any container may fail to meet such diameter requirement.

(4) Any package or container of Robin, any type of Babcock, Blazing Gold, Bonjour, Cardinal, Dixired, Gold Dust, June Lady, Merrill Gemfree, Royal May, or Early Coronet variety peaches unless:

(i) Such peaches when packed in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 88 peaches in the lug box;

(ii) Such peaches when packed in a No. 12B standard peach box are of a size that will pack, in accordance with the requirements of standard pack, not more than 75 peaches in the box; or

(iii) Such peaches when packed in any container, other than a No. 22D standard lug box, or a No. 12B standard peach box measure not less than 2¼ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of peaches in any such container may fail to meet such diameter requirement.

(5) Any package or container of Aurora, Coronet, Gaiety, Indian Red, Merrill Beauty, Merrill Gem, Peterson Elberta, Red Haven, Regina, or Red Top variety peaches unless:

(i) Such peaches when packed in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 80 peaches in the box; or

(ii) Such peaches when packed in a No. 12B standard peach box are of a size that will pack, in accordance with the requirements of standard pack, not more than 70 peaches in the box; or

(iii) Such peaches when packed in any container, other than a No. 22D standard lug box or a No. 12B standard peach box, measure not less than 2⅜ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of peaches in any such container may fail to meet such diameter requirement.

(6) Any package or container of Alamar, Angelus, Carnival, Fairtime, Fay Elberta, Fayette, Fiesta, Fortyniner, Halloween, Hiraoka Flame, J. H. Hale, John Gee, Jody Gaye, July Elberta (Early Elberta, Kim Elberta, and Socala), Madera Gem, Madigras, Merricle, O'Henry, Pacifica, Pageant, Parade, Paradise, Preuss Suncrest, Regular Elberta, Red Flame, Red Globe, Red Lady, Rio Oso Gem, Royal Faye, Scarlet Lady, Summerset, Suncrest, Toreador, or William's Gem variety peaches unless:

(i) Such peaches when packed in a No. 22D lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 72 peaches in the lug box;

(ii) Such peaches when packed in a No. 12B standard peach box are of a size that will pack, in accordance with the requirements of standard pack, not more than 65 peaches in the peach box; or

(iii) Such peaches when packed in any container, other than a No. 22D standard lug box or a No. 12B standard peach box, measure not less than 2⅞ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent, by count, of peaches in any such container may fail to meet such diameter requirement.

(b) During the period May 1, 1972, through May 31, 1972, no handler shall handle any package or container of any variety of peaches not specifically named in subparagraphs (2), (3), (4), (5), or (6) of paragraph (a) of this section unless:

(1) Such peaches when packed in a No. 22D standard lug box are of a size that will pack, in accordance with the requirements of standard pack, not more than 96 peaches in the lug box; or

(2) Such peaches when packed in any container, other than a No. 22D standard lug box, measure not less than 2⅛ inches in diameter as measured by a rigid ring: *Provided*, That not more than 10 percent by count of peaches in any such container may fail to meet such diameter requirement.

(c) [Reserved]

(d) Terms used in the amended marketing agreement and order shall, when used herein have the same meaning as given to the respective term in said amended marketing agreement and order; "U.S. No. 1," and "standard pack," shall have the same meaning as when used in the U.S. Standards for Peaches (7 CFR 51.1210–1223); "No. 22D standard lug box" and "No. 12B standard peach box" shall have the same meaning as set forth in section 43601 of the Agricultural Code of California; and "diameter" shall mean the distance through the widest portion of the cross section of a peach at right angles to a line running from the stem to the blossom end.

Dated: April 27, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 953—IRISH POTATOES GROWN IN THE SOUTHEASTERN STATES

Expenses and Rate of Assessment

Notice of rule making regarding the proposed expenses and rate of assessment, to be effective under Marketing Agreement No. 104 and Order No. 953, both as amended (7 CFR Part 953), regulating the handling of Irish potatoes grown in the Southeastern States production area which is comprised of certain designed counties of Virginia and North Carolina, was published in the FEDERAL REGISTER April 18, 1972 (37 F.R. 7628). This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.). The notice afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than 7 days following publication in the FEDERAL REGISTER. None was filed.

After consideration of all relevant matter presented, including the proposals set forth in the aforesaid notice which were unanimously recommended on April 10 by the Southeastern Potato Committee, established pursuant to said amended marketing agreement and order, it is hereby found and determined that:

§ 953.209 Expenses and rate of assessment.

(a) The expenses the Secretary finds may be necessary to be incurred by the Southeastern Potato Committee, established pursuant to Marketing Agreement No. 104, as amended and this part, to enable such committee to carry out its functions pursuant to provisions of the aforesaid amended marketing agreement and order, during the fiscal period ending March 31, 1973, will amount to $11,125.

(b) The rate of assessment to be paid by each handler in accordance with the amended Marketing Agreement and this part shall be one-fourth of one cent ($0.0025) per hundredweight of potatoes handled by him as the first handler thereof during the said fiscal period: *Provided*, That potatoes for canning, freezing, and other processing, pursuant to the act (Public Law 92–233), shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve.

(d) Terms used in this section shall have the same meaning as when used in the said amended marketing agreement and this part.

It is hereby found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) The relevant provisions of said amended marketing agreement and this part require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable potatoes from the beginning of such fiscal period, and (2) the current fiscal period began on April 1, 1972, and the rate of assessment herein fixed will automatically apply to all assessable potatoes beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: April 26, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 31—MONEY AND FINANCE: TREASURY

Chapter II—Fiscal Service, Department of the Treasury

SUBCHAPTER B—BUREAU OF THE PUBLIC DEBT

PART 306—GENERAL REGULATIONS WITH RESPECT TO U.S. SECURITIES

Book-Entry Procedure

Subpart O of the regulations set forth in Treasury Department Circular No. 300, Third Revision, dated December 23, 1964, as amended and supplemented (31 CFR Part 306), has been further amended and is published in its entirety as the sixth amendment as shown below. This amendment further broadens the book-entry procedure.

Notice and public procedure on this amendment are dispensed with because it involves public property and contracts and does not adversely affect any existing rights.

Dated: April 27, 1972.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

Subpart O—Book-Entry Procedure

Sec.
306.115 Definition of terms.
306.116 Authority of Reserve Banks.
306.117 Scope and effect of book-entry procedure.
306.118 Transfer or pledge.
306.119 Withdrawal of Treasury securities.
306.120 Delivery of Treasury securities.
306.121 Registered bonds and notes.
306.122 Servicing book-entry Treasury securities; payment of interest, payment at maturity or upon call.

AUTHORITY: The provisions of this Subpart O issued under sec. 8, 50 Stat. 481, as amended, R.S. 3706; secs. 1, 4, 18, 5, 40 Stat. 288, as amended, 290, as amended; secs. 19, 20, 48 Stat. 343, as amended; 31 U.S.C. 738a, 739, 752, 752a, 754b.

Subpart O—Book-Entry Procedure

§ 306.115 Definition of terms.

In this subpart, unless the context otherwise requires or indicates:

(a) "Reserve Bank" means a Federal Reserve Bank and its branches acting as Fiscal Agent of the United States and when indicated acting in its individual capacity.

(b) "Treasury security" means a Treasury bond, note, certificate of indebtedness, or bill issued under the Second Liberty Bond Act, as amended, in the form of a definitive Treasury security or a book-entry Treasury security.

(c) "Definitive Treasury security" means a Treasury bond, note, certificate of indebtedness, or bill issued under the Second Liberty Bond Act, as amended, in engraved or printed form.

(d) "Book-entry Treasury security" means a Treasury bond, note, certificate of indebtedness, or bill issued under the Second Liberty Bond Act, as amended, in the form of an entry made as prescribed in this subpart on the records of a Reserve Bank.

(e) "Pledge" includes a pledge of, or any other security interest in, Treasury securities as collateral for loans or advances or to secure deposits of public monies or the performance of an obligation.

(f) "Date of call" (see § 306.2) is "the date fixed in the official notice of call published in the FEDERAL REGISTER • • • on which the obligor will make payment of the security before maturity in accordance with its terms."

(g) "Member bank" means any national bank, State bank or bank or trust company which is a member of a Reserve Bank.

§ 306.116 Authority of Reserve Banks.

Each Reserve Bank is hereby authorized, in accordance with the provisions of this subpart, to (a) issue book-entry Treasury securities by means of entries on its records which shall include the name of the depositor, the amount, the loan title (or series) and maturity date; (b) effect conversions between book-entry Treasury securities and definitive Treasury securities; (c) otherwise service and maintain book-entry Treasury securities; and (d) issue a confirmation of transaction in the form of a written advice (serially numbered or otherwise) which specifies the amount and description of any securities, that is, loan title (or series) and maturity date, sold or transferred and the date of the transaction.

V 37-84 APR 29 72 XUM

§ 306.117 Scope and effect of book-entry procedure.

(a) A Reserve Bank as Fiscal Agent of the United States may apply the book-entry procedure provided for in this subpart to any Treasury securities which have been or are hereafter deposited for any purpose in accounts with it in its individual capacity under terms and conditions which indicate that the Reserve Bank will continue to maintain such deposit accounts in its individual capacity, notwithstanding application of the book-entry procedure to such securities. This paragraph is applicable, but not limited, to securities deposited:

(1) As collateral pledged to a Reserve Bank (in its individual capacity) for advances by it;

(2) By a member bank for its sole account;

(3) By a member bank held for the account of its customers;

(4) In connection with deposits in a member bank of funds of States, municipalities, or other political subdivisions; or,

(5) In connection with the performance of an obligation or duty under Federal, State, municipal, or local law, or judgments or decrees of courts.

The application of the book-entry procedure under this paragraph shall not derogate from or adversely affect the relationships that would otherwise exist between a Reserve Bank in its individual capacity and its depositors concerning any deposits under this paragraph. Whenever the book-entry procedure is applied to such Treasury securities, the Reserve Bank is authorized to take all action necessary in respect of the book-entry procedure to enable such Reserve Bank in its individual capacity to perform its obligations as depositary with respect to such Treasury securities.

(b) A Reserve Bank as Fiscal Agent of the United States shall apply the book-entry procedure to Treasury securities deposited as collateral pledged to the United States under Treasury Department Circulars Nos. 92 and 176, both as revised and amended, and may apply the book-entry procedure, with the approval of the Secretary of the Treasury, to any other Treasury securities deposited with a Reserve Bank as Fiscal Agent of the United States.

(c) Any person having an interest in Treasury securities which are deposited with a Reserve Bank (in either its individual capacity or as Fiscal Agent) for any purpose shall be deemed to have consented to their conversion to book-entry Treasury securities pursuant to the provisions of this subpart, and in the manner and under the procedures prescribed by the Reserve Bank.

(d) No deposits shall be accepted under this section on or after the date of maturity or call of the securities.

§ 306.118 Transfer or pledge.

(a) A transfer or a pledge of book-entry Treasury securities to a Reserve Bank (in its individual capacity or as Fiscal Agent of the United States), or to the United States, or to any transferee or pledgee eligible to maintain an appropiate book-entry account in its name with a Reserve Bank under this subpart, is effected and perfected, notwithstanding any provision of law to the contrary, by a Reserve Bank making an appropriate entry in its records of the securities transferred or pledged. The making of such an entry in the records of a Reserve Bank shall (1) have the effect of a delivery in bearer form of definitive Treasury securities; (2) have the effect of a taking of delivery by the transferee or pledgee; (3) constitute the transferee or pledgee a holder; and (4) if a pledge, effect a perfected security interest therein in favor of the pledgee. A transfer or pledge of book-entry Treasury securities effected under this paragraph shall have priority over any transfer, pledge, or other interest, theretofore or thereafter effected or perfected under paragraph (b) of this section or in any other manner.

(b) A transfer or a pledge of transferable Treasury securities, or any interest therein, which is maintained by a Reserve Bank (in its individual capacity or as Fiscal Agent of the United States) in a book-entry account under this subpart, including securities in book-entry form under § 306.117(a)(3), is effected, and a pledge is perfected, by any means that would be effective under applicable law to effect a transfer or to effect and perfect a pledge of the Treasury securities, or any interest therein, if the securities were maintained by the Reserve Bank in bearer definitive form. For purposes of transfer or pledge hereunder, book-entry Treasury securities maintained by a Reserve Bank shall, notwithstanding any provision of law to the contrary, be deemed to be maintained in bearer definitive form. A Reserve Bank maintaining book-entry Treasury securities either in its individual capacity or as Fiscal Agent of the United States is not a bailee for purposes of notification of pledges of those securities under this paragraph, or a third person in possession for purposes of acknowledgment of transfers thereof under this paragraph. A Reserve Bank will not accept notice or advice of a transfer or pledge effected or perfected under this paragraph, and any such notice or advice shall have no effect. A Reserve Bank may continue to deal with its depositor in accordance with the provisions of this subpart, notwithstanding any transfer or pledge effected or perfected under this paragraph.

(c) No filing or recording with a public recording office or officer shall be necessary or effective with respect to any transfer or pledge of book-entry Treasury securities or any interest therein.

(d) A Reserve Bank shall, upon receipt of appropriate instructions, convert book-entry Treasury securities into definitive Treasury securities and deliver them in accordance with such instructions; no such conversion shall effect existing interests in such Treasury securities.

(e) A transfer of book-entry Treasury securities within a Reserve Bank shall be made in accordance with procedures established by the Bank not inconsistent with this subpart. The transfer of book-entry Treasury securities by a Reserve Bank may be made through a telegraphic transfer procedure.

(f) All requests for transfer or withdrawal must be made prior to the maturity or date of call of the securities.

§ 306.119 Withdrawal of Treasury securities.

(a) A depositor of book-entry Treasury securities may withdraw them from a Reserve Bank by requesting delivery of like definitive Treasury securities to itself or on its order to a transferee.

(b) Treasury securities which are actually to be delivered upon withdrawal may be issued either in registered or in bearer form, except that Treasury bills and EA and EO series of Treasury notes will be issued in bearer form only.

§ 306.120 Delivery of Treasury securities.

A Reserve Bank which has received Treasury securities and effected pledges, made entries regarding them, or transferred or delivered them according to the instructions of its depositor is not liable for conversion or for participation in breach of fiduciary duty even though the depositor had no right to dispose of or take other action in respect of the securities. A Reserve Bank shall be fully discharged of its obligations under this subpart by the delivery of Treasury securities in definitive form to its depositor or upon the order of such depositor. Customers of a member bank or other depositary (other than a Reserve Bank) may obtain Treasury securities in definitive form only by causing the depositor of the Reserve Bank to order the withdrawal thereof from the Reserve Bank.

§ 306.121 Registered bonds and notes.

No formal assignment shall be required for the conversion to book-entry Treasury securities of registered Treasury securities held by a Reserve Bank (in either its individual capacity or as Fiscal Agent) on the effective date of this subpart for any purpose specified in § 306.117(a). Registered Treasury securities deposited thereafter with a Reserve Bank for any purpose specified in § 306.117 shall be assigned for conversion to book-entry Treasury securities. The assignment, which shall be executed in accordance with the provisions of Subpart F of the regulations in this part, so far as applicable, shall be to "Federal Reserve Bank of _____, as Fiscal Agent of the United States, for conversion to book-entry Treasury securities."

§ 306.122 Servicing book-entry Treasury securities; payment of interest, payment at maturity or upon call.

Interest becoming due on book-entry Treasury securities shall be charged in the Treasurer's account on the interest due date and remitted or credited in accordance with the depositor's instructions. Such securities shall be redeemed and charged in the Treasurer's account on the date of maturity, call or advance refunding, and the redemption proceeds, principal and interest, shall be disposed of in accordance with the depositor's instructions.

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER D—COSMETICS

PART 170—VOLUNTARY REGISTRATION OF COSMETIC PRODUCT ESTABLISHMENTS

Notification of Effective Date and Availability of Registration Form

In the matter of issuing regulations establishing a procedure for the voluntary registration of cosmetic product establishments:

An order establishing regulations (21 CFR Part 170) for such a procedure was published in the FEDERAL REGISTER of April 11, 1972 (37 F.R. 7151). The order stipulated that 21 CFR Part 170 would become effective 30 days after publication of a notice in the FEDERAL REGISTER stating that the necessary form for registration of cosmetic product establishments (FD Form 2511) was available for distribution.

Notice is hereby given that FD Form 2511, "Registration of Cosmetic Product Establishments," is now available for distribution and that 21 CFR Part 170—Voluntary Registration of Cosmetic Product Establishments shall become effective 30 days after publication of this notice in the FEDERAL REGISTER. Those desiring FD Form 2511 may submit requests to the Food and Drug Administration, Department of Health, Education, and Welfare, Washington, D.C. 20204, or to any Food and Drug Administration district office as provided for in 21 CFR 170.4.

Dated: April 26, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

V 37-84 APR 29 72 XUM

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

INCOME TAX

Recoveries of Damages for Antitrust Violations, etc.

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by May 29, 1972. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by May 29, 1972. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their request for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to conform the Income Tax Regulations (26 CFR Part 1) to the amendments of the Internal Revenue Code of 1954 made by section 904 of the Tax Reform Act of 1969 (83 Stat. 711), such regulations are amended as follows:

Sections 1.186 and 1.186–1 are added to the Income Tax Regulations immediately after § 1.185–3. These added sections read as follows:

§ 1.186 Statutory provisions; recoveries of damages for antitrust violations, etc.

SEC. 186. *Recoveries of damages for antitrust violations, etc.*—(a) *Allowance of deduction.* If a compensatory amount which is included in gross income is received or accrued during the taxable year for a compensable injury, there shall be allowed as a deduction for the taxable year an amount equal to the lesser of—

(1) The amount of such compensatory amount, or

(2) The amount of the unrecovered losses sustained as a result of such compensable injury.

(b) *Compensable injury.* For purposes of this section, the term "compensable injury" means—

(1) Injuries sustained as a result of an infringement of a patent issued by the United States,

(2) Injuries sustained as a result of a breach of contract or a breach of fiduciary duty or relationship, or

(3) Injuries sustained in business, or to property, by reason of any conduct forbidden in the antitrust laws for which a civil action may be brought under section 4 of the Act entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes", approved October 15, 1914 (commonly known as the Clayton Act).

(c) *Compensatory amount.* For purposes of this section, the term "compensatory amount" means the amount received or accrued during the taxable year as damages as a result of an award in, or in settlement of, a civil action for recovery for a compensable injury, reduced by any amounts paid or incurred in the taxable year in securing such award or settlement.

(d) *Unrecovered losses*—(1) *In general.* For purposes of this section, the amount of any unrecovered loss sustained as a result of any compensable injury is—

(A) The sum of the amount of the net operating losses (as determined under section 172) for each taxable year in whole or in part within the injury period, to the extent that such net operating losses are attributable to such compensable injury, reduced by

(B) The sum of—

(i) The amount of the net operating losses described in subparagraph (A) which were allowed for any prior taxable year as a deduction under section 172 as a net operating loss carryback or carryover to such taxable year, and

(ii) The amounts allowed as a deduction under subsection (a) for any prior taxable year for prior recoveries of compensatory amounts for such compensable injury.

(2) *Injury period.* For purposes of paragraph (1), the injury period is—

(A) With respect to any infringement of a patent, the period in which such infringement occurred,

(B) With respect to a breach of contract or breach of fiduciary duty or relationship, the period during which amounts would have been received or accrued but for the breach of contract or breach of fiduciary duty or relationship, and

(C) With respect to injuries sustained by reason of any conduct forbidden in the antitrust laws, the period in which such injuries were sustained.

(3) *Net operating losses attributable to compensable injuries.* For purposes of paragraph (1)—

(A) A net operating loss for any taxable year shall be treated as attributable to a compensable injury to the extent of the compensable injury sustained during such taxable year, and

(B) If only a portion of a net operating loss for any taxable year is attributable to a compensable injury, such portion shall (in applying section 172 for purposes of this section) be considered to be a separate net operating loss for such year to be applied after the other portion of such net operating loss.

(e) *Effect on net operating loss carryovers.* If for the taxable year in which a compensatory amount is received or accrued any portion of a net operating loss carryover to such year is attributable to the compensable injury for which such amount is received or accrued, such portion of such net operating loss carryover shall be reduced by an amount equal to—

(1) The deduction allowed under subsection (a) with respect to such compensatory amount, reduced by

(2) Any portion of the unrecovered losses sustained as a result of the compensable injury with respect to which the period for carryover under section 172 has expired.

[Sec. 186 as added by sec. 904, Tax Reform Act 1969 (83 Stat. 711)]

§ 1.186–1 Recoveries of damages for antitrust violations, etc.

(a) *Allowance of deduction.* Under section 186, when a compensatory amount which is included in gross income is received or accrued during a taxable year for a compensable injury, a deduction is allowed in an amount equal to the lesser of (1) such compensatory amount, or (2) the unrecovered losses sustained as a result of such compensable injury.

(b) *Compensable injury*—(1) *In general.* For purposes of this section, the term "compensable injury" means any of the injuries described in subparagraph (2), (3), or (4) of this paragraph.

(2) *Patent infringement.* An injury sustained as a result of an infringement of a patent issued by the United States (whether or not issued to the taxpayer or another person or persons) constitutes a compensable injury. The term "patent issued by the United States" means any patent issued or granted by the United States under the authority of the Commissioner of Patents pursuant to 35 U.S.C. 153.

(3) *Breach of contract or of fiduciary duty or relationship.* An injury sustained as a result of a breach of contract (including an injury sustained by a third party beneficiary) or a breach of fiduciary duty or relationship constitutes a compensable injury.

(4) *Injury suffered under certain antitrust law violations.* An injury sustained in business, or to property, by reason of any conduct forbidden in the antitrust laws for which a civil action may be brought under section 4 of the Act of October 15, 1914 (15 U.S.C. 15), commonly known as the Clayton Act, constitutes a compensable injury.

(c) *Compensatory amount*—(1) *In general.* For purposes of this section, the term "compensatory amount" means any amount received or accrued during the taxable year as damages as a result of an award in, or in settlement of, a civil action for recovery for a compensable injury, reduced by any amounts paid or incurred in the taxable year in securing such award or settlement. The term "compensatory amount" includes only amounts compensating for actual economic injury. Thus, additional amounts representing punitive, exemplary, or treble damages are not included within the term. Where, for example, a taxpayer recovers treble damages under section 4 of the Clayton Act, only one-third of the recovery representing economic injury constitutes a compensatory amount. In the absence of any indication to the contrary, amounts received in settlement of an action shall be deemed to be a recovery for an actual economic injury except to the extent such settlement amounts exceed actual damages claimed by the taxpayer in such action.

(2) *Interest on a compensatory amount.* Interest attributable to a compensatory amount shall not be included within the term "compensatory amount." Where no interest (or an unrealistically low rate of interest) is stated, interest shall be imputed in accordance with the imputed interest provisions of section 483 and the regulations thereunder.

(3) *Settlement of a civil action for damages*—(i) *Necessity for an action.* The term "compensatory amount" does not include an amount received or accrued in settlement of a claim for a compensable injury if the amount is received or accrued prior to institution of an action. An action shall be considered as instituted upon completion of service of process upon all defendants in accordance with the laws of the jurisdiction in which the action has been commenced.

(ii) *Specifications of the parties.* If an action for a compensable injury is settled, the specifications of the parties will generally determine compensatory amounts unless such specifications are not reasonably supported by the facts and circumstances of the case. For example, the parties may provide that the sum of $1,000 represents actual damages sustained as the result of antitrust violations and that the total amount of the settlement after the trebling of damages is $3,000. In such case, only the sum of $1,000 would be a compensatory amount. In the absence of specifications of the parties, the complaint filed by the taxpayer may be considered in determining what portion of the amount of the settlement is a compensatory amount.

(4) *Amounts paid or incurred in secured in securing the award or settlement.* For purposes of this section, the term "amounts paid or incurred in the taxable year in securing such award or settlement" shall include legal expenses such as attorney's fees, witness fees, accountant fees, and court costs. Expenses incurred in securing a recovery of both a compensatory amount and other amounts from the same action shall be allocated among such amounts in the ratio each of such amounts bears to the total recovery. For instance, where a taxpayer incurs attorney's fees and other expenses of $3,000 in recovering $10,000 as a compensatory amount, $5,000 as a return of capital, and $25,000 as punitive damages from the same action, the taxpayer shall allocate $750 of the expenses to the compensatory amount (10,000/40,000×3,000), $375 to the return of capital (5,000/40,000×3,000), and $1,875 to the punitive damages (25,000/40,000×3,000).

(d) *Unrecovered losses*—(1) *In general.* For purposes of this section, the term "unrecovered losses sustained as a result of such compensable injury" means the sum of the amounts of the net operating losses for each taxable year in whole or in part within the injury period, to the extent that such net operating losses are attributable to such compensable injury, reduced by (i) the sum of any amounts of such net operating losses which were allowed as a net operating loss carryback or carryover for any prior taxable year under the provisions of section 172, and (ii) the sum of any amounts allowed as deductions under section 186(a) and this section for all prior taxable years with respect to the same compensable injury. Accordingly, a deduction is permitted under section 186(a) and this section with respect to net operating losses whether or not the period for carryover under section 172 has expired.

(2) *Injury period.* For purposes of this section, the term "injury period" means (i) with respect to an infringement of a patent, the period during which the infringement of the patent continued, (ii) with respect to a breach of contract or breach of fiduciary duty or relationship, the period during which amounts would have been received or accrued but for such breach of contract of breach of fiduciary duty or relationship, or (iii) with respect to injuries sustained by reason of a violation of section 4 of the Clayton Act, the period during which such injuries were sustained. The injury period set forth in a judgment will be conclusive as to the length of the injury period. If an action is settled, the specifications of the parties will generally determine the length of the injury period unless such specifications are not reasonably supported by the facts and circumstances of the case. In the absence of specifications of the parties, the complaint filed by the taxpayer may be considered in determining the length of the injury period.

(3) *Net operating losses attributable to compensable injuries.* A net operating loss for any taxable year shall be treated as attributable (whether actually attributable or not) to a compensable injury to the extent the compensable injury is sustained during the taxable year. For purposes of determining the extent of the compensable injury sustained during a taxable year, a judgment for a compensable injury apportioning the amount of the recovery to specific taxable years within the injury period will be conclusive. If a judgment for a compensable injury does not apportion the amount of the recovery to specific taxable years within the injury period, the amount of the recovery will be prorated on a daily basis among the years within the injury period. If an action is settled, the specifications of the parties will generally determine the apportionment of the amount of the recovery unless such specifications are not reasonably supported by the facts and circumstances of the case. In the absence of specifications of the parties, the amount of the recovery will be prorated on a daily basis among the years within the injury period.

(4) *Application of losses attributable to a compensable injury.* If only a portion of a net operating loss for any taxable year is attributable to a compensable injury, such portion shall (in applying section 172 for purposes of this section) be considered to be a separate net operating loss for such year to be applied after the other portion of such net operating loss. If, for example, in the year of the compensable injury the net operating loss was $1,000 and the amount of the compensable injury was $600, the amount of $400 not attributable to the compensable injury would be used first to offset profits in the carryover or carryback periods as prescribed by section 172. After the amount not attributable to the compensable injury is used to offset profits in other years, then the amount attributable to the compensable injury will be applied against profits in the carryover or carryback periods.

(e) *Effect on net operating loss carryovers*—(1) *In general.* Under section 186(e) if for the taxable year in which a compensatory amount is received or accrued any portion of the net operating loss carryovers to such year are attributable to the compensable injury for which such amount is received or accrued, such portion of the net operating loss carryovers must be reduced by the excess, if any, of (i) the amount computed under section 186(e)(1) with respect to such compensatory amount, over (ii) the amount computed under section 186(e)(2) with respect to such compensable injury.

(2) *Amount computed under section 186(e)(1).* The amount computed under section 186(e)(1) is equal to the deduction allowed under section 186(a) with respect to the compensatory amount received or accrued for the taxable year.

(3) *Amount computed under section 186(e)(2).* The amount computed under section 186(e)(2) is equal to that portion of the unrecovered losses sustained as a result of the compensable injury with respect to which, as of the beginning of the taxable year, the period for carryover under section 172 has expired without benefit to the taxpayer, but only to the extent that such portion of the unrecovered losses did not reduce an amount computed under section 186(e)(1) for any prior taxable year.

(4) *Increase in income under section 172(b)(2).* If there is a reduction for any taxable year under subparagraph (1) of

V 37-84 APR 29 72 XUM

this paragraph in the portion of the net operating loss carryovers to such year attributable to a compensable injury, then, solely for purposes of determining the amount of such portion which may be carried to subsequent taxable years, the income of such taxable year, as computed under section 172(b)(2), shall be increased by the amount of the reduction computed under subparagraph (1) of this paragraph, for such year.

(f) *Illustration.* The provisions of section 186 and this section may be illustrated by the following example:

Example. (i) As of the beginning of his taxable year 1969, taxpayer A has a net operating loss carryover from his taxable year 1966 of $550 of which $250 is attributable to a compensable injury. In addition, he has a net operating loss attributable to the compensable injury of $150 with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer. In 1969, he receives a $100 compensatory amount with respect to that injury and he has $75 in other income. Thus, A has gross income of $175 and he is entitled to a $100 deduction (the compensatory amount received) under section 186(a) and this section since this amount is less than the unrecovered losses sustained as a result of the compensable injury ($250+$150=$400). No portion of the net operating loss carryover to the current taxable year attributable to the compensable injury is reduced under section 186(e) since the amount determined under section 186(e)(1) ($100) does not exceed the amount determined under section 186(e)(2) ($150). Therefore, A applies a net operating loss carryover of $550 against his remaining income of $75 and retains a net operating loss carryover of $475 to following years of which amount $250 remains attributable to the compensable injury. In addition, he retains $50 of net operating losses attributable to the compensable injury with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer.

(ii) In 1970, A receives a $200 compensatory amount with respect to the same compensable injury and has $75 of other income. Thus, A has gross income of $275 and he is entitled to a $200 deduction (the compensatory amount received) under section 186(a) and this section since this amount is less than the remaining unrecovered loss sustained as a result of the compensable injury ($250+$50=$300). The net operating loss carryover to the current taxable year of $250 attributable to the compensable injury is reduced under section 186(e) by $150, which is the excess of the amount determined under section 186(e)(1) ($200) over the amount determined under section 186(e)(2) ($50). Therefore, A applies net operating loss carryovers of $325 ($225 not attributable to the compensable injury, +$100 attributable to such injury) against his remaining income of $75. A retains net operating loss carryovers of $250 for following years, of which amount $100 is attributable to the compensable injury. A has used all of his net operating losses attributable to the compensable injury with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer.

(iii) In 1971, A receives a $200 compensatory amount with respect to the same compensable injury and has $75 of other income. Thus, A has gross income of $275 and he is entitled to a $100 deduction (the amount of unrecovered losses) under section 186(a) and this section since this amount is less than the compensatory amount received ($200). The net operating loss carryover to the current taxable year of $100 attributable to the compensable injury is reduced under section 186(e) by $100, which is the excess of the amount determined under section 186(e)(1) ($100) over the amount determined under section 186(e)(2) ($0). Therefore, A applies net operating loss carryovers of $150 against his remaining income of $175 ($100 compensatory amount plus $75 other income) which leaves $25 taxable income. No net operating loss carryover remains for following years.

(g) *Effective date.* The provisions of this section are applicable as to compensatory amounts received or accrued in taxable years beginning after December 31, 1968, even though the compensable injury was sustained in taxable years beginning before such date.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[43 CFR Part 23]

SURFACE EXPLORATION, MINING AND RECLAMATION OF LANDS

Reclamation Costs

The purpose of this amendment is to provide a fund in which moneys collected for surface reclamation purposes under permits or contracts for disposal of minerals will be deposited. There will be no change in the amount of payment required from purchasers.

In accordance with the Department's policy on public participation in rule making (36 F.R. 8336), interested parties may submit written comments, suggestions, or objections with respect to the proposed rules to the Director (210), Bureau of Land Management, Washington, D.C. 20240 until May 30, 1972.

Copies of comments, suggestions, or objections made pursuant to this notice will be available for public inspection in the Office of Information, Bureau of Land Management, Room 5643, Interior Building, Washington, D.C., during regular business hours (7:45 a.m.–4:15 p.m.).

Paragraph (c) of § 23.2 of Part 23, Title 43, Code of Federal Regulations is revised to read as follows:

§ 23.2 Scope.

. . . . . .

(c) When more than one permit or contract is expected to be issued to dispose of materials in a particular deposit or tract of land, such as community pits or common use areas, no requirement for reclamation will be made in such permits or contracts and the burden of reclamation will be assumed by the Government. In such cases where reclamation is not required in the permit or contract, the permittee or contracting party shall, in addition to payment of the sales price required under his permit or contract, make a reasonable contribution, as determined by the authorized officer, to defray the cost to the Government of reclamation of the land. Such contribution will be deposited in a separate account. In computing such added contribution, the authorized officer shall establish the estimated cost of reclamation upon completion of extractive operations for the deposit and the estimated total volume of material to be extracted. The contribution shall be a proportionate share of the estimated cost of reclamation in the same ratio as the material sold under the permit or contract bears to the total estimated volume of the deposit which is expected to be extracted.

. . . . . .

HARRISON LOESCH,
Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 912]

GRAPEFRUIT GROWN IN THE INDIAN RIVER DISTRICT IN FLORIDA

Proposed Limitation on Overshipment

Notice is hereby given that the Department is considering a proposed amendment, as hereinafter set forth, to the rules and regulations (Subpart—Rules and Regulations, 7 CFR Part 912.120–912.151), currently in effect pursuant to the applicable provisions of the amended marketing agreement and Order No. 912 (7 CFR Part 912), regulating the handling of grapefruit grown in the Indian River District in Florida. This is a regulatory program effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674).

This amendment of said rules and regulation was proposed by the Indian River Grapefruit Committee, established under said amended marketing agreement and order, as the agency to administer the terms and provisions thereof. The amendment would increase the total quantity of grapefruit from 500 boxes or 10 percent of total allotment to 1,000 boxes or 10 percent of total allotment which may be handled in excess of the total allotment assigned to each handler, under § 912.49, during periods of regulation as authorized by § 912.50. It is the committee's contention that such increase would alleviate the overshipment problem which has been and could be encountered by handlers in maintaining an adequate level of grapefruit movement, during periods of extended regulation.

The amendment would add a new § 912.152 *Overshipment limit*, to read as follows:

§ 912.152 Overshipment limit.

During any week for which the Secretary has fixed the total quantity of grapefruit which may be handled, any person who has received an allotment may, as authorized by § 912.50, handle, in addition to the total allotment available to him, an amount of grapefruit equivalent to 10 percent of such total allotment or 1,000 boxes, whichever is greater.

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment shall file the same, in quadruplicate, with the Hearing Clerk, Room 112, Administrative Building, Washington, D.C. 20250, not later than the 10th day after publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: April 26, 1972.

PAUL A. NICHOLSON,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Reg. 5]

FEDERAL HEALTH INSURANCE FOR THE AGED

Provider Recordkeeping Capability

Notice is hereby given pursuant to the Administrative Procedure Act (5 U.S.C. 552 et seq.) that the regulations set forth in tentative form below are proposed by the Commissioner of Social Security, with the approval of the Secretary of Health, Education, and Welfare. The proposed amendments relate to the recordkeeping capability of providers of services under Medicare and provide that: (1) An intermediary shall determine whether a newly certified provider has adequate recordkeeping capability sufficient for determining the cost of services furnished program beneficiaries before making payments to such provider; (2) an intermediary shall suspend Medicare payments at any time it ascertains that a provider's records are no longer adequate; and (3) the Secretary shall not enter into an agreement for participation in the Medicare program with an organization which has been adjudged insolvent or bankrupt under appropriate State or Federal law or with respect to which a court proceeding to make such a judgment is pending.

Prior to the final adoption of the proposed amendments, consideration will be given to any data, views, or arguments pertaining thereto which are submitted in writing in triplicate to the Commissioner of Social Security, Department of Health, Education, and Welfare Building, Fourth and Independence Avenue SW., Washington, DC 20201, within a period of 30 days from the date of publication of this notice in the FEDERAL REGISTER.

Copies of all comments received in response to this notice will be available for public inspection during regular business hours at the Washington Inquiries Section, Office of Public Affairs, Social Security Administration, Department of Health, Education, and Welfare, North Building, Room 3193, 330 Independence Avenue SW., Washington, DC 20201.

The proposed amendments are to be issued under the authority contained in sections 1102, 1814(b), 1815, 1833(a), 1861(v), and 1871, 49 Stat. 647, as amended, 79 Stat. 296–297, 79 Stat. 302, 79 Stat. 322, 79 Stat. 331; 42 U.S.C. 1302, 1395 et seq.

Dated: March 31, 1972.

ROBERT M. BALL,
Commissioner of Social Security.

Approved: April 24, 1972.

ELLIOT L. RICHARDSON,
Secretary of Health, Education, and Welfare.

1. Section 405.406 is amended by revising paragraph (a) and adding new paragraphs (c) and (d) to read as follows:

§ 405.406 Financial data and reports.

(a) *General.* The principles of cost reimbursement will require that providers maintain sufficient financial records and statistical data for proper determination of costs payable under the program. Standardized definitions, accounting, statistics, and reporting practices which are widely accepted in the hospital and related fields are followed. Changes in these practices and systems will not be required in order to determine costs payable under the principles of reimbursement. Essentially the methods of determining costs payable under title XVIII involve making use of data available from the institution's basic accounts, as usually maintained, to arrive at equitable and proper payment for services to beneficiaries.

. . . . . .

(c) *Recordkeeping requirements for new providers.* Before any payment is made to a new provider of services (as defined in § 405.605), the provider shall make available to its selected intermediary for examination its fiscal and other records for the purpose of determining such provider's ongoing recordkeeping capability and inform the intermediary of the date its initial health insurance cost reporting period will end. This examination is intended to assure that (1) the provider has an adequate ongoing system for furnishing the records needed to provide accurate cost data and other information capable of verification by qualified auditors and adequate for cost reporting purposes under section 1815 of the Act, and (2) that no financial arrangements exist that will thwart the commitment of the health insurance program to reimburse providers the reasonable cost of services furnished beneficiaries. The data and information to be examined includes cost, revenue, statistical, and other information pertinent to reimbursement including, but not limited to, that described in paragraph (d) of this section and § 405.453.

(d) *Continuing provider recordkeeping requirements.* (1) The provider shall furnish such information to the intermediary as may be necessary (i) to assure proper payment by the program, including the extent to which there is any common ownership or control (see § 405.427(b)(2) and (3)) between providers or other organizations, and as may be needed to identify the parties responsible for submitting program cost reports, (ii) to receive program payments, and (iii) to satisfy program overpayment determinations.

(2) The provider shall permit the intermediary to examine such records and documents as are necessary to ascertain information pertinent to the determination of the proper amount of program payments due. These records shall include, but not be limited to, matters of provider ownership, organization, and operation; fiscal and other recordkeeping systems; Federal income tax status; asset acquisition, lease, sale or other action; franchise or management arrangements; patient service charge schedules; matters pertaining to costs of operation; amounts of income received by source and purpose; and flow of funds and working capital.

(3) The provider shall furnish the intermediary copies of patient service charge schedules and changes thereto as they are put into effect. The intermediary shall evaluate such charge schedules to determine the extent to which they may be used for determining program payment and to adjust interim payments as may be necessary as a result of such changes.

(4) When an intermediary determines that a provider no longer maintains adequate records for the determination of reasonable cost under the health insurance program, payments to such provider shall be suspended until the intermediary is assured that adequate records are maintained.

2. Section 405.454 is amended by adding thereto a new paragraph (k) to read as follows:

§ 405.454 Payment to providers.

. . . . . .

(k) *Bankruptcy or insolvency of provider.* If the provider's financial condition as disclosed by its financial records or reports or other reliable information establishes that the provider is or shortly thereafter may well become insolvent or involved in bankruptcy proceedings, any current financing payment or interim payments shall be adjusted by the intermediary, notwithstanding any other regulation or program instruction regarding the timing or manner of such adjustments, to a level necessary to insure that no overpayment to the provider is made.

3. Subpart F of Part 405 is amended by adding thereto a new § 405.603 to read as follows:

FEDERAL REGISTER, VOL. 37, NO. 84—SATURDAY, APRIL 29, 1972

V 37-84
APR 29 72
XUM

§ 405.603 Acceptance of agreement by Secretary; bankruptcy and insolvency.

(a) *General.* An agreement to participate as a provider under the program will not be accepted by the Secretary from an organization which has been adjudged insolvent or bankrupt under appropriate State or Federal law or with respect to which a court proceeding to make such a judgment is pending under such law.

(b) *Application.* Prior to the Secretary's acceptance of an agreement from an applicant organization, an owner or officer (if a corporation) must furnish a statement in writing indicating whether or not such organization has been adjudged insolvent or bankrupt in any State or Federal court or a court proceeding to make such a judgment is pending. An organization which has been adjudged insolvent or bankrupt under appropriate State or Federal law, or with respect to which a court proceeding to make such a judgment is pending under such law, is excluded from participation because such organization (as distinguished from the court having jurisdiction over the bankruptcy or insolvency proceeding) would be unable to give satisfactory assurances of compliance with the requirements of title XVIII of the Act. However, if a provider participating and receiving payments under the health insurance program subsequently is adjudged insolvent or bankrupt by a court of competent jurisdiction, such financial condition itself would not terminate the provider's participation in the program.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-GL-22]

TRANSITION AREAS

Proposed Designation, Alteration and Revocation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area in the southern portion of the State of Wisconsin, revoke the Lone Rock, Wis., and Cecil, Wis., transition areas, and alter the following transition areas: Camp Douglas, Wis., Chicago, Ill., Green Bay, Wis., La Crosse, Wis., Madison, Wis., Milwaukee, Wis., Oshkosh, Wis., Plattesville, Wis., Sturgeon Bay, Wis., Dubuque, Iowa, Minneapolis, Minn., Eau Claire, Wis., and Wausau, Wis.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contracting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

The southern portion of the State of Wisconsin is covered with controlled airspace with the exception of a few small areas. The designation of the transition area is contained in many individual citations. In order to consolidate these designations, reduce radar vectoring problems, and make charting of these areas easier, the Federal Aviation Administration proposes to designate controlled airspace extending upward from 1,200 feet above the surface in the State of Wisconsin south of the 45° parallel. The Federal Aviation Administration believes this action will have no detrimental effect on the operation of any airspace user. The change in the Eau Claire airspace description will slightly enlarge the 700-foot transition area and the present 1,200-foot transition area north of the 45° parallel. This enlargement is required to protect three new instrument approach procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is added:

WISCONSIN

That airspace extending upward from 1,200 feet above the surface within the boundary of the State of Wisconsin south of the 45° parallel.

In § 71.181 (37 F.R. 2143), the following transition areas are amended by deleting reference to that airspace extending upward from 1,200 feet above the surface:

Camp Douglas, Wis.	Milwaukee, Wis.
Chicago, Ill.	Oshkosh, Wis.
Green Bay, Wis.	Platteville, Wis.
La Crosse, Wis.	Sturgeon Bay, Wis.
Madison, Wis.	

In § 71.181 (37 F.R. 2143), the following transition areas are deleted:

Lone Rock, Wis.	Cecil, Wis.

In § 71.181 (37 F.R. 2143), the following transition areas are amended as indicated:

Dubuque, Iowa—add "excluding State of Wisconsin".

Minneapolis, Minn.—add "excluding State of Wisconsin south of 45° parallel".

EAU CLAIRE, WIS.

That airspace extending upward from 700 feet above the surface within 14-mile radius of Eau Claire Municipal Airport (latitude 44°51'54" N., longitude 91°29'02" W.) and within 3½ miles each side of the Eau Claire ILS localizer northeast course extending from the 14-mile radius to 18 miles northeast of the airport; within 5 miles each side of the Eau Claire ILS localizer southwest course extending from the 14-mile radius to 15 miles southwest of the airport; and that airspace extending upward from 1,200 feet above the surface north of the 45° parallel within a 25½-mile radius of the Eau Claire VORTAC.

WAUSAU, WIS.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of the Wausau Municipal Airport (latitude 44°55'33" N., longitude 89°37'32" W.) and that airspace extending upward from 1,200 feet above the surface north of the 45° parallel within a 15-mile radius of the airport.

Issued in Des Plaines, Ill., on April 6, 1972.

H. W. POGGEMEYER,
Acting Director,
Great Lakes Region.

[FR Doc.72-6550 Filed 4-28-72;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 72-GL-18]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the control zone and transition area at La Crosse, Wis.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

Since designation of controlled airspace at La Crosse, Wis., three new instrument approach procedures have been developed for the La Crosse Municipal Airport. Accordingly, it is necessary to alter the La Crosse, Wis., control zone and transition area to adequately protect aircraft executing the new procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (37 F.R. 2056), the following control zone is amended to read:

LA CROSSE, WIS.

That airspace within a 5-mile radius of La Crosse Municipal Airport (latitude 43°52'38" N., longitude 91°15'21" W.); within 3 miles each side of the La Crosse VOR 322° radial extending from the 5-mile radius zone to 11½ miles northwest of the VOR; within 3 miles each side of the 305° and the 146° bearings from the La Crosse RBN, extending from the 5-mile radius zone to 6½ miles northwest of the RBN; and within 2½ miles each side of the La Crosse VOR 185° radial extending from the 5-mile radius zone to 5½ miles south of the VOR; and within 2 miles each side of the La Crosse ILS localizer north course, extending from the 5-mile radius zone to 9 miles north of the airport.

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

LA CROSSE, WIS.

That airspace extending upward from 700 feet above the surface within a 19-mile radius of the La Crosse Municipal Airport (latitude 43°52'38" N., longitude 91°15'21" W.) and that airspace extending upward from 1,200 feet above the surface in the area bounded by V129, V246, and the 44°46' parallel, and the area bounded by V2, V24, and V129.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

Issued in Des Plaines, Ill., on April 6, 1972.

H. W. POGGEMEYER,
Acting Director,
Great Lakes Region.

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 727]

[Administrative Order 624]

INDUSTRY COMMITTEE FOR TOBACCO AND COFFEE FARMS IN THE GENERAL AGRICULTURE INDUSTRY IN PUERTO RICO

Appointment To Investigate Conditions and Recommend Minimum Wages; Notice of Hearing

1. Pursuant to section 5 of the Fair Labor Standards Act of 1938 (29 U.S.C. 205), Reorganization Plan No. 6 of 1950 (3 CFR 1949-53, Comp., p. 1004), and 29 CFR Part 511, I hereby appoint Industry Committee No. 109-C for the Tobacco and Coffee Farms in the General Agriculture Industry in Puerto Rico.

2. Tobacco farms are defined as those engaged in the praparation of the soil, the planting, hand-planting, cultivating, harvesting, sowing, drying, packing, preparing, and delivery of tobacco.

3. Coffee farms are defined as those engaged in the planting, replanting, and cultivating of coffee trees (including the preparation of the soil); the harvesting of coffee; the removal of the pulp from the coffee bean; the washing, drying, hulling, and packing of the bean; and the conditioning of shade trees cultivated in connection with the growing of coffee.

4. In accordance with section 8 of the Act (29 U.S.C. 208) and Reorganization Plan No. 6 of 1950, I hereby convene this Committee. I refer to it the question of the minimum rate or rates of wages to be fixed for these designated classifications in the general agriculture industry in Puerto Rico. The minimum wage rates to be recommended by the Committee may not be in excess of $1.30 an hour.

5. Hearing will be held by this Industry Committee at the time and place indicated below. It shall investigate conditions in the classifications in the industry in Puerto Rico and the Committee, or any authorized subcommittee thereof, shall hear such witnesses and receive such evidence as may be necessary or appropriate to enable the Committee to perform its duties and functions under the Act.

6. The Industry Committee will meet in executive session at 9:30 a.m. and begin its public hearing at 10:30 a.m. on Monday, June 19, 1972, in the offices of the Wage and Hour Division on the seventh floor of the Condominio San Alberto Building, 1200 Ponce De Leon Avenue, Santurce, PR.

7. The Industry Committee shall recommend to the Administrator of the Wage and Hour Division of this Department the highest minimum wage rates (not less than the currently effective rates) which it determines, having due regard to economic and competitive conditions, will not substantially curtail employment in the industry and will not give the industry in Puerto Rico a competitive advantage over any industry in the United States, outside of Puerto Rico, the Virgin Islands, and American Samoa.

8. Whenever the Committee finds that a higher minimum wage may be determined for employees engaged in certain activities in the industry than may be determined for other employees in the industry, the Committee shall recommend such reasonable classifications within that industry as it determines to be necessary for the purpose of fixing for each classification the highest minimum wage rate that can be determined for it under the principles set forth herein which will not substantially curtail employment in such classification and will not give a competitive advantage to any group in the industry. No classification shall be made, however, and no minimum wage rate shall be fixed solely on a regional basis or on the basis of age or sex. In determining whether there should be classifications within an industry, in making such classifications, and in determining the minimum wage rates for such classifications, the Committee shall consider, among other relevant factors, the following: (a) Competitive conditions as affected by transportation, living, and production costs; (b) wages established for work of like or comparable character by collective labor agreements negotiated between employers and employees by representatives of their own choosing; and (c) wages paid for work of like or comparable character by employers who voluntarily maintain minimum wage standards in the industry.

9. The Administrator shall prepare an economic report containing such data as he is able to assemble pertinent to the matters referred to the Committee. Copies of this report may be obtained at the Washington, D.C., and Puerto Rican Offices of the U.S. Department of Labor as soon as they are completed and prior to the hearing. The Committee will take official notice of the facts stated in the economic report to the extent they are not refuted by evidence received at the hearing.

10. The procedure for Industry Committee No. 109-C for Puerto Rico shall be governed by the regulations published in Part 511 of Title 29, Code of Federal Regulations. As a prerequisite to participation, those regulations require, among other things, that interested persons shall file prehearing statements, containing certain specified data not later than June 9, 1972.

Signed at Washington, D.C., this 25th day of April 1972.

J. D. HODGSON,
Secretary of Labor.

CIVIL AERONAUTICS BOARD

[14 CFR Ch. II]

[Docket No. 24322; EDR-221A]

CERTAIN AIR CARRIERS AND FOREIGN AIR CARRIERS

Reporting Data Pertaining to Freight Origin-Destination Traffic Movement; Supplemental Notice of Proposed Rule Making

The Board, by circulation of notice of proposed rule making EDR-221, dated March 16, 1972, and published at 37 F.R. 6109, gave notice that it had under consideration the enactment of a new part of the economic regulations to establish a system of reporting freight origin-destination (O&D) traffic movement by certain air carriers and foreign air carriers. Interested persons were invited to participate by submission of twelve (12) copies of written data, views, or arguments pertaining thereto to the Docket Section of the Board on or before April 24, 1972.

Subsequent to the issuance of the notice of proposed rule making, letters were

V 37-84 APR 29 72 XUM

received from counsel for several carriers requesting extensions of the time for filing comments. Air France requests an extension to May 31, 1972; Air West and Piedmont Aviation, Inc., jointly, Delta Air Lines, Inc., and SABENA Belgian World Airlines request that the filing time be extended for 60 days; and Allegheny Airlines, Inc., requests a 90-day extension. The requests for extension allege, generally, that the complexity and novelty of the proposal necessitate additional time for the preparation of meaningful comments. Additionally, Air France points out that time has been lost in transmitting the notice to Paris, and that the proposal raises questions as to the regulations of the French authorities; SABENA says that the proposal raises a probable question with regard to applicable bilateral air transportation agreements. Moreover, Delta says that it and a number of other carriers have been engaged in a heretofore unsuccessful effort to develop joint comments, and that this has prevented such carriers from preparing either joint or individual comments.

The undersigned finds that good cause has been shown for an extension of the time for filing comments. However, an extension beyond June 1, 1972, is not warranted, and would conflict with the Board's evident desire to proceed expeditiously in this matter. It is believed that an extension to June 1, 1972, which will provide a total of 77 days for responding, should be sufficient to enable interested persons to study the proposal and prepare comments.

Accordingly, pursuant to the authority delegated in § 385.20(d) of the Board's Organization Regulations, the undersigned hereby extends the time for submitting comments to June 1, 1972.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324)

Dated: April 21, 1972.

[SEAL] ARTHUR H. SIMMS,
Associate General Counsel,
Rules and Rates.

CHARTER AIR TRAVEL

Extension of Time for Filing Comments

APRIL 26, 1972.

The Board, by circulation of notice of proposed rule making EDR-224, dated March 22, 1972 and published at 37 F.R. 6322, gave notice that it had under consideration proposed amendments to Parts 208 and 223 of its Economic Regulations (14 CFR Parts 208 and 223), which would permit supplemental air carriers engaged in overseas or foreign air transportation to provide free or reduced-rate overseas or foreign air transportation to employees of their own affiliates, and to utilize unused charter space for such purpose, with the consent of the charterers. Interested persons were invited to participate by submission of twelve (12) copies of written data, views, or arguments pertaining thereto to the Docket Section of the Board on or before April 27, 1972.

By letter dated April 25, 1972, counsel for World Airways, Inc. (World) requests an extension of time for filing comments, to May 8, 1972, citing the pressure of other assignments and the absence of key personnel from the city. Additionally, World points out that it was its application in Docket 23654 which prompted the instant proceeding, and World argues that it is thus one of the principal parties of interest and that its request for an extension of time would not unduly inconvenience others interested in the subject.

The undersigned finds that good cause has been shown for the requested extension of time for filing comments. Accordingly, pursuant to the authority delegated in § 385.20(d) of the Board's organization regulations, the undersigned hereby extends the time for submitting comments to May 8, 1972.

(Sec. 204(a) of the Federal Aviation Act of 1958, as amended, 72 Stat. 743; 49 U.S.C. 1324)

[SEAL] ARTHUR H. SIMMS,
Associate General Counsel,
Rules and Rates.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 19401]

FM BROADCAST STATIONS

Table of Assignments for Certain Cities; Order Extending Time for Filing Reply Comments

In the matter of amendment of § 73.202(b) *Table of Assignments*, FM Broadcast Stations. (Hampton, Pella, Cedar Rapids, and Charles City, Iowa; Keyser, W. Va.; Crystal River and Gainesville, Fla., Docket No. 19401, RM-1750, RM-1756, RM-1757, RM-1777, RM-1790, RM-1829.

1. The further notice of proposed rule making in the above-entitled proceeding was adopted on February 9, 1972, released February 14, 1972 and published in the FEDERAL REGISTER on February 17, 1972, 37 F.R. 3548. The date for filing comments has expired and the present date for filing reply comments is April 19, 1972.

2. On April 19, 1972 H. Brent Kelly, by his attorney, filed a request for an extension of time to and including May 1, 1972, in which to file reply comments. Counsel states that additional time will be necessary to analyze the counterproposal and comments filed in this proceeding.

3. We are of the view that the requested extension of time is warranted and would serve the public interest. *Accordingly, it is ordered*, That the time for filing reply comments in the above docket, RM-1757, RM-1777 and RM-1790 only, is extended to and including May 1, 1972.

4. This action is taken pursuant to authority found in sections 4(i) and 303(r) of the Communications Act of 1934, as amended, and § 0.281(d)(8) of the Commission's rules and regulations.

Adopted: April 21, 1972.

Released: April 24, 1972.

[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

[INT DES 72-50]

NUECES RIVER PROJECT, TEX.

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental statement on a proposed water supply project designed to furnish a water supply for municipal and industrial use in the Coastal Bend area of Texas, near Corpus Christi, Tex.

Copies are available for inspection at the following locations:

Office of Ecology, Room 7620, Bureau of Reclamation, Department of the Interior, Washington, D.C. 20240, Telephone (202) 343-4991.

Division of Engineering Support, Technical Services Branch, E&R Center, Denver Federal Center, Denver, Colo. 80225, Telephone (303) 234-3007.

Office of the Regional Director, Bureau of Reclamation, Herring Plaza, Box H-4377, Amarillo, TX 79101, Telephone (806) 376-2408.

Austin Development Office, Bureau of Reclamation, Post Office Box 1946, Federal Building, Austin, TX 78767, Telephone (512) 475-5641.

Single copies of the draft statement may be obtained on request to the Commissioner of Reclamation, Regional Director, or Austin Planning Officer. In addition, copies may be purchased from the National Technical Information Service, Department of Commerce, Springfield, Va. 22151.

Please refer to the statement number above.

Dated: April 24, 1972.

WILLIAM W. LYONS,
Deputy Assistant Secretary
of the Interior.

Final Date for Redemption of Warehouse-Storage Loans

Correction

In F.R. Doc. 72-6042 appearing on page 7818 of the issue of Thursday, April 20, 1972, the eighth date from the bottom in the third column of the table, now reading "May 11", should read "May 31".

Rural Electrification Administration

ASSOCIATED ELECTRIC COOPERATIVE, INC., SPRINGFIELD, MO.

Notice of Availability of Draft Environmental Statement

Notice is hereby given that the Rural Electrification Administration has prepared a draft environmental statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with loan applications from 43 distribution cooperatives supplied by Associated Electric Cooperative, Inc., of Springfield, Mo., through six member G&T systems. Funds thus provided relate to a proposed 345 kv. transmission line between Dixon, Mo., and the New Madrid plantsite in Missouri. Financing will involve Associated's wholly owned subsidiary known as Federated Electric Cooperative, Inc.

Additional information may be secured on request, submitted to Mr. James N. Myers, Assistant Administrator—Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA draft environmental statement have been sent to various Federal, State, and local agencies, as outlined in the Council on Environmental Quality Guidelines. The draft environmental statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue SW., Washington, DC, Room 4322, or at the borrower address indicated above.

Comments concerning the environmental impact of the construction proposed should be addressed to Mr. Myers at the address given above. Comments must be received with thirty (30) days of the date of publication of this notice to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 25th day of April 1972.

DAVID A. HAMIL,
Administrator,
Rural Electrification Administration.

DEPARTMENT OF COMMERCE

Bureau of Domestic Commerce

[BDC Emergency Delegation 1, Revised April 18, 1972]

REGIONAL PRODUCTION DIRECTORS

Emergency Delegation of Authority

1. *Authority*—This emergency delegation of authority is issued pursuant to the Defense Production Act of 1950, as amended (50 U.S.C. App. 2061 et seq.), Executive Order 10480 (3 CFR 1949-1953 Comp., p. 962) as amended, Defense Mobilization Order 8400.1 (32 CFR 15), Executive Order 11490 (3 CFR 1966-1970, Comp., p. 820), and Commerce Department Organization Order 40-1A (36 F.R. 4553 (1971)).

2. *Delegation to BDC Regional Production Directors*—(a) Subject to the limitations stated in section 4, in the event of an attack upon the United States, each Regional Production Director of the Bureau of Domestic Commerce (BDC), within his region, is delegated the powers enumerated in the Defense Production Act of 1950, as amended, which have been delegated to the Director, BDC, together with such other powers and authorities related to performance of national defense and industrial mobilization functions by the Director as may be hereafter vested in the Director.

(b) The authority delegated to each Regional Production Director of BDC shall be exercised only when communications between such Regional Production Director and the national headquarters of BDC are inoperative, and until the delegated authority is withdrawn by the Director, BDC.

(c) The geographic boundaries of the BDC regions in which each Regional Production Director is authorized to exercise the delegated powers and authorities correspond with the Office of Emergency Preparedness (OEP) regional boundaries and are shown in Schedule A of this emergency delegation.

3. *Delegation to Field Office Directors of the Office of Business Services, BDC*—(a) Subject to the limitations stated in section 4, in the event of an attack on the United States which has rendered communications inoperative between any Field Office Director of the Office of Business Services, BDC, (hereafter Field

V 37-84 APR 29 72 XUM

Office Director) and his cognizant Regional Production Director, and BDC national headquarters, such Field Office Director, within his Field Office jurisdiction, is delegated the same powers which are delegated to the Regional Production Directors in section 2 of this emergency delegation.

(b) The authority delegated by this section to each Field Office Director shall be exercised by each Field Office Director only until communications become operative between his Field Office and his cognizant Regional Production Director or national headquarters of BDC, and until the authority is withdrawn by the Regional Production Director or by the Director of BDC. The Field Office emergency jurisdictional and geographic boundaries are shown in Schedule B of this emergency delegation. Where two BDC Field Offices are located in a State, the territorial jurisdictions which governed preattack operations within the State will continue to apply postattack.

4. *Limitations*—(a) Control of the production, distribution, and use of certain materials and facilities is vested in departments and agencies of the Government other than BDC. These materials and facilities are listed in Schedule C of this delegation.

(b) Pursuant to the January 14, 1964, Memorandum of Understanding between the Office of Emergency Planning (now the Office of Emergency Preparedness) and the Office of Civil Defense, control of the distribution of secondary resources is the responsibility of States and subdivisions thereof in the immediate postattack period. Secondary resources include retail and intrastate wholesale inventories within a single State. They are to be distinguished from primary resources, which consist of interstate wholesale inventories and producer inventories and facilities. The production, distribution and use of primary resources are under BDC control. The authorities delegated in sections 2 and 3 hereof pertain exclusively to resources under BDC control and shall be exercised in the interest of national defense, survival and recovery in accordance with the provisions of OEP DMO 8500.1A (32 CFR 16), "Guidance on Priority Use of Resources in Immediate Postattack Period," and in conformity with policies, rules, regulations and orders of BDC and OEP.

5. *General*—Examples of the authorities and types of actions which may be taken pursuant to the Defense Production Act of 1950, as amended, are shown in Schedule D of this emergency delegation.

6. *Succession to position of BDC Regional Production Director*—In the event of the death, disability, nondesignation, or other nonavailability of any Regional Production Director of BDC, the following persons shall act in that capacity in the order of succession indicated below.

(1) The Field Office Director designated in Schedule E of this emergency delegation;

(2) The first BDC Executive Reservist assigned to the BDC/OEP Regional Office to arrive at that Office.

7. *Succession to position of Field Office Director*—(a) In the event of the death, disability, or other nonavailability of any Field Office Director, the first BDC Executive Reservist holding an appointment in the line of succession for Field Office Director to arrive at the Field Office Alternate Relocation Site shall serve as Acting Director.

(b) In any case in which a Field Office Director shall become Regional Production Director by force of this delegation, the senior domestic professional member of his staff shall serve as Acting Field Office Director in priority to Executive Reservists assigned to such Field Office, unless some other professional staff member is designated in the Business Services Field Office Emergency Readiness Plan as first in the line of succession to serve as Acting Director.

8. *Redelegations*—The authority herein delegated may be redelegated to any officer, employee or agency of the Government.

This delegation shall take effect April 18, 1972, and supersedes BDC Emergency Del. 1, as amended, February 6, 1968 (33 F.R. 2861).

SCHEDULE C TO BDC EMER. DEL. 1

REVISED

(See Sec. 4 of Emer. Del. 1)

The following resources and activities are not subject to BDC control pursuant to E.O. 10480, E.O. 11490, and such agreements and delegations as noted.

1. Production and distribution of, and use of facilities for petroleum, solid fuels, gas, electric power, and water;

2. Production, processing, distribution, and storage of food resources and the use of food resource facilities for such production, processing, distribution, and storage;

3. Domestic distribution of farm equipment and fertilizer;

4. Domestic distribution of medical end items (April 12, 1971, Memorandum of Understanding Between BDC and Public Health Service);

5. Use of communications services and facilities, housing and lodging facilities, and health, education, and welfare facilities;

6. Production and distribution of minerals and those materials and facilities delegated by the Secretary of Commerce to the Secretary of Interior on January 26, 1967 (32 F.R. 2462);

7. Distribution of items in the supply systems of, or controlled by, the Department of Defense and Atomic Energy Commission;

8. Construction, use, and management of civil aviation facilities; and

9. Construction and use of highways, streets, and appurtenant structures.

SCHEDULE D TO BDC EMER. DEL. 1

REVISED

(See Sec. 5 of Emer. Del. 1)

Types of actions which may be taken under authority of the Defense Production Act of 1950, as amended.

1. Priorities and allocations authorities (sec. 101):

a. To authorize or require use of priorities and to issue directives;

b. To require preference in the performance of a contract or order;

c. To require rescheduling of production and deliveries;

d. To issue "set-aside" orders requiring producers to reserve part of or all production for certain purposes;

e. To require use of a producer's facilities for production of designated products (allocation of facilities);

f. To establish inventory restrictions;

g. To limit delivery of materials to designated purchasers or classes of purchasers (allocation of materials).

2. Authority to expand productive capacity and supply (sec. 301).

3. Authority to guarantee loans to expedite production and deliveries or services (sec. 302).

4. Authority to issue regulations (sec. 704).

5. Authority to obtain information (sec. 705).

SCHEDULE E TO BDC EMER. DEL. 1

REVISED

(See Sec. 6(1) of Emer. Del. 1)

Directors of the listed BDC Field Offices are first in the line-of-succession for Director of the listed BDC Regional Offices.

[Docket No. 50-309]

MAINE YANKEE ATOMIC POWER CO.

Order Scheduling Prehearing Conference

On November 9, 1971, the Atomic Energy Commission published in the FEDERAL REGISTER (36 F.R. 21421) a notice of hearing to consider the application filed by the Maine Yankee Atomic Power Co. (applicant), for a facility operating license which would authorize the operation of a pressurized water reactor (facility), identified as the Maine Yankee Atomic Power Station. That notice designated an Atomic Safety and Licensing Board (Board) to conduct the hearing, specified the issues to be determined by the Board, provided for intervention by certain petitioners with respect to those issues, and provided an opportunity to make limited appearances to other persons who wished to make a statement in the proceeding but who did not wish to intervene. Pursuant to such authorization, notice is hereby given that a prehearing conference in the captioned proceeding will be held on May 17, 1972, in Wiscasset, Maine.

All members of the public are entitled to attend this prehearing conference and any subsequent prehearing conferences as well as the full evidentiary sessions of the hearing in this proceeding. The prehearing conference on May 17, 1972, however, will be conducted in accordance with § 2.752 of 10 CFR Part 2 of the Commission's rules of practice which provides for the development of procedures for the evidentiary hearing which will be scheduled for a later time and public notice given. The procedures to be considered on May 17 will be related to identification of parties, simplification and clarification of issues, discussion of procedures to be followed at the hearing and other matters which will aid in the conduct and expeditious disposition of the case to be presented in a full public hearing at a later date.

The prehearing conference on May 17, 1972, will not receive any evidence, nor will there be an opportunity for presentation of statements from members of the public who desire to make limited appearances for that purpose. All statements that members of the public desire to make in this proceeding by way of limited appearance pursuant to § 2.715 of the rules of practice will be received on the initial day or days of the evidentiary hearing which will be scheduled at a later date, public notice of which will be given, both by publication and by notice sent by mail directly to all members of the public who have requested to be notified.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission, that a prehearing conference in this proceeding shall convene at 10 a.m. on Wednesday, May 17, 1972, in the Hearing Room, Municipal Building, Route 1, Wiscasset, Maine 04578.

V 37-84 APR 29 72 XUM

[Docket No. 50-309]

MAINE YANKEE ATOMIC POWER CO.

Notice of Availability of Applicant's Environmental Report and Draft Detailed Statement on Environmental Considerations

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in Appendix D to 10 CFR Part 50, notice is hereby given that a report entitled "Supplement to Environmental Report—Maine Yankee Atomic Power Company" has been place in the Commission's Public Document Room at 1717 H Street NW., Washington, DC, and has been sent to the Wiscasset Public Library Association, High Street, Wiscasset, Maine. The report is also being made available at the State Planning Office, Executive Department, State of Maine, 189 State Street, Augusta, ME.

This report discusses environmental considerations related to the proposed operation of the Maine Yankee Atomic Power Station located in Lincoln County, Maine. This report supersedes the environmental report submitted on November 4, 1970, in its entirety.

The report has been analyzed by the Commission's Division of Radiological and Environmental Protection, and a draft detailed statement of the environmental considerations related to the proposed operation of the Maine Yankee Atomic Power Station, dated April 1972, has been prepared and has been made available for public inspection at the locations designated above. Copies of the Commission's April 1972, draft detailed statement on environmental considerations may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection. This draft detailed statement supersedes the April 9, 1971, draft detailed statement for which a notice of availability was published in the FEDERAL REGISTER on April 20, 1971 (36 F.R. 7474).

Interested persons may, within thirty (30) days from date of publication of this notice in the FEDERAL REGISTER, submit comments on the proposed action, the report, and the draft detailed statement for the Commission's consideration. Federal and State agencies are being provided with copies of the report and the draft detailed statement (local agencies may obtain these documents on request), and when comments thereon of the Federal, State, and local officials are received, they will be made available for public inspection at the above-designated locations. Comments from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Director, Division of Radiological and Environmental Protection.

Dated at Bethesda, Md., this 27th day of April 1972.

For the Atomic Energy Commission.

R. C. DEYOUNG,
Assistant Director for Pressurized Water Reactors, Division of Reactor Licensing.

[Docket No. 22908; Order 72-4-127]

PAN AMERICAN WORLD AIRWAYS, INC.

Order Regarding Engagement in Capacity Reduction Discussions in New York/Newark-San Juan Market

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 24th day of April 1972.

By telegraphic application dated April 24, 1972, American Airlines, Inc., requests a 30-day extension of the discussion authority in the New York/Newark-San Juan market granted by the Board in Order 72-1-86, January 25, 1972. The authority granted in that order was for a period of 90 days and was due to expire on April 24, 1972.[1] Pan American and Eastern by telegram have filed in support of American's request, and counsel for the Commonwealth of Puerto Rico has informally indicated the Commonwealth's support for the request.

The Board has considered the foregoing and has reviewed the factors which prompted grant of the authority in Order 72-1-86, and has determined to grant American's request. It appears that all of the circumstances which in the Board's view warranted a continuation of the discussions to reduce capacity in this market at the time Order 72-1-86 was adopted, still obtain.[2]

Therefore, we shall extend for a 30-day period the discussion authority granted in Order 72-1-86 subject to all the conditions as stated in that order.

Accordingly, it is ordered, That:

1. Ordering paragraph 1(h) be and it hereby is amended to read as follows:

> The relief granted herein shall expire within 120 days of the date of this order and may be revoked or amended at any time in the discretion of the Board; and

2. Copies of this order shall be served on the persons named in the appendix attached to Order 72-1-86.

[1] The request seeking that previous authority was tendered by Pan American and supported by American and Eastern, and was unopposed (Delta requested inclusion in the discussions and/or restrictions on freed up capacity).

[2] The Board's figures show that load factors in this market ranged from 50 percent–66 percent in January 1972, and from 47 percent–60 percent in February 1972.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-6598 Filed 4-28-72;8:49 am]

FEDERAL POWER COMMISSION

[Docket No. CP72-241]

NORTHERN NATURAL GAS CO.

Notice of Application

APRIL 25, 1972.

Take notice that on April 10, 1972, Northern Natural Gas Co. (applicant), 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP72-241 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing applicant to construct and operate certain natural gas compressor facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant seeks authority to construct and operate three 1,000 horsepower compressor units on its N. E. Oates System located in Pecos County, Tex. Applicant states that during the past year (January 1971 to January 1972) the delivery capability of the wells on its Oates System, comprised of wells in the N. E. Oates, Pikes Peak, and Perry Bass Fields, all in Pecos County, has declined from approximately 174,000 Mcf of gas per day to 135,000 Mcf of gas per day. Applicant further states that current projections are that the deliverability from this system, at present line pressures, will decline to approximately 100,000 Mcf of gas per day by the end of 1972. Applicant has determined that a reduction of its gathering line pressures by 300 to 400 p.s.i.g. through the use of the proposed compressor units will increase the deliverability of the Oates System by approximately 30,000 Mcf of gas per day. Applicant states that this increase and the expected connection of approximately 15,000 Mcf of gas per day of new gas currently developed in the N. E. Oates Field will provide it with approximately 145,000 Mcf of gas per day of deliverability from the Oates System for use in meeting the requirements of its customers during the 1972–73 heating season. Applicant also indicates that the proposed compressor facilities will be adequate to enable it to undertake reductions in gathering pressures it projects will become necessary to meet its contract pressure obligations during 1973.

Total cost of the proposed facilities is estimated to be $1,073,000, which will be financed from cash on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 16, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI72-681]

PENNZOIL UNITED, INC.

Notice of Application

APRIL 26, 1972.

Take notice that on April 20, 1972, Pennzoil United, Inc. (applicant), 900 Southwest Tower, Houston, Tex. 77002, filed in Docket No. CI72-681 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Corporation (Texas) from the Kildare Field Area, Cass County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant commenced the sale of natural gas to Texas on April 6, 1972, within the contemplation of § 157.29 of the regulations under the Natural Gas Act and proposes to continue said sale for 1 year from the expiration of the 60-day emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 75,000 Mcf of gas per month at 35 cents per Mcf at 14.65 p.s.i.a.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before May 8, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Project 1764]

CHARLES R. AND LaDORIS J. SNELLSTROM

Notice of Proposed Termination of License for Constructed Minor Project

APRIL 24, 1972.

Public notice is hereby given of a proposal under the provisions of § 6.4 of the regulations under the Federal Power Act (18 CFR 6.4), to terminate the license for constructed minor project No. 1764, located on Darwin Wash at Lower Darwin Falls in Inyo County, Calif., and affecting lands of the United States.

Section 6.4 of the regulations reads as follows:

> If any licensee holding a license subject to the provisions of section 10(1) of the Act shall cause or suffer essential project property to be removed or destroyed, or become unfit for use, without replacement, or shall abandon, or shall discontinue good faith operation of the project for a period of 3 years, the Commission will deem it to be the intent of the licensee to surrender the license; and not less than 90 days after public notice may in its discretion terminate the license.

V 37-84 APR 29 72 XUM

The license for Project No. 1764 was transferred to Charles R. and LaDoris J. Snellstrom of Lone Pine, Calif., by Commission order issued February 24, 1969. The project, as licensed, consists of a collecting flume and box, a steel pipeline about 4.5 miles long, a powerhouse having an installed capacity of 13 horsepower, and a short length of low-voltage electric power line.

The February 24, 1969, order approving transfer of the license to the present licensees made them subject to all the conditions of the license to the same extent as though they were the original licensees for the project. Moreover, the order approving transfer provided that the project (which has been inoperable for more than 3 years) must be rehabilitated, that the transferees shall submit within 3 months of the issuance date of the transfer order a schedule of the rehabilitation of the project, and that the transferees shall restore the project to an operating condition within 1 year of the issuance date of the order. The transferees have not complied with these conditions.

Any person desiring to be heard or to make any protest with reference to the above matter should on or before August 4, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene, statements of position or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All statements of position or protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing herein must file petitions to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

NEUWIRTH INCOME DEVELOPMENT CORP. ET AL.

Notice of Withdrawal of Application; Order Discontinuing Proceeding on Application

APRIL 25, 1972.

Neuwirth Income Development Corp. (Development), Neuwirth Fund, Inc. (Neuwirth), Neuwirth Century Fund, Inc. (Century), Middletown Bank Building, Middletown, N.J., and Neuwirth Securities, Inc. (Securities) (collectively referred to as "Applicants"), 79 Wall Street, New York, NY, filed an application pursuant to sections 6(c) and 11(a) of the Investment Company Act of 1940 (Act) requesting an order of the Commission to permit an offer of exchange and to grant an exemption from section 22(d). The application, as amended, requested relief from the aforesaid provisions of the Act in order to permit shareholders of Development to exchange all or a part of their shares for shares of Neuwirth or Century at their respective offering prices (net asset value plus a maximum sales charge of 8½ percent) less the applicable sales charge paid by such shareholders upon the purchase of Development shares so exchanged. Development shares are sold at net asset value plus a maximum sales charge of 1¾ percent. Applicants had proposed that the portion of the differential sales charge paid on any such exchange which was not retained by Securities would be allocated to dealers effecting the exchange.

On March 13, 1972, the Commission issued a notice and order for hearing on the application, as amended (Investment Company Act Release No. 7063). The hearing, originally scheduled for April 17, 1972, was subsequently postponed until April 27, 1972. On April 17, 1972, prior to the commencement of the hearing, Applicants requested withdrawal of the application without prejudice to their right to apply to the Commission at a later time.

It is ordered, That the proceeding on the application, as amended, filed pursuant to sections 6(c) and 11(a) to permit an offer of exchange and for exemption from section 22(d) be, and hereby is, discontinued.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[812-3093]

NORTHWESTERN MUTUAL LIFE INSURANCE CO., AND NML VARIABLE ANNUITY ACCOUNT 2

Notice of Application

APRIL 25, 1972.

Notice is hereby given that the Northwestern Mutual Life Insurance Co. (NML), a mutual life insurance company organized in 1857 by a special statute of the legislature of the State of Wisconsin, and NML Variable Annuity Account 2 (Account 2), 720 East Wisconsin Avenue, Milwaukee, WI 53202, a unit investment trust registered under the Investment Company Act of 1940 (Act), hereinafter collectively called "Applicants," have filed an application pursuant to section 6(c) of the Act for an order of exemption to the extent noted below from the provisions of sections 22(d) and 26(a) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Account 2 was established by NML to offer immediate nontax qualified individual variable annuity contracts. The minimum amount for which a contract may be acquired is $5,000.

Under the contract a purchaser makes a single payment which is invested (net of various deductions) through Account 2 in shares of NML Fund, Inc. (Fund), a Maryland corporation and an open-end, diversified management investment company registered under the Act. A contract may also be acquired in exchange for an existing contract issued by Northwestern Mutual or by the settlement of benefits under such a contract. The contracts provide lifetime variable annuity payments beginning immediately. The amount of the annuity payments subsequent to the first will fluctuate as the value of the Fund shares fluctuates.

Under Wisconsin insurance laws Account 2 is an integral part of NML. The latter holds all of the assets of Account 2 and is responsible for the performance of the obligations of Account 2 under the contracts. However, under Wisconsin insurance laws, the income, gains and losses, realized and unrealized, of Account 2 are credited to or charged against the amounts allocated to Account 2 in accordance with the terms of the contracts without regard to other income, gains or losses of Northwestern Mutual; and the assets of Account 2 are not chargeable with any liabilities arising out of any other business of NML.

Applicants request exemption from the following provisions of the Act to the extent stated below.

Section 22(d) provides, in pertinent part, that no registered investment company shall sell any redeemable security issued by it to any person except at a current offering price described in the prospectus. The contracts will provide for a reduced sales and administrative expense charge of 1 percent plus $50 in lieu of the regular graded charge on amounts derived from the value of other insurance policies or annuity contracts previously issued by NML and exchanged for an Account 2 contract, or on death benefits payable under such previously issued insurance policies or fixed annuity contracts which are settled under a contract.

Applicants state that the reduced charge on amounts transferred from other NML insurance policies or annuity contracts appropriately recognizes that sales charges have previously been charged against the amounts paid on such policies or contracts, and the purpose of the reduced charge is to avoid cumulative sales charges.

Applicants state further that the proposed $50 deduction corresponds to the one-time $50 administrative fee which NML has charged for some time with respect to the issuance of fixed benefit immediate annuities and settlements under certain noncontractual settlement options. Applicants state that the $50 deduction is designed to defray administrative expenses of issuing and maintaining the contracts and has been determined by cost accounting methods based upon NML historical costs in connection with fixed benefit retirement annuities.

Section 26(a), in pertinent part, prohibits a depositor or principal underwriter for a registered unit investment trust from selling any security issued by such a trust unless the security is issued pursuant to a trust indenture, agreement of custodianship or other instrument which provides that (i) the securities and other property of the trust shall be held in the possession of a qualified custodian or trustee, (ii) the custodian or trustee shall not resign until either the trust has been liquidated or a qualified successor custodian or trustee has been appointed, (iii) that the custodian or trustee may collect from income and, if necessary, from the corpus of the trust fees for services performed and reimbursement of expenses incurred, (iv) that no payment to the depositor or principal underwriter shall be allowed the custodian or trustee as an expense except a fee, not exceeding such reasonable amount as the Commission may prescribe, for performing bookkeeping and other administrative services delegated to the depositor or principal underwriter and (v) that the trust indenture, agreement of custodianship or other instrument provide that a record will be kept of the interest of each holder of a security, and that security holders be notified as to any substitution of underlying securities.

In support of the requested exemption from the foregoing provisions of section 26 of the Act, Applicants state that there is no trust indenture or agreement of custodianship used in connection with Account 2. The assets of Account 2 are owned by NML pursuant to the requirements of Wisconsin insurance law. Applicants further state that the Wisconsin statutes expressly provide that the life insurance company shall not be, or hold itself out to be, a trustee with respect to these assets. Applicants state therefore, that it follows that NML would not be permitted to place this property in trust in the hands of another for the benefit of persons who purchased the contracts.

Applicants also state that the net proceeds under the contracts allocated to account 2 will be invested in "book" shares of the Fund, so that ownership of these shares will only be shown on the books and records of Account 2 and the Fund, and that such shares will not be evidenced by transferable stock certificates.

Applicants further state that Northwestern Mutual is subject to extensive supervision and control by the Wisconsin Commissioner of Insurance; that under Wisconsin law neither Account 2 nor NML may abrogate their obligations; that NML had total assets of over $6 billion at December 31, 1971; and that its officers and employees are covered by a fiduciary bond in the amount of $1 million. Therefore, Applicants state, such jurisdiction, bond, financial and legal requirements afford the required protections of custodianship or trusteeship which section 26(a) is designed to provide. Applicants contend, therefore, that it is appropriate that NML have custody of the assets of Account 2.

The substance of the recordkeeping and notification requirements of section 26 will be provided as an incident to normal administration of the contracts. NML will maintain a record of the names and addresses of the persons having interest in Account 2 and within 5 days after any substitution of the underlying securities will either deliver or mail to each holder of a contract a notification of such substitution, stating the number of Fund shares eliminated and identifying the securities purchased.

Applicants have consented to the requested exemption being subject to the following conditions:

(1) That charges to variable annuity contract holders for administrative services shall not exceed such reasonable amount as the Commission shall prescribe, jurisdiction being reserved for such purpose; and

(2) That the payment of sums and charges out of the assets of the separate account shall not be deemed to be exempted from regulation by the Commission by reason of the order: *Provided*, That consent to this condition shall not be deemed to be a concession to the Commission of authority to regulate the payment of sums and charges out of such assets, other than charges for administrative services, and Applicants reserve the right, in any proceeding before the Commission or in any suit or action in any court, to assert that the Commission has no authority to regulate the payment of such other sums and charges.

Section 6(c) of the Act provides that the Commission, by order upon application, may conditionally or unconditionally exempt any persons or transactions from any provision or provisions of the Act, if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than May 16, 1972 at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such

V 37-84
APR 29 72
XUM

request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address stated above. Proof of such service by affidavit (or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in the matter including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

[FR Doc.72–6585 Filed 4–28–72;8:48 am]

[File 2–24477 (22–4051)]

WARNER-LAMBERT CO.

Notice of Application and Opportunity for Hearing

APRIL 24, 1972.

Notice is hereby given that Warner-Lambert Co. (the "Company") has filed an application under clause (ii) of section 310(b)(1) of the Trust Indenture Act of 1939 (the "Act") for a finding by the Commission that the trusteeship of the Irving Trust Co. (Irving Trust) under an indenture dated March 1, 1966 (the "1966 Indenture"), which was qualified under the Act, the trusteeship of Irving Trust under an Indenture dated August 1, 1968 (the "1968 Indenture"), which was not qualified under the Act, and the trusteeship of Irving Trust under a new indenture to be dated as of April 2, 1972 (the "New Indenture"), which will not be qualified under the Act, is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Irving Trust from acting as trustee under any of said Indentures.

Section 310(b) of the Act provides in part that if a trustee under an indenture qualified under the Act has or shall acquire any conflicting interest (as defined in such section), it shall within 90 days after ascertaining that it has such conflicting interest either eliminate such conflicting interest or resign. Subsection (1) of such section provides, inter alia, that with certain exceptions, a trustee under a qualified indenture shall be deemed to have a conflicting interest if such trustee is trustee under another indenture under which any other securities of the same obligor (as defined in the Act) are outstanding. However, under clause (ii) of subsection (1), there may be excluded from the operation of this provision another indenture under which other securities of such obligor are outstanding, if the burden of proving shall be sustained, on application to the Commission and after opportunity for hearing thereon, that the trusteeship under such qualified indenture and such other indenture is not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify such trustee from acting as trustee under one of such indentures.

The Company alleges that:

(1) As of December 31, 1971, there were outstanding $3,876,000 principal amount of 4¼ percent Guaranteed Debentures Due 1981, issued under an indenture dated March 1, 1966, among Warner-Lambert International Corp. (International), the Company, and Irving Trust which was qualified under the Act. The 1966 Debentures are guaranteed by the Company.

(2) As of December 31, 1971, Warner-Lambert Overseas, Inc. (Overseas), a wholly owned subsidiary of the company, had outstanding $12,803,000 principal amount of its 4½ percent. Convertible Guaranteed Debentures due 1988 issued under an indenture dated August 1, 1968, among Overseas, the Company, and Irving Trust as Trustee, which was not qualified under the Act. The 1968 Debentures are also guaranteed by the Company.

(3) Under an indenture, to be dated as of April 2, 1972, between the Company and Irving Trust, the Company proposes to issue $40 million principal amount of its 4¾ percent Convertible Debentures due 1987 for sale to purchasers who are not nationals or residents of the United States. In the opinion of the Company's Counsel, the New Debentures need not be registered under the Act and the New Indenture need not be qualified under the Act.

(4) The 1966 Indenture, the 1968 Indenture, and the New Indenture are wholly unsecured and the Company and International are not in default under the 1966 Indenture and the Company and Overseas are not in default under the 1968 Indenture. The rights of the holders of the 1966 Debentures and the 1968 Debentures, pursuant to the guarantees thereof by the Company and the rights of the holders of the New Debentures rank equally with each other.

(5) Such differences as exist among the 1966 Indenture, the 1968 Indenture and the New Indenture are not so likely to involve a material conflict of interest as to make it necessary in the public interest or for the protection of investors to disqualify Irving Trust from acting as Trustee under any of said Indentures.

The Company has waived notice of hearing and any and all rights to specify procedures under the rules of practice of the Securities and Exchange Commission in connection with the matter.

For a more detailed statement of the matters of fact and law asserted here, all persons are referred to said application, which is a public document on file in the offices of the Commission, at 500 North Capitol Street, Washington, DC 20549.

Notice is further given that any interested person may, not later than May 17, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. At any time after said date, the Commission may issue an order granting the application, upon such terms and conditions as the Commission may deem necessary or appropriate in the public interest and the interest of investors, unless a hearing is ordered by the Commission.

For the Commission, by the Division of Corporation Finance, pursuant to delegated authority.

[SEAL] RONALD F. HUNT,
Secretary.

SELECTIVE SERVICE SYSTEM

REGISTRANTS PROCESSING MANUAL

The Registrants Processing Manual is an internal manual of the Selective Service System. The material contained in Chapter 625 is considered to be of sufficient interest to warrant publication in the FEDERAL REGISTER. Therefore, Chapter 625 is set forth in full as follows:

CHAPTER 625—REOPENING AND CONSIDERING ANEW A REGISTRANT'S CLASSIFICATION

SECTION 625.1 *Classification not permanent.* 1. No classification is permanent. When the basis for a registrant's current classification no longer exists, or the expiration date of the classification has been reached, the classification shall be reopened, and the registrant classified anew.

2. Each classified registrant except a registrant classified in Class 1–H shall, within 10 days after it occurs, report to the local board in writing any fact that might result in his being placed in a different classification, such as any change in his occupational, marital, military, or dependency status, or in his physical condition. Every registrant, including a registrant in Class 1–H, must keep his local board informed of his current mailing address.

3. The local board shall keep informed of the status of registrants, except those classified in Class 1–H. Registrants may be requested to furnish information, and may be forwarded for Armed Forces examination. Employers may be requested to furnish information, police officials or other agencies may be requested to make investigation, and other steps may be taken by the local board to keep currently informed concerning the status of registrants.

SEC. 625.2 *Reopening of classification.* The local board shall reopen and consider anew the classification of a registrant:

(1) Upon the written request of the Director of Selective Service or the State Director of Selective Service and upon receipt of such request shall immediately cancel any Order to Report for Induction, Selection for Alternate Service, or Order to Report for Alternate Service which may have been issued to the registrant;

(2) Who is in Class 1–H and becomes subject to processing for induction;

(3) In any classification for the purpose of classifying him in Class 1–H when he becomes eligible for that classification;

(4) Upon its own motion if such action is based upon facts not considered when the registrant was classified which, in the opinion of the board, would justify a change in the registrant's classification; or

(5) Upon the written request of the registrant that is accompanied by written information presenting facts not considered when the registrant was classified which, if true in the opinion of the board, would justify a change in the registrant's classification. For purposes of reopening, the local board will consider the facts presented by the registrant to be true unless there is evidence in the registrant's file to the contrary, or the registrant's claim is plainly unbelievable. A registrant who makes false statements to his local board is subject to criminal penalties: *Provided*, That in the event of (4) or (5) the classification of a registrant shall not be reopened after the local board has mailed to such registrant an order for induction or alternate service or in the event the order to report for induction or alternate service was postponed and a subsequent letter from the local board establishes the date for induction or for reporting for alternate service, unless the local board, in its judgment, first specifically finds there has been a change in the registrant's status resulting from circumstances over which the registrant had no control.

SEC. 625.3 *Refusal to reopen and consider anew registrant's classification.* 1. When a registrant files with the local board a written request for reclassification and the local board is of the opinion that the information accompanying the request fails to present any facts not considered when the registrant was classified or, even if new facts are presented, the local board is of the opinion that the new facts, if true, would not justify a change in his classification, it shall not reopen the classification.

2. In any case where the local board refuses to reopen, it shall (1) place in the registrant's file a written statement of the reasons for its decision not to reopen his classification, and (2) advise the registrant by letter of its decision and the reasons therefor.

SEC. 625.4 *Classification considered anew when reopened.* When the local board reopens the registrant's classification, it shall consider the new information which it has received, together with all other information in the registrant's file, and shall then classify the registrant in the same manner as if he had never been classified. Such classification shall have the effect of a new and original classification, even if the registrant is again placed in the same class that he was in prior to his classification being reopened.

SEC. 625.5 *Notice of action when classification considered anew.* When the local board reopens the registrant's classification, it shall, as soon as practicable after it has again classified the registrant, mail him a Notice of Classification (SSS Form 110).

SEC. 625.6 *Procedural rights following reopening of classification.* Each classification resulting from a reopening under the provisions of this chapter shall be followed by the right of appearance before the local board and the right of appeal to the appeal board as in the case of an original classification.

SEC. 625.7 *Cancellation of order to report for induction, selection for alternate service or order to report for alternate service by reopening of classification.* 1. The reopening of the classification of a registrant by his local board shall cancel any Order to Report for Induction (SSS Form 252), Selection for Alternate Service (SSS Form 155), or Order to Report for Alternate Service (SSS Form 153) which may have been issued to the registrant, except that if the registrant has failed to comply with either the SSS Form 252 or SSS Form 153, the reopening of his classification thereafter by the local board for the purpose of placing him in Class 4–C shall not cancel the order with which he failed to comply.

2. When a registrant's order to report for induction or for alternate service is canceled, the registrant shall be notified in writing of the cancellation.

SELECTIVE SERVICE SYSTEM

SPECIAL FORM FOR CONSCIENTIOUS OBJECTOR

The purpose of this questionnaire is to assist your local board in determining whether you qualify for classification as a conscientious objector. Before you answer the questions you may wish to read the pamphlet, "Conscientious Objector," which is available at your local board office.

Print or type, on separate sheets of paper, a statement answering the questions below. Sign both your statement and this form. Attach your statement to the form and mail or deliver them to your local board.

[1] Copies of this form are available from any local board.

To be classified as a conscientious objector you must be opposed to war in any form. Your objection must be based on moral or ethical beliefs, or beliefs which are commonly accepted as religious. Your beliefs must influence your life as the belief in God influences the life of one who is a traditionally religious conscientious objector. To qualify, your conscience must be spurred by deeply held moral, ethical, or religious beliefs which would give you no peace if you allowed yourself to become a combatant member of the Armed Forces.

Include in your statement, if possible, responses to the following. If you wish you may attach letters of reference from persons who know you or any other information you would like to bring to the attention of your local board.

1. Describe the beliefs which are the basis for your claim for classification as a conscientious objector.

2. Will your beliefs permit you to serve in a position in the Armed Forces where the use of weapons is not required? If not, why?

3. Explain how you acquired the beliefs which are the basis of your claim. Your answer may include such information as the influence of family members or other persons; religious training, if applicable; experiences at school; membership in organizations; books and readings which influenced you. You may wish to provide any other information which will help in explaining why you believe as you do.

4. Explain what most clearly shows that your beliefs are deeply held.

5. Do your beliefs affect the way you live? Describe how your beliefs affect the type of work you will do to earn a living or the types of activity you participate in during nonworking hours?

6. Describe any specific actions or incidents of your life that show you believe as you do.

Check the Box in Front of the Statement Which Applies to Your Claim

☐ I claim exemption only from training or service as a combatant member of the Armed Forces (Class 1–A–O).

☐ I claim exemption from any training or service as a member of the Armed Forces (Class 1–O).

On March 7, 1972, the Attorney General petitioned the Subversive Activities Control Board for a determination that the above organizations now on the Attorney General's List have ceased to exist. The petitions are published in accordance with the rules of the Subversive Activities Control Board.

Notice is hereby given pursuant to Executive Order 11605 and the rules of the Subversive Activities Control Board issued in accordance therewith that hearings on the petitions will be held Tuesday, May 23, 1972, at 11 a.m., in Room 500, 2120 L Street NW., Washington, D.C. 20037.

JOHN W. MAHAN,
Chairman, Subversive Activities Control Board.

[Docket No. E72–112]

In regard German-American Republican League. Petition for a determination pursuant to section 12(1) of Executive Order No. 10450 as amended by Executive Order 11605.

Pursuant to section 12(1) of Executive Order 10450 as amended by Executive Order No. 11605, issued July 2, 1971, 36 F.R. 12831, the Attorney General, by counsel, petitions this Board for a determination that the German-American Republican League has ceased to exist.

Records of the Department of Justice reflect that the aforementioned organization ceased to exist on or about 1942. There is no record of any known activity since that date.

The last known address of the above-named organization was c/o Kurt Mertig, 317 East 54th Street, New York 22, NY.

Therefore, the Government petitions this Board for a determination in accordance with section 12(1) of Executive Order 10450, as amended, that the German-American Republican League has ceased to exist on or about the above date.

In the absence of a specific request from the Board, at least 10 days prior to any hearing date that may be set for this matter, the Department of Justice does not plan to make any further factual showing with respect to this petition.

For the Attorney General.

ORAN H. WATERMAN,
Attorney, Department of Justice.

CERTIFICATE OF SERVICE

Pursuant to § 201.56 of the regulations of the Subversive Activities Control Board (Room 500, 2120 L Street NW., Washington, DC 20037), on proceedings under Executive Order No. 11605, issued July 2, 1971, a copy of the attached petition has been mailed this 7th day of March 1972 to the German-American Republican League at the following last known address: c/o Kurt Mertig, 317 East 54th Street, New York, NY.

For the Attorney General.

ORAN H. WATERMAN,
Attorney, Department of Justice.

[Docket No. E 72–113]

In regard German-American Vocational League (Deutsche-Amerikanische Berufsgemeinschaft). Petition for a determination pursuant to section 12(1) of Executive Order No. 10450 as amended by Executive Order 11605.

Pursuant to section 12(1) of Executive Order 10450 as amended by Executive Order No. 11605, issued July 2, 1971, 36 F.R. 12831, the Attorney General, by counsel, petitions this Board for a determination that the German-American Vocational League has ceased to exist.

Records of the Department of Justice reflect that the aforementioned organization ceased to exist on or about 1943. There is no record of any known activity since that date.

The last known address of the above-named organization was 228 East 86th Street, New York, NY.

Therefore, the Government petitions this Board for a determination in accordance with section 12(1) of Executive Order 10450, as amended, that the German-American Vocational League has ceased to exist on or about the above date.

In the absence of a specific request from the Board, at least 10 days prior to any hearing date that may be set for this matter, the Department of Justice does not plan to make any further factual showing with respect to this petition.

For the Attorney General.

ORAN H. WATERMAN,
Attorney, Department of Justice.

CERTIFICATE OF SERVICE

Pursuant to § 201.56 of the regulations of the Subversive Activities Control Board (Room 500, 2120 L Street NW., Washington, DC 20037), on proceedings under Executive Order No. 11605, issued July 2, 1971, a copy of the attached petition has been mailed this 7th day of March 1972 to the German-American Vocational League, at the following last known address: 228 East 86th Street, New York, NY.

For the Attorney General.

ORAN H. WATERMAN,
Attorney, Department of Justice.

[Docket No. E72–114]

In regard Guardian Club. Petition for a determination pursuant to section 12(1) of Executive Order No. 10450 as amended by Executive Order 11605.

Pursuant to section 12(1) of Executive Order 10450 as amended by Executive Order No. 11605, issued July 2, 1971, 36 F.R. 12831, the Attorney General, by counsel, petitions this Board for a determination that the Guardian Club has ceased to exist.

Records of the Department of Justice reflect that the aforementioned organization ceased to exist on or about 1954. There is no record of any known activity since that date.

The last known address of the above-named organization was 311 Mount Vernon Court, San Antonio, TX.

Therefore, the Government petitions this Board for a determination in accordance with section 12(1) of Executive Order 10450, as amended, that the Guardian Club has ceased to exist on or about the above date.

In the absence of a specific request from the Board, at least 10 days prior to any hearing date that may be set for this matter, the Department of Justice does not plan to make any further factual showing with respect to this petition.

For the Attorney General.

ORAN H. WATERMAN,
Attorney, Department of Justice.

The last known address of the above-named organization was 2221 Third Avenue, Seattle, WA.

Therefore, the Government petitions this Board for a determination in accordance with section 12(1) of Executive Order 10450, as amended, that the Independent People's Party has ceased to exist on or about the above date.

In the absence of a specific request from the Board, at least 10 days prior to any hearing date that may be set for this matter, the Department of Justice does not plan to make any further factual showing with respect to this petition.

For the Attorney General.

THOMAS E. MARUM,
Attorney, Department of Justice.

CERTIFICATE OF SERVICE

Pursuant to § 201.56 of the regulations of the Subversive Activities Control Board (Room 500, 2120 L Street NW., Washington, DC 20037), on proceedings under Executive Order No. 11605, issued July 2, 1971, a copy of the attached petition has been mailed this 7th day of March 1972 to the Independent People's Party at the following last known address: 2221 Third Avenue, Seattle, WA.

For the Attorney General.

THOMAS E. MARUM,
Attorney, Department of Justice.

[Docket No. E72-127]

In regard International Labor Defense. Petition for a determination pursuant to section 12(1) of Executive Order No. 10450 as amended by Executive Order 11605.

Pursuant to section 12(1) of Executive Order 10450 as amended by Executive Order No. 11605, issued July 2, 1971, 36 F.R. 12831, the Attorney General, by counsel, petitions this Board for a determination that the International Labor Defense has ceased to exist.

Records of the Department of Justice reflect that the aforementioned organization ceased to exist on or about April 1946. There is no record of any known activity since that date.

The last known address of the above-named organization was 112 East 19th Street, New York City, NY.

Therefore, the Government petitions this Board for a determination in accordance with section 12(1) of Executive Order 10450, as amended, that the International Labor Defense has ceased to exist on or about the above date.

In the absence of a specific request from the Board, at least 10 days prior to any hearing date that may be set for this matter, the Department of Justice does not plan to make any further showing with respect to this petition.

For the Attorney General.

THOMAS E. MARUM,
Attorney, Department of Justice.

TARIFF COMMISSION

[TEA-W-140]

SPERRY RAND CORP.

Workers' Petition for Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers of the Elmira, N.Y., plant of the Remington Rand Production Division of Sperry Rand Corp., the U.S. Tariff Commission, on April 26, 1972, instituted an investigation under section 301(c)(2) of the act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with electronic desk calculators (of the types provided for in item 676.20 of the Tariff Schedules of the United States (TSUS)), electric typewriters and manual typewriters (of the types provided for in item 676.05 of the TSUS) and typewriter parts (of the types provided for in item 676.50 of the TSUS) manufactured by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such company.

The petitioners have not requested a public hearing. A hearing will be held on request of any other party showing a proper interest in the subject matter of the investigation, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in room 437 of the customhouse.

Issued: April 26, 1972.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[TEA-W-141]

WILSON SHOE CORP.

Workers' Petition for Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers of the Wilson Shoe Corp., Shamokin, Pa., the U.S. Tariff Commission, on April 26, 1972, instituted an investigation under section 301(c)(2) of the act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for women and misses (of the types provided for in items 700.43 and 700.45 of the Tariff Schedules of the United States) manufactured by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such company.

The petitioners have not requested a public hearing. A hearing will be held on request of any other party showing a proper interest in the subject matter of the investigation, provided such request is filed within 10 days after the notice is published in the FEDERAL REGISTER.

The petition filed in this case is available for inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in room 437 of the customhouse.

Issued: April 26, 1972.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

[Notice 54]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73446. By order of April 21, 1972, the Motor Carrier Board approved the transfer to Ardis I. Wilson, doing business as Sager-Wilson Travel Agency, Madison, Wis., of Broker License No. MC 12756 issued March 23, 1962, to Frank V. Sager, doing business as Sager Travel Agency, Madison, Wis., authorizing the holder to engage in operations as a broker at Madison, Wis., in arranging for the transportation of: Passengers and their baggage, in special and charter operations, beginning and ending at points in Dane and Green Counties, Wis., and extending to points in the United States, except Alaska and Hawaii. James C. Herrick, attorney, Post Office Box 1767, Madison, WI 53703.

No. MC-FC-73554. By order of April 24, 1972, the Motor Carrier Board approved the transfer to B. M. Underwald Trucking, Inc., Linden, N.J., of the operating rights in certificate No. MC-106058 issued October 21, 1949, to W. L. Trucking Co., Inc., Scotch Plains, N.J., authorizing the transportation of such bulk commodities as are transported in dump trucks, from Bound Brook, N.J., to New York, N.Y., and points in Nassau, Westchester, and Rockland Counties, N.Y. Bert Collins, 140 Cedar Street, New York, NY 10006, representative for applicants.

No. MC-FC-73569. By order of April 24, 1972, the Motor Carrier Board approved the transfer to T H S Corp., Jersey City, N.J., of the operating rights in permits Nos. MC-118808 (Sub-No. 4) and MC-118808 (Sub-No. 10) and portions of MC-118808 (Sub-No. 2) and MC-118808 (Sub-No. 11) issued July 29, 1963, April 6, 1970, December 10, 1970, and July 28, 1970, repectively to ABC Express Co., a corporation, Philadelphia, Pa., authorizing the transportation of various commodities between specified points and areas in New York, New Jersey, Pennsylvania, Delaware, Maryland, and Connecticut. [Notice 59]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 25, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 112963 (Sub-No. 26 TA), filed April 6, 1972. Applicant: ROY BROS. INC., 764 Boston Road, Pinehurst, MA 01866. Applicant's representative: Leonard E. Murphy (same address as above). DEPARTMENT OF THE TREASURY

Internal Revenue Service

[Price Commission Ruling 1972-146]

BUYER'S SPECIFICATIONS UNDER CUSTOM PRODUCTS/SERVICES RULES

Price Commission Ruling

Facts. X is a heavy construction firm. It is negotiating a contract to build an atomic power plant for the U.S. Government. In describing its needs, the Government (buyer) generally outlined its need and X produced the proper drafting, engineering, and other technical specifications. Upon presentation of these seller-produced specifications, the buyer approved them and a contract was entered into.

Y is a manufacturer. He has been asked to produce specially a certain item described generally by the buyer. At the buyer's request, Y provided the specifications of the product to meet the buyer's needs. Buyer accepted these specifications and contracted with Y for the production of the item.

Issue. Under such circumstances can the products and services to be produced or provided qualify as "custom" products or services for determination of base price under Economic Stabilization Regulation, 6 CFR 300.410(a), 37 F.R. 5223 (March 11, 1972)?

Ruling. Yes. Under § 300.410(a) a custom product or service is defined as a product or service "• • • specially produced • • • to the buyer's or buyers' specifications • • •". In instances such as in the facts above, and other similar cases, the buyer is incapable of providing more than a description of the general features and end result which he desires. In such a case although the seller actually provides the specifications, they are at the buyer's request, must meet with his approval, and are, in effect, adopted by him. Where the buyer is incapable of providing the precise specification but approves technical specifications which the seller produces to meet the buyer's needs, such specifications may be considered "buyer's specifications" for purposes of § 300.410(a) if the product or service is to be specially produced or provided to meet a buyer's general specifications.

This ruling has been approved by the General Counsel of the Price Commission.

Dated: April 21, 1972.

[Price Commission Ruling 1972-148]

BASE PRICE; ACQUISITION; NEW PROPERTY OR NEW SERVICE

Price Commission Ruling

Facts. X, a new and used car dealer provides a full range of repair services for automobiles except that X has never offered automobile body repair service. The sole business of Y, another company, is the performance of automobile body repair work. The owner of Y wishes to sell his business and retire. X purchases Y in order to be able to offer a full range of repair service.

Issue. Whether X may determine the base price for the automobile body repair service under the provision of § 300.409 of the Economic Stabilization Regulations?

Ruling. Yes. Since the automobile body repair service is substantially different from the previous repair services offered by X and X has not offered an automobile body repair service at any time during the 1-year period immediately preceding the date on which X purchased the automobile body repair service, the service qualifies as a new service under § 300.409. Section 300.409(a) provides in part as follows:

> For the purposes of this section, • • • "new services" means • • • any service which—(1) meets the requirements of the first three sentences of paragraph (b) of this section and was not offered for sale • • • by the person at any time during the 1-year period immediately preceding the date of which he is offering the • • • service for sale • • •. 6 CFR 300.409(a), 37 F.R. 3913 (February 24, 1972).

V 37-84 APR 29 72 XUM

Person includes any individual, partnership, company, firm or corporation. 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971). The person referred to in § 300.409 is the person which performs the services which is claimed to qualify as "new". In the present case, X and Y are persons before the purchase. However, after the purchase, X is the person offering the automobile body repair service. Since X has never previously offered that service, the automobile body service will qualify as a new service if the service meets the requirements of the first three sentences of subsection (b). Section 300.409 (b) provides in part as follows:

To be considered as • • • new service • • • a • • • service must be substantially different from other • • • services in purpose, function, quality, or technology, or the use of that • • • service must effect a substantially different result. 6 CFR 300.409(b), 37 F.R. 3913 (February 24, 1972).

Since an automobile body repair service is substantially different from the prior repair service offered by X, the body repair service meets the substantially different test. Thus, X may determine the base price of the automobile body repair service by either of the two methods contained in § 300.409(c). 6 CFR 300.409(c), 36 F.R. 23974 (December 16, 1971).

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972-149]

CANDY DEPARTMENT

Price Commission Ruling

Facts. Department Store A has a candy department. A does not have any other departments that sell food or food products. The candy may be purchased in prearranged boxes or in varied arrangements according to customer preferences.

Issue. Under Economic Stabilization Regulation § 300.13(b), must the prices of all the candies be posted as food products, or just to 40 items which had the highest dollar volume.

Ruling. Candy is a food product within the meaning of Economic Stabilization Regulation § 300.13(b), 6 CFR 300.13(b), 36 F.R. 23974 (December 16, 1971), amended by 37 F.R. 2843 (February 8, 1972), and as such, in the situation involving a retail department store with a candy department, the normal posting requirements provided by subsection (b)(1)(i) should be followed.

This ruling has been approved by the General Counsel of the Price Commission.

[Price Commission Ruling 1972-150]

INCREASE IN RENT UNDER A LEASE EXECUTED BEFORE AUG. 15, 1971, EFFECTIVE AFTER JAN. 1, 1972

Price Commission Ruling

Facts. Lessor L and tenant A execute a lease January 1, 1971, for a period of 1 year at a monthly rent of $200. In July 1971, L and A execute a new lease for 1 year on the same residence. The new lease is effective January 1, 1972, at a monthly rent of $225. The highest price charged by L on at least 10 percent of the same or substantially identical units on which leases were transacted during the period beginning July 16, 1971, and ending August 14, 1971, was $200 per month. On January 1, 1972, L increases A's monthly rent to $225, pursuant to the terms of the new lease.

Issue. Is the increase in A's monthly rent on January 1, 1972, pursuant to the terms of the new lease executed July 1, 1971, and which takes effect January 1, 1972, controlled by Part 300?

Ruling. Yes. The increase in monthly rent on January 1, 1972, is not controlled by Part 301, as no "transaction" occurred after December 28, 1971. Economic Stabilization Regulations, 6 CFR 301.101, 36 F.R. 25384 (December 30, 1971). The increase in monthly rent is, however, controlled by Part 300, as § 300.11(a) of the regulations states: "No person may charge a price with respect to any sale or lease of an item of property or a service after November 13, 1971, which exceeds the base price (or other price authorized under this part) for that item of property or that service." Economic Stabilization Regulations, 6 CFR 300.11(a), 37 F.R. 3828 (February 23, 1972).

Section 300.11 originated as § 300.011 in 36 F.R. 21792 (November 13, 1971), which read as follows: "Except as otherwise provided in this subpart, no person may charge a price or rent, with respect to any transaction involving sales or leases of property or services occurring after November 13, 1971, which exceeds the base price as determined under the rules prescribed in Subpart F of this part."

In amending out of § 300.011 that part of the operating provision referring to a "transaction" occurring after November 13, 1971, § 300.11 now clearly evidences the intent that Part 300 is to control where no "transaction" occurs after December 28, 1971, but where an increase in price over base price occurs after November 13, 1971, for a particular item of property. An increase in monthly rent over base rent which occurs after November 13, 1971, with respect to real property is such a price increase on property prohibited by § 300.11(a).

An application of the provisions of the November 13 regulations for leases of real property determines base rent as the highest price charged for the rental of at least 10 percent of the same or substantially identical units on which leases were transacted during the freeze base period. Economic Stabilization Regulations, 6 CFR 300.507(b), 36 F.R. 21792 (November 13, 1971), as amended 6 CFR 300.407(b), 36 F.R. 23974 (December 16, 1971). The freeze base period is the period beginning July 16, 1971, and ending August 14, 1971, or, if no "transactions" occurred during that period, the nearest preceding 30-day period in which a "transactions" occurred. Economic Stabilization Regulations, 6 CFR 300.5, 36 F.R. 23974 (December 16, 1971).

Base rent for A's residence under the 10 percent test is $200 per month. Under § 300.11(a), therefore, L cannot charge A rent in excess of $200 per month.

This ruling has been approved by the General Counsel of the Price Commission.

[Pay Board Ruling 1972-31; Cost of Living Council Ruling 1972-46]

FAIR LABOR STANDARDS ACT

Pay Board Ruling; Cost of Living Council Ruling

Facts. A, a Texas corporation, is in the business of manufacturing wood specialties. Until February 24, 1972, A had sold its products exclusively within Texas. On that date, at a meeting between A's corporate management and X, a prospective customer from Oklahoma, it was decided that A would provide all of X's requirements for wood specialties. It was also agreed that A would begin a promotional program in surrounding States to market more of its specialty products. A has been paying its employees at a wage rate which is less than the minimum standard required by the Fair Labor Standards Act of 1938, 29 U.S.C. section 206(a)(1). In order to raise its employees' wages to a rate which would comply with the aforementioned section, A would have to increase wages some 26 percent above the rate its employees were paid prior to February 24, 1972.

Issue. May A raise employees' wages to comply with the Fair Labor Standards Act, without regard to the general wage and salary standard?

Ruling. Yes. A is allowed to raise wages to the extent necessary to comply with the Fair Labor Standards Act, even though such raise is in excess of the 5.5 percent standard. The authority for this opinion is found in the Economic Stabilization Regulations, 6 CFR 101.103, 37 F.R. 1237 (January 27, 1972), which states that "this title (Title 6) shall not be exercised to preclude the payment of any pay adjustment: (1) Required under the Fair Labor Standards Act of 1938 • • •." Accordingly, even though a 26 percent wage increase is normally far in excess of Stabilization guidelines, the foregoing special provision allows employees to catch up to basic minimum wage standards when the employer for whom they work becomes engaged in the production of goods for interstate commerce. (See also Economic Stabilization Regulation, 6 CFR 201.57(e), 37 F.R. 7619 (April 18, 1972).)

This ruling has been approved by the General Counsels of the Pay Board and the Cost of Living Council.

Office of the Secretary

[Dept. Circular Public Debt Series—No. 5-72]

4¾ PERCENT TREASURY NOTES OF SERIES E-1973

Offering of Notes

APRIL 27, 1972.

I. *Offering of notes.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders at a price not less than 99.76 percent of their face value for $1,250,000,000, or thereabouts, of notes of the United States, designated 4¾ percent Treasury Notes of Series E-1973. An additional amount of the notes will be allotted by the Secretary of the Treasury to Government accounts and Federal Reserve Banks at the average price of accepted tenders in exchange for Treasury notes maturing May 15, 1972. Tenders will be received up to 1:30 p.m., e.d.s.t., Tuesday, May 2, 1972, under competitive and noncompetitive bidding, as set forth in section III hereof. The 4¾ percent Treasury Notes of Series B-1972 and 6¾ percent Treasury Notes of Series D-1972, maturing May 15, 1972, will be accepted at par in payment, in whole or in part, to the extent tenders are allotted by the Treasury.

II. *Description of notes.* 1. The notes will be dated May 15, 1972, and will bear interest from that date at the rate of 4¾ percent per annum, payable semiannually on November 15, 1972, and May 15, 1973. They will mature May 15, 1973, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. Provision will be made for the interchange of notes of different denominations and of coupon and registered notes, and for the transfer of registered notes, under rules and regulations prescribed by the Secretary of the Treasury.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing U.S. notes.

III. *Tenders and allotments.* 1. Tenders will be received at Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington, D.C. 20220, up to the closing hour, 1:30 p.m., e.d.s.t., Tuesday, May 2, 1972. Each tender must state the face amount of notes bid for, which must be $1,000 or a multiple thereof, and the price offered, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a price. In the case of competitive tenders, the price must be expressed on the basis of 100, with two decimals, e.g., 100.00. Tenders at a price less than 99.76 will not be accepted. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $200,000. It is urged that tenders be made on the printed forms and forwarded in the special envelopes marked "Tender for Treasury Notes," which will be supplied by Federal Reserve Banks on application therefor.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others than commercial banks will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, federally insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, Federal Reserve Banks and Government accounts. Tenders from others must be accompanied by payment (in cash or the securities referred to in section I which will be accepted at par) of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and price range of accepted bids. Those submitting tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those at the highest prices will be accepted to the extent required to attain the amount offered. Tenders at the lowest accepted price will be prorated if necessary. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $200,000 or less without stated price from any one bidder will be accepted in full at the average price[1] (in two decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after 1:30 p.m., e.d.s.t., Tuesday, May 2, 1972.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own account.

IV. *Payment.* 1. Settlement for accepted tenders in accordance with the bids must be made or completed on or before May 15, 1972, at the Federal Reserve Bank or Branch or at the Office of the Treasurer of the United States, Washington, D.C. 20220, in cash, securities referred to in section I (interest coupons dated May 15, 1972, should be detached) or other funds immediately available by that date. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of notes allotted shall, upon dec-

[1] Average price may be at, or more or less than 100.00.

FEDERAL REGISTER, VOL. 37, NO. 84—SATURDAY, APRIL 29, 1972

V 37-84
APR 29 72
XUM

laration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make settlement by credit in its Treasury Tax and Loan Account for notes allotted to it for itself and its customers. When payment is made with securities, a cash adjustment will be made to or required of the bidder for any difference between the face amount of securities submitted and the amount payable on the notes allotted.

V. *Assignment of registered securities.* 1. Registered securities tendered as deposits and in payment for notes allotted hereunder should be assigned by the registered payees or assignees thereof, in accordance with the general regulations of the Department of the Treasury, in one of the forms hereafter set forth. Securities tendered in payment should be surrendered at the Federal Reserve Bank or Branch or at the Office of the Treasurer of the United States, Washington, D.C. 20220. The securities must be delivered at the expense and risk of the holder. If the notes are desired registered in the same name as the securities surrendered, the assignment should be to "The Secretary of the Treasury for 4¾ percent Treasury Notes of Series E–1973"; if the notes are desired registered in another name, the assignment should be to "The Secretary of the Treasury for 4¾ percent Treasury Notes of Series E–1973 in the name of _____"; if notes in coupon form are desired, the assignment should be to "The Secretary of the Treasury for 4¾ percent Treasury Notes of Series E–1973 in coupon form to be delivered to _____"

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

[SEAL] CHARLS E. WALKER,
Acting Secretary of the Treasury.

[Dept. Circular Public Debt Series—No. 6–72]

6⅜ PERCENT TREASURY BONDS OF 1982

Offering of Notes

APRIL 27, 1972.

I. *Offering of bonds.* 1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders at a price not less than 97.76 percent of their face value for up to $500 million, or thereabouts, of bonds of the United States, designated 6⅜ percent Treasury Bonds of 1982. An additional amount of the bonds may be allotted by the Secretary of the Treasury to Government accounts and Federal Reserve Banks at the average price of accepted tenders in exchange for Treasury notes maturing May 15, 1972. Tenders will be received up to 1:30 p.m., e.d.s.t., Tuesday, May 2, 1972, under competitive and noncompetitive bidding, as set forth in section III hereof. The 4¾ percent Treasury Notes of Series B–1972 and 6¾ percent Treasury Notes of Series D–1972, maturing May 15, 1972, will be accepted at par in payment, in whole or in part, to the extent tenders are allotted by the Treasury.

II. *Description of bonds.* 1. The bonds now offered will be identical in all respects with the 6⅜ percent Treasury Bonds of 1982 issued pursuant to Department Circular, Public Debt Series—No. 2–72, dated January 27, 1972, except that interest will accrue from May 15, 1972. With this exception the bonds are described in the following quotation from Department Circular No. 2–72:

> 1. The bonds will be dated February 15, 1972, and will bear interest from that date at the rate of 6⅜ percent per annum, payable semiannually on August 15, 1972, and thereafter on February 15 and August 15 in each year until the principal amount becomes payable. They will mature February 15, 1982, and will not be subject to call for redemption prior to maturity.
>
> 2. The income derived from the bonds is subject to all taxes imposed under the Internal Revenue Code of 1954. The bonds are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.
>
> 3. The bonds will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.
>
> 4. Bearer bonds with interest coupons attached, and bonds registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000, and $1,000,000. Provision will be made for the interchange of bonds of different denominations and of coupon and registered bonds, and for the transfer of registered bonds, under rules and regulations prescribed by the Secretary of the Treasury.
>
> 5. The bonds will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing U.S. bonds.

III. *Tenders and allotments.* 1. Tenders will be received at Federal Reserve Banks and Branches and at the Office of the Treasurer of the United States, Washington, D.C. 20220, up to the closing hour, 1:30 p.m., e.d.s.t., Tuesday, May 2, 1972. Each tender must state the face amount of bonds bid for, which must be $1,000 or a multiple thereof, and the price offered, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a price. In the case of competitive tenders, the price must be expressed on the basis of 100, with two decimals, e.g., 100.00. Tenders at a price less than 97.76 will not be accepted. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $50,000. It is urged that tenders be made on the printed forms and forwarded in the special envelopes marked "Tender for Treasury Bonds", which will be supplied by Federal Reserve Banks on application therefor.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others than commercial banks will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, federally insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment (in cash or the securities referred to in section I which will be accepted at par) of 5 percent of the face amount of bonds applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by The Department of the Treasury of the amount and price range of accepted bids. Those submitting tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those at the highest prices will be accepted to the extent required to attain the amount offered. Tenders at the lowest accepted price will be prorated if necessary. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $50,000 or less without stated price from any one bidder will be accepted in full at the average price[2] (in two decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or to sell, or to make any agreements with respect to the purchase or sale or other disposition of any bonds of this issue at a specific rate or price, until after 1:30 p.m., e.d.s.t., Tuesday, May 2, 1972.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own account.

[2] Average price may be at, or more or less than $100.

IV. *Payment.* 1. Settlement for accepted tenders in accordance with the bids together with $15.76236 per $1,000 for accrued interest from February 15 to May 15, 1972, must be made or completed on or before May 15, 1972, at the Federal Reserve Bank or Branch or at the Office of the Treasurer of the United States, Washington, D.C. 20220, in cash, securities referred to in section I (interest coupons dated May 15, 1972, should be detached) or other funds immediately available by that date. Payment will not be deemed to have been completed where registered bonds are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished. In every case where full payment is not completed, the payment with the tender up to 5 percent of the amount of bonds allotted shall, upon declaration made by the Secretary of the Treasury in his discretion, be forfeited to the United States. Any qualified depositary will be permitted to make settlement by credit in its Treasury Tax and Loan Account for bonds allotted to it for itself and its customers. When payment is made with securities, a cash adjustment will be required of the bidder for any difference between the face amount of securities submitted and the amount payable, including accrued interest, on the bonds allotted.

V. *Assignment of registered securities.* 1. Registered securities tendered as deposits and in payment for bonds allotted hereunder should be assigned by the registered payees or assignees thereof, in accordance with the general regulations of the department of the Treasury, in one of the forms hereafter set forth. Securities tendered in payment should be surrendered at the Federal Reserve Bank or Branch or at the Office of the Treasurer of the United States, Washington, D.C. 20220. The securities must be delivered at the expense and risk of the holder. If the bonds are desired registered in the same name as the securities surrendered, the assignment should be to "The Secretary of the Treasury for 6⅜ percent Treasury Bonds of 1982"; if the bonds are desired registered in another name, the assignment should be to "The Secretary of the Treasury for 6⅜ percent Treasury Bonds of 1982 in the name of _____"; if bonds in coupon form are desired, the assignment should be to "The Secretary of the Treasury for 6⅜ percent Treasury Bonds of 1982 in coupon form to be delivered to _____".

VI. *General provisions.* 1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of bonds on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive bonds.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

FOREST SERVICE

Draft, April 19

Lolo National Forest, Missoula County, Mont. Proposed aerial spray demonstration (in cooperation with the Department of Defense), on approximately 3,000 acres of western spruce budworm infested timber on the Ninemile Range District. Zectran is the agent to be used. One of the project objectives is to test the suitability of using large cargo aircraft as spray planes in forest environment. Some nontarget terrestrial and aquatic insects are susceptible to Zectran. (ELR Order No. 4232, 51 pages) (NTIS Order No. PB–208 381–D)

Snyder Hill Planning Unit, Colville National Forest, Wash. Proposed implementation of a revised Multiple Use Plan. Approximately 6,500 acres of roadless area would be provided with road and managed for timber, wildlife, aesthetic, and research values. Soil disturbance, erosion, and stream sedimentation will occur due to road construction and logging. (ELR Order No. 4234, 42 pages) (NTIS Order No. PB–208 380–D)

Draft, April 20

Multipurpose Brushland Modification on Seven Plant Associations on National Forest Lands, California. Proposed reduction of brushland sites, through the use of mechanized equipment, prescribed burning, and herbicides; and replanting with grasses and forbs. The purpose of the action is to mitigate the potential for brush wildfires and subsequent flooding. (ELR Order No. 4242, 62 pages) (NTIS Order No. PB–208 373–D)

Road Construction Program, Kootenai National Forest, Mont. Proposed 3-year road construction program, primarily in order to support timber cutting. Approximately 5,000 acres will be stripped of vegetative cover; 40 percent of this acreage will be permanently removed from vegetative production. Some big game range will be lost. (ELR Order No. 4238, 28 pages) (NTIS Order No. PB–208 372–D)

Final, April 20

Cooperative Spruce Budworm Suppression Project, Aroostock and Penobscot Counties, Maine. Proposed treatment of 500,000 acres of State and private woodlands with Zectran, in order to suppress the spruce budworm. Nontarget areas and insects will also be affected. Comments made by USDA, DOC, EPA, HEW, State and local agencies, and concerned citizens. (ELR Order No. 4241, 88 pages) (NTIS Order No. PB–206 057–F)

SOIL CONSERVATION SERVICE

Draft, April 19

Pickett Creek Watershed, Marion County, W. Va. Proposed conservation land treatment measures, construction of one floodwater retarding structure, and 7,030 feet of channel work, including levees, floodwalls, and stream channel improvements. Twenty-two residences will be displaced, and 3,500 feet of free-flowing stream eliminated, as a result of the action. (ELR Order No. 4126, 17 pages) (NTIS Order No. PB–208 385–D)

Draft, April 13

Chicod Creek Watershed, Pitt and Beaufort Counties, N.C. Proposed construction of 66 miles of stream channel works, 11 rock dams, 30 water control structures, 10 sediment traps, one warm-water impoundment, two wildlife wetland preservation areas, and land treatment measures. The purposes of the action are watershed protection and flood control. Approximately 576 acres would be lost to the project; 5 miles of stream fishery habitat would be lost. (ELR Order No. 4188, 46 pages) (NTIS Order No. PB–208 299–D)

ATOMIC ENERGY COMMISSION

Contact: For nonregulator matters: Mr. Joseph J. DiNunno, Director, Office of Environmental Affairs, Washington, D.C. 20545, 202—973–5391. For regulatory matters: Mr. Christopher L. Henderson, Assistant Director of Regulation for Administration, Washington, D.C. 20545, 202—973–7531.

Draft, April 14

Vermont Yankee Power Station, Windham County, Vt. Proposed issuance of an operating license to the Vermont Yankee Nuclear Power Corp. for the operation of the station. The project consists of a single unit boiling reactor with a power rating of 1,593 MW(t), which will have a power output of 540 MW(e). The reactor will be cooled by a once-through flow of water pumped from, and returned to, Vernon Pond, an existing impoundment of the Connecticut River. Mechanical cooling draft towers will also be used. Pond water will be heated from 5° to 10° F. by cooling water effluent; residue chemicals will be introduced to the pond; radioactive effluents may be released; local air may be contaminated with fog formed by condensed water vapor from the cooling towers. (ELR Order No. 4192, 209 pages) (NTIS Order No. PB–208 311–D)

Indian Point Nuclear Generating Plant Unit 2, Westchester County, N.Y. The plant will have three units, each with a pressurized water reactor. This statement refers to the issuance of an operating license to the Consolidated Edison Co. of New York, Inc., for Unit 2, but considers the environmental impact of simultaneous operation of Units 1 and 2. Another statement will be prepared for Unit 3. The electric output of Unit 2 is 873 MWE. A total of 2,600 cu. ft./sec. of water for once-through cooling and

V 37 84 APR 29 72 XUM

service water systems will be drawn from the Hudson River and heated by 15° F. prior to discharge through a canal to the river; it has not been adequately demonstrated by the applicant that thermal discharge standards meet New York State criteria; dissolved oxygen levels in discharge water may be reduced to 3 p.p.m. or less—aeration may be required; the operation of Units 1 and 2 with the present cooling system has the potential, because of mechanical, thermal, and chemical (chlorine) conditions, for long term environmental impact on the aquatic biota inhabiting the Hudson River which could result in permanent damage to the fish population in the river, Long Island Sound, the adjacent New Jersey coast, and the New York Bight. (ELR Order No. 4210, 405 pages) (NTIS Order No. PB–208 314–D)

Draft, April 19

Fort St. Vrain Nuclear Generating Station, Weld County, Colo. Proposed issuance of an operating license to the Public Service Co. of Colorado for the Fort St. Vrain Station. The station will utilize a high-temperature gas-cooled reactor and a conventional steam-turbine generator which will generate 842 MWT and 330 MWE. Approximately 1,000 curies of gaseous radioactive wastes and 0.04 curie of liquid radioactive waste will be released per year to the environment. (ELR Order No. 4236, 154 pages) (NTIS Order No. PB–208 371–D)

Final, April 14

Liquid metal fast breeder reactor (LMFBR) demonstration plant. The statement is in support of AEC's action to effect the design, development, construction, and operation of the LMFBR demonstration plant as part of the overall LMFBR research and development effort. The demonstration plant will be a 300 to 500 MW electrical sodium-cooled, fast neutron reactor, designed to produce more fuel than it consumes. It will be constructed and operated under a cooperative arrangement with the nuclear and utility industries. Specific design and location have not yet been chosen; general criteria and LMFBR technology have been used in the preparation of the statement. Comments made by USDA, DOC, EPA, FPC, HEW, DOI, DOT, the State of New York, and concerned citizens. (ELR Order No. 4189, 411 pages) (NTIS Order No. PB–200 778–F)

Department of Defense

Department of Air Force

Contact: Col. Cliff M. Whitehead, Room 5E 425, The Pentagon, Washington, D.C. 20330, 202—695–2889.

Draft, April 19

Pacific Cratering Experiments (PACE), Eniwetok Atoll, Marshall Islands. Proposed detonation of a series of high-explosive charges at the air-ground interface of selected islands, in order to approximate the effects of nuclear bursts upon hard strategic systems. Craters will be caused by the blasts; chemical and/or radio-chemical contaminants may enter the water. (ELR Order No. 4129, 63 pages) (NTIS Order No. PB–208 369–D)

Department of Army

Corps of Engineers

Contact: Col. William L. Barnes, Executive Director of Civil Works, Attention: DAEN–CWZ–C, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, DC 20314, 202—693–7168.

Draft, April 14

Monongahela River, Fayette and Greene Counties, Pa. Proposed replacement of existing navigation facilities at Lock and Dam 7, and Lock 8. Increases in turbidity and sedimentation will degrade aquatic environmental quality. (ELR Order No. 4194, 15 pages) (NTIS Order No. PB–208 297–D)

Plaquemine Lock Closure, Iberville Parish, La. Proposed construction of an earthen levee, which would permanently close Plaquemine Lock. The purpose of the action is flood control. (ELR Order No. 4195, 18 pages) (NTIS Order No. PB–208 298–D)

Draft, April 17

Monroe Floodwall, Monroe, La. Proposed construction of a 1,750-foot folding floodwall structure on the Ouachita River. (ELR Order No. 4223, 8 pages) (NTIS Order No. PB–208 374–D)

Draft, April 20

Absecon Inlet, Atlantic County, N.J. Proposed maintenance dredging of the inlet channel for navigational purposes. Temporary turbidity during dredging will disturb marine ecosystems. (ELR Order No. 4240, 11 pages) (NTIS Order No. PB–208 377–D)

Final, April 19

Kickapoo River, Vernon County, Wis. Proposed construction of a 3,960-foot long 103-foot high earth-fill dam which would create a multipurpose (flood control, fish and wildlife production, and recreation) lake. The lake would have a surface area of 1,780 acres, and extend 12 miles upstream. A total of 9,780 acres of land would be committed to the project; 22.5 miles of road and 33 bridges would need to be replaced; 73 families would be displaced. The statement is a revised final. Comments made by USDA, EPA, DOI, State, local, and regional agencies, and concerned citizens. (ELR Order No. 4130, 540 pages) (NTIS Order No. PB–204 918–F)

Final, April 14

Bonneville Lock and Dam, Columbia River, Skamania County, Wash. Proposed construction of an Eight-unit second powerhouse at the Bonneville project. The second powerhouse will have the capacity of using 160,000 cu. ft./sec. of water. Total dependable capacity (minus a 22 MW loss at The Dalles) will be 582 MW. It will be necessary, however, to remove the existing town of North Bonneville. Approximately 18 million cu. yd. of material will be excavated and disposed of; 25 acres of wetlands will be lost; the mortality rate of downstream migrant fish will increase. Comments made by USDA, USCG, EPA, FPC, Bureau of Indian Affairs, DOI, NOAA, State, local, and regional agencies. (ELR Order No. 4190, 204 pages) (NTIS Order No. PB–202 133–F)

Small Boat Harbor Project, Bethel, Alaska. Proposed dredging of a 5,100-foot long access channel and a 1,700-foot long harbor area. The purpose of the project is to provide all-tide access to the harbor. Turbidity from dredging will disturb marine ecosystems; water quality levels will decrease as a result of dredging, concomitant erosion, and the use of outboard motors. Comments made by DOC, EPA, DOI, DOT, and State agencies. (ELR Order No. 4196, 34 pages) (NTIS Order No. PB–199 620–F)

Jefferson River, Gallatin County, Mont. Proposed construction of an earth filled levee and a drainage collector ditch approximately 14,700 feet long. The purpose of the project is flood control. Twenty-eight acres would be lost to the action. Comments made by USDA, EPA, DOI, State and local agencies. (ELR Order No. 4197, 33 pages) (NTIS Order No. PB–208 296–F)

Scituate Harbor, Plymouth County, Mass. Proposed dredging of 32 acres in order to provide mooring space for commercial and recreational boats. Temporary turbidity will disturb marine ecosystems. Comments made by USDA, USCG, DOI, State and local agencies. (ELR Order No. 4198, 22 pages) (NTIS Order No. PB–202 804–F)

Roseau River, Roseau County, Minn. Proposed channel enlargement and straightening along 43.7 miles of the river; construction of two reaches of levee; and a possible 10-mile reach of channel work in Canada to be funded by the United States. Approximately 2,400 acres will be lost to the project; the river will be rendered a less desirable habitat for both fish and waterfowl. Comments made by USDA, EPA, DOI, and one State agency. (ELR Order No. 4199, 41 pages) (NTIS Order No. PB–208 295–F)

Gallinas River, Las Vegas, N. Mex. Proposed clearing of 5,200 feet of river channel of obstructing vegetation and sediment deposits. The purpose of the action is flood control. Comments made by EPA, DOI, DOT, State and local agencies, and concerned citizens. (ELR Order No. 4200, 58 pages) (NTIS Order No. PB–205 199–F)

Whitman River, Worcester County, Mass. Proposed construction of a dam, lake, recreation facilities, and appurtenant structures. The purposes of the project are flood control, water quality improvement, recreation, and industrial water supply. Twenty-seven residences, one business, and 638 acres will be lost to the project. Comments made by EPA, DOI, State and local agencies. (ELR Order No. 4202, 140 pages) (NTIS Order No. PB–208 312–F)

Blaine Creek, Lawrence County, Ky. Proposed construction of a dam and other facilities, for purposes of flood control, water quality control, recreation, fish and wildlife enhancement. Approximately 20,800 acres will be committed to the project; 213 residences, six churches, four commercial buildings, and 93 cemeteries will be displaced. Comments made by EPA, DOI, and one State agency. (ELR Order No. 4203, 49 pages) (NTIS Order No. PB–200 941–F)

Minnesota River, Blue Earth and Nicollet Counties, Minn. Proposed construction of levees, floodwalls, road relocations, interior drainage systems and intermittent ponds. The purpose of the action is flood control. Several residences will be displaced and existing ecosystems eliminated. This is a revised final. Comments made by USDA, EPA, HEW, and State agencies. (ELR Order No. 4204, 39 pages) (NTIS Order No. PB–208 294–F)

Final, April 20

Brazos River Basin, Knox County, Tex. Proposed construction of a flood control project consisting of a channel, concrete chute, stilling basin, transition section, and bridge replacements. Approximately 60 acres will be lost to the project. Comments made by USDA, EPA, HEW, HUD, and DOI. (ELR Order No. 4237, 27 pages) (NTIS Order No. PB–206 460–F)

Department of the Navy

Contact: Mr. Joseph A. Grimes, Jr., Special Civilian Assistant to the Secretary of the Navy, Washington, D.C. 20350, 202—697–0892.

Final, April 17

Sanguine System. Sanguine is an extremely low frequency (ELF) communications system. (This statement primarily covers the next 4 years of development; another environmental impact statement would be provided prior to any requests for authorization to construct an operational system.) The Sanguine System, when constructed and deployed, would provide a survivable (after nuclear attack) and reliable military communication system for U.S. Strategic Forces, particularly submarines. The survivability of a Sanguine System would not only insure an ability to execute and control strategic forces, but also clearly demonstrate to a potential enemy the requisite credibility of our national policy which states that the United States will not initiate a nuclear war. Approximately 300 to 500 acres of land, probably in Wisconsin, would be permanently committed to a constructed system. Comments made by USDA, Army COE, EPA, FPC, HEW, Navy, and concerned citizens. (ELR Order No. 4219, 1021 pages) (NTIS Order No. PB–199 732–F)

Federal Power Commission

Contact: Mr. Frederick H. Warren, Advisor on Environmental Quality, 441 G Street NW., Washington, DC 20426, 202—386–6084.

Draft, April 4

Mitchell Project No. 82, Chilton and Coosa Counties, Ala. Proposed approval of an application by the Alabama Power Co. for a renewal permit on its Mitchell Project. The project has a present capacity of 72,500 kw.; the applicant proposes to install an additional 80,000 kw. Also included in the present project are a 106-foot high by 1,264-foot long dam, and a reservoir of 5,850 acres. (ELR Order No. 4191, 97 pages) (NTIS Order No. PB–208 301–D)

Rocky River Project No. 2632, Fairfield and Litchfield Counties, Conn. Proposed approval of an application by the Connecticut Light and Power Co. for its Rocky River Project. The project consists of a 952-foot long earth dam, four dikes, a 5,600-acre reservoir, a steel penstock, and a three-unit, 32,000 kw. powerhouse. (ELR Order No. 4233, 40 pages) (NTIS Order No. PB–208 365–D)

Department of the Interior

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202—343–3891.

Bonneville Power Administration

Final, April 14

Bonneville Power Administration, Washington, Oregon, Idaho, Wyoming, and Montana. Proposed additions to BPA's electric transmission system, including transmission lines, substations, and related structures; and maintenance of existing facilities. Comments made by USDA, Army COE, AEC, EPA, FPC, DOI, and numerous State, regional, and local agencies. (ELR Order No. 4201, 726 pages) (NTIS Order No. PB–202 413–F)

National Park Service

Draft, April 19

Cumberland Island National Seashore, Camden County, Ga. The statement refers to a legislative proposal which would establish Cumberland Island as a National Seashore. This action would preserve the Atlantic barrier island and the related estuarine ecosystem complex for public recreation, improvement of environmental quality of life, and education and research. (ELR Order No. 4231, 38 pages) (NTIS Order No. PB–208 379–D)

National Aeronautics and Space Administration

Contact: Mr. Ralph E. Cushman, Special Assistant, Office of Administration, NASA, Washington, D.C. 20546, 202—962–8107.

Final, April 17

Apollo Program. The statement considers the environmental impact of the Apollo Program. Comments made by EPA. (ELR Order No. 4224, 21 pages) (NTIS Order No. PB–208 366–F)

Department of Transportation

Contact: Mr. Martin Convisser, Director,[1] Office of Program Coordination, 400 Seventh Street SW., Washington, DC 20590, 202—462–4357.

Federal Aviation Agency

Final, April 19

Baxley Municipal Airport, Baxley, Ga. Proposed extending and widening of an existing runway, to enable the airport to accommodate all propeller aircraft of less than 12,500 lb. Approximately 10 acres of land will be lost to the clear zone area. Comments made by USDA, EPA, DOT, State and local agencies. (ELR Order No. 4127, 31 pages) (NTIS Order No. PB–206 167–F)

Neillsville Municipal Airport, Clark County, Wis. Proposed construction of a new airport, including a 60' x 3,000' EW runway, a taxiway, an apron, and an access road, etc. Approximately 170 acres would be committed to the project. Comments made by USDA, Army COE, AEC, EPA, FPC, HEW, HUD, DOI, State and local agencies. (ELR Order No. 4128, 51 pages) (NTIS Order No. PB–204 576–F)

Federal Highway Administration

Draft, April 6

Project F-1128, S.H. 360, Tarrant and Ellis Counties, Tex. Proposed construction of 28 miles of S.H. 360, a four-lane freeway. Approximately 2,000 acres and an unspecified number of residences would be lost to the project, depending upon which of several alternate routes is taken. (ELR Order No. 4153, 35 pages) (NTIS Order No. PB–208 038–D).

Draft, April 5

M–24, Tuscola and Huron Counties, Mich. Proposed construction of approximately 15 miles of two-lane M–24 north of Caro. An unspecified number of residences and amount of land would be lost to the project, depending upon which of several alternate routes is taken. (ELR Order No. 4158, 40 pages) (NTIS Order No. PB–208 041–D)

Draft, April 6

Project U–34–1 ( ), M–53, Macomb County, Mich. Proposed construction of 8 miles of M–53, a 10-lane depressed-freeway urban facility, with a center (11th) mass-transit lane. An unspecified number of structures and amount of land would be committed to the project. (ELR Order No. 4159, 37 pages) (NTIS Order No. PB–208 043–D)

Draft, April 7

U.S. 151, Linn County, Iowa. Proposed construction of 13 miles of U.S. 151 through the cities of Cedar Rapids and Marion. Depending upon which of several alternate routes is taken, between 1,530 and 3,770 persons would be displaced. (ELR Order No. 4161, 33 pages) (NTIS Order No. PB–208 045–D)

Proposed general guidelines for consideration of economic, social, and environmental effects of highway projects. The statement is the response of the Department of Transportation to section 109 (h) of title 23, U.S.C. (ELR Order No. 4163, 27 pages) (NTIS Order No. PB–208 182–D)

Draft, April 11

I–80 Elmore County, Idaho. Proposed construction of 7.7 miles of I–80. One residence, one business, and approximately 163 acres of land would be lost to the project; large hillside cuts would necessitate the construction of retaining walls. (ELR Order No. 4165, 25 pages) (NTIS Order No. PB–208 186–D)

Draft, April 12

N–25, Hitchcock County, Nebr. Proposed construction of a new highway, N–25, to connect U.S. 35 and U.S. 6. Total length of the project is approximately 24 miles, depending upon which of several routes is chosen. Several bridges will be constructed; an unspecified number of residences and amount of land will be taken, depending upon the route. (ELR Order No. 4178, 20 pages) (NTIS Order No. PB–208 195–D)

Draft, April 5

Projects F–221(15) and USG–717(2), Lincoln County, Nebr. Proposed reconstruction of U.S. 83, built to expressway standards, as a bypass of North Platte, with a proposed railroad viaduct to the city. An unspecified amount of land would be taken by the action. (ELR Order No. 4179, 28 pages) (NTIS Order No. PB–208 196–D)

Draft, April 13

I–291, Hartford County, Conn. Proposed construction of I–291, which will serve as a beltway around the city of Hartford, connecting I–91 and I–86. The length of the project varies from 11 to 17 miles (approximately) depending upon the route chosen. The amount of land and number of residences to be committed is not yet known. A 4(f) statement will be filed as city-owned lands would be taken. (ELR Order No. 4185, 132 pages) (NTIS Order No. PB–208 180–D)

I–83, Baltimore City, Md. Proposed construction of 0.7 mile of six-lane I–83, in the city of Baltimore. Ten residences and 58 businesses would be displaced; there would be acoustic and visual impacts upon adjoining areas. The City Fish Market would probably be displaced. Several historic sites and recreational areas along the route would be displaced, necessitating the filing of 4(f) statements. (ELR Order No. 4186, 109 pages) (NTIS Order No. PB–207 181–D)

Draft, April 18

U.S. 50, Montrose County, Colo. Proposed construction of 4.25 miles of U.S. 50. Three residences would be lost to the action. (ELR Order No. 4193, 29 pages) (NTIS Order No. PB–208 300–D)

Draft, April 17

I–95, Baltimore County, Md. Proposed construction of 5.2 miles of eight-lane I–95, including a tunnel; and 1 mile of six-lane I–395, 0.6 mile of six-lane City Boulevard and 2.5 miles of six-lane I–83. An alternate route is also discussed. An unspecified number of buildings would be displaced. Several 4(f) statements would be prepared as recreational areas and historic sites would be affected, including the Fort McHenry National Monument. (ELR Order No. 4218, 166 pages) (NTIS Order No. PB–208 382–D)

U.S. 41, Winnebago County, Wis. Proposed construction of an interchange at the intersection of U.S. 41 and Breezewood Lane. Three residences and an electric power substation will be displaced by the action. (ELR Order No. 4220, 24 pages) (NTIS Order No. PB–208 370–D)

[1] Mr. Convisser's office will refer you to the regional office from which the statement originated.

V 37-84 APR 29 72 XUM

State Route 32, Grainger County, Tenn. Proposed construction of 8.09 miles of four-lane S.R. 32. Ten residences and an unspecified amount of land will be lost to the project. (ELR Order No. 4221, 15 pages) (NTIS Order No. PB-208 384-D)

State Highway 71, Fayette County, Tex. Proposed reconstruction of 10 miles of S.H. 71 from two to four lanes. Two families and one business will be displaced; 210 acres of land will be lost to the project. (ELR Order No. 4222, 30 pages) (NTIS Order No. PB-208 367-D)

Draft, April 19

F.A.S. Route 28, Ogle County, Ill. Proposed reconstruction of 0.705 mile of F.A.S. Route 28. Eleven acres would be lost to the project. (ELR Order No. 4235, 87 pages) (NTIS Order No. PB-208 375-D)

Draft, April 20

U.S. 54, Kingman County, Kans. Proposed construction of 9 miles of four-lane U.S. 54, much of it on new location. An unspecified amount of land will be committed to the project. (ELR Order No. 4239, 10 pages) (NTIS Order No. PB-208 376-D)

Final, April 14

Project U-048-1(5), Highway 9, Conway County, Ark. Proposed construction of 3.6 miles of two-lane Highway 9. Three residences would be displaced by the project. Comments made by USDA, DOC, EPA, DOI, Department of State, State and local agencies. (ELR Order No. 4206, 27 pages) (NTIS Order No. PB-202 424-F)

I-59, De Kalb County, Ala. Proposed construction of a rest area and welcome station on I-59, 0.5 mile south of the Georgia State line. An unspecified amount of land would be lost to the project. Comments made by USDA, Army COE, AEC, EPA, HEW, DOI, and State agencies. (ELR Order No. 4207, 43 pages) (NTIS Order No. PB-208 313-F)

Final, April 11

Project U.S. 1604, Cumberland County, N.C. Proposed construction of 8.3 miles of new four-lane highway. Approximately 25 families and eight businesses will be displaced by the project; an unspecified amount of land will be taken. Siltation is expected, and the local ground water level will be lowered. Comments made by USDA, DOC, EPA, GSA, DOI, OEO, State and local agencies. (ELR Order No. 4208, 56 pages) (NTIS Order No. PB-199 625-F)

Final, April 14

I-40, Navajo County, Ariz. Proposed construction of a section of I-40, beginning on U.S. 66 and extending 8.43 miles east. One residence and an unspecified amount of land will be lost to the action. Comments made by USDA, Army COE, EPA, State and local agencies. (ELR Order No. 4209, 41 pages) (NTIS Order No. PB-204 465-F)

Traffic Route 219, Somerset County, Pa. Proposed construction of an 8-mile length of four-lane, limited access Traffic Route 219. The highway will serve as a connector from Maryland, north through Pennsylvania, to New York. Approximately 220 acres and from 30 to 45 residences would be lost in the action. Comments made by DOC, EPA, FPC, HUD, DOI, State and local agencies. (ELR Order No. 4211, 76 pages) (NTIS Order No. PB-199 623-F)

I-27, Randall County, Tex. Proposed construction of 20.5 miles of I-27, a four-lane divided controlled access highway. Four residences and approximately 955 acres of land will be lost to the project. Comments made by USDA, DOC, EPA, HEW, DOT, one regional agency, and concerned citizens. (ELR Order No. 4212, 61 pages) (NTIS Order No. PB-199 584-F)

I-435, Clay and Platte Counties, Mo. Proposed construction of 15.6 miles of I-435, a freeway standard facility of from four to six lanes. Seventeen families and an unspecified amount of land will be lost to the project. Comments made by USDA, EPA, DOI, DOT, State and local agencies, and concerned citizens. (ELR Order No. PB-200 329-F)

U.S. 50, Harvey County, Kans. Proposed construction of 2.47 miles of four-lane U.S. 50, with four bridges. An unspecified amount of land would be lost to the project. Comments made by USDA, ARMY COE, EPA, HEW, DOI, State and local agencies. (ELR Order No. 4214, 33 pages) (NTIS Order No. PB-199 240-F)

F.A.S. Route 459, Tippecanoe County, Ind. Proposed construction of a bridge and approaches over the Wabash River, north of Lafayette. The present bridge is considered too narrow to be adequate. Comments made by ARMY COE, EPA, DOI, and State agencies. (ELR Order No. 4215, 42 pages) (NTIS Order No. PB-203 478-F)

I-70, Shawnee County, Kans. Proposed reconstruction of 0.6 mile of I-70 in Topeka. A (small) unspecified amount of land would be lost to the project. Comments made by USDA, ARMY COE, USCG, EPA, HEW, DOI, State and local agencies. (ELR Order No. 4216, 31 pages) (NTIS Order No. PB-201 379-F)

S.R. 97, Chelan County, Wash. Proposed construction of 2,000 feet of two-lane roadway and the relocation of the Swakane Canyon approach. The purpose of the action is to provide a viewing point for Lincoln Rock, a natural formation which resembles the profile of Abraham Lincoln. One-half acre of apple orchard will be lost to the project. Comments made by EPA, HUD, DOT, State and local agencies, and numerous concerned citizens. (ELR Order No. 4217, 75 pages) (NTIS Order No. PB-208 302-F)

BRIAN P. JENNY,
Acting General Counsel.

ENVIRONMENTAL PROTECTION AGENCY

CALIFORNIA STATE MOTOR VEHICLE POLLUTION CONTROL STANDARDS

Waiver of Application

On April 25, 1972, the Administrator of the Environmental Protection Agency published in the FEDERAL REGISTER (37 F.R. 8128) a notice of action taken with respect to certain California State Motor Vehicle Pollution Control Standards, pursuant to section 209(b) of the Clean Air Act, as amended (42 U.S.C. 1857f-6a(a), 81 Stat. 501, Public Law 91-604).

In that notice it was stated that:

The record of the public hearing was kept open until February 23, 1971, for the submission of written material, data or arguments by interested persons.

That statement is amended to read:

The record of the public hearing was kept open until February 23, 1972, for the submission of written material, data or arguments by interested persons.

Dated: April 27, 1972.

WILLIAM D. RUCKELSHAUS,
Administrator.

[FR Doc.72-6667 Filed 4-28-72;8:51 am]

ETHEPHON

Notice of Establishment of Temporary Tolerances

Amchem Products, Inc., Ambler, Pa. 19002, submitted a petition (PP 2G1195) requesting establishment of temporary tolerances for residues of the plant regulator ethephon ((2-chloroethyl) phosphonic acid) in or on the raw agricultural commodities pineapples and tomatoes at 2 parts per million.

It has been determined that temporary tolerances for residues of the plant regulator in or on pineapples and tomatoes at 2 parts per million are safe and will protect the public health. They are therefore established as requested on condition that the plant regulator is used in accordance with the temporary permit being issued concurrently by the Environmental Protection Agency and which provides for distribution under the Amchem Products name.

These temporary tolerances expire April 27, 1973.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 F.R. 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticides Programs (36 F.R. 9038).

Dated: April 27, 1972.

WILLIAM M. UPHOLT,
Deputy Assistant Administrator for Pesticides Programs.

[FR Doc.72-6705 Filed 4-28-72;10:51 am]

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs.; Temporary Reg. A-8, Supp. 2]

TRAVEL AND TRANSPORTATION OF, AND ALLOWANCES FOR RELOCATION OF, GOVERNMENT EMPLOYEES

1. *Purpose.* This supplement extends the expiration date of Temporary Regulation A-8 (including supplement 1 thereto).

2. *Effective date.* This supplement is effective upon publication in the FEDERAL REGISTER (4-29-72).

3. *Expiration date.* This supplement expires October 31, 1972, unless sooner superseded or canceled.

Dated: April 27, 1972.

ROD KREGER,
Acting Administrator of General Services.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Textile and Apparel Categories

Correlation With Tariff Schedules of the United States Annotated

V 37 ■ 84 APR 29 72 XUM

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

TEXTILE AND APPAREL CATEGORIES

Correlation With Tariff Schedules of United States Annotated

APRIL 21, 1972.

There is published below a list of the Tariff Schedules of the United States Annotated numbers arranged by the cotton, wool, and made-made fiber categories used by the United States in administering the textile trade agreements program. The Secretary of the Treasury has given prior approval to this notice for purposes of Treasury Department Additional Duty Order No. 4, Wool and Manmade Fibers; Articles Exempt From Additional Duty Under Tariff Schedules of the United States (37 F.R. 887). A full description of the textile and apparel products falling within each of the cotton, wool, and man-made fiber categories may be obtained by using the Tariff Schedules of the United States Annotated item numbers in the list published below to locate the product in the Tariff Schedules of the United States Annotated where descriptive material is provided. The list of Tariff Schedules of the United States Annotated numbers published in the FEDERAL REGISTER on October 9, 1971 (36 F.R. 19722), is hereby superseded effective upon publication of this notice in the FEDERAL REGISTER (4-26-72).

STANLEY NEHMER,
Chairman, Committee for the
Implementation of Textile Agreements,
and Deputy Assistant Secretary for Resources.

Textile and Apparel Categories by Tariff Schedules of the United States Annotated

SECTION I COTTON

TEXTILE Category	TSUSA Number	DESCRIPTION	CONVERSION FACTOR	UNIT OF MEASURE

UNITED
STATES
GOVERNMENT
ORGANIZATION
MANUAL
1971/72

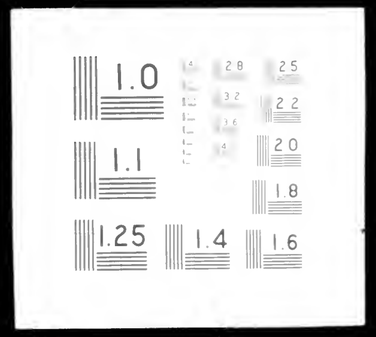
Office of the Federal Register ■ National Archives and Records Service
General Services Administration

Know your Government...

The Manual describes the creation and authority, organization, and functions of the agencies in the legislative, judicial, and executive branches.

Most agency statements include new "Sources of Information" listings which tell you what offices to contact for information on such matters as:

- Consumer activities
- Environmental programs
- Government contracts
- Employment
- Services to small businesses
- Availability of speakers and films for educational and civic groups



This handbook is an indispensable reference tool for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

RESOLUTION CHART

100 MILLIMETERS

INSTRUCTIONS Resolution is expressed in terms of the lines per millimeter recorded by a particular film under specified conditions. Numerals in chart indicate the number of lines per millimeter in adjacent "E-shaped" groupings.

In microfilming, it is necessary to determine the reduction ratio and multiply the number of lines in the chart by this value to find the number of lines recorded by the film. As an aid in determining the reduction ratio, the line above is 100 millimeters in length. Measuring this line in the film image and dividing the length into 100 gives the reduction ratio. Example: the line is 20 mm. long in the film image, and 100 ÷ 20 = 5.

Examine "E-shaped" line groupings in the film with microscope, and note the number adjacent to finest lines recorded sharply and distinctly. Multiply this number by the reduction factor to obtain resolving power in lines per millimeter. Example: 7.9 group of lines is clearly recorded while lines in the 10.0 group are not distinctly separated. Reduction ratio is 5, and 7.9 x 5 = 39.5 lines per millimeter recorded satisfactorily. 10.0 x 5 = 50 lines per millimeter which are not recorded satisfactorily. Under the particular conditions, maximum resolution is between 39.5 and 50 lines per millimeter.

Resolution, as measured on the film, is a test of the entire photographic system, including lens, exposure, processing, and other factors. These rarely utilize maximum resolution of the film. Vibrations during exposure, lack of critical focus, and exposures yielding very dense negatives are to be avoided.
